SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1472]

AMERICAN POWER & LIGHT CO. AND TEXAS PUBLIC UTILITIES CORP.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 29th day of May A. D. 1947.

American Power & Light Company ("American"), a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, and American's wholly-owned non-utility subsidiary, Texas Public Utilities Corporation ("Texas"), having filed a joint declaration and amendments thereto, in which sections 12 (b) and 12 (f) of the act and Rules U-44 and U-45 promulgated thereunder are designated as applicable to the following transactions:

Texas is a corporation organized under the laws of the State of Texas and owns and operates certain ice and cold storage facilities in that State. All of its issued and outstanding securities, consisting of 10,000 shares of common stock without par value and a past-due 7% income note in the principal amount of $2,200,000, are owned by American. American states that it has invited bids from a limited number of prospective purchasers for the securities of Texas and has accepted the highest of six bids submitted, namely, that of a group consisting of twenty residents of Texas ("Thompson Group"), none of whom is affiliated or associated with declarants. American has entered into an agreement with the Thompson Group whereby American will sell and the Thompson Group will purchase the securities of Texas for a cash consideration of $711,000 plus $118.50 for each day elapsed from March 31, 1947 to the closing date, and within 5 days after the closing date, the purchasers will cause Texas to pay to American the further sum of $160,000.

American has further entered into an agreement with Texas under which Texas agrees to assign to American its claim against Electric Bond and Share Company and the latter's present or former subsidiary service companies, and American agrees to reimburse Texas out of any proceeds from such claims for all amounts subsequently paid by Texas as state or Federal income or excess profits taxes on account of the proceeds of such claims, and all expenses incurred by Texas in connection with the claims so assigned. American further agrees to indemnify Texas against liability for Federal income or excess profits taxes in excess of the amounts shown therefor on the books of Texas for each of the years ended December 31, prior to and including the year ended December 31, 1946 and that portion of 1947 ended the last day of the month last preceding the sale of the securities. It is further agreed that American may include Texas in a consolidated income tax return up to the date last above mentioned;

It is stated that no commission was paid or is to be paid in connection with the sale of the securities; and

American having requested that the order of the Commission conform to the requirements of section 1808 (f) of the Internal Revenue Code, as amended, and Supplement R thereof, and contain the findings therein specified; and

Said joint declaration having been filed on March 8, 1947, and amendments thereto having been filed on May 16, 1947 and May 20, 1947, and notice of said filing, as amended, having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said joint declaration, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to the joint declaration, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said joint declaration, as amended, be granted and permitted to become effective, and deeming it appropriate to grant the request of joint declarants that the order become effective at the earliest date possible;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24 that said joint declaration, as amended, be, and the same hereby is, permitted to become effective forthwith; and

It is further ordered, That the sale by American to the Thompson Group of the securities of Texas, consisting of 10,000 shares of common stock without par value and a past-due 7% income note in the principal amount of $2,200,000 for a cash consideration of $711,000 plus $118.50 for each day elapsed from March 31, 1947 to the closing date and the further payment, within 5 days after the closing, of $160,000 which the purchasers will cause Texas to pay to American, is necessary or appropriate to the integration or simplication of the holding company system of which American is a member and is necessary to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935.

MIDDLE WEST CORP.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 2d day of June A. D. 1947.

Notice is hereby given that The Middle West Corporation ("Middle West"), a registered holding company, has filed a declaration, and amendment thereto, with this Commission pursuant to the Public Utility Holding Company Act of 1935. The declarant has designated section 12 (d) of the act and Rule U-44 thereunder as applicable to the transactions proposed.

Notice is further given that any interested person may, not later than June 9, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration, as amended, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after June 9, 1947, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule

U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said declaration, as amended, which is on file in the offices of this Commission for a statement of the transactions therein proposed which are summarized as follows:

Public Service Company of Indiana, Inc. ("Service Company"), a subsidiary of Middle West and the parent of Indiana Gas & Water Company, Inc. ("Gas-Water") has adopted a program of distributing to its own common stockholders its holdings of the common stock, $10 par value, of Gas-Water in the form of quarterly dividends in lieu of cash dividends at the rate of $\frac{1}{20}$ share of Gas-Water common on each share of Service Company common. Under this program the initial dividend was payable on March 1, 1947 and the Board of Directors of Service Company has declared the second quarterly distribution payable on or about June 1, 1947. Middle West, as the owner of 224,586 shares (approximately 20.27%) of the common stock of Service Company, will hold, as a result of the payment of these dividends, a total of 22,458¾ shares of the common stock of Gas-Water.

Middle West proposes to sell said shares of Gas-Water common stock to certain of the directors of Gas-Water and Service Company, or to members of their families, and to a business enterprise, of which one of such directors is President, at a price of $14 per share, for a total consideration of $314,420.40, as follows:

Purchasers	Amount in shares
Hugh A. Barnhart	300
Ruth P. Griffith	1,000
William C. and Ruth P. Griffith, trustees:	
For William C. Griffith, Jr.	1,500
For Charles P. Griffith	1,500
For Walter F. Griffith	1,500
Mary F. Hulman	1,800
Mary A. Hulman	3,000
Edith A. Ward	1,800
Edith A. Ward, trustee: For Edith Ward, daughter	200
P. C. Ward & Co., Inc.	9,258¾
	22,458¾

It is stated that such purchases are for investment and not for resale or distribution.

The declarant requests that the Commission's order permitting such declaration, as amended, to become effective be issued on or before June 16, 1947 and that it shall be effective forthwith.

By the Commission.

UNITED STATES MARITIME COMMISSION

[Docket No. 659]

FREE TIME AND DEMURRAGE CHARGES AT NEW YORK

NOTICE OF HEARING ON PROPOSED RULE MAKING

In Docket No. 221, Storage of Import Property, 1 U. S. M. C. 676, decided November 16, 1937, the Commission ordered the respondents therein to cease and desist from allowing more than ten days' free time (exclusive of Sundays and legal holidays) on import property at the port of New York.

In 1941, for the purpose of minimizing congestion of the port in the interest of national defense, the Commission requested carriers to reduce free time on import property at New York to five days, which (exclusive of Saturdays, Sundays and legal holidays, and with some exceptions) is the free time period now in effect. Demurrage charges are imposed on the basis of penalty rates which increase progressively for successive periods after expiration of free time.

Shippers and consignees have submitted to the Commission evidence tending to show that free time allowances and penalty charges currently in effect at New York are inequitable as to them in the light of present conditions and result in unwarranted hardships.

The termination of hostilities and the consequent adjustment of commerce to a peacetime basis call for re-examination by the Commission of questions pertaining to the storage of import property at New York with special reference to free time and demurrage charges. The Commission desires to receive evidence of conditions in the port relevant to such questions for use in determining what action, if any, is required to assure the establishment, observance and enforcement of just and reasonable regulations and practices.

Accordingly, pursuant to sections 17 and 22 of the Shipping Act, 1916, and section 4 (a) of the Administrative Procedure Act, *It is ordered*, That the Commission institute public hearings for the purpose of obtaining the views of interested persons (including individuals, corporations, associations, firms, partnerships and public bodies) with respect to free time and demurrage charges on import property at the port of New York; and, *It is further ordered*, That all persons desiring to be heard at such hearings file with the Commission within twenty days from the publication of this notice in the FEDERAL REGISTER written request to appear and be heard; and, *It is further ordered*, That this notice be published in the FEDERAL REGISTER and that the matter be assigned for hearing at such times and places as the Commission may hereafter direct, and that such hearings be conducted in accordance with the rules of procedure of the Commission.

By order of the United States Maritime Commission.

FEDERAL REGISTER

VOLUME 12 NUMBER 113

Washington, Tuesday, June 10, 1947

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

[Plum Order 7]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.308 *Plum Order 7*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR, Cum. Supp., 936.1 et seq.), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the regulation of shipments of Wickson plums, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 9, 1947, and ending at 12:01 a. m., P. s. t., October 11, 1947, no shipper shall ship:

(i) Any package or container of Wickson plums containing plums which do not meet the requirements of U. S. No. 1 grade (as specified for such grade in the United States Standards for plums and prunes (fresh), 12 F. R. 2305), with a total tolerance of ten (10) percent for defects not considered serious damage, in addition to the usual tolerances permitted in said United States Standards; or

(ii) Any package or container of Wickson plums containing plums of a size smaller than the size that will pack a 4 x 5 standard pack, as specified in the aforesaid United States Standards, in a standard basket, as specified in paragraph numbered 1 of section 828.1 of the Agricultural Code of California. The aforesaid 4 x 5 standard pack is defined more specifically in subparagraph (4) of this paragraph.

(2) During the period set forth in subparagraph (1) of this paragraph:

(i) The total quantity of Wickson plums which a shipper may ship during any day, from any shipping point, shall meet the following additional conditions:

(*a*) Of said total quantity, at least eighty (80) percent, by number of packages, shall be of a size not smaller than a size that will pack a 4 x 4 standard pack, as specified in the aforesaid United States Standards, in the aforesaid standard basket; and said 4 x 4 standard pack is defined more specifically in subparagraph (3) of this paragraph; and

(*b*) The remainder of such total quantity may be of a size that will pack a 4 x 5 standard pack, as aforesaid, or of larger sizes up to, but not including, a size that will pack a 4 x 4 standard pack, as aforesaid.

(ii) If any shipper, during any two (2) consecutive days, ships from any such shipping point less than the maximum allowable portion of such Wickson plums that will pack a 4 x 5 standard pack, and larger sizes, as aforesaid, the amount of such undershipment of such plums may be shipped only during the next succeeding calendar day, in addition to such Wickson plums of such size that the respective shipper could have shipped on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(3) As used in this section, the aforesaid 4 x 4 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the total of such plums contained in any such pack measure not less than $1^{13}/_{16}$ inches

in diameter, such diameter, as defined in the aforesaid United States Standards, being the shortest distance measured through the center of the plum at right angles to a straight line running from the stem to the blossom end; (ii) at least sixty (60) percent, by count, of the total of such plums contained in any such pack measure, as aforesaid, not less than $1\frac{11}{16}$ inches in diameter; and, (iii) no plums contained in any such pack measure, as aforesaid, less than $1\frac{9}{16}$ inches in diameter.

(4) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the total of such plums contained in any such pack measure, as aforesaid, not less than $1\frac{11}{16}$ inches in diameter, (ii) at least sixty (60) percent, by count, of the total of such plums contained in any such pack measure, as aforesaid, not less than $1\frac{9}{16}$ inches in diameter; and (iii) no plums contained in any such pack measure, as aforesaid, less than $1\frac{7}{16}$ inches in diameter.

(5) Nothing contained herein shall be construed (i) as preventing a shipper from shipping Wickson plums of a size larger than the size that will pack a 4 x 4 standard pack, as aforesaid, if said plums meet the grade requirements hereof, or (ii) as permitting the shipment of Wickson plums of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, even if the plums do meet said grade requirement.

(6) Each shipper, prior to making each shipment of Wickson plums shall, during the period set forth in sub-paragraph (1) of this paragraph, have the plums included in each such shipment inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved; and each such shipper shall submit promptly, or cause to be submitted promptly, to the Plum Commodity Committee, Federal-State shipping point inspection certificates stating the grades and sizes of the Wickson plums contained in each such lot or shipment: *Provided, however,* That in case the following conditions exist in connection with any such shipment:

(i) A request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The fruit is available for inspection between the hours of 7:00 a. m. and 8:00 p. m. of the day specified in the request for such inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted, such signed statement to the Plum Commodity Committee, may make the particular shipment without such inspection, but such shipper shall still be held responsible for conforming with all grade and size regulations applicable to such shipment.

(7) The determination in § 936.301 with respect to shipments of plums into, in, or through the San Francisco-Sacramento region and the Los Angeles region shall be applicable to this section.

(8) The terms "shipper," "ship," "shipping," "shipping point," and "shipment," shall have the same meaning as when used in the amended marketing agreement and order. The term "serious damage" shall have the same meaning as set forth in the aforesaid United States Standards.

[Plum Order 8]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.309 *Plum Order 8*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR, Cum. Supp., 936.1 et seq.), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the regulation of shipments of El Dorado plums, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01, a. m., P. s. t., June 9, 1947, and ending at 12:01 a. m., P. s. t., October 11, 1947, no shipper shall ship:

(i) Any package or container of El Dorado plums containing plums which do not meet the requirements of U. S. No. 1 grade (as specified for such grade in the United States Standards for plums and prunes (fresh), 12 F. R. 2305), with a total tolerance of ten (10) percent for defects not considered serious damage, in addition to the usual tolerances permitted in said United States Standards; or

(ii) Any package or container of El Dorado plums containing plums of a size smaller than the size that will pack a 5 x 5 standard pack, as specified in the aforesaid United States Standards, in a standard basket, as specified in paragraph numbered 1 of section 828.1 of the Agricultural Code of California. The aforesaid 5 x 5 standard pack is defined more specifically in subparagraph (4) of this paragraph.

(2) During the period set forth in subparagraph (1) of this paragraph:

(i) The total quantity of El Dorado plums which a shipper may ship during any day, from any shipping point, shall meet the following additional conditions:

(a) Of said total quantity, at least eighty-five (85) percent, by number of packages, shall be of a size not smaller than a size that will pack a 4 x 5 standard pack, as specified in the aforesaid United States Standards, in the aforesaid standard basket; and said 4 x 5 standard pack is defined more specifically in subparagraph (3) of this paragraph; and

(b) The remainder of such total quantity may be of a size that will pack a 5 x 5 standard pack, as aforesaid, or of larger sizes up to, but not including, a size that will pack a 4 x 5 standard pack, as aforesaid.

(ii) If any shipper, during any two (2) consecutive days, ships from any such shipping point less than the maximum allowable portion of such El Dorado plums that will pack a 5 x 5 standard pack, and larger sizes, as aforesaid, the amount of such undershipment of such plums may be shipped only during the next succeeding calendar day, in addition to such El Dorado plums of such size that the respective shipper could have shipped on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(3) As used in this regulation, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the total of such plums contained in any such pack measure not less than $1\frac{11}{16}$ inches in diameter, such diameter, as defined in the aforesaid United States Standards, being the shortest distance measured through the center of the plum at right angles to a straight line running from the stem to the blossom end; (ii) at least sixty (60) percent, by count, of the total of such plums contained in any such pack measure, as aforesaid, not less than $1\frac{9}{16}$ inches in diameter; and, (iii) no plums contained in any such pack measure, as aforesaid, less than $1\frac{7}{16}$ inches in diameter.

(4) As used in this section, the aforesaid 5 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the total of such plums contained in any such pack measure, as aforesaid, not less than $1\frac{9}{16}$ inches in diameter, (ii) at least sixty (60) percent, by count, of the total of

such plums contained in any such pack measure, as aforesaid, not less than $1^{5}/_{16}$ inches in diameter; and (iii) no plums contained in any such pack measure, as aforesaid, less than $1^{5}/_{16}$ inches in diameter.

(5) Nothing contained herein shall be construed (i) as preventing a shipper from shipping El Dorado plums of a size larger than the size that will pack a 4 x 5 standard pack, as aforesaid, if said plums meet the grade requirements hereof, or (ii) as permitting the shipment of El Dorado plums of a size smaller than a size that will pack a 5 x 5 standard pack, as aforesaid, even if the plums do meet said grade requirements.

(6) Each shipper, prior to making each shipment of El Dorado plums shall, during the period set forth in subparagraph (1) of this paragraph, have the plums included in each shipment inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved; and each such shipper shall submit promptly, or cause to be submitted promptly, to the Plum Commodity Committee, Federal-State shipping point inspection certificates stating the grades and sizes of the El Dorado plums contained in each such lot or shipment: *Provided, however*, That, in case the following conditions exist in connection with any such shipments:

(i) A request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The fruit is available for inspection between the hours of 7:00 a. m. and 8:00 p. m. of the day specified in the request for such inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time:

the shipper, by submitting or causing to be submitted, such signed statement to the Plum Commodity Committee, may make the particular shipment without such inspection, but such shipper shall still be held responsible for conforming with all grade and size regulations applicable to such shipment.

(7) The determination in § 936.301 with respect to shipments of plums into, in, or through the San Francisco-Sacramento region and the Los Angeles region shall be applicable to this section.

(8) The terms "shipper," "ship," "shipping," and "shipping point" shall have the same meaning as when used in the amended marketing agreement and order. The term "serious damage" shall have the same meaning as set forth in the aforesaid United States Standards.

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

[Departmental Reg. OR 4]

PART 1—FUNCTIONS AND ORGANIZATION

DEPARTMENTAL COMMITTEES

Under authority contained in R. S. 161 (5 U. S. C. 22), and pursuant to Executive Order 9830, § 01.4, paragraph (a) (12 F. R. 1261) and Civil Service Commission Departmental Circular 552 of March 7, 1946, the Secretary of State prescribes the following regulations for inclusion in Part 1 of Title 22 of the Code of Federal Regulations.

§ 1.2551 *Committee of Expert Examiners*—(a) *Establishment.* A Committee of Expert Examiners is hereby established in the Department of State, in accordance with written agreement entered into by the Civil Service Commission and the Department, for the purpose of conducting examinations and filling scientific, professional (except legal), and technical positions peculiar to the Department service.

(b) *Functions.* The Committee shall:

(1) Determine what examinations are necessary.

(2) Establish Panels of Experts and designate members to serve thereon, subject to the approval of the Civil Service Commission, to assist in carrying out the examination program.

(3) Coordinate the activities of the Panels.

(4) Direct and review the work of the Panels.

(5) Promote the educational program relating to examinations.

(6) Represent the Secretary of State in negotiations with the Civil Service Commission respecting the examination program.

(c) *Membership.* (1) Membership of the Committee shall consist of not less than three officers or employees of the Department, each of whom must be outstanding in one of the scientific, professional, or technical fields for which examinations are to be held.

(2) All members shall be nominated by the Division of Departmental Personnel, approved by the Secretary of State, and subsequently acknowledged by the Civil Service Commission.

(3) The Chairman, designated by the Secretary of State, shall provide executive direction to the work for which the Committee is responsible.

(4) The Executive Secretary, designated by the Chief of the Division of Departmental Personnel, shall serve as a consultant and adviser to the Committee and shall assist in the coordination of the activities.

(d) *Policies governing the work of the Committee.* (1) No member of the Committee or Panels of Experts shall participate in any work of the Committee for which he or a relative is or may become an applicant.

(2) The work performed by members of the Committee or Panels of Experts shall be considered as part of their official duties, and adequate time shall be allowed for performance of such duties. (R. S. 161; 5 U. S. C. 22; E. O. 9830, Feb. 24, 1947, 12 F. R. 1259)

This regulation will become effective immediately upon publication in the FEDERAL REGISTER.

Issued: May 22, 1947.

Approved: May 22, 1947.

For the Secretary of State.

Sections 81.0 to 81.62, inclusive, are revoked and the following new sections are substituted therefor:

§ 81.0 *Definitions.* (a) "Secretary" means the Secretary of the Interior; (b) "Commissioner" means the Commissioner of Indian Affairs, Department of the Interior; (c) "Superintendent" means the Superintendent of an Indian Agency; (d) "Examiner of Inheritance" means any employee upon whom authority has been conferred by the Secretary or the Commissioner to conduct hearings in accordance with the regulations of this part; (e) "Agency" means the Indian Agency having jurisdiction over an estate; (f) "Department" means the Department of the Interior.

§ 81.1 *Administration of estates.* The heirs of Indians who die intestate possessed of trust or restricted property shall be determined by Examiners of Inheritance except as otherwise provided in the regulations in this part. The wills of deceased Indians disposing of trust or restricted property shall be approved or disapproved by Examiners of Inheritance except as otherwise provided in the regulations in this part. Claims against the estates of Indians shall be allowed or disallowed by Examiners of Inheritance in accordance with the regulations in this part.

§ 81.2 *Notice of hearings.* Hearings to determine the heirs of deceased Indians or to probate their wills shall be conducted only after notice of the time and place of such hearings shall have been posted for twenty (20) days in five (5) or more conspicuous places on the reservation of which the decedent was a resident or, if the decedent was not a resident of a reservation, in five (5) or more conspicuous places in the vicinity of the proposed place of hearing.

§ 81.3 *Contents of notice.* The notice shall state that the Examiner of Inheritance will, at the time and place specified therein, take testimony to determine the heirs of the deceased Indian (naming him) and, if a will is offered for probate, testimony as to the validity of such will. The notice shall list the presumptive heirs of the decedent, and, if a will is offered for probate, the beneficiaries under such will and the attesting witnesses to the will. The notice shall cite the regulations in this part as the source of the legal authority and jurisdiction for the holding of the hearing. It shall call upon all persons interested in the estate of the deceased Indian, including all persons having claims or accounts against the deceased Indian, to be present at the hearing. It shall call upon presumptive heirs to bring with them to the hearing two disinterested persons who are acquainted with and have a direct knowledge of the family history of the deceased. The notice shall state further that the Examiner of Inheritance may, in his discretion, continue the hearing at another time and place to be announced at the original hearing.

§ 81.4 *Service on interested parties.* A copy of the notice of hearing shall be served personally or by mail, addressed to the party at his last known place of residence, on each presumptive heir and each known claimant against the estate, and, if a will is offered for probate, on each beneficiary under and each attesting witness to the will. Such notice must be served or mailed a sufficient time in advance of the date set for the hearing to enable the interested parties to attend the hearing.

§ 81.5 *Uncontested estates.* In a case involving no contest, the parties in interest may appear before the Examiner of Inheritance and waive their right to the twenty (20) days' notice. In that event, the Examiner of Inheritance may take their testimony immediately. At the time and place set for the hearing in the notice, the testimony and the waiver shall be read aloud in order to afford any other persons who are present an opportunity to offer objections and to establish their interest. The Examiner of Inheritance will then proceed with the hearing in the usual manner if objections are offered.

§ 81.6 *Minors represented at hearings.* Minors in interest must be represented at the hearing by guardians ad litem appointed by the Examiner of Inheritance.

§ 81.7 *Attorneys.* Interested parties may appear in person or by attorneys admitted to practice in the State where the hearing is held. Attorneys must secure powers of attorney from their clients authorizing them to appear in the proceeding. Attorneys will be required to adhere to the rules of evidence of the State in which the evidence is taken.

§ 81.8 *Oaths, authority to administer.* Examiners of Inheritance are authorized to administer oaths.

§ 81.9 *Compulsory attendance of witnesses.* The Examiner of Inheritance may issue a subpoena under 25 U. S. C. 374 to any person whose testimony he believes to be material to the proper disposition of any estate set for hearing. Upon the failure or refusal of any person to whom a subpoena shall have been issued to appear at the hearing or to testify, the Examiner of Inheritance may file a petition in the appropriate United States District Court requesting that the court issue an order requiring the appearance and testimony of the witness.

§ 81.10 *Examination of witnesses.* All witnesses shall be examined under oath, and their testimony shall be reduced to writing. Any interested party may cross-examine any witness. Affidavits or depositions may be introduced in evidence if the affiants or deponents are present at the hearing and are available for cross-examination by interested parties, or if, in the case of depositions, interested parties have been given a reasonable opportunity to be present when the depositions were taken or to submit counter interrogatories to be answered by the deponents.

§ 81.11 *Limiting number of witnesses.* When the evidence seems clear and conclusive, the Examiner of Inheritance may, in his discretion, limit the number of witnesses to be formally examined upon any matter.

§ 81.12 *Wills, validity attested.* No action shall be taken on the will of a deceased Indian until testimony shall have been taken as to the testamentary capacity of the decedent to execute the will and as to the circumstances surrounding its execution. A reasonable effort shall be made to procure the testimony of the attesting witnesses to the will; or, if their testimony is not reasonably available, an effort shall be made to identify their signatures through other evidence.

§ 81.13 *Supplemental hearing.* When it appears that a supplemental hearing is necessary to secure material evidence, such a hearing may be conducted after notice has been given to those persons on whom notice of the original hearing was served and to such other persons as the testimony taken at the original hearing indicates may have a possible interest in the estate.

§ 81.14 *Record.* After the completion of the hearing or hearings, the Examiner of Inheritance shall make up the record on the estate. The record shall contain: (a) A copy of the public notice of hearing; (b) copies of notices served on interested parties; (c) proof of service of notices; (d) the evidence received at the hearing or hearings, which should include, among other things, copies of any pertinent marriage records and decrees of divorce, certificates of appraisement of restricted property, information as to whether the decedent lived on trust land and, if so, whether any portion of the same could be termed a homestead, and, if a homestead right is involved and that right is limited in value by the law of the State governing descent, an additional certificate of appraisement showing separately the value of the land claimed as a homestead and the improvements thereon; and (e) the decision, if made by the Examiner of Inheritance.

§ 81.15 *Decision.* The Examiner of Inheritance shall, except as provided in §§ 81.20 and 81.21, decide the issues of fact and law involved in the proceeding and shall incorporate his findings and conclusions in a decision. Every decision determining the heirs of an Indian

who died intestate shall cite the law of descent and distribution in accordance with which the decision was made. Every decision approving the will of an Indian shall state the devisees and legatees who take under the will and the particular property which each is to receive, and shall construe any ambiguous provision of the will. Every decision shall state those claims against the estate which are allowed and those claims which are disallowed. A copy of the decision shall be mailed to each person who is found by the Examiner to be entitled to share in the estate, to each person whose claim to share in the estate was considered and denied by the Examiner, and to the Superintendent.

§ 81.16 *Distribution of estate.* Distribution of an estate may be made by the Superintendent after sixty (60) days have elapsed from the date upon which notice of the decision is mailed to the interested parties unless, within that period, a petition for rehearing is filed pursuant to § 81.17 or unless otherwise directed by the Commissioner.

§ 81.17 *Rehearing.* (a) Any person who feels aggrieved by the decision of the Examiner may file a written petition for rehearing within sixty (60) days from the date of notice to the parties of the decision. The petition shall be addressed to the Examiner of Inheritance and shall be filed with or mailed to him at his headquarters. A petition so filed shall act as a supersedeas until otherwise directed by the Examiner of Inheritance. The Examiner shall immediately notify the Superintendent of the filing of the petition.

(b) If the Examiner believes that proper grounds are not shown, the rehearing will be denied by the Examiner, who will issue his order setting forth the reasons for the denial of the petition. Copies of the order shall be furnished to the petitioner, the Superintendent, and to those persons who share in the estate.

(c) If the petition appears to show merit, the Examiner shall cause copies of the petition and supporting papers to be served on those persons whose interest in the estate might be adversely affected by the granting of the petition. The Examiner shall allow all persons served with copies of the petition a reasonable specified time in which to submit answers or legal briefs in opposition to the petition. Thereafter, the case will be reconsidered by the Examiner and appropriate action will be taken, which may consist of adhering to the former decision, or of modifying or vacating it, or of making such further or other order as the Examiner deems warranted. Copies of the Examiner's action shall be furnished to the petitioner, to all persons who received copies of the petition, and to the Superintendent.

§ 81.18 *Reopening.* (a) Within a period of three (3) years from the date of a decision by an Examiner of Inheritance under the regulations in this part, but not thereafter, any person claiming an interest in the estate who had no actual notice of the original proceedings and who was not on the reservation or otherwise in the vicinity at any time while the public notices of the hearing were posted may petition in writing for reopening of the case. Any such petition shall be addressed to the Examiner of Inheritance and shall be filed with or mailed to him at his headquarters. All grounds for the reopening must be set forth fully. If based on alleged errors of fact, all such allegations must be under oath and must be accompanied by affidavits or other supporting evidence.

(b) If he believes that proper grounds are not shown, the petition will be denied by the Examiner, who will issue his order setting forth the reasons for the denial of the petition. Copies of the order shall be furnished to the petitioner, the Superintendent, and to those persons who share in the estate.

(c) If the petition appears to show merit, the Examiner shall cause copies of the petition and all papers filed by the petitioner to be served on those persons whose interest in the estate might be adversely affected by the granting of the petition. An opportunity to answer the petition or to file briefs shall be afforded to all persons who receive copies of the petition. The answers or briefs must be filed within such reasonable time as the Examiner may specify. Thereafter, the case will be reconsidered and appropriate action will be taken, which may consist in adhering to the former decision, or in modifying or vacating it, or in making any further or other order which the Examiner deems warranted. Copies of the Examiner's action shall be furnished to the petitioner, to all persons who received copies of the petition, and to the Superintendent.

§ 81.19 *Appeals.* (a) Any person who feels aggrieved by the action taken by the Examiner of Inheritance on a petition for rehearing or a petition for reopening may, within sixty (60) days after the date of the notice of the action of the Examiner on the petition, file with the Examiner a notice of appeal to the Secretary. Such notice of appeal shall be in writing and shall set forth the reasons for the appeal. Copies of the notice of appeal shall be furnished by the appellant to the Superintendent and to all parties who share in the estate under the decision of the Examiner, and the notice of appeal shall contain a certificate stating that this has been done.

(b) The appeal and the record in the proceeding, including all papers relating to the petition for rehearing or reopening, shall be submitted to the Secretary through the Commissioner.

(c) The appellant and any other interested party may, within sixty (60) days from the date on which a notice of appeal is filed, submit written arguments to the Secretary.

(d) No distribution of any estate shall be made during the pendency of an appeal.

(e) Copies of the decision of the Secretary on the appeal will be mailed to (1) the Examiner, (2) the Superintendent, (3) the Commissioner, (4) each person who shares in the estate under the decision of the Secretary, and (5) each person whose claim to share in the estate is considered and denied by the Secretary.

§ 81.20 *Presumption of death.* When the record in any estate discloses that there is a presumption of death of an Indian by reason of his unexplained absence over the statutory period of years, the record shall be transmitted to the Commissioner for decision. The provisions of §§ 81.15 to 81.19, inclusive, shall be applicable to cases decided by the Commissioner under this section in like manner as to cases decided by an Examiner of Inheritance, the word "Commissioner" being substituted for "Examiner" or "Examiner of Inheritance" in such sections insofar as cases under this section are concerned.

§ 81.21 *Escheat.* When the record in any estate indicates that an Indian has died intestate without heirs, the record shall be transmitted to the Secretary for decision.

§ 81.22 *Probate fees, by whom paid and amount.* (a) Upon a determination of the heirs to any trust or restricted Indian property of the value of $250 or more or to any allotment, or after approval of any will disposing of such trust or restricted property, the following fees shall be paid (1) by the heirs, or (2) by the beneficiaries under the will, or (3) from the estate of the decedent, or (4) from the proceeds of the sale of the allotment, or (5) from any trust funds belonging to the estate of the decedent:

On estates appraised at:

$250 and not exceeding $1,000	$20.00
Over $1,000 and less than $2,000	25.00
$2,000 and not exceeding $3,000	30.00
Over $3,000 and not exceeding $5,000	50.00
Over $5,000 and not exceeding $7,500	65.00
Over $7,500	75.00

(b) Similar fees shall be collected in all estates probated by the Department in compliance with tribal resolutions requesting that the Department provide probate service.

§ 81.23 *Creditors' claims, filing.* (a) Persons having claims against the estates of deceased Indians may file the same with the Superintendent or the Examiner of Inheritance at any time after the death of the decedent and up to and including the time of hearing.

(b) The claims of non-Indians must be filed in triplicate. They must be itemized in detail and sworn to before a notary public. Each such claim must be supported by an affidavit of the claimant or someone in his behalf that the amount is justly due from decedent, that no payments have been made on the account that are not credited thereon, and that there are no offsets to the knowledge of affiant.

(c) Indians may submit claims against the estate of a deceased Indian at the hearing and subject themselves to examination under oath relative thereto.

(d) Claims for care will not receive favorable consideration unless clear and convincing proof is offered showing that the care was given on a promise of compensation and that compensation was expected.

(e) No claims filed after the conclusion of the hearing shall be considered unless the claimant can present satisfactory proof that he had no actual notice of the hearing and that he was not on the reservation or otherwise in the vicinity during the period when the public notices of the hearing were posted.

(f) Any person who has filed a claim must, if so directed by the Examiner of Inheritance, present himself for examination thereon at the hearing or at a supplemental hearing.

§ 81.24 *Statute of limitations.* The claims of non-Indians that have existed for more than the period prescribed by the State laws applicable to limitation of actions shall not be allowed.

§ 81.25 *Priority of claims.* (a) Claims shall be allowed priority in payment in the following order: (1) Probate fee; (2) claims for expenses of last illness and funeral charges; (3) claims of indebtedness to the United States or any of its agencies; (4) claims of indebtedness to the tribe of which the decedent was a member or to any of its subsidiary organizations; (5) claims authorized in writing by the Superintendent during the lifetime of the Indian; (6) claims of the State on account of social security or old-age assistance payments; and (7) claims of general creditors.

(b) No claims of general creditors shall be allowed if the value of the estate is $1,500 or less and the decedent is survived by a spouse or by one or more minor children. If the estate is valued in excess of $1,500, or if the estate is valued at $1,500 or less and the decedent is not survived by a spouse or by any minor children, the claims of general creditors may be allowed in the discretion of the Examiner of Inheritance. If the income of the estate is not sufficient to permit the payment of allowed claims of general creditors within three (3) years from the date of allowance, the unpaid balance of such claims shall not be enforceable against the estate or any of its assets.

(c) The preference of the probate fee and of other claims may be deferred, in the discretion of the Examiner, in making adjustments or compromises beneficial to the estate.

§ 81.26 *Claims for attorney fees.* Attorneys representing Indians under the regulations in this part shall be allowed compensation in reasonable amounts. In determining attorneys' fees, consideration shall be given to the fact that the property of the decedent is restricted or held in trust and that it is the duty of the Department to protect the rights of all interested parties. Such fees as may be allowed shall be charged against the interests of the attorneys' clients.

§ 81.27 *Witness fees.* Witnesses are expected to testify without compensation. When it is necessary to pay the expenses of a witness, they must be paid by the party calling him. In the case of an indigent party, the Examiner may, in his discretion, allow per diem at a rate of not to exceed $3 for not more than two disinterested witnesses, and the Superintendent is authorized to pay said sums from the estate immediately, if funds are available. On the determination of the heirs or final action on the will, said sums shall be charged against the interest of the party in whose behalf said witnesses were called, unless such party does not share in the estate, in which event the charge will be made against the estate.

§ 81.28 *Inspection of wills and approval for form during testator's lifetime.* Where a will has been executed and filed with the Superintendent during the lifetime of the testator, the will shall be sent to the Examiner of Inheritance, who shall pass on the form of the will and return it to the Superintendent with appropriate instructions. A will shall be held in absolute confidence and its contents shall not be divulged prior to the death of the testator.

§ 81.29 *Care of personal property pending administration.* (a) The Superintendent is authorized to assume custody or control of all trust or restricted personal property of a deceased Indian, in addition to individual Indian money, and shall take such action with respect thereto as, in his judgment, may be necessary for the preservation of such property or for the most advantageous sale thereof, pending the probate of the estate; and all expense, including the expense of roundup, branding, care, and feeding of livestock shall be a proper charge against the estate and may be paid by the Superintendent from the funds in the decedent's individual money account, or from the proceeds of sale of the property.

(b) If, upon the completion of the probate proceedings, the heirs as found are unable to agree upon a proper division of such personal property, it shall be sold and the proceeds distributed in accordance with the applicable law of descent or under the terms of an approved will. The Superintendent shall prepare a complete inventory of such personal property, together with an appraisement thereof, and retain the same in decedent's file for the information of the Examiner of Inheritance.

(c) When personal property is bequeathed to an individual, such legatee may be given possession thereof upon the death of the testator if he signs an agreement to return such property or the appraised value thereof in the event the will is disapproved. The Superintendent may, in his discretion, require a bond.

(d) The provisions of this section shall apply to the estate of any Indian holding a homestead allotment upon the public domain or an interest therein.

§ 81.30 *Summary distribution.* When an Indian dies intestate leaving only restricted personal property or cash of a value of less than $250, the Examiner or Superintendent shall assemble the apparent heirs and hold an informal hearing with a view to the proper distribution thereof. A memorandum covering the hearing shall be retained in the Agency files showing the date of death of decedent, the date of hearing, the persons notified and attending, the amount on hand, and the disposition thereof. In the disposition of such funds, the Examiner or Superintendent shall have in mind the payment of funeral charges and expenses of last illness and any just claims for necessaries furnished decedent; and the balance, if any shall be credited to the heirs as found. This section shall not include the so-called Pony Claims.

§ 81.31 *Omitted property.* When, subsequent to the final decision in any estate, it is found that property belonging to the estate has not been included in the inventory of the estate, the decision relating to the estate shall be modified to include the omitted property. When the property to be included takes a different line of descent from that shown in the original decision, a supplemental hearing to determine the heirs thereto shall be had in accordance with the regulations in this part. Copies of such modifications shall be furnished to the Superintendent and to all those persons who share in the estate.

§ 81.32 *Improperly included property.* When, subsequent to the final decision in any estate, it is found that property has been improperly included in the inventory of the estate, the decision shall be modified to eliminate from the estate the property improperly included therein. Copies of such modification shall be furnished to the Superintendent and to all those persons who share in the estate.

§ 81.33 *Excepted tribes.* The regulations in this part shall not apply to the Five Civilized Tribes or to the Osage Indians in Oklahoma; nor shall they apply to any tribe organized under section 16 of the act of June 18, 1934 (48 Stat. 987), to the extent that the constitution, bylaws, or charter of such tribe may be inconsistent with any of the regulations in this part.

Chapter VII—Sugar Rationing Administration, Department of Agriculture

[3d Rev. RO 3,[1] Amdt. 52]

PART 707—RATIONING OF SUGAR

SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Third Revised Ration Order 3 is amended in the following respects:

1. Section 16.1 is amended to read as follows:

SEC. 16.1 *New or unregistered retailer or wholesaler establishment desiring sugar.* (a) Any person desiring to get sugar for a new or an unregistered wholesale or retail establishment may apply to the Sugar Branch Office for registration and assignment to such establishment of an allowable inventory. The application must be made in duplicate on SRA Form R–362 (Rev.) and filed with the Sugar Branch Office for the place where the principal business office of the establishment is or will be located. The applicant must give all of the information required by the form.

(b) The Sugar Branch Office may register the establishment and grant a temporary allowable inventory if it finds that the applicant has adequate facilities for handling the amount of sugar requested in the application and that the applicant actually intends to engage in business as a wholesaler or retailer of sugar at the place of business described in the application.

(c) However, if the Sugar Branch Office finds that any of the following are true it shall deny the application:

(1) The applicant formerly owned or had a substantial interest in a transferred or closed wholesale or retail establishment and has not complied with the requirements of sections 18.2 and 18.5 in the closing or transfer of such establishment;

(2) That the applicant has or had an establishment for which there are outstanding loans or overdrafts which have not been repaid;

(3) That the applicant's (or in the case of a corporation or partnership, any person holding a substantial interest in such corporation or partnership) right to deal in sugar is suspended or enjoined;

(4) If the establishment is one acquired by transfer, that the transferee is a member of the immediate family of the transferor or the transferor has a substantial interest in the transferred establishment; (For example, a transferor still has a substantial stock interest in the establishment if it is a corporation or a right to the distribution of assets or profits if it is a partnership); or

(5) If the establishment is one acquired by transfer, that the transferee has not complied with all of the requirements of section 18.2 of this order.

[1] 11 F. R. 177, 14281.

Provided, however, That the restrictions in subparagraphs 1 through 5 of this paragraph do not apply to a transferee who acquires the establishment by will or inheritance.

(d) The Sugar Branch Office may in its discretion deny the application if it has substantial evidence from which it finds that the establishment will not be operated in accordance with the provisions of this order.

(e) If the Sugar Branch Office registers the establishment and grants a temporary allowable inventory to the applicant, the retailer or wholesaler must report in duplicate on OPA Form R–362A (Rev.) within 10 days after the first eight weeks of operation, giving all of the information required by the form covering such operation. Upon receipt of the eight weeks operation report, the Sugar Branch Office may assign a permanent allowable inventory to such establishment.

2. Section 18.2 (a) is amended to read as follows:

(a) *General.* (1) When any person sells or transfers to any other person the business and inventory of his retail or wholesale establishment for continued operation, they must both notify the Sugar Branch Office at which the establishment is registered. The notice must be made on SRA Form R–383 within five days after the sale or transfer of the establishment and all of the information required by the form must be given. The notice of transfer on SRA Form R–383 must be a joint notice signed by both the transferor and the transferee. In addition, the transferor must file with the Sugar Branch Office a report of his inventory (taken at the time of actual transfer) on OPA Form R–346 (Rev.). The transferor shall also give a copy of OPA Form R–346 (Rev.) to the transferee.

(2) If the transferor has a ration bank account, he must notify the Sugar Branch Office in the way required by section 15.8 (b) of this order.

3. Section 18.2 is amended by adding a note at the end thereof to read as follows:

NOTE: Certain transferees may apply for a new allowable inventory in accordance with the provisions of section 16.1 of this order. Any transferee who is not eligible for a new allowable inventory under the provisions of section 16.1 of this order will be charged with all of the obligations and liabilities of the transferor.

This amendment shall become effective June 9, 1947.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 28th day of May 1947.

CLINTON P. ANDERSON,
Secretary of Agriculture.

Rationale Accompanying Amendment No. 52 to Third Revised Ration Order 3

The present regulations providing for the registration and assignment of allowable inventories to new or unregistered retailer or wholesaler establishments desiring sugar, and for the sale or transfer of retailer or wholesaler establishments, do not contain the necessary safeguards which, if incorporated within the regulations, would insure against evasions of the inventory provisions of the regulations.

Recurring examples of such evasions are transfers between members of immediate families where dissipation of allowable inventories has occurred; and dissipation of allowable inventories by wholesalers or retailers followed by transfers of their establishments to corporations or partnerships in which they possess large interests. After the transfer the "new entity" makes application for a new allowable inventory of sugar. Another frequently used device to evade the regulations is the formation of a partnership or corporation which applies as a new business after a member of the newly-formed business organization had been suspended or enjoined from further dealing in sugar because he has been found untrustworthy to handle sugar. In some cases, applicants have been able to circumvent the intent and spirit of the regulations by requesting amounts of sugar which are obviously far in excess of their storage facilities; and some have applied for evidences with no actual intent to engage in business as a wholesaler or retailer of sugar at the place of business described in the application.

Under the proposed amendment the Sugar Branch Office will be granted increased authority, including the authority to deny the application for a sugar inventory by a retailer or wholesaler who failed to make the required reports in closing or transferring his establishment; who failed to liquidate outstanding loans or overdrafts; who has outstanding against him an administrative suspension order or injunction for violation of the sugar rationing regulations; who acquired his establishment by reason of a transfer from a member of his immediate family other than by inheritance or will; or where the transferor of the retailer or wholesaler establishment retains a substantial interest in the transferred establishment. The Sugar Branch Office is also empowered to deny any application if it finds that the applicant does not have adequate facilities for handling the amount of sugar for which he applied, or does not actually intend to operate as a wholesaler or retailer at the place of business described in the application; or if it finds that the establishment will not be operated in accordance with the provisions of the regulations.

The proposed amendment further provides that certain transferees who fulfill the requirements of the order may apply for a new allowable inventory. However, any transferee who is not eligible for a new allowable inventory under the provisions of the order will be charged with all of the obligations and liabilities of his transferor.

Chapter I—Post Office Department

PART 21—INTERNATIONAL POSTAL SERVICE

INDEMNITY

In § 21.110 *Postal Union Registered Articles* (39 CFR, Part 21), of Subpart A make the following changes:

1. In paragraph (a) (1) delete "$1.93" and substitute therefor "$3.27".

2. In paragraph (a) (2) delete "$9.65" and substitute therefor "$16.33".

3. In paragraph (b) (1) delete "$9.65" and substitute therefor "$16.33", and delete "$1.93" and substitute therefor "$3.27".

4. In paragraph (b) (2) delete "$9.65" and substitute therefor "$16.33".

In § 21.111 *Americo-Spanish ordinary and registered parcel-post* (39 CFR, Part 21) of Subpart A amend the table to read as follows:

2 lbs	$3.27
7 lbs	4.90
11 lbs	8.17
22 lbs	13.07
33 lbs	17.97
44 lbs.[1]	22.87

[1] Up to 70 pounds for Panama.

Section 21.112 (39 CFR, Part 21) of supbart A is amended to read as follows:

§ 21.112 *Indemnity for other registered parcel-post.* Except as stated in § 21.115, so far as applicable to registered parcels, as well as under the country items of certain countries, indemnity for actual value in amount claimed up to 50 gold francs ($16.33) may be paid for the loss, rifling or damage of registered parcel-post packages exchanged with Cape Verde Islands, Cuba (total loss), Latvia (suspended), and Portuguese West Africa.

Under the same conditions, indemnity for actual value in amount claimed may be paid for the loss, rifling, or damage of registered parcel-post packages exchanged with Ecuador, and Macao and for the total loss only (wrapper and contents) of registered parcel-post packages exchanged with Portugal (including Madeira and the Azores), provided that the indemnity in any case shall not exceed the amount prescribed for the registry fee paid at the time of mailing. (See country items, Subpart B, for scales of fees and limits of indemnity payable.)

Except as stated in this section and in § 21.111, indemnity is not paid in connection with registered parcel-post packages exchanged with any other foreign country.

Section 21.114 (39 CFR, Part 21) of subpart A is amended to read as follows:

§ 21.114 *Indemnity for c. o. d. mail.* Under the same conditions that apply to insured or registered parcels without c. o. d. charges, as stated in the two preceding sections, indemnity is paid for the loss, rifling, or damage of registered or insured c. o. d. parcels; and indemnity for registered c. o. d. parcels exchanged with Mexico is paid for loss only; and when delivery of a c. o. d. parcel has been effected but through the fault of the Postal Service the collect-on-delivery charges, as a whole or in part, have not been remitted to the sender.

In § 21.115 *Exceptions* (39 CFR, Part 21) of subpart A, make the following changes:

1. Amend paragraph (j) to read as follows:

(j) However, in the event of loss, rifling, or damage in this country of mail matter erroneously accepted for insurance to foreign countries, or, on which postage was erroneously collected at other than parcel post rates, but otherwise properly accepted for mailing, limited indemnity may specially be paid under the conditions set forth in §§ 21.110, 21.111, 21.112, 21.113, and 21.114.

2. Amend paragraph (l) to read as follows:

(l) When no inquiry or application for indemnity has been made by claimant or his representative within a year commencing with the day following the posting of the article or parcel. In the case of insured mail with Canada and Newfoundland, however, a claim or an initial inquiry, oral or written, must be made within six months from the date of mailing unless it is established to the satisfaction of the Department that the delay was unavoidable and not the fault of the claimant.

TITLE 43—PUBLIC LANDS: INTERIOR

Subtitle A—Office of the Secretary of the Interior

[Order 2327]

PART 4—DELEGATION OF AUTHORITY

ALASKA RAILROAD

The regulations of the Secretary of the Interior of January 11, 1929 entitled "Regulations governing the office of the General Manager of the Alaska Railroad and the Affairs of the Railroad at Washington, D. C.," and the memorandum approved June 3, 1946 by the Acting Secretary, amending the said regulations, and Order No. 2218, dated July 3, 1946, No. 2234, dated July 26, 1946, and No. 2281, dated December 5, 1946, are hereby revoked, and § 4.530, superseding

the said regulations, memorandum, and orders, is added to Subpart F, as follows:

§ 4.530 *The Alaska Railroad.* (a) Except as specified in paragraphs (b) and (c) of this section, the General Manager of the Alaska Railroad is authorized to act for and in the place of the Secretary of the Interior with respect to any matter having to do with the operation of the Railroad and its related activities.

(b) The following matters must be presented to and receive the approval of the Secretary before becoming effective:

(1) Proposed important changes in the policy of the Railroad, its operation and management, or in all or part of a service previously rendered such as the extension of main lines or branches, the construction of additional branches, the discontinuance of terminal facilities, the opening of new stations, the extension or abandonment of river-boat service or coal mining activities, the construction of major bridges or buildings, or the operation of tourist facilities in McKinley Park.

(2) Proposed extension of the service of the Railroad into a new field or creation of a new kind or character of service rendered by or to the Railroad.

(3) Proposed general increases or reductions in freight rates or passenger fares.

(4) Proposed appointments to positions with base pay in excess of $7,000 per annum.

(5) Proposed policies and procedures for dealing with employees and their representatives in the determination of rates of pay and methods of compensation, regulation of working hours, working rules and adjustment of grievances, as well as proposed increases or decreases in rates of pay or changes in methods of compensation, regulation of working hours, or in the basic working rules of any employee by class, craft, department or appropriate subdivisions thereof.

(c) Proposed contracts for construction, equipment, supplies or services must be presented to and receive the approval of the Secretary before becoming effective in any case where the Secretary by a written order published in the FEDERAL REGISTER specifically prescribes such a requirement, or such approval by the Secretary is specifically required by statute. In all other cases, and irrespective of the amount involved, the General Manager is authorized to enter into binding contracts for the Railroad in conformity with applicable regulations and statutory requirements and subject to the availability of appropriations. However, the General Manager may request Secretarial approval of any proposed contract. This paragraph is not intended to affect any requirement that proposed programs be cleared with the Office of the Secretary prior to their inauguration.

With respect to any binding contract, including a contract approved by the Secretary, the General Manager may issue change orders and extra work orders pursuant to a contract, enter into modifications of a contract which are legally permissible, and terminate a contract if such action is legally authorized, and except in those cases in which he is the contracting officer, act as the authorized representative of the Secretary within the meaning of the following provisions of United States Standard Form Contracts: Articles 3 and 4 of Form No. 23, Article 2 of Form No. 32, and, for the purpose of extending the time within which a contractor may notify a contracting officer of the causes of delay, Article 9 of Form No. 23, Article 5 of Form No. 32, and paragraph 4 of the conditions to Form No. 33.

The General Manager may redelegate to subordinate officials and employees of the Railroad or to the Purchasing Officer, Alaska-Seattle Service Office, the authority granted in this paragraph. Each such redelegation shall be published in the FEDERAL REGISTER.

(d) The Director or Assistant Director, Division of Territories and Island Possessions, or the General Manager or Assistant General Manager of The Alaska Railroad are authorized to make the certification in connection with the transfer without charge to The Alaska Railroad of materials, roadway and bridge maintenance and other necessary equipment, locomotives and spare parts, shop facilities and machinery, supplies, rolling stock and buildings and docks which are necessary for the improvement, maintenance or operation of the Railroad, required by the Interior Department Appropriation Act, 1947 (60 Stat. 348, 383), to be made by the Department of the Interior to the War Department or any other agency of the United States Government having title to such property.

(e) The General Manager shall submit to the Secretary (through the Director, Division of Territories and Island Possessions), a monthly report covering the operation of the Railroad. He shall also submit an annual report to the Secretary at the close of each fiscal year and upon request of the Secretary or the Director, Division of Territories and Island Possessions, forward to the Department such material or data relative to the operation of the Railroad and its related activities or concerning the exercise of the authority granted to him by this section as the said Secretary or Director may require.

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 375]

ALASKA

EXCLUDING CERTAIN TRACTS OF LAND FROM THE CHUGACH AND TONGASS NATIONAL FORESTS AND RESTORING THEM TO ENTRY

By virtue of the authority vested in the President by the act of June 4, 1897, 30 Stat. 11, 36 (U. S. C. Title 16, sec. 473), and pursuant to Executive Order No. 9337 of April 24, 1943, *It is ordered as follows:*

The following-described tracts of public land in Alaska, occupied as homesites, and identified by surveys of which plats and field notes are on file in the Bureau of Land Management, Washington, D. C., are hereby excluded from the Chugach and Tongass National Forests as hereinafter indicated, and restored, subject to valid existing rights, to entry under the applicable public land laws:

CHUGACH NATIONAL FOREST

U. S. Survey No. 2525, Lot 8, 3.42 acres; latitude 60°30'05" N., longitude 149°47'00" W. (Homesite No. 59, Snug Harbor Group);

TONGASS NATIONAL FOREST

U. S. Survey No. 2475, Lot "L," 4.18 acres; latitude 58°21'35" N., longitude 134°33'00" W. (Homesite No. 239, Mile 7 Group, Glacier Highway);

Lot 6, Mud Bay Group, Revillagigedo Island, 1.53 acres; latitude 55°24'30" N., longitude 131°45'35" W. (Homesite No. 834).

WARNER W. GARDNER,
Assistant Secretary of the Interior.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter C—National Wildlife Refuges; Individual Regulations

PART 25—SOUTHERN REGION NATIONAL WILDLIFE REFUGES

NOXUBEE NATIONAL WILDLIFE REFUGE, MISSISSIPPI; FISHING

Section 25.691 is revised to read as follows:

§ 25.691 *Noxubee National Wildlife Refuge, Mississippi; fishing.* Fishing is permitted within the Noxubee National Wildlife Refuge, Mississippi in accordance with the State laws of Mississippi during the daylight hours in Bluff Lake, Patterson Lake, and on such portions of Noxubee River and Oktoc Creek as are designated by suitable posting by the officer in charge.

Entry on and use of the refuge for any purpose is governed by the regulations of the Secretary dated December 19, 1940 (5 F. R. 5284), as amended, and strict compliance therewith is required. All fishermen must comply with all State fishing laws and regulations and must have on their person and exhibit at the request of any authorized Federal or State officer whatever license and/or permit is required by such law and regulations. Such State license and/or permit will serve as a Federal permit for entry on the refuge for the purpose of fishing. Persons entering the refuge for the purpose of fishing shall follow such routes of travel as may be designated by posting.

Persons may use boats for fishing on Bluff Lake but motors of greater than 5 horsepower capacity may not be used on or in any such boat. Boats with motors are prohibited in any other refuge waters except for official purposes.

During periods of waterfowl concentration, wild turkeys nesting, or other wildlife concentrations, fishing may be closed on such areas of the refuge as, in the judgment of the officer in charge, such limitations and restrictions are necessary in order to provide adequate protection for wildlife. Such limitations or restrictions are to be clearly designated by posting.

State cooperation may be enlisted in the regulation, management, and operation of the public fishing areas and the State may issue special licenses at a reasonable rate of charge as may be determined to be necessary. In the event such State regulations are issued, any permit therein required will be a requisite to lawful entry for the purpose of fishing.

SUBPART A—SUBSTANTIVE PROVISIONS

§ 125.1 *Student defined.* As used in this part, the term "student" means an alien admitted temporarily to the United States as a nonquota immigrant under the provisions of section 4 (e) of the Immigration Act of 1924 (43 Stat. 155; 8 U. S. C. 204 (e)) and under the provisions of this part.

§ 125.2 *Time for which admitted.* A student shall be admitted to the United States for a period of time not to exceed one year. If his intended course of study is less than one year, the period of admission shall not exceed the period of such intended course of study plus necessary travel time. He shall not be admitted for a period of time extending beyond the date 60 days prior to the end of the period during which he will be eligible for readmission to the country from which he came or to some other foreign country. Such eligibility will ordinarily be established by the presentation of a passport having the period of validity prescribed in § 176.500 of this chapter.

§ 125.3 *Conditions of admission.* In order to be admissible as a student, an alien shall:

(a) Be at least 15 years of age;

(b) Be qualified to enter and have definitely arranged to enter an accredited school, college, academy, seminary, or university, particularly designated by him and approved by the Attorney General;

(c) Establish that he seeks to enter the United States solely for the purpose of pursuing a definite course of study in such institution and that he will carry a course of studies in day classes, which course will consist of a minimum of 12 semester hours or the equivalent of that amount if he is an undergraduate student or, if he is a graduate student, will consist of a full program of study toward a degree and will be in the amount and of the nature required by the school; also establish that he has sufficient scholastic preparation and knowledge of the English language to enable him to undertake his intended course.

(d) Establish that he is or will be financially able, subject to the provisions of this part, to pursue such course of study;

(e) Establish that he intends to leave the United States at the expiration of the period of his admission or of any authorized extension of such period or upon cessation of the status under which admitted, whichever occurs first;

(f) Furnish bond on Form I–374 or Form 574 in the sum of not less than $150 to insure that he will depart from the United States at the expiration of his authorized stay or upon failure to maintain the status under which admitted, whichever occurs first, if such bond is required by an officer in charge or by a board of special inquiry or pursuant to an order entered on appeal from the decision of such board;

(g) Present whatever document or documents are required by the applicable Executive order and regulations prescribing the documents to be presented by aliens entering the United States under the provisions of section 4 (e) of the Immigration Act of 1924, such document or documents having been issued after compliance with all applicable provisions of Title III of the Alien Registration Act, 1940 (54 Stat. 673; 8 U. S. C. 451) relating to registration and fingerprinting;

(h) Establish that he is not a member of any class of aliens subject to exclusion from the United States under the applicable provisions of the immigration laws or regulations.

§ 125.4 *Extension of stay; period of time; conditions.* After a student is admitted to the United States for a fixed period of time, his stay may be extended for a period or periods not exceeding one year each. Any such extension of his stay shall be subject to the same time limitations as are placed on original admissions by § 125.2 and must be predicated on a finding that the student establishes that he has fulfilled and will continue to fulfill the conditions of admission prescribed by § 125.3. As a condition precedent to the granting of an extension, the district director having jurisdiction may require the student to furnish bond, or bond in greater sum, on the form and containing the conditions stated in § 125.3 (f). Where a bond furnished on admission is to be continued during the time of an extension of stay, any arrangements necessary in that connection must be made by the student.

CROSS REFERENCE: For procedure for extensions of stay, see § 125.13.

§ 125.5 *Deportation.* A student who violates or fails to fulfill any of the conditions of his admission to or extended stay in the United States or who otherwise becomes a member of any deportable class defined in any of the immigration laws shall be made the subject of deportation proceedings in accordance with the provisions of the applicable immigration laws and the provisions of Part 150 of this chapter.

SUBPART B—PROCEDURAL AND OTHER NONSUBSTANTIVE PROVISIONS

§ 125.11 *Authority to admit.* If the examining immigrant inspector is satisfied beyond a doubt that an alien is admissible as a student, he may admit him as such. If the examining immigrant inspector is satisfied that an alien would be admissible as a student provided a bond was furnished in accordance with the provisions of § 125.3 (f), the examining immigrant inspector may refer the case to the officer in charge of the port and if the officer in charge concludes that the alien would be admissible provided such bond was furnished, the officer in charge may admit the alien as a student upon the furnishing of such bond. If the examining immigrant inspector is not satisfied that an alien applying for admission to the United States as a student is admissible as a student, he shall hold the alien for examination by a board of special inquiry. The bond prescribed in § 125.3 (f) may be exacted by the board of special inquiry. All admissions shall be subject to the time limitations prescribed in § 125.2.

§ 125.12 *Records of admission, readmission, and departure.* (a) When a student is admitted to the United States on surrender of an immigration visa, the endorsements and records, other than Form I–151, required by § 108.6 of this chapter shall be made. In addition, Form I–94 in triplicate shall be executed in the case of every student admitted to the United States on surrender of an immigration visa. The admitting immigrant inspector shall note on the Form I–94 the name and location of the institution to which the student is destined. The original Form I–94 shall be sent to the district headquarters of the district to which the student is destined. The duplicate Form I–94 shall be given to the student at the time of his admission to the United States. The triplicate Form I–94 shall be fastened to the face of the immigration visa and shall accompany it to the Central Office. The duplicate Form I–94 shall be the alien registration receipt card. Form I–151 shall not be furnished to students; in that respect, § 108.6 (a) of this chapter shall not apply to students.

(b) When a student is admitted to the United States, the admitting immigrant inspector shall stamp any passport presented by the student (as the term "passport" is defined in § 176.101 (e) of this chapter) to show the word "Admitted" and the date and place of admission.

(c) A notice of the admission of a student shall be sent from the port of admission to the appropriate official of the institution to which the student is destined, with advice as to the location of the district immigration office to which the required reports from the institution and any applications by the student shall be sent.

(d) During a student's authorized stay in the United States, he may under certain circumstances visit nearby countries and be readmitted to the United States without obtaining a new immigration visa (see § 176.203 (d) of this chapter). When that occurs, no notice of the readmission need be sent from the port of readmission to the institution. The readmitting immigrant inspector shall execute Form I–94 in triplicate, showing the name and location of the institution to which destined. The original of the Form I–94 shall be retained at the port of entry and filed with other records of arrival; the duplicate Form I–94 shall be given to the student at the time of his readmission; and the triplicate Form I–94 shall be sent to the district headquarters office of the district responsible for the supervision of the student.

(e) When a student departs from the United States either temporarily or permanently, he shall surrender his duplicate Form I–94. Notwithstanding the provisions of Part 108 of this chapter, the duplicate Form I–94 surrendered by a departing student shall be forwarded to the district headquarters office of the district where the institution which the student is or was last attending is located. If it is definitely shown or known that the student's departure is permanent, the file in that district shall be closed and the surrendered duplicate Form I–94 with an additional notation showing that the case has been closed shall be sent to the Central Office; otherwise, the form shall be held in that district for six months. If during that time no notice of the student's readmission is received by a new Form I–94 or otherwise, inquiry shall be made as to the student's whereabouts and status. If it is found that the student has departed permanently from the United States or has been readmitted under some other status, the district file shall then be closed and the duplicate Form I–94 bearing the additional endorsement showing termination shall be sent to the Central Office.

§ 125.13 *Extension of stay; procedure.* (a) A student may apply for an extension of the period of his temporary admission. Such application shall be submitted on Form I–535 approximately 30 days before the expiration of the period of admission, or previously authorized extension thereof, to the district director of the district in which is located the institution which the student is attending. All available data specified in Form I–535 shall be furnished by the applicant. The application shall be accompanied by his passport and by the duplicate Form I–94 issued to him at the time of his entry.

(b) After making such inquiry as may be necessary, the district director shall make a decision on the application and such decision shall be final: *Provided*, That the district director shall not grant any extension of stay which would authorize the student to remain in the United States for a period of more than four years after arrival unless the district director first obtains approval from the Commissioner: *And provided further*, That the Commissioner may from time to time require in individual cases or in certain classes of cases that district directors submit to him for review or decision cases of applications on Form I–535 on which they have acted or which they receive. In all cases the district director shall send notice of the decision to the student. If the decision is favorable, such notice shall be made by placing a signed endorsement on the duplicate Form I–94, showing the date to which the stay is extended and by returning the duplicate Form I–94 and the passport to the student. The district director of the district in which is located the institution which a student is attending shall by form letter notify each student of the imminent expiration of authorized stay unless the district director is in receipt of an application for an extension of such stay or of information that the student will depart from the United States at the expiration of the period of authorized stay.

§ 125.14 *Transfers from one school to another.* A student may transfer from one approved institution to another only if he first secures written permission from the district director of the district in which is located the institution from which the transfer is desired. There shall be placed on the duplicate Form I–94 a signed endorsement showing the name and location of the institution to which the transfer is authorized, and the duplicate Form I–94 shall be returned to the student. When a student is permitted to transfer from one approved institution to another and the institution to which he transfers is located in another immigration district, the district director of the first district shall forward his complete file (including the original and any triplicate Forms I–94) pertaining to the student to the director of the district into which the student transfers and shall send a notice of the transfer to the Central Office.

§ 125.15 *Employment.* (a) A student shall not be permitted to work during a school term either for wages or for board or lodging unless he has insufficient means to cover his necessary expenses. If a student wishes to accept employment, he shall apply prior to the acceptance of such employment to the district director of the district in which is located the institution which he is attending. If the district director is satisfied that the student is meeting all of the requirements in this part and that he does not have sufficient means to cover his expenses and that the employment requested will not interfere with his carrying successfully a course of study of the required amount, he may grant permission to the student to accept such employment. A district director may, in his discretion and subject to all the limitations prescribed in this section, permit a student to take employment during summer vacations. Subject to the limitations in this section and part, a student may in connection with his admission be granted permission to accept employment, but where permission is granted in that connection, the facts must be re-

ported to the district immigration office responsible for handling the case while the student is in the United States.

(b) In cases where employment for practical training is required by the school, the district director may permit the student to engage in such employment for a six-month period subject to extension for not over two additional six-month periods, but any such extensions shall be granted only upon certification by the school and the training agency that the practical training cannot be accomplished in a shorter period of time.

§ 125.16 *Schools; petition for approval.* Any school, college, academy, seminary, or university desiring approval as a school for immigrant students may file with the Attorney General a petition in writing (Form I–17), stating its name and location; the date when established; the requirements for admission, including age; whether coeducational; the courses of study offered and the time required to complete such course; the degrees, if any, conferred; the calendar of its school year, including terms and semesters; whether day or night sessions are held or both; the average annual number of students attending; the number of teachers or instructors employed; the approximate total annual cost of board, tuition, etc., per student; and the causes for expulsions: *Provided*, That when a catalog is issued by such school, college, academy, seminary, or university, a copy of the latest edition thereof shall be filed with and made part of the petition with appropriate references to the pages of such catalog where the information herein required may be found. If the Attorney General is satisfied that such school, college, academy, seminary, or university has been established for at least two years immediately preceding the filing of the petition herein required; that it is a bona fide institution of learning; and that it possesses the necessary facilities and is otherwise qualified for the instruction and education of immigrant students he may approve such school, college, academy, seminary, or university as a school for immigrant students.

§ 125.17 *Schools; conditions for approval.* No petition for approval as a school for immigrant students shall be considered unless such petition is accompanied by the written agreement of the school, college, academy, seminary, or university seeking such approval, to report in writing to the district director of the district in which such institution is located, immediately upon the admission of an immigrant student to such institution, the name, age, and local address of such student; the name and complete address of a friend or relative of such student in the United States; the date when such student was admitted to such institution; the course of study to be pursued by him; and at the termination of the attendance of such student, to report at once, in writing, to the district director of the district in which such institution is located the date when and the reasons why such attendance was terminated. The foregoing conditions for approval of schools are hereby made applicable to all such approvals heretofore granted and the continuance of approval of a school will depend on the observance of this section.

§ 125.18 *Schools; officer to make petition.* Form I–17 and the written agreement accompanying it must be executed by the principal officer of the school, college, academy, seminary, or university having authority to execute contracts.

§ 125.19 *Schools; withdrawal of approval.* If it shall appear to the satisfaction of the Attorney General that any school, college, academy, seminary, or university approved as a school for immigrant students fails, neglects, or refuses to comply with all the terms of its agreement, he may withdraw or revoke his approval of such school, college, academy, seminary, or university as a school for immigrant students.

UGO CARUSI,
Commissioner of Immigration and Naturalization.

Approved: June 3, 1947.

TOM C. CLARK,
Attorney General.

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 947]

HANDLING OF MILK IN FALL RIVER, MASS., MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND TO PROPOSED AMENDMENT

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Cum. Supp., 900.1 et seq., 10 F. R. 11791, 11 F. R. 7737, 12 F. R. 1159), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to a marketing agreement and a proposed amended order, regulating the handling of milk in the Fall River, Massachusetts, marketing area, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the tenth day after publication of this report in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The proceedings were initiated by the Production and Marketing Administration as a result of requests received from cooperative associations of producers and from handlers of milk in the Fall River market. In a letter dated January 17, 1947, the market administrator of the Fall River marketing area notified all handlers, cooperative associations, and other interested persons that they should file not later than February 3, 1947, any proposals which they wished to make with respect to amendments to the order. Seventeen proposals were submitted by cooperative associations, handlers, and the Dairy Branch. After consideration of these various proposals, it was concluded that a hearing should be held to accept evidence on all of the proposals.

On March 10, 1947, there was issued a notice of hearing which listed all of the proposals on which evidence would be taken. The hearing was held at Fall River, Massachusetts, on March 21 and 22, 1947.

Previously a hearing was held at Boston on November 20, 1946, to consider amendments to Order No. 47, which had been proposed by cooperative associations of producers and by the Dairy Branch. Action was taken at that time with respect to all of the issues except one which were developed at the hearing. No action was taken then or has since been taken on a proposal designed to prevent contraseasonal changes in the Class I price which might otherwise occur as a result of the butter-nonfat dry milk solids formula contained in the order. This issue should be disposed of at this time.

Findings and conclusions. The issues which were listed in the notice and which were developed at the hearing in March 1947 are grouped under the following headings. The issue developed at the hearing held on November 20, 1946, is included under the issue "Class I prices."

(1) *Class I prices.* The butter-nonfat dry milk solids formula for determining the Class I price should be retained in its present form with a provision to prevent contraseasonal changes in the Class I price. Minimum floor prices should be established for the last half of 1947, and any price decrease in January or February 1948, should be limited to 44 cents per hundredweight below the price of the previous month. The Class I price should be maintained at its present relationship to the Class I price established by the Boston order for milk received at the 201–210 mile zone from that market.

There is a serious need for encouraging a shift toward more fall production in the Fall River milk shed. Prior to 1946, for a period of six years, seasonal variation in production increased each year. In 1946 fall production increased relative to spring production. Minimum Class I floor prices are required for each month through December 1947 in order to assure a substantial rise in prices from the spring to the fall and thus develop a better seasonal pattern of production in the area.

The minimum floor prices should be $5.52 per hundredweight for July, August, and September, and $5.96 per hundredweight for October, November, and December. If the butter-nonfat dry milk solids formula yields a price higher than $5.96 in any of the months of September, October, or November, that price should continue through December.

The uncertainty of economic conditions in the fall and winter makes necessary a safeguard in addition to minimum floor prices. The butter-nonfat dry milk solids formula should be retained to give producers the benefit of any increase over the floor prices which may be justified by prices of other dairy products and by the general price level. The formula should be modified to prevent contraseasonal price changes in the months just preceding or during the seasons of greater shortage or flush production. The Class I prices for any of the months of September, October, November, and December of any year should not be lower than the Class I price in effect for the preceding month and the Class I prices for the months of March, April, May, and June of any year should not be higher than the Class I price in effect for the preceding month.

Exact prices cannot be determined from this record for a period of 8 to 12 months in advance. The formula based on values of butter and nonfat dry milk solids should be retained until some other plan is developed. The formula will establish prices this fall above the floor prices if conditions warrant higher prices and will provide a method of pricing after December. The provision to prevent contraseasonal price changes will avoid the nullification of the seasonal price plan by movements of the general price level. It is not considered advisable to provide for complete prevention of downward price movements in the last half of the year or upward price movements in the first half because such a provision would hold back unduly adjustments to the general price level. The limitation of price drops from December to January and January to February to 44 cents will prevent any precipitous price drop immediately following the period for which greater production is to be encouraged.

The large quantities of milk which move from the Boston market into Fall River and the nearness of the two markets make it imperative that the Class I prices in the two markets move together. The prices recommended herein are such that the established relationship will be maintained between Fall River prices and the prices recommended for the Boston 201–210 mile zone in a recommended decision issued May 21 and published in the FEDERAL REGISTER on May 24, 1947 (12 F. R. 3340). The Boston 201–210 mile zone price represents the average price of Boston milk which may be offered for sale in Fall River. An increase of 2 cents in the differential between the Boston price and the prices recommended herein should not be adopted since the record supports the continuation of the present relationship between prices in the two markets.

(2) *Pricing all milk sold in the marketing area.* The order should be revised to price all milk entering the marketing area except milk from another marketing area regulated by an order of the Secretary of Agriculture, milk which is a part of a handler's normal supply for a market other than the marketing area, and milk delivered by dairy farmers to plants located outside of the New England States and New York.

Large quantities of milk which are not subject to the pricing provisions of the Fall River order or any other order of the Secretary of Agriculture come into the marketing area. The entrance of such unpriced milk into the marketing area constitutes a threat to the stability of the market.

The supply of milk in New England available for fluid uses is increasing. Certain manufacturing outlets for milk are becoming less attractive and milk formerly used in such outlets is becoming available for fluid uses. Plants which are withdrawn from the Boston pool can supply milk to Fall River handlers for Class I use at, or slightly above, the Boston blended price.

Some handlers obtain a larger percentage of their supply from unpriced sources than other handlers. This results in inequality in the prices handlers pay for their milk.

Milk from another marketing area regulated by an order of the Secretary of Agriculture is priced under the provisions of that order and need not be subject to the pricing provisions of Order No. 47. Milk which is a part of a handler's normal supply for a market other than the marketing area should be exempted from the pricing provisions of the order to allow certain handlers to continue their practice of distributing milk in Fall River and one or more nearby markets from the same plant without making those operations in the nearby markets subject to the pricing provisions of the order. Milk received from plants located outside of New England and New York State should not be subject to the pricing provisions of the order because it would not be administratively feasible to regulate plants so far away.

(3) *Method of pooling.* Payment on the basis of individual handler pools should be adopted to replace the present market-wide pool.

The method of pooling must be coordinated with the objective of bringing under the pricing provisions of the order that milk which now enters the marketing area free from any price regulation. To expand the market-wide pool to include all plants from which unpriced milk now enters the marketing area would increase the supply several times over the amount needed for the market. To designate certain of these plants as Fall River pool plants would bring about a problem of which of the plants should and which should not be Fall River pool plants. If the market-wide pool were extended, it would be possible for handlers to shift plants to the Fall River pool, regardless of whether or not the milk was needed in Fall River. Under the individual handler pool a handler must keep his purchases in line with his Class I requirements and his competitors' uniform prices in order to maintain a supply of milk. Because of this the individual handler pool provides better machinery for the allocation of the available supply of milk between handlers according to their requirements.

(4) *Definitions of "producer" and "dairy farmer".* The definition of a producer should be revised to include more specifically those farmers who constitute a regular source of supply of milk for the marketing area. A definition for a dairy farmer should be provided in order to facilitate references to those farmers who produce milk but are not a regular source of supply for the marketing area.

The present producer definition was placed in the order at a time when the market was practically self-sufficient. Under the present deficit conditions the benefits of the order are limited to only certain of the farmers supplying the market. The definition should be broadened to include those farmers who are now excluded.

Dairy farmers who are part of a handler's normal supply for a market other than the marketing area should be excluded from the producer definition if none of their milk is disposed of as Class I in the marketing area. With the close relationship which exists between the Fall River market and nearby markets, it is doubtful if a situation would develop in which the Fall River supply was below Class I requirements while the supply in nearby markets was substantially in excess of Class I requirements. Producers contended that dairy farmers who are a part of a handler's normal supply for another market should be excluded in the producer definition only if none of their milk was disposed of as Class I in a market other than the one for which they are designated. Such a requirement would cause inefficiencies in plants serving other markets in addition to Fall River.

A large portion of the supply for Class II uses in the Fall River market is obtained from cream plants in the midwest. These suppliers of cream should not be considered handlers of the Fall River milk supply nor should the dairy farmers shipping to such plants be considered producers.

Milk received at a plant which has operations in another market and from which the quantity of Class I milk sold or distributed in the marketing area during the delivery period is no greater than the quantity of Class I milk received from Fall River handlers, plus the quantity of bulk milk received from plants subject to another order of the Secretary of Agriculture during the delivery period should not be considered as milk from producers. Such a provision would allow a cooperative association to continue its operation of using one plant to clean up scattered surpluses during the flush season and to provide supplemental supplies in the short season for Fall River handlers and dealers in a nearby market. The provision should apply to any person who engages in such a function.

The producer definition should not contain a qualification based on Board of Health approval of individual dairy farmers since there is no assurance that such inspections could be made in all cases.

In order to be consistent with the producer definition the handler definition should be revised to include any person who receives milk from producers, dairy farmers, or other handlers, all or a portion of which is disposed of as Class I milk in the marketing area.

(5) *Classification of milk.* The provisions for classifying milk received from producers and other sources should contain the directions for computing the amount of each source milk used in each class. Allowable plant shrinkage should be computed and prorated on all receipts at a plant except receipts from other handlers who receive milk from producers and milk received completely processed and packaged. Under the present provisions it is possible for producers to bear plant shrinkage on milk received from sources other than producers.

Milk from other handlers who receive milk from producers would be excluded from the proration because it has already shared in the plant loss at the first handler's plant. Plant shrinkage on milk received completely processed and packaged should be computed on the basis of actual units lost.

Transfers from a handler's plant at which milk is received from producers to another handler should be classified according to agreement between the buyer and seller provided that the buyer has utilization in the class agreed upon equal to or greater than the amount transferred during the delivery period. Optional classification of transfers from a handler's plant at which milk is received from producers to another handler will permit a handler with Class II facilities to absorb the surpluses of handlers without Class II facilities without the receiving handler's producer pool being diluted with Class II milk. The receiving handler should not be required to show that it was physically possible for receipts to have been utilized in Class II. Such a requirement would involve additional effort on the part of the market administrator in making his audits of receipts and utilization without affecting net payments to producers.

Milk from sources other than producers, dairy farmers who are a part of a handler's normal supply for a market other than the marketing area, and other marketing areas regulated by an order of the Secretary of Agriculture should be classified as Class II up to the amount of Class II utilization remaining after the classification and proration of allowable plant shrinkage. Such classification is necessary in order to prevent the possible displacement of producer milk by milk from plants located outside New England and New York State which would remain exempt from minimum pricing.

The amount of Class II milk remaining after the classification of allowable plant shrinkage and outside milk at a plant at which milk is received from producers should be prorated to receipts from producers, dairy farmers designated for other markets, and plants subject to an order of the Secretary of Agriculture regulating the handling of milk in another marketing area, except, as presently provided in the order, that the total amount of milk received from producers which is classified as Class II should not exceed 5 percent of total receipts from producers, if receipts from other sources are sufficient to absorb the Class II utilization in excess of 5 percent. The 5 percent limitation should not be extended to cover handlers' receipts from other handlers who receive milk from producers since such a provision would be inconsistent with a provision to allow optional classification of interhandler transfers.

Since milk of a handler's own production is considered as producer milk, no special provisions for its classification are necessary. If the handler has receipts from producers and from any other source, the amount of Class II which producers bear is limited by the 5 percent provision, and the break-down of Class II between own farm production and sources other than producers would be only a statistical result.

Milk used in standardizing cream should not be classified as Class I. Classification of such milk as Class I would result in inequalities in prices handlers pay for cream depending upon whether cream was brought into Fall River as cream containing 40 percent butterfat or as cream already standardized.

(6) *Base rating plan.* The base rating provisions should be deleted from the order. These provisions have been suspended since January 31, 1943. Changes which have been made in the order since that date are such as to make the existing base rating plan unworkable in its present form even if such a plan were considered desirable. No new base rating plan should be established at this time. The base rating payment plan was not considered in detail since most witnesses offered testimony on seasonal changes in Class I prices to achieve the level production objective which is the purpose of a base rating plan.

(7) *Class II prices.* No change should be made in the formula for establishing Class II prices.

The established relationship between Fall River and Boston Class II prices should be maintained. No change was recommended in the Boston Class II pricing formula in the recommended decision which was issued on May 21 with respect to the Boston order.

(8) *Administration assessment.* The basis for assessing handlers to defray the expenses of administering the order should not be changed. The language should be clarified to show specifically that a handler should not be assessed on milk which has already borne assessment in another Fall River handler's plant.

Assessment for expense of administration should be paid upon milk from dairy farmers designated for other markets and on milk received from outside the marketing area and resold in bulk outside the marketing area since the administrative effort required of the market administrator in auditing receipts and disposition is no less for such milk than for any other milk.

The provision that the rate of assessment may be established at an amount lower than the specified maximum rate should be revised to reflect the actual practice that no change is made without the approval of the Secretary of Agriculture.

The records of the Milk Control Board of Massachusetts, with respect to milk received from producers designated for the New Bedford market, should not be adopted by the market administrator in lieu of an audit conducted by him of all the milk received in a handler's plant. An over-all audit of all of the operations in a handler's plant is required to verify the utilization of milk subject to the provisions of Order No. 47. To adopt the audit made by another agency would require the other agency to apply the same rules of auditing and accounting as those applied by the market administrator. No evidence of present similarity of auditing practices was submitted.

(9) *Language changes to comply with present organization of the Department of Agriculture.* Changes in organization within the Department of Agriculture have rendered obsolete certain terms now used in the order. Those terms should be changed to coincide with the present organization.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of New England Milk Producers' Association; New Bedford Milk Producers' Association, Inc.; Braley's Creamery, Inc.; and H. P. Hood and Sons, Inc.

The briefs contain statements of fact, conclusions and arguments with respect to nearly all of the proposals discussed at the hearing. Every point covered in the briefs was carefully considered, along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. Although the briefs do not contain specific requests to make the proposed findings and conclusions stated therein, it is assumed that they were submitted with that intention and are treated accordingly. Some of the proposed findings of fact are immaterial to the issues presented or outweighed by other facts found herein, and some of the proposed conclusions do not logically follow from the proposed findings of fact. To the extent that the proposed findings and conclusions are inconsistent with the findings and conclusions contained herein, the implied requests to make such findings are denied because of the reasons stated for the conclusions in this recommended decision.

Recommended marketing agreement and order. The following amended order is recommended as the detailed and appropriate means by which these conclusions may be carried out. The proposed marketing agreement is not included in this report because the regulatory provisions thereof would be the same as those contained in the order, as amended, and as proposed here to be further amended.

§ 947.1 *Definitions.* The following terms as used in this section have the following meanings:

(a) "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

(b) "Secretary" means the Secretary of Agriculture or such other officer or employee of the United States authorized to exercise the powers and to perform the duties of the said Secretary of Agriculture.

(c) "Fall River, Massachusetts, marketing area", hereinafter called the "marketing area," means the city of Fall River and the town of Somerset, both in the Commonwealth of Massachusetts, and the town of Tiverton in the State of Rhode Island.

(d) "Person" means any individual, partnership, corporation, association, or any other business unit.

(e) "Dairy farmer" means any person who produces milk.

(f) "Producer" means any dairy farmer, irrespective of whether such dairy farmer is also a handler, whose milk is received at a plant from which Class I milk is shipped to, or sold in, the marketing area either directly or through another plant during the delivery period: *Provided*, That a dairy farmer shall not be a producer within this definition:

(1) If minimum prices are required to be paid to him under provisions of any other Federal order;

(2) If milk delivered by him is determined by the market administrator to be a part of the handler's normal supply for a market other than the marketing area and (i) is classified in Class II or is disposed of outside the marketing area and is classified as Class I, or (ii) is moved to a plant from which the quantity of Class I milk sold or distributed in the marketing area during the delivery period is no greater than the quantity of Class I milk received during the delivery period at such plant from Fall River handlers plus the quantity of bulk milk received from a Federal order plant during the delivery period; or

(3) If his milk is delivered to a plant located outside Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, and New York.

(g) "Dairy farmers designated for other markets" means those dairy farmers which are reported to the market administrator by a handler as his normal supply for a market other than the marketing area.

(h) "Cooperative association" means any association of producers or producers and dairy farmers which the Secretary determines (1) to have its entire activities under the control of its members, and (2) to have and to be exercising full authority in the sale of milk of its members.

(i) "Handler" means any person, irrespective of whether such person is also a dairy farmer, a producer, or a cooperative association, who receives milk from producers, dairy farmers, cooperative associations, or other handlers, all or a portion of which milk is disposed of as Class I milk in the marketing area during the delivery period.

(j) "Producer-handler" means a producer who is also a handler who receives no milk from producers: *Provided*, That such handler shall furnish to the market administrator for his verification, subject to review by the Secretary, evidence that the maintenance, care, and management of the dairy animals and other resources necessary for the production of milk in his name are and continue to be the personal enterprise of and at the personal risk of such producer and the processing, packaging, and distribution of the milk are and continue to be the personal enterprise of and at the personal risk of such producer in his capacity as a handler.

(k) "Delivery period" means the calendar month, or the portion thereof, during which the provisions hereof are effective.

(l) "Producer milk" means all milk produced by a producer, which is purchased or received by a handler either directly from such producer or from a cooperative association.

(m) "Other source milk" means all milk received by a handler which is not producer milk, milk from dairy farmers designated for other markets, or milk from a Federal order plant.

(n) "Federal order" means any order of the Secretary regulating the handling of milk pursuant to the act.

(o) "Federal order plant" means any plant at which the milk is subject to the minimum pricing provisions of another Federal order during the delivery period.

§ 947.2 *Market administrator—(a) Designation.* The agency for the administration hereof shall be a market administrator who shall be a person selected and subject to removal by the Secretary. The market administrator shall, within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary. The market administrator shall be entitled to such reasonable compensation as shall be determined by the Secretary.

(b) *Powers.* The market administrator shall have the power,to:

(1) Administer the terms and provisions hereof;

(2) Report to the Secretary complaints of violations hereof;

(3) Make rules and regulations to effectuate the terms and provisions hereof; and

(4) Recommend to the Secretary amendments hereto.

(c) *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(1) Keep such books and records as will clearly reflect the transactions provided for herein;

(2) Submit his books and records for examination by the Secretary at any and all times;

(3) Furnish such information and such verified reports as the Secretary may request.

(4) Obtain a bond with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(5) Publicly disclose after reasonable notice, the name of any person who has not made reports pursuant to § 947.3 or made payments required by § 947.8;

(6) Prepare and disseminate, for the benefit of producers, consumers, and handlers, such statistics and information concerning the operation hereof as do not reveal confidential information;

(7) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof;

(8) Pay out of the funds received pursuant to § 947.10 the cost of his bond and of the bonds of such of his employees as handle funds entrusted to the market administrator, his own compensation, and all other expenses which will necessarily be incurred by him for the maintenance and functioning of his office and the performance of his duties;

(9) Promptly verify the information contained in the reports submitted by handlers; and

(10) Verify, subject to review by the Secretary, evidence furnished by handlers pursuant to § 947.1 (j), such verification to be made within 15 days of the date of receipt of such evidence, and to be effective from the first day of the delivery period during which verification is made.

§ 947.3 *Reports of handlers—(a) Submission of reports.* Each handler shall report to the market administrator in the form and detail prescribed by the market administrator:

(1) On or before the 7th day after the end of each delivery period, the receipts of milk, skim milk, and cream at each plant from producers, from other handlers, from such handler's own production, from any other sources, and inventories on hand at the beginning and end of such delivery period;

(2) On or before the 7th day after the end of each delivery period, the respective quantities of milk, skim milk, and cream which were sold, distributed, or disposed of, including sales or deliveries to other handlers, for the several purposes and classifications as set forth in § 947.5;

(3) Within 10 days after the market administrator's request, with respect to any producer for whom such information is not in the files of the market administrator, and with respect to a period or periods of time designated by the market administrator, (i) the name, post office address, and farm location; (ii) the total pounds of milk delivered, (iii) the average butterfat test of milk delivered, and (iv) the number of days on which deliveries were made;

(4) At such time after the 18th day after the end of each delivery period as the market administrator may require, each handler shall within 10 days submit to the market administrator his producer records for such delivery period which shall show for each producer: (i) The total delivery of milk with the average butterfat test thereof, (ii) the net amount of the payment to each producer and each cooperative association made pursuant to § 947.8, and (iii) the deductions and charges made by the handler;

(5) On or before the 18th day after the end of the first delivery period following the effective date hereof, a schedule of the transportation rates which were charged and paid for the transportation of milk from the farm of each producer to such handler's receiving plant and such information with respect to distances involved as the market administrator may require;

(6) On or before the 18th day after any changes are made in the schedule filed in accordance with subparagraph (5) of this paragraph, a copy of the revised schedule with the effective dates of such changes as may appear in the revised schedule; and

(7) On or before the 7th day after the end of each delivery period, the names of dairy farmers designated for other markets.

(b) *Verification of reports.* Each handler shall make available to the market administrator or his agent those records which are necessary for the verification of the information contained in reports submitted by such handler pursuant to this section and those facilities necessary for the weighing, measuring, sampling, and testing for butterfat content of milk or any product therefrom and for determining the utilization made by the handler of milk or any product therefrom.

§ 947.4 *Application of provisions.* (a) Sections 947.6, 947.8, 947.9, and 947.10 are not applicable to any producer-handler as defined in these sections.

(b) Milk received in bulk by a handler from a producer-handler shall be considered as being received from a producer.

§ 947.5 *Classification of milk*—(a) *Responsibility of handlers.* In establishing the classification of milk received by a handler the burden rests upon the handler who received the milk from producers to account for all milk received at each plant at which milk is received from producers, and to prove that such milk should not be classified as Class I. The burden rests upon the handler who distributes milk in the marketing area to established the source of all milk received.

(b) *Classes of milk.* Milk received by each handler at a plant where milk is received from producers shall be classified in Class I or Class II in accordance with subparagraphs (1) and (2) of this paragraph, subject to paragraphs (c) and (d) of this section.

(1) All milk the utilization of which is not established as Class II shall be Class I.

(2) Class II milk shall be all milk which is accounted for as (i) sold, distributed, or disposed of other than as milk which contains one-half of 1 percent or more but less than 16 percent of butterfat, and other than as chocolate or flavored whole or skim milk, buttermilk, or cultured skim milk, for human consumption; and (ii) actual plant shrinkage not in excess of 2 percent of milk received from all sources including the handler's own production but not including receipts from other handlers who receive milk from producers or milk received completed processed and packaged from a Federal order plant.

(c) *Transfers of milk from a plant at which milk is received from producers.* (1) Transfers to a producer-handler shall be Class I.

(2) Transfers to another handler not a producer-handler or to a Federal order plant shall be classified as reported by the seller, or, if the seller submits no report, as reported by the buyer: *Provided,* That the quantity classified as Class II milk shall not exceed the total quantity of Class II milk of such buyer during the delivery period.

(3) Transfers to a plant, other than a plant at which milk is received from producers or a Federal order plant, from which milk is distributed or at which milk products are manufactured shall be Class I not to exceed the total Class I at such plant during the delivery period.

(d) *Classification of milk received at plants at which milk is received from producers.* For each delivery period each handler shall report the classification of milk which was received at plants at which milk is received from producers by making computations in the order indicated as follows:

(1) Determine the pounds of milk, skim milk, cream, and other milk products received at all plants of the handler at which milk is received from producers (i) from producers, including own production, (ii) from dairy farmers designated for other markets, (iii) in the form of products received completely processed and packaged from a Federal order plant, (iv) in the form of bulk milk received from another Federal order plant, (v) from other handlers who receive milk from producers, and (vi) from other sources, and the total.

(2) Determine the total pounds of milk, skim milk, cream, and other milk products utilized in Class II products including allowable plant shrinkage as provided in § 947.5 (b) (2) (ii).

(3) Prorate allowable plant shrinkage classified as Class II to producer milk, milk from dairy farmers designated for other markets, bulk milk received from a Federal order plant, and other source milk, and deduct such plant shrinkage from total Class II computed pursuant to subparagraph (2) of this paragraph.

(4) Classify other source milk as Class II in an amount no greater than the amount of Class II remaining.

(5) Deduct from the remaining pounds in each class the quantity of milk, skim milk, cream, and other milk products received from other handlers who receive milk from producers and classified according to paragraph (c) (2) of this section, and Class I and Class II products received completely processed and packaged from a Federal order plant classified according to the actual use established.

(6) Prorate remaining Class II to producer milk, milk from dairy farmers designated for other markets, and bulk milk received from a Federal order plant: *Provided,* That the amount of producer milk classified as Class II inclusive of plant shrinkage shall not exceed 5 percent of the total amount of producer milk.

(7) Deduct any remaining Class II amounts from the total quantity received from producers and the remainder is Class I producer milk.

(8) From the total receipts from each source listed in subparagraph (1) of this paragraph deduct the amount classified as Class II for each source in subparagraphs (3), (4), (5), (6), and (7) of this paragraph and the remainder from each source is Class I: *Provided,* That the total Class I utilization in the marketing area is not more than the Class I producer milk determined in this subparagraph plus Class I milk received from Federal order plants and Class I milk from plants located outside Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, and New York.

§ 947.6 *Minimum prices*—(a) *Class I prices.* (1) Each handler shall pay producers or cooperative associations for their milk containing 3.7 percent butterfat, during each delivery period, in the manner set forth in § 947.8 and subject to the differentials set forth in paragraph (c) of this section, for Class I milk delivered by them, not less than the price per hundredweight determined as follows:

(i) Using the period beginning with the 25th of the second preceding month and ending with the 24th of the immediately preceding month, compute the average of the highest prices reported daily by the United States Department of Agriculture for U. S. Grade A (U. S. 92-score) butter at wholesale in the New York market.

(ii) Using the midpoint of any range as one quotation, compute the average of all the hot roller process nonfat dry milk solids quotations per pound for "other brands, animal feed, carlots, bags, or barrels," and for "other brands, human consumption, carlots, bags, or barrels," published during the 30 days ending on the 24th day of the immediately preceding month in "The Producers' Price Current;" subtract 4 cents; and multiply the remainder by 1.8.

(iii) Add the values determined pursuant to subdivisions (i) and (ii) of this subparagraph.

(iv) Subject to subdivisions (v), (vi), and (vii) of this subparagraph, the Class I price per hundredweight shall be as shown in the following table:

CLASS I PRICE SCHEDULE

Value computed pursuant to subdivision (iii) of this subparagraph (cents)		Class I price (dollars per cwt.)	
At least—	But less than—	April through June	July through March
0	25	2.44	2.88
25	30	2.66	3.10
30	35	2.88	3.32
35	40	3.10	3.54
40	45	3.32	3.76
45	50	3.54	3.98
50	55	3.76	4.20
55	60	3.98	4.42
60	65	4.20	4.64
65	70	4.42	4.86
70	75	4.64	5.08
75	80	4.86	5.30
80	85	5.08	5.52
85	90	5.30	5.74
90	95	5.52	5.96
95	100	5.74	6.18
100	105	5.96	6.40

If the value computed pursuant to subdivision (iii) of this subparagraph is 105 cents or more the price shall be increased at the same rate as would result from further extension of this table.

(v) The Class I price for any of the months of March through June of each year shall not be higher than the Class I price for the immediately preceding month, and the Class I price for any of the months of September through December of each year shall not be lower than the Class I price for the immediately preceding month.

(vi) The Class I price shall not be less than $5.52 per hundredweight for each of the months of July through September 1947 and shall not be less than $5.96 per hundredweight for each of the months of October through December 1947.

(vii) The Class I price for January 1948 shall not be less than the December 1947 Class I price minus 44 cents, and the Class I price for February 1948 shall not be less than the January 1948 Class I price minus 44 cents.

(2) For milk delivered to a handler from producers' farms at a plant located more than 100 miles from the City Hall in Fall River, there shall be deducted the sum of 13 cents plus an amount per hundredweight equal to the lowest rail tariff, for the transportation in carlots of milk in 40-quart cans, as published in the New England Joint Tariff M5 (including revisions and supplements thereto), for the distance from the railroad shipping point for such plant to the handler's railroad delivery point for the marketing area.

(b) *Class II prices.* (1) Except as provided in subparagraph (2) of this paragraph, each handler shall pay producers or cooperative associations for their milk in the manner set forth in § 947.8 not less than the price per hundredweight, for milk containing 3.7 percent butterfat calculated for each delivery period by the market administrator as follows:

(i) Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream in the Boston market, reported by the United States Department of Agriculture for the delivery period during which such milk is delivered, multiply the result by 3.7 and subtract 15 cents;

(ii) Add any plus amount which results from the following computation: Using the midpoint in any range as one quotation, compute the average quotation per pound of nonfat dry milk solids in carlots for roller process human food products in barrels, and for hot roller process animal feed products in bags, as published during the delivery period by the United States Department of Agriculture for New York City. Multiply each such quotation by the applicable percentage indicated for the delivery period in the following table and combine the results, subtract 4 cents, and multiply the remainder by 7.5.

Delivery period	Human food products	Animal feed products
	Percent	*Percent*
January	100	0
February	100	0
March	50	50
April	50	50
May	25	75
June	25	75
July	50	50
August	75	25
September	75	25
October	100	0
November	100	0
December	100	0

(2) For milk delivered to a handler from producers' farms at a plant located more than 100 miles from the City Hall in Fall River, the price shall be the amount computed pursuant to subparagraph (1) of this paragraph minus 14 cents.

(c) *Butterfat differential.* If any producer has delivered to any handler during any delivery period milk having an average butterfat content other than 3.7 percent, such handler shall, in making the payments to such producer prescribed by paragraph (a) of § 947.8, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent, an amount per hundredweight which shall be calculated by the market administrator as follows: Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream in the Boston market as reported by the United States Department of Agriculture for the period between the 16th day of the preceding month and the 15th day inclusive of the delivery period during which such milk is delivered, or the last such price reported for a delivery period and if no such price is reported for the period between the 16th day of the preceding month and the 15th day inclusive of the delivery period during which such milk is delivered, subtract 1½ cents and divide the result by 10.

§ 947.7 *Determination of uniform prices to producers*—(a) *Computation of value of milk of basic test received by each handler from producers.* For each delivery period the market administrator shall compute the value of milk received by each handler from producers in the following manner:

(1) Multiply the quantity of milk received from producers and classified in Class I and Class II pursuant to § 947.5 (d) by the respective class prices pursuant to § 947.6 (a) and (b);

(2) Combine the resulting values.

(b) *Computation of uniform prices.* The market administrator shall compute for each handler the uniform price per hundredweight of milk received from producers during each delivery period in the following manner:

(1) Add to the total value computed pursuant to paragraph (a) of this section the total amount of the differentials pursuant to § 947.8 (b); and

(2) Divide the amount computed pursuant to subparagraph (1) of this paragraph by the total quantity of milk received from producers. This result shall be the handler's uniform price for milk containing 3.7 percent butterfat.

(c) *Announcement of uniform prices.* The market administrator shall, on or before the 11th day after the end of each delivery period, mail to each handler and publicly announce:

(1) The uniform prices per hundredweight computed pursuant to paragraph (b) of this section; and

(2) The Class II price and the butterfat differential.

§ 947.8 *Payments for milk*—(a) *Time and method of payment.* (1) On or before the 1st day after the end of each delivery period, each handler shall make payment to producers for the approximate value of milk received during the first 15 days of such delivery period. On or before the 17th day after the end of each delivery period, each handler shall make payment for the total value of milk received from producers or cooperative associations during the preceding delivery period, computed pursuant to § 947.7, subject to the differentials set forth in paragraph (c) of § 947.6 and paragraphs (b) and (c) of this section as follows:

(i) To producers, at not less than the uniform price per hundredweight announced pursuant to § 947.7 (c) for the quantity of milk received from each producer.

(ii) To a cooperative association for milk which is caused to be delivered to a handler from producers by such cooperative association, and for which such cooperative association collects payment, a total amount equal to not less than the sum of the payments otherwise payable to such producers individually, pursuant to subdivision (i) of this subparagraph.

(b) *Differential for plant handling and transportation.* The payments to be made by handlers to producers, pursuant to paragraph (a) of this section shall be reduced by differentials as follows: With respect to milk received from a producer at a plant located more than 100 miles from the City Hall in Fall River, a sum of 13 cents plus an amount per hundredweight equal to the lowest rail tariff for transportation in carlots of milk in 40-quart cans, as published in the New England Joint Tariff M5 (including revisions and supplements thereto), for the distance from the railroad shipping point of such plant to the handler's delivery plant for the marketing area.

(c) *Other differentials.* In making payments to producers or cooperative associations pursuant to paragraph (a) of this section, handlers may deduct $0.0075 per hundredweight with respect to milk received from producers in containers supplied by the handler for the transportation of milk from their farms to the handler's plant as rental for such containers.

(d) *Correction of errors in payments to producers.* Errors in making any of the payments required in this section shall be corrected not later than the date for making payments next following the determination of such errors.

§ 947.9 *Marketing service deductions*—(a) *Marketing services performed by market administrator.* On or before the 15th day after the end of each delivery period, in making payments to producers pursuant to § 947.8, each handler shall deduct, with respect to milk received from each producer during such delivery period, except as set forth in paragraph (b) of this section, 4 cents per hundredweight, or such lesser amount as the market administrator shall determine to be sufficient, and shall pay an amount equivalent to such deductions to the market administrator. Such amount shall be expended by the market administrator only in providing for market information to, and for verification of weights, samples and tests of milk received from, producers. The market administrator may contract with a cooperative association or associations for the furnishing of the whole or any part of such services to or with respect to the milk received by handlers from producers.

(b) *Marketing services performed by cooperative associations.* On or before the 17th day after the end of each delivery period, in making payments to producers pursuant to § 947.8, each handler

shall deduct, with respect to milk received from producers for whom a cooperative association, which the Secretary determines to be qualified under the provisions of the Act of Congress of February 18, 1922, known as the "Capper-Volstead Act" is actually performing the services set forth in paragraph (a) of this section, such amounts as are authorized by such producers, and pay an equivalent amount to the cooperative association rendering such services to its members.

§ 947.10 *Expense of administration*—(a) *Payments by handlers.* As his prorata share of the expense of administration hereof, each handler not a producer-handler shall, on or before the 15th day after the end of each delivery period, pay to the market administrator 5 cents per hundredweight or such lesser amount as the Secretary may from time to time prescribe with respect to all milk received during such delivery period at a plant at which milk is received from producers: *Provided*, That such handler, which is a cooperative association, shall pay such pro rata share of expense of administration on such milk which it causes to be delivered by member producers to a handler's plant for the marketing area and for which milk such cooperative association collects payment: *And provided further*, That any amounts required by this paragraph to be paid to the market administrator shall be reduced by an amount equivalent to any amounts paid with respect to such milk, for cost of administration of a Federal order.

(b) *Suits by the market administrator.* The market administrator may maintain a suit in his own name against any handler for the collection of payments required by this section.

§ 947.11 *Effective time, suspension, or termination of order*—(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended, or terminated, pursuant to paragraph (b) of this section.

(b) *Suspension or termination of order.* The Secretary may suspend or terminate this order or any provision hereof whenever he finds that this order or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This order shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate. The market administrator, or such other person as the Secretary may designate, shall:

(1) Continue in such capacity until removed by the Secretary;

(2) From time to time account for all receipts and disbursements and, when so directed by the Secretary, deliver all funds on hand, together with the books and records of the market administrator or such person, to such person as the Secretary shall direct; and

(3) If so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof, the market administrator, or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 947.12 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division of the United States Department of Agriculture to act as his agent or representative in connection with any of the provisions hereof.

§ 947.13 *Marketing committee*—(a) *Establishment.* At the request of handlers of more than 50 percent of the milk which is produced for sale in the marketing area, the Director of the Dairy Branch, Production and Marketing Administration, United States Department of Agriculture (hereinafter referred to as Director), may select a committee, to be known as the "Marketing Committee," which shall have as its members representatives of the various groups directly interested in the marketing of milk in the marketing area, all of whom may be selected from among the persons nominated by the handlers in accordance with the procedure established by the Director.

(b) *Duties.* The Marketing Committee shall have such duties as the Director determines to be necessary and appropriate to effectuate the declared policy of the act in its application to this order, as amended, and the administration thereof, all of which duties shall be prescribed by the Director.

(c) *Compensation.* The members of the Marketing Committee shall serve without compensation but shall be entitled to expenses necessarily incurred by them in the performance of their duties, and such expenses shall be paid by the market administrator out of the assessments collected hereunder for the cost of administration hereof.

(d) *Supervision.* Each and every act of the Marketing Committee shall be subject to the continuing right of the Director or the Secretary to disapprove at any time.

(e) *Procedure.* The procedure to be followed by the Marketing Committee shall be recommended by the market administrator hereunder and shall be approved by the Director.

§ 947.14 *Emergency price provision.* Whenever the provisions hereof require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining class prices or for any other purpose, the market administrator shall add to the specified price the amount of any subsidy, or other similar payment, being made by any Federal agency in connection with the milk, or product, associated with the price specified: *Provided*, That if for any reason the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any such subsidy or other similar payment: *Provided further*, That if the specified price is not reported or published and there is no applicable maximum uniform price, or if the specified price is not reported or published and the Secretary determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price specified.

Certification of the Secretary of the Navy under the act of December 3, 1945 (Public Law 239, 79th Congress).

Whereas, the act of December 3, 1945 (Public Law 239, 79th Congress) provides that any requirements as to the number, position, range of visibility or arc of visibility of navigation lights, required to be displayed by naval vessels under acts of Congress, as enumerated in said act of December 3, 1945, shall not apply to any vessel of the Navy where the Secretary of the Navy shall find or certify that, by reason of special construction, it is not possible with respect to such vessel or class of vessels to comply with statutory requirements as to the number, position, range of visibility or arc of visibility of navigation lights; and

Whereas, a study of the arrangement and position of the navigation lights of that type of naval vessel, known as Minesweepers (AM), has been made in the Navy Department and, as a result of such study, it has been determined that because of their special construction it is not possible for Minesweepers (AM) to comply with the requirements of the statutes enumerated in said act of December 3, 1945;

Now, therefore, I, James Forrestal, Secretary of the Navy, as a result of the aforesaid study, do hereby find and certify that the type of naval vessels known as Minesweepers (AM), are naval vessels of special construction and that on such vessels, with respect to the position of the additional white light (commonly termed the range light), it is not possible to comply with the requirements of the statutes enumerated in the act of 3 December 1945. Further, I do find and certify that it is feasible to locate the said additional white light (commonly termed the range light), if such light is installed, forward of the masthead light in such position that the said additional white light and the masthead light shall be in line with the keel and the after light shall be at least fifteen feet higher than the forward light and the vertical distance between the two lights shall be less than the horizontal distance. I further direct that the aforesaid additional white light, if such light is installed, shall be located in the manner above described and I further certify that such location constitutes compliance as closely with the applicable statutes as I hereby find to be feasible.

[Misc. No. 1578415]

NEVADA

REVOCATION OF WITHDRAWALS FOR PROPOSED GRAZING DISTRICTS AND OPENING OF PUBLIC LANDS

Pursuant to section 1 of the act of June 28, 1934, as amended (48 Stat. 1269; 49 Stat. 1976; U. S. C. 315), notices of hearings were given by Departmental Orders of November 12 and November 34, 1937, to consider the establishment of grazing districts in Esmeralda, Eureka, Lander, Lincoln, and Nye Counties, Nevada, which orders were published in the FEDERAL REGISTER on November 18 and December 1, 1937, respectively (2 F. R. 2490 and 2 F. R. 2556). The publication of these notices had the effect, in accordance with the provisions of the aforesaid act, of withdrawing all vacant and unappropriated public lands in the counties mentioned from all forms of entry or settlement.

The withdrawals, having served their purpose, are hereby revoked.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on August 7, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from August 7, 1947, to November 5, 1947, inclusive, the public lands effected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from July 18, 1947, to August 6, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on August 7, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on November 6, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from October 17, 1947, to November 5, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on November 6, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise and those having equitable claims shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Carson City, Nevada, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office at Carson City, Nevada.

The land is desert to mountainous and is characterized by flat to rolling enclosed valleys bordered by hills which, in the central part of the area, merge into high rocky masses having distinct mountainous characteristics. The small streams emanating from upland areas are utilized in connection with local ranching or are dissipated into

the desert valleys. The soil ranges from a light sand to heavy clay. Much of the land is rocky. The area is sparsely settled.

OSCAR L. CHAPMAN,
Acting Secretary of the Interior.

[Docket No. G–898]

CITIES SERVICE GAS CO.

NOTICE OF APPLICATION

JUNE 3, 1947.

Notice is hereby given that on May 16, 1947, Cities Service Gas Company (Applicant), a Delaware corporation having its principal place of business at Oklahoma City, Oklahoma, and authorized to do business in the States of Oklahoma, Kansas, Texas, Nebraska and Missouri, filed an application (a) for a certificate of public convenience and necessity authorizing Applicant to construct and operate certain facilities hereinafter described, and (b) for approval of abandonment of a certain portion of Applicant's facilities, also hereinafter described, both pursuant to section 7 of the Natural Gas Act, as amended.

Applicant seeks authorization to construct and operate the following described facilities:

(1) *Facility No. 1.* Approximately 48 miles of 12-inch natural gas pipeline extending from a point on Applicant's Oklahoma City 20-inch line near the northwest corner of Section 26, Township 17 North, Range 2 West, Logan County, Oklahoma, thence east and northeast to Applicant's Drumright Compressor Station in Section 16, Township 18 North, Range 7 East, Creek County, Oklahoma.

(2) *Facility No. 2.* Approximately 10.5 miles of 16-inch natural gas pipe line extending from Applicant's present 16-inch line near the southwest corner of the northwest quarter of Section 31, Township 7 North, Range 8 West, Grady County, Oklahoma, thence in a southeasterly direction to a point in the Chickasha Field near the northeast corner of Section 22, Township 5 North, Range 8 West, Grady County, Oklahoma.

(3) *Facility No. 3.* Approximately 15.6 miles of 16-inch gas pipe line extending easterly and northeasterly from a point of connection with an existing 16-inch pipe line in the northeast quarter of Section 3, Township 24 North, Range 11 East, Osage County, Oklahoma, to a point of connection with an existing 18-inch pipe line near the northeast corner of Section 7, Township 25 North, Range 14 East, Washington County, Oklahoma.

The application recites that upon completion of Facility No. 1 it will be used to transport increased quantities of gas from the southern portion of the "West Side" of Applicant's system to its Drumright Compressor Station from where it can be transported through existing facilities on the "East Side" of Applicant's pipe line system. Facility No. 2 will be used to extend Applicant's facilities on the southern portion of its system to secure further supplies of gas. Facility No. 3 will provide additional line capacity on the outlet side of Applicant's Tallant Compressor Station to handle increased quantities of gas provided by Facilities Nos. 1 and 2 and will constitute relaying and shortening of Applicant's Tallant-Hogshooter 12-inch gas pipe line.

The application further recites that there is no assurance that the project applied for in Docket No. G–729[1] can be completed prior to the winter of 1948–49; that this circumstance has created a situation of emergency for gas supply into Applicant's system; that upon the filing of the application in Docket No. G–729, Applicant estimated its system supply on a peak day of 1946–47 would be 648,000 Mcf; that actually this supply on the 1946–47 peak day was 618,307 Mcf;[2] that the supply to Applicant's present system on the peak day of 1947–48 is estimated to be 601,004 Mcf, which, on the basis of the supply performance on the peak day of 1946–47, probably is an optimistic estimate; that on the basis of said estimate it would be necessary for Applicant to curtail 44,740 Mcf of not readily curtailable industrial load on the peak day of 1947–48, and if the proposed facilities under Docket No. G–729 are not in operation by the winter of 1948–49, it will be necessary for Applicant to curtail such load on the peak day in the quantity of 107,616 Mcf; that, therefore, as an emergency step, Applicant proposes by means of the facilities applied for in this application to attempt to build up the supply on the southern part of its existing system to the extent that the maximum supply of 648,000 Mcf, which its system will handle, can be maintained during the next two winters.

The application further recites that an agreement has been reached between Applicant and Oklahoma Natural Gas Company (Oklahoma Natural), whereby Oklahoma Natural agrees to supply Applicant a maximum of 50,000 Mcf per day for a period of 2 years to replace diminished supplies of gas on the southern portion of Applicant's pipeline system pending completion of the facilities for which a certificate is sought in Docket No. G–729.

As a part of said agreement, Oklahoma Natural agrees to connect to Applicant's present production in the area which Applicant seeks permission to abandon, and credit all gas taken therefrom (after reimbursing itself for cost of connection) against future redeliveries of gas to Oklahoma Natural on expiration of the two year period.

The application further recites that an agreement has been reached between Applicant and Consolidated Gas Utilities Corporation (Consolidated) whereby Consolidated agrees to supply Applicant a net maximum of 65,000 Mcf per day for a period of 5 years. The application states that in the realization that performance of the maximum obligations of Oklahoma Natural and Consolidated under the above-mentioned contracts will be problematical on a peak day, and that Oklahoma Natural's contract does not constitute a reserve for Applicant's system, Applicant is now negotiating for the purchase of additional gas in the Maysville area in Garvin County, Oklahoma; that the purchase of gas in that area will require the construction by Applicant of approximately 43 miles of pipeline, and that application for a certificate to construct such line will be filed with this Commission as soon as Applicant is able to consummate purchase contracts in said Maysville area. With these projects, Applicant believes it can obtain sufficient gas into the southern part of its system to bring its total supply on its entire system up to 648,000 Mcf on a peak day for a period of at least two years, and that after such two year period, it will have sufficient reserves on the southern portion of its system to repay Oklahoma Natural for the gas received from it under the contract mentioned above and to maintain through the winter 1950–51 the estimated supply of 100,000 Mcf on the southern portion

[1] See Notice of Application, 11 F. R. 5958–5959, June 1, 1946.

[2] Exhibit No. 209, Docket No. G–729.

of its system as indicated in the proceedings in Docket No. G-729.[3]

The facilities which applicant seeks to abandon are described as follows:

(1) Approximately 51 miles of 16-inch natural gas pipeline.

(2) Approximately 58 miles of 12-inch natural gas pipeline.

(3) Approximately 34 miles of 8-inch natural gas pipeline.

(4) Approximately 113 miles of 6-inch and 4-inch natural gas pipeline.

(The above pipelines are located in Creek, Lincoln, Okfuskee, Seminole, Hughes and Pontotoc Counties, all in the State of Oklahoma.

(5) Approximately 19.3 miles of 12-inch natural gas pipeline (known as the Tallant-Hogshooter line), located in Osage and Washington Counties, both in the State of Oklahoma.

The application states, in this connection, that the above-described facilities, with the exception of the 12-inch pipeline located in Osage and Washington Counties (Tallant-Hogshooter line), were constructed between the years 1926 and 1927 to transport gas from the Depew, Seminole, Arlington and Fitts areas to applicant's pipeline system at Drumright Station. The supply of gas from these areas has diminished to the point where applicant will be able to secure only 6,600 Mcf per day on peak days during the winter of 1947-48 from the entire area south of its Drumright Station on the "East Side" of its system. It is stated that the Tallant-Hogshooter line in Osage and Washington Counties will be replaced with 15.6 miles of 16-inch natural gas pipeline to handle increased quantities of gas on the outlet side of Tallant Station. This new line will provide additional capacity of 20,000,000 cubic feet per day.

The application further states that virtually all the pipe sought to be reclaimed will, after necessary cleaning and repairs, be required to construct the facilities for which a certificate is sought in this application and to extend Applicant's facilities on the southern portion of the "West Side" of its system into the Maysville area to obtain further supplies of gas.

The application further recites that the only customer served from the facilities sought to be abandoned is the Town of Paden, Oklahoma, and that an agreement has been reached between the Applicant, Oklahoma Natural and Oklahoma Gas Service Company, distributor for the Town of Paden, under the terms of which agreement Applicant will construct or cause to be constructed at its own expense approximately 8 miles of natural gas pipeline to connect the facilities of Oklahoma Gas Service Company to Oklahoma Natural's system sufficient to furnish the Town of Paden, Oklahoma, service equivalent to that sought to be abandoned by Applicant. Said 8 miles of pipeline will, upon completion thereof, become the property of Oklahoma Gas Service Company, and will not constitute any part of Applicant's facilities or property.

The estimated total over-all capital cost of construction for the proposed Facilities Nos. 1, 2 and 3 is $1,490,683. Applicant proposes to finance such costs out of its own treasury.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of Cities Service Gas Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946) and shall set out clearly and concisely the facts from which the nature of the petitioner's or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contention of the petitioner in the proceeding so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering specifically and in detail, each material allegation of fact or law asserted in the proceeding.

PACIFIC ASSOCIATES, INC.

NOTICE OF APPLICATION, STATEMENT OF ISSUES, AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 4th day of June A. D. 1947.

Notice is hereby given that Pacific Associates, Inc. (Applicant) has filed an application, as supplemented, under section 3 (b) (2) of the Investment Company Act of 1940 for an order adjudging it to be excepted from the definition of an investment company contained in said act on the grounds that it is primarily engaged in a business other than that of investing, reinvesting, owning, holding, or trading in securities; namely, in the business of managing and operating a traction system for the transportation of passengers in Portland, Oregon, through Portland Transit Company and its subsidiary, Portland Traction Company.

All interested persons are referred to said application which is on file in the offices of the Commission for a more detailed statement of the matters of fact and law asserted.

The Corporation Finance Division has advised the Commission that upon a preliminary examination of the application, as supplemented, it deems the following issues to be raised thereby without prejudice to the specification of additional issues upon further examination:

(1) Whether applicant is an investment company within the definitions contained in section 3 (a) of the act, and

(2) Whether applicant is primarily engaged in the business of managing and operating a traction system for the transportation of passengers in Portland, Oregon, through controlled companies, so as not to be engaged primarily in the business of investing, reinvesting, owning, holding, or trading in securities.

It appearing to the Commission that the hearing upon the application is necessary and appropriate;

It is ordered, Pursuant to section 40 (a) of said act that a public hearing of the aforesaid application be held on June 16, 1947 at 10:00 a. m. Pacific standard time in the Regional Offices of the Commission, Room 334B Appraisal Building, 630 Sansom Street, San Francisco, California.

It is further ordered, That F. E. Kennamer or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to hearing officers under the Commission's rules of practice.

Notice of such hearing is hereby given to the above-named applicant and to any other person or persons whose participation in such proceedings may be necessary or appropriate in the public interest or for the protection of investors. Any person desiring to be heard in said proceeding should file with the hearing officer or the Secretary of the Commission, on or before June 13, 1947, his application therefor as provided by Rule XVII of the rules of practice of the Commission, setting forth therein any of the above matters or issues of law or fact which he desires to controvert and any additional issues he deems raised by the aforesaid application.

By the Commission.

EASTERN MINNESOTA POWER CORP. ET AL.

ORDER APPROVING AMENDED PLAN

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 26th day of May 1947.

In the matter of Eastern Minnesota Power Corporation, Wisconsin Hydro Electric Company and Manufacturers Trust Company, respondents, File No. 59-70; Eastern Minnesota Power Corporation and Wisconsin Hydro Electric Company, applicants, File Nos. 54-138 and 54-48.

Eastern Minnesota Power Corporation (hereinafter referred to as "Minnesota"), a registered holding company, and its subsidiary company, Wisconsin Hydro Electric Company (hereinafter referred to as "Wisconsin"), having filed an application and amendments thereto for approval of a plan pursuant to the provisions of section 11 (e) of the Public Utility Holding Company Act of 1935 (hereinafter referred to as "the act"); the Commission having instituted proceedings under section 11 (b) (2) of the act with respect to Minnesota, Wisconsin, and Manufacturers Trust Company (hereinafter referred to as "Manufacturers Trust"), to determine what action, if any, is necessary and should be required to be taken by such companies under such section, and such proceeding having been consolidated with the foregoing proceeding under section 11 (e);

The Commission having issued its notice of filing and notice of and order for hearing in said consolidated proceedings, hearings on said plan having been held, the record having been completed with respect to said plan insofar as it relates to the sale of the physical assets of Minnesota and the use of the proceeds therefrom to the extent necessary to retire its First Mortgage 5½% Gold Bonds, at the principal amount thereof plus accrued interest to the effective date of the plan, but without premium payment, and briefs having been filed;

Minnesota having requested that a separate order be issued approving said plan insofar as it relates to the sale of the physical assets of Minnesota and the use of the proceeds to the extent necessary to retire its First Mortgage 5½% Gold Bonds, at the principal amount thereof plus accrued interest to the effective date of the plan, but without premium payment; that the order of the Commission contain the recitals required by section 1808 of the Internal Revenue Code, as amended, and that application be made by the Commission to an appropriate United States District Court in accordance with the provisions of subsection (f) of section 18 of the act to enforce and carry out the terms and provisions of the plan relating to the sale of assets and the retirement of bonds as above referred to;

None of the participants in these proceedings having objected to the entry by the Commission of a separate order as requested by Minnesota and it appearing to the Commission that the separation for determination of so much of said plan as relates to the sale of physical assets of Minnesota and the retirement of its bonds without premium payment is in the interest of orderly and expeditious administration of the act; it further appearing to the Commission that its is appropriate to grant the other requests of Minnesota referred to hereinabove; and

The Commission being duly advised in the premises, having considered the record herein, and having this day issued its findings and opinion herein, finding that so much of said plan under section 11 (e) as provides for the sale of the physical assets of Minnesota and the use of the proceeds from said sale to the extent necessary to retire that company's First Mortgage Bonds at the principal amount thereof plus accrued interest to the effective date of the plan, but without premium payment, is necessary and appropriate to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons affected thereby;

It is ordered, Pursuant to the applicable provisions of the act that said plan in so far as it relates to the sale of the physical assets of Minnesota and the use of the proceeds from said sale to the extent necessary to retire Minnesota's First Mortgage 5½% Gold Bonds at the principal amount thereof and accrued interest to the effectiv date of the plan, but without premium payment be, and the same hereby is, approved and that the declaration filed pursuant to section 12 of the act be, and the same hereby is, permitted to become effective, respectively, subject, however, to the conditions specified in Rule U-24 and subject to the following terms and conditions:

1. That jurisdiction be, and it hereby is, reserved to the Commission to entertain such further proceedings, to make such further findings, to take such further action as it may deem appropriate in connection with said plan, and to take such further action as it may deem necessary and appropriate to effectuate the provisions of section 11 (b) of the act;

2. That the sale by Minnesota of its physical assets and the use of the proceeds from said sale to the extent necessary to retire its First Mortgage 5½% Gold Bonds at the principal amount, plus accrued interest to the effective date of the plan, but without premium payment, shall not be consummated until such portion of said plan has been approved by an appropriate United States District Court.

It is further ordered, That the sale by Minnesota of its physical assets for $1,530,000, and the use of such proceeds to the extent necessary to retire said bonds at par, plus accrued interest, are necessary or appropriate for the integration or simplification of the Minnesota holding company system and are necessary or appropriate to effectuate the provisions of section 11 (b) of the act.

It is further ordered, That counsel for the Commission be, and they hereby are, authorized and directed to make application forthwith on behalf of the Commission to an appropriate United States District Court pursuant to the provisions of section 11 (e) and subsection (f) of section 18 of the act to enforce and carry out the terms and provisions of that portion of said plan relating to the sale of the physical assets of Minnesota and the use of the proceeds from such sale to the extent necessary to retire at the principal amount thereof, plus accrued interest, but without premium, its First Mortgage 5½% Gold Bonds.

CONSOLIDATED ELECTRIC AND GAS CO. ET AL.

MEMORANDUM OPINION AND ORDER GRANTING AND PERMITTING APPLICATION-DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 3d day of June A. D. 1947.

In the matter of Consolidated Electric and Gas Company, The Middle West Corporation and Upper Peninsula Power Company, File No. 70-1471.

On May 14, 1947, we issued our opinion and order in this matter permitting, among other things, the proposed sales by Upper Peninsula Power Company of $3,500,000 principal amount of First Mortgage Bonds, --% Series, due 1977, and 10,000 shares of Cumulative Preferred Stock, --% Series of the par value $100 each, provided that said sales should not be consummated until the results of competitive bidding had been made a matter of record in this proceeding and a further order issued thereon.

The company invited separate, sealed, written bids for the bonds and preferred stock which were to be submitted and opened on May 21, 1947. The invitation specified that bids for the bonds should be on the basis of an interest rate of not more than 3½% and a price to the company of not less than 100% of the principal amount thereof and further specified that bids for the preferred stock should be on the basis of a dividend rate of not more than 5% and a price to the company of not less than $100 per share. One bid was submitted for the bonds but no bids were received for the preferred stock. The invitation for bids provided that the acceptance of a bid for either class of securities was conditioned upon the acceptance of a bid for the other class of security and, since no bid was received for the preferred stock, the bid submitted for the bonds was not opened.

The company has now filed an application requesting that the issuance and sale of the bonds and the preferred stock be exempted from the requirements of Rule U-50 and, at a public hearing held on such application, evidence was presented showing that on June 2, 1947, the company entered into purchase contracts with two separate groups of underwriters for the sale of the bonds and the preferred stock. Pursuant to such contracts, a group of underwriters represented by Halsey Stuart & Co. will purchase the bonds, which will bear interest at the rate of 3¼% per annum, at a price of 101% of the principal amount thereof plus accrued interest from May 1, 1947, and a group represented by Otis & Co. will purchase the preferred stock which will bear a dividend rate of 5¼% at a price of $100 per share plus accrued dividends from May 1, 1947.

The record discloses that following the unsuccessful public offering at competitive bidding, representatives of the company contacted all underwriting groups which had previously evidenced any interest in the purchase of the securities in an effort to effect the sale through private negotiations. Efforts to effect a private sale of the securities eventually resulted in the proposals now before us. The company obtained an order from the Michigan Public Service Commission permitting the preferred stock to be sold, bearing a dividend rate of not in excess of 5¼%, which, in effect, amended an earlier order of that Commission limiting the dividend rate on the preferred stock to 5%. The bonds are to be offered to the public at a price of 102.875%, resulting in an underwriting spread of 1.875% and the preferred stock is to be offered to the public at a price of $104 per share, resulting in an underwriting spread of $4 per share.

Under the circumstances of this case as disclosed by the record, we are of the opinion that the exemption from competitive bidding should be granted and have concluded that the prices being paid for the bonds and preferred stock and the respective underwriting spreads are not unreasonable.

It is therefore ordered, That the application for exemption from competitive bidding be granted and that the application-declaration, as amended, regarding the issuance and sale by Upper Peninsula Power Company of the bonds and preferred stock described above be granted and permitted to become effective.

It is further ordered, That the jurisdiction over the payment of fees and expenses reserved in our order of May 14, 1947, be and it hereby is released.

Consolidated Electric and Gas Company and The Middle West Corporation, parties to this proceeding, having requested that our order shall conform with sections 371 (b), 371 (f), 373 (a), and 1808 (f) of the Internal Revenue Code, as amended, and contain the recitals, specifications, and itemizations described in sections 371 (b), 371 (f), and 1808 (f) thereof;

It is further ordered and recited, That the transactions set forth in the application-declaration, as amended, proposed to be effected by Consolidated Electric and Gas Company and The Middle West Corporation, including those hereinafter described and recited, are hereby approved and found to be necessary or appropriate to the integration or simplification of their holding company systems and to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935:

(a) The sale by Consolidated Electric and Gas Company to Upper Peninsula Power Company of all of the capital stock of Houghton County Electric Light Company consisting of 54,000 shares of capital stock of the par value of $25 each, all of the capital stock and note indebtedness of Iron Range Light and Power Company consisting of 650 shares of capital stock of the par value of $100 each and $62,250 principal amount of 6% demand notes;

(b) The sale by The Middle West Corporation to Upper Peninsula Power Company of 9,000 shares without nominal or par value of the $3 Cumulative Preferred Stock and 17,000 shares without nominal or par value of the common stock of Copper District Power Company;

(c) The expenditure or application by Consolidated Electric and Gas Company of the cash portion of the proceeds of the said sale of its investments in the capital stock of Houghton County Electric Light

Company and in the capital stock and note indebtedness of Iron Range Light and Power Company, or an amount equivalent to such portion of said proceeds, in the payment and satisfaction and retirement of outstanding notes of Consolidated Electric and Gas Company dated November 29, 1945, and due November 29, 1948; and

(d) The expenditure or application by The Middle West Corporation of the cash portion of the proceeds of the said sale of its investment in the preferred stock and common stock of Copper District Power Company or an amount equivalent to such portion of said proceeds in the purchase of additional shares of common stock of Kentucky Utilities Company or the contribution to the capital or paid-in surplus of said Kentucky Utilities Company upon further application to and approval of this Commission.

UNITED CORP.

ORDER PERMITTING WITHDRAWAL OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 2d day of June 1947.

The United Corporation ("United"), a registered holding company, having heretofore filed an application for approval of a plan under section 11 (e) of the Public Utility Holding Company Act of 1935 proposing to offer to exchange for one share of its $3 Cumulative Preference Stock, and all rights and claims to accrued dividends thereon, up to and including 200,000 shares of such preference stock, 4 shares of the common stock of Columbia Gas & Electric Corporation and $2 in cash; and

Applicant having requested permission to withdraw said application, and having represented in support of such request that it appears feasible to applicant to propose and formulate for the consideration and approval of the Commission a plan for the compulsory retirement of all the outstanding shares of its preference stock, and that a limited voluntary exchange of securities as proposed would become unnecessary and inadvisable; and

It appearing to the Commission that the withdrawal of said application is consistent with the public interest;

It is ordered, That the request of the applicant be, and it hereby is, granted, and said application is hereby deemed withdrawn.

Washington, Wednesday, June 11, 1947

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 01—ORGANIZATION AND OFFICIAL RECORDS OF THE COMMISSION

RETIREMENT DIVISION

Section 01.12 (a) is amended to read as follows:

§ 01.12 *Retirement Division*—(a) *Organization.* The Retirement Division is charged with responsibility for interpreting and administering the Civil Service Retirement Act of May 22, 1920 (41 Stat. 614), as amended (5 U. S. C. 691–738), the Canal Zone Retirement Act of March 2, 1931 (46 Stat. 1471), as amended (48 U. S. C. 1371), and the Alaska Railroad Retirement Act of June 29, 1936 (49 Stat. 2017), as amended (5 U. S. C. 745). Jurisdiction over the administration of the act of May 29, 1944 58 Stat. 257), is also vested in the Division. This act provides for the payment of annuities to United States citizen employees (or to their unremarried widows under prescribed conditions) who served on the Isthmus of Panama during the construction period of the Panama Canal from May 4, 1904, to March 31, 1914, inclusive, who were not included in the recognition and the benefits accorded by the act of March 4, 1915 (38 Stat. 1190).

CROSS REFERENCE: For regulations relative to retirement, see Part 29 of this chapter.

The operating sections of the Division are as follows:

(1) *Annuity Section.* This section adjudicates claims for annuities under the Civil Service Retirement Act, the Canal Zone Retirement Act, and the Alaska Railroad Retirement Act, on age, optional and disability retirements, and discontinued service; determines whether legal and medical title has been established; determines the amount payable and the date payments are to begin; and develops and appraises all evidence, documents, and records required to substantiate the actions taken. It adjudicates claims for gratuity benefits under the Panama Canal Construction Annuity Act. It advises employees and prospective annuitants on their annuitable rights and obligations, maintains a record of all annuitants retired on disability, and orders the annual medical examinations as required.

(2) *Service Credit Section.* This section examines service credit applications and makes formal decisions with respect to the service credits to which present or former employees are entitled under the retirement laws and the amounts which must be paid in order to obtain title to annuity or to secure full annuity for such periods of service. It answers correspondence relating to the processing of service credit claims and voluntary contributions.

(3) *Death Claims Section.* This section adjudicates claims filed by the beneficiaries, legal representatives, or next of kin of deceased employees or annuitants for the accrued annuity, the unexpended balance, or the accumulated deductions in the retirement funds. It adjudicates claims submitted in behalf of former employees who are incompetent, for accumulated deductions to their credit in the retirement funds. It examines the designation of beneficiary forms for completeness and compliance with regulations and instructions. It conducts correspondence with respect to death claims and designation of beneficiary forms and maintains the files of designation of beneficiary forms. It prepares certifications of information contained in designation of beneficiary forms for use by the General Accounting Office in the administration of the act of December 21, 1944 (58 Stat. 845).

(4) *Refund Section.* This section adjudicates refund claims filed by former employees for the refund of deductions made from their salaries and to their credit in the retirement fund; determines the legality of such claims and the amount payable; develops and appraises the evidence, documents, and records required to substantiate the actions taken.

(5) *Correspondence Section.* This section conducts correspondence with present and former Government employees or their representatives with respect to refund rights and claims. It answers correspondence of a general nature not relating to the processing of annuity, service credit, voluntary contributions, or death claims.

(6) *Fiscal Section.* This section prepares schedules and vouchers covering payments on all retirement claims for use by the Disbursing Office of the Treasury in the preparation of checks and for use by the General Accounting Office in the audit of claim payments. It certifies all disbursements made from the retirement funds; maintains the administrative accounting controls for the retirement and disability funds; prepares the periodic financial statements for use by the officials of the Division, the Board of Actuaries, and the Commission in the administration of the Retirement Acts and for submission to the Congress in the Annual Reports and Budget Estimates; receives and records cash, check, or money order remittances of voluntary deposits and issues receipts thereon; deposits remittances to the appropriate accounts in the Treasury of the United States; accepts and records payments from employees covering the purchase of service credits, or redeposits of amounts withdrawn or overpayments, and issues receipts thereon; deposits remittances in the Treasury of the United States to the credit of the proper retirement fund; maintains the individual annuity award accounts; maintains the individual retirement accounts (Form 2806) on all separated employees.

(7) *Agency Accounting Section.* This section conducts studies of the procedures used and practices followed by agencies in the maintenance of individual retirement accounts (Form 2806) and submits reports and recommendations for improvements whenever deemed necessary. It makes periodical inspections to the extent necessary to determine whether the retirement records in the agencies are maintained currently and in accordance with laws, regulations, and instructions; and makes periodical reports to the Commission on the status of retirement records in each agency. It develops training material for use by agencies in training new employees on the maintenance of individual retirement accounts and in the preparation of retirement applications and forms; maintains liaison with agencies, giving advice and instructions to officials and employees in the agencies who are assigned to and are responsible for the agency's retirement work, and advice on the procedures for the submission of applications, claims, account records, reports, and forms to the Commission; and renders technical and legal advice with respect to the Retirement Act and regulations.

(8) *Accounting Systems and Reports Analysis Section.* This section conducts studies of the over-all control accounts maintained by the Division in connection with the administration of the retirement system to determine their sufficiency; recommends such changes and improvements in the retirement accounting system and practices as are considered necessary to protect the employees covered by the system, the Government, and the Commissioners who serve as trustees of the retirement funds; and directs the installation of such changes. It studies the financial statements and reports now prepared to determine the adequacy of the accounts and reports and the effectiveness of the protection thereby afforded to the Commission and to present and prospective annuitants. It secures clearance with the General Accounting Office of all suggested new systems or proposed revisions of existing accounting methods and procedures and conducts conferences with representatives of agencies, the General Accounting Office, and other interested groups for the purpose of assisting in the installation of retirement accounting systems and the development of improvements in the procedures followed in the agencies and in the Division.

(9) *Congressional Services Section.* This section furnishes information to Members of Congress with respect to rights and benefits of their constituents on telephonic request. It furnishes data by telephone on the status of individual claims to Members of Congress in those cases where inquiry has been received by them from claimants for retirement benefits. It furnishes former and present employees with information regarding their rights and benefits, status of their claims, and procedures or instructions to be followed in presenting their claims.

(10) *Office of the Legal Adviser.* This office serves in an advisory capacity to the staff officials of the Division with respect to the analysis of legal aspects of proposed changes in retirement laws and regulations and makes specific recommendations with respect thereto. It analyzes retirement and related laws to interpret the intent of Congress and decisions of the Comptroller General and of the Attorney General for the purpose of advising the Commission and its staff officials, employing agencies and their officers and employees, and representatives of employee organizations. It renders opinions and decisions on questions requiring the application of provisions of the retirement and related laws and administrative rulings; prepares cases for submission to the Board of Appeals and Review, to the Attorney General, or to the Comptroller General; collaborates with the Department of Justice in the preparation and trial of suits arising under the retirement laws; prepares drafts of bills and reports of the Com-

mission on proposed legislation concerning retirement, for the use in consideration of Congressional Committees; drafts rules and regulations with respect to the administration of the retirement laws, for promulgation by the Commission.

(11) *Office of the Actuary.* This office conducts actuarial studies, periodic valuations of retirement funds, and longevity investigations of annuitants. It conducts studies to determine relation of service and contributions to benefits at the different ages of retirement; confers with the Board of Actuaries for the purpose of presenting to the Board members new developments, proposals, reports and data, and for the purpose of securing their advice and consultation with respect to such reports and proposals; makes actuarial studies and recommends improvements and simplification in retirement systems and policies; prepares the annual retirement reports; prepares special interest tables, and similar types of aids to facilitate the speedy and economical performance of retirement activities.

(12) *Procedures and Control Section.* This section conducts surveys of and studies existing procedures, regulations, policies, and methods followed in the Division, and prepares process charts and reports analyzing them and recommending changes designed to improve operations and reduce costs. It assembles and analyzes management control data on the operations of the Division, and recommends ways or methods of correcting or adjusting procedures to eliminate or correct bad situations before they become a problem; studies and recommends changes in policies, regulations, or laws to conform to new developments or requirements and to changing patterns or circumstances; establishes controls which will indicate when corrective actions are needed with respect to receipts, productions, backlogs, personnel assignments, delays, or unsatisfactory conditions generally; installs changes as approved by the Division officials or the Commission and follows through to assure compliance with authorized instructions, policies, laws, regulations, and procedures.

(13) *Personnel Section.* This section develops programs and provides the leadership to get them into operation, for full utilization of personnel; administration of the efficiency-rating system; selection, placement and promotion of personnel; handling of the work assignment program; handling of employee relations and employee counseling; handling of reductions in force programs; administration of leave regulations and instructions. It prepares personnel forms and supporting documents for submission to the Director of Personnel to effect personnel appointments, changes, and separations; prepares job descriptions and recommends grade allocations for positions in the Division and presents necessary explanatory material and information as required to justify recommendations; initiates and conducts conferences with operating officials to explain new programs and the methods to be followed in putting them into effect.

(14) *Miscellaneous Services Section.* This section makes a continuous study of forms and form letters in use in the Division with a view to the elimination of obsolete and unnecessary forms, and the simplification and consolidation of remaining forms and form letters. It procures supplies and equipment for the Division, and prepares the periodical inventory reports; studies space assignments, requirements, and utilization to insure the most effective allocation; reports on work conditions, sufficiency of lighting, compliance with fire regulations, and acceptability of appearance of the building occupied by the Division.

(15) *Budget and Reports Section.* This section compiles the statistical statements, trend charts, and justifications for the Division's annual and supplemental budget estimates. It prepares the summaries and analyses of work reports, calling attention to increases or decreases in work receipts, work performance, work on hand, and unit costs and to repeated instances of non-compliance with established quantity work standards. It recommends revision of work report forms when it is found that they do not satisfactorily provide the work control data essential for management purposes. It develops and maintains cost data and cost records on all significant activities of the Division.

(16) *Mail and Files Section.* This section receives and distributes all incoming mail. It dispatches outgoing mail. It maintains the General Index Records and the closed files on all annuity claims, death claims, refund claims, and service credit applications adjudicated, and furnishes records and information as requested from these files. It furnishes the general messenger service for the Division.

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspection, Marketing Practices)

Subchapter C—Regulations Under the Farm Products Inspection Act

PART 51—FRUITS, VEGETABLES AND OTHER PRODUCTS (GRADING, CERTIFICATION AND STANDARDS)

U. S. STANDARDS FOR PEACHES

By virtue of the authority (11 F. R. 7713) vested in me by the Secretary of Agriculture, I hereby approve the publication in the FEDERAL REGISTER of the following United States Standards for Peaches which were issued April 22, 1933. These standards are currently in effect pursuant to the Department of Agriculture Appropriation Act of 1947 (Pub. Law 422, 79th Cong., 2d sess., approved June 22, 1946).

§ 51.312 *Peaches—(a) General—(1) Application of tolerances.* The tolerances specified for the various grades are placed on a package basis. However, any lot of peaches shall be considered as meeting the requirements of a specified grade if the entire lot averages within the tolerances specified: *Provided,* That the defects in any package based on sample inspection do not exceed the following amounts:

(i) For a specified tolerance of 10 percent not more than one and one-half times the tolerance shall be allowed for any one package.

(ii) For specified tolerances of 5 percent or less not more than double the tolerance shall be allowed for any one package.

(b) *Grades.* (1) "U. S. Fancy" shall consist of peaches of one variety which are mature but not soft or overripe, well formed; free from decay, bacterial spot, cuts which are not healed, growth cracks, hail injury, scab, scale, split pits, worms, worm holes, leaf or limb rub injury; and from damage caused by bruises, dirt or other foreign material, other disease, insects or mechanical or other means.

(i) Each peach shall meet its varietal color requirements as follows, which is expressed in terms of percentage of the fruit surface showing red color characteristic of the variety:

50 PERCENT OR MORE

Carman.	St. John.
Early Crawford.	Triumph.
Early Rose.	Tuscan Cling.
Hiley.	Other similar varieties.
Mayflower.	
Red Bird (Early Wheeler).	

25 PERCENT OR MORE

Belle of Georgia.	Orange Cling.
Cumberland.	Palore.
Elberta.	Stump.
J. H. Hale.	Uneeda.
Jubilee.	Other similar varieties.
Late Crawford.	

15 PERCENT OR MORE

Bilyeau.	Salwey.
Champion.	Slappy.
Eclipse.	Smock.
Greensboro.	Other similar varieties.
Levy.	
Phillips Cling.	

(ii) In order to allow for variations incident to proper grading and handling, not more than 10 percent, by count, of the peaches in any package may be below the requirements of this grade other than for color but not more than one-half of this tolerance, or 5 percent, shall be allowed for defects causing serious damage and not more than one-fifth of this amount, or 1 percent, shall be allowed for decay at shipping point. An additional tolerance of 2 percent shall be allowed for soft or overripe peaches or decay en route or at destination. In addition, not more than 10 percent, by count, of the fruit in any package may be below the specified color requirement.

(2) "U. S. Extra No. 1." Any lot may be designated "U. S. Extra No. 1" when the peaches meet the requirements of U. S. No. 1 grade: *Provided,* That not less than 50 percent, by count, of the peaches in any lot also meets the color requirements of U. S. Fancy grade.

(i) In order to allow for variations incident to proper grading and handling, not more than 10 percent, by count, of the peaches in any package may be below the requirements of this grade but not more than one-half of this tolerance, or 5 percent, shall be allowed for defects causing serious damage and not more than one-fifth of this amount, or 1 percent, shall be allowed for decay at shipping point. An additional tolerance of 2 percent shall be allowed for soft or overripe peaches or decay en route or at destination. No part of any tolerance shall be used to reduce the percentage of peaches with U. S. Fancy color required for the lot as a whole but individual packages may have not less than 40 percent which meets the color requirements of U. S. Fancy grade: *Provided,* That the entire lot averages not less than 50 percent. However, the 3 percent total tolerance for decay en route or at destination may be used to reduce this percentage provided there is no evidence that the decayed fruit did not meet the color requirements of U. S. Fancy at time of packing.

(3) "U. S. No. 1" shall consist of peaches of one variety which are mature but not soft or overripe, well formed, free from decay, growth cracks, cuts which are not healed, worms, worm holes, and from damage caused by bruises, dirt, or other foreign materials, bacterial spot, scab, scale, hail injury, leaf or limb rubs, split pits, other disease, insects or mechanical or other means.

(i) In order to allow for variations incident to proper grading and handling, not more than 10 percent, by count, of the peaches in any package may be below the requirements of this grade but not more than one-half of this tolerance, or 5 percent, shall be allowed for defects causing serious damage and not more than one-fifth of this amount, or 1 percent, shall be allowed for decay at shipping point. An additional tolerance of 2 percent shall be allowed for soft or overripe peaches or decay enroute or at destination.

(4) "U. S. No. 2" shall consist of peaches of one variety which are mature but not soft or overripe, not badly misshapen, free from decay, cuts which are not healed, worms, worm holes, and from serious damage caused by bruises, dirt or other foreign materials, bacterial spot, scab, scale, growth cracks, hail injury, leaf or limb rubs, split pits, other disease, insects, or mechanical or other means.

(i) In order to allow for variations incident to proper grading and handling, not more than 10 percent, by count, of the peaches in any package may be below the requirements of this grade, but not more than one-tenth of this tolerance, or 1 percent, shall be allowed for decay at shipping point. An additional tolerance of 2 percent shall be allowed for soft or overripe peaches or decay enroute or at destination.

(c) *Unclassified.* Unclassified shall consist of peaches which are not graded in conformity with any of the foregoing grades.

(d) *Marking requirements for size.* The minimum size, numerical count, or description of pack of the peaches in any package shall be plainly stenciled, labeled, or otherwise indicated on the package. Minimum size refers to the "diameter" (as hereinafter defined) of the smallest peach and shall be stated in terms of whole inches, whole and half inches, whole and quarter inches, or whole and eighth inches, as 2 inches minimum, 2¼ inches minimum, 1⅞ inches minimum, etc. in accordance with the facts.

(1) "Diameter" means the shortest distance measured through the center of the peach at right angles to a line running from the stem to the blossom end.

(2) In order to allow for variations incident to proper sizing, not more than 10 percent, by count, of the peaches in any package may be below the specified minimum size.

(3) Description of pack refers especially to peaches packed in six-basket carriers. When used, it shall include the arrangement of the peaches in each layer in the baskets and also the total number of layers in the carrier and shall be indicated as follows: 2–1, 6 layers; 2–2, 6 layers; 3–2, 6 layers, in accordance with the facts.

(e) *Standard pack.* Each package shall be packed so that the peaches in the shown face shall be reasonably representative in size, color and quality of the contents of the package.

(1) Six-basket carriers: Peaches packed in the standard six-basket carrier shall be reasonably uniform in size and arranged in the individual baskets according to the approved and recognized methods.

	Bottom layer	Middle layer	Top layer	Total basket	Total carrier
2 x 1—6 layer	8	7	8	23	138
2 x 1—6 layer	9	9	9	27	162
2 x 2—6 layer	10	10	10	30	180
2 x 2—6 layer	10	12	12	34	204
3 x 2—6 layer	13	15	15	43	258

(2) All baskets shall be well filled and packed with sufficient bulge to prevent any appreciable movement after lidding but the contents shall not show excessive or unnecessary bruising because of overfilled packages.

(3) Baskets: Peaches packed in bushel or half-bushel round-bottom baskets and tub baskets shall be ring faced and tightly packed with sufficient bulge to prevent any appreciable movement of the peaches within the package when lidded.

(4) Boxes: Peaches packed in the standard western boxes shall be reasonably uniform in size and arranged in the packages according to the approved and recognized methods. Each wrapped peach shall be fairly well enclosed by its individual wrapper. All packages shall be well filled and tightly packed but the contents shall not show excessive or unnecessary bruising because of over-filled packages. The number of peaches in the box shall not vary more than 4 from the number indicated on the box.

(5) In order to allow for variations incident to proper packing, not more than 10 percent of the packages in any lot may not meet these requirements.

(f) *Definitions.* (1) "Mature" means that the peach has reached the stage of growth which will insure a proper completion of the ripening process.

(2) "Well formed" means that the peach has the shape characteristic of the variety.

(3) "Leaf or limb rub injury" means that the scarring is not smooth, not light colored, or aggregates more than one-fourth inch in diameter.

(4) "Damage" means any injury or defect which materially affects the appearance, edible or shipping quality of the peach. Any one of the following defects, or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(i) Bacterial spot when cracked, or when aggregating more than three-eighths inch in diameter.

(ii) Scab spots when cracked, or when aggregating more than three-eighths inch in diameter.

(iii) Scale when concentrated, or when scattered and aggregating more than one-fourth inch in diameter.

(iv) Hail injury which is unhealed, or deep, or when aggregating more than one-fourth inch in diameter.

(v) Leaf or limb rubs when not smooth, or when not light colored, or when aggregating more than one-half inch in diameter.

(vi) Split pit when causing any unhealed crack, or when causing any crack which is readily apparent, or when affecting shape to the extent that fruit is not well formed.

(5) "Serious damage" means any injury or defect which seriously affects the appearance, edible or shipping quality of the peach. Any one of the following defects, or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect shall be considered as serious damage:

(i) Bacterial spot when any cracks are not well healed, or when aggregating more than three-fourths inch in diameter.

(ii) Scab spots when cracked, or when healed and aggregating more than one inch in diameter.

(iii) Scale when aggregating more than one-half inch in diameter.

(iv) Growth cracks when unhealed, or more than one-half inch in length.

(v) Hail injury when unhealed, or shallow hail injury when aggregating more than three-fourths inch in diameter, or deep hail injury which seriously deforms the fruit or which aggregates more than one-half inch in diameter.

(vi) Leaf or limb rubs when smooth and light colored and aggregating more than one and one-half inches in diameter, or dark or slightly rough and bark-like scars aggregating more than three-fourths inch in diameter.

(vii) Split pit when causing any unhealed crack, or when healed and aggregating more than one-half inch in length including any part of the crack which may be covered by the stem.

(viii) Soft or overripe peaches.

(ix) Wormy fruit or worm holes.

(6) "Badly misshapen" means that the peach is so decidedly deformed that its appearance is seriously affected.

PART 51—FRUITS, VEGETABLES AND OTHER PRODUCTS (GRADING, CERTIFICATION AND STANDARDS)

STANDARDS FOR SUMMER AND FALL PEARS

By virtue of the authority (11 F. R. 7713) vested in me by the Secretary of Agriculture, I hereby approve the publication in the FEDERAL REGISTER of the following United States standards for summer and fall pears, such as Bartlett, Hardy, and other similar varieties which were issued June 26, 1940. These standards are currently in effect pursuant to the Department of Agriculture Appropriation Act of 1947 (Pub. Law 422, 79th Cong., 2d Sess., approved June 22, 1946).

§ 51.331 *Pears (summer and fall)*—(a) *General.* (1) When the numerical count is marked on the container, percentages shall be calculated on the basis of count.

(2) When the minimum diameter or minimum and maximum diameters are marked on the container, percentages shall be calculated on the basis of weight.

(3) When the pears are in bulk, percentages shall be calculated on the basis of weight.

(4) The tolerances for the standards are on a container basis. However, individual packages in any lot may vary from the specified tolerances as stated below, provided the averages for the entire lot, based on sample inspection, are within the tolerances specified.

(5) For a tolerance of 10 percent or more, individual packages in any lot may container not more than one and one-half times the tolerance specified, except that when the package contains 15 specimens or loss, individual packages may contain not more than double the tolerance specified.

(6) For a tolerance of less than 10 percent, individual packages in any lot may contain not more than double the tolerance specified, provided at least one specimen which does not meet the requirements shall be allowed in any one package.

(b) *Grades.* (1) "U. S. No. 1" shall consist of pears of one variety which are mature, but not overripe, carefully handpicked, clean, fairly well formed, free from decay, internal breakdown, scald, freezing injury, worm holes, black end, and from damage caused by hard end, bruises, broken skins, russeting, limbrubs, hail, scars, drought spot, sunburn, sprayburn, stings or other insect injury, disease, or mechanical or other means. (See paragraph (e) *Tolerance* and paragraph (f) *Condition after storage or transit* of this section.)

(2) "U. S. No. 2" shall consist of pears of one variety which are mature, but not overripe, carefully handpicked, clean, not seriously misshapen, free from decay, internal breakdown, scald, freezing injury, worm holes, black end, and from damage caused by hard end, or broken skins. The pears shall also be free from serious damage caused by bruises, russeting, limbrubs, hail, scars, drought spot, sunburn, sprayburn, stings or other insect injury, disease, or mechanical or other means. (See paragraph (e) *Tolerances* and paragraph (f) *Condition after storage or transit* of this section.)

(3) "U. S. Combination Grade." A combination of U. S. No. 1 and U. S. No. 2 may be packed. When such a combination is packed, at least 50 percent of the pears in any container shall meet the requirements of U. S. No. 1. (See paragraph (e) *Tolerances* and paragraph (f) *Condition after storage or transit* of this section.)

(c) *Unclassified.* Unclassified shall consist of pears which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards, but is provided as a designation to show that no definite grade has been applied to the lot.

(d) *Definitions.* (1) "Mature" means that the pear has reached the stage of maturity which will insure the proper completion of the ripening process.

(2) Before a mature pear becomes overripe it will show varying degrees of firmness, depending upon the stage of the ripening process. Therefore, a statement of firmness should be given in order to indicate the stage of the ripening process. A description of the ground color should also be given.

(i) The following terms should be used for describing the ground color: "Green," "light green," "yellowish green," and "yellow."

(ii) The following terms should be used for describing the firmness of pears:

(*a*) "Hard" means that the flesh of the pear is solid and does not yield appreciably even to considerable pressure. Such pears are in suitable condition for long storage period for the variety.

(*b*) "Firm" means that the flesh of the pear is fairly solid but yields somewhat to moderate pressure. The ripening process in firm pears is further advanced than in hard pears and they cannot be held in storage as long.

(*c*) "Firm ripe" means that the flesh of the pear yields readily to moderate pressure. Such a pear is approaching the stage at which it is in prime eating condition but may be held for a brief period.

(*d*) "Ripe" means that the pear is at the stage where it is in its most desirable condition for eating.

(3) "Overripe" means dead ripe, very mealy or soft, past commercial utility.

(4) "Carefully handpicked" means that the pears do not show evidence of rough handling or of having been on the ground.

(5) "Clean" means free from excessive dirt, dust, spray residue or other foreign material.

(6) "Black end" is evidenced by an abnormally deep green color around the calyx, or black spots usually occurring on the one-third of the surface nearest to the calyx, or by an abnormally shallow calyx cavity.

(7) "Fairly well-formed" means that the pear may be slightly abnormal in shape but not to an extent which detracts materially from the appearance of the fruit.

(8) "Damage" means any injury or defect which materially affects the appearance, edible or shipping quality.

(i) Hard end, if the pear shows a distinctly constricted protrusion at the blossom end, or an abnormally yellow color at the blossom end, or an abnormally smooth rounded base with little or no depression at the calyx, or if the flesh near the calyx is abnormally dry and tough or woody.

(ii) Slight handling bruises and package bruises such as are incident to good commercial handling in the preparation of a tight pack shall not be considered damage.

(iii) Any pear with one skin break larger than $\frac{3}{16}$ inch in diameter or depth, or with more than one skin break $\frac{1}{4}$ inch or larger in diameter or depth shall be considered damaged, and scored against the grade tolerance.

(*a*) Small inconspicuous skin breaks, less than $\frac{1}{8}$ inch in diameter or depth, shall not be considered damage. In addition, not more than 15 percent of the pears in any container may have not more than one skin break from $\frac{1}{4}$ inch to $\frac{3}{16}$ inch, inclusive, in diameter or depth.

(iv) Russeting which exceeds the following shall be considered as damage:

(*a*) On all varieties excessively rough russeting (russeting which shows "frogging" or slight cracking) when the aggregate area exceeds $\frac{1}{2}$ inch in diameter.

(*b*) On Bartlett and other smooth-skinned varieties, slightly rough russeting, or thick russeting such as is characteristic of frost injury, when the aggregate area exceeds $\frac{3}{4}$ inch in diameter.

(*c*) On Bartlett and other smooth-skinned varieties, smooth solid or smooth netlike russeting when the aggregate area exceeds 15 percent of the surface.

(*d*) On Hardy, Sand and other similar varieties, rough or thick russeting such as is characteristic of frost injury, when the aggregate area exceeds $\frac{3}{4}$ inch in diameter. On any of these varieties any amount of characteristic russeting is permitted whether due to natural causes such as weather or stimulated by artificial means; leaf whips or light limbrubs which resemble and blend into russeted areas shall be considered as russet.

(v) Any one of the following defects or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect shall be considered as damage:

(*a*) Any limbrubs which are cracked, softened, or more than slightly depressed.

(*b*) Black discoloration caused by limbrubs, which exceeds an aggregate area of $\frac{3}{8}$ inch in diameter.

(*c*) Dark brown discoloration or excessive roughness caused by limbrubs which exceeds an aggregate area of $\frac{1}{2}$ inch in diameter.

(*d*) Slightly rough, light colored discoloration caused by limbrubs which exceeds an aggregate area of $\frac{3}{4}$ inch in diameter.

(*e*) Smooth, light colored discoloration caused by limbrubs which exceeds an aggregate area of 1 inch in diameter.

(*f*) Hail marks or other similar depressions of scars which are not shallow or superficial, or where the injury affects an aggregate area of more than $\frac{3}{8}$ inch in diameter.

(*g*) Drought spot when more than one in number, or when the external injury exceeds an aggregate area of $\frac{3}{8}$ inch in diameter, or when the appearance of the flesh is materially affected by corky tissue or brownish discoloration.

(*h*) Sunburn or sprayburn where the skin is blistered, cracked, or shows any light tan or brownish color, or the shape of the pear is appreciably flattened, or the flesh is appreciably softened or changed in color, except that sprayburn of a russet character shall be considered under the definition of russeting.

(*i*) Insects: (*1*) More than two healed codling moth stings, or any insect sting which is over $\frac{3}{32}$ of an inch in diameter, or other insect stings affecting the appearance to an equal extent.

(2) Blister mite or canker worm injury which is not shallow or superficial, or where the injury affects an aggregate area of more than $\frac{3}{8}$ inch in diameter.

(*j*) Disease: (*1*) Scab spots which are black and which cover an aggregate area of more than $\frac{1}{8}$ inch in diameter except that scab spots of a russet character shall be considered under the definition of russeting.

(2) Sooty blotch which is thinly scattered over more than 5 percent of the surface, or dark, heavily concentrated spots which affect an area of more than $\frac{3}{8}$ inch in diameter.

(9) "Seriously misshapen" means that the pear is excessively flattened or elongated for the variety, or is constricted or deformed so it will not cut three fairly uniform good quarters, or is so badly misshapen that the appearance is seriously affected.

(10) "Serious damage" means any injury or defect which seriously affects the appearance, edible or shipping quality.

(i) Russeting which in the aggregate exceeds the following shall be considered as serious damage:

(*a*) On all varieties, excessively rough russeting (russeting which shows "frogging" or slight cracking) when the aggregate area exceeds $\frac{3}{4}$ inch in diameter.

(*b*) On all varieties, thick russeting such as is characteristic of frost injury, 15 percent of the surface.

(ii) Any one of the following defects or combination thereof, the seriousness of which exceeds the maximum allowed for any one defect shall be considered as serious damage:

(*a*) Limbrubs which are more than slightly cracked, or excessively rough limbrubs or dark brown or black discoloration caused by limbrubs which exceeds an aggregate area of $\frac{3}{4}$ inch in diameter. Other limbrubs which affect an aggregate area of more than one-tenth of the surface.

(*b*) Hail marks or other similar depressions or scars which affect an aggregate area of more than $\frac{3}{4}$ inch in diameter, or which materially deform or disfigure the fruit.

(*c*) Drought spot when more than two in number, or where the external injury affects an aggregate area of more than $\frac{3}{4}$ inch in diameter, or when the appearance of the flesh is seriously affected by corky tissue or brownish discoloration.

(*d*) Sunburn or sprayburn where the skin is blistered, cracked or shows any brownish color, or where the shape of the pear is materially flattened, or the flesh is softened or materially changed in color, except that sprayburn of a russet character shall be considered under the definition of russeting.

(*e*) Insects: (*1*) Worm holes. More than three healed codling moth stings, of which not more than two may be over $\frac{3}{32}$ inch in diameter, or other insect stings affecting the appearance to an equal extent.

(2) Blister mite or canker worm injury which affects an aggregate area of more that $\frac{3}{4}$ inch in diameter or which materially deforms or disfigures the fruit.

(*f*) Scab spots which are black and which cover an aggregate area of more than one-fourth inch in diameter, except that scab spots of a russet character shall be considered under the definition of russeting.

(*g*) Sooty blotch which is thinly scattered over more than 15 percent of the surface, or dark, heavily concentrated spots which affect an area of more than $\frac{3}{4}$ inch in diameter.

(*e*) *Tolerances.* (1) In order to allow for variations incident to proper grading and handling, not more than a total of 10 percent of the pears in any container may be below the requirements of grade: *Provided,* That not more than 5 percent shall be seriously damaged by insects, and not more than 1 percent shall be allowed for decay or internal breakdown.

(2) When applying the foregoing tolerances to the combination grade no part of any tolerance shall be used to reduce the percentage of U. S. No. 1 pears required in the combination, but individual containers may have not more than 10 percent less than the percentage of U. S. No. 1 required: *Provided,* That the entire lot averages within the percentage specified.

(f) *Condition after storage or transit.* Decay, scald, or other deterioration which may have developed on pears after they have been in storage or transit shall be considered as affecting condition and not the grade.

(g) *Standard pack*—(1) *Sizing.* (i) The numerical count, or the minimum size of the pears packed in closed containers shall be indicated on the package. The number of pears in the box shall not vary more than 3 from the number indicated on the box.

(ii) When the numerical count is marked on western standard or special pear boxes the pears shall not vary more than $\frac{3}{8}$ inch in their transverse diameter for counts 120 or less; $\frac{1}{4}$ inch for counts 135 to 180 inclusive; and $\frac{3}{16}$ inch for counts 193 or more.

(iii) When the numerical count is marked on western standard half boxes or special half boxes packed three tiers deep, the pears shall not vary more than $\frac{1}{4}$ inch for counts 90 or less, and $\frac{3}{16}$ inch for counts 100 or more.

(iv) When the numerical count is marked on western standard half boxes or special half boxes packed two tiers deep, the pears shall not not vary more than $\frac{3}{8}$ inch for counts 50 or less; $\frac{1}{4}$ inch for counts 55 to 60 inclusive; and $\frac{3}{16}$ inch for counts 65 or more.

(v) When the numerical count is not shown, the minimum size shall be plainly stamped, stenciled or otherwise marked on the container in terms of whole inches, whole and half inches, whole and quarter inches, or whole and eighth inches, as $2\frac{1}{2}$ inches minimum, $2\frac{1}{4}$ inches minimum, or $2\frac{5}{8}$ inches minimum, in accordance with the facts. It is suggested that both minimum and maximum sizes be marked on the container, as $2\frac{1}{4}$ to $2\frac{3}{4}$ inches, $2\frac{1}{2}$ to $2\frac{3}{4}$ inches, as such marking is especially desirable for pears marketed in the export trade.

(vi) "Size" means the greatest transverse diameter of the pear taken at right angles to a line running from the stem to the blossom end.

(2) *Packing.* (i) Each package shall be packed so that the pears in the shown face shall be reasonably representative in size and quality of the contents of the package.

(ii) Pears packed in any container shall be tightly packed. All packages shall be well filled but the contents shall not show excessive or unnecessary bruising because of overfilled packages.

(iii) Pears packed in boxes shall be arranged in containers according to the approved and recognized methods with the pears packed lengthwise. A bridge shall not be allowed in any standard pack. When wrapped, each pear shall be fairly well enclosed by its individual wrapper.

(iv) Pears packed in round stave bushel baskets, tubs or in barrels shall be ring faced.

(h) *Tolerances for standard pack.* (1) In order to allow for variations incident to proper sizing, not more than 5 percent of the pears in any container may not meet the size requirements: *Provided,* That when the maximum and minimum sizes are both stated, an additional 10 percent tolerance shall be allowed for pears which are larger than the maximum size stated.

(2) In order to allow for variations incident to proper packing, not more than 10 percent of the containers in any lot may not meet these requirements, but no part of this tolerance shall be allowed for bridge packs, or for packs with different sizes and arrangements such as layers of 195 size and arrangement, and layers of 180 size and arrangement packed in the same box. PART 56—DRESSED POULTRY AND DRESSED DOMESTIC RABBITS AND EDIBLE PRODUCTS THEREOF (INSPECTION AND CERTIFICATION FOR CONDITION AND WHOLESOMENESS)

INSTRUCTIONS

By virtue of the authority vested in me by the revised rules and regulations governing the inspection and certification of dressed poultry and dressed domestic rabbits and edible products thereof for condition and wholesomeness (7 CFR and Supps. 56.1 et seq.), I hereby approve the publication in the FEDERAL REGISTER of the following instructions on sanitary requirements and requirements for equipment and facilities in official plants, operating under the aforesaid revised rules and regulations. These instructions were issued October 17, 1945, and are currently in effect pursuant to the aforesaid revised rules and regulations and the Department of Agriculture Appropriation Act, 1947 (Pub. Law 422, 79th Cong., 2d Sess., approved June 22, 1946).

§ 56.101 *Instructions on sanitary requirements and requirements for equipment and facilities governing plants operating as official plants processing and packaging dressed poultry and edible products thereof*—(a) *Definitions.* (1) "Rules and regulations in this part" means the revised rules and regulations governing the inspection and certification of dressed poultry and dressed domestic rabbits and edible products thereof for condition and wholesomeness (7 CFR and Supps. 56.1 et seq.).

(2) "National supervisor" means the national supervisor of the Poultry Inspection Section, Dairy and Poultry Inspection and Grading Division of the Dairy Branch of the Administration, in charge of the inspection service.

(3) All other terms which are used in this section shall have the meaning applicable to such terms when used in the rules and regulations in this part.

(b) *Facilities specified prior to construction.* When application has been made for inspection service, an examination of the plant and premises shall be made by the regional supervisor, or his assistant, and necessary facilities for inspection specified.

(c) *Drawings and specifications to be furnished in advance of construction.* (1) Copies of drawings, consisting of floor plans, showing the location of such features as the principal pieces of equipment, floor drains, and the routes of edible and inedible products to and from the eviscerating department, shall be submitted to the regional supervisor before the application for inspection is approved.

(2) The drawings should be prepared to scale, preferably ¼ inch a foot, and should show toilet and dressing rooms, store rooms, inspector's office, inedible product departments, and all rooms or compartments where poultry products or utensils will be kept or handled. Approval of the drawings should be obtained from the regional supervisor in advance of construction or remodeling.

(3) Specifications covering the height of the ceilings, character of the floors, walls and ceilings, lighting and such other notations as the regional supervisor may require shall accompany the drawings.

(d) *Final survey.* Prior to the inauguration of inspection, a final survey of the plant and premises shall be made by the regional supervisor, or his assistant, to determine if the building has been constructed and facilities have been installed in accordance with the approved drawings and with the sanitary requirements contained in the instructions in this section. Sanitary requirements not specifically covered by the instructions in this section shall be left to the national supervisor or his assistant.

(e) *Separation of official plants from other plants.* Each official plant shall be completely separated from any other plant or building where drawn poultry or poultry products thereof are handled. No communications by means of doorways, windows, stairways, elevators, or passageways are permissible.

(f) *Sanitary requirements.* Each official plant shall be maintained in sanitary condition, and to this end the requirements of subparagraphs (1) to (7) inclusive of this paragraph shall be met. (1) There shall be abundant light, both natural and artificial, of good quality and well distributed, and sufficient ventilation for all rooms and compartments to insure sanitary conditions.

(2) There shall be an efficient drainage and plumbing system for the plant and premises, and all drains and gutters shall be properly installed with approved traps and vents.

(3) The water supply shall be ample, clean and potable, with adequate facilities for its distribution in the plant and its protection against contamination and pollution. Every official plant shall make known, and whenever required shall afford opportunity for inspection of, the source of its water supply, the storage facilities, and the distribution system.

(4) The floors, walls, ceilings, partitions, posts, doors and other parts of all structures shall be of such materials, construction and finish as will make them susceptible of being readily and thoroughly cleaned. The floors shall be kept watertight. The rooms and compartments used for edible products shall be separate and distinct from those used for inedible products, and from rooms where poultry is slaughtered and plucked. However, passageways or elevators which are used for edible products may also be used for the movement of inedible products, in suitable containers, from the official plant. When such inedible products are taken from inedible product departments, they shall be removed from the official plant without delay.

(5) The rooms and compartments in which any edible product is prepared or handled shall be free from dust and from odors from dressing and toilet rooms, catchbasins, and inedible tank and fertilizer rooms.

(6) Every practicable precaution shall be taken to exclude flies, rats, mice, and other vermin from official plants. The use of poisons for any purpose in rooms or compartments where unpacked product is stored or handled is forbidden except under such restrictions and precautions as the national supervisor may prescribe. The use of bait poisons in inedible compartments, outbuildings, or similar places, or in storerooms containing canned or tierced products is not forbidden but only those approved by the national supervisor may be used. So-called rat viruses shall not be used in any part of an official plant or the premises thereof. Equipment or substances which generate gases or odors shall not be used except as specifically permitted by the national supervisor.

(7) Dogs and cats shall be excluded from official plants.

(g) *Facilities and accommodations.* The following minimum sanitary facilities and accommodations shall be furnished by every official plant:

(1) Dressing rooms, toilet rooms, and urinals shall be sufficient in number, ample in size, and conveniently located. The rooms shall be provided with windows to admit direct, natural light and shall have adequate facilities for artificial light. They shall be properly ventilated, and meet all requirements as to sanitary construction and equipment. They shall be separate from the rooms and compartments in which products are prepared, stored, or handled.

(2) Modern lavatory accommodations, including running hot and cold water, soap and towels. These shall be placed in or near toilet and urinal rooms and also at such other places in the establishment as may be essential to assure cleanliness of all persons handling product.

(3) Toilet soil lines shall be separate from house drainage lines to a point outside the buildings; and drainage from toilet bowls and urinals shall not be discharged into a grease catchbasin.

(4) Properly located facilities for cleansing and disinfecting utensils and hands of all persons handling any product.

(h) *Inspector's office.* Furnished office room, including light, heat, and janitor service, shall be provided by official plants, rent free, for the exclusive use for official purposes of the inspector and other division employees assigned thereto. The room or rooms set apart for this purpose shall meet with the approval of the regional supervisor and shall be conveniently located, properly ventilated, and provided with lockers suitable for the protection and storage of supplies and with facilities suitable for inspectors to change clothing.

(i) *Equipment and utensils.* (1) Equipment and utensils used for preparing, processing, and otherwise handling any product shall be of such materials and construction as will make them susceptible of being readily and thoroughly cleaned and such as will insure strict cleanliness in the preparation and handling of all products. So far as is practicable, such equipment shall be made of metal or other impervious material. Trucks and receptacles used for inedible materials shall be of similar construction and shall bear some conspicuous and distinctive mark, and shall not be used for handling edible products.

(2) Tables, and other equipment on which inspection is performed, shall be of such design, material and construction as to enable inspectors to conduct their inspection in a ready, efficient and cleanly manner.

(3) Official plants shall provide watertight trucks or receptacles for holding and handling diseased carcasses and parts, so constructed as to be readily cleaned; such trucks or receptacles to be marked in a conspicuous manner with the words "U. S. condemned" in letters not less than 2 inches high and, when required by the regional supervisor, to be equipped with facilities for locking or sealing.

(4) Official plants shall provide suitable lockers in which brands and stamps bearing the inspection legend shall be kept when not in use. All such lockers shall be equipped with locks, the keys of which shall not leave the custody of the inspector in charge of the plant.

(j) *Operations, procedures, clothes, rooms.* (1) Operations and procedures involving the preparation, storing, or handling of any product shall be strictly in accord with cleanly and sanitary methods.

(2) Rooms, compartments, places, equipment, and utensils used for preparing, storing, or otherwise handling any product, and all other parts of the official plant, shall be kept clean and in sanitary condition. There shall be no handling or storing of materials which create an objectionable condition in rooms, compartments, or places where product is prepared, stored, or otherwise handled.

(3) Rooms, compartments, and receptacles in which carcasses and product may be held for further inspection shall be in such number and in such locations as the needs of the inspection in the official plant may require. They shall be equipped for secure locking and shall be held under locks, the keys of which shall not leave the custody of the inspector in charge of the plant. Every such room, compartment, or receptacle shall be marked conspicuously with the words "U. S. retained" in letters not less than two inches high. Rooms or compartments for these purposes shall be secure and susceptible of being kept clean, including sanitary disposal of the floor liquids.

(4) Rooms and compartments in which inspections are made or any product is processed or prepared shall be kept sufficiently free of steam and vapors to enable inspectors to make inspections and to insure cleanly operations. The walls, ceilings, and overhead structures of rooms and compartments in which product is prepared, handled, or stored shall be kept reasonably free from moisture.

(5) Aprons, frocks, and other outer clothing worn by persons who handle any product shall be of material that is readily cleaned, and only clean garments shall be worn.

(6) All necessary precautions shall be taken to prevent the contamination of products with any foreign substance (including, but not being limited to, perspiration, hair, cosmetics, and medicaments).

(7) Inspectors shall require the use of such protective coverings for product as it is distributed from official plants as will afford adequate protection for the product against contamination by any foreign substance (including, but not being limited to, dust, dirt, and insects), considering the means intended to be employed in transporting the product from the plant.

(8) Paper used for covering or lining barrels or other containers shall be of a kind which does not tear during use but remains intact when moistened by the product and does not disintegrate.

(9) Second-hand tubs, barrels, and boxes intended for use as containers of any product shall be inspected when received at the official plant and before they are cleaned. Those showing evidence of misuse rendering them unfit to serve as containers for food products shall be rejected. The use of those showing no evidence of previous misuse may be allowed after they have been thoroughly and properly cleaned. Steaming, after thorough scrubbing and rinsing, is essential to cleaning tubs and barrels.

(k) *Operating and storage rooms for inedible materials, outer premises.* All operating and storage rooms and departments of official plants used for inedible materials shall be maintained in acceptably clean condition. The outer premises of every official plant embracing areas where cars and vehicles are loaded, and the driveways, approaches, and alleys shall be drained and kept in clean and orderly condition. All catchbasins on the premises shall be of such construction and location and shall be given such attention as will insure their being kept in acceptable condition as regards odors and cleanliness. Catchbasins shall not be located in departments where the product is prepared, handled, or stored. The accumulation on the premises of official plants of any materials such as manure, bones, or offal in which flies may breed is forbidden. No nuisance shall be allowed in any official plant or on its premises.

(l) *Employment of diseased persons.* No official plant shall employ, in any department where any product is handled or prepared, any person affected with tuberculosis or other communicable disease in a transmissible stage.

(m) *Inspectors to have access to official plants at all times.* For the purpose of any examination or inspection necessary to enforce any of the provisions of the rules and regulations in this part and these instructions, inspectors shall have access at all times, by day or night, and whether the plant is operated or not, to every part (including but not being limited to the premises) of any official plant to which they are assigned.

(n) *Canning requirements.* (1) Containers shall be cleaned thoroughly immediately before filling; and precaution must be taken to avoid any subsequent soiling of the inner surfaces.

(2) Containers of metal, glass, or other material shall be washed in an inverted position with running water.

(3) Nothing less than perfect closure is acceptable for hermetically sealed containers. Heat processing shall follow promptly after closing.

(4) Careful inspection shall be made of the containers by competent plant employees immediately after closing, and containers which are defectively filled, defectively closed, or show inadequate vacuum, shall not be processed until the defect has been corrected. The containers shall again be inspected by plant employees, when they have cooled sufficiently for handling after processing by heating. The contents of defective containers shall be condemned unless correction of the defect is accomplished within six hours following the sealing of the containers or completion of the heat processing, as the case may be, except that: (i) If the defective condition is discovered during an afternoon run the cans of product may be held in coolers at a temperature not exceeding 33° F. under conditions that will promptly and effectively chill them until the following day when the defect may be corrected; (ii) short vacuum or overstuffed cans of product which have not been handled in accordance with the above may be incubated under the supervision of an inspector, after which the cans shall be opened and the sound product passed for food; and (iii) short vacuum or overstuffed cans of product of a class permitted to be labeled "Perishable, Keep Under Refrigeration", and which have been kept under adequate refrigeration since processing may be opened and the sound product passed for food.

(5) Canned products shall not be passed unless, after cooling to atmospheric temperature, they show the external characteristics of sound cans. Such cans shall not be overfilled; the ends shall be concave; there shall be no bulging; and there shall be no slack or loose tin.

(6) All canned products shall be plainly and permanently marked on the containers, by code or otherwise, with the identity of the contents and date of canning. The code used and its meaning shall be on record in the office of the inspector in charge.

(7) Canned product must be processed at such temperature and for such period of time as will assure keeping without refrigeration under usual conditions of storage and transportation when heating is relied on for preservation, with the exception of those canned products which are processed without steam-pressure cooking by permission of the national supervisor and labeled "Perishable, Keep Under Refrigeration".

(8) Lots of canned product shall be identified, during their handling preparatory to heat processing, by tagging the baskets, cages, or cans with a tag which will change color on going through the heat processing or by other effective means which will positively preclude failure to heat process after closing.

(9) Facilities shall be provided to incubate at least representative samples of fully processed canned product. The incubation shall consist of holding the canned product for at least 10 days at about 98° F.

(10) The extent to which incubation tests shall be required depends on conditions such as the record of the plant in

conducting canning operations, the extent to which the plant furnishes competent supervision and inspection in connection with the canning operations, the character of the equipment used, and the degree to which such equipment is maintained at maximum efficiency. Such factors shall be considered by the regional supervisor in determining the extent of incubation testing at a particular official plant.

(11) In the event of failure, by an official plant to provide suitable facilities for incubation of test samples, the inspector in charge may require holding of the entire lot under such conditions and for such period of time as may, in his discretion, be necessary to establish the stability of the product.

(12) The inspector in charge may permit lots of canned product to be shipped from the official plant prior to completion of sample incubation when he has no reason to suspect unsoundness in the particular lots, and under circumstances which will assure the return of the product to the plant for reinspection should such action be indicated by the incubation results.

(o) *Preparation of dog food or similar uninspected article at official plants; edible products department; inedible products department.* (1) When dog food, or similar uninspected article is prepared in an edible product department, there shall be sufficient space allotted and adequate equipment provided so that the preparation of the uninspected article in no way interferes with the handling or preparation of products. Where necessary, separate equipment shall be provided for the uninspected article. To assure the maintenance of sanitary conditions in the edible product departments, the operations incident to the preparation of the uninspected article will be subject to the same sanitary requirements that apply to all operations in the edible product departments. The preparation of the uninspected article shall be limited to those hours during which the plant generally operates under inspectional supervision. That is, there shall be no handling, other than receiving at the plant, of any of the meat, meat byproducts, or meat food product ingredient of the uninspected article, other than during the regular hours of inspection. The materials used in the preparation of the uninspected article shall not be such as would interfere with the inspection of product or the maintenance of sanitary conditions in the department. The uninspected article may be stored in, and distributed from, edible product department: *Provided*, That adequate facilities are furnished, that there is no interference with the maintenance of sanitary conditions, and that it is properly identified.

(2) When dog food, or similar uninspected article is prepared in a part of an official plant other than an edible product department, the area in which such product is prepared shall be separate and distinct from edible product departments. Edible or inedible byproducts (but not diseased carcasses or diseased parts thereof) may be brought from the eviscerating department into the area in which the uninspected article is prepared, but there shall be no return of any product into an edible product department, excepting the finished product in sealed containers, or as provided in paragraph (f) (4) of this section. Trucks or containers shall be cleaned before being returned to an edible product department. Unoffensive finished and packaged dog food, or other uninspected product may be stored in and distributed from edible product departments, if packaged in clean, properly identified, sealed containers. Sufficient space must be allotted and adequate equipment provided so that the preparation of the uninspected article does not interfere with the proper functioning of the other operations of the plant. The preparation of the uninspected product must be such as not to interfere with the maintenance of general sanitary conditions on the premises and it shall be subject to inspectional supervision. However, the sanitary requirements given in these instructions for edible product departments shall not necessarily, in every respect, apply to inedible product departments.

(3) Dog food, or other animal food prepared in an inedible product department shall be distinguished from articles of human food, so as to avoid the distribution of such animal food as human food. To accomplish this, labeling of hermetically sealed, conventional retail size containers, as for example, "dog food" will be considered sufficient. If not in such containers, the product must not only be properly identified, but it must be of such character or so treated (denatured or decharacterized) as to be readily distinguishable from an article of human food.

(p) *Contamination of product by polluted water, etc.; procedure for handling.* (1) Any product which has been contaminated by polluted water (including, but not being limited to flood water and harbor water) shall be condemned.

(2) After the polluted water has receded, the official plant shall, under the supervision of an inspector, thoroughly cleanse all walls, ceilings, posts, and floors of the rooms and compartments involved, including the equipment therein. An adequate supply of hot water, under pressure, is essential for effective cleansing of the rooms and equipment. After cleansing, a solution of sodium hypochlorite containing approximately ½ of 1% available chlorine (5,000 parts per million), or other disinfectant approved by the national supervisor should be applied to the surface of the rooms. Where the solution has been applied to equipment which will afterwards contact any product, the equipment shall be rinsed with clean water before being used. All metal should be rinsed with clean water to prevent corrosion.

(3) Hermetically sealed containers of product which has been submerged or otherwise contaminated by polluted water, shall be rehandled promptly under supervision of an inspector as follows:

(i) Separate and condemn all product, the containers of which are swollen, leaky, or otherwise suspicious.

(ii) Remove paper labels and wash the containers in warm soapy water, using a brush where necessary to remove rust or other foreign material; immerse in a solution of sodium hypochlorite containing not less than 100 parts per million of available chlorine or other disinfectant approved specifically for this purpose by the national supervisor; and rinse in clean fresh water and dry thoroughly. Containers which show extensive rusting or corrosion, such as might materially weaken the container, shall if showing adequate vacuum be opened under the supervision of an inspector. Product from such cans which is found by the inspector to be sound and wholesome shall be passed for food.

(iii) After handling as in subdivision (ii) of this subparagraph the containers may be relacquered, if necessary, and then relabeled with approved labels applicable to the product therein.

(iv) The identity of the canned product shall be maintained throughout all stages of the rehandling operation to insure correct labeling of the containers.

These instructions were in effect prior to September 11, 1946.

PART 56—DRESSED POULTRY AND DRESSED DOMESTIC RABBITS AND EDIBLE PRODUCTS THEREOF (INSPECTION AND CERTIFICATION FOR CONDITION AND WHOLESOMENESS)

FORM OF APPLICATION FOR INSPECTION

§ 56.102 *Form of application for inspection.* (a) Whenever any person desires that authority be granted for the inspection of dressed poultry and dressed domestic rabbits and edible products thereof, for condition and wholesomeness, pursuant to the regulations of this part, he shall apply for such authority by submitting to the Assistant Administrator a properly completed application, in duplicate, in the following form:

APPLICATION FOR INSPECTION OF DRESSED POULTRY AND DRESSED DOMESTIC RABBITS AND EDIBLE PRODUCTS THEREOF FOR CONDITION AND WHOLESOMENESS

Application is hereby made, in accordance with the revised rules and regulations governing the inspection and certification of dressed poultry and dressed domestic rabbits and edible products thereof for condition and wholesomeness (7 CFR and Supps. 56.1 et seq.), for inspection of products at the following designated plant:

Name of plant ----------
Street address ----------
City and State ----------

(a) In making this application the applicant agrees to conform to the aforesaid rules and regulations and such instructions governing inspection and certification of products as may be issued by the Assistant Administrator. The applicant also agrees to and accepts the following provisions and conditions incident to such inspection:

(1) Inspectors will be provided to make inspections of such products; and a dressed poultry or dressed domestic rabbit inspection certificate, covering each lot of dressed poultry or dressed domestic rabbits inspected, will be furnished.

(2) When desired by the applicant, a food product inspection certificate or an export certificate, or both, will be furnished with respect to any inspected and certified edible product.

(3) Payment for inspection service covering the full costs of such service shall be made by the applicant to the Administration not later than thirty (30) days from date of billing. The full costs shall comprise such of the following items as are included in the invoice or invoices covering the period during which the inspection service is rendered:

(i) The amount of the salary of each inspector who is provided to perform the inspection service;

(ii) An amount to cover all annual leave accrued by each such inspector while performing the inspection service at the designated plant;

(iii) An amount to cover all sick leave taken by each such inspector to the extent sick leave accrued during the performance of the inspection service at the designated plant;

(iv) Traveling and subsistence expenses incurred by the Administration in connection with each such inspector performing the inspection service covered by this application;

(v) An amount equal to fifteen (15%) percent of the total of the amounts prescribed in (i), (ii) and (iii) of this paragraph (3) to cover the approximate overhead for administrative and other costs and expenses incurred by the Administration in rendering inspection service pursuant to the aforesaid rules and regulations;

(vi) Such costs as may be incurred by the Administration in providing a period of training for each person assigned as an inspector in the designated plant; and

(vii) A pro rata part of the salaries of the regional supervisors and assistant regional supervisors of the poultry inspection service.

(4) All products handled by the applicant at the designated plant shall be inspected for condition and wholesomeness; and no edible product which had not been inspected for condition and wholesomeness shall be brought into such plant.

(5) The applicant shall furnish such records of processing, packaging, and output of products as may be requested by the Administration.

(6) The applicant will furnish such stenographic and clerical assistance as may be necessary in typing certificates and handling correspondence in connection with the inspection service covered by this application.

(7) Whenever operations at the designated plant are temporarily discontinued, any inspector furnished by the Administration to perform inspection service at such plant may perform such disease or quality control services as may be deemed appropriate by the Administration and agreed to by the applicant.

(8) The Administration will not be responsible for damages accruing through any errors of commission or omission on the part of its inspectors when engaged in rendering inspection service.

(9) The inspection service herein applied for shall be provided at the designated plant and shall be continued until the service is suspended, withdrawn, or terminated (i) by mutual consent; (ii) by thirty (30) days' written notice given by either party to the other party specifying the date of termination; (iii) pursuant to the aforesaid rules and regulations; (iv) upon one (1) day's written notice by the Administration to the applicant, if the applicant fails to honor any invoice within thirty (30) days after date of invoice covering the costs of the inspection service as herein provided, or if applicant fails to comply with the terms and conditions hereof.

(b) Additional conditions:

(c) All terms used herein shall have the meaning applicable to such terms when used in the aforesaid rules and regulations and instructions.

Chapter III—Bureau of Entomology and Plant Quarantine, Department of Agriculture

[B. E. P. Q. 561]

PART 301—DOMESTIC QUARANTINE NOTICES

MEXICAN FRUITFLY QUARANTINE; EXTENSION OF HARVESTING SEASON

Introductory note. The following administrative instructions extend to June 30, 1947, the harvesting season for grapefruit, sweet limes, and "sour" and "bittersweet" oranges produced in the area regulated by the Mexican fruitfly quarantine. This action is taken to permit the planned and orderly marketing of the remainder of the season's crop of fruit. It is deemed safe inasmuch as sterilization of grapefruit from Cameron, Hildago, and Willacy Counties will continue to be required during the extended period.

§§ 301.64-4c and 5c *Administrative instructions relative to the Mexican fruitfly quarantine.* Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by paragraph (a) of § 301.64-5 (Notice of Quarantine No. 64), *It is hereby ordered*, That the harvesting season for grapefruit, sweet limes, and "sour" and "bittersweet" oranges be extended to midnight of June 30, 1947, and that the host-free period for these fruits shall begin at 12:01 a. m., July 1, 1947.

Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by paragraph (e) of § 301.64-4 (Notices of Quarantine No. 64), the requirements of the administrative instructions effective April 24, 1947 (B. E. P. Q. 560), 12 F. R. 2623, pertaining to the sterilization of grapefruit from the Texas counties of Cameron, Hidalgo, and Willacy are hereby extended to June 30, 1947.

(Sec. 8, 37 Stat. 318, 39 Stat. 1165, 44 Stat. 250; 7 U. S. C. 161; 7 CFR, 1945 Supp., 301.64-4 and 5)

Compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impractical and contrary to the public interest in that the time intervening between the date when information upon which these instructions are based become available and the time when they must become effective to permit planned and orderly marketing of the remainder of this season's crop of fruit is insufficient for such compliance. In addition, these provisions are in the nature of relaxation of existing requirements.

Effective June 15, 1947.

Done at Washington, D. C., this 2d day of June 1947.

[SEAL] P. N. ANNAND,
Chief, Bureau of Entomology and Plant Quarantine.

STATISTICAL REPORTS FURNISHED TO COLLECTORS

Pursuant to section 4 of the Administrative Procedure Act, approved June 11, 1946 (Public Law 404, 79th Cong., 2d Sess.), it is found that notice and public procedure are unnecessary in regard to the promulgation of the Foreign Commerce Statistical Decision inducted herein for the reason that such decision involves agency management. Effective immediately, § 30.3 of regulations for the Collection of Statistics of Foreign Commerce and Navigation of the United States is hereby amended to read as follows:

§ 30.3 *Statistical reports furnished to collectors.* (a) The Bureau of the Census will supply each collector monthly with reports of imports into his district in the form of machine tabulations showing the entry number for each item imported with district, port, commodity, country, etc., being in code numbers. Information contained in these reports shall be for the collector's use only and shall not be disclosed to the public.

(b) In addition, the Bureau of the Census will supply each collector monthly with summary statistical reports of the imports into and exports from his district in the form of machine tabulations by commodities and countries, with the district, commodity, and country being in code numbers. Information on these reports which are to be filed by collectors may be made available to the public upon request.

PART 6—AIR COMMERCE REGULATIONS

DESIGNATION OF INTERNATIONAL FALLS MUNICIPAL AIRPORT, INTERNATIONAL FALLS, MINN., AS AIRPORT OF ENTRY

JUNE 4, 1947.

The International Falls Municipal Airport, International Falls, Minnesota, is hereby designated as an airport of entry for civil aircraft and merchandise carried thereon arriving from places outside the United States, as defined in section 9 (b) of the Air Commerce Act of 1926 (U. S. C. Title 49, sec. 179 (b)), for a period of 1 year from June 1, 1947.

The list of temporary airports of entry in § 6.13, Customs Regulations of 1943 (19 CFR, Cum. Supp., 6.13), as amended, is hereby further amended by inserting therein the location and name of this airport, date designated, and the period "1 year."

Notice of the proposed designation of this airport as an airport of entry was published in the FEDERAL REGISTER on May 3, 1947 (12 F. R. 2998). The designation shall be effective on June 1, 1947, the delayed effective date requirements of section 4 (c) of the Administrative Procedure Act (Pub. Law 404, 79th Cong.) being dispensed with because the use of the airport at the earliest possible date is required by the public convenience and necessity. The designation of this airport is based on a determination that a sufficient need exists to justify such designation and the designation is made for the purpose of providing for convenient compliance with customs requirements.

PART 807—SUSPENSION ORDERS

CONRAD CONSTRUCTION CO.

Rotary Coffee Company, Inc., 374 West Spring Street, Columbus, Ohio, is an Illinois corporation engaged in the business of wholesaling coffee, tea, spices, the processing and packaging of coffee and the sale and servicing of coffee urns and similar equipment. Cecil W. Conrad, 1614 Waltham Road, Columbus, Ohio, is a contractor doing business as Conrad Construction Company. Rotary Coffee Company, Inc., as owner, and Cecil W. Conrad, d/b/a Conrad Construction Company, as contractor, on or about February 15, 1947, without authorization, began construction and thereafter until about April 8, 1947, continued construction of an addition to an existing building, the greatest part of the floor area of which building is to be used for commercial purposes; namely, wholesaling coffee and kindred food products and equipment, located at 374 West Spring Street, Columbus, Ohio, the estimated cost of which construction was in excess of $1,000. The beginning and carrying on of construction as aforesaid constituted a wilful violation of Veterans' Housing Program Order 1. This violation has diverted critical materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.47 *Suspension Order No. S-47.* (a) Neither Rotary Coffee Company, Inc., nor Cecil W. Conrad, d/b/a Conrad Construction Company, their successors or assigns, nor any other person shall do any further construction on the building located at 374 West Spring Street, Columbus, Ohio, including the putting up, completing or altering of said structure, unless hereafter specifically authorized in writing by the Office of the Housing Expediter.

(b) Rotary Coffee Company, Inc., and Cecil W. Conrad, d/b/a Conrad Construction Company, shall refer to this order in any application or appeal which they may file with the Office of the Housing Expediter for Authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Rotary Coffee Company, Inc., and Cecil W. Conrad, d/b/a Conrad Construction Company, their successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

PART 807—SUSPENSION ORDERS

ADAM FERRARE

Adam Ferrare of 8 Tucker Avenue, Wakefield, Rhode Island, began construction in May of 1946 of a one and a half story building to contain a restaurant and living quarters located on Angel Road, Point Judith, Rhode Island, the estimated cost of which was substantially in excess of $1,000, without authorization from the Civilian Production Administration. The provisions and restriction of Veterans' Housing Program Order 1 were explained to Adam Ferrare orally and by letter. Work on this construction was terminated temporarily but was begun again, and further work by way of an addition to the original structure was begun in 1947. The beginning construction of this restaurant and living quarters was a violation of Veterans' Housing Program Order 1, and the continuing work and the beginning of the further addition to this structure after warning and correspondence with the Civilian Production Administration constituted a wilful violation of Veterans' Housing Program Order 1. This violation has diverted critical materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.49 *Suspension Order No. S-49.* (a) The temporary suspension order issued by telegram dated April 24, 1947, addressed to Adam Ferrare, 8 Tucker Avenue, Wakefield, Rhode Island, is hereby revoked.

(b) Neither Adam Ferrare, his successors or assigns, nor any other person shall do any further construction on the building owned by him and located on Angel Road, Point Judith, Rhode Island, including completing, putting up, or altering of any structure located thereon unless hereafter specifically authorized in writing by the Office of the Housing Expediter.

(c) Adam Ferrare shall refer to this order in any application or appeal which he may file with the Office of the Housing Expediter or any other Federal agency for authorization to carry on construction.

(d) Nothing contained in this order shall be deemed to relieve Adam Ferrare, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

TITLE 25—INDIANS

Chapter I—Office of Indian Affairs, Department of the Interior

Subchapter L—Irrigation Projects: Operation and Maintenance

PART 130—OPERATION AND MAINTENANCE CHARGES

FLATHEAD INDIAN IRRIGATION PROJECT, MONTANA

JUNE 3, 1947.

On April 15 there was published in the daily issue of the FEDERAL REGISTER (12 F. R. 2439) a notice of intention to modify §§ 130.24, 130.26 and 130.28 prescribing annual operation and maintenance assessments applicable to lands within the jurisdiction of three irrigation districts on the Flathead Indian Irrigation Project, Montana. Interested persons were thereby given opportunity to participate in preparing the proposed amendments by submitting their views and data or arguments within 30 days from the date of the publication of the notice. No comments, oral or written, having been received within the prescribed period, the said sections have been amended and are published as follows, effective for the calendar year 1948 and thereafter until further notice:

§ 130.24 *Charges.* Pursuant to a contract executed by the Flathead Irrigation District, Flathead Indian Irrigation Project, Montana, on May 12, 1928, as supplemented by later contracts dated February 27, 1929, March 28, 1934, and August 26, 1936, notice is hereby given that an assessment of $133,700 is fixed for the season of 1948 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines of the Flathead Irrigation District. This assessment involves an area of approximately 67,462.4 acres; does not include any land held in trust for Indians, and covers all proper general charges and project overhead.

§ 130.26 *Charges.* Pursuant to a contract executed by the Mission Irrigation District, Flathead Indian Irrigation Project, Montana, on March 7, 1931, approved by the Secretary of the Interior on April 21, 1931, as supplemented by later contracts dated June 2, 1934 and August 26, 1936, notice is hereby given that an assessment of $25,400 is fixed for the season of 1948 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines of the Mission Irrigation District. This assessment involves an area of approximately 12,523.0 acres; does not include any lands held in trust for Indians, and covers all proper general charges and project overhead.

§ 130.28 *Charges.* Pursuant to a contract executed by the Jocko Valley Irrigation District, Flathead Indian Irrigation Project, Montana, on November 13, 1934, approved by the Secretary of the Interior on February 26, 1935, as supplemented by a later contract dated August 26, 1936, notice is hereby given that an assessment of $10,400 is fixed for the season of 1948 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines of the Jocko Valley Irrigation District. This assessment involves an area of 5,366.1 acres; does not include any land held in trust for Indians, and covers all proper general charges and project overhead.

TITLE 42—PUBLIC HEALTH

Chapter I—Public Health Service, Federal Security Agency

PART 10—GRANTS FOR SURVEY, PLANNING AND CONSTRUCTION OF HOSPITALS[1]

MISCELLANEOUS AMENDMENTS

1. Section 10.1 (b) is amended to read as follows:

§ 10.1 *Definitions* • • •

(b) *Base area.* Any area which is so designated by the State Agency and has the following characteristics: (1) Irrespective of the population of the area, it shall contain a teaching hospital of a medical school; this hospital must be suitable for use as a base hospital in a coordinated hospital system within the State; or (2) the area has a total population of at least 100,000 and contains or will contain on completion of the hospital construction program under the State plan at least one general hospital which has a complement of 200 or more beds for general use. This hospital must furnish internships and residencies in two or more specialties and must be suitable for use as a base hospital in a coordinated hospital system within the State.

2. Section 10.51 is amended to read as follows:

§ 10.51 *General.* Plans and specifications for each project submitted to the Surgeon General for approval under the Federal Act shall be prepared in accordance with the 'General Standards of Construction and Equipment' for hospitals of different classes and in different types of locations as prescribed by the Surgeon General set forth in Appendix A. The Surgeon General may approve plans and specifications which contain deviations from the requirements prescribed, if he is satisfied that the purposes of such requirements have been fulfilled.

The design and construction covered by the plans and specifications must conform with the applicable State and local laws, codes, and ordinances and with the approved State plan. The plans and specifications must be complete and adequate for contract purposes and have the approval and recommendation of the State Agency.

Equipment shall be provided in the kind and to the extent necessary for the proper functioning of the facility as planned.

3. Section 10.77 (c) is amended to read as follows:

§ 10.77 *Processing construction applications.* • • •

(c) *Assurances from applicant.* In addition to assurance otherwise required by the State Agency, before approving an application, the State Agency must have assurance from the applicant:

(1) That actual construction work will be performed by the lump sum (fixed price) contract method, that adequate methods of obtaining competitive bidding will be or have been employed prior to awarding the construction contract, either by public advertising or circularizing three or more bidders, and that the award of the contract will be or has been made to the responsible bidder submitting the lowest acceptable bid;

(2) That the construction contracts will prescribe the minimum rates of pay for laborers and mechanics engaged in construction of the project as determined by the Secretary of Labor and that such minimum rates will be stated in the specifications advertised in the call for bids on the proposed project;

(3) That the requirement that each contractor or subcontractor shall furnish a weekly sworn affidavit with respect to the wages paid each employee during the preceding week, as required by 48 Stat. 948 (40 U. S. C. 276 (b) and 276 (c)), and the regulations issued pursuant thereto, will be incorporated in the project specifications and made a part of the construction contract;

(4) That the project will not be advertised or placed on the market for bidding until the final working drawings and specifications have been approved by the Surgeon General and the applicant has been so notified;

(5) That no construction contract or contracts for the project or a part thereof, the cost of which is in excess of the estimated cost approved in the application for that portion of the work covered by the plans and specifications, will be entered into without the prior approval of the Surgeon General;

(6) That the construction contract will require the contractor to furnish performance and payment bonds, the amount of which shall each be in an amount not less than fifty percentum (50%) of the contract price, and to maintain during the life of the contract adequate fire, workmen's compensation, public liability and property damage insurance;

(7) That any change or changes in the contract which (i) makes any major alteration in the work required by the plans and specifications, or (ii) raises the total contract price over the approved estimate of cost of the work covered by the plans and specifications will be submitted to the Surgeon General for prior approval;

(8) That the construction contract will provide that the Surgeon General, the State Agency and their representatives will have access at all times to the work wherever it is in preparation or progress and that the contractor will provide proper facilities for such access and inspection;

(9) That the applicant will provide and maintain competent and adequate architectural or engineering supervision and inspection at the project to insure that the completed work conforms with the approved plans and specifications; and

(10) That the hospital, when completed, will be operated and maintained in accordance with minimum standards prescribed by the State Agency for the maintenance and operation of hospitals aided under the Federal Act.

Provided: That the State Agency, with the prior approval of the Surgeon General may waive technical compliance with any of the requirements of this paragraph except subparagraph (1) if it finds that the purpose of such requirement has been fulfilled.

4. Section 10.77 (d) (1) (ii) is amended to read as follows:

§ 10.77 *Processing construction applications.* • • •

(d) *Certification to the Surgeon General.* • • •

(1) • • •

(ii) To assure the availability of funds for maintenance and operation, the application for the construction of a new project must include a proposed operating budget, on a form prescribed by the Surgeon General, for the two year period immediately following its completion. In the case of an addition to an existing facility, the application must include a statement showing that funds are or will be available to meet the difference between proposed expenditures and anticipated income from the operation of the constructed addition for the two year period immediately following its completion.

5. Section 10.78 (a) is amended to read as follows:

§ 10.78 *Requests for construction payments*—(a) *Certification by State Agency.* The State Agency shall certify to the Surgeon General the amount of payments due to an applicant for the cost of work performed and materials and equipment furnished.

Requests for payment under the construction contract shall be submitted in each of three stages, as follows:

(1) The first installment when not less than 25 percent of the work of construction of the building has been completed.

(2) The second installment when the mechanical work has been substantially roughed in, and

(3) The third installment when work under the construction contract is completed and final inspection made.

Requests for payment of the Federal share of other allowable costs such as architect's fee, inspection cost, and cost of equipment shall be included in requests for payments made at one or more of the stages indicated in this paragraph.

All costs that have not been determined at the time the third payment for work performed under the construction contract is requested shall form the basis of a request for final payment of the Federal share of the entire project.

With the consent of the Surgeon General, the State Agency may adopt a different schedule of payments, but in no case shall such payments be less frequent than those scheduled in this paragraph.

The above amendments were approved by the Federal Hospital Council at a meeting held May 20, 1947.

ELECTRIC WATER LIGHTS

By virtue of the authority vested in me by R. S. 4405 and 4417a, as amended (46 U. S. C. 375, 391a), section 101 of Reorganization Plan No. 3 of 1946 (11 F. R. 7875), I find that an emergency exists and the following amendment to the Tank Vessel Regulations shall be made effective on the date of publication of this document in the FEDERAL REGISTER.

Section 37.9-1 *Automatic electric water lights TB/ALL* is amended in the second sentence by changing the date "July 1, 1947" to "January 1, 1949." (For text of section see FEDERAL REGISTER of August 23, 1945, 10 F. R. 10360, as amended October 2, 1945, 10 F. R. 12408, December 19, 1945, 10 F. R. 15174, July 2 1946, 11 F. R. 7346, and January 1, 1947, 12 F. R. 31.)

This amendment to the Tank Vessel Regulations is published without prior general notice of its proposed issuance for the reason notice and public rule making procedure in connection therewith are hereby found to be impracticable. Because no manufacturer has submitted an automatic electric water light meeting the requirements of the U. S. Coast Guard Specification for Lights (Water); Electric, Floating, Automatic (With Bracket for Mounting), there is not available any approved types of automatic electric water lights which comply with the specification. This amendment postpones the effective date of the new requirement for automatic electric water lights until January 1, 1949.

PROCESS OR RENOVATED BUTTER

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering amendments, as hereinafter proposed, to the regulations (11 F. R. 14674) under the so-called Process or Renovated Butter Act (60 Stat. 300; Pub. Law 427, 79th Cong.), entitled "An act to authorize the condemnation of materials which are intended for use in process or renovated butter and which are unfit for human consumption, and for other purposes."

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed revision shall file the same, in quadruplicate, with the Hearing Clerk, Room 0308 South Building, United States Department of Agriculture, Washington 25, D. C., not later than 5:30 p. m., e. d. s. t., on the 20th day after publication of this notice in the FEDERAL REGISTER.

The proposed amendments to the regulations are as follows:

1. Substitute a comma for the period at the end of § 301.4 (a) and add the following: "*Provided, however*, That butter oil may be stored in commercial cold storage warehouses."

2. Delete the words "poor" and "satisfactorily" from § 301.4 (c).

3. Amend § 301.4 (d) to read as follows:

§ 301.4 *Sanitary requirements for process or renovated butter factories.* • • •

(d) *Equipment.* All melting tanks, cans, vats, blowing tanks, and settling tanks and equipment used in preparing, cutting, chopping, and otherwise handling the ingredients used in the manufacture of process or renovated butter, shall be made of a noncorrosive metal, or shall be suitably nickeled, tinned, or coated with other noncorrosive metal. All such equipment and all churns, butter workers, truck, trays, and other receptacles, chutes, platforms, racks, tables, and all other utensils, machinery, and equipment used in the packaging, storing, or other handling of process or renovated butter, shall be kept in a clean and sanitary condition.

4. Delete the word "approved" wherever it appears in § 301.4 (e).

5. In § 301.5 (a) delete the words "an approved" under (1) and the words "approved" under (2).

6. Amend § 301.5 (c) to read as follows:

§ 301.5 *Sanitary requirements for process or renovated butter, and for ingredients intended for use in its manufacture* • • •

(c) *Pure, clean air to be used; approved equipment for purifying air required.* Air used in aerating butter oil in connection with the manufacture of process or renovated butter shall be pure and clean and free from contamination of any kind.

7. Amend the last sentence of § 301.5 (d) to read as follows: "A recording dairy thermometer shall be provided and used to facilitate determinations of proper pasteurization."

8. Place a period after the word "manner" and delete the following words at the end of § 301.4 (f): "in accordance with generally accepted practices of the dairy industry."

9. In § 301.6 (b) and § 301.6 (c) delete the words "or any part thereof" and sub-

stitute the following: "including immature stages or parts thereof."

10. In § 301.6 (f) delete the word "or" before "(4)" and add the following after the word "acid": "or (5) one and one-half parts of kerosene,".

Done at Washington, D. C., this 5th day of June 1947.

HANDLING OF IRISH POTATOES IN EASTERN SOUTH DAKOTA PRODUCTION AREA

EMERGENCY NOTICE OF HEARING

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR and Supps. 900.1 et seq.; 11 F. R. 7737; 12 F. R. 1159), a notice of hearing (12 F. R. 3632) was executed on May 29, 1947, with respect to a proposed marketing agreement and order regulating the handling of Irish potatoes grown in the Eastern South Dakota production area, the hearing to be held in the Community Room of the County Court House at Watertown, South Dakota, beginning at 10:00 a. m., c. s. t., June 19, 1947.

The aforesaid publication of the notice of hearing does not give fifteen days notice of hearing and any delay in convening the hearing would tend to preclude the regulation contemplated by the aforesaid notice during the current marketing period for Irish potatoes grown in the Eastern South Dakota production area, contrary to urgent requirement therefor and the declared policy of the act. The various circumstances give rise to an emergency which requires a shorter period of notice in connection with the proposed hearing, and the period of six days is reasonable notice under the circumstances.

Emergency notice is, therefore, hereby given of a public hearing to be held in the Community Room of the County Court House at Watertown, South Dakota, beginning at 10:00 a. m., c. s. t., June 19, 1947, on a proposed marketing agreement and order regulating the handling of Irish potatoes grown in the Eastern South Dakota production area, the terms of such proposal being set forth in the notice (12 F. R. 3632) of May 29, 1947, incorporated in and made a part hereof by reference.

LIMITED MECHANIC CERTIFICATE WITH PROPELLER OR AIRCRAFT APPLIANCE RATING

EXTENSION OF EFFECTIVE PERIOD

JUNE 6, 1947.

Special Civil Air Regulation Serial Number 340, which provides for the issuance of limited mechanic certificates to certain skilled personnel in the employ of either an approved repair station or a manufacturer holding a currently effective propeller or aircraft applicance production certificate, expires June 30, 1947.

Pursuant to section 4 (a) of the Administrative Procedure Act, the Safety Bureau of the Civil Aeronautics Board hereby gives notice that not later than June 30, 1947, the Safety Bureau will recommend to the Board that this regulation be amended to extend its effectiveness for an additional 6-month period. During this period the Bureau will recommend appropriate amendments to the Civil Air Regulations that will obviate the further need for this special regulation.

This amendment is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

The Safety Bureau invites those interested to offer comments regarding the proposed amendment. Comments in writing should be addressed to the Safety Bureau, Civil Aeronautics Board, Washington 25, D. C., for receipt within 15 days from the date of this public notice.

UTILITY RADIO SERVICE

NOTICE OF PROPOSED RULE MAKING

JUNE 4, 1947.

In the matter of adding new § 17.129 of Part 17 of the rules and regulations governing Utility Radio Service requiring applicants to make a showing of need for frequencies below 72 Mc, and adding new § 17.130, requiring coordination of frequency selections with local or regional frequency assignment coordinating committees.

1. Notice is hereby given of proposed rule making in the above entitled matter.

2. The proposed new rules and regulations are set forth below.

3. The proposed rules are issued under the authority of sections 303 (c), (f), and (r) of the Communications Act of 1934, as amended.

4. Any interested party who is of the opinion that the proposed rules should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before July 10, 1947, a written statement or brief setting forth his comments. If any comments are received which appear to warrant the Commission in holding an oral argument before final action is taken, notice of the time and place of such oral argument will be given interested parties.

The following sections of the rules and regulations of the Federal Communications Commission will be affected in the manner indicated:

1. Section 17.129, Part 17, added.
2. Section 17.130, Part 17, added.
3. Section 17.129 of Part 17 of the rules and regulations governing the Utility Radio Service will read as follows:

§ 17.129 *Showing required for the assignment of frequencies below 72 mc.* (a) Applications for authorizations for radiocommunication systems in this service to operate on frequencies below 72 mc shall be accompanied by a satisfactory factual showing of need for the frequency requested.

(b) The showing required in paragraph (a) of this section may include any or all of the following factors:

(1) *Coverage factors.* A statement to the effect that a frequency above 72 mc will not give the desired coverage should be accompanied by:

(i) A contour map outlining the area to be served and indicating all important topographical details, and

(ii) The results of a field intensity survey or other comparable data demonstrating that the area to be served cannot be adequately covered using a frequency above 72 mc.

(2) *Operational factors.* A statement explaining existing operational requirements which would make the installation of equipment operating on frequencies above 72 mc undesirable. Need for establishment of a coordinated radiocommunication network would be considered an operational factor.

(3) *Other factors.* Statement of any other reason, not shown under paragraphs 1 or 2 of this section, which, in the opinion of the applicant, makes installation and operation of equipment on frequencies above 72 mc undesirable.

4. Section 17.130 of Part 17 will read as follows:

§ 17.130 *Coordination of frequency selection with local or regional frequency assignment coordinating committee.* Applications requesting assignment of a frequency, not previously authorized for use by the applicant, shall be accompanied by a supporting statement from the local or regional frequency assignment coordinating committee. If there is no such committee for the area of proposed operation, a statement to that effect should accompany the application.

Adopted: June 3, 1947.

2. *Charges and terms of payment.* The minimum water rental charge shall be $1.00 per irrigable acre for each irrigable acre of land for which water service is requested, payment of which will entitle the applicant to 1½ acre-feet of water per irrigable acre. Additional water, if available, will be furnished during the irrigation season at the rate of $1.00 per acre-foot. All charges shall be payable in advance of the delivery of water, and no part thereof shall be refunded.

3. Water will be delivered and measured by Government forces at the nearest available measuring device to the individual farm.

4. No water will be delivered to isolated tracts where such service would result in excessive canal losses or excessive costs.

5. Water will be delivered only to lands the owners of which have executed and delivered recordable contracts as required by articles 38 and 39 of the contract of August 3, 1935, between the United States and the Casper-Alcova Irrigation District.

6. Individual applications for water and the payments required by this notice will be received at the office of the District Engineer, Bureau of Reclamation, Room 520, Consolidated Royalty Building, Casper, Wyoming. The United States reserves the right to reject any application.

BOISE IRRIGATION PROJECT, ARROWROCK DIVISION, ANDERSON RANCH RESERVOIR, IDAHO

ANNOUNCEMENT OF ANNUAL WATER RENTAL CHARGES

MAY 28, 1947.

1. Pursuant to article 22 of the contract between the United States and the Wilder Irrigation District, dated August 1, 1941, concerning the construction of Anderson Ranch Dam and Reservoir and related matters, and to like articles in similar contracts with the contractors listed below, irrigation water will be furnished from Anderson Ranch Reservoir on a rental basis during the irrigation season of 1947 to the following contractors:

New York Irrigation District.
Boise-Kuna Irrigation District.
Nampa & Meridian Irrigation District.
Wilder Irrigation District.
Pioneer Irrigation District.
Settlers Irrigation District.
Farmers Union Ditch Company.
New Dry Creek Ditch Company.
Boise Valley Irrigation Ditch Company.
South Boise Mutual Irrigation Company, Ltd.

2. The repayment contracts between the United States and the contractors listed above provide that water will be sold on a rental basis to the contractors, in amounts proportionate to their contracted space in Anderson Ranch Reservoir, under the conditions which exist at present, i. e., prior to the substantial completion of Anderson Ranch Dam and Reservoir or prior to its completion to a point where stored water in an amount exceeding 275,000 acre-feet becomes available for irrigation use.

3. Contractors who do not plan to take their proportionate shares of water from Anderson Ranch Reservoir during the 1947 irrigation season should notify the Bureau of Reclamation in writing at the address given below, so that such water may be made available for other contractors who may require more than their proportionate shares.

4. Water rental charges for the 1947 irrigation season shall be $1.20 per acre-foot, payable by each contractor in advance of the release of water from Anderson Ranch Reservoir. Requests for water and the payments required by this announcement should be made to the Bureau of Reclamation, P. O. Box 937, Boise, Idaho.

ALLOCATION OF FREQUENCIES TO NON-GOVERNMENT SERVICES

NOTICE OF ENGINEERING CONFERENCE

MAY 23, 1947.

The Commission announces that an Engineering Conference to consider the technical problems inherent in the utilization of frequencies between 42 and 88 Mc will be held on June 10th and 11th, 1947, at the Commission's offices, Washington, D. C., at 10:00 a. m., eastern daylight saving time.

Among the subjects to be considered are:

(a) Discussion looking to the solution of the problems of interference to television services originating from the operation of the fixed and mobile services operating in the band 72–76 Mc and amateur stations operating in the 50–54 Mc band as well as any other services operating on channels adjacent to the television bands.

(b) Determine whether or not the Commission should pursue its plan as announced May 25, 1945 for sharing television frequencies with the fixed and mobile services and if so to what extent and under what technical limitations.

(c) Discussion of interference originating from harmonics of the Industrial, Scientific and Medical as well as amateur services operating in the 27 Mc band and the amateur 28 Mc band.

(d) The degree of harmonic suppression which may be expected from stations in the various services concerned.

(e) Discussion of the propagation characteristics with regard to operation of the mobile non-governmental services in the 42–88 Mc band.

(f) Discussion of the characteristics of the receivers employed in the services between 42 and 88 Mc, particularly with respect to selectivity and local oscillator radiations.

To permit the conference to consider these and other problems in the most orderly manner possible, an agenda for the conference is attached. Other items may be added, based on statements submitted by representatives of the various services affected or on new problems which may develop from the discussion.

All interested persons are invited to attend and participate in the discussions. All persons planning to attend should file with the Secretary of the Commission on or before June 2, 1947, a statement outlining the information to be presented.

Adopted: May 22, 1947.

[SEAL] FEDERAL COMMUNICATIONS COMMISSION,
T. J. SLOWIE,
Secretary.

AGENDA

1. Opening statement by G. E. Sterling, Chief Engineer.
2. Designations of spokesmen for each service and for each manufacturer represented.
3. Presentation of a report of the Commission's Laboratory Division on projects relating to service-allocations of frequencies between 42 Mc and 88 Mc.
4. Discussion of the problems of adjacent channel interference to television broadcasting from the non-government fixed and mobile services in the 42–44 Mc and 72–76 Mc bands, from FM broadcasting in the 88–108 Mc band and from the amateur service in the 50–54 Mc band.
5. Discussion of the feasibility of sharing television broadcasting channels by the non-government fixed and mobile services:
   (a) Co-channel interference considerations.
   (b) Adjacent channel interference considerations.
6. Discussion of the utilization of the frequencies between 42 and 88 Mc.
7. The degree of attenuation of harmonics which can be expected in each service and the interference possibilities of the remaining harmonic emissions.
8. Discussion of receiver characteristics, such as selectivity and local oscillator radiation.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 25th day of April 1947;

The Commission having under consideration the above-entitled application of Roderick Broadcasting Corporation requesting a construction permit to change the operating assignment of station KROD, El Paso, Texas, from 600 kc, with power of 1 kw daytime and 500 watts at night, unlimited time to 600 kc, with power of 5 kw, unlimited time to install new transmitter, change transmitter location and install directional antenna for use at night; and

It appearing, that the Commission on April 10, 1947, designated for hearing in a consolidated proceeding the applications of Coconino Broadcasting Company (File No. BP-5667; Docket No. 8276) requesting a construction permit for a new standard broadcast station to operate on the frequency 600 kc, with 1 kw power, unlimited time with directional antenna at night, at Flagstaff, Arizona, and James L. Stapleton, Jessie Martin and Duard K. Knowlin, d/b as Grand Canyon Broadcasting Company (KWRZ) (File No. BP-6004; Docket No. 8277) permittee of station KWRZ (presently authorized the use of the frequency 1340 kc), requesting 600 kc, with power of 1 kw daytime and 250 watts nighttime (non-directional);

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Roderick Broadcasting Corporation (KROD) be, and it is hereby, designated for hearing in the above consolidated proceeding at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the technical, financial, and other qualifications of the applicant corporation, its offices, directors and stockholders to construct and operate station KROD as proposed.
2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of station KROD as proposed and the character of other broadcast service available to those areas and populations.
3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.
4. To determine whether the operation of station KROD as proposed would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.
5. To determine whether the operation of station KROD as proposed would involve objectionable interference with the services proposed in the other applications to this consolidated proceeding or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.
6. To determine whether the installation and operation of station KROD as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.
7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the order of the Commission dated April 10, 1947, designating for hearing the said applications of Coconino Broadcasting Company and James L. Stapleton, Jessie Martin and Duard K. Nowlin, d/b as Grand Canyon Broadcasting Company (KWRZ) be, and they are hereby, amended to include the said application of Roderick Broadcasting Corporation.

Notice is hereby given, that § 1.857 of the Commission's rules and regulations is not applicable.

By the Commission.

[Docket No. 8344, 8402, and 8403]

FOSS LAUNCH AND TUG CO. ET AL

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Foss Launch and Tug Company, Seattle, Washington, File Nos. 709/710-PE-B, Docket No. 8344; Meseck Towing Lines, Inc., New York, New York, File Nos. 7662/7663-PE-B, Docket No. 8402; Moran Towing & Transportation Co., Inc., New York, New York, File Nos. 9730/9731-PE-B, Docket No. 8403; for construction permits in the experimental service.

At a meeting of the Federal Communications Commission held at its offices in Washington, D. C., on the 22d day of May 1947;

The Commission, having under consideration the application of the Foss Launch and Tug Company for construction permits for Experimental Class 2 stations comprising one land station and three mobile marine units to operate at and in the vicinity of Seattle, Washington; and

The application of Meseck Towing Lines, Inc., for construction permits for Experimental Class 2 stations comprising one land station and ten mobile marine units to operate at and in the vicinity of New York, New York; and

The application of the Moran Towing and Transportation Company, Inc., for construction permits for Experimental Class 2 stations comprising one land station and one mobile marine unit to operate at and in the vicinity of New York, New York; and

It appearing, that these applications present various questions in common concerning the use of radio frequencies allocated on an exclusive basis to the Maritime Mobile Service; and

It further appearing, that each of these applications apparently contemplates the ultimate establishment of a private marine communication service to operate parallel to, or in competition with, common carrier communications facilities operating in the coastal harbor service; and

It further appearing, that certain communications common carriers presently licensed to operate in the Coastal Service have an interest and may assist the Commission in the determination of one or more of the issues set forth below:

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding at a time and place to be designated by the Commission, upon the following issues:

1. To determine the nature, extent, and purpose of the operations proposed to be conducted by each applicant, with particular reference to the nature, extent, and quality of any marine communication service ultimately proposed to be established.
2. To determine the need for the service proposed to be rendered by each respective applicant, with particular reference to the adequacy of the existing coastal harbor service and facilities available to each applicant within the area desired by it to be covered and the feasibility of expanding or improving such service and facilities if such action should appear to be necessary or desirable.
3. To determine which, if any, frequencies allocated to the Maritime Mobile Service are available for the proposed service of each applicant.
4. To determine, in relation to any maritime mobile frequencies which might be assigned as part of any grant that might be made herein, whether and to what extent such frequencies would be available to future applicants proposing the same service in the same area.
5. To determine whether objectionable interference to any established or presently proposed service or station would result from the operation of the service proposed by each applicant.
6. To determine whether and to what extent the service proposed by each applicant would affect safety of life and property in the area within which each applicant proposes to operate.
7. To determine whether the service proposed by each applicant would efficiently utilize the frequencies allocated to the Maritime Mobile Service.
8. To determine what, if any, conditions or restrictions concerning use and development of the service proposed by each applicant should be made a part of any grant that might be made herein.

It is further ordered, That any communications common carrier presently licensed to operate in the Coastal Service at New York, New York or Seattle, Washington, which desires to intervene in this proceeding is hereby given leave to do so: *Provided, however*, That each such intervenor shall file with the Commission a notice of appearance herein within fifteen days from the date of publication of this order in the FEDERAL REGISTER.

Section 1.857 of the Commission's rules and regulations does not apply to this proceeding.

By the Commission.

[Docket No. 8382]

CENTRAL LOUISIANA BROADCASTING CORP. (KPDR)

MEMORANDUM OPINION AND ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Central Louisiana Broadcasting Corporation (KPDR), Alexandria, La., Docket No. 8382, File No. BP-5506; for construction permit.

The Commission has before it a petition filed on December 18, 1946, by Central Louisiana Broadcasting Corporation (KPDR) requesting that its above-entitled application for a permit to change the assignment of station KPDR, Alexandria, Louisiana, from 1490 kilocycles, with 250 watts power, unlimited time, to 1400 kilocycles, with 250 watts power, unlimited time, the facilities assigned to station KSYL in Alexandria under a construction permit, be designated for hearing in a consolidated proceeding with the application (File No. BAP-43) for consent to the voluntary assignment of the construction permit for station KSYL from Marvin Glazer and Sylvan Fox, a partnership, d/b as Fox Broadcasting Company (permittee of station KSYL) to Sylvan Fox and Harold M. Wheelahan, a partnership, d/b as Radio Station KSYL (assignee). The petition alleges that no affirmative action had been taken toward the actual construction of station KSYL until after the agreement for the assignment of the construction permit had been made, and requests that, in view of the permittee's failure to take affirmative action to construct the station, petitioner be afforded a competitive opportunity to determine whether it should be permited to develop the frequency 1400 kilocycles in Alexandria instead of its assigned 1490 kilocycles, which, petition alleges, had proven unsatisfactory because of image frequency interference to another station in Alexandria. Fox Broadcasting Company and Radio Station KSYL, the assignor and assignee partnerships, have filed a joint opposition to said petition.

The original application of Fox Broadcasting Company for a permit to construct station KSYL had been granted by the Commission on March 13, 1946, on a site to be determined basis, and on August 26, 1946, its application for modification of permit specifying a transmitter site was approved. The construction permit issued required that construction be commenced by October 26, 1946, and completed by April 26, 1947. On or shortly after August 26, 1946, the contract for assignment of the construction permit was executed, the effect of the contract being merely to substitute a new partner for one who wished to retire, without profit, because of physical disability. On September 7, 1946, the permittee had ordered the necessary studio and transmitting equipment; by the time said petition had been filed actual construction was well under way; and in fact construction was completed and an application for license was filed, by the permittee partnership, on March 31, 1947, well in advance of April 26, 1947, the expiration date of the construction permit.

The above recitation of facts clearly indicates that the permittee partnership has never in any way been in default on its obligations under the constructive permit, and that the allegation in the petition as to the lack of affirmative action on the part of the permittee until after the execution of the contract of assignment is plainly immaterial. Inasmuch as the transmitter site was not approved until August 26, 1946, it is entirely reasonable that construction was not begun prior to that date. After the issuance of the construction permit, there was full compliance as to time for commencement and completion of construction.

Since there has been no default by the permittee and no allegation has been made as to facts impugning the qualifications of the permittee to operate the station, there does not appear to be any legal justification for placing the construction permit in issue for revocation. Section 319 (b) provides that upon the completion of a station in accordance with a construction permit, and upon it being made to appear that "no cause or circumstance arising or first coming to the knowledge of the Commission since the granting of the permit would, in the judgment of the Commission, make the operation of such station against the public interest, the Commission shall issue a license to the lawful holder of said permit." Thus, it is clear that the act affords a high degree of protection to a construction permit, as is recognized by §§ 1.385 (b) and (c) and 1.387 (b) (1) and (2) of the Commission's rules and regulations, which place outstanding construction permits in the same category as existing stations. See also Goss v. Federal Radio Commission, 67 F. 2d 507, 508 (App. D. C., 1933). Further, the placing of a construction permit in issue for revocation without good cause would also render nugatory the provisions of § 1.387 (b) (3) of the rules which requires that applications be filed 20 days before the beginning of a hearing if they are to be given consideration in a consolidated proceeding, for an applicant could avoid the 20 day rule by merely waiting until the construction permit was issued before filing his application and then, at that late date, obtain the comparative consideration he could not have received before.

Without the construction permit for KSYL in issue, the hearing sought by petitioner would serve no useful purpose. The most favorable decision petitioner could hope for in such a consolidated proceeding would be a determination that the application for assignment should be denied because petitioner was more qualified to develop the frequency than the assignee. But this would not be of any assistance to petitioner, since the construction permit would still be outstanding and for all that appears the permittee would then elect to proceed with the operation of the station on its own account. It is clear, therefore, that the petition for consolidation must be denied.

Accordingly, *It is ordered*, This 25th day of April 1947, that the petition for consolidation filed by Central Louisiana Broadcasting Corporation be, and it is hereby, denied; and

It is further ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, and § 1.385 (b) of the Commission's rules and regulations, the said application of Central Louisiana Broadcasting Corporation for a change in frequency of station KPDR, be, and it is hereby, designated for hearing, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of station KPDR as proposed and the character of other broadcast service available to those areas and populations.

2. To determine whether the operation of station KPDR as proposed would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

3. To determine whether the operation of station KPDR as proposed would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

4. To determine whether the installation and operation of station KPDR as proposed would be in compliance with the Commission's Rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That, Marvin Glazer and Sylvan Fox, a partnership, d/b as Fox Broadcasting Company, permittee of station KSYL at Alexandria, Louisiana, and Sylvan Fox and Harold M. Wheelahan, a partnership, d/b as Radio Station KSYL, be, and they are hereby, made parties to this proceeding.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to the proceeding provided for in this order.

SUN COUNTY BROADCASTING CO. (KPSC)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Sun County Broadcasting Co. (KPSC), Phoenix, Arizona, Docket No. 8393. File No. BP-5945, for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of April 1947;

The Commission having under consideration the above-entitled application for a construction permit to change the frequency of station KPSC, Phoenix, Arizona, from 1450 kc to 1270 kc, increase power to 5 kw, install new transmitter at a new location and employ a directional antenna for night use;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be and it is hereby, designated for hearing at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate station KPSC as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of station KPSC as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of station KPSC as proposed would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of station KPSC as proposed would involve objectionable interference with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of station KPSC as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations, with particular reference to the proposed transmitter site.

Notice is hereby given, that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

[Docket No. G-704]

TRANS-CONTINENTAL GAS PIPE LINE CO., INC.

ORDER POSTPONING HEARING

Upon consideration of the request of Trans-Continental Gas Pipe Line Company, Inc., filed June 4, 1947, for a postponement of the hearing in the above-entitled matter now set to commence on June 9, 1947; and

It appearing to the Commission that: Applicant states in its motion for a postponement that it is not prepared to go forward and present testimony and evidence in support of its application at the hearing now set to commence on June 9, 1947, but that it will be prepared to go forward at any time after September 3, 1947, and will submit and serve at least two weeks in advance of the date set for hearing all data and information required of an applicant for a certificate of public convenience and necessity pursuant to the provisions of section 7 of the Natural Gas Act, as amended, as specified in the Commission's rules of practice and procedure, effective September 11, 1946, as well as outstanding orders of the Commission relating to the filing of such data and information.

The Commission orders that: The hearing in the above-entitled matter now set to commence on June 9, 1947, be and the same is hereby continued to September 29, 1947, at 10:00 a. m. (e. d. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C.: *Provided, however*, That such date of hearing is subject to further postponement if Applicant fails to submit required data and information not later than September 15, 1947, as represented.

Date of issuance: June 6, 1947.

[Docket No. G-900]

CONSOLIDATED GAS UTILITIES CORP.

NOTICE OF APPLICATION

JUNE 4, 1947.

Notice is hereby given that on May 19, 1947, Consolidated Gas Utilities Corporation (Applicant), a Delaware corporation having its principal place of business at Oklahoma City, Oklahoma, and authorized to do business in the States of Texas, Oklahoma and Kansas, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to construct and operate certain facilities, hereinafter described, for the purpose of delivering additional quantities of natural gas to Cities Service Gas Company (Cities Service), an existing customer of Applicant.[1]

Applicant seeks authorization to construct and operate the following described facilities:

(1) A natural gas dehydration plant with a rated capacity of 90 million cubic feet per day to be located in the Northeast Quarter of Section 22-5N-8W, in Grady County, Oklahoma.

(2) Approximately 21 miles of 12-inch natural gas pipeline together with a measuring station and appurtenant facilities beginning at said dehydration plant and extending in a southerly direction to approximately the Southeast Quarter of Section 36-2N-8W, in Stephens County, Oklahoma.

The application recites that Applicant has heretofore been selling Cities Service approximately 28 million cubic feet of gas per day, making delivery thereof in Cement, Oklahoma, gas field. This gas is being delivered to Cities Service pursuant to Applicant's FPC Rate No. 22. It is stated that by means of the proposed new 12-inch pipeline additional sources of supply in the Marlow and Chickasha areas will be made available to serve this present market, and that by means of the proposed dehydrating plant Applicant will be enabled to dehydrate gas delivered to Cities Service. By means of the new facilities, Applicant will make deliveries of gas to Cities Service in the Chickasha, Oklahoma, gas field in lieu of delivering such gas in Cement, Oklahoma, gas field and Applicant contemplates it will be able to increase its deliveries of gas to Cities Service from approximately 28 million cubic feet per day to a maximum of approximately 90 million cubic feet per day. It is further stated that of the quantities of gas so delivered to Cities Service by Applicant, Cities Service will redeliver and resell to Applicant through existing facilities at a point near Blackwell, Oklahoma, one-half of the quantities so delivered to Cities Service up to a maximum of 25 million cubic feet per day.

The application further recites that the natural gas to be supplied through the proposed facilities will be produced from wells controlled through gas purchase contracts by Applicant; that the aggregate daily open flow capacity of all of said wells is 748,417 Mcf; and that Applicant estimates its existing wells will afford ample gas for at least 5 years.

The estimated total over-all capital cost of the proposed facilities is $404,102.79. These construction funds will be obtained incidental to the refunding of Applicant's present outstanding funded indebtedness.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of Consolidated Gas Utilities Corporation is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946), and shall set out clearly and concisely the facts from which the nature of the petitioner's or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or other-

UNLOADING OF NAILS AT LOS ANGELES, CALIF.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 5th day of June A. D. 1947.

It appearing, that 2 cars containing nails at Los Angeles, California, on The Atchison, Topeka & Santa Fe Railroad Company, have been on hand for unreasonable lengths of time and that the delay in unloading said cars is impeding their use; in the opinion of the Commission an emergency exists requiring immediate action. It is ordered, that:

(a) *Nails at Los Angeles, California, be unloaded.* The Atchison, Topeka & Santa Fe Railway Company, its agents or employees, shall unload immediately cars RI 148715 and PLE 83440, containing nails, on hand at Los Angeles, California, consigned to shipper's order, notify Pan American Factors.

(b) *Demurrage.* No common carrier by railroad subject to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., June 6, 1947, and continuing until the actual unloading of said car or cars is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. OFFICE OF HOUSING EXPEDITER

[C-39]

VICTOR N. COVOLO & JOHN DA PIAN

CONSENT ORDER

Victor N. Covolo and John Da Pian d/b/a V-J Construction Co., are partners operating as construction contractors and located at 441 Jersey Avenue, Fairview, N. J. Victor N. Covolo and John Da Pian are charged by the Office of the Housing Expediter with violations of Veterans' Housing Program Order 1 in that (1) on or about October 21, 1946 they began construction, repairs, additions and alterations, without authorization, and at a cost in excess of $1,000 of a commercial building located on NJ Route 1 (Bergen Blvd.), Palisades Park, N. J., (2) on and after October 21, 1946 they carried on construction, repairs, additions and alterations, without authorization, and at a cost in excess of $1,000 of a commercial building located on NJ Route 1 (Bergen Blvd.), Palisades Park, N. J.

Victor N. Covolo and John Da Pian admit the violations charged and have consented to the issuance of this order.

Wherefore, upon the agreement and consent of Victor N. Covolo and John Da Pian, the Regional Compliance Director and the Regional Compliance Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Neither Victor N. Covolo and John Da Pian, their successors and assigns, nor any other person shall do any further construction on the premises located on NJ Route 1 (Bergen Blvd.), Palisades Park, N. J., including the putting up, completing or altering of any of the structures located on said premises, unless hereafter specifically authorized in writing by the Office of the Housing Expediter.

(b) Victor N. Covolo and John Da Pian shall refer to this order in any application or appeal which they may file with the Office of the Housing Expediter for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Victor N. [File No. 70-1517]

NORTH AMERICAN CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 4th day of June 1947.

The North American Company ("North American"), a registered holding company, having filed a declaration pursuant to sections 12 (c) and 12 (d) of the Public Utility Holding Company Act of 1935 ("Act") and Rules U-44 and U-46 promulgated thereunder with respect to the distribution in partial liquidation to its stockholders of 2½ shares of Common Stock of Wisconsin Electric Power Company ("Wisconsin Electric") on July 15, 1947 for each 100 shares of Common Stock of North American held of record on June 12, 1947, and the distribution in partial liquidation to its stockholders of 5 shares of Common Stock of Wisconsin Electric in October, 1947 for each 100 shares of Common Stock of North American held; and

North American having requested that the Commission's order herein conform to the requirements of Supplement R of Chapter I and section 1808 (f) of Chapter II of the Internal Revenue Code, as amended; and

A public hearing having been held after appropriate notice and the Commission having considered the record and having made and filed its findings and opinion herein;

It is ordered, That said declaration of North American be and the same hereby is permitted to become effective forthwith, subject to the terms and conditions prescribed by Rule U-24 and subject further to the following conditions:

1. That cash be paid by North American in the proposed distributions in lieu of distribution of fractional shares of or other evidence of fractional interest in Common Stock of Wisconsin Electric.

2. That North American shall not consummate the proposed distribution to be made in October, 1947 until after consideration by the Commission of the basis of cash distribution in lieu of distribution of fractional shares of Wisconsin Electric Common Stock in said October, 1947 distribution and entry of a supplemental order by the Commission in this proceeding.

It is further ordered and recited, And the Commission finds that (a) the proposed distribution on July 15, 1947 of not to exceed 214,316 shares of Wisconsin Electric's Common Stock (represented by Certificate Nos. TD 162 and PR 570) by North American through transfer and distribution of such shares to its stockholders at the rate of 2½ shares of Wisconsin Electric Common Stock for each 100 shares of outstanding North American Common Stock together with cash in lieu of fractional shares of Wisconsin Electric Common Stock, and (b) the proposed distribution in October, 1947 of not to exceed 428,632 shares of Wisconsin Electric Common Stock (represented by Certificate No. PR 571) by North American through transfer and distribution of such shares to its stockholders at the rate of 5 shares of Wisconsin Electric Common Stock for each 100 shares of outstanding North American Common Stock together with cash in lieu of fractional shares of Wisconsin Electric Common Stock, all as authorized and permitted by this order, are necessary or appropriate to the integration or simplification of the holding company system of which North American is a member and are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935.

POTOMAC EDISON CO. AND NORTHERN VIRGINIA POWER CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 5th day of June A. D. 1947.

Notice is hereby given that a joint declaration has been filed with this Commission pursuant to sections 6 (a), 7, 9 (a), 10, 12 (d) and 12 (f) of the Public Utility Holding Company Act of 1935 and Rules U-43 and U-44 promulgated thereunder, by The Potomac Edison Company ("Potomac"), a registered holding company and its public utility subsidiary company, Northern Virginia Power Company ("Northern Virginia").

Notice is further given that any interested person may, not later than June 19, 1947, at 5:30 p. m., e. d. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt the transactions therein proposed as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration, which is on file in the offices of the Commission, for a statement of the transactions therein proposed, which are summarized below:

Northern Virginia proposes to issue and sell 4,630 shares of its authorized and unissued Common Stock, par value $100 per share, and Potomac proposes to acquire such shares for a cash consideration of $463,000, the aggregate par value thereof.

Potomac now owns all of the outstanding capital stock and long-term debt of Northern Virginia, consisting of 50,370 shares of Common Stock, par value $100 per share, 1,500 shares of 7% Preferred Stock, par value $100 per share, and $100,000 principal amount of open account advances. Such shares of Common Stock are presently pledged under the Indenture of Potomac dated as of October 1, 1944, securing its First Mortgage and Collateral Trust Bonds, 3% Series Due 1974. The additional shares of Common Stock of Northern Virginia to be acquired by Potomac will be pledged under said Indenture in accordance with the requirements thereof.

Northern Virginia proposes to use the proceeds from the sale of such additional shares of Common Stock to pay its indebtedness to Potomac and for the construction of extensions, additions and improvements to its property, plant and equipment.

The declarants request that the Commission's order permitting the declaration become effective immediately upon issuance.

By the Commission.

CONSOLIDATED ELECTRIC AND GAS CO. AND ATLANTA GAS LIGHT CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 5th day of June A. D. 1947.

Notice is hereby given that an application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("the act") by Consolidated Electric and Gas Company ("Consolidated"), a registered holding company, and its public utility subsidiary, Atlanta Gas Light Company ("Atlanta").

Notice is further given that any interested person may not later than June 18, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after June 18, 1947, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100.

All interested persons are referred to said application-declaration, which is on file in the offices of this Commission, for a statement of the transactions therein proposed which are summarized below:

A plan filed pursuant to section 11 (e) of the act is presently pending before the Commission proposing a reorganization of Consolidated, the owner of all the common stock of Atlanta. Preliminary to the effectuation of such plan and as steps therein, Atlanta in the instant filing proposes to amend its charter (1) to increase its authorized common stock from 250,000 shares to 1,000,000 shares and to reclassify its outstanding 240,145 shares of common stock having a par value of $25 each into 802,553 shares having a par value of $10 each and (2) to provide for a change in the number of directors and cumulative voting in the election thereof, certain preemptive rights to the common stockholders in the event of issues of additional common stock and certain limitations on the declaration and payment of common stock dividends. Consolidated and Atlanta have designated sections 6, 9, 10 and 12 of the act and Rules U-23, U-42, U-43, U-44 and U-50 promulgated thereunder as being applicable to the proposed transactions.

The filing requests that the Commission's order permitting the declaration to become effective and granting the application be issued as promptly as possible and become effective on the date of issuance.

By the Commission.

ERNST WAGNER

In re: Mortgages and interest in property insurance policies and claim owned by Ernst Wagner.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Ernst Wagner, whose last known address is Idar Oberstein 2, Kreis Birkenfeld, Blucherstrasse 69, Rheinland, Hessen-Nassau, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. A mortgage executed on May 8, 1929, by Alfred R. Minor, Clara V. Minor, his wife, Anna Kohlmann and Meta Dehn, nee Kohlmann, to Henry Stubing, and recorded in the Office of the Register of Kings County, New York, on May 9, 1929, in Liber 7283 of Mortgages, at Page 321, and any and all obligations secured by said mortgage, including but not limited to all security rights in and to any and all collateral (including the aforesaid mortgage) for any and all such obligations and the right to enforce and collect such obligations, and the right to possession of any and all notes, bonds and other instruments evidencing such obligations,

b. A mortgage executed on June 2, 1908, by Giuseppe Pasqualino, also known as Peppino Pasqualino, and his wife, Assunta Pasqualino, to Julius Lehrenkrauss, Jr. and Herman C. Lehrenkrauss and recorded in the Office of the Register of Kings County, New York, on June 3, 1908, in Liber 3137 of Mortgages, at Page 470, and any and all obligations secured by said mortgage, including but not limited to all security rights in and to any and all collateral (including the aforesaid mortgage) for any and all such obligations and the right to enforce and collect such obligations, and the right to possession of any and all notes, bonds, and other instruments evidencing such obligations,

c. All right, title and interest of Ernst Wagner, in and to the following insurance policies:

Policy No. 11912, issued by the New Hampshire Fire Insurance Co., 156 Hanover Street, Manchester, New Hampshire, in the amount of $2,500.00, and any extensions or renewals thereof, insuring the premises, subject to the mortgage described in subparagraph 2-a hereof,

Policy No. 56326, issued by the New Hampshire Fire Insurance Co., 156 Hanover Street, Manchester, New Hampshire, in the amount of $1,400.00, and any extensions or renewals thereof, insuring the premises, subject to the mortgage described in subparagraph 2-a hereof, and

Policy No. 813365, issued by the Home Insurance Company of New York, 59 Maiden Lane, New York, New York, in the amount of $4,000.00, and any extensions or renewals thereof, insuring the premises, subject to the mortgage described in subparagraph 2-b hereof,

d. That certain debt or other obligation, owing to Ernst Wagner by Richter & Kaiser, Inc., 186 Remsen Street, Brooklyn, New York, arising by reason of interest and payments on principal collected on the mortgages described in subparagraphs 2-a and 2-b hereof, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraphs 2-a to 2-d above, inclusive, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

VOLUME 12 NUMBER 115

Washington, Thursday, June 12, 1947

TITLE 3—THE PRESIDENT

PROCLAMATION 2734

SUPPLEMENTAL QUOTA ON IMPORTS OF EXTRA LONG-STAPLE COTTON

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS pursuant to section 22 of the Agricultural Adjustment Act of 1933 as amended by section 31 of the act of August 24, 1935, 49 Stat. 750, 773, as amended by section 5 of the act of February 29, 1936, 49 Stat. 1148, 1152, and as reenacted by section 1 of the act of June 3, 1937, 50 Stat. 246 (7 U. S. C. 624), the President issued a proclamation on September 5, 1939 (No. 2351, 54 Stat. 2640), limiting the quantities of certain cotton and cotton waste which might be entered, or withdrawn from warehouse, for consumption, which proclamation was suspended in part or modified by the President's proclamations of December 19, 1940 (No. 2450, 54 Stat. 2769), March 31, 1942 (No. 2544, 56 Stat. 1944), June 29, 1942 (No. 2560, 56 Stat. 1963), and February 1, 1947 (No. 2715); and

WHEREAS the said proclamation of September 5, 1939, provides that the total quantity of cotton having a staple of $1\frac{1}{8}$ inches or more in length which may be entered, or withdrawn from warehouse, for consumption in any year commencing September 20 shall not exceed 45,656,420 pounds; and

WHEREAS the aforesaid limitation on the entry of cotton having a staple of $1\frac{1}{8}$ inches or more in length was imposed after a finding by the President, on the basis of the investigation and report of the United States Tariff Commission made under the provisions of the said section 22 of the Agricultural Adjustment Act of 1933, as amended, that such cotton was being imported into the United States under such conditions and in sufficient quantities as to tend to render ineffective or materially interfere with the program undertaken with respect to cotton under the Soil Conservation and Domestic Allotment Act, as amended; and

WHEREAS the imposition of the aforesaid annual quotas on cotton having a staple of $1\frac{1}{8}$ inches or more in length was recommended by the United States Tariff Commission in its report (Report No. 137, 2d Series) in connection with which it was stated, in finding No. 5, that the quotas recommended "will prevent imports from interfering with the cotton program and at the same time will permit American industry to secure needed supplies of specialized types of cotton"; and

WHEREAS the total quantity of cotton having a staple of $1\frac{1}{8}$ inches or more but less than $1\frac{11}{16}$ inches in length which may be entered for consumption or withdrawn from warehouses for consumption under the said proclamation of September 5, 1939, as modified, during the quota year ending September 19, 1947, has already been entered, or withdrawn from warehouse, for consumption; and

WHEREAS pursuant to the said section 22 of the Agricultural Adjustment Act of 1933, as further amended by the act of January 25, 1940, 54 Stat. 17, the United States Tariff Commission has made a supplementary investigation to determine whether changed circumstances require the modification of the said proclamation of September 5, 1939, so far as it limits the quantity of cotton having a staple of $1\frac{1}{8}$ inches or more in length which may be entered for consumption or withdrawn from warehouse for consumption during the quota year ending September 19, 1947, particularly with reference to the possible need for an increase in the quota for the said quota year, in order to meet the current requirements of domestic manufacturers for long-staple cotton; and

WHEREAS in the course of the investigation, after due notice, a public hearing was held on February 18, 1947, at which parties interested were given opportunity to be present, to produce evidence, and to be heard, and, in addition to the hearing, the Commission made such investigation as it deemed necessary for a full disclosure and presentation of the facts; and

WHEREAS the Commission has made findings of fact and has transmitted to me a report of such findings and its recommendations based thereon, together with a transcript of the evidence submitted at the hearing, and has also trans-

WHEREAS the Commission has recommended that an additional quantity of 23,094,000 pounds of cotton having a staple of $1\frac{3}{8}$ inches or more but less than $1\frac{11}{16}$ inches in length be permitted entry during the quota year ending September 19, 1947, in order to enable domestic users to obtain their essential requirements for such cotton:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby find and declare, on the basis of the investigation and report of the United States Tariff Commission, that changed circumstances require the modification of the said proclamation of September 5, 1939, so as to permit the entry for consumption, or withdrawal from warehouse for consumption, during the quota year ending September 19, 1947, of 23,094,000 pounds of cotton having a staple of $1\frac{3}{8}$ inches or more but less than $1\frac{11}{16}$ inches in length, in addition to the quantity of cotton having a staple of $1\frac{3}{8}$ inches or more but less than $1\frac{11}{16}$ inches in length the entry of which has already been made under the said proclamation of September 5, 1939, during the said quota year, which additional quantity I find should be permitted entry to carry out the purposes of section 22 of the Agricultural Adjustment Act of 1933, as amended. Accordingly, pursuant to the said section 22 of the Agricultural Adjustment Act of 1933, as amended, I hereby modify the said proclamation of September 5, 1939, so as to permit during the quota year ending September 19, 1947, the entry for consumption, or withdrawal from warehouse for consumption, of an additional quantity of 23,094,000 pounds of cotton having a staple of $1\frac{3}{8}$ inches or more but less than $1\frac{11}{16}$ inches in length, which additional quantity I hereby find and declare may be entered for consumption, or withdrawn from warehouse for consumption, during such quota year without rendering or tending to render ineffective or materially interfering with the domestic program undertaken with respect to cotton, or reducing substantially the amount of any product processed in the United States from cotton produced in the United States.

This proclamation shall become effective on the fifth day after the date of its signature.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 9th day of June in the year of our Lord nineteen hundred and forty-seven, and of the Independence of the United States of America the one hundred and seventy-first.

TITLE 32—NATIONAL DEFENSE

Chapter VII—Sugar Rationing Administration, Department of Agriculture [1]

[Gen. Order 5]

PART 705—ADMINISTRATION

ADOPTION BY THE SECRETARY OF AGRICULTURE OF REGULATIONS AND ORDERS OF THE OFFICE OF TEMPORARY CONTROLS (OFFICE OF PRICE ADMINISTRATION) RELATING TO SUGAR RATIONING AND SUGAR AND RICE PRICE CONTROL

Pursuant to the authority conferred upon the Secretary of Agriculture by law, including the Sugar Control Extension Act of 1947 and Executive Order No. 9841, it is ordered:

§ 705.105 *Adoption and approval by the Secretary of Agriculture of regulations and orders of the Office of Temporary Controls (Office of Price Administration) relating to sugar rationing and sugar and rice price control*—(a) *What this order does.* By the Sugar Control Extension Act of 1947, effective March 31, 1947, all powers, functions, and duties with respect to price control and rationing and allocation of sugar were transferred to the Secretary of Agriculture. By Executive Order 9841 the President transferred to the Secretary of Agriculture, effective May 4, 1947, all functions with respect to price control on rice. The Sugar Control Extension Act of 1947 and Executive Order 9841 also provide that all orders and regulations relating to the functions of sugar rationing and sugar and rice price control in force on the effective dates of the transfers of these functions were continued in effect until modified or revoked by the Secretary of Agriculture. In order to carry out the functions transferred to the Secretary by such act and Executive Order, the Secretary of Agriculture is adopting and approving all such regulations, orders, and other documents concerning or affecting sugar rationing and sugar and rice price control as regulations, orders, and documents of the Sugar Rationing Administration, Department of Agriculture. As it is not practicable at this time to individually reissue these regulations, orders, and other documents in the name of the Secretary of Agriculture, this general order provides for their adoption and approval by the Secretary in a single document.

(b) *Adoption and approval by the Secretary of Agriculture of certain Office of Temporary Controls (Office of Price Administration) regulations and orders.* All maximum price regulations, ration orders, procedural regulations, general orders, supplementary orders, manuals, or other internal operating instructions, and any other official documents or actions relating to or affecting sugar rationing or rice or sugar price control, which were issued or taken by or under the authority of the Temporary Controls Administrator, or by any other authorized official of the Office of Temporary Controls (Office of Price Administration) (including those ratified by the Temporary Controls Administrator by order dated December 19, 1946, 11 F. R. 14704) which were, with respect to sugar rationing and sugar and rice price control, in effect on March 31, 1947, and which were, with respect to rice price control, in effect on May 4, 1947, are, in accordance with the Sugar Control Extension Act of 1947 and Executive Order No. 9841, hereby adopted, ratified, and confirmed, and shall remain in full force and effect until they expire by their terms, or are revoked, modified, or amended by the Secretary of Agriculture: *Provided, however,* That any actions heretofore taken by the Secretary of Agriculture, or any official duly authorized by him, with respect to such documents or actions, shall remain in full force and effect until they expire by their terms, or are revoked, modified, or amended by the Secretary or such official as may be authorized by him.

This General Order No. 5 shall become effective June 5, 1947.

[Gen. Order 6]

PART 705—ADMINISTRATION

EXEMPTION FROM PRICE CONTROL OF CERTAIN SUGAR PRODUCTS

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the authority conferred upon the Secretary of Agriculture by the Sugar Control Extension Act of 1947, it is ordered:

§ 705.106 *Exemption from price control of certain sugar products.* Notwithstanding the provisions of any price regulation or order heretofore issued, syrup blends containing 10% or more by weight or volume of maple sugar or maple syrup are exempt from price control.

This General Order No. 6 shall become effective June 11, 1947.

(Pub. Law 30, 80th Cong., 1st session)

Issued this 6th day of June 1947.

CLINTON P. ANDERSON,
Secretary of Agriculture.

Opinion Accompanying General Order No. 6

The accompanying General Order No. 6 exempts from price control syrup blends containing 10% or more by weight or volume of maple sugar or maple syrup.

This action is taken as a supplement to the action taken October 24, 1946, decontrolling most food items, including pure maple syrup. Syrup blends containing maple syrup, however, were kept under price control in order to prevent a possible diversion of sugar cane syrups to the production of maple syrup blends. It is now believed that this diversion, if any, can only be minimal where syrup blends contain at least 10% maple syrup or maple sugar. This is because the total production of maple syrup is very small in terms of production of cane and other syrups. For this reason, the Sec-

[1] Formerly Chapter XI, Office of Temporary Controls, Office of Price Administration.

retary has determined that these maple syrup blends, which are unimportant in business or living costs, should be exempt from price controls, as the pure maple syrup has been.

PART 710—FOOD PRICES

CERTAIN SYRUPS AND MOLASSES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Revised Maximum Price Regulation No. 291 issued by the Office of Price Administration and amended by the Office of Temporary Controls under § 1351.1351 of Title 32, Chapter XI, is designated Revised Maximum Price Regulation No. 291 issued under § 710.291, Title 32, Chapter VII, pursuant to the authority vested in the Secretary of Agriculture by the "Sugar Control Extension Act of 1947" and is amended in the following respects:

1. In section 2 (d) the words "Sugar Rationing Administration, Department of Agriculture" are substituted for the words "Office of Price Administration, Office of Temporary Controls."

2. In section 8 (c) (3) the words "Sugar Rationing Administration, Department of Agriculture" are substituted for the words "Office of Price Administration."

3. In the last sentence of section 8 (e) (1) the words "pursuant to paragraph (f) of this section" are deleted.

4. In the last sentence of section 8 (e) (2) the words "pursuant to paragraph (f) of this section" are deleted.

5. Section 8 (f) is amended to read as follows:

(f) *Reports.* (1) Within 30 days after a person starts packing any blend of syrup containing country cane syrup he shall, if he has not already reported this information to the Office of Price Administration, report to the Price and Supply Division, Sugar Rationing Administration, Department of Agriculture, Washington 25, D. C., the exact percentage by volume of all syrups which he packed in each of his blends on the 2d day of March 1943, or prior thereto when he last packed such blend, or if he did not pack country cane syrup in blends at that time or prior thereto, the exact percentage by volume of all syrups in each blend when he began packing such blends.

(2) Any packer who desires to change the percentage of country cane syrup pursuant to paragraph (e) of this section, shall report to the Price and Supply Division, Sugar Rationing Administration, Department of Agriculture, Washington 25, D. C., at or prior to the time that he first makes such change in his blend, (i) the brand name and percentage of country cane syrup in the blend from which he is changing, (2) the amount of country cane syrup in the blend on the 2d day of March 1943, which he reported either to the Office of Price Administration or to the Sugar Rationing Administration, Department of Agriculture, (3) the amount of country cane syrup which he now intends to pack in the blend, and (4) a statement that he has complied with the provisions of this section.

[1] 8 F. R. 16508

6. Section 8a is amended to read as follows:

SEC. 8a. *Sales of blends of syrups by packers on and after June 11, 1947.* On and after June 11, 1947, a packer's maximum price for any item of a blend of syrups containing at least 5% country cane syrup by volume shall be:

(a) His maximum price for that item as established under this regulation prior to August 30, 1946;

(b) Plus an amount calculated as follows:

(1) Determine the net weight of each pure syrup contained in the sales unit in pounds and fractions thereof;

(2) Multiply each of the net weights found in (1) by the applicable amount set out in the following table:

Pure syrups:	*Permitted increase per pound*
Corn syrup	$0.0242
Commercial cane syrup	.0088
Country cane syrup	.0158
Maple syrup	.10
Second molasses	.0017
Direct consumption sugar, solid content	.0280
Liquid malt syrup	.0052
Refiners syrup, sugar solids content	.02

NOTE: The increase permitted for refiners syrup contained in an item applies only to the sugar solids content of the refiners syrup.

(3) Total the results obtained in (2).

(4) From the figure obtained in (3) subtract $0.0017 per pound for each pound of first molasses, if any, contained in the item.

7. In the first sentence of section 9 (c) the words "Price and Supply Division, Sugar Rationing Administration, Department of Agriculture" are substituted for the words "Sugar Branch, Price Department, Office of Price Administration, Office of Temporary Controls."

8. In section 9, the final sentence following subparagraph (5) of paragraph (c), is amended to read as follows: "Maximum prices calculated as above shall be deemed approved on the 15th day following the receipt of report by the Sugar Rationing Administration, Department of Agriculture, Washington 25, D. C., if no objection is made within that time by the Sugar Rationing Administration."

9. In section 9 (e) the words "Sugar Rationing Administration, Department of Agriculture" are substituted for the words "Office of Price Administration, Office of Temporary Controls."

10. The first two sentences in section 11 (b) are amended to read as follows: "If a seller cannot determine his maximum price under the foregoing paragraph (a), he shall file an application for a maximum price with the nearest Regional Office of the Sugar Rationing Administration. The Administrator of the Sugar Rationing Administration, the Regional Sugar Executives of Regions 2, 3, 5, 6 and 8, and the Deputy Regional Sugar Executive of Region 4 may determine a maximum price in line with existing prices after an examination of the application which shall set forth the following information:"

11. The first two sentences of section 12 (b) are amended to read as follows: "If a seller cannot determine his maximum price under the foregoing paragraph (a), he shall file an application for a maximum price with the nearest Regional Office of the Sugar Rationing Administration. The Administrator of the Sugar Rationing Administration, the Regional Sugar Executives of Regions 2, 3, 5, 6 and 8, and the Deputy Regional Sugar Executive of Region 4 may determine a maximum price in line with existing prices after an examination of the application which shall set forth the following information:"

12. Section 12a is redesignated section 12b and is amended by deleting the word "OPA" and substituting the words "Sugar Rationing Administration, Department of Agriculture" for the words "Office of Price Administration" in the "Notice to Wholesalers and Retailers" therein.

13. A new section 12a is added to read as follows:

SEC. 12a. *Additions permitted for increased packaging costs—(a) Barrels and half-barrels.* On and after June 11, 1947, the maximum prices established by this regulation for sales of any item of syrups or molasses when sold in wooden barrels or half-barrels furnished by the seller may be increased by $0.08 per gallon.

(b) *Tin or glass containers.* On and after June 11, 1947, the maximum price established by this regulation for sales of any item of syrup or molasses when sold in tin or glass containers furnished by the seller may be increased by an amount equal to the seller's increase in cost on June 11, 1947, over the cost on January 1, 1946, per case or other sales unit for the same packaging materials. Packaging materials means tin or glass containers, caps, labels and cartons. Cost means the amount paid for the most recent typical purchase, prior to the applicable date.

14. Sec. 14 is amended to read as follows:

SEC. 14. *Enforcement.* Any person who violates any provision of this Revised Maximum Price Regulation No. 291 is subject to the criminal penalties and civil enforcement actions provided by the "Sugar Control Extension Act of 1947."

15. In section 15 the words "Sugar Rationing Administration, Department of Agriculture" are substituted for the words "Office of Price Administration, Office of Temporary Controls" wherever they appear, and the words "and the 'Sugar Control Extension Act of 1947'" are inserted after the words "Emergency Price Control Act, as amended."

16. Sections 16 (a) (2) and 16 (a) (3) are deleted.

17. In section 18 the paragraph designation "(a)" is deleted, the words "Sugar Rationing Administration, Department of Agriculture" are substituted for the words "Office of Price Administration, Office of Temporary Controls", and the words "Sugar Control Extension Act of 1947" are substituted for the words "Emergency Price Control Act of 1942, as amended."

This amendment shall become effective June 11, 1947.

Secretary of Agriculture.

Statement of the Considerations Involved in the Issuance of Amendment No. 13 to Revised Maximum Price Regulation 291 and Amendment No. 24 to Supplementary Regulation 14C to the General Maximum Price Regulation

The accompanying amendments to Revised Maximum Price Regulation 291 and Supplementary Regulation 14C change the pricing of syrups and molasses covered by these regulations in several respects:

1. The ceiling prices for commercial cane syrup, country cane syrup, first and second molasses, refiners syrups, and all blends of syrups subject to these regulations are increased by 8 cents per gallon when packed in wooden barrels or half-barrels furnished by the seller.

2. Ceiling prices for the same items when packed in tin or glass containers furnished by the seller are increased by an amount equal to the seller's increase in cost per selling unit for packaging materials as determined by his most recent typical purchase prior to June 11, 1947, over the cost of his most recent typical purchase prior to January 1, 1946. The packaging materials considered are tin or glass containers, caps, labels and cartons.

3. Ceiling prices for sales of blends of syrup are further increased by $.0025 per pound of direct consumption sugar, solid content contained in the blend.

4. Various non-substantive changes are made to make the regulations consistent with the fact that jurisdiction over price control is now vested in the Sugar Rationing Administration of the Department of Agriculture, rather than in the Office of Temporary Controls (Office of Price Administration).

This action has been brought on by various increased costs to sellers who package syrups, molasses and blends. The extent of these increased costs has been such as to substantially reduce profits margins for most packers and to actually cause losses on various products for others. The need for this action has been intensified since November 1946 when the ceiling prices for barrels and packaging materials were removed. Prior to that there had been substantial increases in ceiling prices, particularly for wooden barrels.

The increase of 8 cents per gallon for products packed in wooden barrels and half-barrels represents the equivalent of the approximate increase in the cost of new wooden barrels since 1942. No attempt is made to limit the increase to new barrels because of the possible evasions and other difficulties which would arise from having different sets of prices depending on the newness of the container. It is doubtful that anything would be gained by now establishing such a differential for the first time.

The packaging material increase provided to packers in tin or glass containers should provide adequate relief. The greatest increases in these items have come since January 1, 1946 with costs remaining fairly stable during the price control years prior to that date.

The increase allowed for syrup blends for direct consumption sugar represents the increased cost of this item since January 17, 1947. Previous sugar increases have been reflected in blended syrup maximum prices.

The commodities for which maximum prices have been increased by these actions are not significant in business costs or the cost of living. Any attempt to obtain exact figures as to the amount necessary to assure production of these items at no loss would be fraught with serious administrative difficulties, and would consume an irordinate amount of time far beyond the contribution to the sugar control program which might be effectuated. Although increases to the full extent herein allowed and contemplated are probably in excess of the amount required to assure total costs to the industries or segments of industries involved, it is believed that the adjustments will place affected syrup and molasses packers on a normal profit basis with other syrup packers and with packers of bulk syrups. To whatever extent these increases, in some instances, may raise maximum prices beyond the level required by law cannot be exactly determined. Nevertheless, the action is necessary, in the judgment of the Secretary, to correct maladjustments which would interfere with the effective transition to a peacetime economy.

Notice is still required to be given to wholesalers and retailers of any changes in maximum prices of items covered by Revised Maximum Price Regulation 291 and Supplementary Regulation 14C.

PART 710—FOOD PRICES

MODIFICATION OF MAXIMUM PRICES ESTABLISHED BY GENERAL MAXIMUM PRICE REGULATION FOR CERTAIN FOODS AND BEVERAGES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Supplementary Regulation No. 14C to the General Maximum Price Regulation issued by the Office of Price Administration under § 1499.76 of Title 32, Chapter XI is designated Supplementary Regulation No. 14C issued under § 710.76, Title 32, Chapter VII pursuant to the authority vested in the Secretary of Agriculture by the "Sugar Control Extension Act of 1947" and is amended in the following respects:

1. Section 4.9 (a) is amended to read as follows:

(a) (1) *Maximum prices which blenders of syrups may charge.* Maximum prices which a blender may charge for any item of blended syrups except those containing 10 percent or more of maple syrup or 5 percent or more of country cane syrup, shall be his maximum price as established under § 1499.2 of the General Maximum Price Regulation plus an amount calculated as follows:

(i) Determine the net weight of each pure syrup contained in the sales unit in pounds and fractions thereof;

(ii) Multiply each of the net weights found in (i) by the applicable amount set out in the following table:

Pure syrups:	*Permitted increase per pound*
Corn syrup	$0.0242
Commercial cane syrup	.0088
Country cane syrup	.0158
Maple syrup	.10
Second molasses	.0017

Liquid malt syrup	.0052
Refiners syrup, sugar solids content	.02

NOTE: The increase permitted for refiners syrup contained in an item applies only to the sugar solids content of the refiners syrup.

(iii) Total the results obtained in (ii);

(iv) From the figure obtained in (iii) subtract $0.0017 per pound for each pound of first molasses, if any, contained in the item.

(2) *Additions permitted for increased packaging costs.* To the maximum prices established in subparagraph (1) above the following may be added:

(i) $0.08 per gallon when sold in wooden barrels or half barrels furnished by the seller;

(ii) An amount equal to the seller's increase in "cost" of "packaging materials" on June 11, 1947, over the cost on January 1, 1946, per case or other sales unit for the same packaging materials, when sold in tin or glass containers. "Packaging materials" means tin or glass containers, caps, labels and cartons. "Cost" means the amount paid for the most recent typical purchase prior to the applicable date.

2. Section 4.9 (c) is amended by deleting the word "OPA" and by substituting the words "Sugar Rationing Administration, Department of Agriculture" for the words "Office of Price Administration" in the "Notice to Wholesalers and Retailers" therein.

3. Section 4.9 (d) is revoked.

4. Section 4.10 (a) (1) (iii) is added to read as follows:

(iii) Plus the sum of eight cents per gallon for sales in wooden barrels or half barrels furnished by the seller.

Chapter XXIII—War Assets Administration

[Reg. 5, Amdt. 1]

PART 8305—SURPLUS REAL PROPERTY

War Assets Administration Regulation 5, March 17, 1947, entitled "Surplus Real Property" (12 F. R. 2028), is hereby amended in the following respects:

1. Section 8305.13 (a) is amended to read as follows:

(a) *General.* Except as otherwise authorized by the Administration or as otherwise provided in this section, the disposal agency shall in all cases establish the fair value of the property assigned to it for disposition: *Provided, however,* That in those cases in which the property is classified as airport property and is to be disposed of to a State or local government, or is property which it is contemplated will be transferred to a Federal agency without reimbursement or transfer of funds, no estimate need be made of the value of the property.

2. Section 8305.13 (b) is amended to read as follows:

(b) *Property to be acquired through exercise of former owner's and tenant's priority.* In connection with the sale of section 23 real property to a former owner or tenant entitled to a priority therein, the disposal agency shall determine the sale price, which price shall be the lower of (1) the market price, or (2) the acquisition price adjusted to reflect any increase or decrease in the value of the property resulting from action by the United States.

3. Section 8305.14 (b) is amended to read as follows:

(b) *Notice to priority holders.* At the time of the first publication of the advertising required by this section, or where advertising is not required under the provisions of paragraph (a) of this section, notice shall be sent by mail to all Government agencies listed in Exhibit A of this part. Except in such cases where advertising is not required, notice also shall be sent by mail to the State, political subdivision thereof, and any municipality in which the property is located and, in the case of harbor, port terminal, or airport property, to municipalities in the vicinity thereof. In addition, notice should be sent by mail to any other State or local government, or to any nonprofit institution which has expressed an interest in the property. Where, however, a transfer is requested by one of the armed forces for national defense purposes prior to the conclusion of peace, its need being recognized as paramount, no notice to other Government agencies is necessary. In those cases where the former owner is afforded a priority, the disposal agency, at the time of the first publication of such notice, shall send a copy thereof to the former owner at his last-known address by registered mail, with return receipt requested, except in those cases where the holder of a higher priority has indicated its intention to exercise its priority to acquire the property.

4. Section 8305.14 (d) is amended to read as follows:

(d) *Cut-off date.* Except as otherwise authorized by the Administration, all advertisements published pursuant to the requirements of this section shall contain a cut-off date for the submission of offers.

5. Section 8305.18 is amended by the addition of two new paragraphs at the end thereof, identified as (e) and (f), to read as follows:

(e) *Rights-of-way.* The price to be paid by State or local governments for the acquisition of rights-of-way for highways or streets over surplus section 23 real property, pursuant to section 13 (e) of the act, shall be a price not exceeding that paid therefor by the Government.

(f) *Veterans.* Veterans and the spouse and children of deceased servicemen shall be entitled to purchase surplus section 23 real property at a price fixed by the disposal agency, after taking into consideration the current market value, the character of the property, and, if income-producing, the estimated earning capacity thereof.

6. The last sentence of § 8305.20 (b) is amended to read as follows: "Any deed, lease, or other instrument executed to dispose of property under this part, subject to reservations, restrictions, or conditions, as to the future use, maintenance, or transfer of the property, shall unless otherwise authorized by the Administration, recite all representations and agreements pertaining thereto; and may contain a provision to the effect that, upon a breach of any of the reservations, restrictions, or conditions by the immediate or any subsequent transferees, the title, right of possession, or other right disposed of, shall, at the option of the Government, revert to the Government upon demand."

(Surplus Property Act of 1944, as amended (58 Stat. 765, as amended; 50 U. S. C. App. Sup. 1611); Pub. Law 181, 79th Cong. (59 Stat. 533; 50 U. S. C. App. Sup. 1614a, 1614b); and E. O. 9689 (11 F. R. 1265)

This amendment shall become effective June 12, 1947.

ROBERT M. LITTLEJOHN,
Administrator.

8309.17 Emergency disposals.
8309.18 Donation, abandonment, or destruction of property.
8309.19 Records and reports.
8309.20 Regulations by owning agencies to be reported to the Administration.

AUTHORITY: §§ 8309.1 to 8309.20 inclusive, issued under Surplus Property Act of 1944, as amended (58 Stat. 765, as amended, 50 U. S. C. App. Sup. 1611); Pub. Law 181, 79th Cong. (59 Stat. 533; 50 U. S. C. App. Sup. 1614a, 1614b); and E. O. 9689 (11 F. R. 1265).

§ 8309.1 *Definitions*—(a) *Terms defined in Surplus Property Act.* Terms not defined in paragraph (b) of this section which are defined in the Surplus Property Act of 1944 shall in this part have the meaning given to them in the act.

(b) *Other terms.* (1) "Administration" means the War Assets Administration acting by or through the War Assets Administrator or a designated official to whom ministerial functions under this part have been delegated by the Administrator.

(2) "Administrator" means the War Assets Administrator.

(3) "Care and handling" includes completing, repairing, converting, rehabilitating, operating, maintaining, pre-

serving, protecting, insuring, storing, packing, handling, and transporting, and in the case of property which is dangerous to public health or safety, destroying, or rendering innocuous, such property.

(4) "Best price obtainable" means the highest price offered which is adequate in the light of a reasonable knowledge or test of the market, having due regard for current prices for any raw materials or products for which quotations are published, and to the circumstances, nature, condition, quantity, and location of the particular property.

(5) "Contract" includes subcontracts and "contractor" includes subcontractors.

(6) "Contractor inventory" means (i) any property related to a terminated contract of any type with a Government agency or to a subcontract thereunder; (ii) any property acquired under a contract pursuant to the terms of which title is vested in the Government, and in excess of the amounts needed to complete performance thereunder; and (iii) any property which the Government is obligated to take over under any type of contract as a result of any change in the specifications or plans thereunder.

(7) "Government agency" means any executive department, independent establishment, board, bureau, commission, or other agency in the executive branch of the Federal Government, or any corporation wholly owned (either directly or through one or more corporations) by the United States.

(8) "Property" means any interest, owned by the United States or any Government agency, in personal property, of any kind, wherever located, but does not include naval vessels of the following categories: Battleships, cruisers, aircraft carriers, destroyers and submarines.

(9) "Retain" or "retention" includes any purchase by the war contractor in possession of contractor inventory to which the Government has title, as well as retention of contractor inventory to which the contractor has title.

(10) "Reviewing authority" means a local, regional or departmental board of review of a Government agency; it may consist of one or more persons.

(11) "Salvage" means property that is in such a worn, damaged, deteriorated or incomplete condition, or is of such a specialized nature that it has no reasonable prospect of sale as a unit, or is not usable as a unit without major repairs or alteration. Salvage has some value in excess of its basic material content because it may contain serviceable components or may have value to a purchaser who may make major repairs or alterations.

(12) "Scrap" means property that has no reasonable prospect of sale except for its basic material content.

(13) "Scrap warranty" means a written warranty by a buyer that property purchased or retained as scrap will in fact be sold or used by the buyer only as scrap. When a scrap warranty is required by this part it shall provide as follows:

The undersigned represents and warrants to the United States that the property covered by this agreement was offered as scrap, that he is purchasing or retaining it only as scrap and that he will sell and ship or use it only as scrap, either in its existing condition or after further preparation.

(14) "Serviceable property" means property that has reasonable prospect of sale for use as a unit either in its existing form or after minor repairs; it includes raw materials, primary forms and shapes and mill products.

(15) "Unserviceable property" means scrap, salvage, and other property that has no reasonable prospect of sale for use as a unit either in its existing form or after minor repairs.

§ 8309.2 *Limitation of application.* Nothing in this part applies to disposals or retentions of the following kinds:

(a) Disposals or retentions of property located outside of the continental United States, its territories and possessions;

(b) Disposals or retentions of plant equipment, as that term is defined in § 8306.1,[1] except when sold as scrap or in small lots as provided herein;

(c) Disposals or retentions of real property;

(d) Disposals or retentions of Government-owned buildings on land owned by or leased to the United States, including any facilities and equipment which are an integral part thereof;

(e) Disposals or retentions of property in no-cost settlements of terminated contracts.

CONTRACTOR INVENTORY

§ 8309.3 *Owning agencies empowered to authorize retentions or disposals.* In order to further the objectives of the act by assuring the most effective use of Government-owned property for war purposes, aiding in facilitating the transition from wartime to peacetime production and employment, encouraging and fostering postwar employment opportunities, promoting production and disposing of surplus property as promptly as feasible without fostering monopoly or restraint of trade or unduly disturbing the economy or encouraging hoarding, the Administrator hereby empowers each owning agency to authorize any contractor with such agency or subcontractor thereunder that is in possession of any contractor inventory to retain or dispose of such contractor inventory as provided in this part.

§ 8309.4 *Pretermination arrangements.* (a) To the maximum extent practicable, decisions for the retention or disposal by contractors of all types of contractor inventories shall be made in advance of termination by means of pretermination agreements or otherwise. Provisions may be included in pretermination agreements for the determination of what property shall be considered to be scrap and for the retention or disposal of all types of property by the contractor. Pretermination agreements may also provide for the care and handling and removal of contractor inventories and for the classes of property that the owning agency will take over. In order to protect the interests of the Government, owning agencies shall institute appropriate reviewing procedures relating to scrap determination and disposal provisions of pretermination agreements.

(b) Price provisions in pretermination agreements shall comply with the following rules:

(1) Any property, except scrap, which is to be retained by the contractor for his own use may be retained at prices that are fair and reasonable and not less than the proceeds that could reasonably be expected to be obtained if the property were offered for sale. The agreement shall contain in connection with each such retention a written representation from the contractor that he intends to use or consume the property for manufacturing, construction, maintenance or repair purposes and that he is not retaining it for the purpose of reselling it at a profit.

(2) Any property, except scrap, which is to be retained by the contractor not for his own use may be retained at either (i) prices that are fair and reasonable and not less than the proceeds that could reasonably be expected to be obtained if the property were offered for sale, but in no event less than fifty (50) percent of cost (estimated if not known) or (ii) market prices.

(3) Any property to be retained by the contractor as scrap may be retained at market prices, with or without a scrap warranty.

(4) All prices referred to in this paragraph (b) may be determined either as of the time of the agreement or the time of termination.

(c) The provisions of this section shall apply to pretermination agreements entered into on or after July 1, 1945.

§ 8309.5 *Retentions and sales at cost.* Retentions or sales by a contractor of any item of contractor inventory at cost shall be deemed to comply with the provisions of §§ 8309.7 to 8309.11, inclusive.

§ 8309.6 *Retentions by contractors of $100 items or groups.* The retention for use or resale of any item or group of identical items the cost of which (estimated if not known) does not exceed $100 may be authorized at twenty-five (25) percent of cost in any case in which the contractor retains all such items or groups of identical items of contractor inventory under any one contract. Owning agencies shall establish spot checking and other reasonable procedures to guard against abuses under any such authority.

§ 8309.7 *Retentions by contractors for own use.* Contractors should be encouraged to retain as large amounts as possible of all types of contractor inventories for use for their manufacturing, construction, maintenance or repair purposes. It is the policy of the Administrator that subcontractors shall be permitted to retain, as against their upper tier contractors, such contractor inventories as they desire, for the purposes and at the prices specified in this section, and exceptions from this policy shall be permitted only in cases where contract rights of upper tier contractors make it necessary; owning agencies shall take appropriate steps to bring this policy to the attention of subcontractors. There shall be obtained in connection with each retention under this section a written representation from the contractor that he intends to use or consume the property for manufacturing, construction, maintenance, or repair purposes, and that he is not retaining it for the purpose of reselling it at a profit, except that no such representation is required with respect to retentions of property which is retained under § 8309.6 or consists of a small lot as described in § 8309.8 or is a part of a small inventory, as described in § 8309.9. Such retentions shall be at prices that are fair and reasonable and not less than the proceeds that could reasonably be expected to be obtained if the property were offered for sale at such time. In order to protect the interests of the Government, appropriate reviewing procedures shall be instituted by owning agencies. Retentions of property by a contractor not for his own use but for later resale shall be treated as sales and shall be governed by the requirements of the appropriate provisions of §§ 8309.8 to 8309.11, inclusive.

§ 8309.8 *Sales by contractors; small lots.* (a) The sale (including retention for resale) of any item or group of items in contractor inventory at any location which an owning agency determines to be substantially similar may be authorized at the best price obtainable when the cost (estimated, if not known) of all such items available for sale at any one time at such location and resulting from any one termination does not exceed $300, *Provided, however,* That any group of items consisting of all the identical items of contractor inventory under any one contract, the cost of which group (estimated if not known) does not exceed $100 may be considered to be a small lot.

(b) Any owning agency is authorized to sell at the best price obtainable any small lot of contractor inventory not retained or sold by the contractor.

§ 8309.9 *Sales by contractors; small inventories.* (a) The sale (including retention for resale) of any quantity of any item of contractor inventory may be authorized at the best price obtainable whenever the total of the termination claim of a contractor (deducting amounts payable for completed articles at the contract price and for claims of subcontractors but not deducting disposal credits) is less than $10,000; but completed articles not delivered under the contract and items furnished by the Government for incorporation in end items may not be sold under the authority of this paragraph, unless the cost of such articles and Government-furnished items to be sold and the amount of the termination claim (computed as set forth above in this paragraph) total less than ten thousand (10,000) dollars.

(b) The sale (including retention for resale) of any quantity of any item of contractor inventory may be authorized at a price that is fair and reasonable whenever the net termination claim of a contractor (after disposal credits but including amounts payable for completed articles not delivered under the contract and for claims of subcontractors) is less than one thousand (1,000) dollars, but items furnished by the Government for incorporation in end items may not be sold under the authority of this paragraph, unless the cost of such items to be sold and the amount of the net termination claim (computed as set forth above in this paragraph) total less than one thousand (1,000) dollars.

§ 8309.10 *Sales by contractors: unserviceable property.* (a) Unless property affirmatively appears to be serviceable, it shall be considered to be unserviceable property and shall be sold on the open competitive market in accordance with the provisions of this section.

(b) Primary responsibility for determining whether contractor inventory is serviceable or unserviceable rests with the owning agencies. Each agency shall provide procedures for reference to a reviewing authority before classifying as unserviceable, property included in any one inventory and located at any one place, when the cost (estimated if not known) of such property is twenty-five thousand (25,000) dollars or more.

(c) Disposals of unserviceable property in all cases, except those falling within §§ 8309.5 to 8309.10, inclusive, shall be in accordance with the following policies:

(1) Sales (including retentions for resale) shall be made on the basis of adequate competitive bidding under rules and regulations prescribed by the owning agencies. Such rules and regulations shall contain provisions, among others, requiring lots to be offered in such reasonable quantities as to permit all bidders, small as well as large, to compete on equal terms, requiring wide public notice concerning such sales and time intervals between notice and sale adequate to give all interested purchasers a fair opportunity to buy, and reserving the right to reject all bids. A scrap warranty may be required by the owning agency whenever it deems such course desirable.

(2) Upon a determination by the responsible officer, approved by a reviewing authority, that any given property is scrap, such property may be disposed of as such. Whenever the appropriate disposal agency certifies in writing to the owning agency that any given property or any class of property is in its judgment scrap, such property may without further review be disposed of as such. Such certification shall be made by forwarding to the owning agency a memorandum listing and plainly identifying the items in question and containing the following statement:

It is hereby certified that the within described property has been determined to be scrap, and it is requested that sale be effected in accordance with the provisions of War Assets Administration Regulation No. 9 without further review of such determination.

(3) In exceptional cases or classes of cases, upon a scrap determination or certification pursuant to subparagraph 2 of this section, in each instance and upon a determination by the responsible officer, approved by a reviewing authority, that it would be in the best interests of the Government to dispose of such scrap by negotiated sale, such property may be so disposed of at the best price obtainable. In all such sales a scrap warranty shall be required of the buyer.

§ 8309.11 *Sales by contractors: serviceable property.* Disposals of serviceable property in contractor inventory in all cases, except those falling within §§ 8309.4 to 8309.9 inclusive, and § 8309.12 shall be in accordance with the following policies:

(a) Sales (including retentions for resale) shall be made under rules and regulations prescribed by the owning agencies which shall contain a provision, among others, that in all cases where the amount of serviceable property that will be available for sale at any one time at any one location is estimated to be ten thousand (10,000) dollars or more (based on cost), notice shall be given by publication in a newspaper of general circulation in the locality, indicating in general terms the types of serviceable property that are expected to be available for sale and naming a date (not less than seven days from the date of first publication) on or after which such property will be available for sale. Sales shall so far as feasible be made in reasonably sized lots.

(b) Sales (including retentions for resale) shall be at the best price obtainable but not less than fifty (50) percent of cost (estimated if not known).

(c) Property which cannot be disposed of within a reasonable period of time on the terms stated in paragraph (b) of this section may be sold at the best price obtainable to any buyer who will consume or use the property in the United States for manufacturing, construction, maintenance or repair purposes. In connection with such sale there shall be obtained from the buyer a written representation that he intends so to use or consume the property and that he is not purchasing it for the purpose of reselling it at a profit.

§ 8309.12 *Used plant equipment in contractor inventory: pricing policy.* The retention or sales price for machine tools, machines, and other classifications of plant equipment for which fixed price schedules are prescribed in or pursuant to Part 8306 of this chapter shall be determined by such fixed price schedules, except in cases falling within §§ 8309.8 and 8309.9.

§ 8309.13 *Destruction or abandonment of worthless property.* An owning agency may authorize any contractor to destroy or abandon any contractor inventory in his possession when, in the opinion of the owning agency, such property is worthless. Whenever the cost of the property to be destroyed or abandoned as worthless is more than one thousand (1,000) dollars, before giv-

[1] Reg 6 (12 F R 2363): § 8306.1 (b) (3) reads as follows: "'Plant equipment' means any property which is located in a war contractor's plant and is covered by a facilities contract, except land and buildings." § 8306.1 (b) (1) reads as follows: "'Facilities contract' means a lease, rental agreement, or other contract or contract provision, specifically governing the acquisition, use, or disposition of Government-owned machinery, tools, building installations, or other property furnished to or acquired by a war contractor for any war production purpose except incorporation in end products."

ing such approval, a representative of the owning agency must certify that reasonable efforts have been made to dispose of the property without success by offering such property to at least three persons who deal in that type of scrap or property, or that such offers would be useless, and that in his opinion the property is worthless or that the cost of sale would exceed the proceeds thereof and that the item should be destroyed or abandoned.

§ 8309.14 *Contractor inventory in possession of owning agency.* When any owning agency takes possession of any contractor inventory, all property in such inventory shall be declared surplus as promptly as possible in accordance with the provisions of Part 8301 [2] of this chapter unless it is utilized for supply or otherwise disposed of by the owning agency under authority of or as permitted by the act or this part.

DISPOSALS BY OWNING AGENCIES

§ 8309.15 *Sale of small lots.* (a) The Administrator believes that the cost of care, handling, and disposition of small lots of property will generally exceed the proceeds of sale, and that small lots should therefore, in accordance with sections 13 (b) and 14 (b) of the act, be disposed of by owning agencies rather than declared to disposal agencies as surplus. It is recognized that the definition of what constitutes a small lot and the cost of care, handling, and disposition will vary according to the nature of the property. Therefore, the Administrator may from time to time issue orders hereunder setting forth standards to be applied and procedures to be followed in connection with small lots of various classes of property.

(b) Except as specified in any order issued under paragraph (a) of this section, any owning agency is authorized to sell at the best price obtainable small lots in its possession at any one place at any one time. Such small lots should not be declared surplus to disposal agencies except in special cases and upon mutual agreement between the owning and disposal agency. A small lot shall consist of any item or group of identical items, normally constituting a single entry on WAA Form 1001,[3] the cost of which (estimated if not known) does not exceed one hundred (100) dollars. Notwithstanding the foregoing, if, in the opinion of a disposal agency, such disposition of small lots of any given type of property interferes with the orderly marketing of such type of property by it, such agency may direct the owning agencies to cease sales of such property and to report such property as surplus pursuant to the act.

(c) (1) Where property is of such a nature and in such small quantities, that the owning agency finds that the cost of care, handling, and disposition of such property may exceed the estimated proceeds of sale if declared surplus, then in such event and upon such finding, the owning agency is authorized to sell at the best price obtainable any item or group of identical items, normally constituting a single entry on WAA Form 1001, the cost of which (estimated if not known) does not exceed three hundred (300) dollars, *Provided*, That the property has not been determined to be a "special case" and therefore to be declared surplus as provided in Order 5 under this part.

(2) In making its finding as to the cost of care, handling, and disposition of property pursuant to subparagraph (1) of this section, the owning agency may request the advice and assistance of the appropriate disposal agency.

§ 8309.16 *Sale of waste, salvage, scrap, and products of research and other operations.* (a) To the extent provided in section 14 (b) of the act, any owning agency may sell:

(1) Any waste, salvage, or scrap. The terms "salvage" and "scrap" are defined in § 8309.1.

(2) Any product of research, agricultural, or livestock operations carried on by such agency.

(b) The Administrator hereby restricts the authority of owning agencies to dispose of any other class of surplus property specified in section 14 (b) of the act.

(c) Except as otherwise required by paragraph (d) of this section, all sales made pursuant to this section shall be made at the best price obtainable.

(d) All sales of scrap and salvage made pursuant to this section shall be in accordance with the following policies:

(1) Procedures shall be provided for reference to a reviewing authority before classifying as scrap or salvage property (except production scrap) located at any one place at any one time when the cost (estimated if not known) of such property is twenty-five thousand (25,000) dollars or more. In any event, when the appropriate disposal agency certifies in writing to the owning agency that any given property or any class of property is in its judgment scrap or salvage respectively, the owning agency should forthwith and without further review dispose of such property in accordance with the provisions of this part. Such certification may be given at any time before the property has been physically transferred to the disposal agency, and should whenever possible be given before the property is declared surplus. If the certification is prior to the time that the property is declared surplus, it shall be made by forwarding to the owning agency a memorandum listing and plainly identifying the items in question and containing the following statement:

It is hereby certified that the within described property has been determined to be scrap,[4] and it is requested that sale be effected in accordance with the provisions of War Assets Administration Regulation 9 without further review of such determination.

If the certification is subsequent to the time that the property is declared surplus, it shall be made by forwarding to the owning agency WAA Form 1001.1,[3] listing the items in question and otherwise appropriately executed, with the language quoted above plainly inserted below the column headings across the top of the columns provided for the description of the property, its standard commodity classification, condition, etc.

(2) Sales shall be made on the basis of adequate competitive bidding under rules and regulations prescribed by the owning agencies. Such rules and regulations shall contain provisions, among others, requiring lots to be offered in such reasonable quantities as to permit all bidders, small as well as large, to compete on equal terms, requiring wide public notice concerning such sales and time intervals between notice and sale adequate to give all interested purchasers a fair opportunity to buy, and reserving the right to reject all bids. In sales of scrap, a scrap warranty may be required by the owning agency whenever it deems such course desirable.

(3) In exceptional cases or classes of cases, upon a determination by the responsible officer in each instance, approved by a reviewing authority, that any given property is scrap or salvage and that it would be in the best interests of the Government to dispose of it by negotiated sale, such property may be disposed of at the best price obtainable. In all such cases where the property is determined to be scrap, a scrap warranty shall be required of the buyer.

§ 8309.17 *Emergency disposals.* Where emergency circumstances, such as danger of deterioration or considerations of health, safety, or security make immediate sales by owning agencies desirable without declaration as surplus, the owning agency may proceed to sell the property at prices that are fair and reasonable under the circumstances, after obtaining advance clearance of the appropriate disposal agency if practicable. Reports of such disposals shall be submitted to the Administration in accordance with orders issued thereunder.

§ 8309.18 *Donation, abandonment, or destruction of property.* Owning agencies may donate, abandon, or destroy surplus property only in accordance with the provisions of Part 8319.[5]

§ 8309.19 *Records and reports.* Owning agencies shall prepare and maintain such records as will show full compliance with the provisions of this part and with the applicable provisions of the act. Reports shall be prepared and filed with the Administrator in such manner as may be specified by order issued under this part, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

§ 8309.20 *Regulations by owning agencies to be reported to the Administrator.* Each owning agency shall file with the Administrator copies of all regulations, orders, and instructions of general applicability which it may issue in furtherance of the provisions, or any of them, of this part.

This revision of this part shall become effective June 12, 1947.

Administrator.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 1—ORGANIZATION, PRACTICE AND PROCEDURE

EMERGENCY AND MISCELLANEOUS DIVISION

JUNE 6, 1947.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 8th day of May 1947;

The Commission having under consideration the establishment of an Industrial Heating, Scientific and Medical Services Section in the Emergency and Miscellaneous Division, Safety and Special Services Branch, Engineering Department; and

It appearing, that the establishment of such section is required for the purpose of administering the provisions of Part 18 of the Commission's rules and regulations relating to the Industrial, Scientific and Medical Service; and it appearing further, that the proposed amendments relate to the organization of the Commission and that notice of proposed rule making pursuant to section 4 of the Administrative Procedure Act is not required herein;

It is ordered, That § 1.29 of the Commission's rules and regulations be, and it is hereby, amended, effective immediately, by revising paragraph (d) thereof and by adding paragraph (e) to read as follows:

§ 1.29 *Emergency and Miscellaneous Division.* * * *

(d) Operators and Amateurs Section, which prepares recommendations for the preparation and promulgation of rules and regulations governing commercial radio and amateur radio operators and amateur radio stations.

(e) Industrial Heating, Scientific and Medical Services Section, which is responsible for public interviews, correspondence and administration relating to the technical aspects of radio frequency devices used in providing industrial heating, scientific and medical services and radio frequency devices which fall within the scope of the low power radio frequency rules, citizens radio communication service, and certain low power radio frequency control, signaling, communication devices and systems. The section is responsible also for assigning and maintaining records of type approval numbers upon advice from the Laboratory Division that a manufacturer's apparatus has met the necessary requirements for such devices after having been duly tested.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[S. O. 68, Amdt. 14]

PART 95—CAR SERVICE

SUSPENSION OF FOLLOW-LOT RULE AND TWO-FOR-ONE RULE

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 6th day of June A. D. 1947.

Upon further consideration of the provisions of Service Order No. 68 (8 F. R. 8513), as amended (8 F. R. 8513, 14224, 16265; 9 F. R. 7206, 14306; 10 F. R. 6040, 8142, 9720, 12090; 11 F. R. 562, 6983; 12 F. R. 46), and good cause appearing therefor: it is ordered, that:

Section 95.15 *Suspension of follow-lot rule and two-for-one rule* of Service Order No. 68, as amended, be, and it is hereby, further amended by substituting the following provisions in lieu of Amendments Nos. 9 to 13 inclusive:

(a) *Overloaded cars.* When part of the contents (hereinafter termed the excess) of an overloaded car of carload freight is transferred to another car and both cars forwarded without other freight therein the following shall govern:

Freight charges. All common carriers by railroad subject to the Interstate Commerce Act shall:

(1) On the original car assess and collect freight charges, origin to final destination in effect at time of shipment, based upon the actual weight of freight left in that car after the excess has been removed, but not less than the tariff minimum weight for such car;

(2) On the car loaded with the excess freight assess and collect freight charges at the carload rate, applicable on the commodity as originally shipped, from transfer point to final destination in effect at time of original shipment, based on the actual weight of such excess freight subject to the following minima:

(i) When the tariff minimum weight depends on the length of the car, 50 percent of the minimum weight applicable to a car 40 feet 6 inches in length; or

(ii) When the tariff minimum weight depends on capacity of the car, 50 percent of 80,000 pounds; or

(iii) When the tariff minimum weight does not depend on the length or capacity of a car, 50 percent of the minimum weight applicable to the shipment as originally billed.

(3) But in no instance shall the charges be less than the charges which would have applied on the same shipment transported without transfer of the excess freight to another car.

(b) *Exemptions.* This section shall not apply (1) to shipments of live stock, (2) to shipments of any commodity on flat cars, when the car furnished and used is longer than that ordered by the shipper, and (3) paragraphs 1, 2 and 3 of the original order shall not apply to shipments of any commodity loaded by carriers.

(c) *Loading by carriers.* All cars loaded by carriers shall be loaded full or to their safe loading limit, except that when a single consignment requires more than one car the second or final car of the consignment need not be so loaded.

(d) *Application.* The provisions of this section shall apply to intrastate, interstate and foreign commerce.

(e) *Expiration date.* This section as amended shall expire at 11:59 p. m., December 31, 1947, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, that each railroad, or its agent, shall file and post a supplement to each of its tariffs affected hereby, announcing the partial vacation of this order, restoring the tariff provisions affected thereby and publishing the provisions of this amendment.

It is further ordered, that this amendment shall become effective at 12:01 a. m., June 13, 1947, and it shall vacate and supersede Amendments No. 9 to 13, inclusive, on the effective date hereof; that a copy of this order and direction be served upon the State railroad regulatory bodies of each State, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 927]

HANDLING OF MILK IN NEW YORK METROPOLITAN MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND TO A PROPOSED AMENDMENT

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Cum. Supp., 900.1 et seq., 10 F. R. 11791, 11 F. R. 7737, 12 F. R. 1159), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to a marketing agreement and a proposed amendment to the order, regulating the handling of milk in the New York metropolitan milk marketing area, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the fifth day after publication of this recommended decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearings, on the records of which the proposed marketing agreement and the proposed amendment to the order, as amended, were formulated were held at Utica, New York, and New York, New York, on March 17–25, 1947, notice of which was issued on March 7, 1947 and published in the FEDERAL REGISTER on March 12, 1947 (12 F. R. 1689), and at Albany, New York on November 20, 1946, notice of which was issued on November 14, 1946 and published in the FEDERAL REGISTER on November 16, 1946 (11 F. R. 13535).

The material issues developed at the November 1946 hearing related to (1) Class I–A and Class II–A prices for the month of December 1946, and to (2) a proposal (No. 3 of the November 14 notice of hearing) to prevent contraseasonal changes in the Class I–A and Class II–A prices. Since findings and conclusions with respect to this latter issue (preventing contraseasonal changes in Class I–A and II–A prices) have not heretofore been made, such findings and conclusions are herein set forth together with the findings and conclusions concerning other proposals considered at the March 1947 hearing relative to provisions for pricing Class I–A milk.

The material issues[1] presented at the March 1947 hearing (plus the issue remaining from the November 1946 hearing) are divided, for purposes of this recommended decision, into three categories: (1) Those issues included in the notice of hearing with respect to which the submission of evidence has been postponed for a later hearing) and therefore concerning which no findings and conclusions are herein set forth, (2) those issues with respect to which findings and conclusions are being deferred pending further study and analysis of the hearing record, and (3) those issues with respect to which findings and conclusions are herein set forth.

The first category of issues consists of the following:

1. Elimination or revision of provisions relating to payments to cooperative associations (H. N. Nos. 46, 47, 48, 49, and 50).

2. Elimination or revision of provisions relating to location differentials (H. N. No. 41, 42, and 43).

The second category of issues consists of the following:

1. Revision of the pricing provision for Class I–C milk (H. N. Nos. 29, 30, and 31).

2. Elimination of the "floor provisions" as now contained in the pricing provisions for Class II–B, II–D, and II–E milk (H. N. Nos. 32 and 33).

3. Revision of the pricing provision for Class III milk (H. N. Nos. 35 and 36).

4. Elimination of the "floor provisions" and to make other changes in the pricing provisions for Class IV–A and IV–B milk (H. N. Nos. 6, 37, 38, 39, and 40).

5. A new method of calculating the butterfat differential used in connection with payments to producers (H. N. No. 45).

6. Revision of the pricing provision for Class V–B milk (H. N. No. 58).

7. Revision of provisions for payments for milk or milk products other than from producer sources (H. N. Nos. 52, 53, 54, 55, and 56).

The third category of issues consists of the following:

1. Revision of the method of determining the Class I–A and Class II–A prices: (a) by preventing contraseasonal Class I–A and Class II–A price changes, (b) by revision of the present Class I–A price formula, (c) by replacing the present Class I–A price formula, with specific fixed prices, and (d) by replacing the present Class I–A price formula with prices calculated on the basis of determinations of the cost of production plus a reasonable profit (H. N. Nos. 3 (of November 1946 hearing), 4, 5, and 19 to 28, inclusive).

2. A requirement that the market administrator publish a bulletin monthly and that it be sent to all producers, and that published information include a report on the activity of check testers (H. N. No. 1).

3. A requirement that on request of any handler an inspection must be made by the market administrator and a determination made by him as to what constitutes a plant, and that the handler be notified of such determination within 30 days of such request (H. N. No. 2).

4. A requirement that the market administrator issue at the request of any handler an interpretative ruling on the classification of milk utilized or moved in the manner described by the handler (H. N. No. 3).

5. Qualification of a plant to be a pool plant even though shipment of milk to the marketing area is prohibited for specified periods by reason of health authority permission for shipping approved skim milk from such plant (H. N. No. 7).

6. Modification of the provisions concerning the suspension of pool plant designations as to the classes of milk which are permitted or required to be included by the market administrator in his determination as to the desirable utilization of milk (H. N. Nos. 8 and 9).

7. The inclusion in the pool during April, May, and June of plants not designated as reserve pool plants (H. N. No. 10).

8. Public announcement each month by the market administrator of any plant included in the pool other than plants designated as reserve pool plants (H. N. No. 11).

9. Removal of the time limitation for establishing the classification of milk held in the form of frozen desserts (H. N. No. 12).

10. Classification as I–C, in any month in which the I–C price is higher than the I–A price, of milk shipped as milk to or through the marketing area but ultimately distributed in an area not regulated by the Secretary (H. N. No. 13).

11. Change procedure for issuance of rules and regulations by deleting reference to the first rules and regulations and by adding a specific requirement that a meeting to consider new rules or amendments be called within 30 days upon request of any handler (H. N. Nos. 14 and 15).

12. Extension of the time, from 48 hours to 7 days, allowed handlers for reporting transfers of cream in storage (H. N. No. 16).

13. Revision or elimination of the temperature requirements for cream held in storage as a basis for establishing its classification in Class II–B (H. N. No. 17).

14. Classification of frozen desserts in Class II–F when moved to a warehouse, as well as to a plant or purchaser as now provided, in the Class II–F territory (H. N. No. 18).

15. Revision of the Class II–E price formula by changing the figure of "21.5" as contained therein to "25.5" (H. N. No. 34).

16. Provision for payment by handlers into the producer-settlement fund, and for later disposition, of payments due producers who cannot be located, and of payments concerning which dispute arises as to whether such payments are due producers (H. N. No. 44).

17. Revision in wording storage cream payment provision to more accurately describe the present requirements for payment (H. N. No. 51).

18. Provision for the payment of interest on accounts past due the producer-settlement fund and on monies unlawfully withheld by the market administrator (H. N. No. 57).

Findings and conclusions. (The numbers of the following findings and conclusions correspond with the numbers of the issues above set forth in category number three.)

1. The present method of determining the Class I–A price should be continued by retention of the present butter-powder formula without revision. The formula should be supplemented, however, by adding a provision to prevent contraseasonal price changes, and by providing minimum floor prices of $4.58 per hundredweight for the months of July, August, and September 1947, and $5.02 per hundredweight for the months of October, November, and December 1947. Provision should also be made for limiting to 44 cents per hundredweight any reduction which might occur from December 1947 to January 1948 or from January to February 1948. No provision to prevent contraseasonal price changes in the Class II–A price should be adopted. The foregoing conforms to the standards set forth in section 8c (18) of the Agricultural Marketing Agreement Act of 1937, as amended.

It is essential that the production of pool milk be increased in the fall months in relation to production in the spring months, thus bringing about a seasonal pattern of production which is more nearly in line with market requirements. Significant seasonal variation in the Class I–A price is necessary to encourage such a seasonal pattern of production.

During the years 1940–1946, there was a trend toward wider variation between spring and fall levels of production. Seasonal variation in price tended to grow narrower during the same period. Sales of fluid milk during the years 1940–1946 increased more than production, not only in the New York market, but particularly so in other northeastern markets. Shortages in surrounding areas have resulted in heavy demands for milk from the New York milk shed, thereby accentuating the supply problem during the months of lowest production.

Returns to producers 30 to 35 percent higher in the fall months of October-December than in the spring months of April–June are necessary to encourage less seasonal variation in production. Definite assurance of such a seasonal price relationship in 1947 should be provided by the establishment of a minimum floor price for Class I–A milk of $5.02 per hundredweight for the months of October, November, and December 1947. As further safeguards against factors which might operate to offset the incentive for fall production, a floor price of $4.58 per hundredweight should be established for the months of July, August, and September 1947, and provision should be made for limiting to 44 cents per hundredweight any reduction which might occur from December 1947 to January 1948 or from January to February 1948.

The level of the Class I–A price should, in general, move up and down consistent with changes in the level of prices of manufactured dairy products. Such adjustments in the general level of the Class I–A price should occur in such amounts and at such times as will result in a minimum of interference with necessary seasonal price changes. Accordingly, provision should be made in the order for controlling adjustments in the general level of the Class I–A price to the extent of providing that the Class I–A price for any of the months of September through December of any year should not be lower than in the preceding month, and that the Class I–A price for the months of March through June of any year should not be higher than in the preceding month. The provision to prevent seasonal price changes should be confined to periods of four months in order to result in a minimum of interference with necessary adjustments in the general level of the Class I–A price.

Evidence on the record concerning contraseasonal price changes relates only incidentally to the Class II–A price and fails to indicate that such a provision applied to the Class II–A price would have enough effect on the uniform price to warrant interference with formula changes in the Class II–A price.

Proposals to substitute fixed prices for the present pricing formula were considered at the hearing. Economic conditions during the last half of 1947, or after, cannot be determined on evidence in the record with sufficient accuracy to constitute a sound basis for fixing Class I–A prices for that period at an exact level. Fixed minimum floor prices as recommended herein assure minimum seasonal increases are supported by evidence in the record. Retention of the present butter-powder pricing formula provides a method of establishing Class I–A prices after the period for which minimum floor prices can be established, and for prices for the months of July–December 1947 higher than the minimum floor prices, if justified by economic condition then prevailing.

Evidence on the record for revision of the present butter-powder formula as a method of fixing Class I–A prices relates only to proposed technical changes which could do no more than correct minor weakness of the present formula, rather than to changes in the basic factors necessary to produce a Class I–A price at the proper level and a price which changes at the proper time. The emphasis at the hearing on prices for the immediate future, rather than for the long run, indicates contemplation by handlers and producers of further consideration of the basis for pricing Class I–A milk at another hearing this year. A more complete analysis of the basic factors involved, and of the present formula in its entirety, should be considered at another hearing before making change in the present formula.

The average cost of producing milk was higher in February and March of 1947 than at the same time in 1946. Such cost increased, due principally to the price of feed, between February 15, 1947 and March 15, 1947. The cost of milk production during the last half of 1947 cannot be determined from evidence in the record. The level of production, both in terms of pool milk and production per day per dairy, was higher in the first part of 1947 than at the same time in 1946. Per capita sales of fluid milk in the marketing area were slightly lower in 1946 than in 1945 but still substantially higher than in 1940. Total sales of fluid milk in the marketing area in February 1947 fell below sales in the same month a year earlier for the first time since 1941.

Various proposals were considered at the hearing to establish the Class I–A price solely on the basis of the cost of production, or the cost of production plus a "reasonable" profit. A reasonable profit was not defined. It was proposed that the cost of production be determined from cost data submitted at frequent public hearings, and also that the function of determining the cost of production and of fixing the Class I–A price be delegated to a board of experts. The best available cost of production figures are estimates of the year-around cost. The cost of production varies widely between individual farms, between counties and between states.

The cost of production is not the only factor affecting the supply of milk for the marketing area. In addition to the necessity for the consideration of other factors affecting supply, the economic conditions affecting the demand for milk in the marketing area are important factors which must also be considered if orderly marketing is to result. Furthermore, the Agricultural Marketing Agreement Act requires that due consideration be given to all of the economic conditions affecting both the supply and demand for milk in the marketing area.

Question was raised at the hearing concerning the level of the New York Class I–A price in relation to the Boston Class I price. The Class I–A butterfat differential is different from the butterfat differential in the Boston market. The existence of this difference precludes a complete and precise alignment of New York and Boston prices. Prices precisely the same for milk of one butterfat test would be different for milk of any other test. A different relationship of Class I prices between the two markets would not necessarily result in a constant and continuing alignment of the uniform or blended prices received by producers.

2. No provision should be included in the order requiring monthly publication by the Market Administrator of a bulletin or that such bulletin contain reports on the activity of check testers or that it be sent to all producers.

It has not been shown that the function of reaching producers with necessary market information would thereby be materialy enhanced. Producers are

[1] The description of each issue will be followed by the numbers, as shown in the notice of hearing, of the proposals directly associated with that issue, thus: (H. N. No. --). All proposal numbers refer to the hearing notice issued March 7, 1947 unless otherwise indicated.

not now deprived of essential and timely information by reason of publication of the Market Administrator's Bulletin less frequently than monthly. Cooperative associations receiving cooperative payments are relied upon to provide, and to some extent at least do provide, their members with essential market information. The Market Administrator's Bulletin is now sent to all producers who are not members of qualified cooperatives and to others on request. The activities of check testers or the amount of check testing performed would not be changed by adoption of this proposal. Reports on the activities of check testers are now authorized.

3. The duty of the Market Administrator relative to the making of inspections and determinations as to what constitutes a plant should be amended by adding a provision requiring prompt determination by the Market Administrator, upon receipt of request therefor by any handler, and prompt notice to the handler of such determination.

The Market Administrator's determination of what constitutes a plant is important and handlers are entitled to such determination. The evidence does not show, however, what is involved in making an inspection and a determination nor the probable number of requests. It is entirely possible that 30 days would be an insufficient time in which to make all requested inspections and determinations. Request for reinspection should include a showing of the necessity for inspection by reason of conditions which have changed since a previous determination.

4. The order should not be amended by adding, as a duty of the Market Administrator, a requirement that he issue at the request of any handler an interpretative ruling on the classification of milk to be utilized or moved in the manner described by the handler. The appropriate solution of the problem here presented is the clarification of the order, or the rules and regulations issued by the Market Administrator, to the extent necessary to eliminate the need for interpretative rulings.

Administrative difficulty would arise in determining whether milk was utilized or moved precisely as described in the request.

Under the proposal an erroneous prospective ruling would be final if in favor of the petitioning handler. However, the petitioning handler could at will disregard an erroneous unfavorable ruling and establish a correct classification by subsequent appeal. No method was proposed to protect other interested persons against erroneous prospective rulings.

No satisfactory method was proposed which would avoid prospective rulings upon purely hypothetical facts.

No specifications have been proposed for inclusion in a description of a proposed utilization or movement of facts and circumstances which are comparable with the facts and circumstances which the Market Administrator, pursuant to provisions of the order and the rules and regulations, would be required to consider in determining the final classification of milk.

5. The proposal concerning the qualification of a plant to be a pool plant, even though shipments of milk to the marketing area are prohibited for specified periods by reason of health authority permission for shipping approved skim milk from such plant should be adopted.

A plant given health authority permission for the shipment of approved skim milk is in the same category as a plant which is given permission to receive unapproved milk or skim milk insofar as its qualification to ship milk to the marketing area is concerned. The addition of this proposal more accurately describes the conditions under which it is intended that a plant be considered as being in a position to meet the requirements of a source of milk for the marketing area.

6. No change should be made in the order with respect to the classes of milk which must be included by the Market Administrator in making his determination of the desirable utilization of milk in connection with the conditions under which pool plant designations may be suspended.

Inclusion of the classes of milk, which the proposal would require to be included in the desirable utilization of milk, is now permitted except for Class II-F.

The prices for Class II–A, II–B and II–F milk, particularly during the months of short production, are lower than the prices for Class I–A and Class I–C milk. The proponents of this proposal are also requesting a further reduction in prices for Class II–B and II–F milk. There are numerous areas outside of the marketing area which depend upon pool milk during the low production period of the year to supplement their regular sources of supply, and in addition, numerous handlers distributing milk in the marketing area also distribute milk in other areas and operate plants approved for the shipment of milk both to the marketing area and to such other areas. Butterfat is available to ice cream manufacturers from sources other than the current production of plants approved by marketing area health authorities. The present provisions concerning the determination of the desirable utilization of milk do not preclude the handler from utilizing milk in Classes II–A, II–B and II–F. The present provisions of the order, as administered, have not seriously impaired the ability of ice cream manufacturers to market a satisfactory product and in sufficient volume to meet market requirements for frozen desserts. The authority of the market administrator under the present provisions authorizing suspension of pool plant designations has not been exercised in an arbitrary manner. A determination of the desirable utilization of milk under the present provisions of the order constitutes a standard which, if met by a handler, insures him against the suspension of pool plant designations.

7. The provisions for automatic designation of a pool plant as a pool plant during the months of April, May and June on the basis of milk sold or distributed in, or shipped to the marketing area from such plant should be clarified to leave no question that the requirement for shipment of 60 per cent of the milk received during the preceding period of October, November and December applies only to a plant at which some milk was in fact received directly from dairy farmers during such preceding period.

The pool status of a plant during April, May and June is uncertain in the case of a plant not designated as a reserve pool plant and at which no milk was received from dairy farmers during the preceding October, November and December. The proposed amendment will eliminate that uncertainty, and will not materially impair the effectiveness of the provision nor result in practices contrary to the interests of handlers or producers.

8. There should be included in the order a provision requiring the Market Administrator to make public each month the location, and the name of the operator, of each plant other than a designated reserve pool plant, for which a report of receipts from dairy farmers was used in the computation of the uniform price for the previous month.

It might be desirable that the Market Administrator make public at the time of announcement of the uniform price, the location, and name of the operator, of each plant automatically designated, in accordance with § 927.3 (b), as a pool plant for the previous month by reason of shipment of Class I–A milk. However, such information is not at that time available. The market administrator, in releasing such information, would have to rely solely on the unverified report of the handler. Plants automatically designated as pool plants pursuant to § 927.3 (b) can be determined only after verification of the handler's report. Handler's reports for any month cannot be verified by the 14th of the following month. The market administrator, consequently, is in a position to make public at the time of announcing the uniform price only the location, and the name of the operator, of each plant the report for which was used, pursuant to § 927.3 (b), in the computation of the uniform price for the previous month. Such information will probably include most, if not all, of the information requested by the proponents.

9. The proposal to remove the time limitation for establishing the classification of milk held in the form of frozen desserts should not be adopted at this time.

This proposal involves the apparent necessity or desire on the part of ice cream manufacturers to hold frozen desserts in inventory longer than the period permitted for establishing classification. Adoption of this proposal could materially accentuate the problem of accounting for milk. The proponent of this proposal, in its brief filed, recognized administrative difficulties involved, and concluded with the statement: "Therefore, we desire to give further study to the problem, with the view toward overcoming such difficulties through a more complete suggestion at a later date.

10. The order should not be amended to provide that in any month in which the Class I–C price is higher than the Class I–A price, milk shipped to or through the marketing area but ultimately distributed in an area not regulated by the Secretary should be classified as Class I–C rather than as Class I–A. However, the words "which has not passed through the marketing area, but including milk which was received directly from producers at a plant in the marketing area," as they appear in the Class I–C definition, should be deleted.

The proposal was designed to deny handlers a lower price on milk distributed in the Class I–C territory merely by reason of having first transported the milk in bulk through the marketing area. This objective would be more appropriately accomplished by the recommended change in the Class I–C definition.

A change in § 927.4 (a) (3) (i), as proposed, would be inconsistent with § 927.5 (c) (3), the definition of Class I–C milk. § 927.4 (a) (3) (i) provides that milk shipped in the form of milk to a plant in the marketing area shall be classified as Class I–A, and consitutes a condition to which the Class I–C definition is subject. Deletion from the Class I–C definition of the above quoted words leaves a definition which, together with § 927.4 (a) (3) (i), defines milk ultimately distributed in an area not regulated by an order of the Secretary as Class I–C unless the milk was previously shipped in the form of milk from the plant at which it was received from dairy farmers to a plant in the marketing area.

11. The procedure for issuance by the market administrator of rules and regulations should be amended by deletion of language, now obsolete, relative to issuance of the first rules and regulations, and by including a provision requiring the market administrator, within 30 days after receipt of a written request of any handler for issuance, amendment or repeal of any rule, to either call a meeting for consideration of such request or notify the handler that the request is denied and of the reasons for denial.

Effective administration of the order and proper exercising by the market administrator of his function in the issuance of necessary rules and regulations to effectuate the terms and provisions of the classification section of the order requires prompt consideration by the market administrator of evidence of the necessity for the issuance, amendment or repeal of a rule.

Requests of handlers showing evidence of the necessity for issuance, amendment or repeal of any rule have been given prompt consideration. Handlers have not been denied an opportunity to be heard on such requests. Proponents intended to allow the market administrator wide discretion in determining what is a bona fide request. Adoption of the proposal results in expressly setting forth in the order, and in more specific terms, the already existing responsibility of the market administrator in the issuance of the necessary rules and regulations.

12. The time allowed for reporting the transfer of cream from one licensed cold storage warehouse to another should be extended from 48 hours to 7 days.

A period of 7 days in which to report transfers of storage cream is a more reasonable allowance of time than is the period of 48 hours. Handlers experience difficulty giving notice within 48 hours. No necessary purpose is served by a provision requiring notice within a period shorter than 7 days.

13. There should be deleted from the order the requirements as to the temperature below which cream must be held in a licensed cold storage warehouse for purposes of qualifying it for a II–B classification.

Present temperature requirements were originally adopted as a safeguard against misuse of a provision designed to encourage the storage of cream. The order contains other such safeguards. The burden on warehouse operators resulting from the present temperature requirements causes reluctance to accept cream for storage thus creating a potential scarcity of storage space for cream. Storage warehouses equip themselves with recording thermometers only for the purpose of meeting the storage cream requirements of the order. The failure to meet the temperature requirements frequently results from the unavoidable breakdown of recording thermometers and the inability to repair them promptly.

The breakdown of recording thermometers results in failure to meet requirements of the order, even though the cream is actually held at the required temperatures. Cream held in storage for 28 days or longer is not physically suitable for Class II–A purposes unless held during such period in a frozen condition.

14. The proposal to classify frozen desserts as Class II–F on the basis of shipments to a warehouse as well as to a plant or purchaser in the II–F territory should not be adopted.

Adoption of this proposal would extend a privilege to ice cream manufacturers operating in the II–F territory which is not extended to manufacturers of other products or to ice cream manufacturers operating in other territories. To the extent that a warehouse is a point of storage rather than a point of distribution, as in the case of a plant or a purchaser, adoption of this proposal could have the effect of extending the period for establishing classification with respect to frozen desserts in the II–F territory.

15. The proposal to revise the Class II–E price formula by changing the figure "21.5" to "25.5" should not be adopted.

This proposal was withdrawn during the hearing by its proponent and no evidence was submitted in support of the proposal.

16. A new provision should be included in the order to provide for payment by handlers into the producer-settlement fund, and for later disposition, of payments due producers who cannot be located, and of payments concerning which dispute arises as to whether such payments are actually due producers.

This provision will assist in the administration of the order and more completely effectuate its terms and provisions.

17. The storage cream payment provision should be re-worded as set forth in proposal No. 51.

Adoption of this proposal makes no substantive change in the order, but merely clarifies the present provision and more accurately describes the conditions under which storage cream payments are at present authorized.

18. The proposal for payment of interest on accounts past due to the producer-settlement fund and on monies unlawfully withheld by the market administrator should not be adopted at this time.

The absence of such a provision was not shown to have adversely affected the interests of producers or handlers. The record contains insufficient detail with respect to several questions involved, such as, the identity of monies unlawfully withheld by the market administrator and the date on which interest would begin to accrue.

Rulings on the proposed findings and conclusions. Briefs were filed on behalf of Milk Dealers' Association of Metropolitan New York, Inc.; Association of Ice Cream Manufacturers of New York State, Inc.; Metropolitan Cooperative Milk Producers' Bargaining Agency, Inc., and Eastern Milk Producers' Cooperative Association, Inc.; New York State Association of Refrigerated Warehouses; New England Milk Producers' Association; Mutual Cooperative of Independent Producers, Inc.; New York State Cheese Manufacturers Association; New York State Guernsey Cooperative, Inc. and by Dairy Producers, Inc.

These briefs contained statements of fact, conclusions and arguments with respect to most of the issues considered at the hearing. Some of the proposed findings of fact are immaterial to the issues presented, or outweighed by other facts found herein, and some of the proposed conclusions do not logically follow from the proposed findings of fact. Although some of the briefs do not contain specific requests to make the proposed findings and conclusions stated therein, it is assumed that they were submitted with that intention and are treated accordingly.

Every point covered in the briefs with respect to the issues on which findings and conclusions are herein set forth was carefully considered, along with the evidence in the record, in making the findings and reaching the conclusions herein set forth. To the extent that the proposed findings and conclusions are inconsistent with the findings and conclusions contained herein, the specific or implied requests to make such findings are denied because of the reasons stated for the findings and conclusions in this recommended decision.

The Milk Dealers' Association of Metropolitan New York submitted specific proposed findings of fact and conclusions with respect to most of the proposals dealt with herein, including hearing notice proposals 1–3, 7–11, 13–17, 19–28, 44, 51, and 57. With respect to hearing notice proposals 3 and 57 the requests to make such findings and conclusions are denied for the reasons given herein in recommending findings and conclusions contrary thereto. For similar reasons the requested findings and conclusions relating to the remainder of such proposals are denied only to the extent that they vary in form or content from the

findings and conclusions recommended herein.

Other proposed findings and conclusions were submitted by the Milk Dealers' Association of Metropolitan New York, Inc., with respect to questions of law. These included requested rulings on procedural questions presented in opposition to proposals not recommended by this decision to be adopted. Broad rulings were also requested as to the general powers and duties of the presiding officer; the necessity of a proponent for each specific proposal; the incorporation, by reference, of testimony at prior hearings; whether factual evidence in the record may be considered on any issue as to which it is material and pertinent; and in what circumstances official notice may be taken. These requested rulings of law were not shown to be material and necessary to the decision of any issue decided herein and they are accordingly not made herein.

It was also alleged in the brief of the Association of Ice Cream Manufacturers of New York State, Inc. that an existing provision of Order No. 27 is illegal. If this is to be considered as a proposed finding or conclusion, it is not adopted. The legality of an existing provision of an order is not to be decided in a promulgation proceeding.

Recommended marketing agreement and order. The following amendments to the order are recommended as the detailed and appropriate means by which these conclusions may be carried out.

The proposed marketing agreement is not included in this report because the regulatory provisions thereof would be the same as those contained in the order, as amended, and as proposed here to be further amended.

1. Amend § 927.2 (d) (10) to read:

(10) The market administrator, shall from time to time, cause inspections to be made of the buildings, facilities and surroundings of the plant and shall notify handlers of his determination as to what constitutes the plant and its equipment. If any handler makes written request for such determination, the market administrator shall promptly notify such handler of his determination: *Provided*, That if the request is for a revised determination or for affirmation of a previous determination, the handler shall set forth in his request the changed conditions which he believes make a new determination necessary. Such determination shall be ruling for all purposes hereunder, and any revision in the determination of which handlers have been notified shall be effective not earlier than the date of notice to handlers of such revised determination.

2. Amend § 927.3 (a) (3) (ii) by adding the words "or for shipment of approved skim milk from such plant" at the end of the proviso contained therein so that the proviso will read: "*Provided*, That approval by a health authority of the plant as a source of milk for the marketing area shall constitute sufficient evidence that this requirement is being met even though such approval is restricted to prohibit shipment to the marketing area of milk for specified periods during which permission is given by such health authority for receiving unapproved milk or skim milk at the plant or for shipment of approved skim milk from such plant; and"

3. Amend § 927.3 (b) by changing the first proviso therein to read: "*Provided*, That for the months of April, May, or June no plant at which milk was received from dairy farmers during the preceding period of October, November, and December shall be a pool plant on this basis, unless at least 60 percent of such milk was classified in Class I–A, and either directly, or through other plants, was sold or distributed in or shipped to the marketing area in the form of milk."

and by adding at the end of § 927.3 (b) the following sentence: "At the time of announcing the uniform price for each month, the Market Administrator shall make public the location, and name of the operator, of any plant for which a report of receipts from dairy farmers was used, pursuant to this paragraph, in the computation of that uniform price."

4. Amend § 927.4 (a) (2) by changing the proviso contained therein to read: "*Provided*, That the holding of milk in the form of cream in a licensed cold storage warehouse for at least 7 days shall constitute that portion of the handling of such cream required pursuant to § 927.4 (c) (5) that is required to be performed during the month following its receipt from dairy farmers."

5. Amend § 927.4 (b) by deleting the two provisos contained therein and substituting the following: "*Provided*, That at any time upon a determination by the Secretary that an emergency exists which requires the immediate adoption of rules and regulations, the Market Administrator may issue, with the approval of the Secretary, temporary rules and regulations without regard to the following procedure: *Provided further*, That if any interested person makes written request for the issuance, amendment, or repeal of any rule, the Market Administrator shall within 30 days either issue notice of meeting pursuant to subparagraph (1) of this paragraph or deny such request, and except in affirming a prior denial, or where the denial is self-explanatory, shall state the grounds for such denial."

6. Amend § 927.4 (c) (3) to read:

(3) Class I–C milk shall be all milk which leaves a plant as milk, or cultured or flavored milk drinks containing 3.0 percent butterfat or more, and which is ultimately distributed in an area not regulated by an order of the Secretary.

7. Amend § 927.4 (c) (5) to read as follows:

(5) Class II–B milk shall be all milk, except as set forth in subparagraphs (7), (8), and (9) of this paragraph, the butterfat from which leaves or is on hand at a plant in the form of plain condensed milk, frozen desserts or homogenized mixtures; or which leaves or is on hand at a plant in the form of cream which is subsequently held in a licensed cold storage warehouse for at least 28 days, and which is subject at all times to being inspected by a representative of the Market Administrator to determine the physical presence of the cream. After the first 7 days such cream may be moved from one licensed cold storage warehouse to another: *Provided*, That the Market Administrator receives notice of such removal within 7 days thereafter. Any handler whose report claimed the original classification of milk in this class shall be liable under the provisions of § 927.9 (e) for the difference between the Class II–B and Class II–A prices for the month in which the II–B classification was claimed on any such milk, if the storage of the cream does not comply with all the requirements of this subparagraph.

8. Amend § 927.5 (a) (1) by deleting that portion of such subparagraph preceding the table contained therein and by substituting therefor the following:

(1) Except as provided in subdivisions (i), (ii), and (iii) of this subparagraph, for Class I–A milk the price per hundredweight during each month shall be as set forth in the following table:

and by adding after the table contained therein the following three subdivisions:

(i) The Class I–A price for any of the months of March through June of each year shall not be higher than the Class I–A price for the immediately preceding month, and the Class I–A price for any of the months of September through December of each year shall not be lower than the Class I–A price for the immediately preceding month.

(ii) The Class I–A price shall not be less than $4.58 per hundredweight for each of the months of July through September 1947, and shall not be less than $5.02 per hhndredweight for each of the months of October through December 1947.

(iii) The Class I–A price for January 1948 shall not be less than the December 1947 Class I–A price minus 44 cents, and the Class I–A price for February 1948 shall not be less than the January 1948 Class I–A price minus 44 cents.

9. Amend § 927.8 (a) by adding at the end thereof the following: "*Provided*, That if a handler claims that he cannot make the required payment because the producer is deceased or cannot be located, or because the cooperative association or its lawful successor or assignee is no longer in existence, such payment shall be made to the producer-settlement fund, and in the event that a lawful claim is later established, the Market Administrator shall make such payment from the producer-settlement fund: *Provided further*, That, if not later than the date when such payment is required to be made, legal proceedings have been instituted by the handler for the purpose of administrative or judicial review of the Market Administrator's finding upon verification as provided above, such payment shall be made to the producer-settlement fund and shall be held in reserve until such time as the above-mentioned proceedings have been completed or until the handler submits proof to the Market Administrator that the required payment has been made to the producer or association of producers, in which latter event the payment shall be refunded to the handler."

10. Amend § 927.9 (g) by deleting therefrom the words "and was used in Classes II–D, II–E, or II–F during the months of July to March, inclusive, or in Class IV–A during the months of January to March, inclusive," and by substituting therefor the words: "and was assigned, in accordance with the provisions of the rules and regulations issued by the Market Administrator pursuant to § 927.4 (b) hereof, to Classes II–D, II–E, or II–F during the months of July to March, inclusive, or to Class IV–A during the months of January to March, inclusive."

Filed at Washington, D. C., this 9th day of June 1947.

Assistant Administrator.

FEDERAL POWER COMMISSION

[Docket Nos. G-656, G-665]

CITIES SERVICE GAS CO. ET AL.

ORDER FIXING DATE OF HEARING

In the matters of Cities Service Gas Company, Frank Haucke and H. A. Amerine; Docket No. G-656 and G-665.

Upon consideration of the application filed August 17, 1945, in Docket No. G-656 by Cities Service Gas Company, a Delaware corporation with its principal place of business at Oklahoma City, Oklahoma, and the application filed September 24, 1945, in Docket No. G-665 and the supplemental application thereto filed March 20, 1947, by Frank Haucke and H. A. Amerine, a co-partnership with its principal place of business at Cottonwood Falls, Kansas, for certificates of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, as amended, authorizing applicants to construct and operate natural gas pipeline facilities subject to the jurisdiction of the Federal Power Commission, described as follows:

Construction by Cities Service Gas Company. A 3-inch by-pass around applicant's present 20-inch main line gate; a 3-inch high-pressure regulator setting with a 2-inch high pressure regulator; a 4-inch orifice meter setting complete with a 2-inch high-pressure regulator on the outlet; a 3-inch gas pipe line extending from the by-pass to the regulator setting above described; and a 4-inch gas pipe line extending from the aforesaid regulator setting to the orifice meter setting above described; to be constructed at a point in the Southeast Quarter of section 11, Township 21 South, Range 9 East, Chase County, Kansas, adjacent to applicant's existing 20-inch gas pipe line extending from Wichita, Kansas, to Ottawa, Kansas.

Construction by Frank Haucke and H. A. Amerine. 17.5 miles of 4-inch O. D. gas pipe line from the pipe line of Cities Service Gas Company in section 11, Township 21 South, Range 9 East, in Chase County, Kansas, to a point west of Cottonwood Falls, Kansas, and in close proximity thereto, in Chase County, Kansas, together with appropriate terminal facilities at the above point of termination, as a base or station for the purpose of transmitting natural gas flowing through the proposed facilities to the distribution plants, pipes or main furnishing the Cities of Cottonwood Falls and Strong City and their inhabitants with natural gas.

It appearing to the Commission that:

(a) Applicants proposed the construction and operation of the above-described facilities for the purpose of augmenting the depleted local supply now used to meet the requirements of Strong City and Cottonwood Falls, Kansas, and surrounding areas thereto.

(b) Subsequent to the giving of due notice of the filing of these applications, including publication in the FEDERAL REGISTER on October 9, 1945 (10 F. R. 12658), no request to be heard, protest or petition has been filed, and disposition may be made of the applications as in unopposed gas certificate cases.

The Commission, therefore, orders that:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing be held on June 24, 1947, at 9:30 a. m. (e. d. s. t.), in the Hearing Room, Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters of fact and law asserted in the applications filed in the above-entitled proceedings: *Provided, however,* If no request to be heard, protest or petition to intervene, raising in the judgment of the Commission an issue of substance, has been filed or allowed prior to the conclusion of the hearing, the Commission may then forthwith dispose of the proceeding by order upon consideration of the application and the evidence filed therewith and incorporated in the record of the proceeding, together with such additional evidence as may be available or as the Commission may require to be filed and incorporated in the record for its consideration.

(B) Interested State commissions may participate as provided by the Commission's rules of practice and procedure.

Date of issuance: June 6, 1947.

By the Commission.

[Docket No. G-887]

ATLANTIC GULF GAS CO.

NOTICE OF APPLICATION

JUNE 6, 1947.

Notice is hereby given that on April 14, 1947, United Gas Corporation filed an application, as amended on June 5, 1947, to substitute Atlantic Gulf Gas Company, its subsidiary, in lieu of United Gas Corporation, a Delaware corporation, with its office at Shreveport, Louisiana, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing applicant to construct and operate approximately 1,530 miles of natural gas transmission line and appurtenant facilities extending from the State of Mississippi in an easterly direction through the southern parts of the States of Alabama and Georgia, the northern part of the State of Florida, and southeastern South Carolina and terminating in the areas of Georgetown, South Carolina, and Jacksonville, Florida.

The application recites that it is proposed to sell natural gas at the city gate for resale in the various cities and towns and for resale to rural consumers along the route of the proposed pipe lines, and that it is proposed to sell natural gas to various direct main line industrial customers. On a 5th year basis of operations, it is estimated that maximum day sales will be as follows:

	Mcf
City gate gas for resale:	
State of Alabama	8,680
State of Florida	19,395
State of Georgia	81,700
State of South Carolina	17,500
Total	127,275
Direct industrial gas:	
State of Alabama	7,250
State of Florida	76,650
State of Georgia	58,850
State of South Carolina	40,500
Total	183,250
Grand total proposed project	310,525

It is not presently contemplated there will be any sales or interchange with other natural gas companies through the proposed facilities. No natural gas service is presently available in the area proposed to be served.

The application further recites that it is proposed to purchase the natural gas necessary to supply the requirements for delivery through the proposed facilities from United Gas Pipe Line Company, a wholly owned subsidiary of United Gas Corporation, such gas to be delivered into the proposed facilities at a point in the vicinity of Hattiesburg, Mississippi.

It is stated in the application that United Gas Pipe Line Company's system is presently connected to 124 gas fields and approximately 1,650 wells located in the States of Louisiana, Mississippi and Texas, that said connected gas fields have remaining gas reserves aggregating 12,800,000,000 Mcf.; that said pipe line system can provide an abundant and stable supply of natural gas from many different sources for the facilities proposed; and that United Gas Corporation will cause the United Gas Pipe Line Company, as its wholly-owned subsidiary to enter into appropriate long term contracts to provide all necessary gas supplies for the proposed project and to build all necessary facilities, including gathering lines, field lines and main lines and also to apply to the Federal Power Commission for such extensions as may be necessary.

The estimated total over-all capital cost of the proposed facilities is $57,126,000. Information with respect to financing the proposed project will be furnished at a subsequent date in this proceeding.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application, as amended, of Atlantic Gulf Gas Company, as substituted, is on file with the Commission and is open to public inspection. Any person (unless a petition to intervene in the original application has already been filed with the Commission) desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date

of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946), and shall set out clearly and concisely the facts from which the nature of the petitioner's or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of fact or law asserted in the proceeding.

FLORIDA POWER CORP.

NOTICE OF APPLICATION

JUNE 4, 1947.

Notice is hereby given that on June 3, 1947, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Florida Power Corporation, a corporation organized under the laws of the State of Florida and doing business in the States of Florida and Georgia with its principal business office at St. Petersburg, Florida, seeking an order authorizing the issuance of 100,000 shares of Common Stock of the par value $7.50 each. The company will first offer the additional shares to present Common Stockholders in the ratio of one share for each ten shares of Common Stock held of record, and thereafter negotiate with underwriters for the unsubscribed shares, all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 25th day of June 1947, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 31-534, 31-535]

MAINE PUBLIC SERVICE CO. AND MAINE AND NEW BRUNSWICK ELECTRICAL POWER CO., LTD.

ORDER RECONVENING HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 5th day of June A. D. 1947.

Maine Public Service Company ("Maine"), a registered holding company and a former subsidiary of Consolidated Electric and Gas Company, also a registered holding company, having filed an application for an order of this Commission pursuant to section 3 (a) (2) of the Public Utility Holding Company Act of 1935 exempting Maine and its subsidiary, Maine and New Brunswick Electrical Power Company, Limited ("New Brunswick"), from all provisions of said act on the asserted ground that Maine is predominantly a public utility company whose operations as such do not extend beyond the State of Maine, in which it is organized; and

New Brunswick having filed an application for an order of this Commission pursuant to section 3 (b) of the act exempting it from all provisions of the act imposing obligations, duties or liabilities on it as a subsidiary of a registered holding company, on the asserted ground that it has no subsidiaries, derives no material part of its income directly or indirectly from sources within the United States, and is not a public utility company operating in the United States; and

The Commission by order dated November 19, 1945, having given notice of the filing of the said applications, having consolidated the said proceedings, and having ordered a public hearing with respect thereto to be held on November 30, 1945, and said hearing having been held on November 30 and December 18, 1945, pursuant to said order, and on December 18, 1945, having been adjourned, subject to call; and

It appearing to the Commission that the hearing on the said applications should be reconvened for the purpose of adducing additional evidence with respect thereto:

It is ordered, That the hearing in the said proceedings be reconvened on June 20, 1947, at 10:30 a. m., e. d. s. t., at the offices of this Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing shall be held. Any persons desiring to be heard or otherwise wishing to participate in this proceeding shall file with the Secretary of this Commission, on or before June 18, 1947, a written request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That William W. Swift, or any other officer or officers of this Commission designated by it for that purpose, shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said filings, particular attention be directed at said hearing to the following matters and questions:

(1) Whether Maine is predominantly a public utility company whose operations as such do not extend beyond the

State in which it is organized and States contiguous thereto;

(2) Whether it is detrimental to the public interest or the interest of investors or consumers to grant to Maine, and to New Brunswick, as a subsidiary of Maine, an exemption from any or all of the provisions of the act;

(3) Whether New Brunswick derives any material part of its income directly or indirectly from sources within the United States;

(4) Whether the application of any or all of the provisions of the act to New Brunswick is necessary in the public interest or for the protection of investors;

It is further ordered, That the Secretary of the Commission shall serve a copy of this order by registered mail on Maine Public Service Company, Maine and New Brunswick Electrical Power Company, Limited, the Public Service Commission of the State of Maine, and the Federal Power Commission; and that notice of said hearing shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935 and by publication of this order in the FEDERAL REGISTER.

By the Commission.

FEDERAL LIGHT & TRACTION CO. ET AL.

NOTICE OF FILING OF PLAN

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 6th day of June A. D. 1947.

In the matter of Federal Light & Traction Company, Cities Service Company, and Public Service Company of New Mexico, File No. 70-1371.

Cities Service Company ("Cities"), a registered holding company, Federal Light & Traction Company ("Federal"), a subsidiary of Cities and also a registered holding company, and Public Service Company of New Mexico ("Public Service"), a direct subsidiary of Federal, on September 13, 1946, filed applications and declarations proposing, among other things, the dissolution and liquidation of Federal. Amendments Nos. 1 and 2 to the original filing were made on September 24, 1946, and October 25, 1946, respectively. On October 21, 1946, the Commission issued a notice of filing and order for hearing (Holding Company Act Release No. 6952), summarizing the principal provisions of said applications and declarations and ordering a hearing thereon. At that time it was proposed, in connection with the dissolution and liquidation of Federal, to pay to the holders of Federal's outstanding preferred stock the sum of $100 per share plus accrued unpaid dividends and, as against a determination that the preferred stockholders are entitled to receive any amounts in excess of $100 per share, to set up an escrow fund in an amount equivalent to the redemption premium of $10 per share plus compensation for delay in receiving such additional amounts. Pursuant to said notice and order, a public hearing was duly held at which the taking of evidence was completed with respect to the appropriateness of the immediate payment of $100 per share plus accrued unpaid dividends and the setting up of the escrow fund for any additional amount to which the preferred stockholders might be determined to be entitled.

Thereafter, on May 14, 1947, Federal, Cities and Public Service filed Amendment No. 3 to the original applications and declarations modifying the proposals as above described, and proposing instead to call for redemption the outstanding shares of preferred stock of Federal at the redemption price of $110 per share and accrued unpaid dividends.

Notice is hereby given that, on May 28, 1947, Federal, Cities and Public Service filed Amendment No. 4 to said applications and declarations which reinstates the transactions as proposed prior to the filing of Amendment No. 3. Accordingly, it is now proposed that the preferred stockholders of Federal receive at the present time $100 per share plus accrued unpaid dividends and that an escrow fund be provided for any additional amount to which they may be determined to be entitled. Further, in said Amendment No. 4, Federal, Cities and Public Service have requested that the transactions as now proposed be considered by the Commission as constituting a plan under section 11 (e) of the Public Utility Holding Company Act of 1935; and Federal has reserved the right to request the Commission to apply to a court to enforce and carry out the terms and provisions of such plan. Federal has also requested the Commission to make a report on the plan to be used in connection with the proposed solicitation of proxies from its stockholders in voting upon the dissolution of Federal as proposed in the plan.

It appearing to the Commission that all interested persons have hitherto been afforded opportunity to be heard with respect to the transactions now proposed, that the taking of evidence with respect to such transactions has been completed, and that no useful purpose would be served by requiring that further hearings be held in the absence of a showing by any interested person that such further hearings are necessary or appropriate for the protection of their interests;

Notice is given that any interested person may, not later than June 16, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held with respect to said plan stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by such plan which he desires to controvert or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after June 16, 1947 the Commission may issue its order with respect to said plan.

It is hereby ordered, That notice of the filing of the plan be given by registered mail to all persons who have been granted participation in the proceedings, and to all other persons by publication of this notice in the FEDERAL REGISTER and by general release to the press.

By the Commission.

ELECTRIC POWER & LIGHT CORP. AND LOUISIANA POWER & LIGHT CO.

NOTICE REGARDING FILING OF APPLICATION-DECLARATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 5th day of June A. D. 1947.

Notice is hereby given that Electric Power & Light Corporation ("Electric"), a registered holding company, and its subsidiary, Louisiana Power & Light Company ("Louisiana"), have filed a joint application-declaration and amendment thereto pursuant to the Public Utility Holding Company Act of 1935. Applicants-declarants have designated section 6 (a), 7, 9 (a), 10 and 12 (f) of the act and Rule U-43 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than June 16, 1947 at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after June 16, 1947 said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under said act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said application-declaration which is on file with this Commission for a statement of the transactions therein proposed which may be summarized as follows:

Electric is the owner of all the outstanding common stock of Louisiana consisting of 1,200,000 shares, without par value, having a stated value of $6,000,000. Louisiana proposes to issue and sell, and Electric proposes to acquire, an additional 1,100,000 shares of common stock of Louisiana for a cash consideration of

of $4,500,000. Upon completion of this sale, Louisiana proposes to transfer $1,000,000 from Earned Surplus to Common Capital Surplus Account. In connection with these transactions, Louisiana also proposes to amend its Certificate of Incorporation so as to increase the number of authorized shares of common stock from 1,500,000 shares to 5,000,000 shares.

Upon completion of such transactions, Louisiana will have issued and outstanding 2,300,000 shares of common stock having a stated value of $11,500,000.

The cash to be received by Louisiana will be employed for the construction of new facilities and for the extension and improvement of present facilities and for other necessary corporate purposes.

Applicants-declarants request that the Commission's order herein be issued as quickly as possible and become effective upon the issuance thereof in order to permit consummation of the proposed transactions at the earliest possible opportunity.

By the Commission.

REPUBLIC LIGHT, HEAT AND POWER CO., INC.

NOTICE OF FILING OF DECLARATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 5th day of June 1947.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935, by Republic Light, Heat and Power Company, Inc. ("Republic"), a subsidiary of Cities Service Company ("Cities"), a registered holding company, designating sections 6 (a) and 7 of the act as applicable to the transactions proposed therein.

Notice is further given that any interested person may, not later than June 18, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason for such request and the issues, if any, of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon; that any such request should be addressed: Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania; and that at any time after June 18, 1947, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transactions therein proposed which are summarized as follows:

Republic has entered into a credit agreement with Manufacturers and Traders Trust Company of Buffalo, N. Y., under which the bank will loan to Republic $800,000 during the twelve months period beginning July 1, 1947, $200,000 of which will be loaned on July 1, 1947, and $600,000 thereafter as and when requested. The borrowings under this agreement will be evidenced by unsecured notes bearing interest at the rate of 2% per annum, maturing on or before twelve months from date of issue, and prepayable at any time without premium. Until all of said notes are paid declarant covenants not to pledge, mortgage or hypothecate any of its assets or borrow any other money without provision for the payment of said notes out of the proceeds of such other loan. Declarant is to pay quarterly a commitment fee of one-quarter of 1% per annum on the unused portion of said $800,000. The declaration states that the proposed bank loan is for the purpose of financing the immediate needs of the company until complete plans as to the construction requirements and a long-term financing program may be formulated.

The declaration states that the proposed transaction is not subject to the jurisdiction of any commission other than this Commission.

By the Commission.

CAPITAL TRANSPORTATION CO.

NOTICE OF FILING OF APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 5th day of June A. D. 1947.

Notice is hereby given that an application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Capital Transportation Company ("Capital"), a wholly owned nonutility subsidiary of Arkansas Power & Light Company, which in turn is a subsidiary of Electric Power & Light Corporation, a registered holding company. Applicant has designated section 6 (b) of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than June 16, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after June 16, 1947, said application as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application which is on file in the offices of this Commission for a statement of the transactions therein proposed which are summarized as follows:

Capital, a transportation company, located principally in the Cities of Little Rock and North Little Rock, Arkansas, proposes to borrow from banks amounts aggregating $700,000 which will be used for the purchase of 15 motor omnibuses and 29 trolley omnibuses. The loans are to be evidenced by notes dated not later than July 1, 1947, payable in 24 equal quarterly installments and bearing interest at the rate of 3½% per annum. Such notes are to be secured by a chattel mortgage which will be a lien upon 20 motor omnibuses now owned by the company, upon the 15 motor omnibuses to be acquired by the company during May 1947, and, as supplemented by one or more supplemental indentures, upon the 29 trolley omnibuses to be delivered in July 1947.

The indenture of chattel mortgage will be executed and delivered subsequent to the date of receipt of the 15 motor omnibuses but prior to the date of receipt of the 29 trolley omnibuses. Concurrently with the execution and delivery of the indenture of chattel mortgage approximately 35% of the aggregate principal amount of the loans will be made available to the company. The balance of 65% of the principal amount of the loans will be made available to the company as the 29 trolley omnibuses are acquired and subjected to the lien of the chattel mortgage by supplemental indenture.

The indenture of chattel mortgage provides, among other things, that the company will not, without the prior written consent of the holders of not less than a majority in principal amount of the notes outstanding, create any mortgage or other encumbrance upon its property, or declare or pay any dividends except out of earned surplus subsequent to December 31, 1946. The notes may be prepaid in whole or in part at any time without the payment of any premium.

The proposed transactions have been approved by the Arkansas Public Service Commission.

The applicant has requested that the Commission's order herein be issued as soon as may be practicable and become effective forthwith.

By the Commission.

COLUMBIA GAS & ELECTRIC CORP. AND CUMBERLAND AND ALLEGHENY GAS CO.

NOTICE REGARDING FILING OF APPLICATION-DECLARATION

At a regular session of the Securities and Exchange Commission, held at its

office in the City of Philadelphia, Pennsylvania, on the 5th day of June 1947.

Notice is hereby given that a joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Columbia Gas & Electric Corporation ("Columbia"), a registered holding company, and its wholly owned subsidiary, Cumberland and Allegheny Gas Company ("Cumberland"). Applicants-declarants have designated sections 6, 7, 9, 10 and 12 of the act and Rules U-42 and U-44 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than June 18, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues, if any, of fact or law raised by said application-declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after June 18, 1947, said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application-declaration which is on file in the office of this Commission for a statement of the transactions therein proposed which are summarized as follows:

(a) Cumberland will amend its Articles of Incorporation so as to (1) increase its authorized capital from $2,000,000 to $2,500,000; (2) increase and reclassify its authorized common stock from 20,000 shares without par value to 100,000 shares having a par value of $25 per share; and (3) reclassify its 20,000 shares of outstanding common stock without par value into 80,000 shares of common stock, $25 par value.

(b) Cumberland will issue and sell to Columbia 14,600 shares of new common stock at the par value thereof or $365,000 and $1,800,000 principal amount of 3¼% Installment Promissory Notes. The proceeds from the sale of such securities will be used by Cumberland, together with $1,864 of treasury funds, to retire its $366,864 principal amount of 6% demand notes and $1,800,000 principal amount of 7% First Mortgage Bonds, all held by Columbia.

(c) Cumberland will issue and sell to Columbia an additional $500,000 principal amount of 3¼% notes, the proceeds of which will be used by Cumberland for the purpose of financing its 1947 construction program.

The notes to be issued by Cumberland to Columbia are unsecured and non-negotiable. The principal amounts thereof are to be payable in equal annual installments on August 15 of each of the years 1950 to 1974, inclusive. Interest on the unpaid principal thereof is to be payable semi-annually on February 15 and August 15. The $500,000 principal amount of notes to be issued by Cumberland for construction purposes are to be issued at such time and in such amounts as funds are required in connection therewith but none of such notes will be issued and sold subsequent to December 31, 1947.

Applicants-declarants state that the Public Service Commission of West Virginia has assumed jurisdiction over the proposed transactions and that the order of approval of such commission will be supplied by amendment.

Applicants-declarants have requested that the order of the Commission granting and permitting the application-declaration to become effective with respect to transactions (a) and (b) above conform to the provisions of sections 371, 373 and 1808 (f) of the Internal Revenue Code and contain the terms and recitals provided for in said sections.

By the Commission.

ROBERT KUSTERMANN

In re: Estate of Robert Kustermann, deceased. File D-28-11792; E. T. sec. 15999.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Ferdinand Wessel, Karl Schulze, Richard Schulze and Irmgard Schulze, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the persons named in subparagraph 1 hereof in and to the Estate of Robert Kustermann, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

3. That such property is in the process of administration by Warren A. Ewell, as Administrator with the will Annexed, acting under the judicial supervision of the Superior Court of the State of California, in and for the County of San Diego;

and it is hereby determined:

4. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 27, 1947.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 24—FORMAL EDUCATION REQUIREMENTS FOR APPOINTMENT TO CERTAIN SCIENTIFIC, TECHNICAL, AND PROFESSIONAL POSITIONS

GEOLOGIST POSITIONS

Section 24.47 is hereby added to the regulations in this part.

§ 24.47 *Geologist positions involving highly complicated or fundamental scientific research or similar difficult scientific duties*—(a) *Educational requirement.* For geologist positions involving highly complicated or fundamental scientific research or similar difficult scientific duties certification may be restricted to those eligibles who show the successful completion of a four-year course leading to a bachelor's degree in a college or university of recognized standing, including or supplemented by 30 semester hours of geology.

(b) *Duties.* These positions requiring the successful completion of four years of college or university training in geology are characterized as follows:

Critical investigative work, requiring a sound knowledge of the fundamental laws, theories, principles, terminology and literature of geology and related sciences and having for its objective the discovery of new facts, the development of new theories or principles, or a new interpretation of known facts, leading to a revision of accepted theories and laws.

The application in new ways of known complex scientific laws and facts in the solution of difficult geologic problems.

The coordination, as a project leader, of a broad research program requiring the combined efforts of several specialists in different scientific fields. The leader of such a program must have an understanding of the scientific principles, procedures and potentialities of the scientific fields involved and the ability to coordinate the activities of the various specialists.

(c) *Knowledge and training requisite for performance of duties.* In the steady advance of scientific knowledge, geology has played a prominent role, and of necessity it must keep pace with the other sciences for it is concerned with the natural occurrence of the raw materials used in many of the other sciences and in a variety of industrial processes. New deposits of coal, oil, gas, the metallic ores, the rare earths, radioactive substances, and the other minerals of economic importance are all located, studied, mapped, and evaluated by geologists. No longer can we expect many valuable deposits to be stumbled upon by scientifically untrained prospectors. It is to the trained geologist, well versed in the principles, not only of geology, but also of the allied sciences, and using the latest knowledge, techniques and instruments, that we must turn for help in wresting from the earth the materials which lie hidden beneath her surface.

Geology is concerned with much more than the discovery and extraction of mineral wealth. A knowledge of its principles is vital to the successful building of dams, bridges, and other structures, and also to the protecting and conserving of our agricultural soil and our water supplies.

In addition, geology has the philosophical objective of adding to the sum of human knowledge by producing as complete a history of the earth as possible. This knowledge, contained in the geologic fields or stratigraphy, paleontology, petrology, structural geology, sedimentation, geomorphology, glaciology, and vulcanology, has been derived largely, and will continue to be derived largely, by geologists in government service, both state and Federal. The quality and quantity of results obtained through geologic research is commensurate with the knowledge and training of the men engaged. With the store of information accumulated not only in the various fields of geology but also in the related sciences growing steadily larger, it becomes more and more imperative that the professional geologist have the broad background of knowledge that can be acquired only through the successful completion of a large number of formal courses in geology.

Private industry engaged in geological work has long recognized the necessity for broadly trained men well rounded in the fundamentals of the science for filling professional positions. They are required to have education represented by at least the attainment of a bachelor's degree in geology. The Federal Govern-

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

PART 927—MILK IN NEW YORK METROPOLITAN MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937 (7 U. S. C., 601 et seq.), hereinafter referred to as the "act," and of the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area, hereinafter referred to as the "order," it is hereby found and determined that:

1. The entire table contained in § 927.5 (a) (1) of the order, with the exception of the words "Dollars per cwt." and the figure or price "4.58," does not tend to effectuate the declared policy of the act with respect to all milk subject to the provisions of the order during the month of July 1947; and

2. In accordance with the Administrative Procedure Act (Pub. Law 404, 79th Cong., 60 Stat. 237) notice of proposed rule making, public procedure thereon, and publication or service of this suspension order 30 days prior to its effective date hereby are found to be impracticable and contrary to the public interest in that it is imperative to issue this suspension order immediately so as to facilitate and promote the orderly marketing of milk produced in July 1947 for the New York metropolitan milk marketing area, and in that the time intervening between the date when the need for this action became apparent and the effective date hereof is insufficient to provide for public rule making procedure, prior notice thereof and publication or service of this order 30 days prior to its effective date.

It is therefore ordered, That the entire table contained in § 927.5 (a) (1) of the order, with the exception of the words "Dollars per cwt." and the figure or price "4.58," be and it hereby is suspended with respect to all milk subject to the provisions of the order during the month of July 1947. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.).

[Plum Order 9]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.310 *Plum Order 9*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR, Cum. Supp., 936.1 et seq.), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Gaviota plums, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 14, 1947, and ending at 12:01 a. m., P. s. t., October 11, 1947, no shipper shall ship:

(i) Any package or container of Gaviota plums containing plums which do not meet the requirements of U. S. No. 1 grade (as specified for such grade in the United States Standards for plums and prunes (fresh), 12 F. R. 2305), with a total tolerance of ten (10) percent for defects not considered serious damage, in addition to the usual tolerances permitted in said United States Standards; or

(ii) Any package or container of Gaviota plums containing plums of a size smaller than a size that will pack a 4 x 5 standard pack, as specified in the aforesaid United States Standards, in a standard basket, as specified in paragraph numbered 1 of section 828.1 of the Agricultural Code of California. The aforesaid 4 x 5 standard pack is defined more specifically in subparagraph (3) of this paragraph.

(2) During the period set forth in subparagraph (1) of this paragraph:

(i) The total quantity of Gaviota plums which a shipper may ship during any day, from any shipping point, shall meet the following additional conditions:

(a) Of said total quantity, not more than fifty (50) percent, by number of packages, shall be of a size that will pack a 4 x 5 standard pack, as aforesaid, in the aforesaid standard basket; and

(b) The remainder of such total quantity shall be of a size larger than a size that will pack a 4 x 5 standard pack, as aforesaid, in the aforesaid standard basket.

(ii) If any shipper, during any two (2) consecutive days, ships from any such shipping point less than the maximum allowable portion of such Gaviota plums that will pack a 4 x 5 standard pack, as aforesaid, the amount of such undershipment of such plums may be shipped only during the next succeeding calendar day, in addition to such Gaviota plums of such 4 x 5 size that the respective shipper could have shipped on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(3) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the total of such plums contained in any such pack measure not less than $1^{11}/_{16}$ inches in diameter, such diameter, as defined in the aforesaid United States Standards, being the shortest distance measured through the center of the plum at right angles to a straight line running from the stem to the blossom end; (ii) at least sixty (60) percent, by count, of the total of such plums contained in any such pack measure, as aforesaid, not less than $1^{10}/_{16}$ inches in diameter; and (iii) no

plums contained in any such pack measure, as aforesaid, less than $1\frac{7}{16}$ inches in diameter.

(4) Nothing contained in this section, shall be construed (i) as preventing a shipper from shipping Gaviota plums of a size larger than the size that will pack a 4 x 5 standard pack, as aforesaid, if said plums meet the grade requirements hereof; or (ii) as permitting the shipment of Gaviota plums of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, even if the plums do meet said grade requirements.

(5) Each shipper, prior to making each shipment of Gaviota plums, shall, during the period set forth in subparagraph (1) of this paragraph, have the plums included in each such shipment inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved; and each such shipper shall submit promptly, or cause to be submitted promptly, to the Plum Commodity Committee, Federal-State shipping point inspection certificates stating the grades and sizes of the Gaviota plums contained in each such lot or shipment: *Provided, however,* That, in case the following conditions exist in connection with any such shipment:

(i) A request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The fruit is available for inspection between the hours of 7:00 a. m. and 8:00 p. m. of the day specified in the request for such inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted, such signed statement to the Plum Commodity Committee, may make the particular shipment without such inspection, but such shipper shall still be held responsible for conforming with all grade and size regulations applicable to such shipment.

(6) The determination in § 936.301 with respect to shipments of plums into, in, or through the San Francisco-Sacramento region and the Los Angeles region shall be applicable to this section.

(7) The terms "shipper," "ship," "shipping," "shipping point," and "shipment," shall have the same meaning as when used in the amended marketing agreement and order. The term "serious damage" shall have the same meaning as set forth in the aforesaid United States Standards. (48 Stat. 31, as amended, 7 U. S. C. 601 et seq.; 7 CFR, Cum. Supp., 936.1 et seq.)

Chapter VIII—Office of Housing Expediter

[Suspension Order S-58]

PART 807—SUSPENSION ORDERS

ADRIAN BEVERAGES, INC.

Adrian Beverages, Inc., is a Michigan corporation, with principal place of business at 1345 East Church Street, Adrian, Michigan. The company is charged by the Office of the Housing Expediter with having violated Veterans' Housing Program Order 1 in that without authorization it began, subsequent to April 12, 1946, and thereafter carried on construction of a structure at the intersection of U. S. Highway 223 and Michigan Highway M-52, one mile south of Adrian, Michigan, for use in the manufacture of soft beverages, at a cost estimated to be in excess of $15,000. This violation has diverted critical materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.58 *Suspension Order No. S-58.* (a) Neither Adrian Beverages, Inc., its successors or assigns, nor any other person shall do any further construction on the structure referred to above, located at the intersection of U. S. Highway 223 and Michigan Highway M-52, including putting up, completing or altering the structure, unless hereafter specifically authorized by the Office of the Housing Expediter.

(b) Adrian Beverages, Inc., shall refer to this order in any application or appeal which it may file with the Office of the Housing Expediter for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Adrian Beverages, Inc., its successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 12th day of June 1947.

TITLE 32—NATIONAL DEFENSE

Chapter XXIII—War Assets Administration

[Reg. 2, Order 9]

PART 8302—DISPOSAL OF SURPLUS PERSONAL PROPERTY TO PRIORITY CLAIMANTS

NATIONAL AND REGIONAL VETERANS SET-ASIDE LISTS

War Assets Administration Regulation 2, Order 9, May 1, 1947, entitled "National and Regional Veterans Set-Aside Lists" (12 F. R. 3117), is hereby revised and amended as herein set forth.

Section 8302.4 (a) of this part provides that except as to the amounts of any property necessary for the temporary use of any disposal agency to carry out its responsibilities in disposing of surplus property under the Surplus Property Act of 1944, each disposal agency to which there is assigned for disposal any property of the types set forth by order issued thereunder shall set aside all, or such percentage of such property as is designated in such order. Accordingly, it is hereby ordered that:

§ 8302.59 *National and regional veterans set-aside lists.* Except as indicated the items listed in Exhibit A hereof shall constitute the National Veterans Set-Aside List and the items listed in Exhibit B hereof shall constitute the Regional Veterans Set-Aside List.

(Surplus Property Act of 1944, as amended (58 Stat. 765, as amended; 50 U. S. C. App. Sup. 1611); Public Law 181, 79th Congress (59 Stat. 533; 50 U. S. C. App. Sup. 1614a, 1614b); and Executive Order 9689 (11 F. R. 1265))

[1] 12 F. R. 1985.

This order shall become effective June 1, 1947.

Appendix—Public Land Orders

[Public Land Order 376]

NEVADA

REVOCATION OF EXECUTIVE ORDER 2495 OF NOVEMBER 24, 1916, WITHDRAWING CERTAIN PUBLIC LANDS FOR USE BY FOREST SERVICE AS RANGER STATION

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910, c. 421, 36 Stat. 847 (U. S. C. title 43, sec. 141), and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Executive Order No. 2495 of November 24, 1916, withdrawing the following-described public land in Nevada for use by the Forest Service, Department of Agriculture, as a ranger station in connection with the administration of the Toiyabe National Forest, is hereby revoked:

MT. DIABLE MERIDIAN

T. 15 N., R. 47 E.,
Sec. 36, SW¼SW¼.

The area described contains 40 acres.

This order shall not otherwise become effective to change the status of the land until 10:00 a. m. on the 63d day from the date on which it is signed. At that time the land shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to such application, petition, location, or selection as may be authorized by the public-land laws.

WARNER W. GARDNER,
Assistant Secretary of the Interior.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 21—INTERNATIONAL POSTAL SERVICE

RESTRICTED RESUMPTION OF MAIL SERVICE TO GERMANY

The regulations under the country "Germany" (39 CFR, Part 21, Subpart B, Service to Foreign Countries), as amended (12 F. R. 706, 1604, 3303), are further amended as follows:

Add a paragraph (l) to read as follows:

(l) (1) Effective at once, the restrictions now in force with respect to articles in the regular mails for Germany, except cigarettes and tobacco products, will no longer apply to articles directed to either of the following addresses:

French Group Control Council, Helligensee, French Sector, Berlin, Germany.

Soviet Military Administration in Germany, Karlshorst, Soviet Sector, Berlin, Germany.

(2) Except for cigarettes and tobacco products, all articles admitted in the regular mails to foreign countries generally, including transactional communications, may be sent by surface or air mail up to the normal weight limits to the foregoing addresses, which represent the headquarters of the occupying forces in the French and Soviet Zones of Germany. Mail addressed in care of those headquarters to individuals attached to them is likewise exempt from the restrictions mentioned.

(3) The address of the headquarters of the British Zone is as follows:

Control Commission for Germany (British Element), British Army of the Rhine, via New York, N. Y.

Mail for that address is subject to the same conditions as that for Great Britain, except that cigarettes and tobacco products may not be sent.

(4) The address of the headquarters of the United States Zone is as follows:

Office of Military Government for Germany (U. S.), A. P. O. 742, c/o Postmaster, New York, N. Y.

Mail for that address is subject to domestic rates and conditions applicable to mail for Army Post Offices generally. Cigarettes and tobacco products may not be sent.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 725]

BURLEY AND FLUE-CURED TOBACCO

ESTABLISHMENT OF TOBACCO FARM ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR 1948–49 MARKETING YEAR

Pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. and Sup. 1312, 1313), the Secretary of Agriculture is preparing to formulate regulations governing the establishment of farm acreage allotments and normal yields for marketing quotas to be in effect during the 1948–49 marketing year for flue-cured and Burley tobacco.

Growers of flue-cured and Burley tobacco voting in referenda held on July 12 and October 25, 1946, respectively, favored marketing quotas for the marketing years 1947–48 through 1949–50 by a percentage of 97.1 (11 F. R. 9732) in the case of flue-cured, and 95.9 (11 F. R. 14509) in the case of Burley tobacco.

The applicability of the regulations as issued with respect to each kind of tobacco will be contingent upon the proclamation of a national marketing quota by the Secretary.

Prior to the final adoption and issuance of these regulations, consideration will be given to any data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than June 30, 1947.

Issued at Washington, D. C., this 9th day of June 1947.

[SEAL] RALPH S. TRIGG,
Deputy Administrator.

FRESH PEAS AND CAULIFLOWER GROWN IN ALAMOSA, RIO GRANDE, CONEJOS, COSTILLA, AND SAGUACHE COUNTIES, COLO.

NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO BUDGET OF EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1947–48 FISCAL YEAR

Consideration is being given to the following proposals, submitted by the Administrative Committee, established under amended Marketing Agreement No. 67 and amended Order No. 10 (7 CFR, Cum. Supp., 910.1 et seq.), regulating the handling of fresh peas and cauliflower grown in the Counties of Alamosa, Rio Grande, Conejos, Costilla, and Saguache in the State of Colorado, as the agency to administer the terms and provisions thereof:

(a) That the Secretary of Agriculture find that expenses not to exceed $2,500 will be necessarily incurred during the fiscal year beginning June 1, 1947, and ending May 31, 1948, both dates inclusive, for the maintenance and functioning of the said Administrative Committee established under the aforesaid amended marketing agreement and order; and

(b) That the Secretary of Agriculture fix, as the share of such expenses which each handler shall pay in accordance with the aforesaid amended marketing agreement and order on fresh peas and cauliflower, respectively, shipped by such handler during the aforesaid fiscal year, the rate of assessment at (1) $1.25 per straight car of peas or cauliflower or per mixed car of peas and cauliflower, and (2) when less than a carload is shipped, one-half ($0.005) cent per bushel of peas or crate of cauliflower or the respective equivalent quantities thereof, but in no event shall the assessment be in excess of $1.25 on a shipment of peas or cauliflower less than a carload lot, or a mixed shipment thereof less than a carload lot.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall mail the same to the Hearing Clerk, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., not later than midnight of the 15th day after the publication of this notice in the FEDERAL REGISTER. All documents shall be submitted in quadruplicate.

As used herein, "handler" and "shipped" shall have the same meaning as is given to each such term in said amended marketing agreement and order.

(48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 7 CFR, Cum. Supp., 910.6)

Issued this 10th day of June 1947.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

[7 CFR, Part 965]

HANDLING OF MILK IN CINCINNATI, OHIO, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS THERETO WITH RESPECT TO PROPOSED AMENDMENTS TO THE ORDER

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders (7 CFR Supps., 900.1 et seq., 10 F. R. 11791, 11 F. R. 7737, 12 F. R. 1159) notice is hereby given of the filing with the Hearing Clerk of a recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to proposed amendments to the order, as amended, and to a proposed marketing agreement, regulating the handling of milk in the Cincinnati, Ohio, marketing area, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., postmarked not later than 5 days after the publication of this recommended decision in the FEDERAL REGISTER.

Preliminary statement. A public hearing, on the record of which the proposed amendments to the order, as amended, and the proposed marketing agreement were formulated, was called by the Production and Marketing Administration, United States Department of Agriculture, following receipt of proposed amendments filed by the K. I. O. Milk Producers Association, Inc., the Milk Producers' Union, Inc., and Cooperative Pure Milk Association. Additional proposals for consideration were submitted by the Avondale Dairy, et al. and the Dairy Branch, Production and Marketing Administration. The public hearing was held at Cincinnati, Ohio, March 3, 1947, upon notice issued on February 27, 1947 (12 F. R. 1397).

The principal issues developed at the hearing were concerned with the following:

(1) How and to what extent, if any, should the level of the price differential for Class I milk above the basic Class III milk price be changed;

(2) How and to what extent, if any, should the level of the price differential for Class II milk above the basic Class III milk price be changed;

(3) Establishing a lower price for Class III milk disposed of as butter; and

(4) Revising the manner of computing the value of milk for each handler so that the average price (blend of Class I, Class II, and Class III milk values) for any handler can never exceed the price for Class I milk.

Findings and conclusions. The proposed findings and conclusions with respect to the issues presented at the hearing, together with the reasons therefor, are as follows:

(1) The Class I price differential over the basic Class III price should be revised to provide a seasonal pattern, including floor prices, and an increase in the annual average level of the differential.

General economic conditions and business activity in the Cincinnati area indicate a continued good demand for milk and milk products.

The prices of livestock and grains have advanced sharply in 1947 and compared to declining milk prices offer returns from alternative farm enterprises which will tend to discourage milk production if these price relationships continue over an extended period of time.

Cincinnati handlers compete with milk buyers in other areas for supplies to be used for fluid milk purposes. Several condenseries also buy milk from farmers residing in or near the Cincinnati milkshed. The record is replete with references to the keen competition for milk between the Cincinnati and the Dayton-Springfield areas. The price relationship between these two areas shows historically that the Cincinnati price has been somewhat higher.

The Cincinnati basic or Class III price is derived from the prices paid dairy farmers by five named nearby Ohio, Indiana, and Kentucky condenseries and is different from the basic formula price used in a number of competing fluid milk markets. The basic formula price used in the Dayton-Springfield, Columbus, Tri-State and Louisville markets is derived from the prices paid dairy farmers by eighteen named Wisconsin and Michigan condenseries. On a hundredweight basis for milk containing 3.5 percent butterfat the Cincinnati basic price averaged 22 cents lower for 1945 and 19 cents lower for 1946 than the basic price used in the above-named markets. Thus after giving consideration to other price making factors found in varying degrees in this group of neighboring markets the Cincinnati Class I differential must be about 20 cents per hundredweight above the others to be a comparable basis and keep the resulting Class I prices in line.

More rigid enforcement of the Cincinnati Health Department regulations has resulted in producers having to use costly mechanical milk refrigerators. The regulations requiring farmers to deliver cold milk have come about over a period of years. Handlers originally offered premiums for milk of special quality which was usually produced under mechanical refrigeration. About the time of the war emergency the health department announced that it would require all milk to be delivered to Cincinnati fluid milk market at or below a temperature of 60 degrees. This requirement was not enforced because mechanical refrigerators were unobtainable and the effective date requiring cold milk has been extended from time to time. The record indicates that as of May 1, 1947, the requirement would be enforced. Handlers and producer associations have procured great numbers of refrigerators for their producers and will continue until all producers are so equipped. The premium paid for mechanically cooled milk has gradually declined over several years to a level of approximately 10 cents per hundredweight. It would appear that this amount has been the minimum incentive necessary to induce producers to incur the added cost of cooling milk mechanically up to the time they were required to do so by health department regulations.

The trend of the cost of feeds, labor, and supplies incurred by farmers in the production of milk has been upward during 1946 and 1947. The price of some feeds decreased somewhat from the peak reached when ceilings were removed in 1946 until February 1947. During February and March of 1947 the price of dairy feeds advanced sharply and established a new upward trend. Attempting to find an index that will reflect many milk price-making factors, the order provides for a basic Class III price which is the price paid for manufacturing milk by a selected group of condenseries in the Cincinnati territory. The basic Class III price does not, however, reflect fully all the factors necessary to arrive at a price for Class I milk. The order, therefore, provides a differential that is added to the basic Class III price to arrive at the Class I price. This differential is utilized to reflect various price-making factors not fully covered by the basic Class III price and to balance the relative weights of such factors under current local economic conditions, so that the Class I price will be at a level which will reflect, in addition to the price and availability of feeds, other economic conditions which affect market supply and demand for milk in the marketing area and will insure an adequate supply of pure and wholesome milk and be in the public interest. Farmers producing milk for fluid purposes must use feed, labor and supplies more extensively to maintain production at a more uniform and high level than is required of manufacturing milk producers. Consequently, the increases in

the prices which have taken place in these items affect the fluid milk producers more than producers of milk for condenseries. The trend of basic Class III price is downward and has decreased 54 cents from November 1946, to January 1947, the last price quoted in the record.

The level of production of regular producer milk has been insufficient to meet the needs of Class I milk and Class II milk in the Cincinnati market. It has been necessary for handlers to supplement their supplies of producer milk in Class I and Class II with substantial quantities of milk from other sources usually of a lower quality standard than producer milk.

Furthermore, there has been a maladjustment in the supply of regular producer milk in relation to the demand for Class I milk and Class II milk in the Cincinnati market. The utilization of Class I milk and Class II milk has been relatively uniform throughout the year; whereas the receipts of milk from producers varies among the seasons of the year. The variation in the receipts of producer milk between the flush production season and the short production season has become progressively wider for several years. Production varies seasonally to such an extent that in 1946 the production for November was only 57 percent of that for June. The cost of producing milk is considerably higher during the fall and winter months than during the months of April, May, June and July. Recent price plans employed in the Cincinnati area have not provided as great a seasonal variation in producer prices as was customary prior to the maximum price regulations effective during the war emergency. For this period of time farmers were urged to produce all the milk possible with little regard to the season or the requirements of their local fluid milk market. Under these conditions, maximum milk production shifted to the spring months when production costs were at their lowest level. To halt and reverse this trend, especially at a time when general milk market conditions are unsettled, will require a guarantee that the fall and winter prices are to be substantially higher than spring prices. Absolute floor prices for the 1947–48 season in conjunction with a Class I price differential employing a seasonal pattern, from a long time standpoint, will give this assurance. If the basic Class III formula produces a higher price for these fall and winter months, it should prevail as a further guarantee that the Class I price will be more in line with the then current marketing conditions. The record indicates the need of a seasonal Class I price differential which would be 30 cents more for the eight months of August through March than for the four months of April through July. Normally, the basic Class III price is about 20 to 40 cents higher for the months of short production. Also normally, the percentage utilization of producer milk for fluid purposes is higher during the fall and winter months, resulting in about a 10 to 20 cent higher blend price compared to the flush production season. Adding these three factors together, it is estimated that the blend price for the short production months, will exceed that for the flush production months by about 60 to 90 cents.

Handlers contend that the present class price differentials should be lowered, but because of the uncertainties in the market conclude no changes should be made in the class prices for milk at the present time. These very uncertainties in market conditions are the best argument for changing the price making pattern to one calculated to stabilize the fluid milk market as much as possible during the postwar realignment of dairy prices and other commodity prices. Aside from this the other heretofore mentioned price-making factors warrant a revision of the pricing plan.

It is concluded that the weighing of the above-mentioned price-making factors indicate the need for revising the level of the Class I price differential upward about 10 cents per hundredweight on an annual average. It is further concluded that the milk producers of the Cincinnati area need at this time, when they are planning their fall and winter production program, more definite assurance as to the level of milk prices than is presently afforded by the basic Class III price. In order to obviate uncertainty inherent in the basic Class III price during abnormal postwar marketing conditions, a floor price for Class I milk is established below which the price will not be permitted to go. The level of floor prices for the fall and winter months should be substantially higher than the prices prevailing during May and June to emphasize the seasonal factor of milk pricing and assure farmers of higher prices during the seasons when an increase in milk production is most needed by the market. A Class I floor price beginning July 1, 1947, of $4.80 and increasing to $5.24 beginning September 1, 1947 (approximately 1 cent per quart below December 1946) will recognize this seasonality and result in prices well above the current level of May and June prices. These changes are accomplished by revising the present year-around Class I price differential of $1.15, over the basic Class III price, to the seasonal pattern of $1.05 for the four months of April through July and $1.35 for the eight months of August through March (annual average $1.25): *Provided*, That for the months of July and August 1947 the price for Class I milk shall not be less than $4.80 and for the months of September, October, November, and December 1947 and January, February, March 1948 such price shall not be less than $5.24.

(2) The Class II milk price differential over the basic Class III price should be revised to provide a seasonal price pattern, including floor prices, and an increase in the annual average level of the differential. The relationship between the present Class I and Class II differentials should be maintained month by month in the revised seasonal class pattern and in the floor prices.

The material factors with reference to revising the Class II price differential over the basic formula price to a seasonal pattern and a higher annual average level and the floor prices are the same as those set forth with respect to Class I.

(3) A lower price for Class III milk disposed of as butter should not be established at this time.

During the heavy production months some milk received in excess of Class I and Class II requirements is disposed of as butter (Class III) by some handlers. When milk is disposed of as butter, the skim milk is normally processed into a by-product. All handlers are not equipped to process condensed skim milk. Some handlers contend that the Class III price is too high for milk disposed of as butter unless the skim milk is salvaged. Handlers not equipped to process skim milk normally sell it to handlers so equipped. The record shows that sufficient sugar would be unavailable for handlers to process the anticipated amount of skim milk during the flush production season of 1947 unless the rationing plan was revised to make more sugar available for condensing milk.

The evidence introduced in support of this proposal was premised primarily on a reasonable price for milk made into butter without making an allowance for the value of the skim milk. The evidence fails to show a basis for lowering the price of Class III milk when made into butter and sugar is available for the manufacture of condensed skim milk or other manufacturing outlets for skim milk are available. The testimony offered in support of this proposal indicated that any lower price for Class III milk made into butter should apply only for the months of April, May, and June. Inasmuch as an amendment to the order cannot be made effective for such period in 1947 and the record fails to show sufficiently that such conditions may be anticipated in the future, and for the other foregoing reasons it is concluded that a lower price for Class III milk disposed of as butter should not be established at this time.

(4) The manner of computing the value of milk for each handler should not be changed at this time.

A proposal was made to revise the manner of computing the value of milk for each handler so that the average price (blend of Class I, Class II, and Class III milk values) for any handler can never exceed the price for Class I milk.

While on its face this proposal might seem reasonable it completely overlooks the fact that the method of computing the value of milk for a handler was adopted, on the basis of prior hearing records, so that under certain conditions the composite price will exceed the Class I price. The proposal ignores the fact that under the present plan of classification a handler's composite price would normally exceed the Class I price when—(a) most of the butterfat used in the lower classes is so called "differential fat," (b) considerable milk from undisclosed sources is used to replace producer milk, (c) there is a decided "overrun" (sales exceed purchases) or (d) sizeable upward classification changes are made through audit corrections. This proposal could not be adopted without disrupting or nullifying the particular method of classifying milk and computing prices employed by the Cincinnati order unless a complete revision of the plan is made. The record is inadequate for this purpose and for this reason it is concluded that no revision should be made in the manner of computing the value of milk for a handler.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of the Producer Associations and various handlers subject to Order No. 65. The briefs contained statements of fact, conclusions, and arguments with respect to nearly all of the proposals discussed at the hearing. Every point covered in the briefs was carefully considered, along with the evidence in the record, in making the findings and reaching the conclusions hereinbefore set forth. Although the briefs do not contain specific requests to make proposed findings, it is assumed that the arguments and conclusions submitted were for this purpose and are treated accordingly. To the extent that such proposed findings and conclusions are inconsistent with the proposed findings and conclusions contained herein, the implied request to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions in this recommended decision.

Recommended marketing agreement and amendments to the order. The following amendments to the order, as amended, are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this recommended decision because the regulatory provisions thereof would be the same as those contained in the order, as amended, and as proposed here to be further amended.

1. Delete § 965.6 (a) (1) and substitute therefor the following:

(1) The price for Class I milk shall be the price for Class III milk plus $1.05 for the delivery periods of April through July and $1.35 for the delivery periods of August through March; *Provided*, That for the delivery periods of July and August 1947, the price for Class I milk shall not be less than $4.80 and that for the delivery periods of September, October, November and December 1947 and January, February and March 1948 such price shall not be less than $5.24.

2. Delete § 965.6 (a) (2) and substitute the following:

(2) The price for Class II milk shall be the price for Class III milk plus $0.60 for the delivery periods of April through July and $0.90 for the delivery periods of August through March; *Provided*, That for the delivery of July and August 1947, the price for Class II milk shall not be less than $4.35 and that for the delivery periods of September, October, November and December 1947 and January, February and March 1948, such price shall not be less than $4.79.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR, Part 239]

FORMS FOR REGISTRATION STATEMENTS

NOTICE OF PROPOSED REVISION

Notice is hereby given that the Securities and Exchange Commission has under consideration the following proposals for action pursuant to the Securities Act of 1933, particularly sections 6, 7, 8, 10 and 19 (a) thereof:

I. A proposal for the revision of Form S–2 (17 CFR 239.12). At the present time, Form S–2 is available for use by commercial or industrial companies having a simple corporate history and financial structure, whether established or still in the stage of development. In view of the recent revision and simplification of Form S–1 (17 CFR 239.11) it is felt that it is no longer necessary to authorize the use of Form S–2 for established companies. Accordingly, it is proposed to revise and simplify Form S–2 for use only by new companies and those still in the development stage.

Persons desiring to comment on the proposed revision of Form S–2 may obtain copies thereof from the principal office of the Commission at the address given below.

II. A proposal for the rescission of Form S–12 (17 CFR 239.19). The requirements of Forms S–2 and S–12 presently overlap to a considerable extent. With the revision and simplification of Form S–2, as proposed above, Form S–12 would no longer serve any useful purpose.

III. A proposal for the rescission of Form C–1 (17 CFR 239.3). This form, which is prescribed for unincorporated investment trusts of the fixed or restricted management type, has become obsolete through the adoption of later forms for securities of such trusts.

All interested persons are invited to submit data, views and comments on the above mentioned proposals in writing to the Securities and Exchange Commission at its principal office, 18th and Locust Streets, Philadelphia 3, Pennsylvania, on or before July 10, 1947.

By the Commission.

Secretary.

NOTICES

CIVIL AERONAUTICS BOARD

[Dockets Nos. 156, 289]

LA MOTTE T. COHU ET AL.

NOTICE OF HEARING

In the matter of the applications of La Motte T. Cohu and Transcontinental & Western Air, Inc., under section 409 (a) of the Civil Aeronautics Act of 1938, as amended, for approval of the interlocking relationships of La Motte T. Cohu as an officer and director of Transcontinental & Western Air, Inc., and a director of Northrop Aircraft, Inc.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 409 and 1001 of the said act, that a hearing in the above-entitled matter is assigned to be held on June 18, 1947, at 10:00 a. m. (eastern daylight saving time) in the Foyer of the Auditorium, Commerce Building, 14th Street and Constitution Avenue, N. W., Washington, D. C., before Examiner James S. Keith.

Without limiting the scope of the issues presented by said applications, particular attention will be directed to the following matters and questions:

1. Whether the public interest will be adversely affected by the continuance of interlocking relationships existing by reason of La Motte T. Cohu holding positions of director of TWA and director of Northrop, and whether order Serial No. 403 dated February 21, 1940, approving such relationships should be revoked.

2. Whether there are any other interlocking relationships subject to section 409 (a) of the act with respect to La Motte T. Cohu, TWA and Northrop and whether such relationships, if any, should be approved.

Notice is further given that any person desiring to be heard in this proceeding must file with the Board on or before June 18, 1947, a statement setting forth the issues of fact or law raised by said applications which he desires to controvert.

For further details concerning the applications, interested parties are referred to Dockets 156 and 289, on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D. C., June 10, 1947.

Ewes	15.00	30.00
Bucks	15.00	30.00
Hogs	15.00	30.00

SECTION 8—BOARDING AND STABLING CHARGES

	Per month	Per month
Draft horses	$25.00	$30.00
Saddle horses	25.00	30.00
If owners call for and deliver saddle horses at company barn	25.00	30.00
	Each	*Each*
Single feeds	$0.35	$0.50

Above charges include feeding of grain and hay, watering, bedding, cleaning, saddling and or harnessing. Milch cows and saddle horses of other horses kept in cattle, sheep and or hog yards and not in regular movement through market:

Per day	$0.25
Per month	5.00

The effect of such proposed modification, if granted, would be to increase the revenues of respondent, and, accordingly, it appears that public notice should be given to all interested persons of the request of respondent so as to afford all interested persons, including patrons of respondent, an opportunity to be heard on the matter.

Therefore, notice is hereby given to the public and to all interested persons of the filing of such petition.

All interested persons who desire to be heard upon the matter shall notify the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within 15 days from the date of the publication of this notice.

Copies hereof shall be served on the respondent by registered mail or in person.

TERMS AND CONDITIONS OF EMPLOYMENT IN MINING INDUSTRY

AMENDMENT TO ORDER APPOINTING SPECIAL BOARD TO CONSIDER APPLICATIONS FOR APPROVAL OF CHANGES

The order of the Secretary of Labor dated May 10, 1947 (12 F. BITUMINOUS COAL INDUSTRY

APPROVAL OF CHANGES IN TERMS AND CONDITIONS OF EMPLOYMENT

On May 16, 1947, the Coal Mines Administrator filed an application with the Secretary of Labor requesting the approval by a Special Board, to be appointed by him under the authority of Executive Order 9809, of changes in terms and conditions of employment affecting employees at the mines and facilities which were taken by the Secretary of the Interior, under authority of Executive Orders 9728 and 9758. The changes, approval of which was applied for under the provisions of the War Labor Disputes Act, were set forth in the letter of application dated May 16, 1947, which was approved by the Secretary of the Interior and Welly V. Hopkins, General Counsel, United Mine Workers of America. By an order dated May 10, 1947 (12 F. R. 3253), issued pursuant to the authority vested in him by Executive Order 9809, the Secretary of Labor appointed the undersigned as a Special Board to receive and act upon certain applications in accordance with the provisions of section 5 of the War Labor Disputes Act. By an order dated May 16, 1947 (*supra*), the Secretary of Labor amended the said order of May 10, 1947, to authorize the Special Board appointed in that order to receive and act upon any further applications concerning the question of vacation payments due to miners during the annual 1946-1947 period as to mines presently in Government possession.

Under the authority conferred by section 5 of the War Labor Disputes Act, Executive Order 9809, and the aforesaid orders of the Secretary of Labor dated May 10, 1947 and May 16, 1947, respectively, the undersigned Special Board, having made such investigation as it deems necessary and desirable, and having found that the changes in terms and conditions of employment, as applied for, are fair and reasonable within the meaning of section 5 of that act and are not in conflict with any act of Congress or any Executive order issued thereunder, with respect to employees at the mines and facilities taken by the Secretary of the Interior under the authority of Executive Orders 9728 and 9758, and whose terms and conditions of employment are affected by the orders of the National Wage Stabilization Board issued under the authority of section 5 of the War Labor Disputes Act and approved by the President on May 31, 1946 and July 31, 1946, respectively, hereby orders:

1. That it approves all changes in terms and conditions of employment with respect to such employees set forth in the letter of the Coal Mines Administrator to the Secretary of Labor, dated May 16, 1947, attached to this order and made a part hereof.

2. That this order shall become effective upon its approval by the President.

Approved: May 17, 1947.

HARRY S. TRUMAN,
The White House.

MY DEAR MR. SECRETARY: Section 7 of the Agreement of May 29, 1946, between the Coal Mines Administrator and the United Mine Workers of America recognized that an annual vacation period is the rule of the bituminous coal industry, and provided for vacation pay based on the qualifying period of June 1, 1945 to May 31, 1946, under the terms and conditions set forth therein. Certain bituminous coal mines have now been in the possession of the United States approximately one year since the end of the last vacation qualifying period for which payments were made.

The traditional vacation qualifying period has nearly expired, and services performed during that period were performed during the period of Government possession. It is therefore proposed that, in the absence of any agreement between the private operators of the mines and the Union with respect to vacation payments for 1947, the Coal Mines Administrator shall issue an order to the operating manager for the United States of each mine in Government possession pursuant to Executive Orders Nos. 9728 and 9758 directing vacation payments to be made to qualified employees in accordance with Section 7 of the Agreement of May 29, 1946.

Previous contracts between the operators and the Union, as well as the Agreement of May 29, 1946, provided for a vacation period of ten days beginning on the last Saturday in June during which time coal production was to cease. Since the authority and powers of the Coal Mines Administrator will expire by the terms of the War Labor Disputes Act on June 30, 1947, it does not seem appropriate to designate specifically the vacation period, but it is believed that the vacation period should commence on June 28, 1947, and that the vacation payment should be made on the last pay day in June but in no event later than June 27, 1947.

Accordingly, pursuant to section 5 of the War Labor Disputes Act and the administrative procedures contemplated by Executive Order No. 9809, I hereby submit for approval by a special Board in lieu of the National Wage Stabilization Board the following proposal relative to vacation pay:

The terms and provisions of section 7 of the Agreement of May 29, 1946, relating to vacation payments shall apply in all respects to a vacation qualifying period of June 1, 1946, to May 31, 1947, subject to the following:

(a) Vacation payments shall be made on the last pay day occurring in the month of June 1947, but not later than June 27, 1947.

(b) The vacation period for 1947 shall begin on June 28, 1947. Since the authority of the Coal Mines Administrator to operate the bituminous coal mines now in Government possession will expire on June 30, 1947, no provision is made for any vacation period beyond June 30, 1947.

(c) In the event that a contract is concluded prior to June 27, 1947, between any private operator or operators and the United Mine Workers of America which provides for or deals with any vacation payment based on the qualifying period of June 1, 1946, to May 31, 1947, the Coal Mines Administrator will revoke any order directing the payment of vacation pay for that period and affecting the operator or operators that may be parties to such contract.

Inasmuch as it is necessary for each operating manager to prepare certain pay roll data in advance of the actual vacation payment, it is desirable that an order be issued on or about June 1, 1947. Accordingly, it will be appreciated if this application is processed expeditiously.

Very truly yours,

N. H. COLLISON,
Coal Mines Administrator.

APPROVAL OF TERMS AND CONDITIONS OF EMPLOYMENT OF SUPERVISORY EMPLOYEES

On April 24, 1947, and May 2, 1947, the Secretary of the Interior filed applications with the Secretary of Labor requesting the appointment of a special board, pursuant to the provisions of Executive Order No. 9809 to approve changes in terms and conditons of employment affecting supervisors and maintenance employees at the mines and facilities named above which were taken by the Secretary of the Interior on May 22, 1946 (12 F. R. 3488, 3490, 3491, 3493), under authority of Executive Order No. 9728. The changes, approval of which was applied for under the provisions of the War Labor Disputes Act, were embodied in four separate agreements accompanying those applications signed by the Coal Mines Administrator and the United Clerical, Technical and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, and were approved by the Secretary of the Interior and the United Mine Workers of America. Each of these agreements was dated April 26, 1947, excepting the agreement relating to terms and conditions of employment at the Francis & Berry Mines of Ford Collieries Company, Detroit, Michigan, which was dated April 7, 1947.

By an order dated May 10, 1947 (12 F. R. 3253), issued pursuant to the authority vested in him by Executive Order No. 9809, the Secretary of Labor appointed the undersigned as a Special Board to receive and act upon the applications in accordance with sections of the War Labor Disputes Act.

Under the authority conferred by section 5 of the War Labor Disputes Act, Executive Order No. 9809 and the order of the Secretary of Labor dated May 10, 1947, the undersigned Special Board, having made such investigation as it deems necessary and desirable and having found that the changes in terms and conditions of employment as applied for are fair and reasonable within the meaning of section 5 of that act and are not in conflict with any act of Congress or any Executive order issued thereunder, with respect to supervisory and maintenance employees at the mines and facilities at the places referred to in the heading hereof, hereby orders:

1. That it approves all changes in terms and conditions of employment of supervisors and maintenance employees at the mines and facilities referred to in the heading hereof which are embodied and provided for in the agreements, dated April 7, 1947 and April 26, 1947, respectively, referred to in the preamble to this order.

2. That this order shall become effective upon its approval by the President. Upon such approval, all changes in terms and conditions of employment embodied and provided for in the agreements referred to in the preamble hereto shall be deemed effective as of the several dates which those agreements provide shall be their respective effective dates.

Dated: May 16, 1947.

AGREEMENT

This agreement between the Coal Mines Administrator under the authority of Executive Order 9728 (dated May 21, 1946, 11 F. R. 5593) and pursuant to the provision of section 11 of the Krug-Lewis Agreement of May 29, 1946, and the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, (hereinafter referred to as the Union) covers for the period of Government possession the terms and conditions of employment with respect to the Francis and Berry Mines of the Ford Colleries Company, Detroit, Michigan.

The term "supervisory employees," as used in this agreement, means only those supervisors of production and maintenance employees of the Francis and Berry Mines of the Ford Colleries Company, as defined and described in the Certification of Representatives and Order of the National Labor Relations Board, dated October 15, 1946, in Case No. 6-R-1213.

1. *Existing terms and conditions of employment preserved.* Except as amended and supplemented herein, this agreement carries forward and preserves the terms and conditions of employment for supervisory employees as they existed on May 22, 1946.

2. *Union recognition.* With respect to recognition of the Union as the sole and exclusive agency and representative of the supervisory employees, the Coal Mines Administrator will be guided by the decisions and procedures laid down by the National Labor Relations Board.

3. *Check off.* The Coal Mines Administrator will direct the operating manager that the Union dues of supervisory employees who are members of the Union, not exceeding Two Dollars ($2.00) per month, shall be checked off the wages of such supervisory employees (subject to the individual consent of such employees, the continuance of said consent being at the option of such employees but the option being exercisable only on one month's written notice to the management and the International Union) at a rate not to exceed One Dollar ($1.00) per pay

period and shall be remitted to the Secretary-Treasurer of the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, not later than the first and sixteenth of each month and that no other assessments shall be so checked off except upon the written authorization of the International Executive Board of the United Mine Workers of America.

The Coal Mines Administrator will direct the operating manager that initiation fees of the Union, in sums not to exceed One Dollar ($1.00) per supervisory employee Union member in any one pay period, shall (subject to the individual consent of the supervisory employee) be deducted and remitted to the financial secretary of the local Union, in the same manner and subject to the same conditions as dues deductions. Under no circumstances shall the total initiation fee for any one man exceed Ten Dollars ($10.00).

4. *Discrimination and coercion.* The Coal Mines Administrator will use his good offices to the end that there shall be no discrimination, interference, restraint, or coercion directed by management or any of its agents against any supervisory employees because of Union membership or appropriate Union activities.

5. *Vacations.* Practice, as of the date of execution of this agreement, with respect to vacation pay of supervisory employees shall be continued in effect, except as such practice may be changed in accordance with section 17 of this agreement.

In accordance with and to the extent consistent with existing practice, vacations will, so far as practical, be granted at times most desired by the supervisory employees. *Provided*, That it does not interfere with the orderly operation of the mine.

6. *Seniority.* In accordance with and to the extent consistent with the practice now followed at each mine specified above, in all cases of promotion, demotion, increase or decrease of force, or lay-off, length of service and ability to perform the work shall be the determining factors.

Seniority shall be applied separately at each mine specified above.

Any supervisory employee, who (a) voluntarily leaves his employment, (b) fails to return to work without just cause within seven (7) days after notice to do so, or (c) is discharged for just cause, shall lose his seniority rights.

7. *Changes in classification of work.* In accordance with and to the extent consistent with existing practice, when a supervisory employee is required to fill the place of another employee receiving a higher rate of pay, he shall receive the higher rate of pay. Under no circumstances shall he receive a reduction in pay, when required temporarily to fill another job.

8. *Safety and health.* The Coal Mines Administrator will direct the operating manager to continue to make reasonable provisions for the safety and health of its supervisory employees and to operate the mines specified above in accordance with applicable mining laws of the state, the Federal Mine Safety Code, and other applicable safety rules.

9. *Supervisors' Mine Committee.* A Supervisors' Mine Committee of three (3) members at each mine specified above shall be selected by the Union. Only supervisory employees may be members of this Committee and each member shall be eligible to serve as such only so long as he continues to be a supervisory employee. The functions of the Supervisors' Mine Committee are as described in section 10 of this agreement.

10. *Settlement of disputes.* Should differences arise between the supervisory employees and the employer as to the meaning and application of the provisions of this agreement (including section 1 hereof), there shall be no suspension of or interference with work on account of such differences but an earnest effort shall be made to settle such differences immediately:

FIRST: Between the aggrieved party and a representative of the Coal Mines Administrator.

SECOND: Through the Supervisors' Mine Committee and a representative of the Coal Mines Administrator.

THIRD: Through a representative of the Union and a representative of the Coal Mines Administrator.

FOURTH: By a board consisting of four members, two of whom shall be designated by the Union and two by a representative of the Coal Mines Administrator.

Should the board fail to agree, the matter shall be referred to an arbitrator selected by the board. Should the board be unable to agree upon the selection of an arbitrator, he shall be designated by the International President of the Union and the Coal Mines Administrator or his representative.

In case either party shall request it prior to agreement upon a single arbitrator, a three man board of arbitration rather than a single arbitrator shall be constituted. This board shall consist of a chairman who shall be agreed upon in exactly the same manner as the single arbitrator above provided for, a representative chosen by the Union, and a representative chosen by the Coal Mines Administrator.

The arbitrator or the board of arbitration shall render in writing a decision which shall be final and conclusively binding upon the parties.

In the event that either party has requested arbitration by a three man board, the majority decision of such a board or, if a majority decision cannot be reached, the decision of the chairman shall be final and conclusively binding upon the parties.

11. *Discharge cases.* When a supervisory employee has been discharged from his employment and he believes that he has been unjustly dealt with, it shall be a case arising under the method of settling disputes provided in section 10 of this agreement. If, in any discharge case, it should be decided that an injustice has been dealt the supervisory employee, he shall be reinstated with or without back pay, in whole or in part, provided, however, that any such case shall be taken up and disposed of within five (5) days from the date of discharge or as soon thereafter as possible.

12. *Wages.* Practice, as of the date of execution of this agreement, with respect to wages and hours of supervisory employees shall be continued in effect, except as such practice may be changed in accordance with section 17 of this agreement.

13. *Legal rights preserved.* (a) This agreement, directions of the Coal Mines Administrator hereunder, or compliance therewith by the management, shall in no sense be viewed as a waiver by the affected coal company or the Union of such rights as may be possessed by them including the right to a final judicial determination of the rights of supervisors under the National Labor Relations Act.

(b) The Union agrees that, in accordance with the procedure of the National Labor Relations Board, it will file as soon as practicable (but in no event later than 10 days after it receives a written notice from the Coal Mines Administrator to do so) a charge of refusal to bargain against Ford Collieries Company to the end that that company may have an opportunity to obtain a final judicial determination of the rights of supervisors at its mines under the National Labor Relations Act.

14. *Responsibilities of supervisory employees to management.* Supervisory employees shall at all times conduct themselves in a manner wholly consistent with the proper performance of the duties assigned to them. They shall not engage in any conduct which would directly or indirectly impair the lawful position of management in its relationship to any person or persons whose work is directed by management or any union which may represent such person or persons. The Union will use its best efforts to assure that the provisions of this section of the agreement are observed by the supervisory employees.

15. *Safety laws.* Nothing in this agreement shall be construed to modify existing obligations of the supervisory employees to conform to the requirements of applicable state or Federal safety laws or rules.

16. *Changes in law.* In the event that legislation, ultimate court decision, or action of the National Labor Relations Board nullifies or reverses the ruling of said Board in Case No. 6–R–1213, the Coal Mines Administrator reserves the right, on such notice as he may deem appropriate, to terminate this agreement. The Union reserves the same right.

In the event that legislation, ultimate court decision, or action of the National Labor Relations Board modifies the ruling of said Board in Case No. 6–R–1213, the Coal Mines Administrator and the Union agree that further discussion shall be had looking toward appropriate modification of this agreement. In the event that such modification is not agreed upon within what he may deem to be a reasonable time, the Coal Mines Administrator reserves the right to terminate this agreement on such notice as he may deem appropriate. The Union reserves the same right.

17. *General change in hours or wages or other monetary considerations of employment.* The parties to this agreement agree to meet in the city of Washington, D. C. within ten days of the date of execution of any agreement effecting a general change in the hours or wages or other monetary considerations of employment or rank and file employees in the mines specified above, for the purpose of negotiating a general change in the hours or wages or other monetary considerations of employment of supervisory employees.

Any change in the hours or wages or other monetary considerations of employment of supervisory employees, which is negotiated in accordance with the provisions of this section shall be effective as of the effective date of the general change in the hours or wages or other monetary considerations of employment of rank and file employees which it is designed to accompany.

18. *Effective date.* This agreement is effective as of April 7th, 1947, subject to the approval of appropriate Government agencies.

Signed at Washington, D. C., on the 7th day of April 1947.

N. H. COLLISON,
Coal Mines Administrator.

AGREEMENT

This agreement between the Coal Mines Administrator under the authority of Executive Order No. 9728 (dated May 21, 1946, 11 F. R. 5593) and pursuant to the provisions of section 11 of the Krug-Lewis Agreement of May 29, 1946, and the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America (hereinafter referred to as the Union), covers for the period of Government possession the terms and conditions of employment with respect to the Nemacolin Mine of the Buckeye Coal Company, Youngstown, Ohio.

The term "supervisory employees," as used in this agreement, means only those supervisors of production and maintenance employees of the Nemacolin Mine of the Buckeye Coal Company, as defined and described in the Certification of Representatives and order of the National Labor Relations Board, dated January 9, 1947, in Case No. 6–R–1496.

1. *Existing terms and conditions of employment preserved.* Except as amended and supplemented herein, this agreement carries forward and preserves the terms and conditions of employment for supervisory employees as they existed on May 22, 1946.

2. *Union recognition.* With respect to recognition of the Union as the sole and exclusive agency and representative of the supervisory employees, the Coal Mines Administrator will be guided by the decisions and procedure laid down by the National Labor Relations Board.

3. *Check-off.* The Coal Mines Administrator will direct the Operating Manager that the Union dues of supervisory employees who are members of the Union, not exceeding Two Dollars ($2.00) per month, shall be checked off the wages of such supervisory employees (subject to the individual consent of such employees, the continuance of said consent being at the option of such employees but the option being exercisable only on one month's written notice to the management and the International Union) at a rate not to exceed One Dollar ($1.00) per pay period and shall be remitted to the Secretary-Treasurer of the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, not later than the first and sixteenth of each month and that no other assessments shall be so checked off except upon the written authorization of the International Executive Board of the United Mine Workers of America.

The Coal Mines Administrator will direct the operating manager that initiation fees of the Union, in sums not to exceed One Dollar ($1.00) per supervisory employee Union member in any one pay period, shall (subject to the individual consent of the supervisory employee) be deducted and remitted to the financial secretary of the Local Union, in the same manner and subject to the same conditions as dues deductions. Under no circumstances shall the total initiation fees for any one man exceed Ten Dollars ($10.00).

4. *Discrimination and coercion.* The Coal Mines Administrator will use his good offices to the end that there shall be no discrimination, interference, restraint, or coercion directed by management or any of its agents against any supervisory employee because of Union membership or appropriate Union activities.

5. *Vacations.* Practice, as of the date of execution of this agreement, with respect to vacation pay of supervisory employees shall be continued in effect, except as such practice may be changed in accordance with section 17 of this agreement.

In accordance with and to the extent consistent with existing practice, vacations will, so far as practical, be granted at times most desired by the supervisory employees, provided that it does not interfere with the orderly operation of the mine.

6. *Seniority.* In accordance with and to the extent consistent with the practice now followed at the mine specified above, in all cases of promotion, demotion, increase or decrease of force, or lay-off, length of service and ability to perform the work shall be the determining factors.

Any supervisory employee, who (a) voluntarily leaves his employment, (b) fails to return to work without just cause within seven (7) days after notice to do so, or (c) is discharged for just cause, shall lose his seniority rights.

7. *Changes in classification of work.* In accordance with and to the extent consistent with existing practice, when a supervisory employee is required to fill the place of another employee receiving a higher rate of pay, he shall receive the higher rate of pay. Under no circumstances shall he receive a reduction in pay, when required temporarily to fill another job.

8. *Safety and health.* The Coal Mines Administrator will direct the operating manager to continue to make reasonable provisions for the safety and health of the supervisory employees and to operate the mine specified above in accordance with applicable mining laws of the state, the Federal Mine Safety Code, and other applicable safety rules.

9. *Supervisors' Mine Committee.* A Supervisors' Mine Committee of three (3) members at the mine specified above shall be selected by the Union. Only supervisory employees may be members of this Committee and each member shall be eligible to serve as such only so long as he continues to be a supervisory employee. The functions of the Supervisors' Mine Committee are as described in section 10 of this agreement.

10. *Settlement of disputes.* Should differences arise between the supervisory employees and the employer as to the meaning and application of the provisions of this agreement (including section 1 hereof), there shall be no suspension of or interference with work on account of such differences but an earnest effort shall be made to settle such differences immediately:

FIRST: Between the aggrieved party and a representative of the Coal Mines Administrator.

SECOND: Through the Supervisors' Mine Committee and a representative of the Coal Mines Administrator.

THIRD: Through a representative of the Union and a representative of the Coal Mines Administrator.

FOURTH: By a board consisting of four members, two of whom shall be designated by the Union and two by a representative of the Coal Mines Administrator.

Should the board fail to agree, the matter shall be referred to an arbitrator selected by the board. Should the board be unable to agree upon the selection of an arbitrator, he shall be designated by the International President of the Union and the Coal Mines Administrator or his representative.

In case either party shall request it prior to agreement upon a single arbitrator, a three man board of arbitration rather than a single arbitrator shall be constituted. This board shall consist of a chairman who shall be agreed upon in exactly the same manner as the single arbitrator above provided for, a representative chosen by the Union, and a representative chosen by the Coal Mines Administrator.

The arbitrator or the board of arbitration shall render in writing a decision which shall be final and conclusively binding upon the parties.

In the event that either party has requested arbitration by a three man board, the majority decision of such a board or, if a majority decision cannot be reached, the decision of the chairman shall be final and conclusively binding upon the parties.

11. *Discharge cases.* When a supervisory employee has been discharged from his employment and he believes that he has been unjustly dealt with, it shall be a case arising under the method of settling disputes provided in section 10 of this agreement. If, in any discharge case, it should be decided that an injustice has been dealt the supervisory employee, he shall be reinstated with or without back pay, in whole or in part: *Provided, however*, That any such case shall be taken up and disposed of within five (5) days from the date of discharge or as soon thereafter as possible.

12. *Wages.* Practice, as of the date of execution of this agreement, with respect to wages and hours of supervisory employees shall be continued in effect, except as such practice may be changed in accordance with section 17 of this agreement.

13. *Legal rights preserved.* (a) This agreement, directions of the Coal Mines Administrator hereunder, or compliance therewith by the management, shall in no sense be viewed as a waiver by the affected coal company or the Union of such rights as may be possessed by them including the right to a final judicial determination of the rights of supervisors under the National Labor Relations Act.

(b) The Union agrees that, in accordance with the procedure of the National Labor Relations Board, it will file as soon as practicable (but in no event later than 10 days after it receives a written notice from the Coal Mines Administrator to do so) a charge of refusal to bargain against Buckeye Coal Company to the end that that company may have an opportunity to obtain a final judicial determination of the rights of supervisors at its mine under the National Labor Relations Act.

14. *Responsibilities of supervisory employees to management.* Supervisory employees shall at all times conduct themselves in a manner wholly consistent with the proper performance of the duties assigned to them. They shall not engage in any conduct which would directly or indirectly impair the lawful position of management in its relationship to any person or persons whose work is directed by management or any union which may represent such person or persons. The Union will use its best efforts to assure that the provisions of this section of the agreement are observed by the supervisory employees.

15. *Safety laws.* Nothing in this agreement shall be construed to modify existing obligations of the supervisory employees to conform to the requirements of applicable state or Federal safety laws or rules.

16. *Changes in law.* In the event that legislation, ultimate court decision, or action of the National Labor Relations Board nullifies or reverses the ruling of said Board in Case No. 6–R–1496, the Coal Mines Administrator reserves the right, on such notice as he may deem appropriate, to terminate this agreement. The Union reserves the same right.

In the event that legislation, ultimate court decision, or action of the National Labor Relations Board modifies the ruling of said Board in Case No. 6–R–1496, the Coal Mines Administrator and the Union agree that further discussion shall be had looking toward appropriate modification of this agreement. In the event that such modification is not agreed upon within what he may deem to be a reasonable time, the Coal Mines Administration reserves the right to terminate this agreement on such notice as he may deem appropriate. The Union reserves the same right.

17. *General change in hours or wages or other monetary considerations of employment.* The parties to this agreement agree to meet in the city of Washington, D. AGREEMENT

This agreement between the Coal Mines Administrator under the authority of Executive Order No. 9728 (dated May 21, 1946, 11 F. R. 5593) and pursuant to the provisions of section 11 of the Krug-Lewis Agreement of May 29, 1946, and the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America (hereinafter referred to as the Union), covers for the period of Government possession the terms and conditions of employment with respect to the No. 1 and No. 2 Mines of the Wendel Coal Company, Wendel, West Virginia.

The term "supervisory employees," as used in this agreement, means only those supervisors of production and maintenance employees of the No. 1 and No. 2 Mines of the Wendel Coal Company, as referred to in the finding and determination in the Report on Cross Check of the National Labor Relations Board, dated October 24, 1946, in Case No. 6-R-1598.

1. *Existing terms and conditions of employment preserved.* Except as amended and supplemented herein, this agreement carries forward and preserves the terms and conditions of employment for supervisory employees as they existed on May 22, 1946.

2. *Union recognition.* With respect to recognition of the Union as the sole and exclusive agency and representative of the supervisory employees, the Coal Mines Administrator will be guided by the decisions and procedure laid down by the National Labor Relations Board.

3. *Check off.* The Coal Mines Administrator will direct the operating manager that the Union dues of supervisory employees who are members of the Union, not exceeding Two Dollars ($2.00) per month, shall be checked off the wages of such supervisory employee (subject to the individual consent of such employees, the continuance of said consent being at the option of such employees but the option being exercisable only on one month's written notice to the management and the International Union) at a rate not to exceed One Dollar ($1.00) per pay period and shall be remitted to the Secretary-Treasurer of the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, not later than the first and sixteenth of each month and that no other assessments shall be so checked off except upon the written authorization of the International Executive Board of the United Mine Workers of America.

The Coal Mines Administrator will direct the operating manager that initiation fees of the Union, in sums not to exceed One Dollar ($1.00) per supervisory employee Union member in any one pay period, shall (subject to the individual consent of the supervisory employee) be deducted and remitted to the financial security of the local Union, in the same manner and subject to the same conditions as dues deductions. Under no circumstances shall the total initiation fee for any one man exceed Ten Dollars ($10.00).

4. *Discrimination and coercion.* The Coal Mines Administrator will use his good offices to the end that there shall be no discrimination, interference, restraint, or coercion directed by management or any of its agents against any supervisory employees because of Union membership or appropriate Union activities.

5. *Vacations.* Practice, as of the date of execution of this agreement, with respect to vacation pay of supervisory employees shall be continued in effect, except as such practice may be changed in accordance with section 17 of this agreement.

In accordance with and to the extent consistent with existing practice, vacations will, so far as practical, be granted at times most desired by the supervisory employees: *Provided*, That it does not interfere with the orderly operation of the mine.

6. *Seniority.* In accordance with and to the extent consistent with the practice now followed at each mine specified above, in all cases of promotion, demotion, increase or decrease of force, or lay-off, length of service and ability to perform the work shall be the determining factors.

Seniority shall be applied separately at each mine specified above.

Any supervisory employee who (a) voluntarily leaves his employment, (b) fails to return to work without just cause within seven (7) days after notice to do so, or (c) is discharged for just cause, shall lose his seniority rights.

7. *Changes in classification of work.* In accordance with and to the extent consistent with existing practice, when a supervisory employee is required to fill the place of another employee receiving a higher rate of pay, he shall receive the higher rate of pay. Under no circumstances shall he receive a reduction in pay, when required temporarily to fill another job.

8. *Safety and health.* The Coal Mines Administrator will direct the operating manager to continue to make reasonable provisions for the safety and health of the supervisory employees and to operate the mines specified above in accordance with applicable mining laws of the state, the Federal Mine Safety Code, and other applicable safety rules.

9. *Supervisors' Mine Committee.* A Supervisors' Mine Committee of three (3) members at each mine specified above shall be selected by the Union. Only supervisory employees may be members of this Committee and each member shall be eligible to serve as such only so long as he continues to be a supervisory employee. The functions of the Supervisors' Mine Committee are as described in Section 10 of this agreement.

10. *Settlement of disputes.* Should differences arise between the supervisory employees and the employer as to the meaning and application of the provisions of this agreement (including section 1 hereof), there shall be no suspension of or interference with work on account of such differences but an earnest effort shall be made to settle such differences immediately:

FIRST: Between the aggrieved party and a representative of the Coal Mines Administrator.

SECOND: Through the Supervisors' Mine Committee and a representative of the Coal Mines Administrator.

THIRD: Through a representative of the Union and a representative of the Coal Mines Administrator.

FOURTH: By a board consisting of four members, two of whom shall be designated by the Union and two by a representative of the Coal Mines Administrator.

Should the board fail to agree, the matter shall be referred to an arbitrator selected by the board. Should the board be unable to agree upon the selection of an arbitrator, he shall be designated by the International President of the Union and the Coal Mines Administrator or his representative.

In case either party shall request it prior to agreement upon a single arbitrator, a three man board of arbitration rather than a single arbitrator shall be constituted. This board shall consist of a chairman who shall be agreed upon in exactly the same manner as the single arbitrator above provided for, a representative chosen by the Union, and a representative chosen by the Coal Mines Administrator.

The arbitrator or the board of arbitration shall render in writing a decision which shall be final and conclusively binding upon the parties.

In the event that either party has requested arbitration by a three man board, the majority decision of such a board or, if a majority decision cannot be reached, the decision of the chairman shall be final and conclusively binding upon the parties.

11. *Discharge cases.* When a supervisory employee has been discharged from his employment and he believes that he has been unjustly dealt with, it shall be a case arising under the method of settling disputes provided in section 10 of this agreement. If, in any discharge case, it should be decided that an injustice has been dealt the supervisory employee, he shall be reinstated with or without back pay, in whole or in part, provided however, that any such case shall be taken up and disposed of within five (5) days from the date of discharge or as soon thereafter as possible.

12. *Wages.* Practice, as of the date of execution of this agreement, with respect to wages and hours of supervisory employees shall be continued in effect, except as such practice may be changed in accordance with section 17 of this agreement.

13. *Legal rights preserved.* (a) This agreement, directions of the Coal Mines Administrator hereunder, or compliance therewith by the management, shall in no sense be viewed as a waiver by the affected coal company or the Union of such rights as may be possessed by them including the right to a final judicial determination of the rights of supervisors under the National Labor Relations Act.

(b) The Union agrees that, in accordance with the procedure of the National Labor Relations Board, it will file as soon as practicable (but in no event later than 10 days after it receives a written notice from the Coal Mines Administrator to do so) a charge of refusal to bargain again Wendel Coal Company to the end that that company may have an opportunity to obtain a final judicial determination of the rights of supervisors at its mines under the National Labor Relations Act.

14. *Responsibilities of supervisory employees to management.* Supervisory employees shall at all times conduct themselves in a manner wholly consistent with the proper performance of the duties assigned to them. They shall not engage in any conduct which would directly or indirectly impair the lawful position of management in its relationship to any person or persons whose work is directed by management or any union which may represent such person or persons. The Union will use its best efforts to assure that the provisions of this section of the agreement are observed by the supervisory employees.

15. *Safety laws.* Nothing in this agreement shall be construed to modify existing obligations of the supervisory employees to conform to the requirements of applicable state or Federal safety laws or rules.

16. *Changes in law.* In the event that legislation, ultimate court decision, or action of the National Labor Relations Board nullifies or reverses the finding and determination of said Board in Case No. 6-R-1598, the Coal Mines Administrator reserves the right, on such notice as he may deem appropriate, to terminate this agreement. The Union reserves the same right.

In the event that legislation, ultimate court decisions, or action of the National Labor Relations Board modifies the finding and determination of said Board in Case No. 6-R-1598, the Coal Mines Administrator and the Union agree that further discussion shall be had looking toward appropriate modification of this agreement. In the event that such modification is not agreed upon within what he may deem to be a reasonable time, the Coal Mines Administrator reserves the right to terminate this agreement on such notice as he may deem appropriate. The Union reserves the same right.

17. *General change in hours or wages or other monetary considerations of employment.* The parties to this agreement agree to meet in the city of Washington, D. C., within ten days of the date of execution of any agreement effecting a general change in the hours or wages or other monetary considerations of employment of rank and file employees in the mines specified above, for the purpose of negotiating a general change in the hours or wages or other monetary considerations of employment of supervisory employees.

Any change in the hours or wages or other monetary considerations of employment of supervisory employees, which is negotiated in accordance with the provisions of this section, shall be effective as of the effective date of the general change in the hours or wages or other monetary considerations of employment of rank and file employees which it is designed to accompany.

18. *Effective date.* This agreement is effective as of April 26, 1947 subject to the approval of appropriate Government agencies.

Signed at Washington, D. C., on the 26th day of April 1947.

United Mine Workers of America

AGREEMENT

This agreement between the Coal Mines Administrator under the authority of Executive Order No. 9728 (dated May 21, 1946, 11 F. R. 5593) and pursuant to the provisions of section 11 of the Krug-Lewis Agreement of May 29, 1946, and the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, (hereinafter referred to as the Union) covers for the period of Government possession the terms and conditions of employment with respect to the Ehrenfeld No. 3, Ehrenfeld No. 8, and Marsteller No. 22 Mines of the Pennsylvania Coal and Coke Corporation, New York, New York.

The term "supervisory employees", as used in this agreement, means only those supervisors of production and maintenance employees of the Ehrenfeld No. 3, Ehrenfeld No. 8, and Marsteller No. 22 Mines of the Pennsylvania Coal and Coke Corporation, New York, New York, as defined and described in the Certification of Representatives and Order of the National Labor Relations Board, dated October 15, 1946, in Case No. 6-R-1211.

1. *Existing terms and conditions of employment preserved.* Except as amended and supplemented herein, this agreement carriers forward and preserves the terms and conditions of employment for supervisory employees as they existed on May 22, 1946.

2. *Union recognition.* With respect to recognition of the Union as the sole and exclusive agency and representative of the supervisory employees, the Coal Mines Administrator will be guided by the decisions and procedure laid down by the National Labor Relations Board.

3. *Check off.* The Coal Mines Administrator will direct the operating manager that the Union dues of supervisory employees who are members of the Union, not exceeding Two Dollars ($2.00) per month, shall be checked off the wages of such supervisory employees (subject to the individual consent of such employees, the continuance of said consent being at the option of such employees but the option being exercisable only on one month's written notice to the management and the International Union) at a rate not to exceed One Dollar ($1.00) per pay period and shall be remitted to the Secretary-Treasurer of the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, not later than the first and sixteenth of each month and that no other assessments shall be so checked off except upon the written authorization of the International Executive Board of the United Mine Workers of America.

The Coal Mines Administrator will direct the operating manager that initiation fees of the Union, in sums not to exceed One Dollar ($1.00) per supervisory employee Union member in any one pay period, shall (subject to the individual consent of the supervisory employee) be deducted and remitted to the financial security of the local Union, in the same manner and subject to the same conditions as dues deductions. Under no circumstances shall the total initiation fee for any one man exceed Ten Dollars ($10.00).

4. *Discrimination and coercion.* The Coal Mines Administrator will use his good offices to the end that there shall be no discrimination, interference, restraint, or coercion directed by management or any of its agents against any supervisory employees because of Union membership or appropriate Union activities.

5. *Vacations.* Practice, as of the date of execution of this agreement, with respect to vacation pay of supervisory employees shall be continued in effect, except as such practice may be changed in accordance with section 17 of this agreement.

In accordance with and to the extent consistent with existing practice, vacations will, so far as practical, be granted at times most desired by the supervisory employees, provided that it does not interfere with the orderly operation of the mines.

6. *Seniority.* In accordance with and to the extent consistent with the practice now followed at each mine specified above, in all cases of promotion, demotion, increase or decrease of force, or lay-off, length of service and ability to perform the work shall be the determining factors.

Seniority shall be applied separately at each mine specified above.

Any supervisory employee, who (a) voluntarily leaves his employment, (b) fails to return to work without just cause within seven (7) days after notice to do so, or (c) is discharged for just cause, shall lose his seniority rights.

7. *Changes in classification of work.* In accordance with and to the extent consistent with existing practice, when a supervisory employee is required to fill the place of another employee receiving a higher rate of pay, he shall receive the higher rate of pay. Under no circumstances shall he receive a reduction in pay, when required temporarily to fill another job.

8. *Safety and health.* The Coal Mines Administrator will direct the operating manager to continue to make reasonable provisions for the safety and health of the supervisory employees and to operate the mines specified above in accordance with applicable mining laws of the state, the Federal Mine Safety Code, and other applicable safety rules.

9. *Supervisors' Mine Committee.* A Supervisors' Mine Committee of three (3) members at each mine specified above shall be selected by the Union. Only supervisory employees may be members of this Committee and each member shall be eligible to serve as such only so long as he continues to be a supervisory employee. The functions of the Supervisors' Mine Committee are as described in Section 10 of this agreement.

10. *Settlement of disputes.* Should differences arise between the supervisory employees and the employer as to the meaning and application of the provisions of this agreement (including section 1 hereof), there shall be no suspension of or interference with work on account of such differences but an earnest effort shall be made to settle such difference immediately:

FIRST: Between the aggrieved party and a representative of the Coal Mines Administrator.

SECOND: Through the Supervisors' Mine Committee and a representative of the Coal Mines Administrator.

THIRD: Through a representative of the Union and a representative of the Coal Mines Administrator.

FOURTH: By a board consisting of four members, two of whom shall be designated by the Union and two by a representative of the Coal Mines Administrator.

Should the board fail to agree, the matter shall be referred to an arbitrator selected by the board. Should the board be unable to agree upon the selection of an arbitrator, he shall be designated by the International President of the Union and the Coal Mines Administrator or his representative.

In case either party shall request it prior to agreement upon a single arbitrator, a three man board of arbitration rather than a single arbitrator shall be constituted. This board shall consist of a chairman who shall be agreed upon in exactly the same manner as the single arbitrator above provided for, a representative chosen by the Union, and a representative chosen by the Coal Mines Administrator.

The arbitrator or the board of arbitration shall render in writing a decision which shall be final and conclusively binding upon the parties.

In the event that either party has requested arbitration by a three man board, the majority decision of such a board or, if a majority decision cannot be reached, the decision of the chairman shall be final and conclusively binding upon the parties.

11. *Discharge cases.* When a supervisory employee has been discharged from his employment and he believes that he has been unjustly dealt with, it shall be a case arising under the method of settling disputes provided in section 10 of this agreement. If, in any discharge case, it should be decided that an injustice has been dealt the supervisory employee, he shall be reinstated with or without back pay, in whole or in part, *Provided, however,* That any such case shall be taken up and disposed of within five (5) days from the date of discharge or as soon thereafter as possible.

12. *Wages.* Practice, as of the date of execution of this agreement, with respect to wages and hours of supervisory employees shall be continued in effect, except as such

practice may be changed in accordance with section 17 of this agreement.

13. *Legal rights preserved.* (a) This agreement, direction of the Coal Mines Administrator hereunder, or compliance therewith by the management, shall in no sense be viewed as a waiver by the affected coal company or the Union of such rights as may be possessed by them including the right to a final judicial determination of the rights of supervisors under the National Labor Relations Act.

(b) The Union agrees that, in accordance with the procedure of the National Labor Relations Board, it will file as soon as practicable (but in no event later than 10 days after it receives a written notice from the Coal Mines Administrator to do so) a charge of refusal to bargain against Pennsylvania Coal and Coke Corporation to the end that that company may have an opportunity to obtain a final judicial determination of the rights of supervisors at its mines under the National Labor Relations Act.

14. *Responsibilities of supervisory employees to management.* Supervisory employees shall at all times conduct themselves in a manner wholly consistent with the proper performance of the duties assigned to them. They shall not engage in any conduct which would directly or indirectly impair the lawful position of management in its relationship to any person or persons whose work is directed by management or any union which may represent such person or persons. The Union will use its best efforts to assure that the provisions of this section of the agreement are observed by the supervisory employees.

15. *Safety laws.* Nothing in this agreement shall be construed to modify existing obligations of the supervisory employees to conform to the requirements of applicable state or Federal safety laws or rules.

16. *Changes in law.* In the event that legislation, ultimate court decision, or action of the National Labor Relations Board nullifies or reverses the ruling of said Board in Case No. 6-R-1211, the Coal Mines Administrator reserves the right, on such notice as he may deem appropriate, to terminate this agreement. The Union reserves the same right.

In the event that legislation, ultimate court decision, or action of the National Labor Relations Board modifies the ruling of said Board in Case No. 6-R-1211, the Coal Mines Administrator and the Union agree that further discussion shall be had looking toward appropriate modification of this agreement. In the event that such modification is not agreed upon within what he may deem to be a reasonable time, the Coal Mines Administrator reserves the right to terminate this agreement on such notice as he may deem appropriate. The Union reserves the same right.

17. *General change in hours or wages or other monetary considerations of employment.* The parties to this agreement agree to meet in the city of Washington, D. C., within ten days of the date of execution of any agreement effecting a general change in the hours or wages or other monetary considerations of employment of rank and file employees in the mines specified above, for the purpose of negotiating a general change in the hours or wages or other monetary considerations of employment of supervisory employees.

Any change in the hours or wages or other monetary considerations of employment of supervisory employees, which is negotiated in accordance with the provisions of this section, shall be effective as of the effective date of the general change in the hours or wages or other monetary considerations of employment of rank and file employees which it is designed to accompany.

18. *Effective date.* This agreement is effective as of April 26, 1947, subject to the approval of appropriate Government agencies.

Signed at Washington, D. C., on the 26th day of April 1947.

N. H. COLLISON,
Coal Mines Administrator.
JOHN MCALPINE,
President, The United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America.

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice of issuance of special certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that Special Certificates authorizing the employment of learners at hourly rates lower than the minimum wage rate applicable under section 6 of the act have been issued to the firms hereinafter mentioned under section 14 of the act, Part 522 of the regulations issued thereunder (August 16, 1940, 5 F. R. 2862, and as amended June 25, 1942, 7 F. R. 4725), and the determinations, orders and/or regulations hereinafter mentioned. The names and addresses of the firms to which certificates were issued, industry, products, number of learners, learner occupations, wage rates, learning periods, and effective and expiration dates of the certificates are as follows:

Regulations, Part 522—Regulations Applicable to the Employment of Learners.

San Juan Glove Corporation, San Juan, Puerto Rico; to employ one hundred and eighty (180) learners in the manufacture of machine-sewn fabric gloves, as follows: 50 learners in inserting, 45 learners in kiling, 50 learners in closing, and 35 learners in tip-seaming at not less than 22 cents an hour for the first 160 hours and not less than 32 cents an hour for the next 160 hours with respect to the operations of inserting, kiling, and closing; and not less than 27 cents an hour for the first 200 hours with respect to the operation of tip-seaming.

For every hour worked after the completion of the foregoing learning periods, the employees must be paid not less than the minimum established by any applicable wage order that may be in effect at the time of the completion of the learning period. The certificate is effective April 25, 1947, and expires April 24, 1948.

The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of the applicable determinations, orders and/or regulations cited above. These certificates have been issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Regulations, Part 522.

Signed at Washington, D. C. this 3d day of June 1947.

ISABEL FERGUSON,
Authorized Representative of the Administrator.

UNLOADING OF COMMODITIES AT NEW YORK, N. Y.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 10th day of June A. D. 1947.

It appearing, that 3 cars containing various commodities at New York, New York, on The New York, New Haven and Hartford Railroad Company (Howard S. Palmer, James Lee Loomis and Henry B. Sawyer, Trustees), have been on hand for unreasonable lengths of time and that the delay in unloading said cars is impeding their use; in the opinion of the Commission an emergency exists requiring immediate action. It is ordered, that:

(a) *Commodities at New York, N. Y., be unloaded.* The New York, New Haven and Hartford Railroad Company (Howard S. Palmer, James Lee Loomis and Henry B. Sawyer, Trustees) its agents or employees, shall unload immediately the following cars, loaded with various commodities, now on hand at New York, New York:

Initial, Number, Contents, and Consignee

NH, 30272, Cartons of sardines, Arthur Harris.
CNW, 63104, Boxed outboard motors, E. I. Bruns Co.
Erie, 76909, Building paper, Walker Goulard Plehn.

(b) *Demurrage.* No common carrier by railroad subject to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., June 12, 1947, and continuing until the actual unloading of said car or cars is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

SECURITIES AND EXCHANGE COMMISSION

[File No. 31-544]

INDUSTRIAL ELECTRICA MEXICANA, S. A.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 6th day of June 1947.

Notice is hereby given that Industrial Electrica Mexicana, S. A. ("Industrial"), a Mexican corporation and an electric utility company, has filed with this Commission an application and an amendment thereto pursuant to section 3 (b) of the Public Utility Holding Company Act of 1935 requesting an exemption from all obligations, duties or liabilities arising under said act which would otherwise attach to it as a direct subsidiary of Hydro-Electric Securities Company ("Hydro") and as an indirect subsidiary of California Electric Power Company ("California").

Notice is further given that any interested person may, not later than June 20, 1947 at 5:30 p. m., e. d. s. t., request the

Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after said date said application, as filed or as amended, may be granted.

All interested persons are referred to said application which is on file in the offices of this Commission for a statement of the allegations therein contained, which are summarized as follows:

Industrial was incorporated in 1944 pursuant to the laws of the Republic of Mexico for the purpose of acquiring and operating the electric utility properties of Southern Sierras Power of Mexico, S. A. ("Southern Sierras"), a former subsidiary of Hydro, and the electric utility properties of Compania de Luz Electrica de Mexicali, S. A. ("Mexicali"), a nonaffiliated company. The Mexicali properties, which were acquired by Industrial in 1944, consisted of an electric distribution system in the Municipality of Mexicali. The properties of Southern Sierras, which were acquired by Industrial in 1945, consisted of similar properties in the Northern Territory of Lower California and in the State of Sonora. All of the properties so acquired are located within the Republic of Mexico, and the business of Industrial is that of supplying electric energy to customers in the said areas in that country. Industrial has no generating facilities, deriving its entire supply of electric energy from its ultimate parent, California.

California, which was formerly a registered holding company, was, by order of this Commission dated December 10, 1936, declared to have ceased to be a holding company by virtue of having acquired the assets of all its public utility companies operating within the United States, retaining Southern Sierras as its only then remaining public utility subsidiary. Southern Sierras was at that time in an exempt status pursuant to former Rule U-3E-2. Thereafter, by order of this Commission entered August 21, 1941, Southern Sierras was granted an exemption pursuant to section 3 (b) of the act as a subsidiary of Hydro and of California. The application states that no major change has taken place in the character of the business then operated by Southern Sierras and now operated by Industrial, with the exception of normal growth and the addition of the properties of Mexicali. Industrial therefore asserts that it is entitled to the same exemption as that previously granted to Southern Sierras.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File Nos. 54-113, 59-78, 70-1015]

LOUISVILLE GAS AND ELECTRIC CO. AND STANDARD GAS AND ELECTRIC CO.

NOTICE OF FILING AND ORDER RECONVENING HEARING IN CONSOLIDATED PROCEEDINGS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 6th day of June 1947.

In the matter of Louisville Gas and Electric Company (Delaware), File No. 54-113; Standard Gas and Electric Company, File No. 70-1015; Louisville Gas and Electric Company (Delaware), Respondent, File No. 59-78.

I. Notice is hereby given that Louisville Gas and Electric Company, a Delaware corporation (hereinafter referred to as Louisville of Delaware), a registered holding company and a subsidiary of Standard Gas and Electric Company (hereinafter referred to as Standard Gas), also a registered holding company, has filed its Second Amended Plan dated May 22, 1947 (hereinafter sometimes referred to as the Plan) pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 (act) stated to be for the liquidation of Louisville of Delaware to enable such Company to comply with the provisions of section 11 (b) of the act. Louisville has filed an application for approval of said Plan, and has stated that said Plan supersedes its previously pending Original Plan and Amended Plan.

All interested persons are referred to the Plan which is on file at the office of the Commission for a statement of the provisions therein contained which may be summarized as follows:

Louisville of Delaware owns 883,161 shares of the 1,033,839 outstanding shares of common stock of Louisville Gas and Electric Company, a Kentucky corporation (hereinafter referred to as Louisville of Kentucky). Of the remaining shares of common stock of Louisville of Kentucky, 124,306 shares are owned by Standard Gas and 26,372 shares are held by the general public. In addition to its holdings of Louisville of Kentucky common stock, Louisville of Delaware also had net current assets as of March 31, 1947, of approximately $936,000. Louisville of Delaware has outstanding 600,374 shares of Class A common stock and 300,949 shares of Class B common stock, all of which are without par value, and has no liabilities other than current liabilities.

Louisville of Delaware proposes to invest substantially all of its net current assets (other than an amount required for fees and expenses) in 34,864 additional shares of common stock of Louisville of Kentucky and to distribute its entire holdings of such common stock (918,025 shares) on the following basis:

For each share of Class A common stock: 1 1/4 shares of Louisville of Kentucky common stock.

For each share of Class B common stock: 0.913 share of Louisville of Kentucky common stock.

It is not contemplated that fractional shares of Louisville of Kentucky common stock will be delivered. In lieu thereof, Louisville of Delaware will pay to each stockholder cash at the rate of $25 per share for any fractional shares of Louisville of Kentucky common stock to which the stockholder may be entitled on the above basis. Any additional cash required by Louisville of Delaware for such payments will be procured by the sale to Standard Gas at $25 per share of the shares of Louisville of Kentucky common stock which would otherwise be distributed as fractional shares. Standard Gas which owns 93.9% of the Class B common stock of Louisville of Delaware has advised the latter Company of its willingness to make such purchase.

The Plan also proposes that Louisville of Delaware will use its best efforts to cause Louisville of Kentucky to file an application with the New York Stock Exchange for the listing of the Louisville of Kentucky common stock prior to or promptly after consummation of the Plan.

Upon consummation of the Plan it is proposed that Louisville of Delaware will be dissolved.

Louisville of Delaware has requested that in the event the Plan is approved by this Commission application be made to an appropriate United States District Court to enforce and carry out the terms and provisions of the Plan. The Plan does not provide for the vote or consent of stockholders of Louisville of Delaware; upon the entry of a final decree of the Court, the provisions of the Plan will become binding upon all stockholders.

II. The Commission being required by the provisions of section 11 (e) of the act, before approving any plan submitted thereunder, to find after notice and opportunity for hearing that such plan, as submitted or as modified, is necessary to effectuate the provisions of subsection (b) of section 11 and is fair and equitable to the persons affected by such plan; and

The Commission having previously held hearings in these consolidated proceedings with respect to the issues presented under section 11 (b) (2) (File No. 59-78), and concerning the Original Plan date November 3, 1944, and the Amended Plan dated May 16, 1946 both filed by Louisville of Delaware (File No. 54-113), and upon the application-declaration filed by Standard Gas and Electric Company to carry out certain transactions in connection with said plans (File No. 70-1015), and evidence having been received concerning the foregoing matters and plans, and it appearing that the issues presented by the Second Amended Plan (also filed herein in File No. 54-113), are related to and contain common questions of law and fact with respect to the issues presented by the aforesaid matters as to which evidence was previously received, and it therefore appearing that the said Second Amended Plan should be heard in the same consolidated proceedings and that the evidence previously taken in said proceedings should be considered in connection with said Second Amended Plan, subject to the right of any person to present such additional evidence as may be relevant and material, and that accordingly the hearing in these consolidated proceedings should be reconvened for the purpose of receiving evidence upon said Second Amended Plan and for the purpose of considering what order should be entered or other action taken pursuant to section 11 (b) (2) and with respect to said Second Amended Plan;

It is ordered, That the hearing in these consolidated proceedings pursuant to section 11 (b) (2) and section 11 (e) is hereby reconvened, and shall be held, for the purposes hereinbefore and hereinafter set forth, pursuant to the applicable provisions of the act and the rules and regulations provided thereunder, on the 30th day of June 1947, at 10:00 a. m., e. d. s. t., in the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as shall be designated on that day by the hearing room clerk in Room 318. Persons desiring to be heard should notify the Secretary of the Commission in accordance with Rule XVII of the Commission's rules of practice not later than two days prior to the date of said hearing. At said hearing there will be considered any issues presented pursuant to section 11 (b) (2) and with respect to said Plan pursuant to section 11 (e), and whether the Plan complies with the standards of section 11 (e). In connection with the Plan particular attention will be directed to the following matters and questions:

(a) Whether the Plan, as submitted or as it may be modified, is necessary to effectuate the provisions of section 11 (e) of the act and is fair and equitable to the persons affected thereby;

(b) Whether the proposed allocation of common stock of Louisville of Kentucky as between public holders of Class A and Class B common stocks of Louisville of Delaware and as between such public holders and Standard Gas, which holds Class B common stock of Louisville of Delaware, is fair and equitable;

(c) Whether the transactions proposed in such Plan comply with all the requirements and applicable provisions of the act and rules and regulations promulgated thereunder;

(d) Whether and to what extent the Plan should be modified or terms or conditions imposed to insure adequate protection of the public interest and the interests of investors and consumers in compliance with all applicable provisions of the act;

(e) Whether the fees and expenses proposed to be paid in connection with the said Plan and all transactions incidental thereto are for necessary services and are reasonable in amount;

It is further ordered, That at said hearing the evidence previously taken in these consolidated proceedings shall be considered in connection with the matters to be heard pursuant to this order, subject to the right of interested persons to introduce any further relevant and material evidence.

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all the powers granted to the Commission under section 18 (c) of said act and to a hearing officer under the Commission's rules of practice.

It is further ordered, That notice of this hearing shall be given to Louisville Gas and Electric Company (Delaware), Louisville Gas and Electric Company (Kentucky), Standard Gas and Electric Company, the Public Service Commission of Kentucky, the Mayor of Louisville, Kentucky, and to all persons who have previously appeared herein, by registered mail, and to all other persons by publication in the FEDERAL REGISTER and by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the act; and

It is further ordered, That Louisville Gas and Electric Company (Delaware) shall give notice of this hearing to all of the holders of its capital stock (in so far as the identity of such holders is known or available to said Company) by mailing a copy of this order and notice to such holders at least 15 days prior to the date of said hearing.

By the Commission.

NEW YORK WATER SERVICE CORP. AND FEDERAL WATER AND GAS CORP.

ORDER PERMITTING WITHDRAWAL OF APPLICATION-DECLARATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 5th day of June A. D. 1947.

Federal Water and Gas Corporation ("Federal"), a registered holding company, and New York Water Service Corporation ("New York"), formerly a subsidiary of Federal, having heretofore filed a joint application-declaration, and amendments thereto, pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules promulgated thereunder, proposing the donation by Federal, as owner of all the then outstanding common stock of New York (26,015 shares of $100 par value common stock) to New York of 20,515 shares of said stock; and

The Commission having by orders dated November 12, 1946 and January 31, 1947, approved a plan for the recapitalization of New York, pursuant to which no participation was accorded to all the then outstanding common stock of New York held by Federal; and the District Court of the United States for the Southern District of New York having on February 7, 1947, entered an order approving and enforcing said recapitalization plan; and

Federal and New York having requested that they be permitted to withdraw said application-declaration, as amended, and it appearing to the Commission that the withdrawal of said application-declaration, as amended, is consistent with the public interest;

It is ordered, That the request of Federal and New York be, and the same hereby is, granted, and that said application-declaration, as amended, is hereby deemed withdrawn.

TOLEDO EDISON CO. AND CITIES SERVICE CO.

ORDER PERMITTING APPLICATIONS AND DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 5th day of June 1947.

Cities Service Company (Cities), a registered holding company, and its subsidiary, The Toledo Edison Company (Toledo), having filed applications and declarations and amendments thereto, pursuant to sections 6 (b), 9 (a), 10, 12 (b) and 12 (c) of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder with respect to:

(a) The issuance and sale by Toledo, pursuant to the competitive bidding provisions of Rule U-50, of (1) $32,000,000 principal amount of First Mortgage Bonds ____% Series due 1977, and (2) 160,000 shares of $100 par value ____% Cumulative Preferred Stock;

(b) The issuance and sale by Toledo to The Chase National Bank of the City of New York of $4,500,000 principal amount of its Bank Loan Notes bearing interest at the rate of 2% per annum and maturing in equal semi-annual installments over a period of 10 years;

(c) The capital contribution by Cities to Toledo of $5,300,000 in cash and the donation of $13,300 par value of outstanding Preferred Shares of Toledo owned and held by Cities;

(d) The amendment by Toledo of its Articles of Incorporation regarding the authorization of the New Preferred Stock and the exchange of the outstanding 1,387,500 Shares of no par value Common Stock into 2,775,000 shares of $5 par value Common Stock and the increase of the authorized number of shares of Common Stock from 1,500,000 shares with no par value to 5,000,000 shares with a par value of $5 per share;

(e) The acquisition by Cities of the $5 par value shares of Common Stock to be issued by Toledo in exchange for the outstanding no par value Common Shares of Toledo now held by Cities; and

(f) The use by Toledo of the proceeds of the sale of its New Bonds, New Preferred Stock and Bank Loan Notes, together with such portion as may be necessary of the capital contribution Toledo is to receive from Cities, to redeem and retire (1) its presently outstanding $30,000,000 principal amount of First Mortgage Bonds, 3 1/2% series due 1968 at 104 1/4% of the principal amount, (2) its outstanding $3,000,000 principal amount of First Mortgage Bonds, 3 1/4% series due 1970 at 104 3/4% of the principal amount, (3) its outstanding $4,713,000 principal amount of 3 1/2% Sinking Fund Debentures due 1960 at 103% of the principal

amount and (4) its outstanding $16,123,100 par value of Preferred Shares of various series at the redemption prices applicable thereto.

A public hearing having been held, after appropriate notice, and the Commission having considered the record and having made and filed its findings and opinion herein;

It is ordered, That said applications and declarations, as amended, regarding the transactions summarized above be, and the same hereby are, granted and permitted to become effective, subject to the terms and conditions prescribed in Rule U-24, and the further condition that the proposed issue and sale of said First Mortgage Bonds, and Preferred Stock by Toledo shall not be consummated until the results of competitive bidding, pursuant to Rule U-50, shall have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate.

COLUMBIA GAS & ELECTRIC CORP., BINGHAMTON GAS WORKS

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 5th day of June 1947.

Notice is hereby given that a joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Columbia Gas & Electric Corporation ("Columbia"), a registered holding company, and its wholly-owned subsidiary, Binghamton Gas Works ("Binghamton"). Applicants-declarants have designated sections 6 (b), 9, 10 and 12 of the act and Rules U-42 and U-44 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than June 18, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues, if any, of fact or law raised by said application-declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after June 18, 1947, said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application-declaration which is on file in the office of this Commission for a statement of the transactions therein proposed which are summarized as follows:

(a) Binghamton will amend its Certificate of Incorporation so as to (1) eliminate its 3,479 shares of authorized but unissued preferred stock; (2) increase its authorized capital from $675,000 to $1,875,000; (3) increase and reclassify its authorized common stock from 45,000 shares without par value to 75,000 shares having a par value of $25 per share; and (4) reclassify its 45,000 shares of outstanding common stock without par value into 27,000 shares of common stock, $25 par value.

(b) Binghamton will issue and sell to Columbia 40,800 shares of new common stock at the par value thereof or $1,020,000 and $800,000 principal amount of 3¼% Installment Promissory Notes. The proceeds from the sale of such securities will be use by Binghamton, together with $2,845 of treasury funds, to retire its $275,737 principal amount of 5% loans and $1,547,108 principal amount of 6% notes, all held by Columbia.

(c) Binghamton will issue and sell to Columbia an additional $1,000,000 principal amount of 3¼% notes, the proceeds of which will be used by Binghamton to reimburse its treasury for amounts previously expended for construction and to provide funds during 1947 for its construction program and the acquisition of plant supplies.

The notes to be issued by Binghamton to Columbia are to be unsecured and non-negotiable. The principal amounts thereof are to be payable in equal annual installments on August 15 of each of the years 1950 to 1974, inclusive. Interest on the unpaid principal thereof is to be payable semi-annually on February 15 and August 15. The $1,000,000 principal amount of notes to be issued by Binghamton for construction purposes are to be issued at such time and in such amounts as funds are required in connection therewith but none of such notes will be issued and sold subsequent to December 31, 1947.

Applicants-declarants state that the Public Service Commission of New York has jurisdiction over the transactions relating to the issue and sale of new common stock and 3¼% notes by Binghamton and that the order of approval of such Commission will be supplied by amendment.

Applicants-declarants have requested that the order of the Commission granting and permitting the application-declaration to become effective with respect to transactions (a) and (b) above conform to the provisions of sections 371, 373 and 1808 (f) of the Internal Revenue Code and contain the terms and recitals provided for in said sections.

By the Commission.

AMERICAN WATER WORKS AND ELECTRIC CO., INC.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 9th day of June A. D. 1947.

Notice is hereby given that a declaration has been filed with this Commission pursuant to section 12 of the Public Utility Holding Company Act of 1935 and Rule U-45 promulgated thereunder by American Water Works and Electric Company, Incorporated ("American"), a registered holding company.

Notice is further given that any interested person may not later than June 23, 1947 at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th & Locust Streets, Philadelphia 3, Pennsylvania. At any time after June 23, 1947 said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100.

All interested persons are referred to said declaration, which is on file in the offices of this Commission, for a statement of the transactions therein proposed which are summarized below:

American proposes to make a capital contribution of $335,000 in cash to its subsidiary, Huntington Water Corporation ("Huntington"). American owns all of the issued and outstanding common stock of Huntington, consisting of 10,000 shares, no par value. The proposed capital contribution is to be added by American to its investment in the common stock of Huntington and is to be credited by Huntington to its capital surplus.

Huntington is to use this cash, together with other funds, to carry out a proposed construction program made necessary by increased demands for water service. It is estimated that the total cost of such construction program during the year 1947 is to be $645,000. It is represented that no expenses are to be incurred in connection with the proposed transaction.

The filing requests that the Commission's order permitting the declaration to become effective be issued as promptly as possible and become effective on the date of issuance.

By the Commission.

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

[Orange Reg. 122]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.348 *Orange Regulation 122*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR, Cum. Supp., 933.1 et seq.; 11 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., June 16, 1947, and ending at 12:01 a. m., e. s. t., June 23, 1947, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which grade U. S. Combination Russet, U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade (as such grades are defined in the United States standards for citrus fruits, as amended (11 F. R. 13239; 12 F. R. 1)); or

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size larger than a size that will pack 126 oranges, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid amended United States standards), in a standard box (as such box is defined in the standards for containers for citrus fruit established by the Florida Citrus Commission pursuant to section 3 of Chapter 20449, Laws of Florida, Acts of 1941 (Florida Laws Annotated § 595.09)).

(2) As used in this section, "handler" and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order.

which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order, as amended.* Lemon Regulation 225 (12 F. R. 3731) is hereby amended as follows:

(1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., June 8, 1947, and ending at 12:01 a. m., P. s. t., June 15, 1947, is hereby fixed at 700 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 225 (12 F. R. 3731) and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "boxes," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such word in the said marketing agreement and order. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

LIMITATION OF SHIPMENTS

§ 953.333 *Lemon Regulation 226*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 53 (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., June 15, 1947, and ending at 12:01 a. m., P. s. t., June 22, 1947, is hereby fixed at 700 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 225 (12 F. R. 3731) and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said marketing agreement and order. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.328 *Orange Regulation 182*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66 (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., June 15, 1947, and ending at 12:01 a. m., P. s. t., June 22, 1947, is hereby fixed as follows:

(i) *Valencia oranges.* (*a*) Prorate District No. 1, unlimited movement; (*b*) Prorate District No. 2, 1900 carloads; and (*c*) Prorate District No. 3, unlimited movement.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1, no movement; (*b*) Prorate District No. 2, no movement; and (*c*) Prorate District No. 3, no movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of said order, shall calculate the quantity of oranges which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order (48

Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 12th day of June 1947.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

EXEMPTION OF CERTAIN SECURITIES OF COOPERATIVE APARTMENT HOUSES

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly sections 3 (a) (12), 15 (a) and 23 (a) thereof, and deeming such action necessary for the exercise of the functions vested in it and necessary and appropriate in the public interest and for the protection of investors, hereby adopts § 240.15a–2 (Rule X-15A–2). The rule is in the nature of an exemption, and it appears improbable that its adoption will be objectionable to any person. The Commission therefore finds that the preliminary notice and public procedure provided for in section 4 (a) and (b) of the Administrative Procedure Act are unnecessary and declares the rule effective immediately pursuant to section 4 (c) of that act, subject however to reconsideration at the end of 30 days in the event any significant comments or criticisms have then been received with reference to the rule. Such comments or criticisms may be submitted in writing to the Secretary of the Commission.

The text of the rule follows:

§ 240.15a–2 *Exemption of certain securities of cooperative apartment houses from section 15 (a).* Shares of a corporation which represent ownership, or entitle the holders thereof to possession and occupancy, of specific apartment units in property owned by such corporations and organized and operated on a cooperative basis are hereby exempted from the operation of section 15 (a) of the Securities Exchange Act of 1934, when such shares are sold by or through a real estate broker licensed under the laws of the political subdivision in which the property is located. [Rule X-15A–2]

(Secs. 3 (a) (12), 15 (a), 48 Stat. 882, 895, sec. 23 (a), 49 Stat. 1379; 15 U. S. C. 78c, 78o, 78w)

Effective: June 10, 1947.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

[Docket No. FDC 47]

PART 53—TOMATO PRODUCTS; DEFINITIONS AND STANDARDS OF IDENTITY; QUALITY AND FILL OF CONTAINER

CANNED TOMATOES

In the matter of fixing and establishing a definition and standard of identity for canned tomatoes:

By virtue of the authority vested in the Federal Security Administrator by the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055; 21 U. S. C. 341, 371); and on the basis of the evidence received at the above-entitled hearing duly held pursuant to notice issued on February 15, 1947 (12 F. R. 1090), no exceptions having been filed to the proposed order issued by the Federal Security Administrator on April 30, 1947 (12 F. R. 3021), and no issue of fact, law, or discretion being presented on the record, the following order is hereby promulgated:

Findings of fact. 1. By order dated June 18, 1940, and published in the FEDERAL REGISTER on June 19, 1940 (5 F. R. 2282) the definition and standard of identity for canned tomatoes was amended to provide for the use of, as an additional optional ingredient in canned tomatoes, purified calcium chloride, in a quantity reasonably necessary to firm the tomatoes, but in no case more than 0.07 percent (calculated as anhydrous calcium chloride) of the weight of the finished canned tomatoes.

The amended definition and standard of identity provided that when the optional ingredient, calcium chloride, was present the label should bear the statement "Trace of Calcium Chloride Added" or "With Added Trace of Calcium Chloride."

2. On the basis of the evidence received at a public hearing held prior to the promulgation of the order dated June 18, 1940 (see finding one) it was determined that the addition of calcium salts in the canning of tomatoes resulted in protecting the tomatoes against softening. At the time of that order a finding was made that, on the basis of the reported experiments with calcium salts, only calcium chloride had been demonstrated to be satisfactory for the purpose of retaining the tomatoes in a firm state.

3. Since promulgation of the order dated June 18, 1940 (see finding one) further information has shown that in addition to calcium chloride, there are other calcium salts which are suitable optional ingredients for firming canned tomatoes. These additional calcium salts are calcium sulfate, calcium citrate, and monocalcium phosphate.

4. The firming effect of calcium chloride, calcium sulfate, calcium citrate, and monocalcium phosphate upon canned tomatoes is attributable in each instance to the calcium ion, and equivalent quantities of calcium ions produce substantially equivalent firming effect. The evidence of record at the hearing did not indicate that the present limit on the amount of calcium derived from the calcium salt (see finding one) should be changed.

5. It is advantageous and practicable to limit the amount of any calcium chloride, calcium sulfate, calcium citrate, or monocalcium phosphate added as an optional ingredient to canned tomatoes in terms of the calcium content of these salts. The limit of not more than 0.07 percent calcium chloride which is specified in the present definition and standard of identity for canned tomatoes (see finding one) corresponds in terms of calcium content to 0.026 percent.

6. Since the effect of the addition of the calcium salts designated in finding 3 is essentially dependent on the calcium ions furnished and the acidic radical is unimportant a reasonably informative label statement for canned tomatoes to which one or more such calcium salts have been added is "Trace of _____ Added", or "With Added Trace of _____", the blank being filled in with the words "Calcium Salt" or "Calcium Salts", as the case may be, or with the name or names of the particular calcium salt or salts added.

Conclusion. On the basis of the foregoing findings of fact it is concluded that the following amendments to the regulations fixing and establishing a definition and standard of identity for canned tomatoes (21 CFR Cum. Supp. 53.40) will promote honesty and fair dealing in the interest of consumers and *It is ordered*, That § 53.40 *Canned tomatoes; identity; label statement of optional ingredients* be amended as follows:

1. That subparagraph (4) of paragraph (a) be deleted and the following substituted therefor:

(4) Purified calcium chloride, calcium sulfate, calcium citrate, monocalcium phosphate, or any two or more of these calcium salts, in a quantity reasonably necessary to firm the tomatoes, but in no case such that the amount of the calcium contained in such salts is more than 0.026 percent of the weight of the finished canned tomatoes.

2. That the third sentence in paragraph (b) be deleted and the following substituted therefor: "When one or more of the optional ingredients designated in paragraph (a) (4) of this section is present, the label shall bear the statement 'Trace of _____ Added' or 'With Added Trace of _____'," the blank being filled in with the words "Calcium Salt" or "Calcium Salts" as the case may be or with the name or names of the particular calcium salt or salts added.

The amendments hereby promulgated shall become effective on the ninetieth day following the date of publication of this order in the FEDERAL REGISTER.

(Secs. 401, 701, 52 Stat. 1046, 1055; 21 U. S. C. 341, 371)

Dated: June 11, 1947.

Acting Administrator.

PART 807—SUSPENSION ORDERS

HARRY WILLIAMS

Harry Williams, 4763 Santa Cruz Street, San Diego, California, as owner, on or about May 10, 1946, began and thereafter carried on the construction of a three-story residence located at 4763 Santa Cruz Street, San Diego, California, at an estimated cost of $23,574, without first having secured authorization therefor from the Federal Housing Administration. The beginning and carrying on of said construction constituted a violation of Veterans' Housing Program Order 1, and has diverted critical materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.45 *Suspension Order No. S–45.* (a) Neither Harry Williams, his successors or assigns, nor any other person shall do any further construction on the building or the premises at 4763 Santa Cruz Street, San Diego, California, including putting up, completing or altering the structure, unless hereafter specifically authorized in writing by the Federal Housing Administration or the Office of the Housing Expediter, or until the authority for controls in the Housing Expediter expire.

(b) Harry Williams shall refer to this order in any application or appeal which he may file with the Federal Housing Administration or the Office of the Housing Expediter for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Harry Williams, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

PART 807—SUSPENSION ORDERS

F. L. KERSEY

F. L. Kersey, on or about the 8th day of March, 1947, began construction of a one-story concrete block grocery store building, 50' x 70' in size, in the 11000 block on East Trent Avenue, Opportunity, Washington, at an estimated cost of $5,000, without authorization. The beginning and carrying on of construction, as aforesaid, was in violation of Veterans' Housing Program Order 1, and has diverted scarce materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.52 *Suspension Order No. S–52.* (a) Neither F. L. Kersey, his successors or assigns, nor any other person shall do any further construction on the one-story concrete block grocery store building, 50' x 70' in size, in the 11000 block on East Trent Avenue, Opportunity, Washington, including the putting up, completing or altering of the structure, unless hereafter authorized in writing by the Office of the Housing Expediter.

(b) F. L. Kersey shall refer to this order in any application or appeal which he may file with the Office of the Housing Expediter for authorization to carry on such construction.

(c) Nothing contained in this order shall be deemed to relieve F. L. Kersey, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

HARTLINE COLD STORAGE CO.

Clive E. Egbert, D. F. Jolley, and A. J. Frederick, d/b/a Hartline Cold Storage Company, on or about the 1st day of February, 1947, began construction of a one-story addition, 22' x 18' in size, to the rear of an existing grocery and meat market building on Willard Street off Main in Hartline, Washington, at an estimated cost of $5,000, without authorization. The beginning and carrying on of construction, as aforesaid, was in violation of Veterans' Housing Program Order 1, and has diverted scarce materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.54 *Suspension order No. S–54.* (a) Neither Clive E. Egbert, D. F. Jolley, and A. J. Frederick, d/b/a Hartline Cold Storage Company, their agents, successors or assigns, nor any other person shall do any further construction upon the one-story frame addition, 22' x 18' in size, to the rear of an existing grocery and meat market building on Willard Street off Main in Hartline, Washington, including the putting up, completing or altering of the structure, unless hereafter authorized in writing by the Office of the Housing Expediter.

(b) Clive E. Egbert, D. F. Jolley, and A. J. Frederick, d/b/a Hartline Cold Storage Company, shall refer to this order in any application or appeal which they may file with the Office of the House Expediter for authorization to carry on such construction.

PART 807—SUSPENSION ORDERS

SAM J. BRADFORD AND ALBERT J. THOMASON

Sam J. Bradford, Box 95, Hailey, Idaho, as owner, and Albert J. Thomason, of Hailey, Idaho, a partner of Theodore C. Divine, as contractor, on or about the 2d day of September, 1946, began construction of a concrete and concrete block automobile repair garage and automobile salesmoon, 78½' x 51' in size, located at the north city limits of Hailey, Idaho, on the west side of Highway 93, at an estimated cost of $10,000, without authorization. The beginning and carrying on of construction, as aforesaid, was in violation of Veterans' Housing Program Order 1, and has diverted scarce materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.55 *Suspension Order No. S–55.* (a) Neither Sam J. Bradford, his agents, successors or assigns, nor Albert J. Thomason, nor the partnership of Albert J. Thomason and Theodore C. Divine, their agents, successors, or assigns, nor any other person shall do any further construction upon the concrete and concrete block automobile repair garage and automobile salesroom, 78½' x 51' in size, located at the north city limits of Hailey, Idaho, on the west side of Highway 93, including the putting up, completing or altering of the structure, unless hereafter authorized in writing by the Office of the Housing Expediter.

(b) Sam J. Bradford and Albert J. Thomason shall refer to this order in any application or appeal which they may file with the Office of the Housing Expediter for authorization to carry on such construction.

(c) Nothing contained in this order shall be deemed to relieve Sam J. Bradford and Albert J. Thomason, their agents, successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 13th day of June 1947.

PART 807—SUSPENSION ORDERS

ROBERT CALLAHAN

Robert Callahan, 522 East Main Street, Grandview, Washington, on or about the 15th day of January, 1947, began construction of a six-unit auto court, approximately 16' x 100' in size, located at the east end of Main Street in Grandview, Washington, at an estimated cost of $6,000, without authorization. The beginning and carrying on of construction, as aforesaid, was in violation of Veterans' Housing Program Order 1, and has diverted scarce materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.57 *Suspension Order No. S–57.* (a) Neither Robert Callahan, his successors or assigns, nor any other person shall do any further construction upon the six-unit auto court, approximately 16' x 100' in size, located at the east end of Main Street in Grandview, Washington, including the putting up, completing or altering of the structure, unless hereafter authorized in writing by the Office of the Housing Expediter.

(b) Robert Callahan shall refer to this order in any application or appeal which he may file with the Office of the Housing Expediter for authorization to carry on such construction.

(c) Nothing contained in this order shall be deemed to relieve Robert Callahan, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 13th day of June 1947.

PART 809—VETERANS' HOUSING PROGRAM ORDERS

RECONSTRUCTION IN RUTLAND COUNTY, VERMONT

The following direction is issued pursuant to Veterans' Emergency Housing Program Order 1:

Until further notice, it is not necessary to get authorization under Veterans' Housing Program Order 1 for restoration jobs on buildings or other structures covered by VHP–1 in the Rutland County, Vermont, area, if the restoration is made necessary by damage caused by the flood which occurred on June 2 and 3, 1947. This direction is limited to the restoration of structures to substantially the same size and condition as on June 1, 1947.

TITLE 25—INDIANS

Chapter I—Office of Indian Affairs, Department of the Interior

Subchapter T—Patents in Fee, Competency Certificates, Sales and Reinvestment of Proceeds

[Order No. 2332]

PART 241—ISSUANCE OF PATENTS IN FEE, CERTIFICATES OF COMPETENCY, SALE OF CERTAIN INDIAN LANDS, AND REINVESTMENT OF PROCEEDS

MISCELLANEOUS AMENDMENTS

Order No. 420 (not codified) and Order No. 498, 25 CFR, 1939 Supp., 241.12a, are repealed.

Sections 241.1, 241.2, and 241.34 are amended, a subheading is inserted immediately following § 241.48, and §§ 241.49, 241.50, and 241.51 are added, to read as follows:

§ 241.1 *Application for patent in fee.* Any Indian 21 years of age or over may apply for a patent in fee for any land held by him under a trust patent. Application should be made on Form 5–105 or such other form as the Commissioner of Indian Affairs may prescribe. The application must be filed with the Superintendent of the Indian agency having jurisdiction over the land which the applicant seeks to have patented in fee. The application must contain full information regarding the competency of the applicant and his ability to manage his own affairs. (R. S. 161, 34 Stat. 182, 34 Stat. 1034, Pub. Law 687, 79th Cong., 60 Stat. 939; 5 U. S. C. 22, 25 U. S. C. 349, 1a)

§ 241.2 *Issuance of patents in fee.* (a) Except as provided in paragraph (d) of this section, the issuance of a patent in fee to any Indian holding land held under a trust patent is discretionary, and no patent in fee will be issued to any applicant unless he submits satisfactory evidence that he is competent and capable of managing his own affairs.

(b) The location of the land covered by the application in relation to other trust or restricted Indian land may be taken into consideration in acting upon the aplication.

(c) Except as provided in paragraph (d) of this section, any application for a patent in fee may be denied when it appears that the applicant is not qualified to receive a patent in fee or when the land applied for lies within an area largely occupied and used by Indians whose lands are held in a trust or restricted status. Whenever an application for a patent in fee is denied, the applicant shall be notified in writing of that fact. The notice shall contain a statement of the reasons for denying the application and shall inform the applicant of his right of appeal.

(d) The issuance of patents in fee to adult mixed-blood Indians owning land within the White Earth Reservation in the State of Minnesota is mandatory upon application being made by such adult mixed-blood Indians. No evidence of the competency of the applicant to handle his own affairs shall be required. (R. S. 161, 34 Stat. 182, 34 Stat. 1034, Pub. Law 687, 79th Cong., 60 Stat. 939; 5 U. S. C. 22, 25 U. S. C. 349, 1a)

§ 241.34 *Removal of restrictions, application.* Application for the removal of restrictions and for approval of sales of lands must be made in triplicate on approved form Five Civilized Tribes, 5–484, and submitted to the Superintendent for the Five Civilized Tribes or any field clerk. These forms will be furnished free of charge by the Superintendent or field clerk. (R. S. 161, secs. 1, 9, 35, Stat. 312, 315, sec. 1, 45 Stat. 495, 46 Stat. 1471, 47 Stat. 474, secs. 1, 47 Stat. 777, Pub. Law 687, 79th Cong., 60 Stat. 935; 5 U. S. C. 22, 25 U. S. C. 409a, 1a)

SALES, REMOVALS OF RESTRICTIONS AGAINST ALIENATION, AND CONVEYANCES OF PURCHASED LANDS

Sec.
241.49 Purchased lands defined
241.50 Sale of purchased lands.
241.51 Removal of restriction against alienation of purchased lands.

AUTHORITY: §§ 241.49 to 241.51, inclusive, issued under R. S. 161, 47 Stat. 474, Pub. Law 687, 79th Cong., 60 Stat. 939; 5 U. S. C. 22, 25 U. S. C. 1a.

§ 241.49 *Purchased lands defined.* Purchased lands are defined to include all lands held by individual Indians under deeds or other instruments of conveyance which recite that the lands shall not be sold or alienated without the consent or approval of the Superintendent, the Commissioner of Indian Affairs, or the Secretary of the Interior, irrespective of whether the lands were acquired by purchase with restricted moneys, in exchange for other restricted property, or as gifts.

§ 241.50 *Sale of purchased lands.* The Indian owner of purchased land may apply for the sale of all or any part of such land in conformity with the applicable provisions of §§ 241.17 to 241.32, inclusive. No sale or conveyance made pursuant thereto shall be valid unless approved by the Commissioner of Indian Affairs or his authorized representative.

§ 241.51 *Removal of restrictions against alienation of purchased lands.* Applications for the removal of restrictions from purchased lands shall be filed by the Indian owners with the Superintendent having jurisdiction over the lands. If the lands are not located within the territorial limits of an Indian reservation, the Indian owners may file the applications with the Superintendent most conveniently located with respect to the land. Each application shall set forth the experience which the applicant has had in the transaction of his business affairs and the reasons why a removal of restrictions is desired. An appraisement of the land shall be made. If it appears that the applicant is competent and capable of managing his affairs or that the removal of restrictions is otherwise to the best interests of the applicant, an order removing all restrictions against alienation of the land covered by the application will be issued

by the Commissioner of Indian Affairs or his authorized representative.

PART 4—DELEGATIONS OF AUTHORITY

BUREAU OF LAND MANAGEMENT, DELEGATIONS TO DIRECTOR

MAY 29, 1947.

The first sentence of paragraph (a) of § 4.276 contained in Order No. 2238 of August 16, 1946, is amended to read as follows:

§ 4.276 *Functions relating to grazing district administration.* (a) The Director of the Bureau of Land Management and the several regional administrators of that Bureau when authorized to do so by an order of the director published in the FEDERAL REGISTER, may act in relation to the following classes of matters without obtaining Secretarial approval, unless the Secretary in any particular matter determines otherwise, and subject in any event to an appeal to the Secretary according to the rules of practice.

PART 191—MINERAL PERMITS, LEASES AND LICENSES

SPECIAL STIPULATIONS FOR LANDS IN NATIONAL FORESTS AND RECLAMATION PROJECTS; INTERESTS HELD IN COMMON

Sections 191.6 and 191.8 are hereby amended to read as follows:

§ 191.6 *Special stipulations for lands in national forests and reclamation projects.* Applicants for permits, leases and licenses for lands in national forests will be required to consent to the inclusion therein of the stipulation on Form 4–216. Where the land has been withdrawn for reclamation purposes the applicant may be required to consent to the inclusion of a stipulation on Form 4–467 if the lands are potentially irrigable, or Form 4–467 (a) if the lands are within the flow limits of a reservoir site, or Form 4–467 (b) if the lands are within the drainage area of a constructed reservoir. Other conditions may be imposed, if deemed necessary, to protect the lands withdrawn for reclamation purposes.

§ 191.8 *Interests held in common.* An association shall not be deemed to exist between the parties to a contract for development of leased lands, whether or not coupled with an interest in the lease, nor between co-lessees, but each party to any such contract or each co-lessee will be charged with his proportionate interest in the lease. No holding of acreage in common by the same persons in excess of the maximum acreage specified in the law for any one lessee or permittee for the particular mineral deposit so held will be permitted.

OSCAR L. CHAPMAN,
Acting Secretary of the Interior.

JUNE 6, 1947.

Form 4–216 (revised June 1947)

STIPULATION

The lands embraced in this lease (permit), issued under the mineral leasing act of February 25, 1920 (41 Stat. 437), as amended, being within a national forest, the lessee (permittee) hereby agrees:

(1) Not to cut or destroy timber without first obtaining permission from the authorized representative of the Secretary of Agriculture, and to pay for all such timber cut or destroyed at rates prescribed by such representative; to avoid unnecessary damage to improvements, timber, or other cover; unless otherwise authorized by the representative of the Secretary of Agriculture, not to drill any well within 200 feet of any building standing on the leased land; and whenever required in writing by the authorized representative of the Secretary of Agriculture, to fence all sump holes and other excavations made by lessee (permittee).

(2) To do all in his power to prevent and suppress forest, brush or grass fires on the leased land and in its vicinity, and to require his employees, contractors, subcontractors, and employees of contractors or subcontractors to do likewise. Unless prevented by circumstances over which he has no control, the lessee (permittee) shall place his employees, contractors, subcontractors, and employees of contractors and subcontractors employed on the leased land at the disposal of any authorized officer of the Department of Agriculture for the purpose of fighting forest, brush, or grass fires, with the understanding that payment for such services shall be made at rates to be determined by the authorized representative of the Secretary of Agriculture, which rates shall not be less than the current rates of pay prevailing in the vicinity for services of a similar character: *Provided*, That if the lessee (permittee), his employees, contractors, subcontractors, or employees of contractors or subcontractors, caused or could have prevented the origin or spread of the said fire or fires, no payment shall be made for services so rendered.

During periods of serious fire danger to forest, brush, or grass, as may be specified by the authorized representative of the Secretary of Agriculture, the lessee (permittee) shall prohibit smoking and the building of camp and lunch fires by his employees, contractors, subcontractors, and employees of contractors or subcontractors within the leased area except at established camps, and shall enforce this prohibition by all means within his power: *Provided*, That the authorized representative of the Secretary of Agriculture may designate safe places where, after all inflammable material has been cleared away, camp fires may be built for the purpose of heating lunches and where, at the option of the lessee (permittee), smoking may be permitted.

The lessee (permittee) shall not burn rubbish, trash, or other inflammable material except with the consent of the authorized representative of the Secretary of Agriculture and shall not use explosives in such manner as to scatter inflammable materials on the surface of the land during the forest, brush, or grass fire season, except as authorized to do so or on areas approved by such representative.

The lessee (permittee) shall build or construct, such fire lines or do such clearing on the leased land as the authorized representative of the Secretary of Agriculture decides is necessary for forest, brush, and grass fire prevention and shall maintain such fire tools at his headquarters on the leased land as are deemed necessary by such representative.

(3) To pay the lessor or his tenant, as the case may be, for any and all damage to or destruction of property caused by lessee's (permittee's) operations hereunder; and to save and hold the lessor harmless from all damage or claims for damage to persons or property resulting from the lessee's (permittee's) operations under this lease (permit).

(4) To address all matters relating to this stipulation to the Forest Supervisor of the National Forest in which the leased lands are located, or to such other representative as the Secretary of Agriculture may, from time to time, designate in writing delivered to the lessee (permittee).

(5) If lessee (permittee) shall construct any camp on the land, such camp shall be located at a place approved by the forest supervisor, and such forest supervisor shall have authority to require that such camp be kept in a neat and sanitary condition.

Lessee (Permittee).

[Circular 1624 (a)]

PART 192—OIL AND GAS LEASES

MISCELLANEOUS AMENDMENTS

1. Sections 192.4 (c) and (e), 192.40, 192.83, 192.141 and 192.145 (Circular 1624) are amended to read as follows:

§ 192.4 *Acreage limitations on options.* * * *

(c) Within the meaning of this section, options may be taken only on lands embraced in leases or applications for leases and the acreage included in any such option taken upon an application for a lease shall be chargeable from and after the date of such option.

* * * * * *

(e) No acreage shall be chargeable under options taken prior to June 1, 1946, on which geological or geophysical exploration has been actually made if exercised prior to August 9, 1948, but no such option not so exercised will be recognized by the Department, thereafter, for any purpose.

§ 192.40 *Classes and term.* All lands subject to disposition under the act which are known or believed to contain oil or gas may be leased by the Secretary of the Interior. When within the known geologic structure of a producing oil or gas field, such land may be leased only by competitive bidding and in units of not exceeding 640 acres to the highest responsible qualified bidder at a royalty of not less than 12½ per cent. Leases for not to exceed 2,560 acres, in reasonably compact form, may be issued for all other land subject to the act to the first qualified applicant at a royalty of 12½ per cent. No single lease will be issued embracing lands which cannot be included within a six mile square area. Where an application covers tracts which cannot be so contained two or more leases, as may be necessary, will be issued. The right is reserved to suspend, or reject in whole or in part, applications involving scattered tracts considerably more than six miles apart. Hereafter, all leases, except those issued as renewals of 20 year leases, will be issued for a primary term of five years and so long thereafter as oil or gas is produced in paying quantities.

§ 192.83 *Limitation of overriding royalties.* Any agreement to create overriding royalties or payments out of the production of any lease which, when added to overriding royalties or payments out of production previously created and to the royalty payable to the United States, aggregate in excess of 17½ per cent shall be deemed a violation of the terms of the lease unless such agreement expressly provides (a) that the obligation to pay such excess overriding royalties or payments out of production will be suspended and not be effective during any periods when the average production per well per day is 15 barrels or less, and (b) that such suspension will apply separately to any zone or portion of a lease segregated for computing Government royalty.

§ 192.141 *Requirements for filing assignments or transfers.* All instruments of transfer of a lease or of an interest therein, including assignments of record title, working or royalty interests, operating agreements and subleases, must be filed for approval within 90 days from the date of final execution and must contain evidence of the qualifications of the assignee or transferee, consisting of the same showing required of a lease applicant by § 192.42 (b) and (c). If a bond is necessary, it must be furnished. Where an assignment does not create separate leases, the assignee, if the assignment so provides, may become a joint principal on the bond with the assignor. Assignments of record title interests must be filed in triplicate. A single executed copy of all other instruments of transfer is sufficient. If the instrument or an accompanying statement does not show the full and true amounts of all overriding royalties or payments out of production, any decision approving the transfer will require the transferee to furnish within 30 days from notice a complete showing of all outstanding overriding royalties and payments out of production affecting the transferred land, not theretofore shown, and upon his failure to do so the lease will be cancelled as provided in § 191.161 of this chapter.

The assignor or sublessor and his surety will continue to be responsible for the performance of any obligation under the lease until the assignment or sublease is approved. If the assignment or transfer is not approved, their obligations to the United States shall continue as though no such assignment or transfer had been filed for approval. After approval the assignee or sublessee and his surety will be responsible for the performance of all lease obligations notwithstanding any terms in the assignment or sublease to the contrary.

Unless the lease account is in good standing as to the area covered by the assignment when the assignment and bond are filed, or is placed in good standing before the assignment is reached for action the lease will be cancelled as provided in § 191.161 of this chapter.

§ 192.145 *Royalty interests in oil and gas leases and assignments thereof.* Royalty interests in oil and gas leases constitute holdings or control of lands and deposits within the meaning of the first sentence of section 27 of the act. Assignments of such interest must be filed for record purposes in the appropriate district land offices accompanied by a showing by the assignees as to their citizenship and holdings in other oil and gas leases in the state. All assignments of royalty interests must be filed for the record, but those of 1 percent or less will be approved only upon specific request and then only after discovery. Any assignment of 1 percent or less if filed for record will be deemed to be valid whether formally approved or not.

2. The last sentence of the first paragraph of § 192.42 is amended to read as follows: "Proof of the authority of the officer or agent who makes application on behalf of a corporation must be furnished."

3. Section 2 (r) Oil and Gas Lease Form 4–213 provided for in § 192.44, Title 43 of the Code of Federal Regulations is hereby amended to read as follows:

§ 192.44 *Form of lease.* * * *

(r) *Overriding royalties.* To limit the obligation to pay overriding royalties or payments out of production in excess of 5 percent to periods during which the average production per well per day is 15 barrels or less on an entire leasehold or any part of the area thereof or any zone segregated for the computation of royalties.

Chapter III—Employment Security, Federal Security Agency

PART 350—RECONVERSION UNEMPLOYMENT BENEFITS FOR SEAMEN

Sec.
350.1 Definitions.
350.2 Starting date of benefits.
350.3 Allocation of Federal maritime service and wages.
350.4 Determination of Federal maritime service and wages.
350.5 Determination of benefits.
350.6 Appeals.
350.7 Agency records and reports.
350.8 Advances and reimbursements.
350.9 Overpayments; prosecutions and penalties.

AUTHORITY: §§ 350.1 to 350.9, inclusive, issued under Title XIII, Pub. Law 719, 79th Cong., 60 Stat. 983. Additional statutory provisions interpreted or applied are noted following sections affected

§ 350.1 *Definitions.* As used in this part:

(a) "Act" means Title XIII, of the Social Security Act, as amended (Pub. Law 719, 79th Cong.).

(b) "Administrator," unless otherwise specified, means the Federal Security Administrator.

(c) "Agency" means any agency administering a State unemployment compensation law which has entered into an agreement with the Administrator under the act.

(d) "Benefits" means Reconversion Unemployment Benefits for Seamen payable under the act.

(e) "Benefit year" means the benefit year prescribed in the applicable State unemployment compensation law; except that if such State law does not prescribe any benefit year, then such term means any period of fifty-two consecutive weeks specified in an applicable agreement made under the act or prescribed by the Administrator.

(f) "Compensation" means amounts payable to individuals with respect to their unemployment (including any portion thereof payable with respect to dependents), but excluding any amounts payable with respect to unemployment due to disability. (Title XIII of the Social Security Act, as amended (Pub. Law 719, 79th Cong.); 60 Stat. 982)

§ 350.2 *Starting date of benefits.* Benefits are first payable for unemployment occurring after the date funds are made available for such payments. (Applies sec. 1305 (c), Title XIII of the Social Security Act, as amended (Pub. Law 719, 79th Cong.); sec. 1305 (c), 60 Stat. 985.)

§ 350.3 *Allocation of Federal maritime service and wages.* (a) The Federal maritime services and wages of an individual claiming benefits shall be allocated to the State in which the individual, on or after the starting date of benefits, first files a claim for benefits to the extent that such services were performed or such wages paid during the base period prescribed in the unemployment compensation law of such State. To the extent required by such State's law, wages paid for services performed in a base period shall be simi-

larly allocated even though such wages were paid subsequent to said period.

(b) All benefits paid to an individual during the benefit year in which his first claim for benefits is filed or which is established by the filing of a claim for benefits shall be paid to him only pursuant to the law of such State.

(c) Upon the expiration of the benefit year in which an individual's first claim for benefits is filed or which is established by the filing of such claim, the Federal maritime services and wages of such individual shall be allocated to the extent provided in paragraph (a) of this section to the State in which he next files a claim for benefits.

(d) Federal maritime services or wages allocated to a State shall not thereafter be allocated to any other State. (Sec. 1303 (b), Title XIII of the Social Security Act, as amended (Pub. Law 719, 79th Cong.); sec. 1303 (b), 60 Stat. 983)

§ 350.4 *Determination of Federal maritime service and wages.* (a) The agency shall accept as final and conclusive, except as otherwise provided in this part, the determinations made by the Administrator of the War Shipping Administration, and such agents as he may designate as evidenced by returns filed by such Administrator as an employer pursuant to section 1426 (1) of the Internal Revenue Code or transcripts or certifications of such returns furnished by the Federal Security Administrator, and certifications made pursuant to section 209 (o) of the Social Security Act, as amended, as to (1) whether an individual has performed services which are Federal maritime services and (2) the periods of such services, or the amounts of remuneration for such services, or the periods in which or for which such remuneration was paid.

(b) If the individual's Federal maritime services were performed or his Federal maritime wages paid during the quarter in which the claim for benefits was filed or the completed calendar quarter immediately preceding the date of the filing of the claim, the agency may accept certification under oath by the individual of facts relating to his Federal maritime service performed and wages for such service which were paid in such quarters.

(c) Where the State law requires a proration of wages paid to a claimant in accordance with the period or periods in which the services for which such wages were paid were performed, or requires a number of weeks of employment as a condition to eligibility for benefits, the agency may accept a certification under oath by the individual as to the periods of such services, the amounts of remuneration for such services, and the periods for which such remuneration was paid, to the extent that this information is necessary for a determination of the claimant's entitlement to benefits.

(d) A determination made by the Administrator of the War Shipping Administration, or agents designated by him, as to matters specified in paragraph (a) of this section shall be subject to review only in accordance with paragraphs (b), (c), and (d) of § 350.6. (Interprets and applies secs. 1302 (c), 1302 (d), 1303 (e) (2), Title XIII of the Social Security Act, as amended (Pub. Law 719, 79th Cong.); secs. 1302 (c), 1302 (d), 1303 (e) (2), 60 Stat. 983 et seq.)

§ 350.5 *Determination of benefits.* (a) The agency of the State to which an individual's maritime services and wages have been allocated, pursuant to § 350.3, shall determine the individual's entitlement to benefits and pay such benefits in the same amounts, on the same terms and subject to the same conditions as the compensation which would be payable to such individual under the State unemployment compensation law if the individual's Federal maritime service and Federal maritime wages had been included as employment and wages under such law.

(b) There shall be deducted from the benefit amount so computed and to which the individual is entitled for any week, 15 per centum of the amount of any payment which such individual is entitled to receive on account of past services performed as an officer or employee of the United States, under any law of the United States relating to the retirement of officers or employees of the United States, for the month in which such week begins, unless a deduction from such benefits on account of such annuity or retirement pay is otherwise provided for by the applicable State law. (Interprets and applies secs. 1303 (b), 1304 (a), Title XIII of the Social Security Act, as amended (Pub. Law 719, 79th Cong.); secs. 1303 (b), 1304 (a), 60 Stat. 983 et seq.)

§ 350.6 *Appeals.* (a) Determinations of entitlement to benefits by the agency made pursuant to an agreement under the act, shall be subject to review in the same manner and to the same extent as determinations under the State unemployment compensation law, and only in such manner and to such extent.

(b) Pursuant to General Order No. 50 of the United States Maritime Commission (Rev. G. O. 50, WSA Function Series), the appeals authorities authorized by State unemployment compensation laws to hear and determine appeals from claims for benefits under such laws are hereby designated to hear, determine and make certification with respect to matters determinable by the Maritime Commission pursuant to section 209 (o) of the Social Security Act, as amended, which may be involved in or presented at hearings conducted in accordance with paragraph (a) of this section and pursuant to sections 1303 and 1304 of the Social Security Act, as amended. All issues involved in such a case may be disposed of at a single hearing or review, and by a single decision. In reaching and making such determination, the hearing official shall follow the provisions of section 209 (o) of the Social Security Act, as amended, and the regulations or orders issued pursuant thereto from time to time by the Maritime Commission.

(c) In the conduct of any appeal involving matters determinable by the Administrator of the War Shipping Administration pursuant to section 209 (o) of the Social Security Act, as amended, notice of the hearing shall be given to the General Agent of the War Shipping Administration who shall have filed the tax return or made the certification referred to in § 350.4 (a), and to the Maritime Commission.

(d) A determination of an individual's Federal maritime service or wages made in accordance with this section shall for the purposes of the act supersede all previous determinations and certifications of the Administrator of the War Shipping Administration or his designated agents and, except as subject to further review as provided by law, shall be final and binding on all parties to the hearing. (Interprets and applies sections 1302 (c), 1302 (d), 1304 (a), Title XIII of the Social Security Act, as amended (Pub. Law 719, 79th Cong.); secs. 1302 (c), 1302 (d), 1304 (a), 60 Stat. 983 et seq.)

§ 350.7 *Agency records and reports.* (a) Each application for benefits shall bear a suitable designation or code to identify it as a claim for benefits pursuant to Title XIII, and such designation or code shall be used to identify all proceedings and actions in the claim.

(b) Each agency shall maintain records pertaining to all claims for benefits containing such information as the Administrator shall from time to time prescribe.

(c) Each agency shall make the same reports and furnish the same information to the Administrator with respect to claims for benefits as it makes and furnishes to the Social Security Administration of the Federal Security Agency with respect to claims for compensation filed under its law, together with such additional reports and information as the Administrator may from time to time require.

(d) The records of the agency pertaining to the payment of benefits shall be accessible for inspection, examination and audit by the representatives of the Bureaus of Employment Security and Accounts and Audits of the Social Security Administration of the Federal Security Agency, and by such other persons as the Administrator may designate. (Applies sec. 1304 (c), Title XIII of the Social Security Act, as amended (Pub. Law 719, 79th Cong.); sec. 1304 (c), 60 Stat. 984)

§ 350.8 *Advances and reimbursements.* Each agency shall submit requests for advances and reimbursements for the payment of benefits pursuant to an agreement under Title XIII on such forms together with such supporting information as the Administrator may from time to time prescribe. (Applies secs. 1304 (c), 1305 (b), Title XIII of the Social Security Act, as amended (Pub. Law 719, 79th Cong.); secs. 1304 (c), 1305 (b), 60 Stat. 984 et seq.)

§ 350.9 *Overpayments, prosecutions and penalties.* Each agency shall report any apparent violation of the act, subject to penalty under section 1306, to the appropriate Regional Representative of the Bureau of Employment Security of the Social Security Administration, Federal Security Agency. (Applies sec. 1306, Title XIII of the Social Security Act, as amended (Pub. Law 719, 79th Cong.); sec. 1306, 60 Stat. 985 et seq.)

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 8089]

PART 3—RADIO BROADCAST SERVICES

INTERFERENCE RATIOS

JUNE 10, 1947.

In the matter of amendments to Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

At a meeting of the Federal Communications Commission held at its offices at Washington, D. C. on the 9th day of June 1947;

The Commission having under consideration proposed amendments to the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, which amendments relate to the conditions under which the assignment of two stations in the same ground-wave service area may be made when a frequency separation of less than 40 kilocycles is proposed; and

It appearing, that notice of proposed rule making pursuant to section 4 of the Administrative Procedure Act was issued by the Commission on December 20, 1946, and was duly published in the FEDERAL REGISTER; and

It further appearing, that written comments, briefs and recommendations regarding the proposed amendments were submitted to the Commission by interested parties who were afforded an opportunity to present testimony and oral argument at hearings held for those purposes by the Commission on March 7 and 10, 1947; and

It further appearing, that said comments, briefs, recommendations, testimony and oral argument have been considered carefully by the Commission and portions thereof have been adopted by the Commission; and

It further appearing, that, for the reasons set forth in the annexed report issued by the Commission on June 9, 1947, the public interest, convenience, and necessity will be served by the adoption of the proposed amendments;

It is ordered, That, effective July 17, 1947, the Standards of Good Engineering Practice Concerning Standard Broadcast Stations be, and they hereby are amended as follows:

Under the table headed "Interference Ratios" which follows Table IV in section 1, Engineering Standards of Allocation, of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations, insert:

From the above, it is apparent that in many cases stations operating on channels 10 and 20 kilocycles apart may be operated with antenna systems side by side or otherwise in proximity without any indications of interference if the interference is defined only in terms of permissible ratios hereinbefore listed in the table headed Interference Ratios. As a practical matter, serious interference problems may arise when two or more stations with the same general service area are operated on channels 10, 20 and 30 kilocycles apart.

Accordingly, no station will be licensed for operation with less than 40 kilocycles separation from another station, if the area enclosed by the 25 mv/m groundwave contours of the two stations overlap. Frequency separation of 20 kilocycles and 10 kilocycles are considered inappropriate for stations with the same general urban coverage and therefore no station will be licensed for operation with less than 30 kilocycles frequency separation if the area enclosed by the 25 mv/m groundwave contour of either one overlaps the area enclosed by the 2 mv/m groundwave contour of the other.

(Secs. 303 (c), 48 Stat. 1082, 303 (r), 50 Stat. 191, 407 (b), 48 Stat. 1083; 47 U. S. C. 303 (c), 303 (r), 307 (b))

Report of the Commission. This report sets forth the Commission's decision with respect to proposed amendments to the Standards of Good Engineering Practice Concerning Standard Broadcast Stations set forth in Public Notice No. 4485, dated February 4, 1947. These amendments related to the conditions under which the assignment of two stations in the same groundwave service area may be made when a frequency separation of less than 40 kilocycles is proposed. The proposed amendments to the Standards of Good Engineering Practice Concerning Standard Broadcast Stations were previously published in accordance with section 4 (a) of the Administrative Procedure Act under the date of December 20, 1946, Public Notice No. 1786.

The rule as proposed prohibited licensing a station with less than a 40 kilocycle separation from another station if the area enclosed by the 25 millivolt per meter contours of the two stations overlap. The proposed rule further prohibited the licensing of stations with a frequency separation of only 10 kilocycles and 20 kilocycles with the same general urban coverage if the areas enclosed by the 25 mv/m contour of either one would overlap the area enclosed by the 2 mv/m contour of the other.

Pursuant to section 4 (a) of the Administrative Procedure Act a hearing and oral argument on the proposed amendments was held before the Commission en banc on March 7 and 10, 1947. Oral argument from counsel for several interested persons was heard and the Commission received expert testimony from twelve consulting engineers. Testimony of the consulting engineers for the most part was directed to the question whether or not the Commission should adopt the proposed rule or whether the standards should permit assignment of stations with a frequency separation of only 30 kilocycles if the 250 mv/m groundwave contours of the two stations concerned would not overlap. Fewer than half of the consulting engineers expressed any degree of assurance that assignments could safely be made under the latter proposal. The remaining expert witnesses agreed that the rule proposed by the Commission was the only one that could be safely adopted at this time. It appeared, however, that the experts testifying had never had a full and complete opportunity to make over-all findings on either of the two proposals. The opportunity for making such findings had not been presented over a sufficient portion of the standard broadcast band because assignments of the kind necessary for such findings had not been made by the Commission. The Commission's principal staff witness recommended the adoption of a more conservative standard because his experience indicated that a safe standard which would cut the possibility of interference arising out of assignments with a frequency separation of only 30 kilocycles should be limited to those in which the 15 mv/m contours of the two stations would not overlap.

Interference to listeners resulting from assignments on adjacent channels in the standard broadcast band is caused by nonselectivity of receivers, external cross-modulation and internal cross-modulation. Although testimony adduced at the hearing indicated that only a relatively small proportion of the radio receivers in use by the general public were so non-selective that undesired stations 30 kilocycles apart could not be tuned-out from the desired station, it appears that a sufficient number of the general public owned such receivers and were entitled to decent broadcast service which they could not get if stations were too closely assigned in the standard broadcast band in the same general groundwave service area. The problem of external cross modulation is not limited to stations 30, 40, or 50 kilocycles apart. But the higher the fields over a given area the more likely external cross modulation may exist to the extent that it is objectionable. Any proposed standard which would permit the assignment of numerous stations to serve a certain area would create more possibilities of interference; however, a portion of the general public would suffer from this type of interference. Most often objectionable cross modulation exists in the old residential districts when the fields are high over these districts. It is in these districts generally that electric wiring and water systems are not in good repair. The metallic material of the systems is likely to contain nonlinear elements which give rise to cross-modulation.

The type of interference that could be caused by close frequency assignments of standard broadcast stations which would be heard by all of the public receiving service in the areas of the stations involved is the type described as internal cross-modulation, a function of the transmitters. This type of interference results when transmitters are

so located and so constructed that the signal emitting from one transmitter is received and re-transmitted by a second transmitter resulting in the second transmitter broadcasting its own intended signal and the spurious signal mixed in with its intended emission. The spurious signal being received and re-broadcast as result of the proximity of the two transmitters with resulting fields of high intensity. Testimony indicated that the closer the frequency separation between the two transmitters the greater likelihood of internal cross-modulation.

Testimony from one group of expert witnesses adduced at this hearing indicated that all internal cross-modulation problems could be obviated by the proper design and construction of filters and circuits in the transmitter suffering internal cross-modulation. Their testimony, however, indicated that the design of such filters and circuits required the services of highly trained and highly qualified consulting engineers and entailed a great deal of work at a substantial cost.

The problems presented herein have been the subject of study for a long period of time. The Commission intends to continue such studies. The special studies undertaken for the purpose of this hearing upon which testimony was adduced were concerned only with the problems of non-selectivity of receivers and of external cross-modulation. Neither of the two studies were conducted for sufficient length of time or over a sufficient portion of the standard broadcast band to permit conclusions to be drawn with complete confidence. In addition the Commission is of the opinion that a study should be undertaken of the many new types of radio receivers on the market since the end of hostilities in 1945 so that the Commission will be informed as to the characteristics of these receivers. In the meantime the Commission believes that relaxation of the standards should not be undertaken in the absence of a showing that radio service will not be deteriorated thereby. On the basis of the evidence adduced at the hearing the Commission is of the opinion that there is no warrant for relaxing the standards beyond the point set forth in the proposed rules. Otherwise, the danger exists that severe deterioration of service may result to many listeners. The Commission intends to continue its studies in the matter and will reopen the matter for further consideration when new data have been collected.

Adopted: June 9, 1947.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter K—Alaska Wildlife Protection

PART 92—ALASKA GAME COMMISSION; GUIDES, POISONS, AND RESIDENT TRAPPING, HUNTING AND FISHING LICENSES

GUIDE LICENSES

Section 92.2 is amended to read as follows:

§ 92.2 *Qualifications for guide licenses and issuance thereof.* Only resident citizens who are 21 years of age or more and have resided in the Territory for the 5 years immediately preceding application for registration and a guide license will be registered and licensed to act as guides for nonresidents and aliens taking game animals for any purpose, or going afield to photograph large brown or grizzly bears.

The Alaska Game Commission will establish guide districts and maintain a register of such persons as are duly qualified and licensed to act as guides in such districts.

Applications for such registration and guide license shall be made to a Wildlife agent employed in the guide district in which the applicant resides, on a form issued by the Commission and shall state applicant's citizenship and resident status, age, physical characteristics, permanent address, and district or districts in which he desires to operate, together with full information relative to his qualifications to act as guide and shall be subscribed and sworn to by the applicant before an officer authorized to administer oaths.

Upon receipt of such application by the Wildlife Agent, he shall conduct such written and oral examinations and make such investigations as the Commission shall require to determine the qualifications of the applicant to act as a guide.

The Wildlife Agent who conducts such examinations shall promptly file his report thereof with the Executive Officer of the Commission, together with his recommendation thereon, which report and recommendation shall be attached to the application and considered and determined at a regular or special meeting of the Commission.

The Executive Officer of the Commission may, after investigation and satisfying himself of an applicant's qualifications, issue a guide license to him upon payment of the required fee, authorizing him to act as a guide under the terms of the license, subject to approval of the Commission at its next meeting.

If the Commission determines that the applicant does not possess sufficient field experience to qualify him to act as a principal guide but has all other qualifications, an assistant guide license may be issued to him, which shall authorize him to act as assistant to a principal guide.

A registered guide license must bear the signature of the Executive Officer of the Commission. Each license shall expire on June 30 next succeeding its issuance, shall be revocable at the discretion of the Commission, and shall not be transferable.

Each licensed guide shall submit to the Commission, immediately upon completion of a hunting or photographing trip, a report containing the name and address of the nonresident or alien for whom he acted as guide, period covered by his services, number and species of animals taken, wounded and not secured, numbers and localities of each species of big game animal observed on the trip, and such other information as the Commission may require. (Sub. D, 57 Stat. 306; 48 U. S. C. Sup. 199 (Sub. D))

This amendment shall become effective on July 15, 1947.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 901]

HANDLING OF WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED FURTHER AMENDMENTS TO MARKETING AGREEMENT AND MARKETING ORDER

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Cum. Supp., 900.1 et seq.; 10 F. R. 11791; 11 F. R. 7737; 12 F. R. 1159), notice is hereby given of filing with the Hearing Clerk of the recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to proposed further amendments to the marketing agreement, as amended (hereinafter referred to as the "agreement"), and the order, as amended (7 CFR 901.1 et seq.; 7 CFR, Cum. Supp., 901.4, 901.17, 901.19) (hereinafter referred to as the "order"), regulating the handling of walnuts grown in California, Oregon, and Washington.

Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 0308, South Building, U. S. Department of Agriculture, Washington 25, D. C., not later than the close of business on the 12th day after publication of this recommended decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed further amendments to the agreement and

order are formulated, was held at San Francisco, California on April 28, 1947, pursuant to notice thereof, containing proposals unanimously adopted by the Walnut Control Board, the administrative agency established and operating pursuant to the provisions of the agreement and order, which was published in the FEDERAL REGISTER on April 10, 1947 (12 F. R. 2369). This regulatory program became effective on October 15, 1935, but its operation was suspended for the period from October 2, 1943 to March 31, 1947, both dates inclusive. The proposed further amendments are designed to fit this program to present day conditions, as well as to incorporate therein certain other desirable changes. Testimony presented at the hearing indicates that the current prices are not, and the anticipated prices for the coming crop year will not, be in excess of parity.

The material issues presented on the record of the hearing are:

(1) The redefining of "Secretary", "act", "merchantable walnuts", "cull walnuts", "pack", "credit value", "sheller", "crop year", and "surplus referable", and the deletion of the definitions of "quality" and "Federal standard".

(2) The rewording of that portion of the provisions relating to the duties of the Walnut Control Board involving the administration of the provisions of section 32 of the act to amend the Agricultural Adjustment Act, and for other purposes (Pub. Law 320), so as to show the current legal reference to such act.

(3) A change in the method of prescribing pack specifications and minimum requirements so as to authorize the Walnut Control Board to take such action, subject to the approval of the Secretary of Agriculture.

(4) A change in the method of fixing the salable and surplus percentages on merchantable walnuts for each year so as to authorize the Secretary of Agriculture to take such action on the basis of pertinent data, including recommendations furnished him by the Walnut Control Board.

(5) The exclusion from the application of the salable and surplus percentages of any separate pack of walnuts of which not over 12 percent by count will pass through a round opening 96/64 inches in diameter.

(6) A change of the phrase "or to be handled", wherever it appears in the agreement and order following the word "handled", to read "or certified for handling".

(7) A change in the form of certification of shipments so as to require indication whether the walnuts are to be shipped interstate or intrastate, or if for export, the country of destination.

(8) The inclusion of provision for assessments to cover expenses in the event no salable and surplus percentages are fixed for any crop year, and of provision for refunding any surplus of assessment collections remaining after all expenses for any crop year have been paid.

Findings and conclusions. (1) The term "Secretary" should be redefined to recognize the fact that such official actually performs many of his functions through subordinates, and to insure that any such subordinates who perform any of his functions relating to this program pursuant to authority delegated to them by the Secretary, are covered under this term.

The term "act" should be redefined so as to show the current appropriate legal citation therefor.

The term "merchantable walnuts" should be redefined so as (a) to delete reference therein to "Federal Standard", the reason for the deletion of the term last referred to being discussed below, and (b) to recognize the proposed change in the method of determining pack specifications and minimum requirements as discussed in (3) of these findings and conclusions. The term "cull walnuts" should likewise be redefined so as to delete reference therein to "Federal Standard" and to insert, in lieu thereof, reference to "minimum specifications". The existing definition of the term "Federal Standard" refers to a regulation effective on and after September 1, 1933, issued by the Secretary under the authority of the Federal Food, Drug, and Cosmetic Act (21 U. S. C., 301 et seq.). However, since such time, authority for the administration of that act was transferred to the Federal Security Agency, and there appears to be some question as to whether such regulation is now being followed or used by that agency. The substitute standard is proposed to be the minimum requirements discussed in (3) of these findings and conclusions, which, it is believed, will accomplish a similar objective. For the same reasons the definition of the term "Federal Standard" should be deleted.

The term "pack" should be redefined so as to include, in addition to requirements as to size, variety or type, requirements as to internal quality and external appearance and condition. The added requirements are now contained under the definitions of the term "quality." However, it is believed that the inclusion of all such requirements under one term, i. e. "pack", is desirable from the standpoint of clearness and simplicity. Such a change, makes the definition of the term "quality" unnecessary, and it should be deleted.

The term "credit value" should be redefined so as to add the words "per pound" after the reference to the value to be established by the Walnut Control Board. This addition does not change the present meaning, but the statement that it is a value per pound is more specific and is in accordance with past practice. Also, the phrase "any pack and quality" in such definition should be changed to read "each pack". The deletion of "quality" is in conformity with the proposed definition of "pack" and the proposed deletion of the definition of "quality". The change from "any" to "each" makes the meaning more specific.

The term "sheller" should be redefined so as to add the word "commercial" before the word "purpose". This will exclude any implication or inference that such term might include shellers producing walnuts only for their own home use.

The term "crop year" should be redefined to cover the period from August 1 through July 31 of the following year, instead of the present period of September 1 through August 31 of the following year. Carryover stocks are customarily reported each year as of August 1. It is desirable that the crop year begin at the same time, since carryover stocks are important in fixing the salable and surplus percentages for the crop year. The use of a uniform crop year would simplify and reduce the amount of both accounting and statistical work. The change also appears advisable for the reason that, beginning with August 1 of each year, the Walnut Control Board's activities have to do primarily with preparing for the new crop year, and, therefore, the expenses are properly chargeable to the new crop year.

The term "surplus referable" should be redefined so as to delete the words "and quality" from the phrase "pack and quality" and to change the phrase "to be handled" so as to read "certified for handling". The reason for the deletion of the words "and quality" is the same as the reason for the deletion of the definition of "quality", discussed above. The reasons for the other change are discussed, in detail, in (6) of these findings and conclusions.

(2) That portion of the provisions relating to the duties of the Walnut Control Board involving the administration of section 32 of the act to amend the Agricultural Adjustment Act, and for other purposes (Pub. Law 320), should be reworded so as to show the current appropriate legal citation for such act, i. e., "the act of Congress of August 24, 1935, as amended (7 U. S. C. 612c)." Similar changes in the legal citation for such act should be made wherever it is referred to in other portions of the agreement and order.

(3) Pack specifications and minimum requirements should be prescribed by the Walnut Control Board, subject to the approval of the Secretary, in order to tend to effectuate the declared policy of the act. Under the present provisions, pack specifications are set forth in exhibits which are attached to, and made parts of, the agreement and order, and any change therein can be effected only through formal amendment procedure in connection with such agreement and order, which procedure is too time consuming and expensive. This has resulted, in the past, in the failure to make changes as frequently as might be desirable to keep the pack specifications in line with changes in grading practices. The present proposed method will allow needed changes to be made effective in considerably less time than is practicable under the existing provisions, but, at the same time, it will give interested parties an opportunity to participate in their formulation, through the submission of written data, views, and arguments in connection therewith, in the manner contemplated by the Administrative Procedure Act (60 Stat. 237; Pub. Law 404, 79th Cong., 2d sess., approved June 11, 1946).

(4) The salable and surplus percentages for each crop year should be fixed by the Secretary, after consideration of the recommendations, and the information upon which such recommendations

are based submitted to him by the Walnut Control Board, and other pertinent data. Under the existing provisions, such percentages are required to be fixed through formal amendment procedure, including public hearing, and the percentage so fixed for each year are specifically incorporated in the agreement and order. Such a method is unduly expensive and, under existing procedural requirements relating to a public hearing, it will be impracticable, after crop production information becomes available, to make an amendment effective by the time shipments start early in October. In this connection, crop production estimates are not available until about August 12, and the Walnut Control Board will not be able to make findings with respect to carryover and production until after that time. Even when salable and surplus percentage recommendations are made late in August, heat and other weather damage often reduce the prospective crop and require changes in estimates. The percentages must be made effective early in October at the latest. It is believed that the proposed procedure will allow the salable and surplus percentages to be fixed within the necessary time, and, at the same time, it will give interested parties an opportunity to participate in the determining of such percentages, through the submission of written data, views, and arguments in connection therewith, in the manner contemplated by the Administrative Procedure Act. The provisions relating to estimated carryover, consumptive demand, and production should be redrafted so that they will conform with the aforementioned changes.

(5) The salable and surplus percentages fixed for any crop year should not apply to separate packs of walnuts of which not over 12 percent by count will pass through a round opening 96/64 inches in diameter. Walnuts of such a size are produced under special and expensive cultural practices (often including, among other things, the whitewashing of the exposed walnuts on the trees to prevent sunburn). They represent less than one-tenth of one percent of the total production of merchantable walnuts in the area, and they are sold primarily as gift packages and as novelties. Walnuts of such a size have, during the past several years, brought a price at least twice as high as that of the average large size commercial walnuts. By reason of their extraordinary size, they have a special and different type of outlet from that of ordinary merchantable walnuts, and generally, production is not sufficient to meet the demand. They represent the largest size of commercial walnuts which has been recognized under this regulatory program.

This proposal was presented for the first time at the hearing. However, its proponents previously raised the matter with the Walnut Control Board, which is composed of representatives of all segments of the commercial walnut industry, which at a regularly called meeting, passed a resolution recommending, in effect, that such proposal be presented at the hearing. The testimony of the Manager of the Walnut Control Board, as well as the testimony of representatives of various segments of the walnut industry, was generally favorable to the adoption of the proposal. In fact, no adverse testimony with respect to such proposal was presented.

(6) The phrase reading "or to be handled" should, wherever it appears in the agreement and order following the word "handled", be changed to read "or certified for handling." Previous experience under this regulatory program has demonstrated that some walnuts have to be certified in advance of shipment in order to accommodate packers, to facilitate off-season distribution or to minimize inspection costs. It was originally believed that this situation would be covered adequately by the use of the phrase "to be handled." It now appears, however, that the phrase last referred to is too broad, in that there is no way to anticipate exactly the quantity of walnuts to be handled during the entire season by any packer, but, after lots of walnuts are certified for handling, they may easily be identified as to both quantities and packs. A request for certification is actually a declaration of future shipment. It is believed that the change is more accurate in terminology, and reflects the operational practice which it has been necessary to follow in that regard. On the other hand, the phrase "or to be handled" should be added after the word "handled" in the provisions relating to certification of shipment, inasmuch as such provisions specify the merchantable walnuts which must be so certified. It is obvious that the provisions should apply to walnuts which are to be handled, as well as to walnuts handled.

(7) The form of certification of shipment which is required for each lot of merchantable walnuts handled or to be handled by any packer, or delivered by him to the Walnut Control Board, should contain provision for the reporting of whether the particular lot will move interstate or intrastate, or, if such lot is to be exported, the name of the country to which it is to be shipped. It was proposed in this regard, in the notice of hearing, that such form should contain provision for the reporting of destination. However, it developed at the hearing that the intended purpose would be served by the requirement proposed to be adopted.

(8) In addition to providing for the collection of assessments in instances where salable and surplus percentages are fixed, provision should be made for the collection from each handler of assessments to defray expenses of operation in the event no salable and surplus percentages are fixed for any crop year. Such assessment should be in an amount (adjusted to the next higher one-hundredths of a cent) per pound of merchantable walnuts handled, or certified for handling, by him during such crop year computed as follows: The amount resulting from dividing the expenses for such crop year as approved by the Secretary by the total aggregate pounds of merchantable walnuts which the Walnut Control Board estimates will be handled by all handlers during that crop year. The provisions with respect to assessments for expenses in the existing agreement and order do not cover such a situation, and it seems reasonable to anticipate that there may be a crop year for which no salable and surplus percentages are fixed and the average seasonal prices are not in excess of parity. Even though, in such an event, there will need to be no delivery of merchantable walnuts to the Walnut Control Board and no accounting in that regard, the regulatory provisions will still require the inspection and certification of all merchantable walnuts handled, or to be handled, by the several handlers. The performance of the functions last referred to will, in the circumstances, be appropriate and in accordance with the provisions of the act. The method of assessment proposed to cover the cost of performing these functions is believed to be obviously fair and equitable. Testimony in the hearing record indicates that the continuance of these inspection and certification functions are very desirable, even though other restrictions should not be operative.

Provision should also be made for the refunding of any money collected to cover expenses of operation for any crop year which is not expended for that purpose in connection with such crop year's operations. No specific provision to that effect is contained in the existing agreement and order, and it is believed that the inclusion of a specific authorization to make such refund would be desirable.

The proposed amendments hereinafter set forth also omit certain provisions of the agreement and order which are not relevant to administration of this program. These recommended changes are proposed for the purpose of simplifying the agreement and order since such omitted matter is merely historical or obsolete and will serve no useful purpose in the future administration of the program. Changes in the provisions of certain other sections which are necessary to make them conform with the changes indicated above should be made.

Rulings on proposed findings and conclusions. No proposed findings or conclusions were filed in this proceeding by interested parties with respect to any of the issues developed at the hearing except with regard to the proposal relating to the exclusion of mammoth size walnuts from the salable and surplus percentages. The proposed findings and conclusions are the same as those hereinbefore contained in this report with respect to this issue.

Recommended amendments to the marketing agreement and to the order. The following proposed amendments to the marketing agreement and the order are recommended as the detailed means by which the above conclusions may be carried out.

1. Delete the provisions of paragraph 1, section 1 of Article I of the agreement and the corresponding provisions of the order (§ 901.2 (a)) and insert, in lieu thereof, the following:

(a) "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the United States Department of Agriculture who is, or who may be, authorized to perform the duties of the Secretary of Agriculture of the United States.

2. Delete the provisions of paragraphs 9, 10, 11, 12, 13, 14, and 15 of section 1 of Article I of the agreement and the corresponding provisions of the order (§§ 901.2 (i), (j), (k), (l), (m), (n), (o), and (p)) and insert, in lieu thereof, the following:

(i) "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.).

(j) "Walnuts" means only walnuts of the "English" (Juglans Regia) varieties grown in the States of California, Oregon, and Washington.

(k) "Merchantable walnuts" means all unshelled walnuts meeting the pack specifications and minimum requirements prescribed pursuant to section 1 of Article III (§ 901.4 (a)).

(l) "Cull walnuts" means all lots of unshelled walnuts which do not meet the minimum specifications for merchantable walnuts and which cannot be brought up to such minimum specifications by standard commercial grading practices.

(m) "Pack" means a specific commercial classification according to size, variety or type, internal quality, and external appearance and condition, of merchantable walnuts, packed in accordance with the pack specifications prescribed pursuant to section 1 of Article III (§ 901.4 (a)).

(n) "Credit value" means that value per pound for each pack established by the Control Board, subject to the approval of the Secretary, pursuant to section 1 of Article IV (§ 901.5 (a)).

(o) "Sheller" means any person engaged in the business of shelling walnuts for any commercial purpose.

3. Delete the provisions of paragraphs 17 and 18 of section 1 of Article I of the agreement and the corresponding provisions of the order (§§ 901.2 (r) and (s)) and insert, in lieu thereof, the following:

(r) "Crop year" means the twelve months from August 1 to the following July 31, both inclusive.

(s) "Surplus referable" to any walnuts handled or certified for handling or sold to the Control Board means a quantity of walnuts of like pack which bears the same ratio to such quantity of walnuts handled or certified for handling or sold to the Control Board as the surplus percentage bears to the salable percentage.

4. Delete the provisions of paragraph 5 of section 3 of Article II of the agreement and the corresponding provisions of the order (§ 901.3 (c) (9)) and insert, in lieu thereof, the following:

(9) To perform such duties in connection with the administration of section 32 of the act of Congress of August 24, 1935, as amended (7 U. S. C. 612c), as may from time to time be assigned to it by the Secretary.

5. Delete the provisions of sections 1, 2, and 3 of Article III of the agreement and the corresponding provisions of the order (§§ 901.4 (a), (b), and (c)) and insert, in lieu thereof, the following:

(a) *Authorized packs.* Except as otherwise provided in Article VII (§ 901.8) hereof for the sale of cull walnuts, no packer shall handle any unshelled walnuts except those packed in accordance with such pack specifications and minimum requirements as the Control Board may prescribe, subject to the approval of the Secretary, in order to tend to effectuate the declared policy of the act. To aid the Secretary in determining whether to grant or withhold such approval, the Control Board shall furnish to the Secretary the data upon which it acted in prescribing such pack specifications and minimum requirements and such other data pertaining thereto as the Secretary may request.

(b) *Salable percentage and surplus percentage.* On the basis of the carryover, estimated consumptive demand, and estimated production of merchantable walnuts, the salable and surplus percentages of merchantable walnuts for each crop year shall be fixed by the Secretary, after consideration of the recommendations submitted to him by the Control Board, and other pertinent data; *Provided*, That the salable and surplus percentages so fixed shall not apply to separate packs of walnuts, of which not over 12 percent by count pass through a round opening 96/64 inches in diameter. The total of the salable and surplus percentages fixed for each crop year shall equal one hundred (100) percent. The Secretary may, subsequently, on request of the Control Board (or if the Control Board shall fail so to request, on request of two or more packers who have handled during the immediately preceding crop year at least ten (10) percent of the total tonnage handled by all packers during such crop year), and after a finding of fact, based on such revised and current information as may be pertinent, that the merchantable walnuts, available for sale will not be sufficient to supply the consumptive demand, increase the said salable percentage to conform with such new relation as may be found to exist between consumptive demand and available supply; *Provided, however*, That an increase of the salable percentage shall not be made after January 15 of any crop year unless the quantity of walnuts held unsold by the Control Board is sufficient to permit full delivery to packers as required by section 2 of Article V (§ 901.6 (b)) hereof. The merchantable walnuts handled by any packer in accordance with the provisions hereof shall be deemed to be that packer's quota fixed by the Secretary within the meaning of section 8a (5) of the act.

(c) *Estimated carryover, consumptive demand, and production.* To aid the Secretary in fixing the salable and surplus percentages, the Board shall furnish to the Secretary, not later than September 1 of each year, the following information: its estimate of the quantity of merchantable walnuts to be produced during such year, herein referred to as the "estimated production", such estimate to be approved by at least a two-thirds (⅔) vote of the Control Board; and, likewise, its estimate of the total consumptive demand in the United States for merchantable walnuts for the coming crop year (on the basis of prices not exceeding the maximum prices contemplated in section 2 of the act), such estimate to be approved by at least a two-thirds (⅔) vote of the Control Board; and also a report on the total carryover of merchantable walnuts from preceding crop years held by packers on the preceding August 1. The Board shall also furnish to the Secretary a complete report of the proceedings of the Board meeting to recommend the salable and surplus percentages to be fixed by the Secretary.

6. In section 4 of Article III of the agreement and the corresponding provisions of the order (§ 901.4 (d)), change the phrase "of each year after 1935" to read "of each year"; and change the phrase "quantity, pack, quality and location thereof" to read "quantity, pack and location thereof."

7. In section 5 of Article III of the agreement and the corresponding provisions of the order (§ 901.4 (e)), change the phrase "the surplus referable to each pack and quality of such merchantable walnuts handled or to be handled" to read "the surplus referable to each pack of such merchantable walnuts handled or certified for handling."

8. In section 6 of Article III of the agreement and the corresponding provisions of the order (§ 901.4 (f)), delete the words "or to be handled" and insert, in lieu thereof, the words "or certified for handling."

9. In section 7 of Article III of the agreement and the corresponding provisions of the order (§ 901.4 (g)), delete the words "and quality" wherever they now appear in said section.

10. In section 11 of Article III of the agreement and the corresponding provisions of the order (§ 901.4 (k)), change the phrase "the quantity of each pack and quality handled or to be handled" so as to read "the quantity of each pack handled or certified for handling"; and, in subparagraph (1) thereof, change the phrase "or to a total weight equal to the surplus referable to such walnuts so handled or to be handled" to read "of a total weight equal to the surplus referable to such walnuts so handled or certified for handling."

11. Delete the provisions of sections 1 and 2 of Article IV of the agreement and the corresponding provisions of the order (§ 901.5 (a) and (b)) and insert, in lieu thereof, the following:

(a) *Credit values.* The Control Board shall, on or before October 15 of each year, establish, subject to the approval of the Secretary, credit values for each pack of merchantable walnuts. The establishment of credit values shall require a vote of at least two-thirds (⅔) of the members of the Control Board. To aid the Secretary in determining whether to grant or withhold such approval, the Control Board shall furnish to the Secretary the data upon which it acted in establishing such credit values and such other data pertaining thereto as the Secretary may request. Such credit values shall provide reasonable differentials for the different packs as

will reflect the normal differences in market prices thereof.

(b) *Interest of packers in holdings of Control Board.* The equitable interest of each packer in the holdings of the Control Board shall be in the proportion of the net credits of such packer to the total net credits of all packers. For the purpose of this section, "holdings of the Control Board" means the merchantable walnuts held by or for it and the net proceeds from the sale, exchange, or other disposition thereof by the Control Board, and all cash received by the Control Board pursuant to Article III (§ 901.4) hereof, which has not been expended or refunded in accordance with the provisions of said Article III; but shall not include such moneys, if any, as may be received by the Control Board as diversion payments in connection with the encouragement of exportation or encouragement of domestic consumption pursuant to the provisions of section 32 of the act of Congress of August 24, 1935, as amended (7 U. S. C. 612c). The Control Board shall, from time to time, distribute the cash "holdings of the Control Board," ratably to the packers in accordance with their respective interests therein, except that no cash which under the provisions of Article III (§ 901.4) is to be, or may be, used to effect purchases from packers or which, under the provisions of said article, is to be held undistributed until the end of a crop year shall be distributed before the end of such crop year.

12. Delete the provisions of section 1 Article VI of the agreement and the corresponding provisions of the order (§ 901.7 (a)) and insert, in lieu thereof, the following:

(a) *Certification of shipments.* Every packer, at his own expense, shall obtain a certificate for each lot of merchantable walnuts handled or to be handled by him and all lots of merchantable walnuts which he delivers to the Control Board. Said certificates shall be issued by inspectors designated by the Control Board. All such certificates shall show, in addition to such other requirements as the Control Board may specify, the identity of the packer, whether domestic shipments will move interstate or intrastate and if for export, the country of destination, the quantity and pack of merchantable walnuts in such lot, and that the walnuts covered by such certificate conform to the minimum specifications for quality and soundness prescribed pursuant to section 1 of Article III (§ 901.4 (a)).

The Control Board may direct that such certificate be not issued to any packer who has failed to deliver or otherwise account for his surplus obligation in accordance with the terms hereof.

13. Delete the provisions of section 1 of Article VIII of the agreement and the corresponding provisions of the order (§ 901.9) and insert, in lieu thereof, the following:

§ 901.9 *Expenses.* Each packer shall pay to the Control Board, upon demand and on the applicable basis provided for hereinafter in this section, his pro rata share of the expenses necessarily incurred by the Control Board for its maintenance and functioning under this order for the crop year ending July 31, 1948, and for each crop year thereafter. The amount of such expenses which will necessarily be incurred by the Control Board during the crop year ending July 31, 1948, and each crop year thereafter, shall be fixed by the Secretary on the basis of recommendations by the Control Board and such other pertinent information as may be available to him. Such approved amount for any such crop year may later be adjusted, from time to time, by the Secretary. The recommendation of the Control Board as to the expenses for each such crop year, together with all data supporting such recommendations, shall be submitted to the Secretary on or before September 1 of the crop year in connection with which such recommendation is made.

In the event a surplus percentage of merchantable walnuts is fixed for any crop year, each packer's pro rata share of the expenses of the Control Board for such crop year shall be that proportion thereof which the total credit value of his surplus obligation with respect to merchantable walnuts handled or certified for handling by him and merchantable walnuts sold by him to the Control Board, during such crop year, is of the total credit value of the surplus obligations of all the packers with respect to merchantable walnuts handled or certified for handling by them and merchantable walnuts sold to the Control Board by them during that crop year: *Provided*, That an initial assessment for any such crop year may be levied on each packer of one (1) percent of the total credit value of such packer's estimated surplus obligation for such crop year.

In the event no surplus percentage of merchantable walnuts is fixed for any crop year, each packer shall pay, as his pro rata share of the expenses of the Control Board for that crop year, an amount (adjusted to the next higher one-hundredths of a cent) per pound of merchantable walnuts handled, or certified for handling, by him during such crop year computed as follows: The amount resulting from dividing the approved expenses by the total aggregate pounds of merchantable walnuts which the Board estimates will be handled by all handlers during that crop year.

Any money collected to cover the expenses of the Control Board for any crop year and not expended for that purpose in connection with such crop year's operations shall be refunded to the packers who paid it on the basis of, in the case of each individual packer, the proportion that the amount of the assessment paid by him bears to the total amount of the assessments paid by all packers for the particular crop year.

14. In paragraph 3, section 2, Article XVI of the agreement and the corresponding provisions of the order (§ 901.17 (third paragraph)), change the phrase "on or before August 1" to read "on or before July 1."

15. Delete Exhibits A and B of the agreement and the corresponding provisions of the order (§§ 901.19 and 901.20).

This recommended decision filed at Washington, D. C., this 11th day of June 1947.

That to the extent that the persons named in subparagraph 1 hereof, and the personal representatives, heirs, next of kin, legatees and distributees, names unknown of Carl Albin Knab, Charlotte Blau, Hermann Blau, Anna Therese Hartmann, Clara Wilhelmine Kruger, and Karl Louis Axthelm, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 3 hereof, subject to the payment of all lawful charges, including without limitation all lawful taxes of the United States and of the State of New Jersey, and

There is hereby vested in the Attorney General of the United States the property described in subparagraph 5 hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries,

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C. on May 29, 1947.

NAVY DEPARTMENT

[No. 4 (d)]

LANDING CRAFT LC(FF)

NAVIGATION LIGHTS

Whereas, the act of December 3, 1945 (Pub. Law 239, 79th Cong.) provides that any requirement as to the number, position, range of visibility or arc of visibility of navigation lights, required to be displayed by naval vessels under acts of Congress, as enumerated in said act of December 3, 1945, shall not apply to any vessel of the Navy where the Secretary of the Navy shall find or certify that, by reason of special construction, it is not possible with respect to such vessel or class of vessels to comply with statutory requirements as to the number, position, range of visibility or arc of visibility of navigation lights; and

Whereas, a study of the arrangement and position of the navigation lights of that type of vessel, known as Landing Craft Flotilla Flagship, has been made by the Navy Department, and, as a result of such study, it has been determined that because of their special construction it is not possible for the type of naval vessel designated above to comply with the requirements of the statutes enumerated in said act of December 3, 1945;

Now, therefore I, James Forrestal, Secretary of the Navy, as a result of the aforesaid study do find and certify that the type of naval vessels known as Landing Craft Flotilla Flagship are naval vessels of special construction, and that, on such vessels with respect to the position of the masthead light and the additional white light (commonly termed the range light), it is not possible to comply with the requirements of the statutes enumerated in the act of December 3, 1945. Further, I do find and certify as follows:

(a) That it is feasible to locate the aforesaid masthead light in the after part of said vessels approximately eighty-seven feet abaft the stem.

(b) That it is feasible to locate the additional white light (commonly termed the range light), if such light is installed in any of the aforesaid type of vessels, in the forward part of the vessel and in front of the light referred to in the preceding paragraph.

I direct that the aforesaid lights, that is the masthead light and the additional white light (commonly termed the range light), if such light is installed, shall be located in this type of vessel in the manner above described. I further direct that the two aforesaid lights, referred to in subparagraphs (a) and (b), if both lights are installed, shall be placed in line with the keel and that the after light shall be at least fifteen feet higher than the forward light and that the vertical distance between the two lights shall be less than the horizontal distance.

I further certify that such location constitutes compliance as closely with the applicable statutes as I hereby find to be feasible.

Dated at Washington, D. C., this 6th day of June A. D. 1947.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 6885, 7435, 7959]

CENTRAL UTAH BROADCASTING CO. ET AL.

MEMORANDUM OPINION AND ORDER DENYING PETITION AND SCHEDULING HEARING

In re applications of Frank A. Van Wagenen and Harold A. Van Wagenen, a partnership, doing business as Central Utah Broadcasting Co., Provo, Utah, for construction permit, Docket No. 7959, File No. BP-4703; United Broadcasting Company, Ogden, Utah, for construction permit, Docket No. 6885, File No. BP-4107; Ogden Broadcasting Company, Inc., Ogden, Utah, for construction permit, Docket No. 7435, File No. BP-4553.

The Commission has before it a petition filed February 27, 1947, by Frank A. Van Wagenen and Harold E. Van Wagenen, a partnership, doing business as Central Utah Broadcasting Company, Provo, Utah, for reconsideration of the Commission's action on November 29, 1946, setting aside, upon a joint petition filed August 22, 1946, by United Broadcasting Company, Ogden, Utah, and Ogden Broadcasting Company, Inc., Ogden, Utah, the grant without hearing made by the Commission August 1, 1946 to petitioner of its application for construction permit (File No. BP-4703) to operate on 1490 kc, with 250 watts power, unlimited time, and upon such reconsideration, to reinstate said grant.

United Broadcasting Company, Ogden, Utah, and Ogden Broadcasting Company, Ogden, Utah, are applicants for construction permits (File Nos. BP-4107 and BP-4553; Dockets Nos. 6385 and 7435, respectively), each requesting the use of the frequency 1490 kc, with 250 watts power, unlimited time. Ogden, Utah, is 70 miles from Provo, Utah.

The original grant without hearing of petitioner's application was made upon the showing that no interference to any existing station or pending applicant would be expected, based upon the Commission's conductivity maps. The grant was set aside as a result of field measurements taken by United Broadcasting Company and Ogden Broadcasting Company, Inc., which indicated the existence of higher conductivities than those shown in the Commission's conductivity maps[1] and the probability of substantial interference from simultaneous operation of stations at Ogden and Provo.

On November 29, 1946, petitioner's application, and those of United Broadcasting Company and Ogden Broadcasting Company, Inc., were designated for a consolidated hearing upon issues including the determination of interference by the simultaneous operation of the two proposed stations at Ogden and the one proposed at Provo.

The petition now before us alleges that, based upon certain measurements taken by petitioner's consulting engineers, the interference would be slight to both stations. It appears, however, that the measurements taken by petitioner's engineers were limited to signals from Provo to Ogden and did not include measurements from Ogden toward Provo, as would be essential for an accurate showing of conductivities. Moreover, the Commission cannot agree with the contours plotted by petitioner as a result of the measurements made. Petitioner assumes a uniform conductivity of 5×10^{-14} E. M. U. in determining the pertinent contours of the Provo proposal. However, field strength measurements made by petitioner's engineers in the direction of Ogden indicate a conductivity of 10×10^{-14} E. M. U. for the first 25 miles, decreasing conductivity out to 70 miles. Petitioner further assumes an antenna efficiency of 90 mv/m for the Provo proposal and indicates the 0.5 mv/m contour lines at a distance of 13.5 miles from the transmitter. Using a conductivity of 5×10^{-14} E. M. U., the predicted 0.5 mv/m contour would actually lie at a distance of 17 miles from the transmitter, and with a conductivity of 10×10^{-14} E. M. U., the distance would be 25 miles. Thus the increase in the area of the 0.5 mv/m contour would result in the Provo proposal experiencing substantially more interference than indicated by petitioner.

The failure of the Provo applicant to submit acceptable engineering data which would refute the probability of substantial interference from the simultaneous operation at Ogden and Provo as shown by the field measurements taken by United Broadcasting Company and Ogden Broadcasting Company, Inc. in their original petition for reconsideration of the Provo grant, resulted in that grant being set aside. We are of the opinion that the present measurements and data submitted by the Provo applicant have likewise failed to refute that evidence, and that, in this situation, the petition should be denied.

Therefore, *It is ordered*, This 3d day of June 1947, that the petition of Frank A. Van Wagenen and Harold E. Van Wagenen, doing business as Central Utah Broadcasting Company, Provo, Utah, for reconsideration and grant of its application (File No. BP-4703) without hearing, be, and it is hereby, denied.

It is further ordered, That the consolidated hearing on the above-entitled matters heretofore designated for hearing be, and it is hereby, scheduled for 10:00 o'clock a. m., Monday, June 23, 1947, at Washington, D. C.

CATONSVILLE BROADCASTING CO.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Roland A. Johnson and Thomas W. Johnson, a partnership, d/b as Catonsville Broadcasting Company, Catonsville, Maryland, for a construction permit; Docket No. 8358, File No. BP-5608.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 3d day of June 1947;

The Commission having under consideration the above-entitled application, requesting a construction permit for a new standard broadcasting station to operate on 1440 kc, with 250 w power, daytime only, at Catonsville, Maryland;

It is ordered, That pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Catonsville Broadcasting Company be, and it is hereby, designated for hearing, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant partnership and the partners to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determined whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and

populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending application of The Capital Broadcasting Company, Annapolis, Maryland (File No. BP-4318; Docket No. 7371), or in any other pending application for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations, particularly with respect to the assignment of a Class IV station to a regional channel.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

By the Commission.

TWIN CITIES BROADCASTING CORP. (WDGY) ET AL.

ORDER FOR HEARING TO SHOW CAUSE ON STATED ISSUES

In re applications of Twin Cities Broadcasting Corporation (WDGY), Minneapolis, Minnesota, for construction permit, Docket No. 8363, File No. BP-5429; Pontiac Broadcasting Company (WCAR), Detroit, Michigan, for construction permit, Docket No. 8364, File No. BP-5971; and modification of broadcast license of Twin Cities Broadcasting Corporation (WDGY) Minneapolis, Minnesota, Docket No. 8395, File No. BS-669.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 3d day of June 1947:

It appearing, that Twin Cities Broadcasting Corporation (WDGY) is presently licensed to operate Station WDGY at Minneapolis, Minnesota, on the frequency 1130 kilocycles, with 5 kilowatts power daytime, and with 500 watts power between local sunset and sunset at Albuquerque, New Mexico; and that Station KWKH, Shreveport, Louisiana, is assigned the use of that frequency, with 50 kw power, unlimited time; and

It further appearing, that the operation of Station WDGY between sunset at Minneapolis, Minnesota, and sunset at Albuquerque, New Mexico, causes cochannel interference to the 1.32 mv/m groundwave service contour and to the 1.11 mv/m sky wave service contour of Station KWKH, Shreveport, Louisiana; and

It further appearing, that the Commission on April 30, 1947, designated for hearing in a consolidated proceeding the applications of Twin Cities Broadcasting Corporation (WDGY) (File No. BP-5429; Docket No. 8363), requesting a construction permit to operate Station WDGY at Minneapolis, Minnesota, on 1130 kilocycles, with 50 kilowatts power, unlimited time, using directional antenna, and Pontiac Broadcasting Company (WCAR) (File No. BP-5971; Docket No. 8364), requesting a construction permit to operate Station WCAR at Detroit, Michigan, on 1130 kilocycles, with 50 kilowatts power, unlimited time, using directional antenna; and

It further appearing, that, pursuant to section 312 (b) of the Communications Act of 1934, any station license may be modified by the Commission either for a limited time or for the duration of the term thereof, if in the judgment of the Commission such action will promote the public interest, convenience and necessity, provided that no such order of modification shall become final until the holder of such outstanding license shall have been notified in writing of the proposed action and the grounds or reasons therefor and shall have been given reasonable opportunity to show cause why such an order of modification should not issue;

It is ordered, That, pursuant to section 312 (b) of the Communications Act of 1934, as amended, opportunity be, and it is hereby, afforded Twin Cities Broadcasting Corporation, licensee of Station WDGY, Minneapolis, Minnesota, to show cause at a hearing before the Commission, at a time and place to be designated by subsequent order of the Commission, why the existing station license issued to said Twin Cities Broadcasting Corporation (WDGY) should not be modified so as to authorize operation on 1130 kilocycles; with 5 kilowatts power either daytime only; or with directional antenna or other means to avoid causing interference to the normally protected primary service (0.1 mv/m contours day and night) and the secondary nighttime service (0.5—50% skywave contour) of Station KWKH; and that International Broadcasting Corporation (KWKH), Shreveport, Louisiana, be, and it is hereby, made a party to this proceeding.

It is further ordered, That the above-ordered hearing to show cause be, and it is hereby, consolidated with the above-described consolidated hearing on the said applications of Twin Cities Broadcasting Corporation (WDGY) and Pontiac Broadcasting Company (WCAR) for construction permits; and that the order of April 30, 1947, designating for consolidated hearing the said applications for construction permits, be, and it is hereby, amended to make § 1.857 of the Commission's rules and regulations applicable to the entire proceeding.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 9th day of June 1947.

In the matter of Public Service Corp of New Jersey and its subsidiary companies and the United Corp., File No. 59-86; Public Service Corp. of New Jersey, File No. 54-148.

Notice is hereby given that Public Service Corporation of New Jersey ("Public Service") and its subsidiaries, have filed a further amendment to a plan heretofore filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, which plan was consolidated with proceedings instituted by the Commission pursuant to section 11 (b) of the act. All interested persons are referred to said amendment, which is on file in the office of this Commission, for a statement of the transactions therein proposed. The instant amendment modifies the plan as heretofore filed only in respect of the matters summarized as follows:

(1) Public Service has revised the rate of exchange of shares of $1.40 Dividend Preference Common Stock of Public Service Electric and Gas Company ("Electric and Gas") for each share of its own non-callable preferred stock in the hands of the public. The rate of exchange originally proposed and as revised by the present amendment are as follows:

Public Service preferred stock	$1.40 dividend preference common stock rate of exchange	
	Revised proposal	Original proposal
5 percent	4.7	4.5
7 percent	4.15	3.9
6 percent	3.7	3.5
$5	3.25	3.1

(2) To give effect to the increased rate of exchange in the number of shares of $1.40 Dividend Preference Common Stock shown above, Electric and Gas will increase the number of shares of such $1.40 Dividend Preference Common Stock from 5,693,778 to 6,062,767 shares, while the number of shares of regular common stock to be issued will remain at 5,503,193. No change is made in the former proposal to distribute the common stock of Electric and Gas and the South Jersey Gas Company to the common stockholders of Public Service.

(3) The rate of conversion of each share of the $1.40 Dividend Preference Common Stock of Electric and Gas into regular common stock of that company has been revised from that originally proposed as indicated below:

Period for conversion after effective date of plan—	Rate of conversion of preference common into regular common	
	Revised proposal	Original proposal
First 3 years	*Shares* 1.1	*Share* 1
Next 3 years	1	7/8
Next 3 years	7/8	3/4
Next 3 years	3/4	5/8

In addition to the foregoing it is proposed that the $1.40 Dividend Preference Common Stock, at the termination of the conversion period, will be redeemable, at the option of the company, in whole or in part, at any time, at $35 per share plus accrued dividends to the redemption date.

(4) Public Service proposes to recapitalize County Gas Company prior to the disposition of its interest therein.

(5) Electric and Gas proposes to amortize $14,744,602.80, the remaining balance to be classified in its Gas Utility Plant Acquisition Adjustment Account (Acct. 100.5), through charges to Income Deductions, Earned Surplus or Capital Surplus, as the company may elect, at the rate of $1,000,000 a year rather than $500,000 a year as previously proposed.

(6) Public Service Coordinated Transport, a subsidiary of Public Service, and Transport's subsidiary, Public Service Interstate Transportation Company, proposes to increase the amount of intangible fixed capital to be eliminated from their accounts, from $33,296,464 to $50,517,409, and to dispose of the latter amount by charges aggregating $40,778,861 against Capital Surplus and $2,238,548 against Earned Surplus, leaving $7,500,000 balance which it will amortize at the rate of $500,000 a year by charges against earnings.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that the hearings heretofore held in the above-entitled consolidated proceedings, which were adjourned on June 4, 1947 to afford Public Service an opportunity to prepare and file the instant amendment, should be reconvened for the purpose of adducing further evidence and affording all interested persons further opportunity to be heard with respect to the matters and questions heretofore specified in this Commission's Order of April 7, 1947 issued in the above-entitled matter (Holding Company Act Release No. 7336).

It is ordered, That the hearing in the above-entitled consolidated proceedings be reconvened on the 24th day of June, 1947, at 10:00 a. m., e. d. s. t., in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held.

It is further ordered, That any person not heretofore having appeared in these proceedings and now desiring to be heard or proposing to intervene herein shall file with the Secretary of this Commission, on or before June 20, 1947, his request or application therefor as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That notice of this hearing be given by registered mail to Public Service and its subsidiaries, The United Corporation, the Board of Public Utility Commissioners of the State of New Jersey, and the Federal Power Commission, and to all other persons by publication in the FEDERAL REGISTER; and that Public Service shall give further notice of this hearing to its security holders (insofar as the identity of such security holders is known or available to Public Service) by mailing to each of said persons a copy of this notice and order for hearing to his last known address at least 10 days prior to the date of this hearing.

By the Commission.

CONSOLIDATED ELECTRIC AND GAS CO. ET AL.

SUPPLEMENTAL ORDER APPROVING TRANSACTIONS SET FORTH IN APPLICATION-DECLARATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 10th day of June A. D. 1947.

In the matter of Consolidated Electric and Gas Co., The Middle West Corp., Upper Peninsula Power Co.; File No. 70-1471.

Consolidated Electric and Gas Company, The Middle West Corporation and Upper Peninsula Power Company, parties to this proceeding, having requested that our order dated June 3, 1947 be amended to include certain recitals, specifications and itemizations in conformity with sections 371 (b), 371 (f), 373 (a) and 1808 (f) of the Internal Revenue Code, as amended, and it appearing appropriate that each request be granted:

It is ordered and recited, That our order herein dated June 3, 1947 be and is hereby amended by adding thereto the following:

The transactions set forth in the Application-Declaration, as amended, proposed to be effected by Consolidated Electric and Gas Company, The Middle West Corporation and Upper Peninsula Power Company, including those hereinafter described and recited, are hereby approved and found to be necessary or appropriate to the integration or simplification of their respective holding company systems and to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935:

(a) The issuance by Upper Peninsula Power Company of its new securities required to be issued in consummating the transactions embraced in the Application-Declaration, namely:

$3,500,000 principal amount of First Mortgage Bonds, 3¼% Series due 1977;
10,000 shares of Cumulative Preferred Stock, 5¼% Series, par value $100 per share; and
200,000 shares of Common Stock, par value $9 per share;

(b) The transfer and conveyance by Houghton County Electric Light Company, Iron Range Light and Power Company and Copper District Power Company of all their realty and other assets to Upper Peninsula Power Company, in connection with the liquidation and dissolution of said companies and the acquisition of their assets by Upper Peninsula Power Company.

By the Commission.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 9865

PROVIDING FOR THE PROTECTION ABROAD OF INVENTIONS RESULTING FROM RESEARCH FINANCED BY THE GOVERNMENT

WHEREAS the Government of the United States now has and will hereafter acquire title to, or the right to file foreign patent applications for, numerous inventions arising out of scientific and technical research carried on by or for the Government; and

WHEREAS it is in the interest of the United States to acquire patent protection abroad on certain inventions resulting from government-financed research; and

WHEREAS it is in the interest of the Government to foster, promote, and develop the foreign commerce of the United States:

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States by the Constitution and statutes, and as Commander in Chief of the Army and Navy, and in the interest of the foreign affairs functions of the United States and the internal management of the Government, it is hereby ordered as follows:

1. All Government departments and agencies shall, whenever practicable, acquire the right to file foreign patent applications on inventions resulting from research conducted or financed by the Government.

2. All Government departments and agencies which have or may hereafter acquire title to inventions or the right to file patent applications abroad thereon, shall fully and continuously inform the Department of Commerce concerning such inventions, except as provided in section 6 hereof, and shall make recommendations to the Department of Commerce as to which of such inventions should receive patent protection by the United States abroad and the foreign jurisdictions in which such patent protection should be sought. The recommendations of such departments and agencies shall indicate the immediate or future industrial, commercial or other value of the invention concerned, including its value to public health.

3. The Department of Commerce shall determine whether, and in what foreign jurisdictions, the United States should seek patents for such inventions and, to the extent of appropriations available therefor, shall procure patent protection for such inventions, taking all action, consistent with existing law, necessary to acquire and maintain patent rights abroad. Such determinations of the said Department shall be made after full consultation with United States industry and commerce, with the Department of State, and with other Government agencies familiar with the technical, scientific, industrial, commercial or other economic or social factors affecting the invention involved, and after consideration of the availability of valid patent protection in the countries determined to be immediate or potential markets for, or producers of, products, processes, or services covered by or relating to the invention.

4. The Department of Commerce shall administer foreign patents acquired by the United States under the terms of this order and shall issue licenses thereunder in accordance with law under such rules and regulations as the Secretary of Commerce shall prescribe. Nationals of the United States shall be granted licenses on a nonexclusive royalty free basis except in such cases as the Secretary shall determine and proclaim it to be inconsistent with the public interest to issue such licenses on a nonexclusive royalty free basis.

5. The Department of State, in consultation with the Department of Commerce, shall negotiate arrangements among governments under which each government and its nationals shall have access to the foreign patents of the other participating governments. Patents relating to matters of public health may be licensed by the Secretary of Commerce, with the approval of the Secretary of State, to any country or its nationals upon such terms and conditions as are in accordance with law and as the Secretary of Commerce determines to be appropriate, regardless of whether

EXECUTIVE ORDER 9866

DESIGNATION OF OFFICERS TO ACT AS SECRETARY OF THE INTERIOR

By virtue of and pursuant to the authority vested in me by section 179 of the Revised Statutes of the United States (5 U. S. C. 6), and in the interest of the internal management of the Government, it is ordered as follows:

1. (a) The Under Secretary of the Interior shall perform the duties of the Secretary of the Interior in case of the death, resignation, absence, or sickness of the Secretary of the Interior.

(b) The ranking Assistant Secretary of the Interior when both of the Assistant Secretaries are present, otherwise the Assistant Secretary of the Interior who is present, shall perform the duties of the Secretary of the Interior in case of the death, resignation, absence, or sickness of the Secretary and Under Secretary of the Interior.

(c) The Solicitor of the Department of the Interior shall perform the duties of the Secretary of the Interior in case of the death, resignation, absence, or sickness of the Secretary, the Under Secretary, and the Assistant Secretaries of the Interior.

2. The Assistant Secretary of the Interior whose commission bears the earlier date, or, if the commissions of the Assistant Secretaries bear the same date, the Assistant Secretary who took the oath of office on the earlier date, shall be the ranking Assistant Secretary of the Interior for the purpose of paragraph 1 (b) of this order.

3. This order supersedes Executive Order No. 9432, dated March 28, 1944.

TITLE 7—AGRICULTURE

Chapter III—Bureau of Entomology and Plant Quarantine

[B. E. P. Q. 562]

PART 301—DOMESTIC QUARANTINE NOTICES

RESTRICTIONS OF JAPANESE BEETLE QUARANTINE ON FRUITS, VEGETABLES, AND CUT FLOWERS; EFFECTIVE DATES FOR SEASON

§ 301.48-4a *Administrative instructions relative to the Japanese beetle quarantine.* Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by paragraph (b) of § 301.48-4 (Notice of Quarantine No. 48), it has been determined that the period of heavy flight of adult Japanese beetles will begin in the localities listed below on the dates given. Accordingly, it is hereby ordered that the restrictions of §§ 301.48-4 (b) and 301.48-5 relating to the heavily infested areas (§ 301.48-3), and applying to:

(a) Unprocessed, fresh, cut flowers when moved in bulk direct from the field or greenhouse where grown, or from a distributor; and

(b) Fresh fruits and vegetables of all kinds when shipped by refrigerator car or motortruck only; shall begin for the present season on the following dates:

(1) At 12:01 a. m., June 17, 1947, in the following areas:

Delaware: Sussex County.
Maryland: Entire counties of Dorchester, Somerset, Wicomico, and Worcester.
Virginia: Norfolk County: Magisterial district of Tanners Creek.
Princess Anne County: Magisterial district of Kempsville.
Entire counties of Accomac and Northampton.

(2) At 12:01 a. m., June 24, 1947, in the remainder of the heavily infested area.

These restrictions shall remain in effect during the current season until due notice of their discontinuance shall have been given. (Sec. 8, 37 Stat. 318, 39 Stat. 1165, 44 Stat. 250; 7 U. S. C. 161)

Compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 238) is impracticable and contrary to the public interest in that regulation of the movement of cut flowers, fruits and vegetables as provided herein must become effective immediately upon the heavy flight of the adult Japanese beetle if the spread of this insect to uninfested States is to be prevented. Emergence of adults and beginning of such flight fluctuate with weather and other environmental factors, and are unpredictable within narrow time limits. This season's heavy flight is now imminent. Consequently there is no opportunity for such compliance.

Done at Washington, D. C., this 9th day of June 1947.

Chief, Bureau of Entomology and Plant Quarantine.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

[Plum Order 10]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.311 *Plums Order 10*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 86, as amended (7 CFR, Cum. Supp., 936.1 et seq.), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Duarte plums, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 18, 1947, and ending at 12:01 a. m., P. s. t., October 1, 1947, no shipper shall ship:

(i) Any package or container of Duarte plums containing plums which do not meet the requirements of U. S. No. 1 grade (as specified for such grade in the United States Standards for plums and prunes (fresh), 12 F. R. 2305), with a total tolerance of ten (10) percent for defects not considered serious damage, in addition to the usual tolerances permitted in said United States Standards; or

(ii) Any package or container of Duarte plums containing plums of a size smaller than the size that will pack a 5 x 5 standard pack, as specified in the aforesaid United States Standards, in a standard basket, as specified in paragraph numbered 1 of section 828.1 of the Agricultural Code of California. The aforesaid 5 x 5 standard pack is defined more specifically in subparagraph (4) of this paragraph.

(2) During the period set forth in subparagraph (1) of this paragraph:

(i) The total quantity of Duarte plums which a shipper may ship during any day, from any shipping point, shall meet the following additional conditions:

(*a*) Of said total quantity, at least seventy-five (75) percent, by number of packages, shall be of a size not smaller than a size that will pack a 4 x 5 standard pack, as specified in the aforesaid United States standards, in the aforesaid standard basket; and said 4 x 5 standard pack is defined more specifically in subparagraph (3) of this paragraph; and

(*b*) The remainder of such total quantity may be of a size that will pack a 5 x 5 standard pack, as aforesaid, or of larger sizes up to, but not including, a size that will pack a 4 x 5 standard pack, as aforesaid.

(ii) If any shipper, during any two (2) consecutive days, ships from any such shipping point less than the maximum

allowable portion of such Duarte plums that will pack a 5 x 5 standard pack, and larger sizes, as aforesaid, the amount of such undershipment of such plums may be shipped only during the next succeeding calendar day, in addition to such Duarte plums of such size that the respective shipper could have shipped on such succeeding calendar day of there had been no undershipment during the two (2) preceding days.

(3) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the total of such plums contained in any such pack measure not less than $1^{11}/_{16}$ inches in diameter, such diameter, as defined in the aforesaid United States Standards being the shortest distance measured through the center of the plum at right angles to a straight line running from the stem to the blossom end; (ii) at least sixty (60) percent, by count of the total of such plums contained in any such pack measure, as aforesaid, not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in any such pack measure, as aforesaid, less than $1^{7}/_{16}$ inches in diameter.

(4) As used in this section, the aforesaid 5 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the total of such plums contained in any such pack measure, as aforesaid, not less than $1^{9}/_{16}$ inches in diameter, (ii) at least sixty (60) percent, by count, of the total of such plums contained in any such pack measure, as aforesaid, not less than $1^{7}/_{16}$ inches in diameter; and (iii) no plums contained in any such pack measure, as aforesaid, less than $1^{5}/_{16}$ inches in diameter.

(5) Nothing contained in this section, shall be construed (i) as preventing a shipper from shipping Duarte plums of a size larger than the size that will pack a 4 x 5 standard pack, as aforesaid, if said plums meet the grade requirements of the section, or (ii) as permitting the shipment of Duarte plums of a size smaller than a size that will pack a 5 x 5 standard pack, as aforesaid, even if the plums do meet said grade requirements.

(6) Each shipper, prior to making each shipment of Duarte plums shall, during the period set forth in subparagraph (1) of this paragraph have the plums included in each shipment inspected by a duly authorized representative of the Federal-State Inspection Service heretofore designated by the Plum Commodity Committee and hereby approved; and each such shipper shall submit promptly or cause to be submitted promptly to the Plum Commodity Committee, Federal-State shipping point inspection certificates stating the grades and sizes of the Duarte plums contained in each such lot or shipment: *Provided, however*, That, in case the following conditions exist in connection with any such shipments:

(i) A request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The fruit is available for inspection between the hours of 7:00 a. m. and 8:00 p. m. of the day specified in the request for such inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time; the shipper, by submitting or causing to be submitted such signed statement to the Plum Commodity Committee, may make the particular shipment without such inspection, but such shipper shall still be held responsible for conforming with all grade and size regulations applicable to such shipment.

(7) The determination in § 936.301 with respect to shipments of plums into, in, or through the San Francisco-Sacramento region and the Los Angeles region shall be applicable to this section.

(8) As used in this section, the terms "shipper," "ship," "shipping," and "shipping point" shall have the same meaning as when used in the amended marketing agreement and order; and, the term "serious damage" shall have the same meaning as set forth in the aforesaid United States Standards.

(48 Stat. 31, as amended, 7 U. S. C. 601 et seq.; 7 CFR, Cum. Supp., 936.1 et seq.)

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.312 *Plum Order 11*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR, Cum. Supp., 936.1 et seq.), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Burbank plums, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 18, 1947, and ending at 12:01 a. m., P. s. t., October 1, 1947, no shipper shall ship:

(i) Any package or container of Burbank plums containing plums which do not meet the requirements of U. S. No. 1 grade (as specified for such grade in the United States Standards for plums and prunes (fresh), 12 F. R. 2305), with a total tolerance of ten (10) percent for defects not considered serious damage, in addition to the usual tolerances permitted in said United States Standards; or

(ii) Any package or container of Burbank plums containing plums of a size smaller than a size that will pack a 4 x 5 standard pack, as specified in the aforesaid United States Standards, in a standard basket, as specified in paragraph numbered 1 of section 828.1 of the Agricultural Code of California. The aforesaid 4 x 5 standard pack is defined more specifically in subparagraph (3) of this paragraph.

(2) During the period set forth in subparagraph (1) of this paragraph:

(i) The total quantity of Burbank plums which a shipper may ship during any day, from any shipping point, shall meet the following additional conditions:

(*a*) Of said total quantity, not more than fifty (50) percent, by number of packages, shall be of a size that will pack a 4 x 5 standard pack, as aforesaid, in the aforesaid standard basket; and

(*b*) The remainder of such total quantity shall be of a size larger than a size that will pack a 4 x 5 standard pack, as aforesaid, in the aforesaid standard basket.

(ii) If any shipper, during any two (2) consecutive days, ships from any such shipping point less than the maximum allowable portion of such Burbank plums that will pack a 4 x 5 standard pack, as aforesaid, the amount of such undershipment of such plums may be shipped only during the next succeeding calendar day, in addition to such Burbank plums of such 4 x 5 size that the respective shipper could have shipped on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(3) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the total of such plums contained in any such pack measure not less than $1^{11}/_{16}$ inches in diameter, such diameter, as defined in the aforesaid United States Standards, being the shortest distance measured through the center of the plum at right angles to a straight line running from the stem to the blossom end; (ii) at least sixty (60) percent, by count, of the total of such plums contained in any such pack measure, as aforesaid, not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in any such pack measure, as aforesaid, less than $1^{7}/_{16}$ inches in diameter.

(4) Nothing contained herein shall be construed (i) as preventing a shipper from shipping Burbank plums of a size larger than the size that will pack a 4 x 5 standard pack, as aforesaid, if said plums meet the grade requirements hereof, or (ii) as permitting the shipment of Burbank plums of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, even if the plums do meet said grade requirements.

(5) Each shipper, prior to making each shipment of Burbank plums shall, during the period set forth in subparagraph (1) of this paragraph, have the plums included in each such shipment inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved; and each such shipper shall submit promptly, or cause to be submitted promptly, to the Plum Commodity Committee, Federal-State shipping point inspection certificates stating the grades and sizes of the Burbank plums contained in each such lot or shipment: *Provided, however*, That, in case the following conditions exist in connection with any such shipment:

(i) A request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The fruit is available for inspection between the hours of 7:00 a. m. and 8:00 p. m. of the day specified in the request for such inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time; the shipper, by submitting or causing to be submitted, such signed statement to the Plum Commodity Committee, may make the particular shipment without such inspection, but such shipper shall still be held responsible for conforming with all grade and size regulations applicable to such shipment.

(6) The determination in § 936.301 with respect to shipments of plums into, in, or through the San Francisco-Sacramento region and the Los Angeles region shall be applicable to this section.

(7) As used in this section, the terms "shipper," "ship," "shipping," "shipping point," and "shipment" shall have the same meaning as when used in the amended marketing agreement and order; and the term "serious damage" shall have the same meaning as set forth in the aforesaid United States Standards.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter III—Claims and Accounts

PART 306—CLAIMS AGAINST THE UNITED STATES

RULES OF PROCEDURE OF THE WAR CONTRACT HARDSHIP CLAIMS BOARD

In accordance with Public Law 657, 79th Congress, hereinafter referred to as the act, Executive Order No. 9786, October 5, 1946, and paragraph (b) of § 306.85 (12 F. R. 1436), the following § 306.86 prescribing rules of procedure for the conduct of the board is added as follows:

§ 306.86 *Rules of procedure of the War Contract Hardship Claims Board*—(a) *General matters*—(1) *Correspondence.* All correspondence with the Board shall be addressed "War Contract Hardship Claims Board, Office of the Under Secretary of War, Washington 25, D. C."

(i) The President of the Board and any member thereof including the Recorder may communicate directly with the chiefs of technical services; the commanding general, Army Air Forces; any agency within the War Department, and any person or agency outside the Military Establishment with respect to any information desired by the Board relative to matters pertaining to the business of the Board.

(ii) Communication with camps, posts, and stations of the Military Establishment shall be processed through regular military channels.

(2) *Technical service.* The term "technical service" as used in this section includes the Army Air Forces. [Rule I]

(b) *Duties of recorder*—(1) *Register.* The Recorder of the Board will maintain a register in which the following information will be recorded with respect to each claim:

(i) Case number assigned to claim by Recorder.

(ii) Name of claimant.

(iii) Amount of claim.

(iv) Technical service primarily concerned.

(v) Date received from technical service.

(vi) Action of Board.

(vii) Final disposition of claim.

(2) *Custodial duties.* The Recorder is hereby constituted custodian of records and files of the Board.

(3) *Authentication.* The Recorder shall authenticate and dispatch all notices to the parties.

(4) *Docket.* The Recorder under the supervision of the Board shall maintain a Hearings Docket and shall notify the Board members, the technical service concerned, and the claimant of the date, time, and place of hearings. These notices will be dispatched not later than 20 days prior to date of hearing, and the notice to the claimant shall be sent by registered mail.

(5) *Statistical record.* The Recorder shall compile statistical data with respect to each claim sufficient to make the quarterly report required of each department and war agency under section 5 of the act and section 401 of Executive Order No. 9786, October 5, 1946. [Rule 2]

(c) *Amendments and corrections.* The Board may in its discretion, upon request of the claimant and/or with his consent, allow the claim or any document contained therein to be amended or changed: *Provided, however,* That no amendment or change which materially changes the nature of the claim, or which in effect extends the filing date of the complete claim beyond February 7, 1947, shall be allowed. [Rule III]

(d) *Substitution.* Upon motion accompanied by pertinent documentary proof of the circumstances warranting a substitution of party claimant or changing the name of a party claimant, the Board may in its discretion make such substitution or correct its records to reflect the claimant's name. [Rule IV]

(e) *Hearings*—(1) *General.* Before making final determination on a claim received by it, the Board may on the request of the claimant or on its own motion grant a hearing with respect to said claim. Notice of such hearing will be sent to the claimant and other interested parties in accordance with paragraph (b) of this section.

(2) *Quorum.* A quorum of the Board for any purpose shall consist of three members.

(3) *Majority rule.* The decision of a majority of the Board members present at a hearing or who consider a claim without a hearing shall constitute the decision of the Board.

(4) *Place.* Hearings will be held at the office of the Board, Pentagon Building, Washington, D. C., or at such other place as the Board may from time to time direct.

(5) *Absence of claimant.* The absence of the claimant or his counsel, after proper notice of hearing, shall not be a basis for delay of the hearing; *Provided, however,* That the Board may grant a reasonable postponement upon request of the claimant or the interested technical service.

(6) *Arguments and briefs.* The parties may be permitted to present witnesses in support of their claims as filed, to make oral arguments, and to submit written briefs in support of their contentions. [Rule V]

(f) *Decisions*—(1) *Contents.* With respect to each claim considered, the Board will render a decision and will incorporate therein a brief statement of the facts, and the determination of the Board with respect to allowance or denial of the claim, together with reasons therefor. If the claim is allowed in whole or part the decision will also contain a statement that the Board found that the approved claim is: (i) equitable under all the circumstances, and (ii) for losses incurred without fault or negligence on the part of the claimant. [Rule VI]

(g) *Notification*—(1) *Approved claim.* When the Board approves a claim in whole or in part, it will notify the interested technical service and will request said service to proceed toward final settlement of the claim in accordance with § 306.85 (12 F. R. 1436). Request will be made in said notification that a copy of the final settlement agreement be furnished the Recorder of the Board for statistical purposes. The actual notification of the claimant in this type of case will be the function of the technical service.

(2) *Disapproved claim.* When a claim is denied the Board will notify both the technical service and the claimant. Notification to the claimant shall be sent by registered mail. [Rule VII] [WD Memo. 734-50-2, June 9, 1947]

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[File No. 21-400]

PART 172—VERTICAL TURBINE PUMP INDUSTRY

At a regular session of the Federal Trade Commission held at its office in the City of Washington, D. C., on the 11th day of June 1947.

Due proceedings having been held under the trade practice conference procedure in pursuance of the Act of Congress approved September 26, 1914, as amended (Federal Trade Commission Act), and other provisions of law administered by the Commission;

It is now ordered, That the trade practice rules of Group I and Group II, as hereinafter set forth, which have been approved and received, respectively, by the Commission in this proceeding, be promulgated as of June 17, 1947.

Statement by the Commission. Trade practice rules for the Vertical Turbine Pump Industry, as hereinafter set forth, are promulgated by the Federal Trade Commission under the trade practice conference procedure.

The rules are designed to foster and promote the maintenance of fair competitive conditions in the industry and to aid in maintaining high standards of ethical business conduct in the interest of protecting the industry, trade, and the public. Provisions of the rules are to be construed in the direction of preventing the unfair trade practices specified in keeping with requirements of law and the public interest.

Vertical turbine pumps of the industry are used extensively in water works, mining, agriculture, smelting, milling, construction works, marine operations, and in many other activities, for the pumping of water, sewage, gasoline, fuel oil, chemicals, seepage, and other liquids.

Members of the industry are the persons, firms, corporations, or organizations engaged in the business of manufacturing, selling, or distributing such pumps and parts therefor. The volume of business of the industry in initial sales exceeds $25,000,000 annually.

Proceedings for establishment of the rules were instituted upon application from members of the industry. A general trade practice conference for the industry was held by the Commission March 7, 1947, in Chicago, Illinois, at which suggested rules were considered. Thereafter a draft of proposed rules in appropriate form was published by the Commission and copies made available to all interested or affected parties upon public notice whereby they were afforded opportunity to present their views, including such pertinent information, suggestions, or objections as they might desire to offer and to be heard in the premises. Pursuant to the notice, such hearing was held May 28, 1947, in Washington, D. C., and all matters presented, or otherwise received in the proceeding, were duly considered.

Thereupon, and in full consideration of the entire proceeding, final action was taken by the Commission whereby it approved and received, respectively, the trade practice rules hereinafter appearing in Group I and Group II.

Such rules become operative thirty (30) days after promulgation.

The rules. These rules promulgated by the Commission are designed to foster and promote the maintenance of fair competitive conditions in the interest of protecting industry, trade, and the public. It is to this end, and to the exclusion of any act or practice which suppresses competition, restrains trade, fixes or controls price through combination or agreement, or which otherwise injures, destroys, or prevents competition, that the rules are to be applied.

Group I

The unfair trade practices embraced in the Group I rules herein are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited under laws administered by the Federal Trade Commission; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation, or other organization subject to its jurisdiction, of such unlawful practices in commerce.

Sec.
172.1 Misrepresentation.
172.2 False or deceptive selling methods.
172.3 Guarantees, warranties, etc.
172.4 Misrepresenting products as conforming to standard.
172.5 Deception as to rebuilt or used products.
172.6 Fictitious prices.
172.7 Defamation of competitors or disparagement of their products.
172.8 False invoicing.
172.9 Inducing breach of contract.
172.10 Commercial bribery.
172.11 Enticing away employees of competitors.
172.12 Selling below cost.
172.13 Discrimination.
172.14 Combination or coercion to fix prices, suppress competition, or restrain trade.
172.15 Aiding or abetting use of unfair trade practices.

Authority: § 172.1 to § 172.15, inclusive, issued under 38 Stat. 717, as amended; 15 U. S. C. 41, et seq.

§ 172.1 *Misrepresentation.* It is an unfair trade practice to use, or cause or promote the use of, any advertising by radio, newspapers, magazines or other media, or any trade promotional literature, label, brand, mark, designation, or representation (whether in the form of a guarantee, warranty, or otherwise), however disseminated or published, which has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public:

(a) With respect to the quality, grade, size, capacity, properties, durability, serviceability, life, performance, construction, or constituent materials of any product of the industry; or

(b) With respect to any service offered, promised, or to be supplied to purchasers of such product; or

(c) With respect to the manufacture, distribution, servicing, or terms or conditions of sale of such product; or in any other respect. [Rule 1]

§ 172.2 *False or deceptive selling methods.* To use or promote the use of any selling method which has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public is an unfair trade practice. [Rule 2]

§ 172.3 *Guarantees, warranties, etc.*—(a) Guarantees which afford purchasers or users substantial and adequate protection, and are fully and fairly stated or disclosed and scrupulously adhered to by the guarantor, are desirable and recommended. It is an unfair trade practice to use or cause to be used any guarantee which is false, misleading, deceptive, or unfair to the purchasing or consuming public.

(b) Under this section guarantees of the following type or character shall not be used:

(1) Guarantees containing statements, representations, or assertions which have the capacity and tendency or effect of misleading or deceiving in any respect; or

(2) Guarantees which are so used or are of such form, text, or character as to import, imply, or represent that the guarantee is broader than is in fact true, or that the guarantee covers the entire pump or certain parts thereof which are not in fact covered, or will afford more protection to purchasers or users than is in fact true; or

(3) Guarantees in which any condition, qualification, or contingency applied by the guarantor thereto is not fully and nondeceptively stated therein, or is stated in such manner or form as to be deceptively minimized, obscured, or concealed, wholly or in part; or

(4) Guarantees which are stated, phrased, or set forth in such manner that although the statements contained therein are literally and technically true, the whole is misleading in that purchasers or users are not made sufficiently aware of certain contingencies or conditions applicable to such guarantee which materially lessen the value or protection thereof as a guarantee to purchasers or users; or

(5) Guarantees which purportedly extend for such indefinite or unlimited period of time or for such long period of years as to have the capacity and tendency or effect of thereby misleading or deceiving purchasers or users into the belief that the product has or is definitely known to have greater degree of serviceability or durability in actual use than is in fact true; or

(6) Guarantees which have the capacity and tendency or effect of otherwise misrepresenting the performance, serviceability, durability, or lasting qualities of the product, such as, for example, a guarantee extending for a period of time when the ability of the product to last, endure, or remain serviceable for such period of time has not been established by actual experience or by competent and adequate tests definitely showing in either case that the product has such lasting qualities under the conditions encountered or to be encountered in the respective locality where the product is sold and used under the guarantee; or

(7) Purported guarantees in the form of documents, promises, representations or other form which are represented or held out to be guarantees when such is not the fact, or when they are service contracts of the type which are not guarantees, or when they involve any deceptive or misleading use of the word "Guarantee" or term of similar import; or

(8) Guarantees issued, or directly or indirectly caused to be used, by any member of the industry when or under which the guarantor fails or refuses to scrupulously observe his obligation thereunder or fails or refuses to make good on claims coming reasonably within the terms of the guarantee; or

(9) Guarantees which in themselves or in the manner of their use are otherwise false, misleading, or deceptive.

(c) This section shall be applicable not only to guarantees but also to warranties, to purported warranties and guarantees, and to any promise or representation in the nature of or purporting to be a guarantee or warranty. [Rule 3]

§ 172.4 *Misrepresenting products as conforming to standard.* Representing, through advertisement or otherwise, that any product of the industry conform to a standard recognized in or applicable to the industry when such is not the fact, with the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, is an unfair trade practice. [Rule 4]

§ 172.5 *Deception as to rebuilt or used products.* (a) It is an unfair trade practice for any member of the industry to sell, offer for sale, advertise, or otherwise represent, any product of the industry as being new or unused when such is not true in fact.

(b) In the marketing of rebuilt or used products of the industry, or parts thereof, or the marketing of products containing rebuilt or used parts, it is an unfair trade practice to fail or refuse to make full and nondeceptive disclosure of the fact that such products or parts are not new but are used or second-hand or are rebuilt, as the case may be, such failure or refusal to disclose having the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public. [Rule 5]

§ 172.6 *Fictitious prices.* It is an unfair trade practice to sell or offer for sale industry products at prices purported to be reduced from what are in fact fictitious prices, or to sell or offer for sale such products at a purported reduction in price when such purported reduction is in fact fictitious or is otherwise misleading or deceptive. [Rule 6]

§ 172.7 *Defamation of competitors or disparagement of their products.* The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or the false disparagement of competitors' products in any respect, or of their business methods, selling prices, values, credit terms, policies, or services, is an unfair trade practice. [Rule 7]

§ 172.8 *False invoicing.* It is an unfair trade practice to withhold from or insert in invoices any statement or information by reason of which omission or insertion a false record is made, wholly or in part, of the transactions represented on the face of such invoices, with the effect of thereby misleading or deceiving the purchasing or consuming public. [Rule 8]

§ 172.9 *Inducing breach of contract.* It is an unfair trade practice to induce or attempt to induce the breach of existing lawful contracts between competitors and their customers, or their suppliers, by any false or deceptive means whatsoever, or to interfere with or obstruct the performance of any such contractual duties or services by any such means, with the purpose and effect of unduly hampering, injuring, or embarrassing competitors in their business. [Rule 9]

§ 172.10 *Commercial bribery.* It is an unfair trade practice for a member of the industry, directly or indirectly, to give, or offer to give, or permit or cause to be given, money or anything of value to agents, employees, or representatives of customers or prospective customers, or to agents, employees, or representatives of competitors' customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to purchase products manufactured or sold by such industry member or the maker of such gift or offer, or to influence such employers or principals to refrain from dealing in the products of competitors or from dealing or contracting to deal with competitors. [Rule 10]

§ 172.11 *Enticing away employees of competitors.* It is an unfair trade practice for any member of the industry wilfully to entice away employees of competitors with the intent and effect of thereby unduly hampering or injuring competitors in their business and destroying or substantially lessening competition.

NOTE: Nothing in this section shall be construed as prohibiting employees or agents from seeking more favorable employment.

[Rule 11]

§ 172.12 *Selling below cost.* The practice of selling industry products below the seller's cost, when pursued with wrongful intent of thereby injuring a competitor and where the effect of such practice is to unreasonably restrain trade, tend to create a monopoly, or substantially lessen competition, is an unfair trade practice.

This section is not to be construed as prohibiting all sales below cost, but only such selling below the seller's cost as is resorted to and pursued as a monopolistic practice with the wrongful intent referred to and coupled with the effect of unreasonably restraining trade, tending to create a monopoly, or substantially lessening competition.

The costs referred to in this section are actual costs of the respective seller and not some other figure or average costs in the industry determined by an industry cost survey or otherwise. [Rule 12]

§ 172.13 *Discrimination*—(a) *Prohibited discriminatory prices, or rebates, refunds, discounts, credits, etc., which effect unlawful price discrimination.* It is an unfair trade practice for any member of the Industry engaged in commerce,[1] in the course of such commerce, to grant or allow, secretly or openly, directly or indirectly, any rebate, refund, discount, credit, purported allowance for alleged imperfect workmanship or defective material, or other form of price differential, where such rebate, refund, discount, credit, purported allowance for alleged imperfect workmanship or defective material, or other form of price differential, effects a discrimination in price between different purchasers of goods of like grade and quality, where either or any of the purchases involved therein are in commerce,[1] and where the effect thereof may be substantially to lessen competition or tend to create a monopoly in any line of commerce,[1] or to injure, destroy, or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination, or with customers of either of them: *Provided, however:*

(1) That the goods involved in any such transaction are sold for use, consumption, or resale within any place under the jurisdiction of the United States;

(2) That nothing herein contained shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which such commodities are to such purchasers sold or delivered;

(3) That nothing herein contained shall prevent persons engaged in selling goods, wares, or merchandise in commerce [1] from selecting their own customers in bona fide transactions and not in restraint of trade;

(4) That nothing herein contained shall prevent price changes from time to time where made in response to changing conditions affecting either (i) the market for the goods concerned, or (ii) the marketability of the goods, such as, but not limited to, actual or imminent deterioration of perishable goods, obsolescence of seasonal goods, distress sales under court process, or sales in good faith in discontinuance of business in the goods concerned.

(b) *Prohibited brokerage and commissions.* It is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

(c) *Prohibited advertising or promotional allowances, etc.* It is an unfair trade practice for any member of the industry engaged in commerce [1] to pay or contract for the payment of advertising or promotional allowances or any other thing of value to or for the benefit of a customer of such member in the course of such commerce as compensation or in consideration for any services or facilities furnished by or through such customer in connection with the processing, handling, sale, or offering for sale of any products or commodities manufactured, sold, or offered for sale by such member, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products or commodities.

(d) *Prohibited discriminatory services or facilities.* It is an unfair trade practice for any member of the industry to discriminate in favor of one purchaser against another purchaser or purchasers of a commodity bought for resale, with or without processing, by contracting to furnish or furnishing, or by contributing to the furnishing of, any services or facilities connected with the processing, handling, sale, or offering for sale of such commodity so purchased upon terms not accorded to all purchasers on proportionally equal terms.

(e) *Inducing or receiving an illegal discrimination in price.* It is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course of such commerce, knowingly to induce or receive a discrimination in price which is prohibited by the foregoing provisions of this section.

(f) *Purchases by schools, colleges, universities, public libraries, churches, hospitals, and charitable institutions not operated for profit.* The foregoing provisions of this section relate to practices within the purview of the Robinson-Patman Antidiscrimination Act, which act and the application thereunder of this section are subject to the limitations expressed in the amendment to such Robinson-Patman Antidiscrimination Act, which amendment was approved May 26, 1938, and reads as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That nothing in the Act approved June 19, 1936 (Public, Numbered 692, Seventy-fourth Congress, second sesion), known as the Robinson-Patman Antidiscrimination Act, shall apply to purchases of their supplies for their own use by schools, colleges, universities, public libraries, churches, hospitals, and charitable institutions not operated for profit. (52 Stat. 446; United States Code, 1940 edition, Title 15, sec. 13c.)

[Rule 13]

§ 172.14 *Combination or coercion to fix prices, suppress competition, or restrain trade.* It is unfair trade practice for a member of the industry, or any other person:

(a) To use, directly or indirectly, any form of threat, intimidation, or coercion against any member of the industry or other person to unlawfully fix, maintain, or enhance prices, suppress competition, or restrain trade; or

(b) To enter into or take part in, directly or indirectly, any agreement, understanding, combination, conspiracy, or concerted action with one or more members of the industry, or with one or more other persons, to unlawfully fix, maintain, or enhance prices, suppress competition, or restrain trade. [Rule 14]

§ 172.15 *Aiding or abetting use of unfair trade practices.* It is an unfair trade practice for any person, firm, or corporation to aid, abet, coerce, or induce another, directly or indirectly, to use or promote the use of any unfair trade practice specified in this part. [Rule 15]

Group II

Compliance with trade practice provisions embraced in Group II rules is considered to be conducive to sound business methods and is to be encouraged and promoted individually or through voluntary cooperation exercised in accordance with existing law. Nonobservance of such rules does not per se constitute violation of law. Where, however, the practice of not complying with any such Group II rules is followed in such manner as to result in unfair methods of competition, or unfair or deceptive acts or practices, corrective proceedings may be instituted by the Commission as in the case of violation of Group I rules.

Rule A—Price lists. (a) The industry approves the practice of each individual member of the industry independently publishing and circulating to the purchasing trade his own price lists.

(b) The industry approves the practice of making the terms of sale a part of all published price schedules.

Rule B—Maintenance of accurate records. It is the judgment of the industry that each member should independently keep proper and accurate records for determining his costs.

Rule C—Disputes. The industry approves the practice of handling business disputes between members of the industry and their customers in a fair and reasonable manner, coupled with a spirit of moderation and good will, and every effort should be made by the disputants themselves to compose their differences. If unable to do so they should, if possible, submit these disputes to arbitration.

A Committee on Trade Practices is hereby created to cooperate with the Federal Trade Commission and to perform such acts as may be legal and proper to put these rules into effect.

Promulgated and issued by the Federal Trade Commission June 17, 1947.

Acting Secretary.

TITLE 42—PUBLIC HEALTH

Chapter I—Public Health Service, Federal Security Agency

PART 02 [1]—ORGANIZATION AND FUNCTIONS

PART 03 [2]—PROCEDURE AND FORMS

MISCELLANEOUS AMENDMENTS

1. Section 02.104 of Subpart A, General organization and functions, is hereby amended to read as follows:

§ 02.104 *Delegation of Presidential and other authority.* The Federal Security Administrator is authorized, in his discretion, to exercise the powers of the President (a) to establish special temporary positions under section 207 (a) of the Public Health Service Act, (b) to terminate reserve commissions under section 208 (a) (2) of the act, and (c) to specify ports under section 366 (a) of the act. (See E. O. 9655, 10 F. R. 14121.) Delegations of final authority for other specific actions are described in pertinent sections.

2. Section 02.112 (c) (3) is hereby amended as follows: Delete "Form 1946B" and substitute therefor "Form 1946S."

3. Section 02.112 (d) is hereby amended to read as follows:

§ 02.112 *Availability of public records.* * * *

(d) Notwithstanding the foregoing, the Surgeon General may authorize the disclosure of any information within the categories enumerated, other than categories (1) and (7), upon written application and upon determination that such disclosure would be in the public interest. Information will be furnished, subject to the general rules of evidence, upon order of a court of competent jurisdiction when a subpoena is served upon a representative of the Service competent to testify thereon. When an officer or employee of the Service is called upon to testify or produce records falling within category (1), in the absence of waiver by the patient, he shall call the attention of the court to the provisions of 58 Stat. 701; 42 U. S. C. Sup., sec. 344. When a subpoena involves a patient committed to the care of the Service by the Veterans' Administration; Bureau of Employees' Compensation, Federal Security Agency; or other Federal agency, the matter should be brought to the attention of such agency in accordance with the arrangements made for the care of such patients and the attention of the court be called to any regulations of such other agencies requiring that the information sought to be disclosed is confidential. Except in the interest of the Government, no officer or employee (either full-time or part-time) of the Public Health Service shall willingly be qualified as an expert witness in the case of a litigant who has been a patient of the Service.

4. Section 02.209 of Subpart B, Office of the Surgeon General, is amended to read as follows:

§ 02.209 *Office of International Health Relations.* This office supervises and coordinates all activities of the Service in the international health field. It maintains liaison with agencies in this field; represents the Service in international health conferences; directs a program of international exchange of health personnel and educational material; drafts sanitary conventions and regulations, and health reports required by international agreements; collects and distributes data relating to foreign medical and health institutions; supervises special health missions to foreign countries; and advises the State Department upon request regarding plans, programs, and policies in connection with the World Health Organization. The Office advises the Surgeon General on international health matters.

5. Section 02.210 (a) is amended to read as follows:

§ 02.210 *Office of the Executive Assistant.* (a) The general function of this office is supervision over administrative procedures in the internal management of the Public Health Service. The Executive Assistant is Chief of the Office. The Office includes: (1) the Office of Personnel; (2) Purchase and Supply Office; and (3) the Chief Clerk's Office.

6. Section 02.210 (b) is amended to read as follows:

(b) The Office of Personnel is responsible for planning and administering recruitment, selection, promotion, transfer, reassignment, classification, appointment and training of all civil service employees, departmental and field; and is also responsible for coordinating personnel policies, procedures, and methods in accordance with applicable laws and regulations of the Civil Service Commission.

7. Section 02.401 *Principal subdivisions of Subpart D, Bureau of Medical Services,* is hereby amended as follows: Add "Federal Employee Health Division."

8. Section 02.405 of Subpart D is hereby amended by adding the following paragraph:

§ 02.405 *Mental Hygiene Division.* * * *

(c) The Mental Hygiene Division renders assistance to the Juvenile Court of the District of Columbia through the detail and supervision of professional personnel for psychiatric services to the Court.

9. Subpart D of Part 02 is hereby amended by adding the following section:

§ 02.406 *Federal Employee Health Division.* The Federal Employee Health Division has general responsibility for carrying out the functions to be performed by the Public Health Service in connection with health programs for Government employees as authorized by Public Law 658, 79th Congress, approved August 8, 1946. More particularly, the Division (a) develops policies and standards to effectuate the purposes of the act; (b) conducts studies and prepares analyses relating to employee health programs in Government; (c) provides consultative services to the heads of departments and agencies of the Federal Government, including Government-owned and controlled corporations; (d) upon proper request, reviews and appraises the health service programs being conducted, submitting appropriate comment and recommendations; and (e) negotiates contracts with departments and agencies of the Federal Government for the operation of such programs.

10. Appendix A, List of field stations, of Part 02, is amended in the following particulars:

a. *U. S. Marine Hospitals:*

Delete "Louisville, Ky.: Portland Avenue and 22d Streets (12)."

Add "(1)" to the address of the Galveston, Texas, Marine Hospital.

Delete "Seattle, Wash.: Judkins Street and 14th Avenue South (44)" and substitute therefor "Seattle, Wash.: Judkins Street and 14th Avenue South (44), Out-patient Office: 201–8 Alaska Building."

Add "(4)" to the address of the Staten Island, Stapleton, N. Y., Marine Hospital.

Delete "Evansville 12, Ind." and substitute therefor "Evansville, Ind.: 2700 West Illinois Street (12)."

b. *Other relief stations:*

Delete "Bangor, Maine: 39 High Street" and substitute therefor "Bangor, Maine: 217 State Street."

Delete "Burlington, Iowa: 320 North Third Street" and substitute therefor "Burlington, Iowa: Room 219 Tama Building, 305 N. Third Street."

Add "Louisville, Ky.: Federal Building."

Delete "Marquette, Mich.: 107 Harlow Block" and substitute therefor "Marquette, Mich.: Savings Bank Building, 101 South Front Street."

Delete "Milwaukee 2, Wis.: 560 Federal Building" and substitute therefor "Milwaukee 2, Wis.: 560 Federal Building, 517 E. Wisconsin Avenue."

Delete "Sault Ste. Marie, Mich.: 312 Ashmun Street" and substitute therefor "Sault Ste. Marie, Mich.: Hub Building, 312 Ashmun Street."

Add "Sheepshead Bay, Brooklyn, N. Y.: U. S. Maritime Service Training Station."

Delete "Tampa 2, Fla.: 416 Tampa Street" and substitute therefor "Tampa 1, Fla.: P. O. Box 1428."

11. Section 03.232 (b) of Subpart B, office of the Surgeon General, is amended to read as follows:

§ 03.232 *Water supplies and watering points.* * * *

(b) Immediately before the beginning of each calendar year all carrier companies are circularized by letter from the Surgeon General requesting a statement identifying sources of water used by the carrier, ownership of the supply, and location of watering points at which the water is loaded on the conveyances. This information is submitted to district offices of the Service and is transmitted by them to the appropriate State health authorities. In cooperation with the district offices, State authorities inspect the water supplies and watering points. Inspection reports and recommendations are sent to the district offices, and to the carrier company. On the basis of these reports and recommendations, the district offices recommend to the Surgeon General one of three certifications: (1) Approved; (2) Provisionally approved pending correction of defects, with a time limit set for correcting deficiencies found; (3) Prohibited. If the supply or point is given a prohibited certification, a carrier may not, consistent with the regulations, take on water at that point. A prohibited point will be reinspected upon receipt of a request for such reinspection addressed to the Surgeon General by the carrier company. Carrier companies are notified of certifications by the Surgeon General on Form 8921–D entitled "Certification of Examination of Water Provided for Common Carriers Engaged in Interstate Traffic"; in the case of change to a "prohibited" certification the company is also notified by telegram.

12. Section 03.652 (a) of Subpart D, Bureau of Medical Services, is hereby amended to read as follows:

§ 03.652 *Action following violations.* (a) When a violation of quarantine laws or regulations by any person is reported to or discovered by the medical officer in charge of a Quarantine Station, he notifies the person by letter, stating the violation and requesting a statement of facts. In the case of a violation by a vessel or aircraft, the medical officer in charge notifies the Collector of Customs who in turn notifies the operator, owner, or agent of the violation and of the forfeiture incurred. The operator or owner of the conveyance may apply to the Surgeon General for remission or mitigation of such forfeiture; the application should be filed with the Collector of Customs who will transmit it to the medical officer in charge for referral to the Surgeon General.

13. Section 03.652 (b) is hereby amended to read as follows:

(b) The file in each case is forwarded by the medical officer in charge to the Chief of the Foreign Quarantine Division for consideration of whether the circumstances warrant prosecution in the case of violation by a person, or forfeiture proceedings in the case of violation by a vessel or aircraft.

14. Subpart E, Bureau of State Services, is amended by adding the following:

GRANTS FOR HOSPITAL SURVEY AND PLANNING

§ 03.751 *General statement.* Title VI of the Public Health Service Act of July 1, 1944, as amended by the act of August 13, 1946 (Public Law 725, 79th Congress), provides in part for making Federal funds available (a) to assist States to inventory their existing hospitals, (b) to survey the need for construction of hospitals, and (c) to develop programs for construction of such public and other nonprofit hospitals as will, in conjunction with existing facilities, afford the necessary physical facilities for furnishing adequate hospital, clinic, and similar services to the people of the several States. "Hospital" includes public health centers as well as hospitals and facilities related to either.

General administrative responsibility for this program is exercised by the Division of Hospital Facilities in the Bureau of State Services. An administrative office (Grants-in-Aid Section) in the Bureau is concerned with the personnel and fiscal management phases of the Grant Program.

§ 03.752 *Making of allotments.* The Surgeon General determines the allotment to each State upon the basis of criteria prescribed in the law. State health authorities and State agencies are notified of allotments, as the same are made, by letter from the Chief of the Division of Hospital Facilities.

§ 03.753 *State application and other required forms.* Payments from allotments to States are made after the following forms have been submitted by the State Agency designated as the sole agency for carrying out the purposes of section 601 (a) of the Public Health Service Act, and have been approved by the Surgeon General:

(a) *Form HS&P–1, State Application for Federal Funds for Survey and Planning pursuant to the Hospital Survey and Construction Act.* This form must be submitted in quadruplicate. It may be submitted prior to or simultaneously with the submission of the forms described in (b), (c) and (d) of this section. This form is designed to elicit information showing that the legal requirements of section 612 (a) of the Public Health Service Act have been met.

(b) *Joint Budget Forms 3, 3A and 3B.* The budget and budget revisions must be submitted in triplicate. The initial budget cannot be acted upon until schedule D–32 (see paragraph (c) of this section) has been received. Annual budgets subsequent to the initial budget must be submitted on or before May 15 of each year. These forms require statements of proposed expenditures by the State Agency and the source and amount of funds available for matching purposes.

(c) *Schedule D–32, Hospital Survey and Planning.* This form must be submitted in duplicate. It should be submitted with the budget. This form is designed to elicit information showing the plans of the State Agency for conducting the survey and planning program.

(d) *Form HF–3, Request for Payment.* This form must be submitted in duplicate. It contains a certificate to the effect that State appropriated funds or funds from other non-Federal sources either are or will be available and any expenditures of Federal funds granted under the Program will be matched by expenditures of twice the amount in Federal funds on or before June 30, 1948. It also contains a certificate to the effect that Federal funds granted under the Program will be expended only for Hospital Survey and Planning purposes as well as a statement to the effect that repayment to the Treasury of the United States will be made of any Federal funds which have been paid to the State Agency and not expended in accordance with the matching requirements and other provisions of the act.

§ 03.754 *Assistance in development of State programs.* Specialized consultants assigned to District Offices of the Service assist the States in developing and planning their programs. Close working relationships are maintained with the State health authorities and with State agencies for this purpose. The consultants maintain direct contact with the Division of Hospital Facilities at Headquarters for guidance in this work.

§ 03.755 *Submission and approval of forms.* All forms described in § 03.753 are submitted by the State Agency to the respective District Office of the Service where they are reviewed. Generally, the District Director tentatively approves or disapproves the forms and transmits them to Headquarters for final action. The State Agency is notified of final approval or disapproval. Amendments to these forms are handled in the same manner as the original forms.

§ 03.756 *Payments from allotments.* After its application is approved, a State Agency may submit a request for payment on Form HF–3. For the first payment, it should be submitted with or subsequent to the submission of the forms described in paragraphs (a), (b), and (c) of § 03.753. For subsequent payments this form should be submitted on or before the fifteenth day of the month preceding the end of the quarter in which subsequent payments are requested.

§ 03.757 *Audits.* Audits of activities and programs and of fiscal transactions are made periodically, by arrangement with the State authority, by personnel attached to the District Office. Exceptions taken to fiscal transaction are reviewed by the District Director who recommends to the Bureau the sustaining or withdrawal of the exceptions. On the basis of a review by the Grants-in-Aid Section, and after consultation with the Chief of the Division of Hospital Facilities, the Chief of the Bureau determines whether the exception shall be sustained or withdrawn.

Analysts also advise State Agencies as to methods of conducting fiscal affairs and upon request assist them in installing fiscal and related business methods, procedures, and records.

§ 03.758 *Reports.* Quarterly and annual financial reports containing information pertinent to the operation of State programs are required on joint financial report forms 11 1, 11.3, and 11 5.

PART 28—PAYMENTS TO PROVIDE TRAINING FOR NURSES

PART 30—UNIFORM AND INSIGNIA OF THE UNITED STATES CADET NURSE CORPS

PART 31—FLAG OF THE UNITED STATES CADET NURSE CORPS

LIQUIDATION OF PROGRAM

1. Part 28 is hereby amended by adding after § 28.9 the following:

§ 28.10 *Payments for period beginning July 1, 1947.* (a) Payments for continuing training of students after June 30, 1947, will be made only to institutions which had approved plans prior to July 1, 1946, and only for students who were enrolled under approved plans on or before October 15, 1945.

(b) Payments will be made at the beginning of each quarter, *Provided*, That in the discretion of the Surgeon General, a single payment may be made for the last six months of the Fiscal Year 1948.

(c) The amounts of such payments will be reduced or increased, as the case may be, by any sum by which the Surgeon General finds that unadjusted payments with respect to any prior period were greater or less than the amount which should have been paid such institutions.

§ 28.11 *Disposition of uniforms and textbooks.* Uniforms and textbooks furnished directly or indirectly by the United States, or paid for with funds received for nurse training from the United States upon certification of the Surgeon General, which are in the hands of the institution and are not to be turned over to students enrolled under the training program, shall be held for such disposition as the Surgeon General may approve or direct. Any amounts realized by an institution from the sale of such uniforms or textbooks shall be credited to the account provided for in § 28.9.

§ 28.12 *Adjustments in payments.* (a) Except as the Surgeon General may otherwise determine on the basis of equitable considerations in the individual case, adjustments in payments shall be made on the basis of the regulations in effect at the time the expenditure was made or at the time the service rendered by the institution became chargeable.

(b) After termination of an institution's approved training program, the amount of any excess of moneys received over authorized disbursements and charges, as determined by the Surgeon General, shall be refunded to the Surgeon General, Public Health Service, for deposit in the Treasury of the United States. Any amounts determined by the Surgeon General to be due the institution shall be adjusted by a final payment.

(c) The account provided in § 28.9, and all records pertaining thereto shall be kept until such time as the institution is notified of the final adjustment of payments and approval of accounts by the Surgeon General.

2. Part 30, Uniform and Insignia of the United States Nurse Corps, is hereby revoked.

3. Part 31, Flag of the United States Cadet Nurse Corps, is hereby revoked.

[T. D. 51698]

1947 QUOTA ON CERTAIN FISH ENLARGED

JUNE 12, 1947.

In accordance with the second proviso to item 717 (b) of Schedule II in the trade agreement with Canada (T. D. 49752), it has been ascertained that the average apparent annual consumption in the United States of fish, fresh or frozen (whether or not packed in ice), filleted, skinned, boned, sliced, or divided into portions, not specially provided for: cod, haddock, hake, pollock, cusk, and rosefish, in the 3 years preceding 1947, calculated in the manner provided for in the cited agreement, was 159,376,156 pounds. The quantity of such fish that may be imported for consumption during the calendar year 1947 at the reduced rate of duty provided for in that trade agreement is, therefore, increased from 15,000,000 to 23,906,423 pounds.

[Docket No. 2984]

ROYAL DUTCH AIR LINES (KLM)

NOTICE OF HEARING

In the matter of the application of Royal Dutch Air Lines (KLM) pursuant to section 402 of the Civil Aeronautics Act of 1938, as amended, for amendment of a foreign air carrier permit authorizing foreign air transportation between Amsterdam, the Netherlands, and New York, N. Y., via intermediate points, so as to extend the term of said permit.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 402 and 1001 of said act, that a hearing in the above-entitled proceeding is assigned to be held on June 27, 1947, at 10 a. m. (eastern daylight savings time) in Room 1508, Department of Commerce Building, 14th Street and Constitution Avenue, Northwest, Washington, D. C., before Examiner Barron Fredricks.

Without limiting the scope of the issues presented by said application, particular attention will be directed to the following matters and questions:

1. Whether the proposed air transportation will be in the public interest.

2. Whether the applicant is fit, willing and able to perform such transportation and to conform to the provisions of the act and the rules, regulations, and requirements of the Board thereunder.

3. Whether the authorization of the proposed transportation is consistent with any obligation assumed by the United States in any treaty, convention or agreement in force between the United States and the Kingdom of the Netherlands.

Notice is further given that any person desiring to be heard in this proceeding must file with the Board, on or before June 27, 1947, a statement setting forth the issues of fact or law raised by said application which he desires to controvert.

For further details of the service proposed and authorization requested, interested parties are referred to the application on file with the Civil Aeronautics Board.

Dated at Washington, D. C., June 12, 1947.

By the Civil Aeronautics Board.

FEDERAL COMMUNICATIONS COMMISSION

ADIRONDACK BROADCASTING CO.

PUBLIC NOTICE CONCERNING PROPOSED TRANSFER OF CONTROL [1]

The Commission hereby gives notice that on March 13, 1947 (as amended May 28, 1947), there was filed with it an application (BTC–553) for its consent under section 310 (b) of the Communications Act to the proposed transfer of control of The Adirondack Broadcasting Company licensee of WABY, Albany, N. Y., from Harold E. Smith and Raymond N. Curtis to the Press Co. The proposal to transfer control arises out of a contract of May 15, 1947, pursuant to which said Smith and Curtis agree to sell their total of 105 out of 200 shares (52.5%) of the common voting stock of The Adirondack Broadcasting Company (WABY) to the Press Company, Albany, N. Y., for $25,000 in cash plus 250 out of 760 shares of the capital stock in WOKO, Inc., now owned by the Press Company and valued at $118,750, or a total consideration of $143,750. The cash and stock shall be tendered to the sellers on the date of closing which shall be within 30 days of receipt of the written consent of the FCC to the transfer. Further information as to the arrangements may be found with the application and associated papers which are on file at the offices of the Commission in Washington, D. C.

Pursuant to § 1.321 which sets out the procedure to be followed in such cases including the requirement for public notice concerning the filing of the application, the Commission was advised by applicant on May 28, 1947, that starting on June 6, 1947, notice of the filing of the application would be inserted in a newspaper of general circulation at Albany, N. Y., in conformity with the above section.

In accordance with the procedure set out in said section, no action will be had upon the application for a period of 60 days from June 6, 1947, within which time other persons desiring to apply for the facilities involved may do upon the same terms and conditions as set forth in the above described contract.

FEDERAL POWER COMMISSION

[Docket No. G-867]

NORTHERN NATURAL GAS CO.

ORDER GRANTING MOTIONS IN PART AND DENYING IN PART

It appearing to the Commission that:

(a) On May 20, 1947, Koppers Company, Inc., an intervener herein, filed a motion in the alternative for (1) dismissal of the application of Northern Natural Gas Company herein, or (2) an order requiring Northern Natural Gas Company to amend its application to conform to the rules and regulations of the Commission.

(b) On May 26, 1947, Northern Natural Gas Company filed a motion for (1) continuance of the hearing herein, heretofore set for June 16, 1947, to a date not prior to September 16, 1947, and not later than October 14, 1947, and (2) for an order fixing the place of such hearing in the City of Omaha, Nebraska, rather than in Washington, D. C.

(c) On June 3, 1947, Koppers Company, Inc., filed an answer to the motion of Northern Natural Gas Company, concurring in the motion for continuance but opposing change of place of hearing.

The Commission orders that:

(A) The hearing in this proceeding, heretofore set for June 16, 1947, be and the same is hereby postponed to October 13, 1947, at the same time and place.

(B) Northern Natural Gas Company be and it is hereby directed to file with the Commission, not later than thirty days before the commencement of the hearing in this matter, a supplement to its application. Said supplement shall contain all information respecting the facilities applied for not now contained in the application, and which is required by the rules and regulations of the Commission respecting such matters.

(C) The said motions be and they are hereby denied in all respects other than those granted in paragraphs (A) and (B) above.

(D) Prior to the date herein fixed for the commencement of the public hearing, the officer designated by the Commission to preside at the public hearing may hold a prehearing conference of all parties participating in the proceedings concerning the matters of fact and law asserted in the application and other pleadings filed in this proceeding for the purpose of settling, simplifying or limiting the issues and further apprising the parties of the formulated or stipulated issues upon which evidence must be adduced at the public hearing.

Date of issuance: June 11, 1947.

By the Commission.

[Docket No. G-904]

KANSAS-NEBRASKA NATURAL GAS CO., INC.

NOTICE OF APPLICATION

JUNE 11, 1947.

Notice is hereby given that on May 20, 1947, Kansas-Nebraska Nautral Gas Company, Inc. (Applicant), a Kansas corporation, having its principal places of business at Phillipsburg, Kansas, and Hastings, Nebraska, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to construct and operate the following described facilities:

(1) One (1) additional 1,000 H. P. compressor unit to be installed at Applicant's Deerfield compressor station near Deerfield, Kearny County, Kansas.

(2) One (1) additional 1,000 H. P. compressor unit to be installed at Applicant's Scott City compressor station near Scott City, Kansas.

(3) One (1) 1,000 H. P. compressor unit to be installed at Applicant's Palco compressor station near Palco, Kansas.

(4) Two (2) 600 H. P. compressor units to be installed at Applicant's Otis compressor station near Otis, Kansas.

(5) A new compressor station in the vicinity of Cozad, Nebraska, in which there is proposed to be installed two (2) 125 H. P. Worthington compressor units.

(6) Installation in the vicinity of Davenport, Nebraska, of one or two 40 H. P. portable compressor units.

Applicant further requests authority to remove and relocate the following-described facilities:

Remove two (2) 125 H. P. Worthington compressor units presently located in Applicant's Stockton compressor station and install the same in a new compressor station to be located near Cozad, Nebraska, as described in paragraph (5) above.

Applicant states that the proposed construction and installations are for the purpose of assuring continuity of and better service to the markets presently served by Applicant. It is stated that the development of the Unruh area and the constantly increasing production of natural gas therefrom makes necessary the re-installation in the Otis compressor station of equipment removed therefrom in 1946.

The presently installed and additional proposed horsepower and daily capacity at each compressor station is stated to be as follows:

Station	Installed horsepower			Total daily capacity, Mcf
	Present	Proposed	New total	
Deerfield	1,800	1,000	2,800	100,100
Scott City	5,000	1,000	6,000	190,400
Otis	0	1,200	1,200	29,800
Palco	2,500	1,000	3,500	59,500
Cozad	0	250	250	-
Davenport	0	80	80	-

The estimated total over-all capital cost of the proposed construction is $462,500. Applicant proposes to finance the cost from a portion of the proceeds from the sale of 5,000 shares of preferred stock and from the proceeds from the sale of approximately 56,992 shares of common stock of Applicant. No firm commitments have as yet been secured relative to financing the proposed construction. Total annual fixed charges on the proposed construction are estimated at $23,125 and it is estimated that total additional annual operating expenses incident to such construction will be approximately $6,300.

Applicant states that while the proposed construction will enable the transportation, delivery and marketing of increased volumes of gas and thus add to the total revenues of Applicant, it has not been considered practicable to estimate the precise amount of such increased

revenues that should be allocated to the new construction.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of Kansas-Nebraska Natural Gas Company, Inc., is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946), and shall set out clearly and concisely the facts from which the nature of the petitioner's or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of fact or law asserted in the proceeding.

[Docket No. G-905]

EQUITABLE GAS CO.

NOTICE OF APPLICATION

JUNE 10, 1947.

Notice is hereby given that on May 28, 1947, Equitable Gas Company (Applicant), a Pennsylvania corporation having its principal place of business at Pittsburgh, Pennsylvania, filed an application pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of certain storage pipe lines and compressing equipment for use in connection with Applicant's Kirby Storage Pool, located in Whiteley and Perry Counties, Pennsylvania, all as more particularly hereinafter described.

Applicant proposes to construct approximately 60,000 feet of 12-inch pipe line from Applicant's existing Rogersville Compressor Station to the Kirby Storage Pool; approximately 7,500 feet of 8-inch and approximately 7,000 feet of 6-inch pipe line connecting 10 storage wells in the Kirby Storage Pool; a 400 H. P. compressor unit with auxiliary equipment and building to be located at Applicant's Rogersville Compressor Station; and two orifice meters, one to be installed at the discharge side of the Rogersville Compressor Station and the other at the intersection of the proposed new 12-inch line and Applicant's existing 16-inch main line.

Applicant recites that the additional compressor unit will be used as the third stage of compression and pump gas into storage from 300 pounds to a maximum discharge pressure of 750 pounds. The proposed new 12-inch pipeline will be used to transport the gas from the Rogersville Compressor Station to the Kirby Storage Pool. After the pool is fully repressured, the wells will be shut in. The gas will be held in reserve in the pool until the demand for gas requires its use in meeting peak winter loads, at which time the gas will be fed into the transmission system through the proposed 12-inch line. After sufficient gas has been withdrawn to lower the pressure of the pool, the proposed 12-inch line will be used to carry the gas back to the Rogersville station and pumped into transmission, together with the local field gas regularly pumped by Rogersville. Applicant estimates that when the Kirby Storage Pool is brought to full pressure, with the facilities hereinbefore described, it will deliver a maximum of 13,200 Mcf per day; the deliverability declining with the decline in pool pressure. Applicant states that the gas required for storage will come from its local production in the State of Pennsylvania, and pipeline purchases of gas produced outside the State of Pennsylvania, deliveries of which are made to Applicant at the Pennsylvania-West Virginia State line. Applicant recites that curtailments to its industrial consumers totaled 39,350 Mcf on the peak day (February 5, 1947) of the past winter season.

Applicant estimates the over-all cost of construction will total $460,000. Applicant states no outside financing is expected to be required.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of Equitable Gas Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946), and shall set out clearly and concisely the facts from which the nature of the petitioner's or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceedings as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of facts or law asserted in the proceeding.

INTERSTATE COMMERCE COMMISSION

[No. 29762]

ATCHISON, TOPEKA AND SANTA FE RAILWAY CO. ET AL.

ALLOWANCES FOR PICK-UP AND DELIVERY AT KANSAS CITY, KANS.

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 9th day of June A. D. 1947.

The Commission having under consideration the matter of compensation paid and allowances made to persons performing pick-up and delivery service or transporting less-than-carload and less-than-truckload shipments at the terminal area of Kansas City, Mo., and Kansas City, Kans., between freight stations of common carriers by railroad, common carriers by motor vehicle, and freight forwarders, subject to the Interstate Commerce Act, on the one hand, and other points in said terminal area, on the other, and

It appearing, that such compensation is paid and allowances are made in connection with a substantial volume of freight moving in interstate and foreign commerce by said common carriers and freight forwarders:

It is ordered, That an investigation be, and it is hereby, instituted, upon the Commission's own motion, into and concerning the payment of compensation and the making of allowances to warehousemen, pool-car distributors, shippers, consignors, and consignees, or their representatives, and the practices pertaining thereto, for the transportation in interstate and foreign commerce of less-than-carload and less-than-truckload shipments between such station and other points in said terminal area with a view to determining whether the said common carriers and freight forwarders are paying compensation or making allowances to warehousemen and others mentioned above in excess of the amounts provided in the tariffs of said common carriers and freight forwarders as allowances to shippers, consignors and consignees which elect to perform their own pick-up and delivery service in violation of sections 6 (7), 15 (13), 217 (b) and (d), 225, 405 (c) and (e), and 415 of the Interstate Commerce Act, and to making such findings and entering such order or orders, or taking such other action, as may be warranted by the record.

It is further ordered, That the common carriers by railroad and motor vehicle and freight forwarders listed in the appendix hereto be, and they are hereby, made respondents to this proceeding.

It is further ordered, That this proceeding be, and it is hereby, assigned for hearing before Examiner Burton Fuller on July 14, 1947, at 9:30 a. m., U. S. standard time, at Hotel President, Kansas City, Mo.

And it is further ordered, That a copy of this order be served on each of said respondents, and at the same time copies be posted in the office of the Secretary of the Commission at Washington, D. C., and filed with the Director, Division of Federal Register, Washington, D. C.

GREAT NORTHERN RAILWAY CO. ET AL.

ALLOWANCES FOR PICK-UP AND DELIVERY AT PORTLAND, OREG.

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 9th day of June A. D. 1947.

The Commission having under consideration the matter of compensation paid and allowances made to persons performing pick-up and delivery service or transporting less-than-carload and less-than-truckload shipments at the terminal area of Portland, Oreg., between freight stations of common carriers by railroad, common carriers by motor vehicle, and freight forwarders, subject to the Interstate Commerce Act, on the one hand, and other points in said terminal area, on the other, and

It appearing that such compensation is paid and allowances are made in connection with a substantial volume of freight moving in interstate and foreign commerce by said common carriers and freight forwarders:

It is ordered, That an investigation be, and it is hereby instituted, upon the Commission's own motion, into and concerning the payment of compensation and the making of allowances to warehousemen, pool-car distributors, shippers, consignors, and consignees, or their representatives, and the practices pertaining thereto, for the transportation in interstate and foreign commerce of less-than-carload and less-than-truckload shipments between such stations and other points in said terminal area, with a view to determining whether the said common carriers and freight forwarders are paying compensation or making allowances to warehousemen and others mentioned above in excess of the amounts provided in the tariffs of said common carriers and freight forwarders as allowances to shippers, consignors, and consignees which elect to perform their own pick-up and delivery service, in violation of sections 6 (7), 15 (13), 217 (b) and (d), 225, 405 (c) and (e), and 415 of the Interstate Commerce Act, and to making such findings and entering such order or orders, or taking such other action, as may be warranted by the record.

It is further ordered, That the common carriers by railroad and motor vehicle and freight forwarders listed in the appendix hereto be, and they are hereby, made respondents to this proceeding.

It is further ordered, That this proceeding be, and it is hereby, assigned for hearing before Examiner Burton Fuller on August 11, 1947, at 9:30 a. m., U. S. standard time, at Hotel Multnomah, Portland, Oreg.

And it is further ordered, That a copy of this order be served on each of said respondents, and at the same time copies be posted in the office of the Secretary of the Commission at Washington, D. C., and filed with the Director, Division of Federal Register, Washington, D. C.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1466]

MICHIGAN CONSOLIDATED GAS CO. AND AMERICAN LIGHT & TRACTION CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 11th day of June 1947.

American Light & Traction Company ("American Light"), a registered holding company and Michigan Consolidated Gas Company ("Michigan Consolidated"), a subsidiary of American Light, having filed a joint application and amendments thereto under section 6 (b) of the Public Utility Holding Company Act of 1935 ("act") in which Michigan Consolidated proposed to issue and sell, pursuant to the competitive bidding provisions of Rule U-50 promulgated under the act, $6,000,000 principal amount of its --% series First Mortgage Bonds, dated March 1, 1947 and maturing March 1, 1969; and

The Commission by order dated May 20, 1947 having granted said application, as amended, subject to the condition, among others, that the proposed issuance and sale of the bonds not be consummated until results of the competitive bidding pursuant to Rule U-50 were made a matter of record herein and an order was entered by the Commission upon the record as so completed, jurisdiction being reserved for such purpose; and

Michigan Consolidated having filed a further amendment stating that, in accordance with the order of the Commission dated May 20, 1947, it has offered such bonds for sale pursuant to the competitive bidding requirements of Rule U-50 and, on June 9, 1947, received the following bids:

	Price to company [1]	Coupon rate	Net interest cost to company
		Percent	*Percent*
Halsey, Stuart & Co., Inc	101.269	2¾	2.7971
White, Weld & Co.;	100.52917	2¾	2.8456
Dillon, Read & Co., Inc.	100.3199	2¾	2.8655
Glore Forgan & Co.	100.273	2¾	2.8682
W. C. Langley & Co.			
Harris, Hall & Co.	101.63	3	2.8866
Drexel & Co.			
Lehman Bros.	101.2967	3	2.9048
The First Boston Corp.	101.30	3	2.9195

[1] Plus accrued interest.

The amendment further stating that Michigan Consolidated has accepted the bid of Halsey, Stuart & Co., Inc. for the bonds, and that the purchaser proposes to offer the bonds to the public at 102.05% of the principal amount thereof, plus accrued interest thereon from March 1, 1947 to the date of delivery, resulting in an underwriting spread of 0.781% of the principal amount of said bonds.

The Commission having considered the record as so completed by said amendment, and finding that the applicable standards of the act and the rules and regulations have been satisfied, and finding no basis for imposing terms and conditions with respect to the price to be paid for said bonds or the underwriters' spread and allocation thereof;

It is ordered, That, subject to the terms and conditions prescribed by Rule U-24, jurisdiction heretofore reserved be, and it hereby is, released.

By the Commission.

PUBLIC SERVICE CO. OF NEW MEXICO

NOTICE OF FILING AND NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 9th day of June 1947.

Notice is hereby given that applications or declarations (or both) and an amendment thereto have been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by Public Service Company of New Mexico ("Public Service"), a subsidiary of Federal Light & Traction Company, a registered holding company. The applicant-declarant has designated section 6 (b) and Rule U-50 as applicable to the proposed transactions.

All interested persons are referred to said applications or declarations (or both) on file in the office of this Commission for a statement of the transactions therein proposed which may be summarized as follows:

Public Service proposes to issue and sell, pursuant to the competitive bidding provisions of Rule U-50, $6,800,000 principal amount of First Mortgage Bonds, --% Series due 1977, the interest rate

and the price to Public Service to be determined by competitive bidding.

Public Service proposes to amend its Certificate of Incorporation to provide for an increase of its authorized capital stock from $5,250,000 to $10,000,000, such increase to consist of 47,500 shares of $100 par value Cumulative Preferred Stock.

Public Service proposes to issue and sell, pursuant to the competitive bidding provisions of Rule U-50, 20,000 shares of $100 par value __% Cumulative Preferred Stock, the dividend rate and the price to Public Service to be determined by competitive bidding.

Public Service proposes to apply the net proceeds of the proposed sale of the Bonds and Preferred Stock to the redemption of all of the outstanding bonds issued or assumed by it and to the prepayment of a bank loan as follows:

To the redemption, at 103½ percent of the principal amount, of $3,267,000 principal amount of first mortgage bonds, 3½ percent series due 1966 (exclusive of interest) of Albuquerque Gas & Electric Co	$3,381,345
To the redemption, at 103½ percent of the principal amount of $1,700,000 principal amount of first mortgage bonds, 3½ percent series due 1966 (exclusive of interest) of New Mexico Power Co	1,759,500
To the redemption, at 103½ percent of the principal amount, of $300,000 principal amount of first mortgage bonds, 3½ percent series due 1966 (exclusive of interest) of Deming Ice & Electric Co	310,500
To the redemption, at 103½ percent of the principal amount, of $225,000 principal amount of first mortgage bonds, 3½ percent series due 1966 (exclusive of interest) of the Las Vegas Light & Power Co	232,875
To the prepayment of a $1,000,000 principal amount two percent bank loan note dated Feb. 14, 1947 (exclusive of interest)	1,000,000
	6,684,220

The balance of the net proceeds after payment of expenses incurred in connection with such redemptions, including overlapping interest, is to be added to the general funds of the company and will be available for construction of property additions and improvements and to reimburse Public Service for expenditures heretofore made for such purposes.

Public Service requests an interim order with respect to the aforesaid proposed amendment to its Certificate of Incorporation.

It is ordered, That a hearing on said applications or declarations, pursuant to the applicable provisions of the act and the rules and regulations thereunder be held on June 24, 1947, at 11:00 a. m., e. d. s. t., at the offices of this Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing shall be held.

It is further ordered, That William W. Swith or any other officer or officers of this Commission designated by it for that purpose, shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Public Utilities Division of the Commission having advised the Commission that it has made a preliminary examination of the applications or declarations and that, upon the basis thereof, the following matters and questions are presented for consideration, without prejudice to its specifying additional matters and questions upon further examination:

1. Whether the proposed issue and sale of securities by Public Service is exempt from the provisions of section 7 of the act pursuant to section 6 (b) thereof, and particularly whether said issue and sale are solely for the purpose of financing the business of Public Service and have been expressly authorized by the state commission of the State in which it is organized and doing business.

2. In the event such exemption is granted to Public Service, what terms and conditions, if any, should be imposed in the public interest or for the protection of investors or consumers.

3. Whether it is appropriate to grant the request of Public Service for an interim order in respect of the proposed amendment to its Certificate of Incorporation.

4. Whether the fees, commissions, or other remunerations to be paid in connection with the proposed transactions are for necessary services and are reasonable in amount.

5. Whether the accounting entries to be made in connection with the proposed transactions are proper and are in accordance with sound accounting principles.

It is further ordered, That at said hearing evidence shall be adduced with respect to the foregoing matters and questions.

It is further ordered, That any person desiring to be heard or otherwise wishing to participate in this proceeding shall file with the Secretary of the Commission, on or before June 20, 1947, a written request relative thereto as provided by Rule XVII of the Commission's rules of practice, stating the nature of his interest, which of the foregoing matters and questions he desires to controvert and what additional matters and questions, if any, he deems are raised by the said application or declaration (or both).

It is further ordered, That notice of said hearing be, and hereby is, given to Public Service, and to all interested persons, said notice to be given to Public Service Company of New Mexico, The New Mexico Public Service Commission, and to the Cities of Albuquerque, Santa Fe, Las Vegas and Deming, in the State of New Mexico, by registered mail, and to all other persons by publication of this notice and order in the FEDERAL REGISTER and by general release of this Commission distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935.

By the Commission.

NORTH PENN GAS CO. AND PENNSYLVANIA GAS & ELECTRIC CORP.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 10th day of June 1947.

Pennsylvania Gas & Electric Corporation ("Penn Corp"), a registered holding company, and its subsidiary, North Penn Gas Company ("North Penn"), a registered holding company and a gas utility company, having filed an application-declaration and amendments thereto pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 and the general rules and regulations promulgated thereunder regarding the following transactions:

North Penn proposes to redeem by the use of treasury cash all of its presently outstanding $7 Prior Preferred Stock, consisting of 5,921 shares exclusive of treasury shares, at the redemption price of $107.50 per share. North Penn will cancel and retire the shares of $7 Prior Preferred Stock to be redeemed plus the 267 shares thereof presently held in North Penn's treasury. It is further proposed that North Penn's charter be amended in order to eliminate therefrom authorization for the $7 Prior Preferred Stock and the two other classes of preferred stock of which no shares are issued or outstanding.

Such application-declaration having been filed on the 26th day of May 1947 and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act and the Commission not having received a request for a hearing with respect to said application-declaration within the period specified in said notice or otherwise and not having ordered a hearing thereon; and

The Commission finding with respect to said application-declaration that the requirements of the applicable provisions of the act and rules thereunder are satisfied and deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration be granted and permitted to become effective; and

The applicant-declarant having requested that the Commission's order with respect to said application-declaration become effective on or before June 10, 1947 in order that the notice of redemption of said $7 Prior Preferred Stock may be mailed at least 30 days prior to the proposed date of the redemption, July 15, 1947, and the Commission deeming it appropriate to grant such request:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24 that the said application-declaration be, and the same hereby is, granted and permitted to become effective forthwith.

By the Commission.

CENTRAL VERMONT PUBLIC SERVICE CORP.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 11th day of June A. D. 1947.

Notice is hereby given that an application, and an amendment thereto, have been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by Central Vermont Public Service Corporation ("Central Vermont"), a public utility company and a subsidiary of New England Public Service Company, a registered holding company. Applicant designates the first sentence of section 6 (b) of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than June 23, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by said application, as amended, which he desires to controvert, or may request that he be notified if the Commission orders a hearing thereon. At any time after June 23, 1947, said application, as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under said act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said application which is on file in the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

Central Vermont proposes to borrow from one or more banks, during the remainder of the year 1947, an amount not in excess of $1,600,000 (including $550,000 presently outstanding short term obligations), and to issue from time to time in evidence thereof its promissory notes with a maturity of not more than nine months from the date of issue thereof. The issuance of such notes is for the stated purpose of financing the company's construction program (including the rebuilding, repairing and replacing of certain of its properties damaged by flood) prior to the time when funds will be available from permanent financing. Applicant states that it has been informed by The First National Bank of Boston that it will loan the company the additional funds required at the rate of 1½% per annum.

The amount of such notes will constitute approximately 10.5% of the principal amount and par value of other outstanding securities of Central Vermont, and the company requests authorization, pursuant to the first sentence of section 6 (b) of the act, to issue such notes. Applicant states that the transactions are not subject to the jurisdiction of any commission other than this Commission.

Applicant requests that the Commission's order granting the application become effective forthwith.

By the Commission.

HERMINE WISSEL

In re: Estate of Hermine Wissel, deceased. File D-28-11475; E. T. sec. 15697.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation it is hereby found:

1. That Nelda Boden and Gudrun Boden, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the heirs, names unknown, of Nelda Boden, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, in and to the Estate of Hermine Wissel, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That such property is in the process of administration by W. S. Solari and I. L. Harris, as Executors, acting under the judicial supervision of the Superior Court of the State of California, in and for the City and County of San Francisco;

and it is hereby determined:

5. That to the extent that the persons named in subparagraph 1 hereof and the heirs, names unknown, of Nelda Boden are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Rainer Gunther, Eckhard Gunther and Dietrich Weber, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the personal representatives, heirs, next of kin, legatees and distributees of Dorothy Weber, deceased, names unknown, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons named in subparagraphs 1 and 2 hereof, and each of them, in and to the trust created under the will of Vernie L. Bielefeldt, deceased, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That to the extent that the above-named persons and the personal representatives, heirs, next-of-kin, legatees and distributees of Dorothy Weber, deceased, names unknown, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or other-

In re: Estate of Otto C. Knoblau deceased. File D-28-10779; E. T. sec. 15124.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Tony Kotzerke, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the sum of $192.62 was paid to the Attorney General of the United States by John Yeager, Administrator of the Estate of Otto C. Knoblau, deceased;

3. That the said sum of $192.62 is presently in the possession of the Attorney General of the United States and was property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which was evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

4. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

This vesting order is issued nunc pro tunc to confirm the vesting of the said property in the Attorney General of the United States by acceptance thereof on March 3, 1947, pursuant to the Trading with the Enemy Act, as amended.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

1. That Geerd Tjaden, Loeerd Tjaden, "John" Tjaden, name "John" being fictitious, true first name being unknown, Gefke Pawn, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the issue, names unknown, of Geerd Tjaden, the issue, names unknown, of Loeerd Tjaden, the issue, names unknown, of "John" Tjaden, and the issue, names unknown, of Gefke Pawn, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, in and to the estate of Habbo Tjaden, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

4. That such property is in the process of administration by the County Treasurer, as Public Administrator, acting under the judicial supervision of the Surrogate's Court, Nassau County, Mineola, New York;

and it is hereby determined:

5. That to the extent that the persons identified in subparagraph 1 hereof, and the issue, names unknown, of Geerd Tjaden, the issue, names unknown, of Loeerd Tjaden, the issue, names unknown, of "John" Tjaden, and the issue, names unknown, of Gefke Pawn, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 29, 1947.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

DEPARTMENT OF COMMERCE

Under authority of § 6.1 (d) of Executive Order No. 9830 (12 F. R. 1259), and with the concurrence of the Secretary of Commerce, subdivisions (xvi), (xvii), (xviii), (xix), and (xx) of § 6.4 (a) (11) are hereby revoked.

Under authority of § 6.1 (a) of Executive Order No. 9830 (12 F. R. 1259), and at the request of the Secretary of Commerce, the Commission has determined that appointments to the positions listed below, with the exceptions noted therein, should be made in the same manner as are appointments to positions under Schedule A. Subdivisions (xix) and (xx) of § 6.4 (a) (11) are deleted and subdivisions (xvi), (xvii), and (xviii) of § 6.4 (a) (11) are amended to read as follows:

§ 6.4 *Lists of positions excepted from the competitive service*—(a) *Schedule A.* • • •

(11) *Department of Commerce.* • • •

Inland Waterways Corporation. (xvi) All employees of the Inland Waterways Corporation except:

(a) All employees of general offices at St. Louis, Missouri; New Orleans, Louisiana; Chicago, Illinois; Birmingham, Alabama; New York, New York; Washington, D. C.; but not including the President, Vice Presidents, and the Secretary-Treasurer.

(b) Division Managers, District Managers, District Superintendents, Superintendents of Maintenance and their staffs.

(xvii) All members of the Advisory Board.

(xviii) All positions under the Warrior River Terminal Company.

This amendment will become effective upon publication in the FEDERAL REGISTER.

[B. E. P. Q.—Q. 41, Amdt. 1]

PART 319—FOREIGN QUARANTINE NOTICES

MODIFICATION OF REGULATIONS OF EUROPEAN CORN BORER

No living European corn borer larvae have been found in clean, shelled corn shipped from Canada during the past 20 years. Compliance with the requirement that such clean, shelled corn shall be inspected by an authorized official of the Canadian Department of Agriculture at time of shipment and certified by him as free from infestation is considered to be no longer necessary. This amendment of the regulations removes that requirement from the regulations supplemental to the Quarantine.

Pursuant to the authority vested in the Secretary of Agriculture by section 5 of the Plant Quarantine Act of August 20, 1912, as amended (7 U. S. C. 159), the regulations (7 CFR 319.41–1 through 319.41–6) supplemental to Notice of Quarantine No. 41 (second revision), 7 CFR 319.41, on account of the European corn borer and other dangerous insects and plant diseases, issued under said act, are hereby amended by striking the provision thereof appearing in 7 CFR 319.41–5 (d), requiring that shelled corn imported into the United States from Canada be accompanied by a Canadian inspection certificate.

This amendment shall become effective on July 15, 1947.

Issued this 12th day of June 1947.

PART 04b—AIRPLANE AIRWORTHINESS REGULATIONS EFFECTIVE ON NOVEMBER 9, 1945

BRAKED ROLL, RETRACTING MECHANISM, MANEUVERING LOADS, AND EMERGENCY LANDING CONDITIONS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 10th day of June 1947.

Some of the following changes have for their purpose the clarification, and others the relaxation, of certain presently effective provisions of Part 04b. They pertain to maneuvering loads, braked roll, emergency landing conditions, and retracting mechanism.

The changes are the result of experience gained since initial adoption of Part 04b which shows that these modifications will lessen the burden upon the manufacturers without affecting the overall level of safety required for this category of aircraft.

The adoption of these amendments with an immediate effective date is required in the public interest.

Effective June 10, 1947, Part 04b of the Civil Air Regulations is amended as follows:

1. By amending the first sentence of § 04b.21410 *Maneuvering loads*, to read as follows:

§ 04b.21410 *Maneuvering loads.* At all speeds from V_{mc} to V_D the following vertical tail loads shall be considered:

2. By amending § 04b.243 *Taxi and ground handling cases* to read as follows:

§ 04b.243 *Taxiing conditions.* The landing gear and airplane structure shall be investigated for the following conditions in which the airplane shall be assumed at the design take-off weight unless otherwise specified. No wing lift shall be considered.

3. By amending the second sentence of § 04b.2431 (a) to read as follows: "The limit vertical load factor shall be 1.2 for the airplane at design landing weight and 1.0 for the airplane at design take-off weight."

4. By amending the first sentence of § 04b.2431 (b) to read as follows:

§ 04b.2431 *Braked roll.* • • •

(b) *Nose wheel type.* The limit vertical load factor shall be 1.2 for the airplane at design landing weight and 1.0 for the airplane at design take-off weight.

5. By amending § 04b.260 *General*, by deleting the words "all combinations of" from the second paragraph.

6. By amending the third sentence of § 04b.262 *Retracting mechanism*, to read as follows: "The landing gear, retracting mechanism, and airplane structure, including wheel well doors, shall be designed to withstand the flight loads occurring with the landing gear in the extended position at any speed up to $0.67V_c$ unless other means are provided to decelerate the airplane in flight at this speed."

7. By amending § 04b.620 (a) *Airspeed limitation*, by adding the following sentence at the end of the paragraph: "The explanation of the maneuvering speed shall include a statement to the effect that maneuvers involving an approach to a stall, or full application of rudder or aileron controls, should be confined to speeds below this value."

PART 40—AIR CARRIER OPERATING CERTIFICATION

ELIMINATION OF CERTAIN AIR CARRIER PROVING FLIGHTS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 10th day of June 1947.

Scheduled air carriers are presently required to conduct a proving flight over a proposed route even though it is a minor modification or extension of an existing route already flown by the air carrier. Under certain conditions the safety of the proposed operation is not advanced by such a proving flight and, where this is true, an undue burden is placed upon the air carrier. It appears that the public interest will best be served if a proving flight is not required where it is unnecessary in the interest of safety.

The purpose of this amendment is to authorize the Administrator of Civil Aeronautics to omit the requirement of certain air carrier proving flights where he finds they are not essential to safety.

Now, therefore, effective July 10, 1947, § 40.291 of the Civil Air Regulations is amended by adding the following clause at the end of the last sentence thereof: "unless the Administrator after investigation expressly finds (a) that the proposed route modification is minor and (b) that an actual flight is not essential to safety."

TITLE 32—NATIONAL DEFENSE

Chapter VII—Sugar Rationing Administration, Department of Agriculture

PART 705—ADMINISTRATION

[Rev. Gen. RO 5,[1] Amdt. 23]

SUGAR RATIONING FOR INSTITUTIONAL USERS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Revised General Ration Order 5 is amended in the following respects:

1. Section 9.1 is amended by adding a new paragraph (f) to read as follows:

(f) On and after June 9, 1947, an institutional user to whom a check for the amount of his allotment has been issued by the Sugar Rationing Administration and who wishes to exchange such check for checks in smaller denomination, may do so in accordance with the provisions of section 26.6 of Third Revised Ration Order 3.

2. Section 9.3 is deleted.

3. Section 9.5 (a) is amended to read as follows:

(a) On and after June 9, 1947, checks shall be issued by the Sugar Rationing Administration to all institutional users who are entitled to an allotment under the provisions of this order.

4. Section 10.3 is amended to read as follows:

SEC. 10.3 *A Group I seasonal user may obtain a check in certain cases.* (a) A Group I institutional user is a seasonal user with respect to an establishment which is not in operation during every month of the year.

(b) A Group I seasonal user who must get sugar before the persons who will eat at his establishment will arrive, may apply for evidences for sugar to be used until he can obtain such sugar with the ration books of those persons. If, because of transportation difficulties or unusually long distances from markets, the applicant finds it a hardship to acquire a supply of sugar as each successive stamp in the ration books becomes valid, he may include in his application a request for ration evidences covering a longer period.

[1] 11 F. R. 116.

(c) Application must be made to the Sugar Branch Office on OPA Form R–1335 and the applicant must give all of the information required by the form.

(d) The Sugar Branch Office may authorize the issuance of a check for sugar in an amount computed by multiplying the non-baking allowance per person by the number of meals which it determines will be served during the period for which such check is required.

(e) An institutional user who has received a check under this section must give up to the Sugar Branch stamps equal to the amount of the check issued to him. Only stamps taken from the ration books of the individuals eating at his establishment must be given up. He must give them up within sixty (60) days after receiving the stamps. However, the Sugar Branch Office may, for good cause, give him additional time.

(f) An institutional user who obtains an allotment pursuant to Article XXV of this order may not receive a check under this section for the same purpose.

5. Article XVI is amended to read as follows:

ARTICLE XVI—TERMINATION OF RATION BANKING

SEC. 16.1 *An institutional user may not open a ration bank account.* (a) On and after June 9, 1947, an institutional used may not open, transfer or reopen a ration bank account.

SEC. 16.2 *Closing of ration bank accounts.* (a) On and after June 9, 1947, an institutional user who has a ration bank account may not make anydeposits in such account and such accounts must be closed out in accordance with the provisions of Article XXVI of Third Revised Ration Order 3.

SEC. 16.3 *Transfer and use of evidences.* (a) On and after June 9, 1947, an institutional user may use and transfer ration evidences in accordance with the provisions of Article XXVI of Third Revised Ration Order 3.

SEC. 16.4 *Article XXVI of Third Revised Ration Order 3 growers whenever inconsistent.* (a) If any provisions of this order are inconsistent with the provisions of Article XXVI of Third Revised Ration Order 3, Article XXVI of Third Revised Ration Order 3 governs and supersedes the provisions of this order to the extent that they are inconsistent.

This amendment shall become effective June 9, 1947.

Issued this 12th day of June, 1947.

CLINTON P. ANDERSON,
Secretary of Agriculture.

Rationale Accompanying Amendment No. 54 to Third Revised Ration Order 3; Amendment No. 23 to Revised General Ration Order 5

The system of depositing sugar ration evidences in banks and drawing ration checks against these balances for the acquisition and delivery of sugar is being discontinued. This action is being taken at this time in order to reduce expenditures and in order to shorten the length of time between the transfer of evidences and the clearance of such evidences through the rationing system. The termination of ration banking at this time is desirable because of the fact that the present statutory authorization for rationing terminates on October 31, 1947.

Closing bank accounts at this time will not present the serious difficulties which would have been encountered if bank accounts had been closed when more than one commodity was rationed. Since sugar is the only commodity now rationed, the only evidences to be handled by the trade are sugar evidences.

This amendment, therefore, provides for the termination of ration banking and the closing out of all ration bank accounts. This amendment further sets forth the procedure to be followed in transferring and accepting ration evidences after ration bank accounts have been closed.

The procedure to be followed in closing out ration bank accounts and in transferring and accepting ration evidences thereafter will be as follows:

1. No ration bank accounts will be opened or re-opened on or after June 9, 1947.

2. Retailers, industrial and institutional users may make no bank deposits after June 8, 1947. No later than June 11, 1947, every retailer, industrial and institutional user who has a ration bank account must draw a check or checks for the check-stub balance in his account and surrender such check or checks to his supplier or suppliers for the immediate or future delivery of sugar. After June 11, 1947, retailers, industrial and institutional users may transfer by endorsement all valid ration evidences they receive to their supplier for the purchase of sugar.

3. Wholesalers may make no bank deposits after June 14, 1947. No later than June 14, a wholesaler must write a check or checks for the check-stub balance in his account and surrender such check or checks to his supplier for delivery of sugar, upon request, to him. After June 14, 1947, a wholesaler may purchase sugar from his supplier by transferring to his supplier checks issued by an exempt or designated agency and checks issued to the wholesaler by the Sugar Rationing Administration. All other ration evidences received by a wholesaler (stamps, gummed sheets and Sugar Rationing Administration checks received by endorsement) must be submitted to the SRA Distribution, Verification and Issuance Center once a week. He will receive a check issued by the Sugar Rationing Administration in exchange for such valid evidences so surrendered.

4. Chain retailers (four or more retail establishments operating under a single registration) who by direct from a primary distributor must follow the same procedure as wholesalers. If the chain retailer buys from a wholesaler, he must follow the same procedure as retailers, industrial and institutional users.

5. Primary Distributors may make no bank deposits after June 19. No later than June 25, 1947 every primary distributor must write a check for his check-stub balance, have the check certified by the bank and send it to the national office of the Sugar Rationing Administration, Washington, D. C. After June 19, a primary distributor will endorse all ration evidences he receives and send them weekly to the SRA Distribution, Verification and Issuance Center, for his area.

6. Exempt and Designated agencies will continue to issue checks as at present except that such checks will not be issued on ration bank accounts but will be treated as ration currency to be transferred by endorsement. These checks will continue to be identified as at present by typing or stamping on the back of each check issued the notation "Not valid for deposit except by a primary distributor. Transfer by endorsement only" and must be transferred by endorsement until such checks have been received by a primary distributor, who will surrender them to the D. V. I. Center.

7. After June 8, 1947, ration coupons will no longer be issued but any person who has valid ration coupons, issued prior to June 8, may continue to use such coupons for the same purpose and in the same way as coupons are now valid for use.

[F. R. Doc. 47-5787; Filed, June 16, 1947; 3:37 p. m.]

PART 707—RATIONING OF SUGAR

[3d RO 3,[1] Amdt. 54]

SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Third Revised Ration Order **3** is amended by adding a new Article XXVI to read as follows:

ARTICLE XXVI—TERMINATION OF RATION BANKING

SEC. 26.1 *Termination of ration banking.* (a) This article deals with the termination of ration banking, the procedure to be followed by depositors in closing out their accounts and the manner in which ration evidences may be transferred and accepted after ration bank accounts have been closed.

(b) If other provisions of this or any other ration order are inconsistent with the provisions of this article, this article governs and supersedes the provisions of this or any other ration order to the extent that they are inconsistent.

(c) On and after June 9, 1947, no person may open, transfer or reopen a ration bank account.

SEC. 26.2 *Closing of accounts.*—(a) *Retailers, indusrtial and institutional users.* (1) On and after June 9, 1947, a retailer, industrial or institutional user may not make any deposits in a ration bank account nor may such person issue any ration checks on his account except as provided in subparagraph (2).

(2) On and after June 9, 1947 but no later than June 11, 1947, each depositing retailer, industrial or institutional user shall draw a check or checks payable to his supplier or suppliers for the balance in his account less outstanding checks.

[1] 11 F. R. 177, 14281.

He shall surrender such check or checks to his supplier for the purpose of authorizing the supplier upon request to deliver sugar to him. After June 11, 1947, no retailer, industrial or institutional user may accept or transfer any ration check except a check issued by the Sugar Rationing Administration or a check issued by an exempt or designated agency on the back of which a notation "Not valid for deposit except by a primary distributor. Transfer by endorsement only" is typed or stamped in ink.

(b) *Wholesalers.* (1) No later than June 14, 1947, a wholesaler must deposit all evidences which he has on hand in his bank account and after June 14, 1947, he may not make any deposits in his ration bank account nor may he issue any ration checks.

(2) No later than June 14, 1947, a wholesaler shall draw a check or checks payable to his supplier or suppliers for the balance in his ration bank account less outstanding checks and shall surrender such check or checks to his supplier or suppliers for the purpose of authorizing the supplier or suppliers upon request to deliver sugar to him. After June 14, 1947, a wholesaler may not accept or transfer any ration check except a check issued by a designated or exempt agency on the back of which a notation "Not valid for deposit except by a primary distributor. Transfer by endorsement only" is typed or stamped in ink, or a check issued by the Sugar Rationing Administration.

(c) *Primary distributors.* (1) No later than June 19, 1947, a primary distributor must deposit all evidences he has on hand in his bank account and after June 19, 1947, he may not make any deposits in a ration bank account nor may he issue any ration checks, except as provided in (2), below.

(2) No later than June 25, 1947, a primary distributor shall draw a check payable to the Sugar Rationing Administration for the balance in his ration bank account, have the check certified by his bank and send it to the Washington Office of the Sugar Rationing Administration. After June 19, 1947, no primary distributor may accept any ration check except a check issued by an exempt or designated agency on the back of which a notation "Not valid for deposit except by a primary distributor. Transfer by endorsement only" is typed or stamped in ink, or a check issued by the Sugar Rationing Administration.

(d) *Exempt, designated and any other government agency authorized to maintain ration bank accounts.* (1) On and after June 9, 1947 an exempt agency and its establishments may not open or use ration bank accounts, nor may any exempt agency authorize any one or more of its activities to open or use an exempt ration bank account and on June 9, 1947 any exempt or limited account maintained by such agency or activity will be closed by the bank in which the account is maintained.

(2) On and after June 9, 1947, any designated agency authorized under the provisions of Article XIII to open and maintain ration bank accounts, and any other agency authorized under the provisions of this order to open and maintain ration bank accounts, may no longer use such accounts for the purpose of making deposits or issuing checks on such accounts, and on June 9, 1947, such ration bank accounts will be closed out by the bank in which the account is maintained.

SEC. 26.3 *Checks valid for the delivery of sugar.* (a) After June 14, 1947, the only checks valid for the delivery of sugar are:

(1) Checks issued by a designated or exempt agency on the back of which a notation "Not valid for deposit except by a primary distributor. Transfer by endorsement only" is typed or stamped in ink; and

(2) Checks issued by the Sugar Rationing Administration.

SEC. 26.4 *Transfer and use of evidences.*—(a) *Retailers, industrial or institutional users.* Every retailer, industrial or institutional user to whom stamps are surrendered by a consumer must paste the stamps on gummed sheets as required by section 6.4, fill in the information required on the face of the sheet and surrender such sheet to his supplier for the purpose of authorizing a delivery of sugar to him. Any such person who receives a gummed sheet with stamps affixed must endorse it by writing his name on the back of such sheet and must surrender such gummed sheet to his supplier for the purpose of authorizing a delivery of sugar to him. Any checks, valid for the delivery of sugar as provided by section 26.3, received by such person must also be endorsed on the back and surrendered to his supplier for the delivery of sugar.

(b) *Wholesalers.* (1) A wholesaler to whom stamps are surrendered by a consumer must paste the stamps on gummed sheets as required by section 6.4 and fill in the information required on the face of the sheet. Once a week, each wholesaler must list and transmit all such gummed sheets to which he affixed stamps, all gummed sheets with stamps affixed and all checks issued by the Sugar Rationing Administration which he receives from others to the D. V. I. Center covering his area. Before transmitting such evidences, he must endorse any gummed sheets with stamps affixed and any checks which he receives by writing his name on the back of such gummed sheets and checks. The itemized list of all such evidences must accompany the transmittal of such evidences to the D. V. I. Center. The wholesaler must keep a copy of such itemized list for his records. The D. V. I. Center will issue a check to such wholesaler in an amount equal to the weight value of the evidences surrendered, less the amount of any counterfeit or invalid evidences surrendered.

(2) After June 14, 1947, no wholesaler may transfer any stamps, gummed sheets containing stamps, or Sugar Rationing Administration checks which he receives by endorsement, for the purpose of authorizing the delivery of sugar, but must transmit all such evidences received to the D. V. I. Center covering his area, as provided in this paragraph.

(3) After June 14, 1947, a wholesaler may transfer or surrender only checks issued to him by the Sugar Rationing Administration and checks issued by an exempt or designated agency on the back of which a notation "Not valid for deposit except by a primary distributor. Transfer by endorsement only" is typed or stamped in ink, for the purpose of authorizing him to take delivery of sugar.

(c) *Primary distributors.* (1) After June 19, 1947, a primary distributor to whom stamps are surrendered by a consumer must paste the stamps on gummed sheets as required by section 6.4, fill in the information required on the face of the sheet and transmit such gummed sheets, together with any gummed sheets with stamps affixed which he receives, to the D. V. I. Center covering his area. Before transmitting any gummed sheet with stamps affixed which he receives, he must endorse the gummed sheet by writing his name on the back of such sheet.

(2) After June 19, 1947, a primary distributor must endorse each check received by him and, once a week, transmit all ration evidences received by him during that week to the D. V. I. Center covering his area. The primary distributor will continue to submit his monthly report on OPA Form R–347, as required by section 5.4, except that he need not submit a certified check with such report.

(3) After June 19, 1947, a primary distributor may not accept for the purpose of authorizing the delivery of sugar any ration check other than a check issued by an exempt or designated agency on the back of which a notation "Not valid for deposit except by a primary distributor. Transfer by endorsement only" is typed or stamped in ink or a check issued by the Sugar Rationing Administration.

(d) *Exempt Agencies.* Each exempt agency, each agency listed in section 14.8 and the Veterans' Administration shall continue to issue checks in the proper amounts to persons making deliveries of sugar to such agency as heretofore except that such checks will not be issued on ration bank accounts. Before issuing each check the agency shall type, or stamp in ink, on the back of each such check the following notation: "Not valid for deposit except by a primary distributor. Transfer by endorsement only."

(e) *Designated agencies.* A designated agency, as listed in section 13.1, shall continue to issue checks for the purpose of replacement or advance of sugar used or to be used in products acquired by such agency as provided in section 13.12, except that such checks will not be drawn on a ration bank account. A designated agency as listed in section 13.1 (a) (2) (3) and (10) may not in any period, issue checks under this order in excess of the amount that it has been authorized to issue for the purpose of advance or replacement for that period. The amount authorized to be issued for any period for the purposes of Article XIII, will be determined by agreement between such agencies or activities, and the Washington Office of the Sugar Rationing Administration.

SEC. 26.5 *Checks to be issued in place of coupons.* (a) Whenever this order authorizes the issuance of coupons as provided in sections 1.5, 1.7, 1.8 and Article IX of this order or pursuant to Revised General Ration Order 5, the Sugar Branch Office shall authorize the issuance of checks for the same amounts and for the same purposes that coupons would have been issued. Ration Coupons will no longer be issued for any purpose under the provisions of Revised General Ration Order 5 or this order.

SEC. 26.6 *Exchange of checks.* On and after June 9, 1947, if any person to whom a check has been issued by the Sugar Rationing Administration wishes to exchange it for checks in smaller denominations, he may give up such check to the D. V. I. Center covering his area and receive in exchange checks, in such denominations as he may request, the total weight value of which shall not exceed the weight value of the check surrendered. However, no more than six checks shall be issued in exchange for such check except that in the case of a multiple registration, the number of checks issued in exchange may exceed six but shall not exceed the number of establishments registered together.

SEC. 26.7 *Terms used in article.* (a) For the purposes of this article, the term "wholesaler" shall include a retailer who has four or more establishments registered together and who buys direct from a primary distributor.

(b) As used in this article, the term "D. V. I. Center" means the Distribution, Verification and Issuance Center of the Sugar Rationing Administration.

This amendment shall become effective June 9, 1947.

Issued this 12th day of June 1947.

CLINTON P. ANDERSON,
Secretary of Agriculture.

Rationale Accompanying Amendment No. 54 to Third Revised Ration Order 3; Amendment No. 23 to Revised General Ration Order 5

The system of depositing sugar ration evidences in banks and drawing ration checks against these balances for the acquisition and delivery of sugar is being discontinued. This action is being taken at this time in order to reduce expenditures and in order to shorten the length of time between the transfer of evidences and the clearance of such evidences through the rationing system. The termination of ration banking at this time is desirable because of the fact that the present statutory authorization for rationing terminates on October 31, 1947.

Closing bank accounts at this time will not present the serious difficulties which would have been encountered if bank accounts had been closed when more than one commodity was rationed. Since sugar is the only commodity now rationed, the only evidences to be handled by the trade are sugar evidences.

This amendment, therefore, provides for the termination of ration banking and the closing out of all ration bank accounts. This amendment further sets forth the procedure to be followed in transferring and accepting ration evidences after ration bank accounts have been closed.

The procedure to be followed in closing out ration bank accounts and in transferring and accepting ration evidences thereafter will be as follows:

1. No ration bank accounts will be opened or re-opened on or after June 9, 1947.

2. Retailers, industrial and institutional users may make no bank deposits after June 8, 1947. No later than June 11, 1947, every retailer, industrial and institutional user who has a ration bank account must draw a check or checks for the check-stub balance in his account and surrender such check or checks to his supplier or suppliers for the immediate or future delivery of sugar. After June 11, 1947, retailers, industrial and institutional users may transfer by endorsement all valid ration evidences they receive to their supplier for the purchase of sugar.

3. Wholesalers may make no bank deposits after June 14, 1947. No later than June 14, a wholesaler must write a check or checks for the check-stub balance in his account and surrender such check or checks to his supplier for delivery of sugar, upon request, to him. After June 14, 1947, a wholesaler may purchase sugar from his supplier by transferring to his supplier checks issued by an exempt or designated agency and checks issued to the wholesaler by the Sugar Rationing Administration. All other ration evidences received by a wholesaler (stamps, gummed sheets and Sugar Rationing Administration checks received by endorsement) must be submitted to the SRA Distribution, Verification and Issuance Center once a week. He will receive a check issued by the Sugar Rationing Administration in exchange for such valid evidences so surrendered.

4. Chain retailers (four or more retail establishments operating under a single registration) who buy direct from a primary distributor must follow the same procedure as wholesalers. If the chain retailer buys from a wholesaler, he must follow the same procedure as retailers, industrial and institutional users.

5. Primary Distributors may make no bank deposits after June 19. No later than June 25, 1947 every primary distributor must write a check for his check-stub balance, have the check certified by the bank and send it to the national office of the Sugar Rationing Administration, Washington, D. C. After June 19, a primary distributor will endorse all ration evidences he receives and send them weekly to the SRA Distribution, Verification and Issuance Center for his area.

6. Exempt and Designated agencies will continue to issue checks as at present except that such checks will not be issued on ration bank accounts but will be treated as ration currency to be transferred by endorsement. These checks will continue to be identified as at present by typing or stamping on the back of each check issued the notation "Not valid for deposit except by a primary distributor. Transfer by endorsement only" and must be transferred by endorsement until such checks have been received by a primary distributor, who will surrender them to the D. V. I. Center.

7. After June 8, 1947, ration coupons will no longer be issued but any person who has valid ration coupons, issued prior to June 8, may continue to use such coupons for the same purpose and in the same way as coupons are now valid for use.

Chapter IX—Office of Materials Distribution, Bureau of Foreign and Domestic Commerce, Department of Commerce[1]

[Allocations Reg. 2, as Amended June 17, 1947]

PART 945—REGULATIONS APPLICABLE TO THE OPERATION OF THE ALLOCATIONS AND EXPORT PRIORITIES SYSTEM

RESTRICTED EXPORT PREFERENCE ASSISTANCE

The fulfillment of requirements for the defense of the United States has created shortages in the supplies of certain materials and facilities for defense, for private account, and for export; and the following regulations is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 945.40 *Allocations Regulation 2—*(a) *Purpose.* This regulation describes the very limited scope of export preference assistance which may be granted in the future. Such assistance, when granted, will usually be in the form of authorizations for the placing of orders with certificates entitling the orders to preference. Rating symbols, such as CC, will not be issued by the Office of Materials Distribution except in the cases where RR ratings are authorized and issued under Direction 3 to this regulation to assist the Canadian Veterans' Housing Program.

The rules in this regulation and in Allocations Regulation 1 are a continuation in simplified form, for the purposes of the OMD, of rules contained in the former CPA Priorities Regulation 1 and certain other CPA regulations transferred to the Housing Expediter on April 1, 1947, as explained in Allocations Regulation 1. This regulation also continues, on a limited basis, certain provisions of former CPA Priorities Regulation 28 relating to exports.

The issuance of authorizations to place certified export orders will in general be limited to assisting the procurement in this country of minimum quantities of materials or facilities required to expand the production in foreign countries of materials critically needed in this country, and other exceptional cases where necessary to meet international commitments.

For the purpose of this regulation, "certified order" means a purchase or delivery order which is certified by the purchaser by use of the standard form of export preference certificate described in paragraph (h) (7) below, or by use of any other certificate authorized and entitled to preference under another OMD order, regulation or direction for export purposes.

(b) *Exceptional cases when certified export orders may be authorized.* (1) If all the conditions of paragraph (b) (2) below are met, authorizations to place orders with an export preference certificate may be granted to permit the placing and filling of certified orders for procurement in this country of the minimum quantities of materials or facilities required either:

(i) To expand the production in foreign countries of materials critically needed in the United States; or

(ii) to meet international commitments, and certified by the Secretaries of State and Commerce as necessary for that purpose.

(2) When effective assistance of other kinds is not practicable (OMD may locate sources able to ship without preferential aid), an authorization to use an export preference certificate may be granted for specific items and quantities of materials in the limited classes of cases described in paragraph (b) (1) above, upon determination in each instance that all the following conditions are met:

(i) The use of substitute and less scarce materials is not practicable;

(ii) Reasonable efforts have been made to get the required item without assistance; and

(iii) Preference assistance is required to obtain the item by the latest date and in the minimum quantity practicable, after taking into consideration material already acquired and material available without assistance.

(c) *How to apply for an authorization to use an export preference certificate.* Application for an OMD authorization to use an export preference certificate for all destinations except Canada should be made by letter in quadruplicate, addressed to the Office of Materials Distribution, Department of Commerce, Washington 25, D. C. Ref. AR-2. Application for such a certificate for Canadian destinations should be made directly to the Office of Materials Distribution, Department of Commerce, Washington 25, D. C. Ref. AR-2, also by letter in quadruplicate (except applications related to the Canadian Veterans' Housing Program, which must be made under Direction 3 to this regulation). Such applications should give the following information:

(1) Exact nature of applicant's business, i. e., manufacturing farm equipment, steel mill, etc.,

(2) Exact description of the item for which assistance is required, stating (a) for materials the kind, quantity and unit of measure or (b) for equipment, the make, model, size, type, capacity, etc.

(3) The country of export destination, and the exact use to be made in that country of the item to be exported.

(4) Name of supplier and his present delivery promises, and his reasons for not promising satisfactory delivery dates. (Give the number and date of your purchase order.)

(5) Efforts made to obtain suitable substitutes or reasons why substitutes cannot be used.

(6) A full statement of the importance of making the export at this time from the standpoint of the interests of the United States.

(d) *How applications are granted.* If the application is granted, OMD will issue a written authorization to the applicant authorizing him to use an export preference certificate. He may then use the certificate described in paragraph (h) (7) below.

(e) *Expiration of ratings and certificates for export: re-validation—*(1) *Expiration of priorities assistance for export issued before April 1, 1947.* All preference ratings assigned before April 1, 1947 by the Civilian Production Administration for materials to be exported expired on or before that date; and all certificates used on certified orders for materials for export which were required to be treated as rated orders under other CPA orders, regulations, or directions issued before April 1, 1947, also expired on or before that date, except those for tinplate continued in effect under Direction 1 to this regulation. In some instances, authorizations for the use of export preference certificates have been issued to continue the assistance.

(2) *When and how expiring export ratings or certificates may be replaced.* A person entitled to use a preference rating or a certificate entitled to be treated as a rated order for materials to be exported (including Canadian destinations), which expired on April 1, 1947, may apply to OMD for an authorization to use an export preference certificate if he can meet the conditions stated in paragraph (b) above.

If a new authorization is granted, it may be used by forwarding his supplier the export preference certificate described in paragraph (h) (7) below, signed in accordance with Allocations Regulation 1, together with any additional information needed to enable the person receiving it to know exactly the items to which it applies, the original purchase order referred to (if already placed), and the old rating or certificate.

(f) *Rules for acceptance and rejection of certified orders.* Every certified order must be accepted and filled regardless of existing contracts and orders except in the following cases:

(1) A person must not accept a certified order for delivery on a date which would interfere with delivery on other certified or rated orders which he has already accepted, or if delivery of the material ordered would interfere with delivery on an order which the Office of Materials Distribution or the Housing Expediter has directed him to fill for that material or for a product which he makes out of it.

(2) A person must not accept a certified order for delivery on a date which can be met only by using material which was specifically produced for delivery on another certified order, and which is completed or is in production and scheduled for completion within 15 days.

(3) If a person, when receiving a certified order bearing a specific delivery date, does not expect to be able to fill it by the time requested, he must not accept it for delivery at that time. He must either (i) reject the order, stating when he could fill it, or (ii) accept it for delivery on the earliest date he expects to be able to deliver, informing the customer of that date. He may adopt either of these two courses, depending on his understanding of which his customer would prefer.

(4) A certified order need not be (but may be) accepted in the following cases, but there must be no discrimination in such cases against certified orders, or between certified orders of different customers:

(i) If the person seeking to place the order is unwilling or unable to meet regularly established prices and terms of sale or payment (when a person authorized to place a certified order asks a supplier to quote his regularly established prices and terms of sale or payment or the earliest date on which he could make delivery on the certified order, the supplier must do so, except that if this would require detailed engineering or accounting work, he may give his best estimate without such work and state that it is not binding. However, the supplier need not quote if he is not required to accept the certified order and knows that he will not do so if he receives it. Any quotation as to delivery date to a person whose order has not been received will be subject to the effect on the supplier's deliveries of certified orders received by him after making the quotation and before he receives the firm order from the person making the inquiry).

(ii) If the order is for the manufacture of a product or the performance of a service of a kind which the person to whom the order is offered has not usually made or performed, and in addition if either (a) he cannot fill the order without substantially altering or adding to his facilities or (b) the order can readily be performed by someone else who has usually accepted and performed such orders.

(iii) If the order is for material which the person to whom the order is offered produces or acquires for his own use only, and he has not filled any orders for that material within the past two years. If he has, but the certified order would take more than the excess over his own needs, he may not reject the certified order unless filling it would interfere with other certified orders already on hand, or orders which the Office of Materials Distribution has directed him to fill, for the material or for a product which he makes out of it.

(iv) If filling the order would stop or interrupt his production or operations during the next 40 days in a way which would cause a substantial loss of total production or a substantial delay in operations.

[1] Formerly Office of Temporary Controls, Civilian Production Administration.

(5) Any person who fails or refuses to accept an order bearing a certificate provided for under this regulation shall, upon written request of the person placing the order, promptly give his reasons in writing for his failure or refusal.

(6) Some orders or directions of the Office of Materials Distribution provide special rules as to the acceptance and rejection of orders for particular materials. In such cases, the rules stated above in this section are inapplicable to the extent that they are inconsistent with the applicable order or direction of the Office of Materials Distribution. In addition, the Office of Materials Distribution may specifically direct a person in writing to fill a particular purchase order or orders. In such cases he must do so without regard to any of the above rules in this paragraph (f), except that he may insist upon compliance with regularly established prices and terms of payment.

(7) *Certificates not effective for Government-owned surplus property.* The above rules in this paragraph (f) for the acceptance and rejection of certified orders, and in paragraph (i) below for the sequence of filling certified orders, do not apply to sales of surplus material by Government agencies. The certificates on certified orders have no effect either by way of obliging a Government agency to sell surplus property or by way of determining as among several buyers who shall get the surplus property.

(g) *Report to Office of Materials Distribution of improperly rejected orders.* When a certified order is rejected in violation of this regulation, the person who wants to place it may file a report of the relevant facts with the Office of Materials Distribution which will take such action as it considers appropriate after requiring an explanation from the person rejecting the order.

(h) *Description of certificates and how they are used*—(1) *How authorized.* The standard export preference certificate provided for under this regulation is described in (h) (7) below. Other orders or directions of the Office of Materials Distribution may also permit the use of other special forms of certificates entitled to preference, such as that for the use of the symbol CXS on certain orders for tinplate, described in Direction 1 to this regulation. The standard certificate described below and certificates entitled to preference under any other Office of Materials Distribution order or direction are of equal value and precedence. Authorizations to use the standard export preference certificate will be issued under the conditions described in this regulation. The use of other certificates will be authorized under the conditions stated in the Office of Materials Distribution order or direction under which they are issued, which may provide that they shall be treated as export preference certificates.

(2) *Materials or facilities obtainable with certificates.* A person authorized to use a certified order may use the certificates only to get the quantities and kinds of materials or services authorized, as provided in § 945.18 of Allocations Regulation 1.

(3) *How to use a certificate.* The certificate with a certified order must be filled in, signed and delivered to the supplier in accordance with the rules stated in Allocations Regulation 1, and with any special rules which may be stated in any other OMD order or direction permitting the use of any special form of certificate other than the standard export preference certificate.

(4) *Certificates not extendible.* A person receiving a certified order may not extend the certificate to any of his suppliers. If he is unable to fill the certified order without using a certificate to get some of the materials which he will need for that purpose, he may apply to OMD for an authorization to use a certificate for that purpose in accordance with this regulation.

(5) *Relation of certificates to preference ratings.* The certificate on a certified order, and RR (or CC) preference ratings assigned by CPA before April 1, 1947, and an RR rating assigned at any time by the Housing Expediter or by the Office of Materials Distribution, are equal in precedence, unless otherwise directed in writing by the Office of Materials Distribution.

(6) *Time limit on certificates.* An authorization to use an export preference certificate, or other certificate permitted under another OMD order or direction for export purposes and entitled to preference, expires if not used on an order accepted by a supplier within 6 months of the date the use of the certificate was authorized. If the holder of an authorization to use an export preference certificate has been unable to use it before its expiration, he may apply to OMD for renewal. However, if the purpose for which use of the certificate was authorized should no longer exist, the certificate may not be used even though the time limit stated above has not elapsed.

(7) *Form of standard export preference certificate.* The standard export preference certificate must be in substantially the following form:

EXPORT PREFERENCE CERTIFICATE

The undersigned certifies to the seller and to the OMD, subject to the criminal penalties of section 35 (a) of the U. S. Criminal Code, that he is authorized to use this certificate for the materials described, in accordance with OMD Allocations Regulation 2. My authorization number is ---- (insert the OMD authorization number).

(If the above certification has been used in accordance with this regulation before its amendment, containing reference to "CPA" instead of "OMD", its validity is not affected and the purchase order need not be recertified to make this change.)

(8) *Report to Office of Materials Distribution of improper delay of orders.* When delivery or performance of a certified order is unreasonable or improperly delayed, the customer may file a report of the relevant facts with the Office of Materials Distribution which will take such action as it considers appropriate after requiring an explanation from the person with whom the order is placed.

(i) *Sequence of filling certified orders.* (1) Every person who has certified orders on hand must schedule his operations, if possible, so as to fill each certified order by the required delivery or performance date (determined as explained in paragraph (j) below). If this is not possible for any reason, he must give precedence to all certified over uncertified orders.

(2) As between conflicting certified orders, precedence must be given to the order which was received first with the certificate. As between conflicting certified orders received on the same date, precedence must be given to the order which has the earlier required delivery or performance date.

(3) If a certified order or the certificate applicable to an order is cancelled when the supplier has materials in production to fill it, he need not immediately stop to put other certified orders into production if doing so would cause a substantial loss of total production. He may continue to process that material which he had put into production for the cancelled order to a stage of completion which would avoid a substantial loss of total production, but he may not incorporate any material which he needs to fill any certified order on hand. He may not, however, delay putting other certified orders into production for more than 15 days.

(j) *Delivery or performance dates.* (1) Every certified order must specify delivery or performance on a particular date or dates or within specified periods of not more than 31 days each, which in no case may be earlier than required by the person placing the order. Any order which fails to comply with this rule must be treated as an uncertified order. The words "immediately" or "as soon as possible", or other words to that effect, are not sufficient for this purpose.

(2) The required delivery or performance date, for purposes of determining the sequence of deliveries or performance pursuant to paragraph (i), shall be the date on which delivery or performance is actually required. The person with whom the order is placed may assume that the required delivery or performance date is the date specified in the order or contract unless he knows either (1) that the date so specified was earlier than required at the time the order was placed, or (2) that delivery or performance by the date originally specified is no longer required by reason of any change of circumstances. A delay in the scheduled receipt of any other material which the person placing the order requires prior to or concurrently with the material ordered, shall be deemed a change of circumstances within the meaning of the foregoing sentence.

(3) If, after accepting a certified order which specifies the time of delivery, the person with whom it is placed finds that he cannot fill it on time or within 15 days following the specified time, for any reason, he must promptly notify the customer, telling him approximately when he expected to be able to fill the order. Inability to fill the order on time or within fifteen days following the specified time does not authorize a supplier to cancel the order.

(k) The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[Allocations Reg. 2, Direction 3]

PART 945—REGULATIONS APPLICABLE TO THE OPERATION OF THE ALLOCATIONS AND EXPORT PRIORITIES SYSTEM

PRIORITIES ASSISTANCE FOR THE CANADIAN HOUSING PROGRAM

The following direction is issued pursuant to Allocations Regulation 2:

The fulfilment of requirements for the defense of the United States has created shortages in the supplies of certain building materials and in the supplies of certain materials and facilities suitable for the manufacture of building materials, for defense, for private account and for export; and the following direction is deemed necessary and appropriate in the public interest and to promote the national defense.

(a) *Explanation.* Materials to aid the Canadian Veterans' Housing Program, obtained with priorities assistance assigned insofar as practicable under the same conditions and to the same extent that such assistance is being assigned to support the Veterans' Emergency Housing Program in the United States, have been certified by the Secretaries of State and Commerce as necessary to meet an international commitment.

In order to afford priorities assistance for such purpose, the Office of Materials Distribution may assign RR preference ratings for required materials. However, these RR ratings will be assigned by the Office of Materials Distribution for the Canadian Veterans' Housing Program only under the same conditions, and to the same extent that, and only so long as ratings are being assigned by the Housing Expediter for the Veterans' Emergency Housing Program. The ratings so assigned by the Office of Materials Distribution will not be continued in effect any longer than those assigned by the Housing Expediter.

This direction explains how to apply for an RR rating for materials required to assist the Canadian Veterans' Housing Program, and when such ratings may be granted. It also gives all ratings assigned in this way the same force and effect as RR ratings assigned by the Housing Expediter, and provides a form of certification for using the RR ratings authorized under this direction for the Canadian Veterans' Housing Program.

(b) *When ratings may be granted.* RR preference ratings for materials to assist the Canadian Veterans' Housing Program will be authorized by the Office of Materials Distribution only under the following conditions:

(1) Upon the recommendation of the Priorities Officer of the Department of Reconstruction and Supply in Canada; and

(2) If the application meets the conditions specified under Priorities Regulation 28 of the Housing Expediter, including supplements and directions to that regulation, in effect at the time the application is acted upon.

(c) *How to apply.* Application for OMD authorization to use an RR rating for materials required to support the Canadian Housing Program should be made by letter in quadruplicate, addressed to the Office of Materials Distribution, Department of Commerce, Ref. AR-2, Dir. 3, but should be filed with the Priorities Officer, Department of Reconstruction and Supply, Ottawa, Canada. If he recommends the granting of the application, he will forward it with his recommendations, to the Office of Materials Distribution, Department of Commerce, Washington 25, D. C.—Ref. AR-2, Dir. 3. Such applications should give the following information:

(1) Exact nature of applicant's business, i. e., manufacturing builders hardware, sawmill, etc.

(2) Exact description of the item for which assistance is required, stating (a) for materials, the kind, quantity and unit of measure, or (b) for equipment, the make, model, size, type, capacity, etc.

(3) The exact use to be made in Canada of the item for which assistance is required.

(4) Name of suppliers and their present delivery promises, and their reasons for not promising satisfactory delivery dates. (Give date purchase order was placed and purchase order number, if known.)

(5) Efforts made to obtain suitable substitutes or reasons why substitutes cannot be used.

(d) *How applications are granted.* If the application is approved, the Office of Materials Distribution will issue a written authorization to the applicant authorizing him to use an RR preference rating for the materials and in the quantities which it may specify in the authorization. Upon receipt of such an authorization, the applicant may then use the rating as explained in paragraph (e) below.

(e) *How to use RR ratings under this direction.* (1) Any person authorized to use an RR rating under this direction must do so by endorsing the following certification on his purchase order, in the manner explained in § 945.2 of Allocations Regulation 1:

RR Preference Rating

The undersigned purchaser certifies, subject to the criminal penalties for misrepresentation, that, to the best of his knowledge and belief, he is authorized under Direction 3 to AR-2 of the Office of Materials Distribution, Department of Commerce, to use the RR preference rating for the materials covered by this order.

(2) The use of the above certification by persons in Canada will constitute representations by them to the seller, to the Canadian Priorities Officer, and to the Office of Materials Distribution, subject to the criminal penalties for misrepresentation to such Officer or such Office, that, to the best of the knowledge and belief of the persons whose signatures are used, they are authorized under applicable Canadian orders, as well as under this direction, to place the purchase order, to receive the items ordered, and to use the RR rating, as certified by them; and the use of the above certification in the United States will constitute representations of the facts stated therein to the seller and to the Office of Materials Distribution, subject to the criminal penalties for misrepresentations to that Office, as explained in §§ 945.2 and 945.14 of Allocations Regulation 1.

(3) When the above certification as to the authority to use an RR rating is used, no other form of certification of this fact shall be necessary or used on the purchase order.

(f) *Effect of RR ratings assigned under this direction.* RR preference ratings assigned under this direction by the Office of Materials Distribution shall have the same force and effect as RR ratings assigned by the Housing Expediter. The terms and provisions of Housing Expediter Priorities Regulation 1, Priorities Regulation 3, Priorities Regulation 7, Priorities Regulation 28, and directions and supplements to those regulations, and other orders and regulations of the Housing Expediter applicable to the use or acceptance of RR ratings, as amended or otherwise changed from time to time by the Housing Expediter, shall also apply to RR ratings assigned under this direction, as if incorporated in this direction at length. However, (1) The certification described in paragraph (e) (1) above must be used as required by this direction, instead of the form of certifications for using preference ratings which are described in the Housing Expediter's regulations; and (2) any communications concerning this direction should be addressed to the Office of Materials Distribution, Department of Commerce, Washington 25, D. C., Refs. AR-2, Dir. 3; and (3) the general rules in Allocations Regulation 1 remain applicable, except to the extent that they may be inconsistent with any specific rules in this direction.

(g) The reporting requirements of this direction have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(Sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827, and Pub. Laws 270 and 475, 79th Cong.; Pub. Law 388, 79th Cong.; Pub. Laws 24 and 29, 80th Cong.; E. O. 9024, 7 F. Chapter XIV—War Contracts Price Adjustment Board

PART 1608—TEXT OF STATUTES, ORDERS, JOINT REGULATIONS AND DIRECTIVES

SUBPART B—DELEGATIONS OF AUTHORITY

JUNE 12, 1947.

In § 1608.822-1 paragraphs (b) and (c) are amended to read as follows:

§ 1608.822-1 *Delegations of authority within the War Department.* * * *

(b) *Delegation dated May 21, 1947 of authority to the Chairman of the War Department Price Adjustment Board.*

WAR DEPARTMENT
OFFICE OF THE UNDER SECRETARY
Washington, D. C.
21 MAY 1947

Memorandum for: Chairman, War Department Price Adjustment Board.
Subject: Delegation of Discretion and Authority Under the Renegotiation Act.

1. By virtue of the authority and discretion vested in me by the memorandum dated 20 August 1945, from the Secretary of War, subject: "Delegation of Discretion and Authority Under the Renegotiation Act", I hereby redelegate to the Chairman of the War Department Price Adjustment Board all of the powers, functions and duties delegated to me under the memorandum referred to in this paragraph, except as otherwise delegated or reserved in this memorandum, to be exercised subject to the directions contained herein.

2. Included in the powers, functions and duties described in Paragraph 1 hereof, I hereby delegate to the Chairman of the War Department Price Adjustment Board authority and discretion, subject to Paragraph 3 hereof:

a. To establish policies, principles and procedures to be followed in renegotiation by the Army Air Forces.

b. To assist the Army Air Forces in the selection and training of personnel.

c. To review renegotiations and settlements recommended by the Army Air Forces.

d. To exercise any of the foregoing powers through any member of the Board or by one or more of its staff.

3. In the exercise of the authority and discretion delegated hereby all officials and agencies of the War Department will be governed by the applicable interpretations and regulations issued by the War Contracts Price Adjustment Board created by the Renegotiation Act, and by the Army Renegotiation Manual. The Chairman of the War Department Price Adjustment Board may, with the approval of the Under Secretary of War, modify or supplement the instructions in the Army Renegotiation Manual referred to, and such modified or supplemental instructions will apply to all officials and agencies of the War Department engaged in the administration of the Renegotiation Act.

4. I hereby designate the Chairman, the Vice-Chairman or the Assistant to the Chairman, of the War Department Price Adjustment Board as my representative with authority to execute all agreements reached as a result of renegotiation. I also designate the Chairman of the War Department Price Adjustment Board as my representative with authority to make determinations of excessive profits by order, not embodied in an agreement with the contractor or subcontractor concerned, including authority, under the Renegotiation Act of 1942, to refix the contract price.

5. Any agreements with a contractor or subcontractor resulting from renegotiation will be subject to review and approval by the Chairman of the War Department Price Adjustment Board except in cases where authority to execute agreements has been or may be duly delegated by me or by my authority.

6. The present members of the War Department Price Adjustment Board and the Chairman thereof will continue to serve as Chairman and members of the War Department Price Adjustment Board at the pleasure of the Under Secretary of War. The War Department Price Adjustment Board will continue in the Office of the Under Secretary of War or in such other office as he may designate. The Chairman and members of the War Department Price Adjustment Board will be appointed by the Under Secretary of War and will serve at his pleasure. The Board and the Chairman thereof will have such powers as may remain delegated to them respectively or may respectively be delegated to them from time to time. During any absence of the Chairman, War Department Price Adjustment Board, the Acting Chairman, War Department Price Adjustment Board will perform the functions and exercise the authority of the Chairman, War Department Price Adjustment Board.

7. All authority and discretion hereby conferred are subject to the provisions of Part III, War Department Circular 53, 1946.

8. The authority and discretion hereby delegated to the Chairman, War Department Price Adjustment Board may be delegated by him in whole or in part to such individuals or agencies as he may designate and he may authorize such individuals or agencies to make or authorize successive redelegations of such authority and discretion.

9. The authority contained in the memorandum dated 28 May 1945 as amended from the Under Secretary of War, subject: "Delegation of Authority Under the Renegotiation Act" to the Chiefs of Technical Services, Army Service Forces, and the Commanding General, Army Air Forces, continues applicable notwithstanding the transfer of the Technical Services from the Army Service Forces. The Technical Services to which such memorandum as amended remains applicable are the respective Technical Services under Chief of Chemical Corps, Chief of Engineers, Chief of Ordnance, The Quartermaster General, The Chief Signal Officer, The Surgeon General and Chief of Transportation.

10. This memorandum supersedes the memorandum dated 10 June 1946 from the Under Secretary of War for the Director of Service, Supply and Procurement, and the Chairman, War Department Price Adjustment Board, subject: "Delegation of Discretion and Authority Under the Renegotiation Act", but any action taken under authority of such superseded memorandum will not be affected.

11. This memorandum will be effective as of 6 April 1947.

KENNETH C. ROYALL,
Under Secretary of War.

(c) *Delegation dated May 21, 1947 of authority to the Chief of Finance.*

WAR DEPARTMENT
OFFICE OF THE UNDER SECRETARY
Washington, D. C.
21 MAY 1947

Memorandum for: The Chief of Finance.
Subject: Delegation of Authority Under the Renegotiation Act.

1. Under subsection (c) (2) of the Renegotiation Act of 1943 certain powers, functions and duties to eliminate excessive profits under the circumstances and by the methods therein described are vested in the War Contracts Price Adjustment Board which has redelegated said powers, functions and duties to the Secretary of War. Under subsection (c) (2) of the Renegotiation Act of 1942 certain similar powers, functions and duties to eliminate excessive profits are vested in the Secretary of War. By memorandum dated 20 August 1945, the Secretary of War has redelegated to the Under Secretary of War all of the powers, functions and duties under subsection (c) (2) of the Renegotiation Act of 1943 and the Renegotiation Act of 1942 conferred upon the Secretary of War by such subsections and by the delegation of authority to him from the War Contracts Price Adjustment Board dated 10 August 1945.

2. I hereby redelegate to the Chief of Finance all said powers, functions and duties to eliminate excessive profits under the circumstances and by the methods or any combination of the methods referred to in subsection (c) (2) of the Renegotiation Acts of 1942 and 1943.

3. The powers hereby conferred shall be exercised in accordance with the applicable interpretations and regulations issued from time to time by the War Contracts Price Adjustment Board and the instructions contained in the Army Renegotiation Manual as modified from time to time.

4. The authority and discretion hereby delegated to the Chief of Finance may be delegated in whole or in part to such individuals or agencies as he may designate in the War Department, and he may authorize such individuals or agencies to make or authorize successive redelegations of such authority and discretion.

5. This delegation does not supersede the delegation dated 21 May 1947 by me to the Chairman of the War Department Price Adjustment Board.

6. This delegation shall be effective as of 6 April 1947.

7. Any action taken under the authority of prior delegations with respect to the subject matter hereof shall not be affected hereby.

KENNETH C. ROYALL,
Under Secretary of War.

C. A. MCLAUGHLIN,
Legal Adviser.

TITLE 36—PARKS AND FORESTS

Chapter III—Corps of Engineers, War Department

PART 311—PUBLIC USE OF CERTAIN RESERVOIR AREAS

MISCELLANEOUS AMENDMENTS

Pursuant to the provisions of section 4 of the act of December 22, 1944 (58 Stat. 889, as amended by the Flood Control Act of 1946, 60 Stat. 641; 16 U. S. C. 460d) Part 311, Chapter III, Title 36 of the Code of Federal Regulations is amended as follows:

1. Add new paragraph (g) to § 311.1 as follows:

§ 311.1 *Areas covered.* • • •

(g) Wappapello Reservoir Area, St. Francis River, Missouri.

[Regs. Mar. 14, 1947; ENGWF] (58 Stat. 889 as amended 60 Stat. 641; 16 U. S. C. Sup. 460d)

2. Rescind paragraph (b) of § 311.6 and substitute the following:

§ 311.6 *Hunting and fishing.* • • •

(b) Hunting shall be with shotgun only in any reservoir area listed in § 311.1 except for the Wappapello Reservoir Area, St. Francis River, Missouri, on which the hunting of deer with rifles is also permitted.

3. Rescind § 311.11 and substitute the following:

§ 311.11 *Firearms and explosives.* Loaded rifles, loaded shotguns, loaded pistols and explosives of any kind are prohibited in the area, except when in the possession of a law enforcement officer or Government employee on official duty, when shotguns or rifles are being used for hunting during the hunting season as permitted under § 311.6 and when specifically authorized by the District Engineer.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 3—ADJUDICATION: DISALLOWANCE AND AWARDS

MISCELLANEOUS AMENDMENTS

The following amendments are made to Part 3:

§ 3.1356 *Subsequent findings of combat incurrence by adjudicating agencies of original jurisdiction.* (a) Where a claim for retirement has been allowed or denied by the board of veterans appeals, no other rating agency will thereafter make an initial finding in such claim that any disability was incurred in combat with an enemy of the United States. If a rating agency is of the opinion that the veteran has a disability which was incured in combat, the claim will be transmitted to the board of veterans appeals with appropriate recommendation. The initial rating action taken by the board of veterans appeals in these cases will be subject to appeal within the time prescribed by the regulations of this chapter.

(b) Where a veteran receiving emergency officers retirement benefits enters Federal employment, and there has been no determination as to whether the disability for which he was retired was incurred in combat or was due to the explosion of an instrumentality of war, any action to adjust the payments required by § 3.1358 (a) will be accomplished and the claims folder submitted to the board of veterans appeals for appropriate determination of that phase of the claim.

§ 3.1358 *Public No. 2, 72d Congress, as amended.* (a) Effective July 1, 1932, section 212 of Public No. 212, 72d Congress, as amended, which is permanent legislation, prohibits the concurrent payment of retirement pay and salary from the United States Government or the Municipal Government of the District of Columbia, or any corporation, the majority of the stock of which is owned by the United States, except under certain specified conditions. However, such prohibition is inapplicable if the disability for which retired was incurred in combat with an enemy of the United States. On and after July 15, 1940, the above restriction is also inapplicable if the disability for which retired resulted from an explosion of an instrumentality of war in line of duty. A finding by the board of veterans appeals that a disability is the direct result of the performance of duty, or that on all the evidence of record it is clearly shown that the disability for which retirement was granted was incurred in or aggravated by active service in fact in line of duty without benefit of any statutory or regulatory presumption of any kind, does not of itself meet the requirements of Public No. 212. There must be a specific finding of combat incurrence of a disability for which retirement was granted or a specific finding that the disability resulted from an explosion of an instrumentality of war in line of duty during enlistment or employment as provided in § 35.011 (a) of this chapter. If a retired officer is also an employee of the United States within the purview of section 212, Public No. 212, 72d Congress, as amended, and his retired pay is at a rate equal to or in excess of $3,000 per annum, he must elect which form of payment he desires during the period of such incumbency. If the rate of the retired pay and the rate of civilian compensation, when combined, are equal to or less than $3,000 per annum, he is entitled to both. On the other hand, if the civilian compensation is at a rate of less than $3,000 and the retired pay is also at a rate of less than $3,000, he is entitled to the full amount of his civilian pay and to such additional amount from the retired pay as will make a total payment annually of $3,000. (Comptroller General—June 25, 1942, B-24989) If the retired pay is at a rate of less than $3,000 and the civilian pay is at a rate in excess of $3,000, there is no right of election, the civilian pay must be paid and even though it is a part-time position and the salary actually paid is less than $3,000 per annum, there is no right to any portion of the retired pay. (Comptroller General—August 17, 1932, 12 Comp. Gen. 256) The claim of a part-time employee should be adjudicated on the "rate" of pay for the position rather than on the part-time pay received. It is, therefore, necessary to ascertain from the department or establishment where the veteran is employed, the annual rate of pay for the position held. Section 212, Public No. 212, 72d Congress, as amended, is applicable to persons receiving fees from the Federal Government only when such fees are paid in connection with employment in "a civilian office or position, appointive or elective, under the United States Government or Municipal Government of the District of Columbia, or under any corporation, the majority of the stock of which is owned by the United States." However, when the fees are based on services furnished under contract (Solicitor's Opinion—August 6, 1932), i. e., when the person receiving same is not an "employee," section 212, Public No. 212, 72d Congress, as amended, is not for application. For example, employment by the VA of former officers of the armed forces retired for disability as consultants upon a fee basis pursuant to section 14 (a) of Public Law 293, is not in contravention of section 212 of Public No. 212, 72d Congress, inasmuch as such consultants do not occupy an "office or position" within the meaning of those terms as used in the cited statute notwithstanding that the term "compensation" as used therein is sufficiently broad to include fees. (Decision of Compt. Gen. B-62616, January 17, 1947)

(b) In the preparation of awards involving Federal employees, subject to section 212, Public No. 212, 72d Congress, as amended, the amount of Federal salary received, including the Civil Service Retirement and Federal income tax deductions, will be shown on the award under "Remarks." Amounts received by Government employees as overtime compensation or additional compensation under Public Law 49, 78th Congress, or amounts payable under Public Laws 106 and 390, 79th Congress, other than increases in basic rates of compensation, which the act expressly provides shall be considered a part of basic compensation, shall not be considered in determining the amount of a person's annual income or annual rate of compesation for the purposes of section 212, Public No. 212, 72d Congress, as amended.

No change in (c).

MISCELLANEOUS AMENDMENTS

The following amendments are made to Part 5:

§ 5.2515 *World War II.* For the purpose of adjudicating claims for death compensation or pension predicated on service rendered during World War II in an enlistment entered into prior to twelve o'clock noon, December 31, 1946, the following definitions of relationship shall govern:

(a) *Widow.* The term "widow" of a veteran of World War II shall mean a woman who was married to the veteran:

(1) Prior to twelve o'clock noon, December 31, 1956; and

No change in subparagraphs (2), (3), and (4).

No change in paragraphs (b) and (c).

§ 5.2530 *Death of veteran due to wartime service; Public No. 2, 73d Congress — (a) Spanish-American War.* For the purposes of Public No. 2, 73d Congress (Act of March 20, 1933), the surviving widow, child or children and/or dependent mother or father of any deceased person who died as a result of injury or disease incurred in or aggravated by active military or naval service during the Spanish-American War, Boxer Rebellion, or Philippine Insurrection, as provided for in § 35.011 (a) of this chapter, shall be entitled to receive compensation at the monthly rates specified in § 5.2624.

(b) *World War I.* For the purposes of Public No. 2, 73d Congress (Act of March 20, 1933), the surviving widow, child or children and dependent mother or father of any deceased person who died as a result of injury or disease incurred in or aggravated by active military or naval service during World War I, as provided for in § 35.011 (a) of this chapter, shall be entitled to receive compensation at the monthly rates specified in § 5.2624. Effective August 16, 1937, service prior to July 3, 1921, during an enlistment entered into after November 11, 1918, shall be considered as World War I service provided the person who served also served after April 5, 1917, and prior to November 12, 1918, and death occurred or was due to a disability incurred or to the aggravation of a disease or injury suffered, during the re-enlist-

ment and prior to July 3, 1921. (Sec. 5, Pub. No. 304, 75th Cong.)

(c) *World War II.* For the purposes of Public No. 2, 73d Congress, as amended, the surviving widow, child or children and dependent father or mother of any deceased person who died as a result of injury or disease incurred in or aggravated by active military or naval service during World War II in an enlistment entered into prior to twelve o'clock noon, December 31, 1946, as provided for in § 35.011 (a) of this chapter, as amended by section 9, Public Law 144, 78th Congress, shall be entitled to receive compensation at the monthly rates specified in § 5.2624.

§ 5.2549 *Death of World War II veteran from disease or injury not the result of service, who at time of death had a service-connected disability (Pub. Law 312, 78th Cong., act of May 27, 1944, and Pub. Law 483, 78th Cong., act of December 14, 1944.* (a) On or after May 27, 1944, for the purposes of section 4, Public Law 312, 78th Congress, the widow, child or children, as defined in § 5.2515, of a person who served during World War II in an enlistment entered into prior to twelve o'clock noon, December 31, 1946, and who was honorably discharged after serving 90 days or more (or having served less than 90 days, was discharged for disability incurred in such service in line of duty and who dies or has died from a disease or disability not connected with such service, and at the time of death had a disability as described in paragraph (b) of this section, incurred in or aggravated by such service in World War II, for which compensation would be payable if 10 per centum or more in degree shall be entitled to receive pension at the monthly rates specified in § 5.2640: *Provided*, That pension shall be payable without regard to the length of the veteran's service if at the date of death he was receiving or entitled to receive compensation, or retirement pay for a disease or disability as specified above which was 10 per centum or more disabling under the Schedule for Rating Disabilities, 1945, or the Schedule for Rating Disabilities, 1933, with the latter being utilized to vest entitlement only where it was in effect at the date of death: *Provided further*, That

(1) The income limitations set forth in § 5.2548 (e) shall be applicable in determining entitlement to pension under this law;

(2) On or after June 22, 1944, pension shall be payable under the conditions prescribed where the veteran was discharged or released from active service under conditions other than dishonorable (Sec. 1503, Pub. Law 346, 78th Cong., secs. 5 and 6, Pub. Law 483, 78th Cong.);

(3) Computation of the 90 days service may include continuous service in an enlistment entered into prior to December 7, 1941, and continuing into the World War II period, or in an enlistment entered into prior to twelve o'clock noon, December 31, 1946, and continuing into the following period.

(b) (1) On or after May 27, 1944, the existence of a service-connected disease or injury at death and the determination of a disability resulting from such disease or injury for which compensation would be payable if 10 per centum or more in degree may be based upon evidence filed at any time subject to the limitations contained in §§ 35.022 (b) and 35.02 (a) of this chapter. Any disability that may be properly service-connected under the provisions of § 35.011 of this chapter, Public No. 2, 73d Congress, as amended, for World War II veterans based upon service rendered in an enlistment entered into prior to twelve o'clock noon, December 31, 1946, will be considered service-connected for the purpose of Public Law 312, 78th Congress, or Public Law 483, 78th Congress.

(2) The term "disability" as used in this section shall comprehend any disease or injury existing at death for which service connection is established in accordance with laws applicable to World War II based upon service rendered in an enlistment entered into prior to twelve o'clock noon, December 31, 1946, and which constitutes a disability as defined by the regulations of this chapter and rating criteria applicable to Public No. 484, 73d Congress, as amended.

(3) The regulation in this section shall be cited as the authority for the determination of the existence of a disability of less than 10 per centum under section 4, Public Law 312, 78th Congress, or Public Law 483, 78th Congress. Where there is no provision for an evaluation of the disease or injury as a disability and the condition is not a disability within the meaning of the instructions issued defining the term "disability" as used in section 1 (b), Public No. 198, 76th Congress, or section 6, Public Law 483, 78th Congress, but it is clear that the disease or injury constituted a definitely ascertainable disability the rating agency or the board of veterans appeals, as the case may be, will outline the evidence and influencing reasons relied on to show the existence of a disability: *Provided, however*, That dependents pension boards in branch offices will make recommendatory ratings in such cases which will be forwarded to central office for review and final rating by the central dependents pension board, dependents and beneficiaries claims service.

PROPOSED RULE MAKING

INTERSTATE COMMERCE COMMISSION

[49 CFR, Part 315]

[Ex Parte No. 146]

OIL FIELD EQUIPMENT IN MARSHLANDS OF LOUISIANA AND TEXAS

PROPOSED CONTINUATION OF EXEMPTION

JUNE 11, 1947.

An order was entered in the above-entitled proceeding August 26, 1941, exempting from the requirements of Part III of the Interstate Commerce Act, for a period of three years, contract carriers by water engaged in the leasing or chartering of vessels for the purpose of transporting machinery, materials, supplies, and equipment incidental to, or used in, the construction, development, operation, and maintenance of, facilities for, the discovery, development and production of, natural gas and petroleum, to and from points in the marshland oil fields of Louisiana and Texas (49 CFR, Cum. Supp., 315.1). By order of May 10, 1944, the period of exemption of such contract carriers was extended to August 26, 1947 (49 CFR, 1944 Supp., 315.1).

Letters and petitions have been received from certain water carriers and oil companies requesting that such exemption be further extended to August 26, 1950. They state that the conditions set forth in the order of August 26, 1941, as a basis for granting the exemption, still exist.

Any interested persons may file with the Commission on or before July 15, 1947, memoranda or briefs containing their views as to the matter of extending beyond August 26, 1947, the exemption granted in this proceeding.

CIVIL AERONAUTICS BOARD

[Docket No. 484]

PENNSYLVANIA-CENTRAL AIRLINES CORP.

NOTICE OF ORAL ARGUMENT CONCERNING MAIL RATES

In the matter of the motion of Public Counsel for denial of the petition of Pennsylvania-Central Airlines Corporation under section 406 of the Civil Aeronautics Act of 1938, as amended, insofar as such petition requests the establishment of a mail rate restrictively effective to June 1, 1942.

Pennsylvania-Central Airlines Corporating having, by petition filed January 14, 1947, petitioned the Board to fix and determine the fair and reasonable rate of compensation for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, for reasons therein set forth retroactively at 18.12 cents per revenue plane course mile for the period, June 1, 1942 to December 31, 1946, both dates inclusive; and at 30 cents per revenue plane course mile for the period ensuing and for the future; and

Public Counsel, by motion filed April 22, 1947, having moved the Board for entry of an order denying petitioner's request for an increase in rate effective prior to the date its petition was filed, to which motion petitioner, on May 12, 1947, has filed an answer requesting dismissal of said motion, or, in the alternative, asking to be heard in oral argument before the Board.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, that oral argument in the above proceeding, addressed to the issues established under the pleadings above referred to, is assigned to be held on July 1, 1947, at 10:00 a. m., daylight saving time, in Room 5042, Commerce Building, 14th Street and Constitution Avenue, N. W., Washington, D. C., before the Board.

Dated at Washington, D. C., June 12, 1947.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-977]

CHICAGO AND NORTH WESTERN RAILWAY CO.

ORDER PERMITTING COMMON STOCK NO PAR VALUE TO BE EQUIVALENT TO VOTING TRUST CERTIFICATES FOR COMMON STOCK NO PAR VALUE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 12th day of June A. D. 1947.

The Boston Stock Exchange has made application under Rule X-12F-2 (b) for a determination that the Common Stock, No Par Value, of Chicago and North Western Railway Company is substantially equivalent to the Voting Trust Certificates for Common Stock, No Par Value, of that company, which have heretofore been admitted to unlisted trading privileges on the applicant exchange.

The Commission having duly considered the matter, and having due regard for the public interest and the protection of investors;

It is ordered, Pursuant to sections 12 (f) and 23 (a) of the Securities Exchange Act of 1934 and Rule X-12F-2 (b) thereunder, that the Common Stock, No Par Value, of Chicago and North Western Railway Company is hereby determined to be substantially equivalent to the Voting Trust Certificates for Common Stock, No Par Value, of that company heretofore admitted to unlisted trading privileges on the applicant exchange.

SEABOARD AIR LINE RAILROAD CO. VOTING TRUST

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 12th day of June A. D. 1947.

In the matter of Application by the Boston Stock Exchange for unlisted trading privileges in Seaboard Air Line Railroad Company Voting Trust, expiring April 1, 1951, voting trust certificates for common stock, no par value; File No. 7-984.

The Boston Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1935 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the Voting Trust Certificates for Common Stock, No Par Value, of Seaboard Air Line Railroad Company Voting Trust, Expiring April 1, 1951, a security listed and registered on the New York Stock Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Philadelphia, Pennsylvania.

Notice is hereby given that, upon request of any interested person received prior to July 3, 1947, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Philadelphia, Pennsylvania. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

AMERICAN GAS AND ELECTRIC CO. ET AL.

ORDER GRANTING EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 10th day of June A. D. 1947.

In the matter of American Gas and Electric Company, File No. 54-155, American Gas and Electric Company, Atlantic City Electric Company, Deepwater Operating Company, South Pennsgrove Realty Company, File Nos. 54-9 and 59-2.

The Commission having, on April 7, 1947, issued its order approving a plan filed by American Gas and Electric Company ("American Gas"), a registered holding company, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, said plan providing, among other things, that American Gas would dispose of its interest in Atlantic City Electric Company ("Atlantic City") consisting of 1,150,000 shares of common stock of the par value of $10 per share through the sale at competitive bidding of 522,416 shares of such stock and the disposition of the remaining 627,584 shares as dividends to the common stockholders of American Gas commencing with the dividend date June 15, 1947, and terminating with the dividend date December 15, 1948; and

A supplemental application having been filed by American Gas on May 7, 1947 wherein it was stated that on April 14, 1947 due to unsettled conditions applicant postponed indefinitely the date for submission of sealed written proposals for the purchase of the common stock of Atlantic City. Said supplemental application proposed a modification of the competitive bidding procedure whereby American Gas would publish a notice requesting that any persons interested in such underwriting would advise the company in writing before a specified date (which should be not earlier than the 4th day after publication of the notice). On or after such specified date American Gas would notify by telegram all persons who had so signified their interest that sealed bids should be presented at a designated time and place; and

The Commission having, by order dated May 9, 1947, granted said supplemental application subject to the terms and conditions prescribed in Rule U-24 and subject to the further condition that the proposed sale of the common stock of Atlantic City shall not be consummated until the results of competitive bidding shall have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record so completed; and

It appearing that the proposed sale of the common stock of Atlantic City has not been consummated within the period prescribed by Rule U-24, and American Gas having requested the Commission to extend to August 5, 1947 the time within

which the said 522,416 shares of the common stock of Atlantic City shall be sold in accordance with the terms and conditons of, and the purposes stated in, the aforementioned plan and supplemental application; and

The Commission having considered such request and deeming it appropriate that it be granted;

It is ordered, That the time within which American Gas shall sell the 522,416 shares of the common stock of Atlantic City in accordance with the orders of April 7, 1947 and May 9, 1947 and subject to the terms and conditions and reservations of jurisdiction therein contained, be, and hereby is, extended to and including August 5, 1947.

By the Commission.

MISSISSIPPI POWER & LIGHT CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 11th day of June A. D. 1947.

Mississippi Power & Light Company ("Mississippi"), an electric and gas utility subsidiary of Electric Power & Light Corporation, a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, having filed a declaration, and amendments thereto, pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 and Rule U-50 thereunder regarding the issuance and sale at competitive bidding of $8,500,000 principal amount of First Mortgage Bonds, --% Series due June 1, 1977; and

The Commission having by order dated May 28, 1947, permitted said declaration, as amended, to become effective subject to the condition that the proposed issue and sale of bonds should not be consummated until the results of competitive bidding pursuant to Rule U-50 had been made a matter of record in this proceeding and a further order entered by the Commission in the light of the record as so completed and subject further to a reservation of jurisdiction with respect to the payment of all fees and expenses of all counsel in connection with the issue and sale of said bonds; and

Mississippi having filed an amendment to its declaration setting forth the action taken to comply with the requirements of Rule U-50 and stating that pursuant to the invitation for competitive bids, six bids on such bonds by six groups of underwriters headed by the firms set forth below were received:

Underwriting group	Coupon rate	Price to company	Cost to company
White, Weld & Co.[1] Shields & Co.	2.875	100.289	2.8606
Glore, Forgan & Co.[1]	2.875	100.173	2.8664
Harriman Ripley & Co., Inc.	2.875	100.14	2.8680
Blyth & Co., Inc.	2.875	100.14	2.8680
W. C. Langley & Co.[1]	3.00	102.311	2.8844
The First Boston Corp.	3.00	102.3099	2.8864
Halsey, Stuart & Co., Inc.	3.00	101.031	2.9480
Lehman Bros.			

[1] Bid jointly.

Said declaration having contained the statement that Mississippi has accepted the bid of the group headed jointly by White, Weld & Co. and Shields & Company as set out above, and that the bonds will be offered for sale to the public at a price of 101.125% of the principal amount thereof, resulting in an underwriters' spread of 0.836% of the principal amount of said bonds; and

The Commission finding that the proposed payments of counsel fees in the amount of $11,000 to Reid & Priest, New York counsel for Mississippi, $5,500 to Green & Green, general counsel for Mississippi, and $7,500 to Winthrop, Stimson, Putnam & Roberts, counsel for the successful bidders for said bonds, whose fee is to be paid by the successful bidder, are not unreasonable; and

The Commission having examined said amendment and having considered the record herein and finding no reasons for imposing terms and conditions with respect to said matters:

It is ordered, That jurisdiction heretofore reserved with respect to the matters to be determined as a result of competitive bidding for said bonds under Rule U-50 be, and the same hereby is, released, and that the amendment filed on June 11, 1947 to the declaration herein be, and the same hereby is, permitted to become effective, subject, however, to the terms and conditions prescribed in Rule U-24; and

It is further ordered, That jurisdiction heretofore reserved with respect to fees and expenses of counsel in connection with the issue and sale of said bonds, including the fees payable to counsel for the successful bidder, be, and the same hereby is, released.

By the Commission.

PUBLIC SERVICE CO. OF NEW HAMPSHIRE

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 12th day of June A. D. 1947.

Public Service Company of New Hampshire ("New Hampshire"), a public utility subsidiary of New England Public Service Company, a registered holding company, having filed an application, and amendments thereto, pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 and Rule U-50 promulgated thereunder, with respect to the following transactions:

New Hampshire proposes to issue and sell at competitive bidding, pursuant to the provisions of Rule U-50, $4,500,000 principal amount of First Mortgage Bonds, Series B, --% due 1977. The bonds are to be issued under and secured by the company's presently outstanding Mortgage dated as of January 1, 1943, as supplemented by the First Supplemental Indenture dated as of December 1, 1943 and the Second Supplemental Indenture to be dated as of June 1, 1947. The interest rate of said bonds (which shall be a multiple of ⅛ of 1% and shall not exceed 3%) and the price, exclusive of accrued interest, to be paid to New Hampshire (which shall not be less than the principal amount of said bonds and not more than 102.75% of such principal amount) are to be determined by competitive bidding. The proceeds (excluding accrued interest) from the sale of the bonds, after the payment of expenses, will be used by New Hampshire to reimburse its treasury for amounts expended in the purchase and construction of property and facilities used in its business and for other corporate purposes.

Said application having been filed May 12, 1947 and the last amendment thereto having been filed on June 12, 1947, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated under the act, and the Commission not having received a request for hearing with respect to said application within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

Applicant having requested that the Commission's order granting the application become effective forthwith, and the Commission deeming it appropriate to grant such request; and

The Commission finding that New Hampshire is entitled to an exemption from the provisions of sections 6 (a) and 7 of the act pursuant to the provisions of section 6 (b) thereof, it appearing that the issuance and sale of the First Mortgage Bonds are solely for the purpose of financing the business of applicant and that such issuance and sale has been expressly authorized by the Public Service Commission of the State of New Hampshire, the state in which New Hampshire was organized and is doing business, and by the Public Service Commission of the State of Vermont, the state in which New Hampshire also does business; and the Commission deeming it appropriate in the public interest and the interest of investors and consumers that subject to the conditions and reservations of jurisdiction recited below said application, as amended, be granted:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application, as amended, be, and the same hereby is, granted forthwith, subject to the terms and conditions prescribed in Rule U-24 and subject to the further condition that

the proposed sale of the First Mortgage Bonds by New Hampshire shall not be consummated until the results of competitive bidding, pursuant to Rule U-50, have been made a matter of record herein and a further order shall have been entered with respect thereto, which order may contain such further terms and conditions as may then be deemed appropriate, for which purpose jurisdiction is hereby reserved.

By the Commission.

BIRMINGHAM GAS CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 11th day of June A. D. 1947.

Notice is hereby given that an application has been filed with this Commission pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 by Birmingham Gas Company ("Birmingham"), a gas utility subsidiary of Federal Water and Gas Corporation, a registered holding company.

Notice is further given that any interested person may not later than June 26, 1947 at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application which he desires to controvert, or request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th & Locust Streets, Philadelphia 3, Pennsylvania. At any time after June 26, 1947 said application, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100.

All interested persons are referred to said application, which is on file in the offices of this Commission, for a statement of the transactions therein proposed which are summarized below:

Birmingham proposes to issue notes aggregating $600,000 bearing interest at the rate of 2½% per annum and maturing at the rate of $50,000 semi-annually. Such notes will include loans from The Chase National Bank of the City of New York in the amount of $400,000 and The Continental Bank & Trust Company of New York in the amount of $200,000. Proceeds of the loans are to be used for construction of improvements and extensions to the company's properties. The application recites that the issuance and sale of such notes will have been expressly authorized by the Alabama Public Service Commission, the State Commission of the State in which Birmingham is organized and doing business.

The filing requests that the Commission's order permitting the application to become effective be issued as promptly as possible and become effective on the date of issuance.

By the Commission.

FIRST YORK CORP. AND AMERICAN WHEELABRATOR & EQUIPMENT CORP.

NOTICE OF APPLICATION, STATEMENT OF ISSUES AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 12th day of June A. D. 1947.

Notice is hereby given that American Wheelabrator & Equipment Corporation (Wheelabrator) has filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 for an order exempting from section 17 (a) of said act, a proposed transaction in which Wheelabrator will solicit tenders of its 5% Cumulative Preferred Stock, $50 par value, from the holders thereof, at a price not in excess of $50 per share, plus accrued dividends to date of purchase.

First York Corporation (First York), an investment company registered under the Investment Company Act of 1940, owns 33,446.6 of the 38,484.6 shares of the 5% Cumulative Preferred Stock of Wheelabrator outstanding. First York also owns approximately 87% of the outstanding common stock of Wheelabrator, which is the only stock of Wheelabrator at present entitled to vote. The remainder of the preferred and common stock of Wheelabrator is owned by seven persons who are officers or directors of Wheelabrator (or associates of such persons) and by the corporate trustee for its employees' profit sharing trust. Wheelabrator proposes to solicit tenders of its preferred stock from holders thereof at a price not in excess of $50 per share and intends to use the sum of $76,969 in its sinking fund for this purpose. First York proposes to tender 1,540 shares of Wheelabrator's preferred stock at $50 per share plus accrued dividends, the maximum number of shares which can be purchased from the sum of $76,969, but First York is willing to have any tenders of the minority stockholders accepted prior to its own tenders. Since Wheelabrator is an affiliated person of First York, the proposed transaction is prohibited by section 17 (a) of the act.

All interested parties are referred to said Application which is on file in the offices of the Commission for a more detailed statement of the proposed transaction and the matters of fact and law asserted.

The Corporation Finance Division of the Commission has advised the Commission that upon a preliminary examination of the application it deems the following issues to be raised thereby, without prejudice to the specification of additional issues upon further examination:

(a) Whether the proposed transaction is reasonable and fair;

(b) Whether the proposed transaction involves overreaching on the part of any person concerned; and

(c) Whether the proposed transaction is consistent with the policy of First York Corporation.

It appearing to the Commission that a hearing upon the application is necessary and appropriate:

It is ordered, Pursuant to section 40 (a) of said act, that a public hearing on the aforesaid application be held on June 26, 1947, at 10:00 a. m., e. d. s. t., Room 318 in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

It is further ordered, That William W. SEFTEL MACHLES

In re: Estate of Seftel Machles, a/k/a Samuel Machles, deceased. File No. D-57-457; E. T. sec. 15679.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Schae Machles, Leon Machles, and Molca Tercotni, whose last known address is Roumania, are residents of Roumania and nationals of a designated enemy country (Roumania);

2. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraph 1 hereof in and to the estate of Seftel Machles, a/k/a Samuel Machles, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Roumania);

3. That such property is in the process of administration by Harry Jacobs, as Executor and Trustee, acting under the judicial supervision of the Atlantic County Orphans' Court, Atlantic County Court House, New Jersey;

and it is hereby determined:

4. That to the extent that the persons identified in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Roumania).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 29, 1947.

For the Attorney General.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 25—FEDERAL EMPLOYEES PAY REGULATIONS

WITHIN-GRADE SALARY ADVANCEMENTS

The regulations in this part are amended in pertinent parts as follows:

SUBPART B—PERIODIC WITHIN-GRADE SALARY ADVANCEMENT REGULATIONS

(For regulations governing the granting of additional within-grade salary advancements as rewards for superior accomplishment, see Subpart E of this part.)

EXTENT OF REGULATIONS

§ 25.201 *Officers and employees to whom this subpart applies.* This subpart applies to all officers and employees, except those who are appointed by the President, by and with the advice and consent of the Senate, who (a) are compensated on a per annum basis, (b) occupy permanent positions within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended, and (c) have not reached the maximum rate of compensation for the grade in which their positions are respectively allocated.

DEFINITIONS

§ 25.221 *Permanent positions.* "Permanent positions" mean positions other than those designated as temporary by law, other than those established for definite periods of one year or less, and other than those to which temporary appointments are made under Civil Service Rule II and the Commission's regulations thereunder (§ 2.114 of this chapter). Excepted positions filled by appointments designated by the appointing authority as temporary (all variations of temporary, including those stated above, excepting only war service indefinite) are not permanent positions for the purpose of this subpart. Positions to which appointments were made under the war service regulations for the duration of the war and six months thereafter are permanent positions within the scope of this definition. Positions in which employees are serving definite probationary or trial periods under civil-service rules, or under regulations issued by the Commission, shall not, for that reason alone, be regarded as being other than permanent positions. Positions filled by temporary appointment under the Temporary Civil Service Regulations are temporary for the purpose of this subpart.

SUBPART E—REGULATIONS FOR GRANTING ADDITIONAL WITHIN-GRADE SALARY ADVANCEMENTS AS REWARDS FOR SUPERIOR ACCOMPLISHMENT

(For regulations governing "Cash" awards, see Part 32 of this chapter.)

§ 25.501 *Extent of regulations; officers and employees to whom this subpart applies.* This subpart applies to any officer or employee, except those in positions required to be filled by appointments by the President, by and with the advice and consent of the Senate, who (a) is compensated on a per annum basis; (b) occupies a permanent position within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended; (c) has not reached the maximum rate of compensation for the grade of his position; and (d) who merits consideration for an award as a result of superior accomplishment.

§ 25.502 *Definitions.* (a) "Department" means any executive department or independent establishment or agency, including Government-owned or Government-controlled corporations, and the municipal government of the District of Columbia.

(b) "Permanent positions" means positions other than those designated as temporary by law, other than those established for definite periods of one year or less, and other than those to which temporary appointments are made under Civil Service Rule II and the Commission's regulations thereunder (§ 2.114 of this chapter). Excepted positions filled by appointments designated by the appointing authority as temporary (all variations of temporary, including those stated above, excepting only war service indefinite) are not permanent positions for the purpose of this subpart. Positions to which appointments were made under the war service regulations for the duration of the war and six months thereafter are permanent positions within the scope of this definition. in which employees are serving definite probationary or trial periods under civil-service rules, or under regulations issued by the Commission, shall not, for that reason alone, be regarded as being other than permanent positions. Positions filled by temporary appointment under the Temporary Civil Service Regulations are temporary for the purpose of this subpart.

(c) "Positions within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended," mean positions in the departmental and field services, in the executive, legislative, and judicial branches, in Government-owned or Government-controlled corporations, and in the municipal government of the District of Columbia, the compensation of which has been fixed on a per annum basis, pursuant to the allocation of such positions to the appropriate grade either by the Civil Service Commission or by administrative action of the department, establishment, agency, or corporation concerned, in accordance with the compensation schedules of the Classification Act of 1923, as amended.

(d) "Superior accomplishment" means sustained work performance of a high degree of efficiency, or the initiation and development of a suggestion, over and above normal requirements of the position, which increases efficiency or brings about substantial economies in the public service, or a special service of an outstanding nature, which meets the standards of the Commission for recognition as the basis for a reward in the form of an additional salary advancement.

(e) "Additional advancement" means within-grade salary advancement as a reward for superior accomplishment as distinguished from a periodic within-grade salary advancement under section 402 of the Federal Employees Pay Act of 1945.

§ 25.503 *Conditions of eligibility for additional advancements.* The granting of each additional advancement shall be subject to the following conditions:

(a) It must be made within the limit of available appropriations;

(b) It must be based on superior accomplishment which conforms with standards promulgated by the Commission;

(c) It cannot also be the basis for a cash award under the authority of Executive Order No. 9817 or any similar plan; and

(d) No more than one additional advancement may be made to any officer or employee within each of the time periods prescribed in section 402 of the Federal Employees Pay Act of 1945.

[Lemon Reg. 226, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.333 *Lemon Regulation 226, as amended*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 53 (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when informaion upon which the regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order, as amended.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., June 15, 1947, and ending at 12:01 a. m., P. s. t., June 22, 1947, is hereby fixed at 750 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 225 (12 F. R. 3731) and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "boxes," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such word in the said marketing agreement and order. (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regs., Serial No. 361-C]

PART 40—AIR CARRIER OPERATING CERTIFICATION

PART 60—AIR TRAFFIC RULES

PART 61—SCHEDULED AIR CARRIER RULES

LONG DISTANCE SCHEDULED AIR CARRIER OPERATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 12th day of June 1947.

The purpose of this special regulation is to extend for an additional 6-month period Special Civil Air Regulation Serial Number 361-A (11 F. R. 7033, 14569) which terminates June 15, 1947.

This regulation provides special operating rules for flights of scheduled air carriers at altitudes in excess of 12,500 feet, east of longitude 100° W. and at altitudes in excess of 14,500 feet west of longitude 100° W. in long distance operations.

Parts 40, 60, and 61 impose undue operating restrictions on long-range domestic scheduled air carrier operations under the above conditions. Revisions to these parts which will provide for such operations are now being prepared. Since the termination date of the present regulation is June 15, 1947, and since the public interest requires the continuation of these long distance operations, without undue restrictions, the notice and procedures required by the Administrative Procedure Act are impracticable, and good cause exists to amend this Special Civil Air Regulation, effective immediately.

Effective June 15, 1947, Special Civil Air Regulation 361-A, as amended, is amended by striking the words "June 15,

1947", and inserting in lieu thereof the words "December 15, 1947."

(52 Stat. 984, 1007 49 U. S. C. 425, 551)

By the Civil Aeronautics Board.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

EXEMPTION OF CERTAIN SECURITIES UNDER REGULATION A

Acting pursuant to the Securities Act of 1933, particularly sections 3 (b) and 19 (a) thereof, and after consideration of all relevant matter presented, the Securities and Exchange Commission hereby amends Regulation A to delete therefrom subparagraph (h) of § 230.221 (Rule 221) which excludes from the exemption provided by Regulation A "Securities sold or delivered after sale in, or orders for which are accepted from, a State while the right to offer or sell such securities in that State is prohibited, denied, or suspended by any regulatory body of the State for any reason other than the misconduct of a dealer in the securities."

The Commission finds that continuation of the above restriction is no longer necessary in the public interest, for the protection of investors, or to carry out the provisions of the Securities Act of 1933. It further finds that this amendment removes restriction and may be declared effective immediately pursuant to section 4 (c) of the Administrative Procedure Act.

The basis and purpose of this amendment are to remove a restriction no longer necessary in the public interest or for the protection of investors.

(Secs. 3 (b), 19 (a), 48 Stat. 76, 85; 15 U. S. C. 77c, 77s)

Effective June 13, 1947.

By the Commission.

23.20 Relending by Corporations and Tribes.

AUTHORITY: §§ 23.1 to 23.20, inclusive, issued under authority contained in R. S. 161; 5 U. S. C. 22.

§ 23.1 *Definitions.* Wherever used in the regulations in this part, the terms defined in this section shall have the meaning herein stated.

(a) "Secretary" means Secretary of the Interior.

(b) "Commissioner" means Commissioner of Indian Affairs.'

(c) "Corporation" means an Indian corporation chartered under section 17 of the act of June 18, 1934 (48 Stat. 988, 25 U. S. C. sec. 477).

(d) "Tribe" means an unincorporated Indian tribe or band. A tribe shall be deemed to include any band, pueblo, or group of Indians residing on one reservation having a form of organization recognized by the Commissioner.

(e) "Loans" mean both loans of cattle repayable in kind and assignments of cattle under agreements requiring maintenance of the number and other operating conditions.

(f) "Corporate enterprise" means a business operated by a corporation.

(g) "Tribal enterprise" means a business operated by a tribe.

§ 23.2 *Purpose of regulations.* The purpose of these regulations is to prescribe the terms and conditions of loans of cattle owned by the United States, in order to promote the economic development of the borrower. §§ 23.2 to 23.19 of this part shall govern loans by the United States. Relending by corporations and tribes shall be governed by the provisions of § 23.20.

§ 23.3 *Eligible borrowers.* Loans of cattle may be made to:

(a) Corporations and tribes;

(b) Cooperative associations whose members are not members of a corporation or tribe making loans of cattle, and whose articles of association and bylaws have been approved by the Commissioner;

(c) Members of Indian tribes or their descendants of at least one-fourth degree of Indian blood, who are not members of a corporation or tribe making loans of cattle.

§ 23.4 *Application.* The application shall be submitted on a form approved by the Secretary and shall indicate the period of the loan, the interest, if any, to be paid, the security offered, and the procedures to be followed in handling and repaying the loan.

§ 23.5 *Purpose of loans.* Cattle loaned to corporations and tribes may be used in the operation of corporate or tribal enterprises, and to make loans to individual members, cooperative associations, and subordinate bands, in order to promote the economic development of groups or individuals.

§ 23.6 *Type of credit system.* Before any loans are approved, the Commissioner shall determine whether a corporate, tribal, cooperative, or individual system for making loans of cattle is to be established at a particular jurisdiction.

§ 23.7 *Approval of loans.* Loans of cattle to corporations and tribes shall require the approval of the Commissioner. Loans to cooperative associations and individuals shall require the approval of the Commissioner or his authorized representative. Loan agreements must be executed on forms approved by the Secretary. Applications shall be approved either as submitted, or by issuance of commitment orders covering the terms and conditions of making loans. Commitment orders shall be unconditionally accepted by borrowers.

§ 23.8 *Modifications.* Modifications of loan agreements shall be handled through the same channels as the original agreement, except that an authorized representative of the Commissioner may approve modifications of loan agreements approved by the Commissioner in cases in which the number of cattle covered by the original agreement is not increased.

§ 23.9 *Interest.* Interest may be charged on loans of cattle by the United States at rates as nearly equivalent as possible to those set forth in this section. Payments may be made either in cattle or in cash. Cash payments shall be based on market prices of cattle as approved by the Commissioner or his authorized representative. Cattle received in payment may be reloaned under the provisions of the regulations in this part. Cash received in payment shall be deposited in the Treasury to the credit of the United States.

(a) Corporations and tribes may be charged one head for each ten head loaned for a period not exceeding twenty-five years.

(b) Cooperatives and individuals may be charged one head for each ten head loaned for a period not exceeding eight years.

§ 23.10 *Records and reports.* Borrowers, other than individuals, shall keep separate records and accounts of their cattle loans and make signed reports as directed by the Commissioner. The Commissioner shall make an annual report to the Secretary on loans of cattle.

§ 23.11 *Maturity.* The period of maturity of loans of cattle shall be determined according to the circumstances, except that thirty years shall be the maximum on loans to corporations and tribes, and ten years shall be the maximum on loans to cooperative associations and individuals.

§ 23.12 *Security.* Borrowers shall furnish security, if available, up to an amount adequate to protect the loan. Trust or restricted land may not be taken as security for loans of cattle by the United States. Assignments of income from trust or restricted land may be required as security. Loans of cattle to corporations and tribes may be secured through the assignment of notes, chattel mortgages, income, liens (except on trust or restricted land), and such other securities as the Commissioner may require, provided, that where the constitution, bylaws or charter require approval of security by the Secretary, the approval of the Secretary or his authorized representative must be obtained before the loan is approved.

§ 23.13 *Title.* Unless otherwise provided in the loan agreement, title to all cattle loaned, the increase therefrom, and any "lieu" cattle to replace animals loaned, shall remain in the United States in trust for the borrower until the loan is repaid.

§ 23.14 *Branding.* Unless otherwise provided in the loan agreement, all cattle loaned by the United States, the increase therefrom, and any "lieu" cattle replacing animals loaned, shall be branded ID, and in the case of loans to corporate and tribal enterprises, individuals and cooperatives, all cattle shall also be branded with the brand or mark of the borrower.

§ 23.15 *Penalties on default.* Unless otherwise provided in the loan agreement, failure on the part of a borrower to conform to the terms of the loan agreement will be deemed grounds for any one or all of the following steps to be taken by the Commissioner or, in the case of cooperative associations and individual borrowers, by an authorized representative of the Commissioner:

(a) Take possession of any or all collateral given as security, and in the case of individuals and cooperative associations, the cattle loaned.

(b) Prosecute legal action against the borrower, or against officers of corporations, tribes, and cooperative associations.

(c) Declare the loan immediately due and payable.

(d) In the case of corporations and tribes, prevent further loans of cattle under the control of the borrower, and repossess any cattle which have not been reloaned, and require that all repayments on loans made by the corporation or tribe be applied to liquidate its indebtedness to the United States.

(e) In the case of cooperative associations, take possession of the assets of the borrower, and exercise or arrange for the exercise of its powers until the indebtedness to the United States is liquidated, or until the Commissioner or his authorized representative has received acceptable assurance of its repayment and of compliance with the loan agreement.

(f) In the case of corporate and tribal enterprises, liquidate or operate, or arrange for the operation of the enterprise until its indebtedness is paid, or until the Commissioner has received acceptable assurance of its repayment and of compliance with the loan agreement.

§ 23.16 *Assignment.* A corporation or tribe may not assign its loan agreement or any interest therein to a third party without the written consent of the Commissioner. A cooperative or individual may not make such assignment without the written consent of the Commissioner or his authorized representative.

§ 23.17 *Sales and exchanges.* The Commissioner or his authorized representative may grant borrowers permission to sell or exchange cattle for which repayment has not been made, provided the interests of the United States in the loan will not be jeopardized. Such sales shall be for the account of the borrower. The proceeds of any sales of cattle not for the account of a borrower must be deposited in the Treasury to the credit of the United States.

§ 23.18 *Repayments.* Repayments shall be made to a bonded Government disbursing agent or his authorized representative, who shall issue receipts for all such payments. When it is impracticable for borrowers to repay their loans in cattle because of the death of the cattle or for other cause, the Commissioner or his authorized representative may accept from borrowers, their heirs, successors, or assigns, cash in lieu thereof for deposit as individual Indian moneys to be expended in the purchase of cattle to be credited on such loans. Such transactions shall be for the account of the borrower and credit for repayments shall be given only after the cattle have been purchased.

§ 23.19 *Transfer of cattle.* Cattle repaid or repossessed from borrowers or assignees may be transferred to such reservations as the Commissioner may determine for the purpose of making loans.

§ 23.20 *Relending by corporations and tribes.* Corporations and tribes receiving loans of cattle from the United States may relend the cattle as follows:

(a) *Purpose.* All loans shall be to promote the economic development of the borrower.

(b) *Eligibility.* Loans may be made to individual members of the corporation or tribe, subordinate bands, and to cooperative associations whose articles of association and bylaws have been approved by the Commissioner or his authorized representative.

(c) *Application.* The application shall be on a form approved by the Commissioner indicating the period of the loan, the interest to be paid, the security offered, and the procedures to be followed in handling and repaying the loan.

(d) *Approval.* All loans shall require approval of the Commissioner or his authorized representative, unless the Commissioner authorizes the corporation or tribe to approve loans up to a specified number of cattle. Loan agreements must be executed on a form approved by the Commissioner. Applications shall be approved either as submitted, or by issuance of a commitment order covering the terms and conditions of making the loan. Commitment orders shall be unconditionally accepted by borrowers.

(e) *Modifications.* Unless otherwise authorized by the Commissioner, modifications of loan agreements shall be handled through the same channels as the original loan agreement.

(f) *Interest.* Interest may be charged at a rate as nearly equivalent as possible to one head for each ten head loaned for a period not exceeding eight years. Payments may be made either in cattle or in cash. Cash payments shall be based on market prices of cattle as approved by the Commissioner or his authorized representative.

(g) *Maturity.* Ten years shall be the maximum on loans:

(h) *Security.* Borrowers shall furnish security, if available, up to an amount adequate to protect the loan. Liens on trust or restricted land may be taken as security by corporations and tribes.

(i) *Title.* Unless otherwise provided in the loan agreement, title to all cattle loaned, the increase therefrom, and any "lieu" cattle replacing animals loaned, shall remain in the United States in trust for the lender until the loan is repaid.

(j) *Branding.* Unless otherwise provided in the loan agreement, all cattle loaned, the increase therefrom, and any "lieu" cattle replacing animals loaned, shall be branded ID, and also with the brand or mark of the borrower.

(k) *Penalties on default.* Unless the loan agreement otherwise provides, failure on the part of a borrower to conform to the terms of the loan agreement will be deemed grounds for any one or all of the following steps to be taken at the option of the lender:

(1) Take possession of any or all collateral given as security, and the cattle loaned.

(2) Prosecute legal action against the borrower.

(3) Declare the loan immediately due and payable.

(4) In the case of cooperative associations, take possession of the assets of the borrower, and exercise or arrange for the exercise of its powers until the indebtedness to the corporation or tribe is liquidated, or until the lender has received acceptable assurance of its repayment and of compliance with the loan agreement.

(l) *Assignment.* A borrower may not assign a loan agreement or any interest therein to a third party without the consent of the lender.

(m) *Sales and exchanges.* The lender, with the approval of the Commissioner or his authorized representative, may grant borrowers permission to sell or exchange cattle for which repayment has not been made, provided the interests of the lender in the loan will not be jeopardized. Such sales shall be for the account of the borrower.

(n) *Repayments.* Repayments shall be made to an authorized representative of the lender, who shall issue receipts for all repayments. When it is impracticable for borrowers to repay their loans in cattle because of the death of the cattle or for some other cause, the lender may accept from borrowers, their heirs, successors, or assigns, cash in lieu thereof for the purchase of suitable replacements.

(o) *Number loaned.* Not less than ten head of beef cattle of breeding quality, nor more than fifty head, may be loaned to any one individual borrower or family group.

(p) *Preference.* Preference shall be given to applicants in the following order:

(1) Applicants who have herds of less than fifty head of beef breeding cattle who are equipped to handle up to fifty head. Loans to this group in sufficient numbers to bring their herds up to fifty head of breeding cattle shall receive priority.

(2) Applicants who have not previously participated in the program, but who are equipped to handle a beef cattle enterprise.

(3) Applicants who have fifty head or more but less than 100 head of beef breeding cattle. This group of applicants shall not receive loans until all applicants having less than fifty head of breeding cattle who are equipped to handle a fifty head breeding unit, have received loans.

(q) *Restrictions.* Loans to applicants owning 100 head or more shall not be approved without the consent of the Commissioner. Applicants who do not maintain or increase their herds after having participated in the program shall not receive loans of additional cattle until such time as all other applications have been considered, and then only upon a showing that they will improve their management practices, which showing shall be satisfactory to the Commissioner or his authorized representative.

(r) *Dairy cattle.* Applicants for dairy cattle to supply milk for home consumption shall receive preference over applications for dairy cattle to undertake commercial dairy operations. Dairy cattle may be loaned in units of less than ten head. Not more than fifteen head of dairy cattle may be loaned to any one individual or family group without the consent of the Commissioner.

GENERAL INFORMATION

§ 100.11 *All communications to be addressed to Commissioner of Patents.* All letters should be addressed to "The Commissioner of Patents, Washington 25, D. C."

§ 100.12 *Business to be transacted in writing.* All business with the Patent Office should be transacted in writing. Personal appearance is unnecessary. The action of the Office will be based exclusively on the written record. No recognition will be given to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

§ 100.13 *Business to be conducted with decorum and courtesy.* Applicants and their representatives will be required to conduct their business with the Patent Office with decorum and courtesy. Papers presented in violation of this requirement will be submitted to the Commissioner and will be returned by his direct order. Complaints against Examiners and other employees must be made in communications separate from other papers.

§ 100.14 *Separate letters.* A separate letter should, in every instance, be written in relation to each distinct subject of inquiry.

§ 100.15 *Identification of pending application or registered mark.* A letter relating to a pending application should identify it by the name of the applicant and the serial number and filing date of the application. A letter relating to a registered mark should identify it by the name of the registrant and by the number and date of the certificate.

§ 100.16 *Times for taking action expiring on Sunday or holiday.* Where the last day for taking any action falls on Sunday or on a holiday within the District of Columbia, the action may be taken on the next succeeding secular or business day.

§ 100.17 *Inquiries.* The Patent Office cannot undertake to respond to inquiries whether certain trade-marks have been registered, or, if so, to whom, or for what goods; nor can it give legal advice or advice as to the registrability of a specified mark or the nature and extent of the protection afforded by the law, except as questions may arise in connection with pending applications. Information of a general nature may be furnished either by answering the inquiry or by providing or calling attention to an appropriate publication.

FEES AND PAYMENT OF MONEY

§ 100.21 *Fees and charges.* The following is the schedule of fees and charges to be paid to the Patent Office:

(x) For correcting drawings, 20 cents for photoprint of uncorrected drawing, and the cost of making correction, minimum charge for making the correction	1.00

§ 100.22 *Method of payment.* All payments of money required for Patent Office fees must be made in United States specie, Treasury notes, national bank notes, post office money orders or postal notes payable in Washington, D. C., or certified checks. Money orders and certified checks must be made payable to the Commissioner of Patents. If sent in any other form the Office may delay the credit until collection is made. Remittances from foreign countries must be payable and immediately negotiable in the United States for the full amount of the fee required. Money sent by mail to the Patent Office will be at the risk of the sender; letters containing money should be registered.

§ 100.23 *Refunds.* Money paid by actual mistake or in excess, such as a payment not required by law, will be refunded, but a mere change of purpose after the payment of money, as when a party desires to withdraw his application for the registration of a mark or to withdraw an appeal, will not entitle a party to demand such a return. Amounts of ten cents or less will not be returned unless specifically demanded, nor will the payer be notified of such amount; amounts over ten cents but less than one dollar may be returned in postage stamps, and other amounts by check.

RECORDS AND PUBLICATIONS OF THE PATENT OFFICE

§ 100.31 *Printed copies of registered marks available.* After a mark has been registered, printed copies of the statement, with a copy of the drawing, will be furnished by the Patent Office upon the payment of the fee therefor.

§ 100.32 *Registration files open to public inspection.* After a mark has been registered, or published for opposition, the file of the application and all proceedings relating thereto are available for public inspection and copies of the papers may be furnished upon paying the fee therefor.

§ 100.33 *Assignment records open to public inspection.* The assignment records are open to public inspection, and copies of any assignment recorded may be obtained upon payment of the fee therefor. An order for a copy of an assignment should give the liber and page of the record. If identified only by the name of the applicant and serial number, or by the name of the registrant and registration number, an extra charge will be made for the time consumed in making a search for such assignment.

§ 100.34 *Certified copies.* Copies of records, books, papers, or drawings belonging to the Patent Office relating to marks and copies of certificates of registration, authenticated by the seal of the Patent Office and certified by the Commissioner, or in his name by a chief of division duly designated by the Commissioner, will be furnished by the Patent Office to any person entitled thereto upon payment of the fee for the copies and for the authentication certificate.

§ 100.35 *Official Gazette.* The Official Gazette of the United States Patent Office is published weekly and contains, in addition to the material relating to patents, information relating to trade-marks, including the text or digest of opinions in trade-mark cases. It includes:

(a) A list of marks published for opposition, with a reproduction of and information concerning each mark.

(b) A list of marks registered on the Principal Register and under the act of 1905, 33 Stat. 724–731; 15 U. S. C. 81–109 (references to this law are subsequently made by "act of 1905").

(c) A list of registrations cancelled.

(d) A list of marks registered on the Supplemental Register and under the act of 1920, 41 Stat. 533–5; 15 U. S. C. 121–128 (references to this law are subsequently made by "act of 1920"), with a reproduction of and information concerning each mark.

(e) A list of registrations renewed.

(f) A list of marks republished under section 12 (c) of the Trade-Mark Act of 1946, 60 Stat. 427; 15 U. S. C. 1051–1127; Pub. Law 489, 79th Cong., 2d Sess.; July 5, 1946 (references to this law are subsequently made by the "act" or the "act of 1946"), with a reproduction of each mark.

(g) A list of registrations amended, surrendered, disclaimed, or corrected in accordance with section 7 (d), (f) and (g) of the act with a statement of any change in the registration.

Single copies and subscriptions are sold by the Superintendent of Documents, Government Printing Office, Washington, D. C. Part of the trade-mark material is reprinted separately in a trade-mark leaflet which may be purchased or subscribed to separately.

§ 100.36 *Annual trade-mark index.* An annual index of trade-marks registered is published, and sold by the Superintendent of Documents.

§ 100.37 *Pamphlet of trade-mark laws and rules.* Pamphlet copies of trade-mark laws and rules, and of general information concerning trade-marks, are furnished without charge by the Patent Office.

ATTORNEYS AND REPRESENTATION BY ATTORNEYS

§ 100.41 *Applicants may be represented by an attorney.* The owner of a trade-mark may file and prosecute his own application for registration of such trade-mark, or he may be represented by an attorney or other person authorized to practice in trade-mark cases. The Patent Office cannot aid in the selection of an attorney or agent. (R. S. 487; 35 U. S. C. 11)

§ 100.42 *Persons who may practice before the Patent Office in trade-mark cases.* Attorneys at law in good standing admitted to practice before the Supreme Court of the United States, the United States Court of Customs and Patent Appeals, or the highest court of any State or Territory of the United States or of the District of Columbia, and persons registered to practice in the United States Patent Office in patent cases (§ 1.17 of this chapter) may practice before the Patent Office in trade-mark cases.

(a) *Attorneys at law.* No register of attorneys who may practice before the Patent Office in trade-mark cases is maintained, and no application by an attorney at law for admission to practice is required. A statement in the power of attorney, or in an accompanying paper, of the bar to which the attorney at law is admitted is required, and recognition is limited to each case.

(b) *Attorneys and agents registered at the Patent Office.* Persons or firms, including attorneys at law, who are registered to practice before the Patent Office need only specify the registration number in the power of attorney.

(c) *Special recognition.* No persons other than those hereinabove mentioned will be permitted to practice before the Patent Office in trade-mark cases unless specially and formally recognized by the Commissioner of Patents, but any person may appear for himself in a proceeding to which he is a party, or for a firm of which he is a member, or for a corporation or association of which he is an officer and which he is authorized to represent, if such firm, corporation, or association is a party to the proceeding.

(d) *Refusal of recognition for cause.* Persons entitled to be recognized under this section may, nevertheless, be refused recognition for cause. (R. S. 487; 35 U. S. C. 11)

§ 100.43 *Professional conduct.* Attorneys at law and other persons appearing before the Patent Office in trade-mark cases must conform to the standards of ethical and professional conduct generally applicable to attorneys before the courts. (R. S. 487; 35 U. S. C. 11)

§ 100.44 *Advertising.* The use of display advertising, circulars, letters, cards, and similar material to solicit trade-mark business, directly or indirectly, is forbidden as unprofessional conduct, and any person engaging in such solicitation, or associated with or employed by others who so solicit, shall be refused recognition to practice before the Patent Office or suspended or excluded from further practice.

The use of simple professional letterheads, calling cards, or office signs; simple announcements necessitated by opening an office, change of association, or change of address, distributed to clients and friends, and insertion of professional cards, listings in common form (not display) in a classified telephone or city directory, and listings and professional cards with biographical data in standard professional directories are not prohibited. (R. S. 487; 35 U. S. C. 11)

§ 100.45 *Signature and certificate of attorney.* Every paper filed by an attorney at law or other recognized person representing an applicant or party to a trade-mark proceeding in the Patent Office must be signed by such attorney or person, except papers which are required to be signed by the applicant or party (such as the application itself and affidavits required of applicants or registrants). When an applicant or party is represented by a firm such papers must carry the signature of an individual member of the firm in addition to the firm name. The signature of an attorney at law or other person to a paper filed by him, or the filing of any paper by him, constitutes a certificate by him that he has read the paper; that he is authorized to file it; that to the best of his knowledge, information, and belief it is well founded in law and fact; and that it is not interposed for delay. (R. S. 487; 35 U. S. C. 11)

§ 100.46 *Suspension or exclusion from practice.* The Commissioner of Patents may, after notice and opportunity for a hearing, suspend or exclude, either generally or in any particular case, from further practice before the Patent Office any person, attorney, or agent shown to be incompetent or disreputable, or guilty of unethical or unprofessional conduct or gross misconduct, or who refuses to comply with the rules and regulations, or who shall, with intent to defraud in any manner, deceive, mislead, or threaten any applicant or prospective applicant or other person having immediate or prospective business before the Patent Office, by word, circular, letter, or in any other manner. The reasons for any such suspension or exclusion shall be duly recorded. (See R. S. 487; 35 U. S. C. 11 for review of the Commissioner's action by the District Court of the United States for the District of Columbia.) (R. S. 487; 35 U. S. C. 11)

§ 100.47 *Power of attorney or authorization.* Before any attorney at law or other recognized person will be allowed to take action in any case or proceeding, a written power of attorney or authorization must be filed in that particular case or proceeding.

A substitute or associate attorney may be appointed by an attorney only upon the written authorization of his principal; but a third attorney appointed by the second will not be recognized. (R. S. 487; 35 U. S. C. 11)

§ 100.48 *Correspondence held with attorney.* When an attorney or other recognized person shall have filed his power of attorney or authorization, duly executed, the correspondence will be held with him. Double correspondence with an applicant and his attorney, or with two attorneys, will not be undertaken. If more than one attorney be appointed, correspondence will be held with the one last appointed unless otherwise requested. (R. S. 487; 35 U. S. C. 11)

§ 100.49 *Revocation of power of attorney.* A power of attorney or authorization may be revoked at any stage in the proceedings of a case upon notification to the Commissioner; and, when it is

so revoked, the Office will communicate directly with the applicant or with such other attorney as he may appoint. An attorney or agent will be notified of the revocation of his power of attorney or authorization. (R. S. 487; 35 U. S. C. 11)

APPLICATION FOR REGISTRATION

§ 100.61 *Parts of application.* A complete application for registration comprises:

(a) A written application (see §§ 100.71 to 100.88);

(b) A drawing of the mark (see §§ 100.91 to 100.95);

(c) Five specimens or facsimiles (see §§ 100.101 to 100.103);

(d) The required filing fee (see § 100.21 (a));

(e) A certified copy of the registration in the country of origin if the application is based on such foreign registration pursuant to section 44 (e) of the act (see § 100.79).

§ 100.62 *Application must be complete to receive filing date.* An application will not be accepted and filed for examination unless all the required parts specified in § 100.61, complying with the rules and regulations relating thereto, are received, but minor informalities may be waived subject to subsequent correction. If the papers and parts are incomplete or so defective that they cannot be accepted as a complete application, the applicant will be notified and the papers and fee held six months for completion if possible, return to the applicant, or other disposition. If not completed in six months, a new application must thereafter be filed. The drawing, specimens, or fee of an unaccepted application may be applied to a later application.

§ 100.63 *Serial number and filing date.* Complete applications will be numbered as received, and the applicant will be informed of the serial number and filing date of the application. The filing date of the application is the date on which the complete application is received in the Patent Office in acceptable form.

§ 100.64 *Designation of representative by foreign applicant.* If the applicant is not domiciled in the United States, he must designate by a written document filed in the Patent Office the name and address of some person resident in the United States on whom may be served notices or process in proceedings affecting the mark and to whom all official communications will be addressed unless the applicant is represented by an attorney or other recognized person. If this document does not accompany or form part of the application, it will be required and registration refused unless it is supplied.

§ 100.65 *Papers not returnable.* After acceptance of the application the papers will not be returned for any purpose whatever. If the applicant has not preserved copies of the papers the Office will furnish them on the usual terms.

§ 100.66 *Use of old drawing in new application.* In an application filed in place of an abandoned or rejected application, or in an application for reregistration (§ 100.311), a new complete application is required, but the old drawing, if suitable, may be used. The application must be accompanied by a request for the transfer of the drawing, and by a permanent photographic copy, or an order for such copy, of the drawing to be placed in the original file. A drawing so transferred, or to be transferred, cannot be amended.

§ 100.67 *Application confidential prior to publication.* No information respecting the filing of an application for the registration of a trademark, or the subject matter thereof will be given, prior to publication under § 100.151, without authority of the applicant, unless it shall, in the opinion of the Commissioner, be necessary to the proper conduct of business before the Patent Office. Decisions of the Commissioner in applications and proceedings relating thereto are published or available for inspection or publication.

THE WRITTEN APPLICATION

§ 100.71 *Application must be in English.* The written application must be in the English language and plainly written on but one side of the paper. Legal size paper, typewritten double spaced, with at least a one and one-half inch margin on the left-hand side and top of the page, is deemed preferable.

§ 100.72 *Application to be signed and sworn to by applicant.* The written application must be made to the Commissioner of Patents and must be signed and verified (sworn to) by the applicant or by a member of the firm or an officer of the corporation or association applying.

Re-executed papers may be required when the application has not been filed in the Patent Office within a reasonable time after the date of execution.

§ 100.73 *Requirements for application; statement.* The written application shall include a request for registration and shall specify:

(a) The name of the applicant;

(b) The citizenship of the applicant; if the applicant be a partnership, the names and citizenship of the general partners or, if the applicant be a corporation or association, the state or nation under the laws of which organized;

(c) The domicile and post office address of the applicant;

(d) That the applicant has adopted and is using the mark shown in the accompanying drawing;

(e) The particular description of goods on or in connection with which the mark is used;

(f) The class of merchandise according to the official classification (if the number and title of the class are not known to the applicant, they may be left blank, in which case they will be filled in by the Patent Office and applicant informed thereof);

(g) The date of applicant's first use of the mark as a trade-mark on or in connection with goods specified in the application;

(h) The date of applicant's first use of the mark as a trade-mark on or in connection with goods specified in the application in commerce which may lawfully be regulated by Congress, specifying the nature of such commerce.

(i) The mode or manner in which the mark is used on or in connection with the particular goods specified.

This part of the written application is called the statement.

§ 100.74 *Requirements for application; declaration.* The written application must also include averments to the effect that the applicant or other person making the verification believes himself or the firm, corporation, or association in whose behalf he makes the verification to be the owner of the mark sought to be registered; that the mark is in use in commerce which may lawfully be regulated by Congress, specifying the nature of such commerce; that no other person, firm, corporation, or association, to the best of his knowledge and belief, has the right to use such mark in commerce, either in the identical form thereof or in such near resemblance thereto as might be calculated to deceive, that the drawing and description truly represent the mark sought to be registered; that the specimens or facsimiles show the mark as actually used in connection with the goods; and that the facts set forth in the statement are true.

This part of the written application is called the declaration.

§ 100.75 *Description of mark.* A description of the mark, which must be acceptable to the Examiner of Trade-Marks, may be included in the statement, and must be included if required by the Examiner.

§ 100.76 *Identification of prior registrations.* Prior registrations of the same or similar marks owned by the applicant should be identified in the written application.

§ 100.77 *Power of attorney, domestic representative.* The power of attorney or authorization of agent (§ 100.47) and the appointment of a domestic representative (§ 100.64) may be included as a paragraph or paragraphs in the written application.

§ 100.78 *Use by predecessor or by related companies.* If the first use, the date of which is required by paragraph (g) or (h) of § 100.73, was by a predecessor in title, or by a related company (sections 5 and 45 of the act), and such use inures to the benefit of the applicant, the date of such first use may be asserted with a statement that such first use was by the predecessor in title or by the related company as the case may be. The Office may require further details and additional proof showing that such use inures to the benefit of the applicant.

Where the mark sought to be registered is legitimately used by one or more related companies at the time of the filing of the application, the declaration (§ 100.74) must recite exceptions to the averment of the exclusive right to use the mark, stating the nature of such related companies and, if practicable, the names and addresses.

§ 100.79 *Omission of allegation of use by foreign applicants.* The allegation that the mark is in use in commerce which may lawfully be regulated by Congress, required by § 100.74, and the statements of the dates of the applicant's first use, required by § 100.73 (g) and (h), may be omitted in the case of an application, filed pursuant to section 44 (e) of the act, for registration of a mark duly registered in the country of origin of a foreign applicant, provided the application when filed is accompanied by a certified copy of the registration in the country of origin and said registration is then in full force and effect. A sworn translation of the registration, if not in the English language, may be required after the application is filed.

Such allegation and statement may also be omitted in the case of an application claiming the benefit of a prior foreign application in accordance with section 44 (d) of the act: *Provided*, That the application states the date and country of the first foreign application and a certified copy of the foreign application and a sworn translation of the same, if not in the English language, are filed before the registration is granted, but the registration will not be granted until the mark has been registered in the country of origin of the applicant.

In such cases the description of goods or services shall not exceed the scope of that covered by the foreign registration or application.

§ 100.81 *Proof of distinctiveness under section 2 (f).* When registration is sought under section 2 (f) of the act and the claim of distinctiveness is based on substantially exclusive and continuous use of the mark by the applicant for a period of five years preceding the filing of the application in commerce which may lawfully be regulated by Congress, the written application shall include in the declaration a statement to that effect; but proof of such exclusive and continuous use and further evidence showing that the mark has become distinctive may be required.

If the allegation of distinctiveness is not based on substantially exclusive use over a five-year period, as specified in the preceding paragraph, but is based on other facts and circumstances, proof of distinctiveness must be submitted separately and should accompany the application.

§ 100.82 *Concurrent use.* In the case of an application claiming concurrent use, the applicant shall also specify in the statement any concurrent use by others, designating their names, addresses, and registrations or applications, if any, the goods in connection with which and the areas in which such concurrent use exists, the mode of such use, the periods of such use, and the goods, area, or mode of use for which the applicant desires registration; and the claim of exclusive use made in the declaration shall be made with the stated exceptions.

§ 100.83 *Service mark.* In the case of an application for the registration of a service mark, the written application shall specify and contain all the elements required by the preceding sections for trade-marks, but shall be modified to relate to services instead of to goods wherever necessary.

§ 100.84 *Collective mark.* In the case of an application for registration of a collective mark, the written application shall specify and contain all applicable elements required by the preceding sections for trade-marks, but shall, in addition, specify the class of persons entitled to use the mark, indicating their relationship to the owner of the mark, and the nature of the owner's control over the use of the mark.

§ 100.85 *Certification mark.* In the case of an application for registration of a certification mark, the written application shall specify and contain all applicable elements required by the preceding sections for trade-marks. It shall, in addition, specify the manner in which and the conditions under which the certification mark is used; it shall allege that the applicant exercises legitimate control over the use of the mark and that he is not himself engaged in the production or marketing of the goods or services to which the mark is applied.

§ 100.86 *Principal Register.* All applications will be treated as seeking registration on the Principal Register unless otherwise stated in the application. Service marks, collective marks, and certification marks, registrable in accordance with the applicable provisions of section 2 of the act, are registered on the Principal Register.

§ 100.87 *Supplemental Register.* In the case of an application for registration on the Supplemental Register, the written application shall so indicate and shall specify that the mark has been in continuous use in commerce which may lawfully be regulated by Congress, specifying the nature of such commerce, by the applicant for the preceding year, if the application is based on such use. The showing required for waiver of the requirement for a full year's use must be separate from the written application.

§ 100.88 *Applicant's name.* The signature to the application must be the correct name of the applicant, since the name will appear in the certificate of registration precisely as it is signed to the application. The name of the applicant, wherever it appears in the papers of the application, will be made to agree with the name as signed.

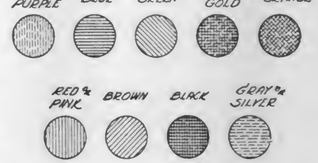
DRAWING

§ 100.91 *Drawing required.* The drawing of the trade-mark shall be a substantially exact representation thereof as actually used on or in connection with the goods.

The drawing of a service mark shall be a substantially exact representation of the mark as used in the sale or advertising of the services. The drawing of a service mark may be dispensed with in the case of a mark not capable of representation by a drawing, but in any such case the written application must contain an adequate description.

In the case of an application for registration on the Supplemental Register, the drawing, when appropriate and necessary (section 23, third paragraph, of the act), may be the drawing of a package or configuration of goods.

§ 100.92 *Requirements for drawings.*—(a) *Paper and ink.* The drawing must be made upon pure white paper of a thickness corresponding to two- or three-ply Bristol board. The surface of the paper must be calendered and smooth. India ink alone must be used for pen drawings to secure perfectly black solid lines. The use of white pigment to cover lines is not acceptable.



(b) *Size of sheets and margins.* The size of a sheet on which a drawing is made must be exactly 8 by 13 inches. Three-fourths of an inch from its edges, a single marginal line should be drawn, leaving the "sight" precisely 6½ by 11½ inches. All work must be included within this margin. One of the shorter sides of the sheet should be regarded as its top. When the view is longer than the width of the sheet, the sheet should be turned on its side with the top at the right.

(c) *Character of lines.* All drawings must be made with the pen or by a process which will give them satisfactory reproduction characteristics. Every line and letter, names included, must be black. This direction applies to all lines, however fine, and to shading. All lines must be clean, sharp, and solid, and they must not be too fine or crowded. Surface shading, when used, should be open.

(d) *Applicant's name.* The name of the applicant for registration must be written or printed within the marginal lines in the lower right-hand corner of the sheet, but in no instance should it encroach upon the drawing.

(e) *Extraneous matter.* An agent's or attorney's name, stamp, or address or other extraneous matter should not appear upon the face of a drawing, within or without the marginal line.

(f) *Linings for color.* Where color is a material feature of a mark as used, the color or colors employed should, if feasible, be illustrated in the drawing by means of the conventional linings as shown in the following color chart for draftsmen:

§ 100.93 *Transmission of drawings.* Drawings transmitted to the Patent Office should be sent flat, protected by a sheet of heavy binder's board, or should be rolled for transmission in a suitable mailing tube to prevent mutilation. They should never be folded.

§ 100.94 *Informal drawings.* A drawing not executed in conformity with the foregoing sections may be accepted for purpose of examination, but the drawing must be corrected or a new one fur-

nished, as required, before the mark can be published or the application allowed. The necessary corrections will be made by the Patent Office upon applicant's request and at his expense. Substitute drawings will not be accepted unless they have been required by the Examiner or correction of the original drawing would require that the mark be substantially entirely redrawn.

§ 100.95 *Patent Office may make drawings.* The Patent Office, at the request of applicants and at their expense, will make drawings if facilities permit.

SPECIMENS

§ 100.101 *Specimens.* The five specimens of a trade-mark shall be specimens of the trade-mark as actually used on or in connection with the goods in commerce, and shall be duplicates of the actually used labels, tags, or containers, or the displays associated therewith or portions thereof, when made of suitable material and capable of being arranged flat and of a size not larger than the size of the drawing.

§ 100.102 *Facsimiles.* When, from the mode of applying or affixing the trade-mark to the goods, or from the manner of using the mark on the goods, or from the nature of the mark, specimens as above stated cannot be furnished, five copies of a suitable photograph or other acceptable reproduction, not larger than the size specified for the drawing and clearly and legibly showing the mark and all matter used in connection therewith, shall be furnished.

§ 100.103 *Specimens or facsimiles in the case of a service mark.* In the case of a service mark a specimen or facsimile as specified in §§ 100.101 and 100.102, of the mark as used in the sale or advertising of the services shall be furnished unless impossible from the nature of the mark or the manner in which it is used, in which event, some other representation acceptable to the Commissioner must be submitted.

EXAMINATION OF APPLICATION AND ACTION BY APPLICANTS

§ 100.121 *Action by Examiner.* Applications for registration will be examined or caused to be examined by the Examiner of Trade-Marks, and, if the applicant is found not entitled to registration for any reason, he will be so notified and advised of the reasons therefor and of any formal requirements or objections and will be given such information and references as may be helpful in the further prosecution of the application.

§ 100.122 *Period for response.* The applicant has six months from the date of mailing of any action by the Patent Office to respond thereto. Such response may be made with or without amendment and must include such proper action by the applicant as the nature of the action and the condition of the case may require.

§ 100.123 *Re-examinations.* After response by the applicant, the application will be re-examined or reconsidered, and if the registration is again refused or formal requirements insisted upon, but not stated to be final, the applicant may respond again.

§ 100.124 *Final action.* On the first or any subsequent re-examination or reconsideration, the refusal of the registration or the insistence upon a requirement may be stated to be final, whereupon applicant's response is limited to an appeal or to a compliance with any requirement made.

§ 100.125 *Abandonment.* If an applicant fails to respond, or to respond completely, within six months after the date an action is mailed, the application shall be deemed to have been abandoned.

§ 100.126 *Revival of abandoned applications.* An application abandoned for failure to respond may be revived as a pending application if it is shown to the satisfaction of the Commissioner that the delay was unavoidable. A petition to revive an abandoned application must be accompanied by a verified showing of the causes of the delay, and by the proposed response, unless the same has been previously filed.

§ 100.127 *Suspension of action by Patent Office.* Action by the Patent Office may be suspended upon request of the applicant for good and sufficient cause and for a reasonable time specified. Only one suspension will be granted by the Examiner, and any further suspension must be approved by the Commissioner.

§ 100.128 *Express abandonment.* An application may be expressly abandoned by filing in the Patent Office a written declaration of abandonment signed by the applicant himself or, if assigned, by the assignee.

AMENDMENT OF APPLICATION

§ 100.131 *Amendments to statement.* The statement may be amended to correct informalities, or to avoid objections made by the Patent Office, or for other reasons arising in the course of examination. No amendments to the dates of use will be permitted unless such changes are supported by affidavit by the applicant and by such showing as may be required by the Examiner.

Additions to the description of goods or services will not be permitted unless the mark was in actual use on all of the goods or services proposed to be added by the amendment at the time the application was filed and unless the amendment is accompanied by additional specimens (or facsimiles) and by a supplemental affidavit by the applicant in support thereof, alleging said facts.

Amendment of the declaration will not be permitted. If that filed with the application be faulty or defective, a substitute declaration must be filed.

§ 100.132 *Amendments to description or drawing.* Amendments to the description or drawing of the mark may be permitted only if warranted by the specimens (or facsimiles) as originally filed, but may not be made if the nature of the mark is changed thereby.

§ 100.133 *Amendment to recite concurrent use.* An application may be amended in the Examiner's discretion so as to be treated as an application for a concurrent registration, provided the application as amended satisfies the requirements of § 100.82.

§ 100.134 *Form of amendment.* In every amendment the exact word or words to be stricken out or inserted in the statement must be specified and the precise point indicated where the deletion or insertion is to be made. Erasures, additions, insertions, or mutilations of the papers and records must not be made by the applicant or attorney.

When an amendatory clause is amended, it must be wholly rewritten so that no interlineation or erasure will appear in the clause, as finally amended, when the application is passed to registration. If the number or nature of the amendments shall render it otherwise difficult to consider the case or to arrange the papers for printing or copying, or when otherwise desired to clarify the record, the Examiner may require the entire statement to be rewritten.

§ 100.135 *Amendment to change application to different register.* An application for registration on the Principal Register may be changed to an application for registration on the Supplemental Register and vice versa by amending the application to comply with the rules relating to the requirements for registration on the appropriate register, as the case may be. Unless the written application as originally filed was sufficient for registration on the register to which converted, the date of filing such amendment will be considered the filing date of the application so converted. Only one such conversion will be permitted after an action by the Examiner.

FEDERAL LABEL APPROVAL

§ 100.141 *Federal label approval required in certain cases.* Whenever an application is filed for the registration of a trade-mark which is either a part of or associated with a label for a product which, under the provisions of an act of Congress, cannot be lawfully sold in the commerce specified in the written application without prior approval of the label by a designated Government agency, a copy of such label and its certification must be made of record in the application before allowance in cases specified by this section.

Types of labels for which prior approval must be secured and copies of which must be filed as indicated above are set forth in the following schedule:

Labels for meat products (Class 46) which are subject to Federal inspection, must be approved by the Meat Inspection Division, Bureau of Animal Industry, Department of Agriculture.

Labels for wines (Class 47) and for distilled alcoholic liquors (Class 49) must be approved by the Federal Alcohol Administration.

PUBLICATION AND ALLOWANCE

§ 100.151 *Publication in Official Gazette.* If, on examination or reexamination of an application for registration

on the Principal Register, it appears that the applicant is entitled to have his mark registered, the mark will be published in the Official Gazette for opposition.

§ 100.152 *Allowance of application.* If no notice of opposition is filed within the time permitted, §§ 100.201 and 100.202, and no interference is declared, the applicant will be duly notified of the allowance of his application, and a certificate of registration may be issued as provided in § 100.291.

Certificates are normally issued on the fourth Tuesday after the Thursday following the date of the notice of allowance.

§ 100.153 *Marks on Supplemental Register published only upon registration.* In the case of an application for registration on the Supplemental Register the mark will not be published for opposition but the applicant will be notified of the allowance of his application if it appears, after examination or reexamination, that he is entitled to have the mark registered, and a certificate of registration may be issued as provided in § 100.291. The mark will be published in the Official Gazette when registered.

§ 100.154 *Jurisdiction over published or allowed applications.* After publication or allowance the Examiner may exercise jurisdiction over an application by special authority from the Commissioner.

Amendments may be made after the allowance of an application if the certificate has not been printed, on the recommendation of the Examiner approved by the Commissioner, without withdrawing the allowance.

CLASSIFICATION

§ 100.161 *Classification of goods and services.* There is established, for convenience of administration, the following classification of goods and services. Such classification shall not limit or extend the applicant's rights.

Class and Title

1 Raw or partly prepared materials.
2 Receptacles.
3 Baggage, animal equipments, portfolios, and pocketbooks.
4 Abrasive, detergent, and polishing materials.
5 Adhesives.

(60 Stat. 427; 15 U. S. C. 1112)

§ 100.162 *Plurality of goods or services comprised in single class may be covered by single application.* A mark may be registered on a single application for a plurality of goods, or for a plurality of services, comprised in a single class, provided the particular description of each of the goods or services be stated and the mark has actually been used on or in connection with all of the goods, or in connection with all of the services specified.

§ 100.163 *Original application must be limited to goods or services comprised in a single class.* When a single application is filed to register a mark for both goods and services or for goods or services in a plurality of different classes, registration will be refused, and the applicant will be required to restrict the application to goods or services comprised in a single class.

§ 100.164 *Applications may be combined.* When several applications have been filed by the same applicant for registration on the same register of the identical mark on goods in different classes, or services in different classes, and each of the applications has been allowed, a single certificate based on such several applications may be issued. For the purpose of issuing such single certificate, a copy of the written applications, combined as a single application eliminating unnecessary repetition, must be filed in one of such applications.

The issuance of any original certificate may be suspended upon request of the applicant, for a period not exceeding six months to permit such consolidation.

CONTESTED OR INTER PARTES PROCEEDINGS

§ 100.181 *Contested or inter partes proceedings.* Contested or inter partes cases or proceedings comprise (a) interferences between pending applications or between registrations and pending applications, which are instituted by the Examiner of Trade-Marks, (b) opposition proceedings, which are instituted on the filing of a notice of opposition against a mark published for opposition, (c) cancellation proceedings, which are instituted on the filing of a petition to cancel a registration, and (d) concurrent use proceedings, which are instituted upon diving notice to the users named in an application to register as concurrent user.

INTERFERENCE

§ 100.191 *Interferences.* Whenever application is made for registration on the Principal Register of a mark which so resembles a mark previously registered by another, or for the registration of which another has previously made application, as to be likely, when applied to the goods or when used in connection with the services of the applicant, to cause confusion or mistake or to deceive purchasers, an interference may be declared to exist. An interference will not be declared between two applications or an application and a registration unless the junior party alleges in his application a date of use prior to the filing date of the senior party. No interference shall be declared between an application and the registration of a mark the right to the use of which has become incontestable, nor with respect to registrations or applications to register on the Supplemental Register.

§ 100.192 *Preliminary to interference.* Before the declaration of interference, all preliminary questions must have been settled by the Examiner of Trade-Marks and the interfering marks which are to form the subject matter of the controversy must have been decided to be registrable, and at least one of them must have been published in the Official Gazette.

The Examiner of Trade-Marks may require an applicant to put his application in condition for publication or allowance, within a time specified, not less than thirty days, in order that an interference may be declared. If any such applicant fails to put his application in condition for publication or allowance within the time specified, the declaration of interference will not necessarily be delayed, but after final judgment the application of such applicant will be held for revision or restriction, subject to interference with other applications or registrations.

Whenever it shall be found that two or more parties whose interests are in conflict are represented by the same attorney, the Examiner of Trade-Marks shall notify each of said parties and also the attorney of this fact.

§ 100.193 *Declaration of interference.* An interference is declared and instituted by the mailing of notices of interference to each of the parties by the Examiner of Interferences, which notices shall have been prepared by the Examiner of Trade-Marks. The notices shall be sent to all the parties, in care of their attorneys, if they have an attorney of record, and if one of the parties is a registrant, a notice shall also be sent to him or his assignee of record. The notice to each party shall give the name and address of the adverse party and of his attorney, if any, together with the serial number and date of filing and

publication, if published, of each of the applications or registration involved.

§ 100.194 *Motions to dissolve interference.* Motions to dissolve an interference upon the ground that no interference in fact exists, or that there has been such irregularity in declaring the same as will preclude a proper determination of the right of registration, or that an applicant's mark is not registrable, and all other motions of a similar character, shall contain a full statement of the grounds relied upon and shall be made not later than forty days after the notices of interference have been mailed. Such motions, if in proper form, will be transmitted to the Examiner of Trade-Marks for determination, and the parties will be so notified. If the motion is not in proper form or if it is not brought within the time specified and no satisfactory reason is given for the delay, it will not be considered, and the parties will be so notified. Transmitting such a motion for determination will act as a stay of proceedings pending the determination of the motion.

§ 100.195 *Decision on motion to dissolve.* The decision of the Examiner of Trade-Marks upon a motion for dissolution will be binding upon the Examiner of Interferences unless reversed or modified on appeal. Appeal may be taken to the Commissioner from a decision granting a motion to dissolve. No appeal may be had from a decision denying a motion to dissolve, but the question may be reviewed by the Commissioner on appeal from the final decision of the Examiner of Interferences.

§ 100.196 *Burden of proof.* The party whose application or registration involved in the interference has the latest filing date is the junior party and will be regarded as having the burden of proof.

Motions to shift the burden of proof shall be made within forty days from the mailing of the notices of interference and will be determined by the Examiner of Interferences. No appeal from the decision on such motion will be entertained, but the matter may be reviewed by the Commissioner on appeal from the final decision of the Examiner of Interferences.

§ 100.197 *Motion to add.* An applicant or registrant involved in an interference may, not more than forty days after the notices of interference have been mailed, bring a motion to add to the interference any other application or registration which he may own. The procedure affecting such motion will be the same as that hereinabove set forth on motions to dissolve.

§ 100.198 *Adding party to interference.* If, during the pendency of an interference, another case appears involving substantially the same registrable subject matter, the Examiner of Trade-Marks may request the suspension of the interference for the purpose of adding said case. Such suspension will be granted as a matter of course by the Examiner of Interferences if no testimony has been taken. If, however, any testimony has been taken, a notice for the proposed new party disclosing the issue in interference and the names and addresses of the interferants and of their attorneys, and notices for the interferants disclosing the name and address of the said party and his attorney, shall be prepared by the Examiner of Trade-Marks and forwarded to the Examiner of Interferences, who shall make such inquiries as are deemed necessary to determine the question of admissibility of the new party. If the Examiner of Interferences be of the opinion that the interference should be suspended and a new party added, he shall prescribe the terms for such suspension.

OPPOSITION

§ 100.201 *Time for filing notice of opposition.* Any person who believes that he would be damaged by the registration of a mark upon the Principal Register may, upon payment of the required fee, oppose the same by filing a verified notice of opposition in the Patent Office within thirty days after the publication (§ 100.151) of the mark sought to be registered.

§ 100.202 *Extension of time.* A request to extend the time for filing a notice of opposition must be received before the expiration of forty days from the date of publication. Any such request must show good cause for the extension and specify the period of extension desired.

§ 100.203 *Notice filed by attorney.* An unverified notice of opposition may be filed by a duly authorized attorney, but such opposition will be null and void unless verified by the opposer within thirty days after such filing, or within such further time after such filing as may be fixed by the Commissioner upon request made before the expiration of said thirty days.

§ 100.204 *Contents of notice of opposition.* The notice of opposition must allege facts tending to show why the opposer would be damaged by the registration of the opposed mark and state the specific grounds for opposition. A duplicate copy of the notice of opposition and two specimens (or facsimiles) of the mark as actually used by the opposer, if there be such, shall be filed.

§ 100.205 *Institution of opposition.* When a notice of opposition is filed, the Examiner of Trade-Marks shall inform the party filing the same of the receipt thereof and, if regularly filed, shall transmit it to the Examiner of Interferences.

The Examiner of Interferences shall prepare a notice disclosing the name and address of the opposer, and of his attorney, if he has such, and designate a time, not less than thirty days from the date of such notice, within which answer must be filed. Copies of this notice shall be forwarded to the parties in care of their attorneys, if they have attorneys of record. The duplicate copy of the notice of opposition and one of the specimens (or facsimiles), if there be such, shall be forwarded with the notice to the party against whom the opposition is filed.

CANCELLATION

§ 100.211 *Time for filing petition for cancellation.* Any person who believes that he is or will be damaged by a registration may, upon payment of the required fee, apply to the Commissioner to cancel said registration. Such petition may be made at any time in the case of registrations on the Supplemental Register or under the act of 1920, or registrations under the act of 1881, 21 Stat. 502–504 (references to this law are subsequently made by "act of 1881") or the act of 1905 which have not been republished under section 12 (c) of the act (§ 100.301), and in cases involving the grounds specified in section 14 (c) and (d) of the act. In all other cases such petition must be made within five years from the date of registration of the mark under the act of 1946 or from the date of republication under section 12 (c) of the act.

§ 100.212 *Petition for cancellation.* The petition to cancel must allege facts tending to show why the petitioner believes he is or will be damaged by the registration, state the specific grounds for cancellation, and indicate the respondent party to whom notice shall be sent. The petition must be verified by the petitioner. A duplicate copy of the petition, an abstract of title of the mark sought to be cancelled or an order for a title report for Office use, and two specimens (or facsimiles) of the mark actually used by the petitioner, if there be such, shall be filed with the petition.

A petition to cancel filed by the Federal Trade Commission under section 14 (c) or section 14 (d) of the act need not show or allege that the petitioner is or will be damaged, and a fee is not required for filing such petition.

§ 100.213 *Notice of filing of petition.* When a petition for cancellation is filed, it shall be transmitted to the Examiner of Interferences, who shall make examination thereof to determine if it is formally correct. If he be of the opinion that the petition is defective as to form, he shall so advise the party filing the same and set a time for correcting the informality.

When the petition is correct as to form, the Examiner of Interferences shall prepare a notice disclosing the name and address of the petitioner and of his attorney, if he has such, and designate a time, not less than thirty days from the date of the notice, within which an answer must be filed. Copies of this notice shall be forwarded to the registrant as well as to his attorney if there be such, and to the petitioner. The duplicate copy of the petition for cancellation and one of the specimens (or facsimiles), if there be such, shall be forwarded with the notice to the registrant whose registration is sought to be cancelled.

APPLICATION FOR REGISTRATION AS CONCURRENT USER

§ 100.221 *Application to register as concurrent user.* An application for registration as a lawful concurrent user will be examined in the same manner as other applications for registration. When it is determined that the mark is ready for publication or allowance, except for questions relating to concurrent registration, the applicant may be required to furnish as many copies of his written application, specimens and drawing, as may be necessary. The Examiner of Trade-Marks shall prepare notices for the applicant and for each applicant, registrant, or user specified in the application for registration as a concurrent user. Such notices for the specified parties shall give the name and address of the applicant and of his attorney, if any, together with the serial number and filing date of the application.

The notices shall be sent by the Examiner of Interferences to each of the parties, in care of their attorneys, if they have attorneys of record, and if one of the parties is a registrant, a notice shall also be sent to him or his assignee of record. A copy of the application shall be forwarded with the notices to the parties specified in the application. An answer to the notice is not required in the case of an applicant or registrant whose application or registration is specified in the application to register as concurrent user but a statement may be filed if desired; an answer is required in the case of other parties specified in the application to register as concurrent user and a time, not less than thirty days from the date of the notice, within which such answer must be filed will be designated in the notice.

Subsequent proceedings shall follow the practice in interferences, the applicant for concurrent registration, or the one having the latest filing date if there be more than one such applicant, having the burden of proof in the first instance.

PROCEDURE IN CONTESTED OR INTER PARTES PROCEEDINGS

§ 100.231 *Federal rules of civil procedure.* Except as otherwise provided, procedure and practice in contested or inter partes proceedings shall be governed by the rules of civil procedure for the District Courts of the United States wherever considered applicable and appropriate.

Any junior party in an interference, the opposer in an opposition proceeding, the petitioner in a cancellation proceeding, and the applicant to register as a concurrent user, shall be deemed to be in the position of plaintiff, and the other parties to such proceedings in the position of defendants with respect thereto. The notice of opposition and the petition to cancel, and the answers thereto, correspond to complaint and answer; there are no equivalent pleadings in interferences and in concurrent use proceedings when no answer is required, the issues in such cases being determined by the respective applications or registrations involved. The taking of testimony and the final hearing correspond to trial, and the assignment of times for taking testimony and for final hearing to setting a case for trial.

§ 100.232 *Undelivered Office notices.* When the notices sent by the Patent Office to any registrant are returned to the Office undelivered, or when one of the parties resides abroad and his representative in the United States is unknown, additional notice may be given by publication in the Official Gazette for such period of time as the Commissioner may direct.

§ 100.233 *Service of papers.* Every paper filed in the Patent Office in contested cases, including appeals, must be served upon the other parties as provided by § 1.154 (b) of this chapter except the notices of interference (§ 100.193), the notice of opposition (§ 100.205), the petition for cancellation (§ 100.213), the notices of a concurrent use proceeding (§ 100.221), and the copies of the testimony (§ 100.236), which are mailed by the Patent Office. Proof of such service must be made before the paper will be considered by the Office. A statement signed by the attorney, attached to or appearing on the original paper, when filed clearly stating the time and manner in which service was made will be accepted as prima facie proof of service.

§ 100.234 *Assignment of times for taking testimony and of date of final hearing.* Times will be assigned for the taking of testimony in behalf of each of the parties, and no testimony shall be taken except during the times assigned. If there be more than two parties to an interference, the times for taking testimony will be so arranged that each shall have an opportunity to prove his case against prior parties, to rebut their evidence, and to meet the evidence of junior parties.

The times will ordinarily be assigned in the notices sent by the Patent Office in interferences and in concurrent use proceedings, and in a notice sent after the answers have been filed in cases of opposition and cancellation. The time for final hearing will be set in the same notices. If either party desires an extension of the time assigned to him for taking testimony he may apply therefor as provided in § 1.154 (d) of this chapter.

§ 100.235 *Testimony in contested or inter partes cases.* Testimony in contested or inter partes proceedings shall be taken and filed in accordance with the provisions of §§ 1.154 to 1.161, inclusive, of this chapter, and these sections shall apply to trade-mark cases. (R. S. 4905; 35 U. S. C. 53)

§ 100.236 *Copies of testimony.* In addition to the original transcripts of the testimony, three or more copies of the record of each party must be filed, two for the use of the Patent Office and one for each of the opposing parties. These records may be submitted either in printed or typewritten form. They must include the testimony presented by the party filing the same, and shall be certified to as being true copies. Each record must contain an index of the names of the witnesses, giving the pages where their examination and cross-examination begin, and an index of the pages where exhibits are offered in evidence and of the pages where copies of papers and documents introduced as exhibits are shown when such exhibits are copied in the record; the names of the witnesses must appear at the top of the pages over their testimony, and the pages must be consecutively numbered.

The copies of the record for the party in the position of plaintiff must be filed not less than seventy days before the day for final hearing and in the case of parties in the position of defendants not less than fifty days.

When the copies of the record are submitted in printed form, they shall be printed in 11-point type and adequately leaded; the paper must be opaque and unglazed; the size of the page shall be 7⅝ by 10¼ inches; and the size of the printed matter shall be 4⅛ by 7⅛ inches. Twenty-five additional copies for the United States Court of Customs and Patent Appeals, should appeal be taken, may also be filed; if no such appeal be taken, the twenty-five copies will be returned to the party filing them.

When the copies of the record are submitted in typewritten form, they must be clearly legible copies on opaque, unglazed, durable paper 8½ by 11 inches in size. The typing shall be on one side of the paper, in not smaller than pica type, and double-spaced with a margin of 1½ inches on the left hand side of the page. The sheets shall be bound at their left edges in a volume or volumes of convenient size provided with covers. Multigraphed or otherwise reproduced copies conforming to the same standards specified for typewritten copies will be accepted as typewritten.

The testimony of any party failing to supply copies of his record as specified may be refused consideration.

§ 100.237 *Allegations in application not evidence on behalf of applicant.* The allegation of dates of use in the application for registration of the applicant or registrant cannot be used as evidence in behalf of the party making the same.

§ 100.238 *Motions.* Motions shall be made in writing and shall contain a full statement of the grounds therefor. Oral hearings will not be held on motions except on order of the Examiner having jurisdiction. Briefs in support of or in opposition to motions shall be filed on dates set by the Examiner of Interferences and, if not so filed, consideration thereof may be refused.

Petitions for reconsideration or modification of the decision must be filed within twenty days after the decision or before the time for appeal expires.

Appeal must be taken, in the case of such decisions as are appealable, within the time limit set in the decision, or within twenty days if no time limit is set.

§ 100.241 *Briefs at final hearings.* Briefs at final hearings shall be submitted in printed form, except that where not in excess of thirty typewritten pages and in any other case where satisfactory reason therefor is shown, they may be submitted in typewritten form. If submitted in printed form, they shall be the same in size and the same as to page and print as is specified for printed copies of testimony. Typewritten briefs shall conform to the requirements for typewritten copies of testimony, except that legal size paper may be used and the binding and covers specified are not required. The brief of a party in the position of plaintiff shall be be filed not less than forty days, and that of a party

in the position of a defendant not less than twenty days, prior to the hearing. Reply briefs, if filed, shall be due not less than ten days before the hearing.

§ 100.242 *Final hearing.* Final hearings will be had by the Examiner of Interferences at the time stated in the notice. If either party in a contested case appear at the proper time, he will be heard. If the Examiner of Interferences is prevented from hearing the case at the time specified for the hearing, a new assignment will be made, or the case will be continued from day to day until heard. Unless otherwise permitted, oral arguments will be limited to one-half hour for each party. Petitions for rehearings or modifications of the decision must be filed before the time for appeal expires.

Hearings may be advanced or adjourned, as far as is convenient and proper, to meet the wishes of the parties and their attorneys.

§ 100.243 *New matter suggested by Examiner of Trade-Marks.* If, during the pendency of a contested or inter partes case, facts appear which in the opinion of the Examiner of Trade-Marks render the mark of any applicant involved unregisterable, the attention of the Examiner of Interferences shall be called thereto. The Examiner of Interferences may suspend the proceeding and refer the case to the Examiner of Trade-Marks for his determination of the question of registrability, and the proceeding shall be dissolved or continued in accordance with such determination. The consideration of such facts by the Examiner of Trade-Marks shall be inter partes.

§ 100.244 *Failure to take testimony.* Upon the filing of an affidavit by any party in the position of a defendant, that the time for taking testimony on behalf of any party in the position of plaintiff has expired and that no testimony has been taken by him and no other evidence offered, an order may be entered that such party show cause within a time set therein, not less than ten days, why judgment should not be rendered against him, and in the absence of a showing of good and sufficient cause judgment may be rendered as by default.

§ 100.245 *Amendment of application or registration during proceedings.* An application involved in a contested proceeding may not be amended, nor may a registration be amended or disclaimed in part, except upon the written consent of the other party or parties and the approval of the Examiner of Interferences, or except upon motion duly brought and considered.

§ 100.246 *Surrender or cancellation of registration.* If a registrant involved in a contested proceeding applies to surrender or cancel his registration, under section 7 (d) of the act, and such action is permitted, the proceeding may be terminated or continued on such terms as may be appropriate.

§ 100.247 *Abandonment of application, abandonment or disclaimer in whole of mark, concession of priority.* If an applicant involved in a contested proceeding files a written abandonment of the application, or abandonment of the mark, or if a registrant applies to disclaim the mark in whole under section 7 (d) of the act and such disclaimer is permitted, or if a party to an interference files a written concession of priority, judgment may be entered against said party; the proceeding will not be dismissed or dissolved at the request of said party unless with the consent of the other parties.

APPEALS

§ 100.261 *Ex parte appeals to the Commissioner from the Examiner of Trade-Marks.* Every applicant for the registration of a mark may, upon final refusal by the Examiner of Trade-Marks, appeal to the Commissioner in person upon payment of the prescribed fee. A second refusal on the same grounds may be considered as final by the applicant for purpose of appeal. Appeal may also be taken to the Commissioner from the refusal by the Examiner of Trade-Marks to accept an affidavit filed under section 8 of the act or to renew a registration.

§ 100.262 *Time and manner of ex parte appeals.* Such appeal must be taken within six months from the date of the action appealed from and must be accompanied by a statement of the reasons therefor. The Examiner shall, within thirty days therefrom, furnish the Commissioner with a written statement of the grounds of his decision, supplying a copy to the applicant. The date for hearing will be fixed by the Commissioner in each case and the brief of the appellant shall be due on or before the day of the hearing. Cases which have been heard and decided by the Commissioner will not be reopened except by his order.

§ 100.263 *Appeal to the Commissioner from decision of Examiner of Interferences.* Any party to an interference, opposition, cancellation, or a concurrent use proceeding may appeal, stating the reasons therefor, from the final decision of the Examiner of Interferences to the Commissioner in person within the time limit, not less than thirty days, prescribed in the decision, or, if no time limit is prescribed, within thirty days, upon payment of the prescribed fee. The date for hearing will be fixed by the Commissioner in each case. Appellants shall file briefs not less than forty days before the hearing, and appellees shall file briefs not less than twenty days before the hearing; reply briefs, if filed, shall be due not less than ten days before the hearing. Briefs and hearings on appeal shall be subject to §§ 100.241 and 100.242 insofar as applicable.

§ 100.264 *Appeal to court.* Any applicant for registration, any registrant who has filed an affidavit under section 8 of the act, or any party to an inter partes proceeding, who is dissatisfied with the decision of the Commissioner, may appeal to the United States Court of Customs and Patent Appeals or may proceed under section 4915, Revised Statutes (U. S. Code, Title 35, sec. 63), as in the case of applicants for patents, under the same conditions, rules and procedure as are applicable in the case of patent appeals or proceedings. (See §§ 1.148 to 1.150 of this chapter and the rules of the United States Court of Customs and Patent Appeals.)

PETITION TO THE COMMISSIONER

§ 100.271 *Petition to the Commissioner.* Petition may be filed with the Commissioner from any repeated action or requirement of the Examiner of Trade-Marks which is not subject to appeal and in other appropriate circumstances. Such petition, and any other petition which may be filed, must contain a statement of the facts involved and the point or points to be reviewed. Briefs or memoranda, if any, in support thereof should accompany or be embodied in the petition. The Examiner may be directed by the Commissioner to furnish a written statement setting forth the reasons for his decision upon the matters averred in the petition, supplying a copy thereof to the petitioner. Oral hearing will be granted only in the discretion of the Commissioner. No fee is required for such a petition. The mere filing of a petition will not stay the period of six months for replying to an Examiner's action as provided in § 100.122 nor act as a stay of other proceedings.

CERTIFICATE

§ 100.291 *Certificate.* When the requirements of the law and of the rules have been complied with, and the Patent Office has adjudged a mark registrable, a certificate will be issued to the effect that the applicant has complied with the law and that he is entitled to registration of his mark on the Principal Register or on the Supplemental Register as the case may be. The certificate will state the date on which the application for registration was filed in the Patent Office, the act under which the mark is registered, the date of issue and the number of the certificate. Attached to the certificate and forming a part thereof will be a copy of the drawing of the mark and a printed copy of the written statement and declaration. A notice of the affidavit requirement of section 8 (a) of the act (§ 100.321) will be attached to the certificate.

Certificates are numbered in consecutive order, those issued under the acts of 1905 and 1920 continuing the series of numbering heretofore employed; those issued under the act of 1946 begin with number 500,001.

REPUBLICATION OF MARKS REGISTERED UNDER 1905 ACT

§ 100.301 *Republication requirements.* A registrant of a mark registered under the provisions of the acts of 1881 or 1905 may, at any time prior to the expiration of the period for which the registration was issued or renewed, upon the payment of the prescribed fee, file an affidavit setting forth those goods stated in the registration on which said mark is in use in commerce which may lawfully be regulated by Congress, specifying the nature of such commerce, and stating that the registrant claims the benefits of the Trade-Mark Act of 1946. An abstract of title or an order for a title report for Patent Office use shall accompany the affidavit.

Such marks may, in lieu of republication under this rule, be reregistered in accordance with § 100.311 at the option of the registrant.

§ 100.302 *Republication in Official Gazette.* A notice of the claim of benefits under the act of 1946 and a reproduction of the mark will then be published in the Official Gazette as soon as practicable. The republished mark will retain its original registration number.

§ 100.303 *Notice of republication.* A notice of such republication of the mark and of the requirement for the affidavit specified in section 8 (b) of the act (§ 100.321) will be sent to the registrant.

§ 100.304 *Not subject to opposition; subject to cancellation.* The republished mark is not subject to opposition on such publication in the Official Gazette but is subject to petitions to cancel as specified in § 100.211 and to cancellation for failure to file the affidavit specified in § 100.321.

REREGISTRATION OF MARKS REGISTERED UNDER PRIOR ACTS

§ 100.311 *Reregistration of marks registered under acts of 1881, 1905 and 1920.* Trade-marks registered under the act of 1881, the act of 1905 or the act of 1920 may be reregistered under the act of 1946, either on the Principal Register, if eligible, or on the Supplemental Register, but a new complete application for registration must be filed complying with the rules relating thereto, and such application will be subject to examination and other proceedings in the same manner as other applications filed under the act of 1946.

See § 100.66 for use of old drawing.

CANCELLATION FOR FAILURE TO FILE AFFIDAVIT DURING SIXTH YEAR

§ 100.321 *Cancellation for failure to file affidavit during sixth year.* Any registration under the provisions of the act of 1946 and any registration republished under the provisions of section 12 (c) of the act (§ 100.301) shall be cancelled at the end of six years following the date of registration or the date of such republication, unless within one year next preceding the expiration of such six years the registrant shall file in the Patent Office an affidavit showing that said mark is still in use or showing that its nonuse is due to special circumstances which excuse such nonuse and is not due to any intention to abandon the mark.

§ 100.322 *Requirements for affidavit.* The affidavit required by § 100.321 must:

(a) Be executed by the registrant after expiration of the five-year period;

(b) Identify the certificate of registration by the certificate number and date of registration;

(c) Recite sufficient facts to show that the mark described in the registration is still in use, specifying the nature of such use, or recite sufficient facts to show that its nonuse is due to special circumstances which excuse such nonuse and is not due to any intention to abandon the mark; and

(d) Be accompanied by an abstract of title or an order for a title report for Office use.

§ 100.323 *Acknowledgment of receipt of affidavit.* The registrant will be notified by the Examiner of Trade-Marks of the receipt of the affidavit and, if satisfactory, of its acceptance.

§ 100.324 *Reconsideration of affidavit.* If the affidavit is insufficient, the registrant will be notified of the reasons by the Examiner. Reconsideration of such refusal may be requested within six months from the date of the mailing of the notice. The request for reconsideration must state the reasons therefor; a supplemental or substitute affidavit required by section 12 (c) of the act cannot be considered unless it is received before the expiration of six years from the date of the registration, or from the date of republication.

See §§ 100.261, 100.262 and 100.264 for appeal.

§ 100.325 *Time of cancellation.* If no affidavit is filed, the registration will be cancelled forthwith by the Commissioner after the end of the sixth year, and a notice of the cancellation will be sent to the registrant. If the affidavit is filed but is refused, cancellation of the registration will be withheld pending further proceedings.

AFFIDAVIT FOR INCONTESTABILITY

§ 100.331 *Affidavit for incontestability.* The affidavit required by section 15 of the act for acquiring incontestability for a mark registered on the Principal Register or a mark registered under the act of 1881 or 1905 and republished under section 12 (c) of the act (§ 100.301) must:

(a) Be signed by the registrant;

(b) Identify the certificate of registration by the certificate number and date of registration;

(c) Recite the goods or services stated in the registration on or in connection with which the mark has been in continuous use for a period of five years subsequent to the date of registration or date of republication under section 12 (c) of the act, in commerce which may lawfully be regulated by Congress and is still in use in such commerce, specifying the nature of such commerce;

(d) Specify that there has been no final decision adverse to registrant's claim of ownership of such mark for such goods or services, or to registrant's right to register the same or to keep the same on the register;

(e) Specify that there is no proceeding involving said rights pending in the Patent Office or in a court and not finally disposed of;

(f) Be filed within one year after the expiration of any such five year period.

The registrant will be notified of the receipt of the affidavit.

§ 100.332 *Combined with other affidavits.* The affidavit filed under section 15 of the act for the purpose of acquiring incontestability may also be used as the affidavit required by section 8, provided it also complies with the requirements and is filed within the time limit specified in §§ 100.321 and 100.322.

In appropriate circumstances the affidavit filed under section 15 of the act may be combined with the affidavit required for renewal of a registration (see § 100.353).

CORRECTION, DISCLAIMER, SURRENDER, ETC.

§ 100.341 *New certificate on change of ownership.* In case of change of ownership of a registered mark, a new certificate of registration may be issued in the name of the assignee for the unexpired part of the original period, at the request of the assignee. The assignment must be recorded in the Patent Office and the request must be accompanied by the required fee and by an abstract of title or an order for a title report for Office use.

§ 100.342 *Surrender, cancellation, disclaimer in whole.* The Commissioner may permit any registration to be surrendered or cancelled, or any registered mark to be disclaimed in whole, upon application by the registrant. Application for such action must be signed by the registrant and must be accompanied by the required fee, and by an abstract of title or an order for a title report for Office use.

§ 100.343 *Amendment and disclaimer in part.* The Commissioner may permit any registration to be amended or any registered mark to be disclaimed in part, upon application by the registrant. Application for such action must specify the amendment or disclaimer and be signed by the registrant, and must be accompanied by the required fee and by an abstract of title or an order for a title report for Office use. The certificate of registration or, if said certificate is lost or destroyed, a certified copy thereof, must also be submitted in order that the Commissioner may make appropriate entry thereon and in the records of the Office. The registration when so amended must still contain registrable matter and the mark as amended must be registrable as a whole, and such amendment or disclaimer must not involve such changes in the registration as to alter materially the character of the mark.

Changes in the description of goods other than in the nature of deletions will not be permitted except under the provisions of § 100.345. No amendment seeking the elimination of a disclaimer will be permitted.

A printed copy of the amendment or disclaimer shall be attached to each printed copy of the registration.

§ 100.344 *Correction of Office mistake.* Whenever a material mistake in a registration, incurred through the fault of the Patent Office, is clearly disclosed by the records of the Office, a certificate stating the fact and nature of such mistake, signed by the Commissioner and sealed with the seal of the Patent Office, shall be issued without charge and recorded and a printed copy thereof shall be attached to each printed copy of the registration certificate and such corrected certificate shall thereafter have the same effect as if the same had been originally issued in such corrected form, or in the discretion of the Commissioner

a new certificate of registration may be issued without charge.

§ 100.345 *Correction of mistake by registrant.* Whenever a mistake has been made in a registration and a showing has been made that such mistake occurred in good faith through the fault of the applicant, the Commissioner may issue a certificate of correction, or in his discretion, a new certificate upon the payment of the required fee, provided that the correction does not involve such changes in the registration as to require republication of the mark.

Application for such action must specify the mistake for which correction is sought and the manner in which it arose, show that it occurred in good faith, be signed by the applicant, and be accompanied by the required fee and by an abstract of title or an order for a title report for Office use.

A printed copy of the certificate of correction shall be attached to each printed copy of the registration.

TERM AND RENEWAL

§ 100.351 *Term of original registrations and renewals.* Registrations under the act of 1946, whether on the Principal Register or on the Supplemental Register, remain in force for twenty years, and may be renewed for periods of twenty years from the expiring period unless previously cancelled, disclaimed in whole, or surrendered.

Registrations under the acts of 1905 and 1881 remain in force for their unexpired terms and may only be renewed in the same manner as registrations under the act of 1946.

Registrations under the act of 1920 which were issued on or before January 5, 1928, expire on January 5, 1948, and such registrations issued after January 5, 1928, expire twenty years from their date of issue. Such registrations cannot be renewed unless renewal is required to support foreign registrations and in such case may be renewed on the Supplemental Register in the same manner as registrations under the act of 1946.

§ 100.352 *Period within which application for renewal must be filed.* An application for renewal may be made by the registrant at any time within six months before the expiration of the period for which the certificate of registration was issued or renewed, or it may be made within three months after such expiration on payment of the additional fee required.

§ 100.353 *Requirements of application for renewal.* The application for renewal must be accompanied by:

(a) An affidavit by the registrant stating that the mark is still in use in commerce which may lawfully be regulated by Congress, specifying the nature of such commerce. This affidavit must be executed not more than six months before the expiration of the registration.

(b) The required fee, including the additional fee required in the case of a delayed application for renewal.

The affidavit and the fee must accompany the application for renewal and therefore must be filed within the period provided for applying for renewal. If defective or insufficient, they cannot be completed after the period for applying for renewal has passed; if completed after the initial six-month period has expired but before the expiration of the three-month delay period, the application can be considered only as a delayed application for renewal.

The application for renewal must also include:

(c) An abstract of title or an order for a title report for Office use.

(d) If the applicant is not domiciled in the United States, the designation of some person resident in the United States on whom may be served notices or process in proceedings affecting the mark.

(e) If the mark is registered under the act of 1920, a verified showing that renewal is required to support foreign registrations.

§ 100.354 *Refusal of renewal.* If the application for renewal is incomplete or defective, the renewal will be refused by the Examiner of Trade-Marks. The application may be completed or amended in response to a refusal, subject to the provisions of §§ 100.122 and 100.353.

See §§ 100.261 and 100.262 for appeal.

ASSIGNMENT OF MARKS

§ 100.361 *Requirements for assignments.* A mark which has been registered or a mark for which an application for registration has been filed shall be assignable with the good will of the business in which the mark is used, or with that part of the good will of the business connected with the use of and symbolized by the mark.

Such assignments shall be by instruments in writing duly executed. Acknowledgment as provided by section 11 of the act shall be prima facie evidence of the execution of an assignment and when recorded in the Patent Office the record shall be prima facie evidence of execution. No assignment will be recorded unless it has been executed and unless:

(a) The certificate of registration is identified in the assignment by the certificate number (the date of registration should also be given), or, the application for registration shall have been first filed in the Patent Office and the application is identified in the assignment by serial number (the date of filing should also be given);

(b) It is in the English language or, if not in the English language, accompanied by a sworn translation;

(c) The fee for recording is received; and

(d) An appointment of a resident agent is made in case the assignee is not domiciled in the United States. The appointment must be separate from the assignment and there must be a separate appointment for each registration or application assigned in one instrument.

The date of record of the assignment is the date of the receipt of the assignment at the Patent Office in proper form and accompanied by the full fee for recording.

§ 100.362 *Action may be taken by assignee of record.* Any action which may or must be taken by a registrant or applicant may be taken by the assignee, provided the assignment has been recorded, and unless such assignment has been recorded no assignee will be recognized.

§ 100.363 *Certificate of registration may issue to assignee.* The certificate of registration may be issued to the assignee of the applicant, but the assignment must first be entered of record in the Patent Office as of a date not later than the fourth Thursday before the date the certificate of registration is to bear. See § 100.152.

UNPROVIDED FOR AND EXTRAORDINARY CASES

§ 100.381 *Cases not specifically defined.* All cases not specifically defined and provided for in this part will be decided in accordance with the merits of each case under the authority of the Commissioner, and such decision will be communicated to the interested parties in writing.

§ 100.382 *Commissioner may suspend certain rules.* In an extraordinary situation, when justice requires and no other party is injured thereby, any requirement of this part not being a requirement of statute may be suspended or waived by the Commissioner.

AMENDMENT OF RULES

§ 100.391 *Amendments to rules will be published.* All amendments to this part will be published in the Official Gazette and in the FEDERAL REGISTER.

§ 100.392 *Publication of notice of proposed amendments.* Whenever required by law, and in other cases whenever practicable, notice of proposed amendments to this part will be published in the FEDERAL REGISTER and in the Official Gazette. If not published with the notice, copies of the text will be furnished to any person requesting the same. All comments, suggestions, and briefs received within a time specified in the notice will be considered before adoption of the proposed amendments which may be modified in the light thereof.

Oral hearings may be held at the discretion of the Commissioner.

TIME OF TAKING EFFECT

§ 100.401 *Effective date of rules.* This part, except § 100.44, shall take effect on July 5, 1947, and shall apply to all applications for registration, registrations, and proceedings under and subject to the act of 1946. Applications filed prior to July 5, 1947, and still subject to the acts under which said applications were filed shall be prosecuted and certificates granted in accordance with the act under which filed and the rules thereunder in effect immediately prior to July 5, 1947 (37 CFR, Part 5).

This part shall apply to contested or inter partes proceedings instituted on or after July 5, 1947, and also to further inter partes action in such cases pending on July 5, 1947, except to the extent that in the opinion of the Commissioner their application to a particular case pending when this part takes effect would not be feasible or would work injustice, in which event the rules in effect immediately prior to July 5, 1947, shall apply to such case.

Section 100.44 shall take effect on January 1, 1948.

APPLICATIONS PENDING ON JULY 5, 1947

§ 100.411 *Conversion of pending applications to act of 1946.* Applications for registration filed before July 5, 1947, and pending in the Patent Office on and after that date may be amended, if practicable, to bring them under the provisions of the act of 1946.

§ 100.412 *Requirements of amendment.* Such amendment must supply the facts required by this part to be included in the statement of an original application which are not contained in the statement on file, supported by a supplemental affidavit including any required averments which are not contained in the original declaration. The amendment is subject to all rules in this part relating to or affecting amendments and must not be inconsistent with the original statement and declaration. The amendment may take the form of a substitute written application and in any case the Examiner may require the amended application to be rewritten.

The entire filing fee required for an original application under the act of 1946 must be paid, but the filing fee previously paid will be considered as part payment of such filing fee.

For the purpose of proceedings in the Patent Office, the date of filing the amendment will be considered as the filing date of the application; for the purpose of contested proceedings, the applicant may be permitted to rely on the filing date of his original application, provided the mark was registrable under the act on which the original application was based.

§ 100.413 *Applications which cannot be amended.* An amendment to bring an application under the act of 1946 will not be considered:

(a) If the application is abandoned at the time the amendment is filed;

(b) If the application is under rejection or other action by the Examiner and the appropriate response thereto is not received within the time for response, in which case the mere filing of the proposed amendment will not avoid abandonment of the application;

(c) If filed after the notice of allowance has been sent; and

(d) In any other case if, from the nature of the particular amendment or the condition of the application, it is not practicable.

NOTE: The following forms illustrate the manner of preparing applications for registration of marks and various papers in trade-mark cases, to be filed in the Patent Office. Applicants and other parties will find their business facilitated by following them. These forms should be used in cases to which they are applicable. A sufficient number of representative forms are given which, with the variations indicated by the notes, should take care of all the usual situations. In special situations such alterations as the circumstances may render necessary may be made provided they do not depart from the requirements of this part or the statute. Before using any forms the pertinent rules and sections of the statute should be studied carefully.

PART 21—INTERNATIONAL POSTAL SERVICE

SERVICE TO FOREIGN COUNTRIES; INCREASED MAIL SERVICE TO GERMANY

The regulations under the country "Germany" (39 CFR, Part 21, Subpart B—Service to Foreign Countries), as amended (12 F. R. 706, 1604, 3305), are further amended as follows:

1. Change paragraph (a) (12 F. R. 1604, 3305) to read:

Restricted resumption of mail service to all of Germany. (a) Effective at once ordinary letters weighing not in excess of one pound and containing merchandise, restricted to gifts and samples, illustrated post cards not of a fascist or subversive character, and non-illustrated post cards, may be accepted for transmission either by surface means or air to all of Germany. Mail service to all zones of Germany also is extended to include printed matter for the blind, not in excess of the weight specified in paragraph (h). Letters written in Braille, and not exceeding the present weight limit of 1 pound may be accepted for mailing to all zones of Germany. Letters in Braille and printed matter for the blind will be subject to the regulations concerning the character of correspondence which may be sent to Germany. The regular rates for sealed letters, and printed matter for the blind, will apply to these articles when sent by surface means. If sent by air the postage rate and weight limit for air mail will apply. Envelopes must not have any innerlining nor carry any indication other than the address of the sender and addressee and necessary postal directions.

2. Change paragraph (b) (12 F. R. 706) to read as follows:

(b) Communications are restricted for the present to the following: (1) to those of a personal or family character; (2) documents, such as birth, death, or marriage certificates, wills, and legal notices; (3) business communications of a non-transactional nature limited to the ascertainment of facts and exchange of information, except information regarding German external assets; and (4) commercial correspondence relating to and implementing such transactions as may be legal under laws and regulations of the Allied Control Authority, Military Government law, and German law, provided that all external values resulting from any transactions shall accrue to the accounts of the respective military governments concerned. Responsibility for compliance with these regulations and laws will rest with the mailer.

3. Change paragraph (c) (12 F. R. 706) to read as follows:

(c) Except as provided in paragraph (b) the closing of business deals and contracts by mail will not be permitted. Correspondence regarding German external assets, even if only of a simple informational character, is prohibited. The enclosure of checks, drafts, securities, or currency in letters to civilians and commercial firms is prohibited; remittances in connection with any transactions, together with correspondence respecting the final arrangements, must be handled in accordance with procedures prescribed by the headquarters of the respective military governments.

4. Amend paragraph (h) (3) (12 F. R. 706) to read as follows:

(3) Parcels must not exceed 22 pounds in weight, or measure more than 36 inches in length or 72 inches in length and girth combined.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

This amendment shall be effective June 15, 1947.

[SEAL] J. M. DONALDSON,
Acting Postmaster General.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 728]

WHEAT

NOTICE OF PROPOSED PROCLAMATION WITH RESPECT TO NATIONAL ACREAGE ALLOTMENT AND MARKETING QUOTA FOR 1948 CROP

Pursuant to Title III of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. and Sup., 1301-1393), the Secretary of Agriculture is required by section 332 thereof to proclaim not later than July 15, the national acreage allotment for the 1948 crop of wheat. In preparing to issue such proclamation the Secretary has under consideration sections 304 and 371 (b) of the act, which provide that the marketing quota provisions thereof shall not be invoked or continued in effect with respect to any one of the several commodities to which farm marketing quotas are applicable in case the Secretary finds a suspension or termination of the provisions necessary to protect consumers or to meet a national emergency.

Any persons interested in the proclamation to be made by the Secretary may submit their views thereon in writing to the Director, Grain Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than June 30, 1947.

Issued at Washington, D. C., this 16th day of June 1947.

[SEAL] RALPH S. TRIGG,
Deputy Administrator.

HOME WORKERS IN INDUSTRIES IN PUERTO RICO OTHER THAN NEEDLEWORK INDUSTRIES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that 30 days from publication hereof in the FEDERAL REGISTER the Administrator of the Wage and Hour Division, United States Department of Labor, intends to adopt the regulations hereinafter set forth. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C. Four copies of all written material should be submitted. The proposed regulations are to be issued under the authority contained in sections 6 (a) (5) and 11 (c) of the Fair Labor Standards Act of 1938 (sec. 3 (f), 54 Stat. 616, sec. 11 (c), 52 Stat. 1066; 29 U. S. C. 206 (a) (5), 211 (c)).

PART 681—REGULATIONS RELATING TO HOME WORKERS IN INDUSTRIES IN PUERTO RICO OTHER THAN NEEDLEWORK INDUSTRIES

Sec.
681.1 Applicability.
681.2 Definitions.
681.3 Filing and notification requirements.
681.4 Ticket to be affixed to each lot of goods.
681.5 Delivery and collection of goods.
681.6 Payment for work.
681.7 Records to be kept.

Sec.
681.8 Maintenance of records.
681.9 Minimum piece rates prescribed by the Administrator.
681.10 Piece rates adopted by employers.
681.11 Penalties.
681.12 Petition for amendment of regulations in this part.

§ 681.1 *Applicability.* The provisions of this part shall apply to persons engaged in activities relating to home workers in industries in Puerto Rico other than the needlework industries.[1]

§ 681.2 *Definitions.* The following words, terms, and phrases as used in this part shall have the meaning ascribed to them in this section except when the context clearly indicates a different meaning; *Provided, however,* That the following definitions shall not be construed in any way to restrict the meaning of such words, terms, or phrases as are defined in section 3 of the act.

(a) "Employer" includes any natural or artificial person who, for his own account or benefit, or on behalf of any person residing outside the Island of Puerto Rico, directly or indirectly, or through an employee, agent, subcontractor, or any other person:

(1) Delivers, or causes to be delivered, any goods to be processed or fabricated in a home and thereafter to be returned or thereafter to be disposed of or distributed in accordance with his directions; or

(2) Sells any goods for the purpose of having such goods processed or fabricated in a home and then rebuys such goods after such processing or fabricating either himself or through some other person.

(b) "Subcontractor" includes any person, who, for the account or benefit of an employer, delivers to a home worker goods to be processed or fabricated in a home and thereafter to be returned in accordance with the direction of such employer.

(c) "Employ" includes to suffer or permit to work.

(d) "Home" includes any room, house, apartment, or other premises used regularly in whole or in part as a dwelling place.

(e) "Home worker" includes any employee performing in a home any operation on goods produced for commerce, provided that such work is not performed under either actively or personally regulated or supervised conditions.

(f) "Operation" means any work or any process other than the distribution of goods to or collection of goods from home workers.

§ 681.3 *Filing and notification requirements.* Every employer prior to the distribution of work to any home worker shall file with the Wage and Hour Division in Puerto Rico:

(a) A design, pattern, diagram, photograph, or sample of the product, together with such other description or illustration of the product as he, upon inquiry at the Wage and Hour Division in Puerto Rico, may be requested to submit; and

(b) A description in writing of each operation to be performed by any home worker, together with the full piece rate schedule designation, if any, prescribed in accordance with § 681.9, the corresponding piece rates to be paid for each such operation, and the style numbers, if any, of the goods upon which the operations are to be performed.

§ 681.4 *Tickets to be affixed to each lot of goods.* Every employer shall make up the goods to be delivered to a subcontractor into a bundle or lot, each lot to comprise goods on which the same operations are to be performed. Every employer shall affix to each such lot of goods a ticket which shall be numbered serially and contain the name of such employer. The serial numbers of such tickets shall run from the number one and be prefixed by the number of the permit issued to such employer by the Department of Labor of Puerto Rico.[2] The subcontractor shall return the ticket with the lot to the employer. All goods specified on the ticket shall be returned to the employer at one time except when special permission is obtained from the Wage and Hour Division for subcontractors to return part of the goods. In each such case, a partial delivery ticket shall be made out and later filed with the original lot ticket when the remaining goods specified thereon are returned.

§ 681.5 *Delivery and collection of goods.* All goods for production in a home shall be personally distributed to and collected from the home worker who is to work on the goods, either directly at the factory or by employees expressly employed by an employer or subcontractor to distribute and collect such goods outside the factory.

§ 681.6 *Payment for work.* When an employer receives goods on which work has been completed, he shall pay immediately the home worker or subcontractor, as the case may be, for such work provided that in cases where payment is made to a subcontractor, the home worker shall be paid within seven days after such subcontractor has collected the goods from such home worker. Payment shall be made to each home worker at rates not less than those required under §§ 681.9 and 681.10, and in accordance with the requirements of sections 6 and 7 of the act.

§ 681.7 *Records to be kept.* (a) Every employer shall make and have available at his principal Puerto Rican office, a record of the following information: [3]

(1) The name and address of each firm situated outside the Island of Puerto Rico, if any, from whom the goods in each lot for delivery to a home worker were received.

(2) The monthly total of goods received and shipped by him with a description thereof and the total cost of labor performed thereon by home workers with a description of the operations performed in connection therewith.

(3) The name and address of each subcontractor, if any, to whom each lot of goods was delivered for delivery to home workers, together with the number of the permit issued to such subcontractor by the Department of Labor of Puerto Rico.

(4) The dates upon which each lot of goods was delivered to and returned by a subcontractor, if any, together with a description of such goods, the net amount paid as commission and the rate of commission on such goods.

(5) The ticket number of the ticket affixed to each lot of goods.

(6) The dates upon which the goods in each lot were delivered to and collected from each home worker.

(7) The name and address of each home worker, and the date of birth of each home worker under 19, to whom the goods in each lot were delivered.

(8) The style number, if any, description of, and amount of goods in each lot, the operations to be performed thereon, together with the piece rate to be paid and the net amount actually paid each home worker for the operations performed upon such goods.

(9) The date or dates upon which each home worker was paid for operations performed on the goods in each lot.

(b) At the time work is given out to or received from a home worker, as the case may be, every employer shall enter the following information in the handbook (to be obtained by the employer from the Wage and Hour Division and supplied by him to each homeworker) which shall be kept by the home worker:

(1) The dates upon which the goods in each lot were delivered to and collected from the home worker.

(2) The style number, if any, description of, and amount of goods in each lot, the operations to be performed thereon, together with the piece rate to be paid and the net amount actually paid the home worker for the operations performed upon such goods.

(3) The date or dates upon which the homeworker was paid for operations performed on the goods in each lot.

(4) The signature of the person acting in behalf of the employer.

(c) No employer shall employ any home worker for more than 40 hours in any workweek unless, in addition to the records which he is required to keep pursuant to paragraphs (a) and (b) of this section, such employer makes and keeps available at his principal Puerto Rican office and enters in the handbook of each such home worker a record of the following information:

(1) The hours worked by the home worker on the goods in each lot of work returned;

(2) The total hours worked each week;

(3) The wages paid the home worker each week at regular piece rates; and

(4) The extra amount paid to the homeworker for hours worked in excess of 40 in each week.

§ 681.8 *Maintenance of records.* Every employer shall keep and preserve for a period of not less than two years at his place of business the records required above. All such records shall be open at any time to inspection and transcription by the Administrator or his authorized representative.

§ 681.9 *Minimum piece rates prescribed by the Administrator.* Pursuant to the provisions of section 6 (a) (5) of the act, in the event that a home worker is to perform an operation for which a minimum piece rate has been prescribed by regulation or order of the Administrator or his authorized representative, he shall be paid not less than such prescribed rate, in lieu of the applicable hourly rate established by any wage order.

§ 681.10 *Piece rates adopted by employers.* Pursuant to the provisions of section 6 (a) (5) of the act, in the event that a home worker is to perform an operation for which no minimum piece rate has been prescribed by regulation or order of the Administrator or his authorized representative, he shall be paid a piece rate adopted by the employer which shall yield to home workers of ordinary skill, under prevalent operating conditions and with equipment ordinarily found in homes, an amount not less than the applicable minimum hourly wage rate established by wage order. No employer shall adopt such a piece rate until he has first notified the Division of his intention to establish a rate for such operation, the rate fixed and the basis on which the piece rate has been computed. Such an employer piece rate shall be lawful only if it actually satisfies the requirements of this section, and such a rate shall remain in effect only until such time as the Administrator or his authorized representative, by regulation or order, establishes a minimum piece rate for such operation.

§ 681.11 *Penalties.* Section 15 of the act makes it unlawful for any person to violate the provisions of this part and subjects any such person to the penalties provided by section 16 and section 17 of the act.

§ 681.12 *Petition for amendment of regulations in this part.* Any person wishing a revision of any of the terms of this part may submit in writing to the Administrator or his authorized representative a petition setting forth the changes desired and the reasons for proposing them. If, upon inspection of the petition, the Administrator or his authorized representative believes that reasonable cause for amendment of the regulations in this part is set forth, the Administrator or his authorized representative will either schedule a hearing with due notice to interested parties, or will make other provision for affording interested parties an opportunity to present their views, either in support of or in opposition to the proposed changes.

Signed this 12th day of June 1947.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

[1] Persons engaged in activities relating to home workers in the needlework industries in Puerto Rico are subject to Part 545 of this chapter.

[2] Thus, if the permit is 56, the serial numbers on the ticket would run, 56-1, 56-2, etc.

[3] Although responsibility for keeping the record is placed upon the employer, the actual work of making the record may, of course, be delegated to supervisory or clerical employees, agents, subcontractors, or other persons acting in behalf of the employer.

[4] Such piece rates are subject to Part 531 of this chapter.

Foreign-Trade Zones Board

[Order No. 15]

NEW YORK FOREIGN-TRADE ZONE OPERATORS, INC., ET AL.

APPROVAL OF CERTAIN OPERATIONS

In the matter of certain appeals taken by the New York Foreign Trade Zone Operators, Inc., et al., from rulings of the Commissioner of Customs with reference to operations permitted by section 3 of the Foreign-Trade Zones Act (Dockets Nos. 1 to 6, inclusive).

Pursuant to the authority contained in the act of June 18, 1934 (48 Stat. 998; 19 U. S. C. 81-a–81-u), the Foreign-Trade Zones Board has adopted the following order which is promulgated for the information and guidance of all concerned:

S. H. Pomerance & Co., Inc., duly filed with this board, its appeal, designated as Docket No. 1, and the New York Foreign Trade Zone Operators, Inc., on behalf of itself and certain zone users, duly filed with this Board, its appeals, designated as Dockets Nos. 2 to 6, inclusive, from rulings of the Commissioner of Customs denying applications for permission to conduct the following operations in the New York Foreign-Trade Zone under section 3 of the above-cited act:

Docket No. 1. Fitting imported watch movements into domestic cases.

(a) Where operation consists of drilling hole in case for winding stem, cutting stem to fit crown, affixing crown to stem, and fitting movement in case.

(b) Where operation consists of cutting stem to fit crown, affixing crown to stem, and fitting movement in case.

(c) Where operation consists of fitting movement into case without drilling or cutting described above.

Docket No. 2. Combining imported olive oil with domestic vegetable oils.

Docket No. 3. Attaching domestic wrist bands to imported watch heads.

Docket No. 4. Combining imported sugar and shortening with domestic flour and salt.

Docket No. 5. Screwing imported flashlight bulbs into domestic flashlight cases.

Docket No. 6. Dyeing textiles imported in the gray.

Accordingly, after full consideration, it is hereby ordered as follows:

1. The action of the Commissioner of Customs in denying the applications for permission to conduct the operations set forth above as involved in Dockets Nos. 1 to 5, inclusive, is overruled and such operations are hereby approved.

2. Action on Docket No. 6 is deferred pending receipt of more specific information as to the nature of the operations involved.

3. The Executive Secretary is directed to notify the appellants, the Commissioner of Customs and other interested parties of the action above taken.

This order is effective June 12, 1947.

FEDERAL COMMUNICATIONS COMMISSION

KGRI, HENDERSON, TEX

PUBLIC NOTICE CONCERNING PROPOSED ASSIGNMENT OF PERMIT [1]

The Commission hereby gives notice that on June 6, 1947 there was filed with it an application (BAPL–27) for its consent under section 310 (b) of the Communications Act to the proposed assignment of permit of KGRI, heretofore granted to Goggan Radio Sales, a partnership, consisting of Benjamin F. Goggan, Jr. and Howard E. Dennis to Henderson Broadcasting Corporation, Henderson, Texas. The proposal to assign the permit arises out of a contract of April 22, 1947 pursuant to which the assignee would pay to the assignor partnership the $1000 outlayed by it in connection with obtaining the construction permit and an additional $3500 for properties paid for by assignor as well as any additional sums paid for by it in the construction of the station, said latter amount to be paid upon approval of the application. Further information as to the arrangements may be found with the application and associated papers which are on file at the offices of the Commission in Washington, D. C.

Pursuant to § 1.321 which sets out the procedure to be followed in such cases including the requirement for public notice concerning the filing of the application, the Commission was advised by applicant on June 3, 1947 that starting on June 10, 1947 notice of the filing of the application would be inserted in the Henderson Daily News, a newspaper of general circulation at Henderson, Texas in conformity with the above section.

[1] Section 1.321, Part 1, Rules of Practice and Procedure.

In accordance with the procedure set out in said section, no action will be had upon the application for a period of 60 days from June 10, 1947 within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above described contract.

KGGF, COFFEYVILLE, KANS.

PUBLIC NOTICE CONCERNING PROPOSED ASSIGNMENT OF LICENSE

The Commission hereby gives notice that on June 2, 1947 there was filed with it an application (BAL–609) for its consent under section 310 (b) of the Communications Act to the proposed assignment of license of KGGF, Coffeyville, Kansas, from Hugh J. Powell to The Midwest Broadcasting Company, Inc. The proposal to assign the license arises out of a contract of May 9, 1947 pursuant to which Hugh J. Powell, seller, agrees to sell and The Midwest Broadcasting Company, buyer, agrees to buy the tangible physical assets both real and personal of station KGGF, Coffeyville, Kansas, for a total consideration of $400,000 to be paid as follows: $80,000 cash to be paid before the filing of the instant application and the balance to be paid at date of closing either in cash or by notes at seller's option with satisfactory security. From the application and the associated papers it would appear to be the intent of the parties that buyer will prosecute the application (BMP–2021) for changes in facilities including reimbursement to seller for amounts expended pursuant thereto between April 1, 1947 and the closing date. Further information as to the arrangements may be found with the application and associated papers which are on file at the offices of the Commission in Washington, D. C.

Pursuant to § 1.321 which sets out the procedure to be followed in such cases including the requirement for public notice concerning the filing of the application, the Commission was advised by application on June 4, 1947 that starting on June 10, 1947 notice of the filing of the application would be inserted in The Coffeyville Daily Journal, a newspaper of general circulation at Coffeyville, Kansas, in conformity with the above section.

In accordance with the procedure set out in said section, no action will be had upon the application for a period of 60 days from June 10, 1947 within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above described contract.

(1) By order adopted May 13, 1947, in the above-entitled matter, a hearing was fixed to begin at 10:00 a. m. (e. d. s. t.) on July 14, 1947, in Court Room No. 2, Post Office and Court House Building, Albany, New York. The Commission finds that:

(2) In order to accommodate those witnesses who reside in the watershed of the Sacandaga River and upper Hudson River, it would be in the public interest to convene the hearing at a place nearer the residences of such witnesses. *It is ordered*, That:

(3) The aforesaid May 13, 1947, order be and it is hereby modified to change the place of hearing therein designated from Court Room No. 2, Post Office and Court House Building, Albany, New York, to Supreme Court Chambers, Suite 37, Colvin Building, 206 Glen Street, Glens Falls, New York, such hearing to begin at 10:00 a. m. (e. d. s. t.) on Monday, July 14, 1947.

Date of issuance: June 13, 1947.

By the Commission.

[Docket No. G–908]

INTERSTATE GAS CO. AND CITIES SERVICE GAS CO.

NOTICE OF APPLICATION

JUNE 13, 1947.

Notice is hereby given that on June 9, 1947, Interstate Gas Company (Interstate), a Missouri corporation with its principal place of business at Lee's Summit, Missouri, and Cities Service Gas Company (Cities Service), a Delaware corporation with its principal place of business at Oklahoma City, Oklahoma, filed a joint application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Cities Service to acquire and operate the following facilities of Interstate, to wit:

A transmission pipeline system generally described as follows: Commencing at a point at the town border of the town of Holden, Johnson County, Missouri and extending westerly in a northwesterly direction to the town of Kingsville, then in a westerly and northerly direction and extending to the town of Pleasant Hill, in Cass County, Missouri and Lone Jack in Jackson County, Missouri. Also four town border stations, one located at or near the town border of Holden, one at or near the town border of Kingsville, one at or near the town border of Pleasant Hill and one at or near the town border of Lone Jack, Missouri, together with meters and other facilities and equipment located therein and used in the measurement of gas for distribution in the distribution system of said four towns;

A transmission pipeline described generally as follows: Commencing at a point near the town border of Harrisonville, in Cass County, Missouri, extending in a westerly direction to a point approximately 8 miles west of Harrisonville and thence in a southerly direction to the town border of Freeman, Missouri; also two town border measuring stations, one at or near the town border of Harrisonville, Missouri and one at or near the town border of Freeman, Missouri, together with meters and other equipment therein and used in the measurement of gas for distribution in said towns of Harrisonville and Freeman, Missouri.

Cities Service further requests in the aforesaid application, a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of the following facilities:

Approximately one mile of 6-inch gas pipeline extending from a point on Applicant's transmission system near the northeast corner of section 32, Township 45 North, Range 32 West, Cass County, Missouri, thence south to approximately the southeast corner of said section.

The transmission pipelines which Interstate proposes to sell to Cities Service are being operated by Interstate under a

certificate of public convenience and necessity issued by the Commission on October 5, 1943, and as modified on January 9, 1945 (Docket Nos. G-243 and G-363). Interstate is desirous of confining its future operations to the distribution and sale of gas at retail by means of the operation of its distribution plants in the several cities, towns and communities served by it; of selling and transferring to Cities Service for a consideration of $90,000 of all its gas transmission facilities and town border measuring stations as described above; and upon such sale and transfer to discontinue that part of its business consisting of the transportation of natural gas from the points of connection on its pipelines with the pipeline systems of Panhandle Eastern Pipe Line Company and Cities Service Gas Company to the town borders of the several towns and communities hereinbefore mentioned and thereafter purchase its gas requirements for sale in said communities at the town borders thereof.

It is further stated, that Cities Service is better equipped to maintain and operate the transmission lines and to coordinate pressures on lateral lines in the interest of efficiency and public safety than is Interstate; that Panhandle Eastern Pipe Line Company is willing to discontinue supplying gas to that part of the aforesaid transmission pipelines serving the communities of Harrisonville and Freeman, Missouri; that in order to connect the facilities now served by Panhandle Eastern Pipe Line Company with the system of Cities Service it will be necessary for Cities Service to construct approximately one mile of pipeline; that the latter construction will cost an estimated $8,400 and will provide the most efficient and practical means of connecting the facilities serving Harrisonville and Freeman with Cities Service transmission system.

Any interested state commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Rule 37 of the Commission's rules of practice and procedure and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board or a joint or concurrent hearing together with the reasons for such request.

The application of Interstate Gas Company and Cities Service Gas Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946) and shall set out clearly and concisely the facts from which the nature of the petitioner or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of fact or law asserted in the proceeding.

UNITED GAS CORP. AND UNITED OIL PIPE LINE CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 12th day of June A. D. 1947.

United Gas Corporation ("United"), a gas utility subsidiary of Electric Power & Light Corporation, a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, and United's wholly-owned non-utility subsidiary, United Oil Pipe Line Company ("Pipe Line"), having filed a joint declaration pursuant to the Public Utility Holding Company Act of 1935 ("act") in which section 12 (c) of the act and Rule U-46 thereunder are designated as applicable to the following proposed transactions:

The outstanding securities of Pipe Line consist of 5,000 shares of no par value capital stock, all of which are pledged under the Mortgage and Deed of Trust, dated as of October 1, 1944, securing United's outstanding bonds. As of March 31, 1947, Pipe Line's assets consisted solely of cash in the amount of $1,313,360. As of the same date, Pipe Line's liabilities amounted to $112,579 of which $112,079 represented accrued taxes.

Pipe Line will be merged into United pursuant to the provisions of section 58A of Chapter 65 of the Revised Code of Delaware, as amended, and under such merger United will acquire all of the property and assets of Pipe Line and will assume all of its obligations. It is stated in the declaration that, upon consummation of the merger, United will be required to deposit $400,000 in cash with its Mortgage Trustee which amount represents the proceeds from the sale of physical assets by Pipe Line to non-affiliated interests.

The joint declaration having been filed on May 12, 1947 and notice of such filing having been duly given in the manner and form prescribed by Rule U-23 under said act, and the Commission not having received a request for hearing with respect to said joint declaration within the period specified in said notice or otherwise and not having ordered a hearing thereon; and

The Commission finding with respect to said joint declaration that the applicable requirements of the act and the rules thereunder are satisfied and deeming it appropriate in the public interest and in the interest of investors and consumers that said joint declaration be permitted to become effective, and deeming it appropriate to grant the request of declarants that the order herein become effective at the earliest date possible:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act, and subject to the terms and conditions prescribed in Rule U-24, that said joint declaration be, and the same

hereby is, permitted to become effective forthwith.

By the Commission.

SAVINGS BANK INVESTMENT FUND

NOTICE OF APPLICATION, STATEMENT OF ISSUES AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 13th day of June A. D. 1947.

Notice is hereby given that Savings Bank Investment Fund has filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 for an order of the Commission extending the time for applicant to file its registration statement under section 8 (b) of said act to a date no later than three months after the first sale by applicant of any shares of beneficial interest or in the event any general offering of shares is made to all savings banks in Massachusetts as provided for in section 3 of applicant's charter, prior to such general offering.

On April 14, 1947, Savings Bank Investment Fund, a corporation organized pursuant to a special act of the Massachusetts legislature, filed a notification of registration on Form N-8A under section 8 (a) of the Investment Company Act as an open-end diversified management company. Applicant is required to file its Registration Statement on Form N-8B-1 under section 8 (b) of said act within three months after filing of said notification of registration. Applicant requests an extension of time for filing its registration statement. For a more detailed statement of the requested extension all interested persons are referred to said application which is on file in the office of the Commission.

It appearing to the Commission that a hearing upon the application is necessary and appropriate:

It is ordered, Pursuant to section 40 (a) of said act, that, a public hearing on the aforesaid application be held on the 24th day of June 1947, at 10:00 a. m., eastern daylight saving time, in Room 318 of the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

It is further ordered, That Robert P. Reeder, or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing and any officer or officers so designated to preside at such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to trial examiners under the Commission's rules of practice.

The Corporation Finance Division of the Commission has advised the Commission that upon a preliminary examination of the application, it deems the following issues to be raised without prejudice to the specification of additional issues upon further examination.

(1) Whether the requested extension is necessary or appropriate in the public interest and consistent with the protection of investors; and

(2) Whether the requested extension is consistent with the general purposes of the act.

Notice of such hearing is hereby given to the above-named Savings Bank Investment Fund, and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors. Any person desiring to be heard or otherwise wishing to participate in said proceeding should file with the Secretary of the Commission, on or before June 20th, 1947, his application therefor as provided by Rule XVII of the rules of practice of the Commission, setting forth therein any of the above issues of law or fact which he desires to controvert and any additional issues he deems raised by the aforesaid application.

By the Commission.

TRANSIT INVESTMENT CORP.

NOTICE OF APPLICATION, STATEMENT OF ISSUES AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 13th day of June A. D. 1947.

Notice is hereby given that Transit Investment Corporation ("TIC") has filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 ("the act") for an order exempting it from the obligation of transmitting to its stockholders the reports required by the provisions of section 30 (d) of the act and Rule N-30D-1 promulgated thereunder.

Transit Investment Corporation, registered under the act as a non-diversified closed-end company, has outstanding 400,000 shares of common stock and 2,000,000 shares of preferred stock. Section 30 (d) of the act and Rule N-30D-1 require that every registered investment company shall transmit semi-annually certain reports to its stockholders. TIC states that (a) pursuant to an order of the Court of Common Pleas of Philadelphia County in Pennsylvania, it is in the process of dissolution pursuant to a plan approved by order of that court in which it was decreed that the assets of TIC are insufficient to pay in full the claims of the holders of the preferred stock and that the common stockholders are not entitled to share in any distribution of the assets; (b) since the date as of which the latest report was transmitted to security holders it has carried on no corporate operations or activities other than in connection with dissolution and the shareholders of TIC have been kept fully informed by the notices required in the dissolution proceedings, the latest of which was mailed on or about April 1, 1947; (c) the transmission of semi-annual reports to security holders, including common stockholders, will subject TIC to an expense of approximately $2,500 upon each such transmission which, it is urged, will serve no useful purpose. For the foregoing reasons applicants believe that the requested exemption is appropriate.

All interested persons are referred to said application which is on file in the offices of the Commission for a more detailed statement of the proposed transaction and the matters of fact and law asserted.

The Corporation Finance Division of the Commission has advised the Commission that upon a preliminary examination of the application it deems the following issues to be raised thereby without prejudice to the specifications of additional issues upon further examination: (1) Whether the proposed exemption is necessary or appropriate in the public interest, and (2) Whether the proposed exemption is consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the act.

It appearing to the Commission that a hearing upon the application is necessary and appropriate:

It is ordered, Pursuant to section 40 (a) of said act, that a public hearing on the aforesaid application be held on June 19, 1947, at 10:00 a. m., eastern daylight saving time, Room 318 in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pa.

It is further ordered, That Robert P. Reeder, or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to hearing officers under the Commission's rules of practice.

Notice of such hearing is hereby given to the above-mentioned Transit Investment Corporation, and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors. Any person desiring to be heard or otherwise desiring to participate in said proceedings should file with the Secretary of the Commission, on or before June 16, 1947 his application therefor as provided by Rule XVII of the rules of practice of the Commission, setting forth therein any of the above issues of law or fact which he desires to controvert and any additional issues he deems raised by the aforesaid application.

By the Commission.

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product or service;* § 3.6 (y) *Advertising falsely or misleading—Safety.* In connection with the offering for sale, sale and distribution in commerce, of respondents' products designated Rat-Deth, Schutte's Liquid Red Squill, Mouse and Mole Deth, Schutte's Red Squill, and Rat Nip, or any products containing substantially similar ingredients or possessing substantially similar properties, whether sold under the same names or under any other names, representing, directly or by implication, (1) that the product Rat-Deth is an effective killing agent for mice; (2) that rats and mice, after consuming the product Rat-Deth, go outside to die; (3) that mice and moles, after consuming the product Mouse and Mole Deth, go outside to die; (4) that the product Rat Nip, or the product Schutte's Red Squill, will kill all rats on the premises; or, (5) that the product Rat-Deth, or the product Schutte's Liquid Red Squill, is harmless to humans or domestic animals; prohibited, subject to the provision, however, that said last prohibition shall not prohibit respondents from representing that such products are relatively or comparatively harmless. (Sec. 5, 38 Stat. 719 as amended by Sec. 3, 52 Stat. 112; 15 U. S. C., Sec. 45b) [Cease and desist order, Schutte Laboratories, etc., Docket 5382, April 22, 1947.]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 22d day of April A. D. 1947.

In the Matter of Charles W. Schutte and Janet M. Schutte, Copartners Trading as Schutte Laboratories and Schutte Co.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of respondents, testimony and other evidence introduced before a trial examiner of the Commission theretofore duly designated by it, report of the trial examiner and the exceptions thereto, and brief in support of the complaint (no brief having been filed on behalf of respondents and oral argument not having been requested); and the Commission having made its findings as to the facts and its conclusion that the respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondents, Charles W. Schutte and Janet M. Schutte, individually and trading as Schutte Laboratories and as Schutte Co., or trading under any other name, and their agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of respondents' products designated Rat-Deth, Schutte's Liquid Red Squill, Mouse and Mole Deth, Schutte's Red Squill, and Rat Nip, or any products containing substantially similar ingredients or possessing substantially similar properties, whether sold under the same names or under any other names, do forthwith cease and desist from representing, directly or by implication:

1. That the product Rat-Deth is an effective killing agent for mice.

2. That rats and mice, after consuming the product Rat-Deth, go outside to die.

3. That mice and moles, after consuming the product Mouse and Mole Deth, go outside to die.

4. That the product Rat Nip, or the product Schutte's Red Squill, will kill all rats on the premises.

5. That the product Rat-Deth, or the product Schutte's Liquid Red Squill, is harmless to humans or domestic animals; provided, however, that this shall not prohibit respondents from representing that such products are relatively or comparatively harmless.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

TITLE 18—CONSERVATION OF POWER

Chapter I—Federal Power Commission

[Order 138; Docket No. R-103]

PART 01—ORGANIZATION

PART 02—COURSE AND METHOD OF OPERATION

PART 03—SUBSTANTIVE RULES, GENERAL POLICY AND INTERPRETATIONS

PART 1—RULES OF PRACTICE AND PROCEDURE

MISCELLANEOUS AMENDMENTS

JUNE 16, 1947.

In this proceeding the Commission has under consideration amendments to Part 01—Organization, Part 02—Course and Method of Operation, Part 03—Substantive Rules, General Policy and Interpretations, and Part 1—Rules of Practice and Procedure, of the Commission's General Rules, published as Subchapter A of Chapter I, Title 18, Code of Federal Regulations,[1] pursuant to authority vested in the Commission by the Federal Power Act, particularly sections 209 and 309 thereof (49 Stat. 853, 858; 16 U. S. C., Sup. 824h, 825h), and the Natural Gas Act, as amended, particularly sections 16 and 17 thereof (52 Stat. 830, 15 U. S. C., Sup. 717o, 717p).

General public notice of the proposed amendment of the General Rules has been given by publication of notice in the FEDERAL REGISTER on May 2, 1947 (12 F. R. 2960–2966), and by mailing notices to interested persons and State and Federal regulatory agencies. In response to the notice comments were filed containing a number of helpful suggestions for changing and clarifying the language of certain of the amendments proposed; but no comments or objections were filed as to most of the proposed amendments.

Upon consideration by the Commission of the various proposed amendments, comments and suggestions, and the experience acquired to date under the General Rules (including Rules of Practice and Procedure) as prescribed and made effective September 11, 1946 by the Commission's Order No. 132 (11 F. R. 177A, pp. 487–509), the adoption, promulgation and prescription of amendments appear necessary and appropriate for clarifying and improving the General Rules, the Commission's organization, its course and method of operation, and the practice and procedure before it.

In view of the general public notice given of the proposed rule making in this matter and in order to permit early publication in pamphlet form of the Commission's rules of general applicability and effect contained in Chapter I, Title 18 of the Code of Federal Regulations, effective as of July 1, 1947, it is appropriate that the amendments herein adopted and prescribed, become effective and be applicable to proceedings before the Commission initiated on or after July 1, 1947.

The Commission therefore finds that:

(1) Amendment of its General Rules as herein adopted, promulgated and prescribed is necessary and appropriate for carrying out the provisions of the Federal Power Act and the Natural Gas Act, as amended.

(2) It is appropriate that its general rules, as herein amended, be made effective as of July 1, 1947.

Wherefore, the Commission orders that:

(A) Its general rules be and the same are hereby amended to the extent of adding certain new sections and amending certain existing sections, as listed below, of Part 01, Part 02, Part 03, and Part 1 of Subchapter A of Chapter I, Title 18, of the Code of Federal Regulations, so that the said sections read as provided in the accompanying and attached statement, made a part hereof by reference, setting forth in full the effective wording of the following listed new and amended sections of the aforesaid parts of the said chapter and code:

PART 01—ORGANIZATION

Sections:
New: None.
Amended: 01.3, 01.4, and 01.6.

PART 02—COURSE AND METHOD OF OPERATION

Sections:
New: None
Amended: 02.3 and 02.4.

PART 03—SUBSTANTIVE RULES, GENERAL POLICY, AND INTERPRETATIONS

Sections:
New: 03.1, 03.3, 03.51 and 03.53.
Redesignated: 03.1 as 03.2, and 03.51 as 03.52.
Amended: None other than the redesignations listed above.

PART 1—RULES OF PRACTICE AND PROCEDURE

Sections:
New: None.
Amended: 1.1 (c) (3) and (f) (13), 1.4 (a) (4), 1.6, 1.8, 1.9, 1.11 (a) and (d), 1.12, 1.13, 1.15 (b), 1.16, 1.17 (e) and (f), 1.18, 1.19 (a), 1.20 (b) and (k), 1.23 (a), 1.24 (a), (e) and (h), 1.25 (b), 1.26 (a) and (c) (3) through (5), 1.27 (a) and (b), 1.28, 1.29 (e), 1.30 (c) and (d), 1.31 (a), (c), (d) (2), (e), and (f), 1.32 (b).

(B) The said general rules as amended herein, be and the same are hereby promulgated and prescribed to become effective and be applicable to proceedings before the Commission initiated on or after July 1, 1947;

(C) No power, right, obligation or duty in any proceeding initiated prior to July 1, 1947, arising or existing under or by virtue of any provisions of the Commission's General Rules superseded or amended as herein provided, shall be affected thereby; and

(D) The Secretary of the Commission shall cause prompt publication of this order and accompanying new and amended sections of the aforesaid parts and subchapter of Chapter I, Title 18, Code of Federal Regulations, to be made in the FEDERAL REGISTER, and further, shall cause to be made and reproduced a pamphlet publication of the Commission's "General Rules Including Rules of Practice and Procedure (Effective July 1, 1947)" to be effective as to proceedings initiated on or after July 1, 1947, as provided by this order.

The Commission, on June 16, 1947, adopted its Order No. 138, amending the Commission's "General Rules Including Rules of Practice and Procedure," as prescribed and made effective September 11, 1946 by the Commission's Order No. 132, August 23, 1946 (11 F. R. 177A, pp. 487–509). The said "general rules," as amended by Order No. 138, are prescribed to be effective and applicable to proceedings before the Commission initiated on or after July 1, 1947.

[1] The said parts and subchapter referred to of the Code of Federal Regulations correspond to and are contained in the Commission's pamphlet publication of its General Rules, Including Rules of Practice and Procedure (effective September 11, 1946).

PART 01—ORGANIZATION

Sec.	
01.3	Organization. [Amended]
01.4	Delegations of final authority. [Amended]
01.6	Duties of Commission staff groups. [Amended]

NOTE: This part includes, among others, the above listed sections as published in September 11, 1946 issue of the FEDERAL REGISTER pursuant to Commission Order No. 132, August 23, 1946 (11 F. R. 177A, pp. 487–489, 496–497). By Order No. 138, June 16, 1947, the Commission amended §§ 01.3, 01.4, and 01.6, effective July 1, 1947. Only the amended sections are set forth below.

§ 01.3 *Organization.* The staff of the Commission is organized into the following groups, all of which report directly to the Commission:

(a) The Office of the Secretary; the Bureau of Power; the Bureau of Accounts, Finance and Rates; the Bureau of Law; the Division of Examiners; the Publications Division; the Office of the Chief Engineer; the Budget and Fiscal Division; and the Personnel and Administrative Services Division.

(b) The Natural Gas Investigation (Docket No. G-580), which is being conducted by a separate staff unit under a Special Assistant to the Commission, and which is expected to be concluded during the present fiscal year.

§ 01.4 *Delegations of final authority.* The Commission has authorized:

(a) Except as otherwise expressly provided in the Commission's rules and regulations, the Secretary, or in his absence, the Acting Secretary, to receive and pass upon petitions, motions, or requests of electric public utilities, licensees, natural gas companies and other persons for extensions of time for filing required reports, data and information, and for extensions of time for doing other acts required or allowed to be done at or within a specified time by any rule, regulation, license, permit, certificate, or order of the Commission, not to exceed in any event an extension of 60-days beyond the time or period originally prescribed.

(b) The Secretary, or in his absence, the Acting Secretary, to schedule hearings and issue notices thereof.

(c) The Secretary, or in his absence, the Acting Secretary, to accept service of process upon behalf of the Commission.

(d) The Chief of the Bureau of Power to interpret schedules of power system statements of electric utilities (Forms No. 12, etc.) and to obtain supplemental information required to assure complete and adequate statements; and Regional Engineers to grant 30-day extensions of time for filing such statements.

(e) The Chief of the Bureau of Accounts, Finance and Rates to issue interpretations of the Uniform Systems of Accounts for Public Utilities, Licensees, and Natural Gas Companies; to suspend the requirements of Account 901—Charges by Associated Companies; Clearing, of those systems; to interpret schedules of annual reports of electric public utilities, licensees, and natural gas companies (Forms No. 1, 2, etc.) and obtain supplemental information required to assure complete and adequate reports.

(f) The chief examiner and the examiners designated to preside at hearings, to exercise the powers and functions stated and enumerated for presiding officers in the Commission's rules and regulations, particularly its rules of practice and procedure.

§ 01.6 *Duties of Commission staff groups.* The duties of the various groups into which the staff of the Commission is organized are described as follows:

(a) *The Office of the Secretary.* The Office of the Secretary, under the direction of the Secretary, receives, records, assigns, and distributes all matters filed with and brought before the Commission for action. In addition to the duties specified in § 01.4 (a) through (c) above, the Secretary serves the orders, rules, regulations, and notices of Commission action; acts as official liaison officer in contacts between the Commission and the public, parties to proceedings, and public officials. The Office of the Secretary includes a public reference section where official dockets and records are maintained, available for public inspection.

(b) *The Bureau of Power.* The Bureau of Power under the direction of the Chief of the Bureau, performs the engineering phases of the licensed project, electrical, river basin, and projects cost work of the Commission. The duties of the Chief include those specified in § 01.4 (d). The Bureau is composed of four functional divisions, the work of which is described as follows:

(1) *The Licensed Projects Division.* The Licensed Projects Division studies and reports on declarations of intentions, applications for preliminary permits and for licenses for water power projects, and related matters; inspects and reports on the construction, operation, and maintenance of such projects; investigates and reports on unlicensed water power developments; studies and reports on applications for restoration of or rights-of-way over power site lands.

(2) *The Electrical Division.* The Electrical Division studies and reports on power markets, adequacy of power supply, interconnection and coordination of power systems, electrical system planning and related matters; collects and checks power system statements submitted by electric utilities; investigates and reports on the engineering features of applications for the approval of security issues, consolidations, mergers, acquisitions, and property disposals of utilities subject to the jurisdiction of the Commission and the jurisdictional status of electric utility systems; makes electrical studies in connection with Commission approval of rate filings for Federal hydroelectric power projects.

(3) *The River Basin Division.* The River Basin Division studies and reports on the comprehensive utilization of river basins for development of hydroelectric power alone and in connection with flood control, navigation, irrigation, and other beneficial purposes; makes investigations and reports as bases for recommendations to other Federal agencies on provisions for hydroelectric power developments at proposed multiple-purpose projects; and makes hydroelectric studies in connection with the approval of rate filings for Federal power projects.

(4) *The Projects Cost Division.* The Projects Cost Division develops and analyzes detailed factual basic cost data covering the construction, maintenance, and operation of water power plants, fuel plants, and transmission facilities; develops and maintains current detailed costs for use of other groups, including Regional Offices, of the Bureau in the performance of their respective functions; and provides consulting service to other staff groups of the Commission in highly technical cost matters.

(5) *Regional Offices.* Five Regional Offices are operated as part of the Bureau of Power, under the general direction of the Chief of the Bureau. Their locations and the territories they serve are:

(i) Atlanta Regional Office, 428 Grant Building, Atlanta 3, Georgia: Alabama, Florida, Georgia, Kentucky, western half of Mississippi, North Carolina, South Carolina, Tennessee, and Virginia.

(ii) Chicago Regional Office, U. S. Custom House, 610 South Canal Street, Chicago 1, Illinois: Illinois, Indiana, Iowa, Michigan, Minnesota, part of Missouri, North Dakota, South Dakota, Nebraska, and Wisconsin.

(iii) Fort Worth Regional Office, Seventh and Lamar Streets, Fort Worth 2, Texas: Arkansas, Colorado, Kansas, Louisiana, parts of Mississippi and Missouri, New Mexico, Oklahoma, Texas, and Wyoming.

(iv) New York Regional Office, Murray-Park Building, 11 Park Place, New York 7, N. Y.: Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, and West Virginia.

(v) San Francisco Regional Office, Phelan Building, Market and O'Farrell Streets, San Francisco 2, California: Arizona, California, Idaho, Montana, Nevada, Oregon, Utah, and Washington.

Each Regional Office is under the direction of a Regional Engineer, who is responsible for the activities of the Bureau within the particular territory, including cooperation with other governmental agencies in those activities. He is also responsible for the duties specified in § 01.4 (d).

The Regional Office activities include the investigation of proposed multiple-purpose river basin projects; assisting applicants in complying with requirements for preliminary permits and licenses; field supervision of licensed projects; receipt and checking of annual power system statements submitted by electric utilities; power market surveys; reports on power requirements and supply, interconnection and coordination of electric utility systems, and regional power pools; investigation of interruptions to electric service; and representation of the Commission on field committees.

(c) *The Bureau of Accounts, Finance and Rates.* The Bureau of Accounts, Finance and Rates, under the direction of the Chief of the Bureau, performs the accounting, original cost, finance, statistical, rate, and gas certificate phases of the Commission work. The duties of the Chief include those specified in § 01.4 (e). The Bureau is composed of five divisions, the work of which is described as follows:

(1) *The Division of Accounts.* The Division of Accounts performs all work relating to the accounting practices of electric public utilities, licensees, and natural gas companies, with the exception of reviewing reclassification and original cost studies of electric public utilities and natural gas companies and claimed net investment in licensed projects; prepares, reviews, and interprets the Uniform Systems of Accounts for Public Utilities, Licensees, and Natural Gas Companies; makes accounting studies and investigations in rate cases; makes depreciation studies; prepares, reviews, and interprets the annual financial reports prescribed by the Commission; and makes special accounting studies as ordered by the Commission.

(2) *The Division of Original Cost.* The Division of Original Cost reviews, investigates, and reports on the reclassification and original cost studies of electric public utilities and natural gas companies and the disposition of related accounting adjustments; and reviews, investigates, and reports on claimed net investment in licensed projects and the disposition of related accounting adjustments. A section of the Division of Original Cost, located in the San Francisco Regional Office described above, audits and reports on the statements of claimed net investment in licensed projects in the western United States.

(3) *The Division of Finance and Statistics.* The Division of Finance and Statistics analyzes and reports on matters relating to electric utility finance, rate of return, security issues, sales and mergers of electric public utility properties; gathers and publishes financial, rate, cost, production, and other statistical information relating to the electric and natural gas industries.

(4) *The Division of Rates.* The Division of Rates investigates the operations, service lives of property, natural gas reserves, and makes cost allocation studies in rate cases involving electric public utilities, licensees, and natural gas companies; analyzes, reports on and makes recommendations regarding the rate schedules filed by electric public utilities, natural gas companies, and certain Federal hydroelectric power projects, including those under the control of the War Department.

(5) *The Division of Gas Certificates.* The Division of Gas Certificates handles matters relating to applications by natural gas companies and others for certificates of public convenience and necessity and the determination of service areas, the exportation and importation of natural gas, and the jurisdictional status of natural gas companies.

(d) *The Bureau of Law.* The Bureau of Law, under the direction of the General Counsel, performs the legal work related to the activities of the Commission. The Bureau is composed of four divisions, the work of which is described as follows:

(1) *The Electric Power Division.* The Electric Power Division performs the legal work under the Federal Power Act and the duties delegated to the Commission under the Bonneville Act, Tennessee Valley Authority Act, Fort Peck Act, and the other authorizations specified in §§ 01.1 (b) and (c), except those

matters handled by the Hydroelectric Projects Division.

(2) *The Natural Gas Division.* The Natural Gas Division performs the legal work under the Natural Gas Act and the other authorizations conferring duties or jurisdiction upon the Commission with respect to natural gas.

(3) *The Hydroelectric Projects Division.* The Hydroelectric Projects Division performs the legal work under Part I of the Federal Power Act and under the duties delegated to the Commission under the Flood Control Acts and the River and Harbor Acts specified in § 01.1 (b) (other than the determination of net investment in licensed projects, rate and service matters, and security issues of licensees under Part I of the Federal Power Act and rate matters under the Flood Control Act of 1944, which are handled by the Electric Power Division).

(4) *The Interpretative and Research Division.* The Interpretative and Research Division prepares legal interpretations and conducts legal research for the General Counsel and the Bureau generally; assists in the preparation of briefs, regulations, and reports on proposed legislation.

(e) *The Division of Examiners.* The Division of Examiners is under the direction of the Chief Examiner. Examiners, when duly designated, preside at prehearing conferences and make recommendations as to stipulations reached therein by counsel; preside at public hearings, and rule on the admission of evidence and all procedural questions arising in the course of such hearings; hear oral arguments; consider briefs; report to the Commission on the cases heard, and make initial or recommended decisions supported by findings of fact and conclusions of law. When serving as presiding officers, Examiners may exercise the functions specified in § 01.4 (f).

(f) *The Publications Division.* The Publications Division, under the direction of a Special Assistant to the Commission, edits Commission publications and handles their sale and other distribution; prepares and distributes general information concerning the activities of the Commission; and assists the Commission in contacts with the public.

(g) *The Office of the Chief Engineer.* The Office of the Chief Engineer, under the direction of the Chief Engineer, advises the Commission on special engineering matters, including economic studies and reports on the allocation of costs of multiple-purpose water control projects, and advises with the Bureau of Law on special engineering matters in connection with litigation relating to water power projects.

(h) *The Budget and Fiscal Division.* The Budget and Fiscal Division, under the direction of the Chief of the Division, handles all budget, fiscal, and related matters of the Commission; solicits bids, awards contracts, and purchases supplies, equipment and other materials; assists the Commission in contacts with the Bureau of the Budget, the Comptroller General, and the Appropriation Committees of Congress.

(i) *The Personnel and Administrative Services Division.* The Personnel and Administrative Services Division, under the direction of the Chief of the Division, performs all personnel functions for the Commission, including recruitment; and all administrative services, including the preparation of illustrative and duplicative material for the other staff groups of the Commission.

PART 02—COURSE AND METHOD OF OPERATION

FUNCTIONS UNDER PART I OF THE FEDERAL POWER ACT

Sec.
02.3 Preliminary permits. [Amended]
02.4 Licenses. [Amended]

NOTE: This part includes, among others, the above listed sections as published in the September 11, 1946 issue of the FEDERAL REGISTER pursuant to Commission Order No. 132, August 23, 1946 (11 F. R. 177A, pp. 489–495, 496–497). By Order No. 138, June 16, 1947, the Commission amended §§ 02.3 and 02.4, effective July 1, 1947. Only the amended sections are set forth below.

§ 02.3 *Preliminary permits.* (a) The requirements for applications for preliminary permits to maintain priority of applications for license, under section 4 (f) of the act, are stated in §§ 4.80, et seq. and 131.10 of this chapter. Such applications are referred to the Bureau of Power and the Bureau of Law for studies and recommendations. Notice of an application filed by any person, association, or corporation is published in local newspapers in the vicinity of the proposed project and is given to states and municipalities likely to be affected, pursuant to section 4 (f) of the act. After notice, a hearing may be held (See § 02.0). If a permit is authorized, it is issued in the manner provided in § 4.85 of this chapter.

(b) Applications for amendment of preliminary permits are governed by the provisions of § 4.84 of this chapter and are processed in the same manner as initial applications, except that notice is given only of applications involving substantial changes in the proposed plan of development.

(c) Proceedings for the cancellation of a preliminary permit may be initiated by a complaint or by Commission order served on the permittee and interested State agencies and published in the FEDERAL REGISTER. Such order is based on staff studies and recommendations by the Bureau of Power and the Bureau of Law. After notice, a hearing may be held (see § 02.0).

§ 02.4 *Licenses.* (a) The following applications are governed by the requirements of the cited sections of this chapter.

(1) Applications for license for proposed major projects (§§ 4.40, et seq. and 131.2 of this chapter).

(2) Applications for license for constructed major projects (§§ 4.50 et seq. and 131.2 of this chapter).

(3) Applications for amendment of licenses for major projects (§§ 5.1, et seq. and 131.30 of this chapter).

(4) Applications for renewal of licenses for major projects under licenses which expire on specified dates (§ 16.1 of this chapter).

(5) Applications for surrender of licenses for major projects (§§ 6.1, et seq.). Such applications are processed in the manner stated in § 02.3 (a), except those for amendment or surrender of licenses may be acted on by the Commission after thirty (30) days' public notice published in the FEDERAL REGISTER and, if deemed necessary, in local newspapers.

(b) The following applications are processed in the manner stated in § 02.3 (a), except for notice, according to the requirements of the cited sections:

(1) Applications for licenses for minor projects (§§ 4.60 et seq. and 131.6 of this chapter).

(2) Applications for licenses for transmission lines only (§§ 4.70 et seq. and 131.5 of this chapter).

(3) Applications for extension of time for commencing or completing construction of a project (§§ 5.3 and 131.30 of this chapter).

(4) Applications for amendment of licenses for minor projects or transmission lines only (§§ 5.1 et seq. and 131.30 of this chapter).

(5) Applications for approval of transfer of license or lease of project property (§§ 9.1 et seq. and 131.20 of this chapter).

(6) Applications for renewal of licenses for minor projects or transmission lines only under license which expires on a specified date (§§ 16.1 of this chapter).

(7) Applications for approval of plans and exhibits (§§ 5.2 and 131.30 of this chapter).

(8) Applications for surrender of licenses for minor projects or transmission lines only (§§ 6.1 et seq. of this chapter).

(9) Applications for annual licenses (§ 16.1 of this chapter).

(10) Applications concerning a minor part only of a complete project except for transmission lines only (Regulations for similar applications for major projects are applicable).

(c) *Termination of license.* Proceedings for the termination of a license pursuant to section 13 of the act may be initiated by a complaint or by Commission order served on the licensee and interested State agencies and published in the FEDERAL REGISTER. Such order is based on staff studies and recommendations by the Bureau of Power and the Bureau of Law. After notice, a hearing may be held (see § 02.0).

PART 03—SUBSTANTIVE RULES, GENERAL POLICY AND INTERPRETATIONS

SUBSTANTIVE RULES UNDER THE FEDERAL POWER ACT

Sec.

03.52 Uniform system of accounts. [Redesignated]
03.53 Approved forms. [Added]

NOTE: This part as published in the September 11, 1946, issue of the FEDERAL REGISTER pursuant to Commission Order No. 132, August 23, 1946 (11 F. R. 177A, pp. 495–496, 496–497), included, among others, § 03.1

and 03.51, with the headnote "Uniform system of accounts", referring to the systems of accounts prescribed under the Federal Power and Natural Gas Acts, respectively. By Order No. 138, June 16, 1947, the Commission amended Part 03, effective July 1, 1947, to redesignate §§ 03.1 and 03.51 as 03.2 and 03.52, with no change in the headnotes or texts, respectively, and further amended Part 03 to add new §§ 03.1, 03.3, 03.51 and 03.53, as listed above. The new and redesignated sections are set forth below.

SUBSTANTIVE RULES UNDER THE FEDERAL POWER ACT

§ 03.1 *Regulations under the Federal Power Act.* The "Regulations under the Federal Power Act", considered in part substantive and in part procedural, are published as Subchapter B of this chapter.

§ 03.2 *Uniform system of accounts.* The uniform system of accounts prescribed for public utilities and licensees subject to the provisions of the Federal Power Act, is published in Parts 101, 102, and 103 of Subchapter C of this chapter. Other accounting regulations thereunder are published in Parts 104, 116, 120 and 125.

§ 03.3 *Approved forms.* The approved forms, statements, and reports under the Federal Power Act, are listed and described in §§ 02.13 and 02.44 of this subchapter.

SUBSTANTIVE RULES UNDER THE NATURAL GAS ACT

§ 03.51 *Regulations under the Natural Gas Act.* The "Regulations under the Natural Gas Act", considered in part substantive and in part procedural, are published as Subchapter E of this chapter.

§ 03.52 *Uniform system of accounts.* The uniform system of accounts prescribed for natural gas companies subject to the provisions of the Natural Gas Act, is published in Part 201 of Subchapter F of this chapter. Other accounting regulations thereunder are published in Part 221 of this chapter.

§ 03.53 *Approved forms.* The approved forms, statements, and reports under the Natural Gas Act, are listed and described in § 02.73 of this subchapter.

PART 1—RULES OF PRACTICE AND PROCEDURE

The Commission's Order No. 132, August 23, 1946, prescribing "rules of practice and procedure" (§§ 1.0 to 1.37, inclusive), effective September 11, 1946, was published in the FEDERAL REGISTER of the same date (11 F. R. 177A, pp. 496–509). On June 16, 1947 the Commission adopted its Order No. 138, amending its "general rules including Rules of Practice and Procedure", including amendment of the sections listed below, effective July 1, 1947. Each section listed and amended is set forth in full below, except where it is otherwise indicated and there are set forth only the particular paragraphs, subparagraphs or subdivisions as amended of the indicated sections.

NOTE: In the sections listed above (§ 1.1 et al.) the numbers to the right of the decimal point correspond with the respective "rule" numbers in the pamphlet publication of the Commission's "General Rules Including Rules of Practice and Procedure (Effective July 1, 1947)".

§ 1.1 *The Commission.* • • •

(c) *Sessions.* The Commission meets and exercises its powers in any part of the United States. • • •

(3) *Special.* Special sessions of the Commission for consultation, or for the transaction of business, may be held at any time and place as may be scheduled by the Commission.

• • • • •

(f) *Definitions.* As used in this part, except as otherwise required by the context • • •.

(13) *Interveners.* Persons petitioning to intervene as provided by § 1.8, when admitted as a participant to a proceeding, and State Commissions giving notice of intervention as provided in said section, are styled interveners. Admission as an intervener shall not be construed as recognition by the Commission that such intervener might be aggrieved by any order of the Commission in such proceeding.

§ 1.4 *Appearances and practice before the Commission*—(a) *Appearances.* • • •

(4) Any person appearing before or transacting business with the Commission in a representative capacity may be required by the Commission or the presiding officer to file evidence of his authority to act in such capacity.

§ 1.6 *Complaints and orders to show cause*—(a) *Informal complaints*—(1) *Form.* Informal complaints may be made by letter or other writing, and will be filed as received. Matters informally presented will, if their nature so warrants, be taken up by correspondence or conference with the party or parties complained of in an endeavor to bring about satisfaction of the complaint without formal hearing.

(2) *Substance.* No form of informal complaint is prescribed but in substance it should contain the name and address of complainant, the name and address of the party against whom the complaint is made, and a brief statement of the facts forming the basis of such complaint. Although the filing of an informal complaint is without prejudice to complainant's right to file a formal complaint, only formal complaints submitted and prosecuted in the manner prescribed in this section will initiate formal proceedings or make complainant a party to any proceedings already initiated, and only formal complaints will be admitted in the record of formal proceedings. It is desirable that the informal complaint be accompanied by sufficient copies to enable the Commission to transmit one to each party named and to each interested State commission, and retain one for its own use, and it may be accompanied by supporting papers.

(b) *Formal complaints*—(1) *Form.* Formal complaints shall be in writing and under oath and shall conform to the requirements of §§ 1.15 and 1.16. In such complaints there shall be stated the names and addresses of all parties, complainant and defendant, in full without abbreviations, with the name and address of each complainant's attorney, if any.

(2) *Substance.* Formal complaints shall be so drawn as fully and completely to advise the parties, defendant and the Commission of the facts constituting the grounds of the complaint, the provisions of statutes, rules, regulations, and orders relied upon, involving authority of the Commission, the injury complained of, and the relief sought.

(c) *Joinder.* Two or more grounds of complaint involving the same purposes, subject, or state of facts, may be included in one complaint, but should be separately stated and numbered; and two or more complainants may join in one complaint if their respective causes of complaint are against the same defendant or defendants, and involve substantially the same purposes and subject, and a like state of facts.

(d) *Orders to show cause.* Whenever the Commission desires to institute a proceeding against any person under statutory or other authority, the Commission may commence such action by an order to show cause setting forth the grounds for such action. Said order will contain a statement of the particulars and matters concerning which the Commission is inquiring, which shall be deemed to be tentative and for the purpose of framing issues for consideration and decision by the Commission in the proceeding, and the order will require that the respondent named respond orally, or in writing (as provided in § 1.9 (c)), or both.

§ 1.8 *Intervention*—(a) *Initiation of intervention.* Participation in a proceeding as an intervener may be initiated as follows:

(1) By the filing of a notice of intervention by a State Commission, including any regulatory body of the State or municipality having jurisdiction to regulate rates and charges for the sale of electric energy, or natural gas, as the case may be, to consumers within the intervening State or municipality.

(2) By order of the Commission upon petition to intervene.

(b) *Who may petition.* A petition to intervene may be filed by any person claiming a right to intervene or an interest of such nature that intervention is necessary or appropriate to the administration of the statute under which the proceeding is brought. Such right or interest may be:

(1) A right conferred by statute of the United States;

(2) An interest which may be directly affected and which is not adequately represented by existing parties and as to which petitioners may be bound by the Commission's action in the proceeding (the following may have such an interest: consumers served by the applicant, defendant, or respondent; holders of securities of the applicant, defendant, or respondent; and competitors of the applicant, defendant, or respondent).

(3) Any other interest of such nature that petitioner's participation may be in the public interest.

(c) *Form and contents of petitions.* Petitions to intervene shall set out clearly and concisely the facts from which the nature of the petitioner's alleged right or interest can be determined, the grounds of the proposed intervention, and the position of the petitioner in the proceeding, so as fully and completely to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of fact or law asserted in the proceeding, and citing by appropriate reference the statutory provisions or other authority relied on. They shall in other respects comply with the requirements of §§ 1.15 and 1.16.

(d) *Filing and service of petitions.* Petitions to intervene and notices of intervention shall be filed with the Commission within the time provided in any notice of the proceeding or in the order fixing date of hearing, but not less than 10 days before the date set for the commencement of the hearing, if any, except as otherwise specifically permitted by the Commission in extraordinary circumstances for good cause shown. Service shall be made as provided in § 1.17. Where a person has been permitted to intervene notwithstanding his failure to file his petition within the time prescribed in this paragraph, the Commission or presiding officer may, where the circumstances warrant, admit any exhibit in evidence without requiring additional copies thereof to be produced for such intervener.

(e) *Answers to petitions.* Any party to the proceeding or staff counsel may file an answer to a petition to intervene, and in default thereof, may be deemed to have waived any objection to the granting of such petition. If made, answers shall be filed within 10 days after the date of service of the petition, but not later than 5 days prior to the date set for the commencement of the hearing, if any, unless for cause the Commission with or without motion shall prescribe a different time. They shall in all other respects conform to the requirements of § 1.15 to 1.17, inclusive.

(f) *Notice and action on petitions*—(1) *Notice and service.* Petitions to intervene, when tendered to the Commission for filing, shall show service thereof upon all participants to the proceeding in conformity with § 1.17 (b).

(2) *Action on petitions.* As soon as practicable after the expiration of the time for filing answers to such petitions or default thereof, as provided in paragraph (e) of this section, the Commission will grant or deny such petition in whole or in part or may, if found to be appropriate, authorize limited participation. No petitions to intervene may be filed or will be acted upon during a hearing unless permitted by the Commission after opportunity for all parties to object thereto. Only to avoid detriment to the public interest will any presiding officer tentatively permit participation in a hearing in advance of, and then only subject to, the granting by the Commission of a petition to intervene.

(g) *Limitation in hearings.* Where there are two or more interveners having substantially like interests and positions, the Commission or presiding officer may, in order to expedite the hearing, arrange appropriate limitations on the number of attorneys who will be permitted to cross-examine and make and argue motions and objections on behalf of such interveners.

§ 1.9 *Answers*—(a) *Answers to formal complaints and petitions.* Answers to formal complaints and petitions, other than petitions to intervene, shall be filed with the Commission within 30 days after the date of service, unless for cause the Commission with or without motion shall prescribe a different time, but in no case shall answer be required in less than 10 days after the date of service. Any defendant failing to file answer within such period shall be deemed in default, and all relevant basic facts stated in such complaint or petition may be deemed admitted. All answers shall be in writing and under oath, and so drawn as fully and completely to advise the parties and the Commission as to the nature of the defense. They shall admit or deny specifically and in detail each material allegation of the pleading answered, and state clearly and concisely the facts and matters of law relied upon. They shall conform to the requirements of §§ 1.15 to 1.17, inclusive.

(b) *Answers to petitions to intervene.* See § 1.8 (e).

(c) *Answers to orders to show cause.* Any person upon whom an order to show cause has been served under § 1.6 shall, if directed so to do, respond to the same by filing within the time specified in said order an answer in writing and under oath. Such answer shall be drawn so as specifically to admit or deny the allegations or charges which may be made in said order, set forth the facts upon which respondent relies, and state concisely the matters of law relied upon. Mere general denials of the allegations of said order unsupported by specific facts upon which respondent relies will not be considered as complying with the order and may be deemed a basis for entry of a final order without hearing, unless otherwise required by statute, on the ground that the response has raised no issues requiring a hearing or further proceedings. Any respondent failing to file answer within the time allowed shall be deemed in default, and all relevant facts stated in said order to show cause may be deemed admitted. Such answer shall otherwise conform to the requirements of §§ 1.15 to 1.17, inclusive.

(d) *Answers to motions.* See § 1.12 (c).

(e) *Defendants seeking affirmative relief.* Defendants seeking relief against other parties in a proceeding by reason of the presence of common questions of law or fact shall set forth in their answer the facts constituting the grounds of complaint, the provisions of the statutes, rules, regulations, or orders relied upon, the injury complained of, and the relief sought. The answer shall in all other respects, conform to the requirements of this section and §§ 1.15 to 1.17, inclusive.

(f) *Replies to defendants seeking affirmative relief.* Unless otherwise ordered by the Commission, replies to answers seeking affirmative relief must be filed and served within 15 days after the service of the answer, but not later than 5 days prior to the date set for the commencement of the hearing, if any. They shall in all other respects conform to the requirements of §§ 1.15 to 1.17, inclusive.

(g) *Answers to amendments of pleadings.* Any party to a proceeding or staff counsel may file an answer to any amendment, modification or supplement to an application, complaint, petition or other pleading. If made, answers shall be filed within 15 days after the date of service of the amendment, modification or supplement, unless for cause the Commission or presiding officer with or without motion shall prescribe a different time. They shall in all other respects conform to the requirements of §§ 1.15 to 1.17, inclusive.

(h) *Satisfaction of complaints.* If the defendant satisfies a formal complaint either before or after answering, a statement to that effect signed by the opposing parties shall be filed, setting forth when and how the complaint has been satisfied and requesting dismissal. Such statements shall be served upon all parties, and the original copies of such statements, when filed, shall show service on all parties, and in other respects shall conform to the requirements of §§ 1.15 to 1.17, inclusive; all additional copies shall be conformed thereto.

§ 1.11 *Amendments and withdrawal of pleadings*—(a) *Amendments.* Any modification or supplement to an application, complaint, petition or other pleading shall be deemed as an amendment to the pleading, and shall comply with the requirements of the rules of this chapter relating to the pleading amended in so far as appropriate and in all other re-

spects shall conform to the requirements of §§ 1.15 to 1.17, inclusive. Upon its own motion or upon motion promptly filed by any participant, the Commission may for good cause decline to permit, or may strike in whole or in part, any amendment. No amendment to a pleading may be filed within 5 days next preceding the commencement of or during a hearing unless directed or permitted by the Commission or the presiding officer after opportunity for all parties to be heard thereon.

* * * * *

(d) *Withdrawal of pleadings.* A participant desiring to withdraw a pleading filed with the Commission may file a notice of withdrawal thereof with the Commission. Such notice shall set forth the reasons for the withdrawal and conform to the requirements of this section and §§ 1.15 to 1.17, inclusive, as to copies, form, service, subscription, and verification. A certificate shall accompany every notice showing service on all participants. Unless otherwise ordered by the Commission for good cause, such notice shall, 30 days after the filing thereof, be deemed to have effected the withdrawal of the pleading, including amendments, if any: *Provided, however,* That this paragraph shall not be construed as effecting, without express permission of the Commission, withdrawal of:

(1) Any pleading in any proceeding in which a hearing has been held or convened;

(2) Any formal complaint, answer thereto, response to order to show cause, or any amendment to any of the aforesaid pleadings;

(3) Any declaration of intention or application for license, or amendment thereof, under Part I of the Federal Power Act.

§ 1.12 *Motions*—(a) *Scope and contents.* After a hearing has commenced in a proceeding, a request may be made by motion for any procedural or interlocutory ruling or relief desired except as may be expressly provided for in §§ 1.5, 1.6, 1.7 (b) and (c), 1.8, 1.9, 1.10 and 1.11. Other motions may be made as provided for elsewhere in this part. Motions shall set forth the ruling or relief sought, and state the grounds therefor and the statutory or other authority relied upon.

(b) *Presentation.* The requirements of §§ 1.15 to 1.17, inclusive, shall apply to all written motions. Motions made during hearings may be stated orally upon the record, *Provided, however,* That the Commission or presiding officer may require that such motions be reduced to writing and filed separately.

(c) *Objections.* Any party or staff counsel shall have ten days within which to answer or object to any motion unless the period of time is otherwise fixed by the Commission or presiding officer.

(d) *Rulings on.* The presiding officer designated to preside at a hearing is authorized to rule upon any motion not formally acted upon by the Commission prior to the commencement of the hearing where immediate ruling is essential in order to proceed with the hearing, and upon any motion filed or made after the commencement thereof and prior to the submission of his initial or recommended decision in the proceedings, *Provided, however,* That no motion made before or during a hearing, a ruling upon which would involve or constitute a final determination of the proceeding, shall be ruled upon by a presiding officer except as a part of either his initial or recommended decision submitted after the conclusion of the hearing, *Provided, further,* That this section shall not be construed as precluding a presiding officer, within his discretion, from referring any motion to the Commission for ultimate determination. The Commission will rule upon all other motions and upon such motions as presiding officers may certify to the Commission for disposition.

§ 1.13 *Time; extensions of time; Issuance of orders*—(a) *Computation of time.* Except as otherwise provided by law, in computing any period of time prescribed or allowed by this part, by any rule, regulation, or order of the Commission, or by any applicable statute, the day of the act, event, or default from or after which the designated period of time begins to run shall not be included, but the last day of the period so computed shall be included, unless it is a Saturday, Sunday, or a legal holiday in the District of Columbia, in which event the period shall run until the end of the next day which is not a Saturday, Sunday, or a holiday. A part-day holiday shall be considered as other days and not as a holiday.

(b) *Issuance of orders.* In computing any period of time involving the date of the issuance of an order by the Commission, the day of issuance of an order shall be the day the Office of the Secretary mails or delivers copies of the order (full text) to the parties or their attorneys of record, or makes such copies public, whichever be the earlier. Orders will not be made public prior to the mailing or delivery to the parties or their attorneys of record, except where, in the judgment of the Commission, the public interest so requires. The day of issuance of an order may or may not be the day of its adoption by the Commission. In any event, the Office of the Secretary shall clearly indicate on each order the date of its issuance. At the time any intermediate initial or tentative decision becomes effective as a decision of the Commission in the absence of Commission review as provided for by §§ 1.30 and 1.31, the Secretary will issue and serve upon the parties of record an appropriate notice of the date such decision became effective as a Commission decision or order.

(c) *Effective dates of orders.* Orders of the Commission shall be effective as of the dates of issuance unless otherwise specifically provided in the orders.

(d) *Extensions of time.* Except as otherwise provided by law, whenever by any rule, regulation, or order of the Commission, or any notice given thereunder, an act is required or allowed to be done at or within a specified time, the time fixed or the period of time prescribed may, by the Commission or the presiding officer, for good cause be extended upon motion made before expiration of four-fifths of the period originally prescribed or as previously extended; and upon motion made after the expiration of the specified period, the act may be permitted to be done where reasonable grounds are shown for the failure to act.

(e) *Continuances.* Except as otherwise provided by law, the Commission may for good cause at any time, with or without motion, continue or adjourn any hearing. A hearing before the Commission or a presiding officer, shall begin at the time and place ordered by the Commission, but thereafter may be adjourned from time to time or from place to place by the Commission or the presiding officer.

(f) *Requests for continuance, time extensions.* Except as otherwise provided by law, requests for continuance of hearings or for extensions of time in which to perform any act required or allowed to be done at or within a specified time by any rule, regulation, or order of the Commission, shall be by motion in writing, timely filed with the Commission, stating the facts on which the application rests, except that during the course of a hearing in a proceeding, such requests may be made by oral motion in the hearing before the Commission or the presiding officer. Written motions filed under this section shall conform to the requirements of §§ 1.12, and 1.15 to 1.17, inclusive.

§ 1.15 *Formal requirements as to pleadings, documents, and other papers filed in proceedings.* * * *

(b) *Copies.* Except as may be otherwise required by the rules or regulations of the Commission, or ordered or requested by the Commission, at the time pleadings, documents, or other papers other than correspondence, are filed with the Commission, there shall be furnished to the Commission an original and 19 confirmed copies of such papers and exhibits, if any: *Provided, however,* When service is made by the parties, or service is not required to be made, only an original and 14 confirmed copies need be filed. (See § 1.17 (f) re service and § 1.26 (c) (5) re exhibits in hearings).

* * * * *

§ 1.16 *Subscription and verification*—(a) *Subscription*—(1) *By whom.* Applications, formal complaints, petitions and other pleadings, amendments thereto, notices, reports, exhibits, and other requests, submittals, or statements filed with the Commission shall be subscribed: (1) by the person filing the same, and severally if there be more than one person so filing; (2) by an officer thereof if it be a corporation, trust, association, or other organized group; (3) by an officer or employee thereof if it be a State commission, a department or political subdivision of a State, or other governmental authority, agency, or instrumentality; or (4) by an attorney having authority with respect thereto. Applications, formal complaints, petitions to intervene and petitions initiating proceedings, filed by any corporation, trust, association, or other organized group, may be required to be supplemented by appropriate evidence of the authority of the officer or attorney subscribing such pleadings.

(2) *Effect.* The signature of the person, officer or attorney subscribing any pleading or matter filed with the Commission constitutes a certificate by such individual that he has read the pleading or matter being subscribed and filed, and knows the contents thereof; that if executed in any representative capacity, the matter has been subscribed and executed in the capacity specified upon the pleading or matter filed with full power and authority so to do; that the contents are true as stated, except as to matters and things, if any, stated on information and belief, and that as to those matters and things, he believes them to be true.

(b) *Verification.* Any facts alleged in the matter filed shall be verified under oath by the person filing, an officer, or other person having knowledge of the matters set forth. If the verification be by any one other than the person filing or other than an officer thereof, it shall include a statement of the reason therefor.

§ 1.17 *Service.* * * *

(e) *Certificate of service.* There shall accompany and be attached to the original of each pleading, document, or other paper filed with the Commission, when service is required to be made by the parties, a certificate of service in the form prescribed, 18 CFR 131.1, 250.1. All other copies filed shall be fully conformed thereto.

(f) *Copies.* Where service is made by the parties, or service is not required to be made, save to the extent a different number is required by the Commission's rules and regulations governing the specific filing, an original and 14 conformed copies of such pleadings, documents, or other papers, together with exhibits, if any, shall be filed with the Commission in lieu of the original and 19 conformed copies required by § 1.15 (b). (See § 1.26 (c) (5) re exhibits in hearings.)

§ 1.18 *Prehearing conferences—Offers of settlement*—(a) *To adjust or settle proceedings.* In order to provide opportunity for settlement of a proceeding, or any of the issues therein, there may be held at any time prior to or during hearings before the Commission or a presiding officer designated to preside at conferences or hearings, such informal conferences of parties and staff counsel for the submission and consideration of facts, arguments, offers of settlement, or proposals of adjustment as time, the nature of the proceeding, and the public interest may permit.

(b) *To expedite hearings.* To expedite the orderly conduct and disposition of any hearing, at such prehearing conferences as may be held, there may be considered, in addition to any offers of settlement or proposals of adjustment, the possibility of the following:

(1) The simplification of the issues;

(2) The exchange and acceptance of service of exhibits proposed to be offered in evidence;

(3) The obtaining of admission as to, or stipulations of, facts not remaining in dispute, or the authenticity of documents which might properly shorten the hearing;

(4) The limitation of the number of expert witnesses;

(5) Such other matters as may properly be dealt with to aid in expediting the orderly conduct and disposition of the proceeding.

(c) *Initiation of conferences.* The Commission with or without motion may direct that a prehearing conference be held. Upon motion by a party or staff counsel timely filed, a presiding officer designated to preside at the hearing or such other officer as may be designated may direct the attorneys for the parties to such proceedings and staff counsel to appear for a prehearing conference to consider the matters outlined in paragraph (b) of this section. Due notice of the time and place of such conference will be given to all parties to the proceeding and staff counsel.

(d) *Conference results stipulated.* Upon conclusion of a prehearing conference, attorneys for the parties and staff counsel shall immediately reduce the results thereof to the form of a written stipulation which recites the matters agreed upon, and 10 copies thereof shall forthwith be filed with the Commission by the presiding officer of such conference. Such stipulations may be received in evidence at a hearing and, when so received, shall be binding on the parties and staff counsel with respect to the matters therein stipulated.

(e) *Offers of settlement.* Nothing contained in this Section shall be construed as precluding any party to a proceeding from submitting at any time offers of settlement or proposals of adjustment to all parties and to the Commission (or to staff counsel for transmittal to the Commission), or from requesting conferences for such purpose. Unaccepted proposals of settlement or of adjustment or as to procedure to be followed and proposed stipulations not agreed to shall be privileged and shall not be admissible in evidence against any counsel or person claiming such privilege.

§ 1.19 *Notice*—(a) *Rule making.* Before the adoption of any rule or the commencement of any hearing on any proposed rule making, the Commission will cause general notice to be given by publication in the FEDERAL REGISTER (unless all persons subject thereto are named and either personally served or otherwise have actual notice thereof in accordance with law), such notice to be filed with the FEDERAL REGISTER not less than 15 days prior to the date fixed for the consideration of the adoption of a proposed rule or rules or for the commencement of the hearing, if any, on the proposed rule making, except where a shorter period is reasonable and good cause exists therefor. Such notice will state the time, place, and nature of the proceeding, recite the authority under which the rule is proposed to be adopted and promulgated, and include either the terms or substance of the proposed rule or a description of the subjects and issues involved to inform interested persons of the nature of the proceeding, so as to permit any interested person to submit views, data, or proposals relative thereto; and such notice will set forth a time period in which interested persons may submit written data, views, or arguments concerning the proposed rule, indicating also whether opportunity for oral presentation or public hearing is contemplated; *Provided, however,* That:

(1) Where the Commission, for good cause, finds it impracticable, unnecessary, or contrary to the public interest to give such notice, it may proceed with the adoption of rules without notice by incorporating therein a finding to such effect and a concise statement of the reasons therefor;

(2) Except where notice or hearing is required by statute, the Commission may issue at any time rules of organization, procedure or practice, or interpretative rules, or statements of policy, without notice or public proceedings; and

(3) This section is not to be construed as applicable to the extent that there may be involved any military, naval or foreign affairs function of the United States, or any matter relating to the Commission's management or personnel, or to United States property, loans, grants, benefits, or contracts.

* * * * *

§ 1.20 *Hearings.* * * *

(b) *Consolidation.* The Commission, upon its own motion, or upon motion by a party or staff counsel, may order proceedings involving a common question of law or fact to be consolidated for hearing of any or all the matters in issue in such proceedings.

* * * * *

(k) *Transcript and record.* Hearings shall be stenographically reported by the official reporter of the Commission, and a transcript of said report shall be a part of the record and the sole official transcript of the proceeding. Such transcripts shall include a verbatim report of the hearings; nothing shall be omitted therefrom except as is directed on the record by the Commission or the presiding officer. After the closing of the record, there shall not be received in evidence or considered as part of the record any document, letter, or other writing submitted after the close of testimony except as provided in paragraph (j) of this section, or changes in the transcript as provided in paragraph (l) of this section.

* * * * *

§ 1.23 *Subpenas*—(a) *Issuance.* Subpenas for the attendance of witnesses or for the production of documentary evidence, unless directed by the Commission upon its own motion, will issue only upon application in writing to the Commission or the presiding officer, except that during sessions of a hearing in a proceeding, such application may be made orally on the record before the Commission or presiding officer, who is hereby given authority to determine the relevancy and materiality of the evidence sought and to issue such subpenas in accordance with such determination. Such written applications shall be verified and shall specify as nearly as may be the general relevance, materiality, and scope of the testimony or documen-

tary evidence sought, including, as to documentary evidence, specification as nearly as may be, of the documents desired and the facts to be proved by them in sufficient detail to indicate the materiality and relevance of such documents.

* * * * *

§ 1.24 *Depositions*—(a) *When permissible.* The testimony of any witness may be taken by deposition, upon application by a participant in a proceeding pending before the Commission, at any time before the hearing is closed, upon approval by the Commission or the presiding officer.

(e) *Oath and reduction to writing.* Every person whose testimony is taken by deposition shall be sworn, or shall affirm concerning the matter about which he shall testify, before any questions are put or testimony given. The testimony shall be reduced to writing by the Officer, or under his direction, after which the deposition shall be subscribed by the witness and certified in the usual form by the Officer. Unless otherwise directed in the authorization, after the deposition has been subscribed and certified, it shall, together with the number of copies specified in the authorization, the copies being made by such Officer or under his direction, be forwarded by such Officer in a sealed envelope addressed to the Commission at its office in Washington 25, D. C., with sufficient stamps for postage affixed. Upon receipt thereof, the Secretary shall file the original in the proceeding and shall forward a copy to each party or his attorney of record and to staff counsel.

* * * * *

(h) *Not part of record unless received in evidence.* No part of a deposition shall constitute a part of the record in the proceeding, unless received in evidence by the Commission or presiding officer. Objection may be made at the hearing in the proceeding to receiving in evidence any deposition or part thereof for any reason which would require the exclusion of the evidence if the witnesses were then present and testifying.

§ 1.25 *Stipulations.* * * *

(b) *Form, style, and service.* Stipulations shall conform to the applicable requirements of §§ 1.15 to 1.17, inclusive, except stipulations made orally on the record during hearings.

§ 1.26 *Evidence*—(a) *Form and admissibility.* In any proceeding before the Commission or a presiding officer relevant and material evidence shall be admissible, but there shall be excluded such evidence as is unduly repetitious or cumulative, or such evidence as is not of the kind which would affect reasonable and fair-minded men in the conduct of their daily affairs.

* * * * *

(c) *Documentary.* * * *

(3) *Records in other proceedings.* When any portion of the record in any other proceeding before the Commission is offered in evidence and shown to be relevant and material to the instant proceeding, a true copy thereof shall be presented in the form of an exhibit, together with additional copies as provided in subparagraph (5) of this paragraph, unless:

(i) The participant offering the same agrees to supply, within a period of time specified by the Commission or the presiding officer, such copies at his own expense, if and when so required; and

(ii) The portion is specified with particularity in such manner as to be readily identified, and upon motion is admitted in evidence by reference to the records of the other proceeding.

(4) *Form and size.* Wherever practicable, all exhibits of a documentary character received in evidence shall be on paper of good quality and so prepared as to be plainly legible and durable, whether printed, photostated or typewritten, and shall conform to the requirements of § 1.15 whenever practicable.

(5) *Copies to parties and Commission.* Except as otherwise provided in these rules, when exhibits of a documentary character are offered in evidence, copies shall be furnished to the presiding officer and to the parties or counsel, including staff counsel, unless the Commission or the presiding officer otherwise directs. In addition, unless otherwise directed by the Commission or the presiding officer, 4 copies of each exhibit of documentary character shall be furnished for the use of the Commission.

* * * * *

§ 1.27 *Presiding officers*—(a) *Designation.* When evidence is to be taken in a proceeding, either the Commission, or, when duly designated for that purpose, one or more of its members, examiners, or other representative appointed according to law, may preside at the hearing.

(b) *Authority delegated.* Presiding officers duly designated by the Commission to preside at hearings shall have the authority, within the Commission's powers and subject to its published rules, as follows:

(1) To regulate the course of hearings;

(2) To administer oaths and affirmations;

(3) To issue subpenas;

(4) To rule upon offers of proof and receive evidence;

(5) To take or cause depositions to be taken;

(6) To hold appropriate conferences before or during hearings;

(7) To dispose of procedural matters but not, before their initial or recommended decisions, to dispose of motions made during hearings to dismiss proceedings or other motions which involve final determination of proceedings;

(8) Within their discretion, or upon direction of the Commission, to certify any question to the Commission for its consideration and disposition;

(9) To submit their initial or recommended decisions in accordance with § 1.30;

(10) To take any other action necessary or appropriate to the discharge of the duties vested in them, consistent with the statutory or other authorities under which the Commission functions and with the rules, regulations, and policies of the Commission.

§ 1.28 *Appeals to Commission from rulings of presiding officers*—(a) *During hearing.* Rulings of presiding officers may not be appealed from during the course of hearings except in extraordinary circumstances where prompt decision by the Commission is necessary to prevent detriment to the public interest. In such instance the matter shall be referred forthwith by the presiding officer to the Commission for determination.

(b) *Offers of proof.* Any offer of proof made in connection with an objection taken to any ruling of the presiding officer rejecting or excluding proffered oral testimony shall consist of a statement of the substance of the evidence which counsel contends would be adduced by such testimony; and if the excluded evidence consists of evidence in documentary or written form or of reference to documents or records, a copy of such evidence shall be marked for identification and shall constitute the offer of proof.

§ 1.29 *Briefs and oral arguments before presiding officers and proposed findings and orders.* * * *

(e) *Briefs, filing and service.* Briefs not filed and served on or before the dates fixed therefor shall not be accepted for filing, except by special permission of the Commission or the presiding officer. All briefs shall be accompanied by a certificate showing service upon all parties or their attorneys who appeared at the hearing or on brief, and except where filing of a different number is permitted or directed by the Commission or presiding officer, 20 copies of each brief shall be furnished for the use of the Commission. Requests for the extension of time in which to file briefs shall conform to the requirements of § 1.13, and shall be filed at least five days before the time fixed for filing such briefs.

§ 1.30 *Decisions*—(a) *Initial decisions by presiding officers.* In proceedings in which the Commission has not presided at the reception of evidence, except as otherwise provided in this part, the presiding officer, as soon as practicable after the conclusion of the hearing and expiration of the time for filing of briefs, shall certify and file with the Secretary, for the Commission, a copy of the record of the hearing, including his report thereon. Except as otherwise provided, such presiding officer's report shall constitute the initial decision, which shall be served upon all parties, or their attorneys of record, and staff counsel, who may file exceptions in the manner and within the time provided in § 1.31.

* * * * *

(c) *Waiver and omission of intermediate decision procedure.* (1) In lieu of any intermediate decision (initial by presiding officer, recommended by presiding officer or designated responsible officer, or tentative by the Commission), any party or staff counsel in any proceeding may request all other parties and staff counsel concurring in such request, that the Commission forthwith render the final decision. In such requests for omitting the intermediate decision procedure there shall be specified:

(i) The concurrence of the other parties and staff counsel;

(ii) Whether opportunity for presenting oral argument or filing briefs before the presiding officer or Commission is desired or waived;

(iii) Whether opportunity for presenting proposed findings and conclusions with supporting reasons therefor, is desired or waived; and

(iv) Whether the parties reserve only their rights to apply to the Commission for rehearing and to petition for judicial review of the Commission's decision or order as may be provided for by the statute under which the proceeding was initiated and conducted.

(2) In rule-making or initial licensing proceedings the Commission, with or without request or motion therefor, may render the decision upon a finding on the record that due and timely execution of its functions imperatively and unavoidably so requires.

(3) Requests for waiver and omission of the intermediate decision procedure shall be by motion filed with the Commission at any time during, but not less than five days next following, the conclusion or adjournment sine die of the hearing; shall be in writing under oath, subscribed and verified; and shall in all other respects conform to the requirements of §§ 1.12 and 1.15 to 1.17, inclusive; *Provided, however,* That during sessions of hearings in proceedings, motions for such waiver and omission may be made orally on the record before the presiding officer, who shall forthwith report the same to the Commission.

(d) *Final decisions.* All decisions of the Commission shall be final (subject only to application for rehearing provided for by the statute under which the proceeding is initiated and conducted), except tentative decisions that may be issued in rule-making or determining applications for initial licenses as herein provided. Final decisions shall include:

(1) Decisions by the Commission in proceedings in which the Commission has presided at the reception of evidence;

(2) Decisions upon appeal of intermediate decisions to the Commission by the parties or staff counsel, by filing exceptions in the manner and time provided by § 1.31, or upon review initiated by the Commission within 10 days next following the expiration of the time for filing exceptions under the aforesaid Section, or such other time as the Commission may fix in specific cases;

(3) Intermediate initial or tentative decisions, upon the expiration of the time provided for an appeal to or review by the Commission without such appeal or review having been initiated;

(4) Decisions by the Commission in rule-making, or initial licensing proceedings, in which the Commission omits the intermediate decison procedure upon a finding that due and timely execution of its functions imperatively and unavoidably so requires;

(5) Decisions by the Commission in proceedings in which, under the provisions of paragraph (c) of this section all parties and staff counsel have waived or concurred in the waiving and omission of the intermediate decision procedure, and in lieu thereof have requested that the Commission forthwith render the final decision, and in which the Commission has not denied such request within 10 days next following its filing; and

(6) Decisions by the Commission in shortened proceedings as provided in § 1.32.

§ 1.31 *Exceptions to intermediate decisions and briefs and oral arguments before Commission*—(a) *Exceptions, filing of.* Any party or staff counsel desiring to appeal to the Commission may, within 20 days after the service of a copy of an intermediate decision (initial or recommended by subordinates, or tentative by Commission), or such other time as may be fixed by the Commission, file exceptions thereto.

* * * * *

(c) *Failure to except results in waiver.* Failure to file exceptions within the time allowed under this section shall constitute a waiver of all objections to the intermediate decision served. No matter not included in the exceptions filed as provided in this Section may thereafter be objected to before the Commission upon brief or oral argument, or in an application for Commission rehearing; and any matter not included in such exceptions shall be deemed waived. Exceptions covering rulings admitting or excluding evidence not objected to at the time the rulings were made, will be unavailing.

(d) *Briefs and oral argument before Commission.* * * *

(2) *Hearing before presiding officer.* In proceedings in which the Commission has not presided at the reception of the evidence, any party or staff counsel may file a motion requesting opportunity to present oral argument or to file briefs concerning matters before the Commission for decision, except that where exceptions have been filed, they shall constitute the brief before the Commission. Such motions may be filed at any time during a proceeding, but not later than the time permitted for the filing of exceptions to the intermediate decision, *Provided, however,* That opportunity to file briefs or to make oral argument may be requested in motions for waiver of intermediate decisions, as provided in § 1.30 (c).

(e) *Briefs and arguments, contents and scope.* When the Commission has presided at the reception of the evidence, or when the parties have waived the intermediate decision procedure, briefs and arguments before the Commission may include and present for consideration the matters as provided in § 1.29 relating to briefs and oral arguments before presiding officers, and in all other respects, as applicable, such arguments and briefs shall conform to the requirements of the aforesaid section. In all other proceedings, briefs, and oral arguments before the Commission may include those matters that may properly be included and presented in exceptions to intermediate decisions, subject to the same conditions contained in paragraph (c) of this section.

(f) *Exceptions and briefs, form and service.* Exceptions and briefs shall conform to the requirements as applicable of §§ 1.15 and 1.17, as to copies, form, and service, 15 copies thereof being filed with the Commission, in addition to the copies served on the parties to the proceedings.

§ 1.32 *Shortened procedures.* * * *

(b) *Noncontested proceedings.* In any proceeding required by statute to be set for hearing, the Commission when it appears to be in the public interest and to the interest of the parties to grant the relief or authority requested in the initial pleading, and to omit the intermediate decision procedure, may after a hearing during which no opposition or contest develops, forthwith dispose of the proceeding upon consideration of the pleadings and other evidence filed and incorporated in the record; *Provided,* (1) the applicant or initial pleader requests that the intermediate decision procedure be omitted and waives oral hearing and opportunity for filing exceptions to the decision of the Commission; and (2) no issue of substance is raised by any request to be heard, protest or petition filed subsequent to publication in the FEDERAL REGISTER of the notice of the filing of an initial pleading and notice or order fixing date of hearing, which notice or order shall state that the Commission considers the proceeding a proper one for disposition under the provisions of this section, and shall otherwise conform with the requirements of § 1.19. Requests for the procedure provided by this section may be contained in the initial pleading or subsequent request in writing to the Commission. The decision of the Commission in such proceeding after noncontested hearing, will be final, subject to reconsideration by the Commission upon application for rehearing as provided by statute.

TITLE 32—NATIONAL DEFENSE

Chapter VII—Sugar Rationing Administration, Department of Agriculture

[Gen. RO 20]

PART 705—ADMINISTRATION

General Ration Order 20 is issued to read as follows:

Preamble. On March 31, 1947 the Sugar Control Extension Act of 1947 was enacted, extending sugar price and rationing controls to October 31, 1947, and inventory controls until March 31, 1948, or such earlier dates as the Secretary of Agriculture might determine to be appropriate in the light of the sugar supply situation.

At the time this act became law, the allocation of sugar out of the world supply to the United States was 6,800,000 tons for the calendar year 1947. Out of this supply, the Secretary of Agriculture was directed to allocate sugar to consumers at a rate of not less than 35 pounds of sugar per capita during the year, and, in addition, to devote any increased allocation of sugar to consumers alone until the rate of consumer sugar allocation reached at least 50 pounds per capita for the year.

Consumer use of sugar varies widely within the United States, depending on such factors as individual tastes, desire for home canning, availability of and desire to utilize commercially prepared sugar-containing products, and many others. In the past, when sugar rationing was carried on with the help of 5,500 Local Boards, home canning needs of individual consumers, which are a major factor in quantitative variations in consumer use of sugar, could administratively be handled on an individual basis, satisfying within the limits of the total available supply, all consumer needs in their varying quantities. Now, with only 42 Branch Offices administering sugar rationing throughout the country, home canning needs cannot be handled on an individual basis. It is impossible to devise any practicable system for distributing sugar to consumers in relation to their individual needs, since these vary so widely by geographic area, and within each such area. Accordingly, sugar rationing to consumers has had to be carried on by uniform validation of ration stamps of equal value for all consumers, and for all consumer purposes, regardless of the need of some individuals for greater or lesser amounts.

This month an increase in the overall sugar allocation to this country from 6,800,000 tons to 7,150,000 tons for the year 1947 has been made. This means that, under the legislative mandate, allocations for consumer use can and will be increased. Although this will not fully meet the needs of high-use consumers, many consumers will receive a right to get more sugar than they want, and the disparity between actual use by consumers, and the amount allotted to that purpose will increase. This would result in the paradoxical situation wherein, while total supply is still inadequate to meet total, unrestricted demand, a surplus will be created of the amount which low-use consumers will not consume out of the total consumer allocation.

If consumers should be permitted to purchase sugar without restriction, no such artificial surplus would result. However, in order to comply with the spirit of the legislative mandate, and, wholly apart therefrom, to assure consumers a fair share of the total, and still not wholly adequate supply, it would be necessary to restrict other users to their previously determined share of the total available supply.

This order is designed to achieve both results. It permits consumers and institutional users to purchase sugar without ration evidences. It also continues the limitations on use of sugar by industrial users, such as bakers, bottlers, and other industrial sugar users which have thus far been in force. Further, these are implemented by record keeping requirements.

Aside from consumers, industrial users bulk largest in actual consumption of sugar. Institutional users use only a small percentage of the total sugar supply, though they are substantially greater in numbers than industrial users. Institutional users generally have received sugar rations for meal services comparable as nearly as possible to the quantities of sugar available for that purpose to the household consumers. For these reasons, since consumers will be able to acquire sugar without ration evidences, institutional users are also permitted to do so, and the limitations on industrial users will assure consumers of their fair share of sugar.

Wholesalers and retailers may acquire sugar without ration evidences, but may not deliver sugar to industrial users except as provided by the other rationing regulations. In addition, wholesalers and retailers may not accept delivery of or have in inventory more than 110 percent of their allowable inventory. This represents an overall allowable inventory adjustment of 10 percent, which is made in view of the increased allocation of sugar available to the United States for this year.

Sec.
1 Relation of this order to other rationing regulations.
2 Sugar may be delivered to consumers and institutional users without ration evidences.
3 Restrictions applicable to industrial users are continued.
4 Limitations on acquisition and inventory of sugar by wholesalers and retailers.
5 Records.
6 Definitions.

AUTHORITY: § 705.6 issued pursuant to the authority vested in the Secretary of Agriculture by the Sugar Control Extension Act of 1947.

SECTION 1. *Relation of this order to other rationing regulations.* Except as otherwise provided in this order, or to the extent they may be inconsistent with the provisions of this order, all other provisions of the rationing regulations shall remain in full force and effect.

SEC. 2. *Sugar may be delivered to consumers and institutional users without ration evidences.* Sugar may be delivered to or acquired by a consumer or institutional user without surrender or receipt of ration evidences.

SEC. 3. *Restrictions applicable to industrial users are continued.* No industrial user may acquire or use sugar and no person may knowingly deliver sugar to any industrial user, except as permitted by the other rationing regulations.

SEC. 4. *Limitations on acquisition and inventory of sugar by wholesalers and retailers.* (a) Sugar may be delivered to or acquired by wholesalers and retailers without surrender or receipt of ration evidences, subject to the provisions of paragraphs (b) and (c) of this section.

(b) No wholesaler or retailer may accept delivery of, or have in inventory at any time, more sugar than 110 percent of the amount of his allowable inventory as determined under the rationing regulations.

(c) No wholesaler or retailer may receive delivery of, or have in inventory, any sugar unless and until he has been given an allowable inventory pursuant to the provisions of the rationing regulations.

(d) Wholesalers and retailers may not knowingly deliver sugar to any industrial user except as permitted by the other rationing regulations.

SEC. 5. *Records*—(a) *Primary distributors and wholesalers.* In addition to the records required by Third Revised Ration Order 3, primary distributors and wholesalers must also keep as part of their records the ration checks or other evidences which industrial users are required to surrender for the delivery of sugar to them, except checks issued and dated by industrial users prior to June 12, 1947.

(b) *Retailers.* In addition to the records required by Third Revised Ration Order 3, a retailer must keep the following records at his retail establishment for each delivery made by him of more than 100 pounds of sugar or of any quantity to an industrial user:

(1) The name and address of the buyer.

(2) The address to which delivery was made.

(3) The date of delivery and the amount of sugar delivered.

(4) The ration checks or other evidences which industrial users are required to surrender for the delivery of sugar to them, except checks issued and dated by industrial users prior to June 12, 1947.

(c) *Industrial users.* In addition to the records required by the other rationing regulations, each industrial user shall keep records at his industrial user establishment, or if he has more than one such establishment registered together, at his principal place of business, showing with respect to each delivery of sugar received by him, the name and address of the person by whom the delivery was made, the address to which the delivery was made, the amount of sugar delivered and the date of delivery.

SEC. 6. *Definitions.* (a) As used herein the term "rationing regulations" shall mean all regulations relating to the allocation of sugar issued under, or continued in effect by, the Sugar Control Extension Act of 1947, including, but not limited to, Third Revised Ration Order 3, General Ration Order 3, Revised General Ration Order 5, General Ration Order 8, Revised General Ration Order 18, and General Ration Order 19.

(b) All other terms used herein shall have the meanings given them by the respective rationing regulations in which they are used.

This order shall become effective 12:01 a. m., June 12, 1947.

NOTE: The record keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 16th day of June 1947.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

Chapter IX—Office of Materials Distribution, Bureau of Foreign and Domestic Commerce, Department of Commerce

[Materials Control Reg. 2]

PART 903—DELEGATIONS OF AUTHORITY

COMPLIANCE

§ 903.10 *Materials Control Regulation 2*—(a) *Explanation.* There has been established in the Office of the Secretary of Commerce, the position of Chief Compliance Commissioner for the Office of Materials Distribution. This regulation provides for the performance of certain functions by the Chief Compliance Commissioner, his deputy and compliance commissioners to assure compliance with orders, regulations and other administrative actions of the Office of Materials Distribution of the War Production Board and the Civilian Production Administration, the responsibility for which has been transferred to the Director of the Office of Materials Distribution.

(b) *Compliance Commissioners.* The Chief Compliance Commissioner and a deputy designated by him are hereby authorized to select and to designate compliance commissioners to perform the functions described in paragraph (c) below, in respect to cases referred to the office of the Chief Compliance Commissioner by the Office of Materials Distribution. Upon such referral and designation, the compliance commissioners are hereby authorized to perform the functions and take the actions described in paragraph (c).

(c) *Delegation to Compliance Commissioner.* Compliance Commissioners designated pursuant to paragraph (b) above are hereby authorized:

(1) To consider all charges of violation of orders, regulations and other administrative actions referred to them;

(2) To preside at hearings held for this purpose, to determine the facts and to recommend to the Director of the Office of Materials Distribution, administrative action including the issuance of suspension orders in appropriate cases;

(3) To preside at hearings held in connection with investigations of alleged violations even though no formal charge has been made;

(4) For the purpose of obtaining any information, verifying any report required or making any investigations concerning the violation of any order, regulation or other administrative action, to administer oaths and affirmations and to require by subpoena, issued in the name of the Secretary of Commerce by a compliance commissioner, the attendance of witnesses and the production of books, records or other documentary or physical evidence determined by the compliance commissioner to be relevant.

(i) Subpoenas issued pursuant to this paragraph (4) shall be returnable before a compliance commissioner. If prior to the return date specified in the subpoena, the person against whom the subpoena is issued furnishes the compliance commissioner with a true and certified copy of the books, records or other documentary evidence called for by the subpoena, then the production of such evidence shall not be required at any place other than the place where the person against whom the subpoena is issued resides or transacts business.

(ii) Upon the request of any party to a proceeding before him and on a showing by such party that the evidence sought is of general relevance and reasonable scope, the compliance commissioner shall issue a subpoena to compel the attendance of witnesses and the production of such documentary evidence as the party requesting the subpoena shall indicate.

(5) Compliance commissioners are further authorized and required to furnish or have furnished to any person compelled to submit data or evidence, a copy of such data or a copy of the transcript of evidence upon payment of lawfully prescribed costs; or if such person has a copy of such data or a transcript of such evidence, to permit him to retain the same.

(6) The reports of the compliance commissioners as to the facts found shall be binding upon the respondent and the Office of Materials Distribution for the purpose of administrative compliance proceedings. On appeal by the respondent the facts may be reviewed and new findings of facts made by the Chief Compliance Commissioner or his deputy.

(d) *Administrative proceedings.* The hearing by a compliance commissioner shall be held after reasonable notice to the respondent from the Office of Materials Distribution. The notice shall include a summary statement of the charges and of the alleged facts or conduct on which the charges are based. Upon the hearing, the compliance commissioner shall consider all of the facts relevant to the violation charged, including the testimony, written statements and exhibits submitted to him by the Office of Materials Distribution and by the respondent, and shall file his report and recommendations with that Office. The report shall contain a statement of the facts found by the compliance commissioner to be relevant to the violations charged, together with his conclusions: (1) as to whether or not the facts constituted a violation of any order, regulation or other administrative action; (2) if so, whether or not the violation was willful or the result of gross negligence. The report shall include a recommendation for administrative action or other disposition of the case, and where appropriate be accompanied by a recommendation for referral of the case to the Department of Justice for civil or criminal proceedings. The compliance commissioner shall direct the closing of the case if he finds that the facts do not consti-

tute (i) either a willful violation, or a misrepresentation, or (ii) a violation or misrepresentation caused by gross negligence of the respondent, or (iii) an unauthorized acquisition, delivery, possession, reduction, use or disposition of materials or facilities subject to orders or regulations of the Office of Materials Distribution. In such event he shall notify the respondent that the case is closed not earlier than ten days after he has filed his report and recommendations, unless an appeal is taken by the Office of Materials Distribution within this period.

(e) *Appeals, and other functions.* The Chief Compliance Commissioner and his deputy are hereby further authorized:

(1) To hear and determine appeals by any person against whom a suspension order has been issued by the Office of Materials Distribution. In determining such appeal, the Chief Compliance Commissioner or his deputy may direct the closing of the case; or he may revoke or may modify the suspension order in any respect, except that if he increases the suspension period or the restrictions of the order, he shall do so only with the prior approval of the Director of the Office of Materials Distribution and the General Counsel. There shall be no further administrative appeal from such decisions.

(2) To hear appeals by the Office of Materials Distribution from actions, except findings of facts, of compliance commissioners, and to finally determine the same.

(3) To prescribe rules and procedures for the taking and the disposition of appeals under subparagraphs (1) and (2) of this paragraph.

(4) To direct the issuance of an order staying the operation of a suspension order pending the determination of an appeal.

(5) To revoke any suspension order or to modify the same by diminishing the period of suspension or the restrictions imposed, even though no appeal from the order has been taken by the respondent. Such actions shall be taken only with the prior approval of the General Counsel.

(6) To act himself as compliance commissioner in his discretion.

(7) To exercise general supervision over the work of the compliance commissioners subject only to the direction of the Secretary of Commerce.

(8) To establish policies, standards and procedures to be followed by the compliance commissioners not inconsistent with this regulation, provided that prior to issuance all such policies, standards and procedures are approved by the Solicitor of the Department of Commerce.

(f) *Criminal or civil proceedings not affected.* No action by the Chief Compliance Commissioner, his deputy or a compliance commissioner shall preclude or affect the referral of a case to the Department of Justice for criminal or civil proceedings.

(g) *Responsibility of Commissioners.* The Chief Compliance Commissioner, his deputy and the compliance commissioners shall be responsible solely to the Secretary of Commerce and shall have no duties in the Department of Commerce other than as specified herein. (Sec. 3 (a) (1), Pub. Law 404, 79th Cong.; Pub Laws 24 and 29, 80th Cong.; E. O. 9841, 12 F. R. 2645)

Issued this 18th day of June 1947.

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR, Ch. V]

SPECIAL INDUSTRY COMMITTEE NO. 5 FOR PUERTO RICO

NOTICE OF PUBLIC HEARING TO RECEIVE EVIDENCE FOR CONSIDERATION IN RECOMMENDING MINIMUM WAGE RATES FOR EMPLOYEES IN VARIOUS INDUSTRIES

In conformity with sections 5 (e) and 8 of the Fair Labor Standards Act of 1938 (sec. 3 (c), 54 Stat. 615, sec. 8, 52 Stat. 1064; 29 U. S. C. 205 (e), 208), and with § 511.11 of the regulations issued pursuant thereto, (29 CFR, Part 511), notice is hereby given to all interested persons that a public hearing will be held beginning on July 14, 1947, at 10:00 a. m., in the Chamber of Commerce Auditorium, Tetuan Street, San Juan, Puerto Rico, for the purpose of receiving evidence to be considered by Special Industry Committee No. 5 for Puerto Rico in determining the highest minimum wage rates for all employees in Puerto Rico who within the meaning of the said act are "engaged in commerce or in the production of goods for commerce," which, having due regard to economic and competitive conditions, will not substantially curtail employment and will not give any industry in Puerto Rico a competitive advantage over any industry in the United States outside of Puerto Rico.

Special Industry Committee No. 6 for Puerto Rico was created by Administrative Order No. 367[1] to be published in the FEDERAL REGISTER on June 20, 1947. It is charged, in accordance with the provisions of the Fair Labor Standards Act of 1938, as amended, and regulations promulgated thereunder, with the duty

[1] See F. R. Doc. No. 47-5810, under Labor Department in Notices section, *infra*.

of investigating conditions in the following industries of Puerto Rico:

Sugar Manufacturing Industry.
Railroad, Railway Express, and Property Motor Transport Industry.
Shoe Manufacturing and Allied Industries.
Foundry, Machine Shop, and Fabricated Metal Products Industry.
Small Leather Goods and Related Products Industry.
Artificial Flower Industry.
Hooked Rug Industry.
Wholesaling, Warehousing, and Other Distribution Industries.
Pearl Button Industry.
Cigar and Cigarette Industry.
Full-Fashioned Hosiery Industry.
Vegetable, Fruit and Fruit Juice Canning Industry.
Vegetable Packing Industry.

The Committee is further charged with the duty of recommending to the Administrator minimum wage rates which may be not higher than 40 cents per hour for all employees in Puerto Rico in the industries cited above who within the meaning of said act are "engaged in commerce or in the production of goods for commerce," excepting employees exempted by the provisions of section 13 (a) and employees coming under the provisions of section 14. Before any minimum wage rates recommended by the Committee are made effective, a public hearing will be held pursuant to section 8 of the act, at a time and place to be announced by the Administrator and at which all interested persons will have an opportunity to be heard.

Administrative Order No. 367 directed Special Industry Committee No. 5 to proceed first to investigate conditions and to recommend to the Administrator minimum wage rates for employees in the Sugar Manufacturing Industry and thereafter, in such order as the Committee might elect, to investigate conditions respecting, and recommend minimum wage rates for, the employees in the other enumerated industries in Puerto Rico.

Any person, who, in the opinion of the Committee or its duly authorized subcommittee, has a substantial interest in the proceeding and is prepared to present material pertinent to the question under consideration, may appear on his own behalf or on behalf of any other person. Persons wishing to appear are requested to file with Russell Sturgis, Territorial Director of the Wage and Hour Division, 606 Banco Popular Building, Tetuan and San Justo Streets, San Juan, Puerto Rico, not later than July 11, 1947, Notice of Intention to Appear, a copy of which is to be sent to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C. The Notice of Intention to Appear should contain the following information:

1. The name and address of the person appearing.

2. If he is appearing in a representative capacity, the name and address of the person or persons whom, or the organization which, he is representing.

3. A brief summary of the material intended to be presented.

4. The approximate length of time which his presentation will consume.

All testimony will be taken under oath and subject to reasonable cross-examination by any interested person present. Testimony so received will be offered as evidence at the public hearing to be held on such minimum wage recommendations as Special Industry Committee No. 5 for Puerto Rico may make.

Written statements of persons who cannot appear personally will be considered by the Committee provided that at least six copies thereof are received not later than July 14, 1947 at the Wage and Hour Division of the United States Department of Labor, 606 Banco Popular Building, Tetuan and San Justo Streets, San Juan, Puerto Rico. Any person appearing at the hearing who offers written material must submit at least six copies thereof.

Signed at San Juan, Puerto Rico, this 13th day of June 1947.

ANTONIO J. COLORADO,
Chairman,
Special Industry Committee
No. 5 for Puerto Rico.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[2054898]

MINNESOTA

NOTICE OF FILING OF PLAT OF SURVEY

JUNE 12, 1947.

Notice is given that the plat of survey of lands hereinafter described will be officially filed in Bureau of Land Management, Washington 25, D. C., effective at 10:00 a. m. on August 14, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from August 14, 1947, to November 12, 1947, inclusive, the public lands affected by this notice shall be subject to (1) application under the homestead law, or the small tract act of June 1, 1938 (52

Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from July 25, 1947 to August 14, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on August 14, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference-right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on November 12, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference-right filings.* Applications by the general public may be presented during the 20-day period from October 23, 1947, to November 12, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on November 12, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Bureau of Land Management, Washington 25, D. C. shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and application under the small tract act of June 1, 1938, shall be governed by the regulations contained in Part 257 of that title.

Inquiries concerning these lands shall be addressed to the Director, Bureau of Land Management, Washington 25, D. C.

The lands affected by this notice are described as follows:

CASS COUNTY, MINNESOTA

5TH PRINCIPAL MERIDIAN

T. 140 N., R. 31 W.,
Sec. 24, lots 7 and 8.

The [illegible] described [illegible] 2.39 acres.

The above mentioned plat, based upon the plat approved March 30, 1871, shows the designation and area for frl. sec. 24 which was not shown upon the original plat.

The land is situated at an elevation of one to nine feet above the normal shore line of Birch Lake. The soil is second rate sandy to stony loam supporting a dense growth of mixed timber of no commercial value.

While an application for homestead entry may be considered it is doubtful whether such an application would be allowed, in view of the character of the land and the small area involved.

DEPARTMENT OF LABOR

Wage and Hour Division

[Admn. Order 367]

SPECIAL INDUSTRY COMMITTEE NO. 5 FOR PUERTO RICO

APPOINTMENT TO INVESTIGATE CONDITIONS AND RECOMMEND MINIMUM WAGE RATES

1. By virtue of and pursuant to the authority vested in me by section 5 (c) of the Fair Labor Standards Act of 1938, as amended (Sec. 3 (c), 54 Stat. 615; 29 U. S. C. 205 (c)), I, Wm. R. McComb, Administrator of the Wage and Hour Division, United States Department of Labor, do hereby appoint and convene a special industry committee for Puerto Rico composed of the following representatives:

For the Public

Antonio J. Colorado, Chairman, Rio Piedras, Puerto Rico.
José Laracuente, Rio Piedras, Puerto Rico.
Paul A. Brissenden, Dobbs Ferry, New York.

For the Employers

Filipo L. de Hostos, San Juan, Puerto Rico.
J. A. E. Rodriguez, San Juan, Puerto Rico.
Fernando A. Villamil, San Juan, Puerto Rico.

For the Employees

Francisco Colon-Gordiany, San Juan, Puerto Rico.
Sergio Kulien-Beed, San Juan, Puerto Rico.
Sandalio E. Alonso, San Juan, Puerto Rico.

2. The special industry committee herein created, in accordance with the provisions of the Fair Labor Standards Act, as amended, and regulations promulgated thereunder (29 CFR, Part 511), shall meet beginning on July 14, 1947, at 9 a. m. in the Chamber of Commerce Auditorium, Tetuan Street, San Juan, Puerto Rico, and shall proceed to investigate conditions in the industries in Puerto Rico hereinafter enumerated and recommend to the Administrator minimum wage rates for all employees in said industries in Puerto Rico, who within the meaning of said act are "engaged in commerce or in the production of goods for commerce" excepting employees exempted by virtue of the provisions of section 13 (a) and employees coming under the provisions of section 14. Said special industry committee shall first proceed to investigate conditions and to recommend to the Administrator minimum wage rates for employees in the Sugar Manufacturing Industry, and shall thereafter, in such order as the committee may elect, investigate conditions respecting, and recommend minimum wage rates for, the employees in the Railroad, Railway Express, and Property Motor Transport Industry; Shoe Manufacturing and Allied Industries; Foundry, Machine Shop, and Fabricated Metal Products Industry; Small Leather Goods and Related Products Industry; Artificial Flower Industry; Hooked Rug Industry; Wholesaling, Warehousing, and Other Distribution Industries; Pearl Button Industry; Cigar and Cigarette Industry; Full-Fashioned Hosiery Industry; Vegetable, Fruit and Fruit Juice Canning Industry; and Vegetable Packing Industry.

3. For the purpose of this order these industries are defined as follows:

The Sugar Manufacturing Industry in Puerto Rico. The production of raw sugar, cane juice, molasses and refined sugar, and incidental by-products, and all railroad transportation activities carried on by a producer of any of these products (or by any firm owned or controlled by, or owning and controlling such producer, or by any firm owned or controlled by the parent company of such producer), where the railroad transportation activities are in whole or in part used for the production or shipment of the products of the industry, and any transportation activities by truck or other vehicle performed by a producer of the products of the industry in connection with the production or shipment of such products; *Provided, however,* That the industry shall not include any activity covered by the wage order for the shipping industry in Puerto Rico, or any activity included in the railroad, railway express and property motor transport industry as defined in Administrative Order No. 367, appointing Special Industry Committee No. 5 for Puerto Rico.

Railroad, railway express, and property motor transport industry in Puerto Rico. (a) The industry carried on in Puerto Rico by any railroad carrier under public franchise which holds itself out to the general public to engage in the transportation for compensation of passengers and property in or for commerce or of passengers and property necessary to the production of goods for commerce, and which furnishes transportation service for passengers in an amount not less than $25,000 annually or which derives at least ten percent of its total operating revenues from passenger transportation service.

(b) The industry carried on in Puerto Rico by any railway express company which holds itself out to the general public to engage in the transportation for compensation of property in or for commerce or of property necessary to the production of goods for commerce.

(c) The industry carried on in Puerto Rico consisting of the transportation for compensation by motor vehicle of property in or for commerce or of property necessary to the production of goods for commerce.

This definition supersedes the definition contained in any and all wage orders heretofore issued for other industries in Puerto Rico to the extent that such definitions include activities covered by the definition of this industry.

Shoe manufacturing and allied industries in Puerto Rico. (a) The manufacture or partial manufacture of footwear from any material and by any process except knitting, vulcanizing of the entire article or vulcanizing (as distinct from cementing) of the sole to the upper. The term footwear as used herein includes but without limitation: Athletic shoes, boots, boot tops, burial shoes, custom-made boots and shoes, moccasins, puttees (except spiral puttees), sandals, shoes completely rebuilt in a shoe factory, and slippers.

(b) The manufacture from leather or from any shoe upper material of all cut stock and findings for footwear, including bows, ornaments and trimmings: *Provided however,* That the production of bows, ornaments and trimmings by a manufacturer not otherwise covered by this definition shall not be included.

(c) The manufacture of the following types of cut stock and findings for footwear from any material except from rubber or composition of rubber, molded to shape: Cutsoles, midsoles, insoles, taps, lifts, rands, toplifts, bases, shanks, boxtoes, counters, stays, stripping, sock linings, and heel pads.

(d) The manufacture of heels from any material except molded rubber, but not including the manufacture of wood-heel blocks.

(e) The manufacture of cut upper parts for footwear, including linings, vamps and quarters.

(f) The manufacture of pasted shoe stock.

(g) The manufacture of boot and shoe patterns.

This definition supersedes the definitions contained in any and all wage orders heretofore issued for other industries in Puerto Rico to the extent that such definitions include products or operations covered by the definition of this industry.

Foundry, machine shop, and fabricated metal products industry in Puerto Rico. The manufacture (including repair) of any product or part made wholly or chiefly of metal, and the assembling of such product or part (wherever done) with other products or parts made from any materials other than metal to form any product the chief component of which is metal: *Provided, however,* That there shall be excluded from this industry any product covered by the wage order for the Button, Bead, and Costume Novelty Jewelry Division or the Rosary and Bead Stringing Division of the Metal, Plastics, Machinery, Instrument, Transportation Equipment, and Allied Industries in Puerto Rico, or any product or operation covered by the wage order for the Construction, Business Service, Motion Picture, and Miscellaneous Industries in Puerto Rico.

Small leather goods and related products industry in Puerto Rico. (a) The manufacture from leather, artificial leather, fabric, or similar materials of small leather goods and like articles, such as wallets, billfolds, card cases, key cases, cigarette cases, watch straps, pouches, tie cases, and toilet kits.

(b) The manufacture of baseballs and softballs covered with leather, artificial leather, fabric, or similar material.

(c) The manufacture of buttons made of strips of leather by a handbraiding process.

This definition includes all articles heretofore covered by the definition of the Leather Goods Industry.

Artificial flower industry in Puerto Rico. The manufacture and assembling of artificial flowers, buds, berries, foliage, leaves, fruits, plants, stems and branches.

This definition does not include such products as are not commonly or commercially known as "artificial", such as flowers made by blowing glass, molding plastics, or carving wood. This definition supersedes the definitions contained in any and all wage orders heretofore issued for other industries in Puerto Rico to the extent that such definitions include products or operations covered by the definition of this industry.

Hooked rug industry in Puerto Rico. The manufacture of hooked rugs.

Wholesaling, warehousing, and other distribution industries in Puerto Rico. The wholesaling, warehousing, and other distribution of commodities including, but without limitation, the wholesaling, warehousing, and other distribution activities of jobbers, importers and exporters, manufacturers' sales branches and offices engaged in distributing products manufactured outside of Puerto Rico, industrial distributors, mail order and retail selling establishments, brokers and agents, and public warehouses.

Provided, however, That the definition shall not include the activities of employees who are engaged in wholesaling, warehousing, or other distribution of products manufactured by their employer in Puerto Rico, or any activities covered by a wage order which has been issued for any other industry in Puerto Rico, or any activities included in any other industry defined in Administrative Order No. 367 appointing Special Industry Committee No. 5 for Puerto Rico.

Pearl button industry in Puerto Rico. The manufacture of ocean pearl and other natural shell buttons.

Cigar and cigarette industry in Puerto Rico. The manufacture of cigarettes, cigars, cheroots and little cigars, including the stemming of cigar wrappers or binders by a cigar manufacturer.

Full-fashioned hosiery industry in Puerto Rico. The manufacture of full-fashioned hosiery but not including dyeing, clocking, and other phases of hosiery finishing.

Vegetable, fruit and fruit juice canning industry in Puerto Rico. The canning of vegetables, fruits, and fruit juices.

Vegetable packing industry in Puerto Rico. The handling, grading, packing, and preparing in the raw or natural state of fresh vegetables.

Signed at Washington, D. C., this 16th day of June 1947.

WM. R. MCCOMB,
Administrator.

FEDERAL POWER COMMISSION

[Docket No. G-817]

NEW YORK STATE NATURAL GAS CORP.

ORDER FIXING DATE OF HEARING

Upon consideration of the application filed on November 20, 1946, and amendment thereto filed on April 14, 1947, and as supplemented on May 20, 1947 by New York State Natural Gas Corporation (Applicant), a New York corporation with its principal place of business in New York, New York, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate the following described facilities subject to the jurisdiction of the Commission:

1. To be constructed and placed in operation by December 1, 1947, in the State of Pennsylvania:

(a) A continuous loop line to parallel portions of the existing 12¾ inch high pressure lines Nos. 9 and 10 extending northward from a point in Armstrong County to a point in McKean County, consisting of 35 miles of 12¾ inch pipe line and 55 miles of 14-inch pipe line.

(b) Three 300-horsepower and three 600-horsepower gas engine driven compressors with auxiliary equipment, buildings and coolers at the existing Boom compressor station in Tioga County and changes in piping, valves and fittings in and about the station and adjacent to Boom storage pool.

2. To be constructed and placed in operation by December 1, 1948, in the State of Pennsylvania:

(a) Continuation of the looping proposed for the year 1947 consisting of 24.5 miles of 16-inch loop line extending southward from the southernmost point

of the loop line planned to be built in 1947 to a point in Westmoreland County, and 21 miles of 14-inch loop line extending northward from the northernmost point of the loop line planned to be built in 1947 to a point in McKean County.

(b) 13.4 miles of 16-inch pipe line to connect the north end of Line No. 10 in Hebron Township, Potter County, with the south end of Line No. 14 in Genessee Township, Potter County, at the State Line compressor station where it will also connect with Line No. 12 which leads to Applicant's Sabinsville compressor station.

It appearing to the Commission that: This proceeding is a proper one for disposition under the provisions of Rule 32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure (effective September 11, 1946), Applicant having requested that its application, as amended, be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application and the amendment thereto, including publication in the FEDERAL REGISTER on December 14, 1946, and May 8, 1947, respectively (11 F. R. 14331 and 12 F. R. 3056).

The Commission, therefore, orders that:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held on June 26, 1947, at 9:30 a. m. (e. d. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters of fact and law asserted in the application, as amended, filed in this proceeding: *Provided, however,* That if no request to be heard, or protest, or petition to intervene, raising in the judgment of the Commission an issue of substance, has been filed or allowed, the Commission may, after such hearing, forthwith dispose of the proceeding by order upon consideration of the application, as amended, and the evidence filed therewith and incorporated in the record of the hearing, together with such additional evidence as may be available or as the Commission may require to be filed and incorporated in the record for its consideration.

(B) Interested State commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: June 16, 1947.

By the Commission.

[Docket No. G-878]

INTERSTATE NATURAL GAS CO., INC.

ORDER FIXING DATE OF HEARING

Upon consideration of the application filed March 14, 1947, and supplemental information filed May 13, 1947, in Docket No. G-878 by Interstate Natural Gas Company, Inc. (Applicant), a Delaware corporation with its principal place of business at Monroe, Louisiana, for permission and approval, pursuant to section 7 (b) of the Natural Gas Act, to abandon the following described facilities:

An 8.49 mile section of the 22-inch loop pipe line that has its beginning in Section 32, Township 12 North, Range 8 East, Franklin Parish, Louisiana, 53.5 miles south of DeSiard Compressor Station and ends in Section 8, Township 10 North, Range 8 East, Catahoula Parish, Louisiana, 61.99 miles south of DeSiard Compressor Station and

A 4.8 mile section of the 22-inch loop pipe line that has its beginning in Section 18, Township 10 North, Range 9 East, Catahoula Parish, Louisiana, 66.3 miles south of DeSiard Compressor Station and ends in Section 18, Township 9 North, Range 9 East, Catahoula Parish, Louisiana, 71.1 miles south of DeSiard Compressor Station.

It appearing to the Commission that:

(a) Applicant proposes to abandon the aforesaid loop lines for the reason that they are no longer necessary for the purpose of rendering service to its customers:

(b) This proceeding is a proper one for disposition under the provisions of Rule 32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure (effective September 11, 1946), Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on April 12, 1947 (12 F. R. 2414);

The Commission, therefore, orders that:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held on July 1, 1947, at 9:45 a. m. (e. d. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, N. W., Washington, D. C., concerning the matters of fact and law asserted in the application filed in the above-entitled proceedings: *Provided, however,* If no request to be heard, protest or petition to intervene, raising in the judgment of the Commission an issue of substance, has been filed or allowed prior to the conclusion of the hearing provided for herein, the Commission may then forthwith dispose of the proceeding by order upon consideration of the application and the evidence filed therewith and incorporated in the record of the proceeding, together with such additional evidence as may be made available or as the Commission may require to be filed and incorporated in the record for its consideration.

(B) Interested State Commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: June 16, 1947.

By the Commission.

[Docket No. G-890]

CHICAGO DISTRICT PIPELINE CO.

ORDER FIXING DATE OF HEARING

Upon consideration of the application filed April 18, 1947, in Docket No. G-890, by Chicago District Pipeline Company (Applicant), an Illinois corporation having its principal office in Joliet, Illinois, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to lease from the Peoples Gas Light and Coke Company (Peoples Company), and operate certain natural gas facilities, subject to the jurisdiction of the Commission as fully described in such application, public notice thereof having been published in the FEDERAL REGISTER on May 1, 1947, (12 F. R. 2935-36);

It appearing to the Commission that:

(a) Applicant states in its application that the lease and operation of the described facilities will not change its presently existing natural-gas transportation system or increase its capacity, but will result in improved operating conditions.

(b) This proceeding is a proper one for disposition under the provisions of Rule 32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure (effective September 11, 1946), Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for noncontested hearings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on May 1, 1947 (12 F. R. 2935-36).

The Commission therefore orders that

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held on July 2, 1947, at 9:30 a. m. (e. d. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters of fact and law asserted in the application filed in the above-entitled proceeding: *Provided however,* That if no request to be heard, or protest or petition to intervene raising in the judgment of the Commission an issue of substance, has been filed or allowed prior to the date hereinbefore set for hearing, the Commission may after a non-contested hearing forthwith dispose of the proceeding by order upon consideration of the application and the evidence filed therewith and incorporated in the record of the proceeding, together with such additional evidence as may be available or as the Commission may require to be filed and incorporated in the record for its consideration.

(B) Interested State commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: June 17, 1947.

[Docket No. G-907]

ARKANSAS-OKLAHOMA GAS CO.

NOTICE OF APPLICATION

JUNE 16, 1947.

Notice is hereby given that on June 6, 1947, Arkansas-Oklahoma Gas Company (Applicant), a Delaware corporation having its principal place of business at Fort Smith, Arkansas, filed application with the Federal Power Commission for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate certain natural gas facilities subject to the jurisdiction of the Federal Power Commission, described as follows:

38,000 feet (7.2 miles) of 12¾" O. D. pipeline extending from the Spiro Field, LeFlore County, Oklahoma to a point north of the Town of Spiro, Oklahoma and parallel to an existing 10¾" pipeline.

Applicant represents that the proposed facilities will be used in conjunction with the facilities now in operation for the transportation of natural gas from Oklahome for resale in the Fort Smith, Arkansas area. The proposed facilities are a segment of a contemplated line, 20 miles in length, parallel to an existing 10¾" pipeline. Applicant states that the proposed facilities are required to meet future peak day demands, maintain lower operating pressures and insure against complete curtailment should a break occur in the present pipeline.

Applicant states the over-all capital cost of the proposed facilities will be approximately $122,000. It will be financed solely out of corporate funds.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint, or concurrent hearing, together with the reasons for such request.
